

111TH CONGRESS  
2D SESSION

# H. RES. 1722

Supporting international tiger conservation efforts and the upcoming Global Tiger Summit in St. Petersburg, Russia.

---

## IN THE HOUSE OF REPRESENTATIVES

NOVEMBER 17, 2010

Ms. BORDALLO (for herself, Mr. BROWN of South Carolina, Mr. FALEOMAVAEGA, and Mr. GRIJALVA) submitted the following resolution; which was referred to the Committee on Foreign Affairs, and in addition to the Committee on Natural Resources, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

---

## RESOLUTION

Supporting international tiger conservation efforts and the upcoming Global Tiger Summit in St. Petersburg, Russia.

Whereas wild tiger populations have dwindled from approximately 100,000 at the beginning of the 20th century to as few as 3,200 in 2010, and only approximately 1,000 wild tigers are breeding females;

Whereas tigers now occupy a mere 7 percent of the habitat that tigers historically have occupied;

Whereas poaching, illegal wildlife trade, habitat conversion, depletion of prey base, conflict between humans and wildlife, and other pressures continue to threaten the last wild tigers;

Whereas the remaining tiger habitat in Asia supports some of the richest biodiversity and some of the poorest human populations;

Whereas the remaining tiger habitat benefits local human populations by providing watersheds and buffers against natural disaster and contributing to livelihoods;

Whereas the remaining tiger habitat in Asia represents some of the largest intact storehouses of terrestrial carbon on Earth, containing an average of 3½ times more carbon than areas outside of tiger habitat;

Whereas the tiger, an iconic species worldwide, can act as both a catalyst and a symbol for the conservation of the last great forests of Asia;

Whereas 2010, the “Year of the Tiger” in the Chinese calendar and beyond, presents a global opportunity to commit to halting the decline in tigers and to ensuring the doubling of the numbers of tigers by the next “Year of the Tiger” in 2022;

Whereas the Government of Russia is hosting the Global Tiger Summit in St. Petersburg, Russia, on November 22 through 24, 2010;

Whereas at the Summit, all 13 countries with remaining wild tiger populations are expected to commit to a Global Tiger Recovery Program;

Whereas the remaining tiger habitat is located in remote transnational areas, providing an opportunity for transboundary cooperation among countries with remaining wild tiger populations;

Whereas countries with remaining wild tiger populations need the support and cooperation of the global community to protect and restore wild tiger populations;

Whereas the United States has been a consistent leader in supporting international tiger conservation; and

Whereas strong United States support for remaining wild tiger populations, the Tiger Summit, and the Global Tiger Recovery Program will be central to the success of tiger conservation efforts: Now, therefore, be it

1       *Resolved*, That the House of Representatives—

2               (1) supports the goals of the Tiger Summit, as  
3       such goals reinforce the interests of the United  
4       States in recovering tigers in accordance with the  
5       Endangered Species Act of 1973 (16 U.S.C. 1531 et  
6       seq.), the Rhinoceros and Tiger Conservation Act of  
7       1994 (16 U.S.C. 5301 et seq.), and the Convention  
8       on International Trade in Endangered Species of  
9       Wild Fauna and Flora, done at Washington March  
10      3, 1973 (27 UST 1087; TIAS 8249);

11              (2) supports the efforts of United States Gov-  
12      ernment agencies to prevent poaching of tigers and  
13      to end trafficking in tigers and tiger parts, including  
14      through cooperation with the governments of coun-  
15      tries with remaining wild tiger populations in train-  
16      ing, capacity building, and law enforcement;

17              (3) supports the efforts of the United States  
18      Government to protect tigers in the wild and the  
19      habitat of tigers through direct conservation assist-  
20      ance;

1           (4) acknowledges the important role that tiger  
2           habitats play in conserving biodiversity, securing for-  
3           est carbon, protecting critical watersheds, providing  
4           buffers against natural disasters, and supporting  
5           livelihoods and human well-being in countries with  
6           natural tiger populations;

7           (5) applauds the work of multilateral institu-  
8           tions, governmental, and nongovernmental conserva-  
9           tion and environmental organizations working to re-  
10          cover tiger populations in the wild;

11          (6) commends the government of Russia for its  
12          leadership in hosting the Tiger Summit, which  
13          brings global attention to this important issue and  
14          launches the immediate implementation of National  
15          Tiger Recovery Priorities in each of the 13 countries  
16          with natural tiger populations;

17          (7) reaffirms the commitment of the United  
18          States Government to tiger conservation;

19          (8) encourages the highest level of United  
20          States engagement in the Tiger Summit and in the  
21          outcomes of the Tiger Summit, including the provi-  
22          sion of support to countries with remaining wild  
23          tiger populations in implementing the National Tiger  
24          Recovery Priorities and the Global Tiger Recovery  
25          Program; and

1           (9) urges concerted coordination among all rel-  
2       evant United States agencies to provide support to  
3       countries with remaining wild tiger populations in a  
4       manner that enables United States resources to pro-  
5       vide maximum conservation benefits.
