IN THE SENATE OF THE UNITED STATES

JUNE 3, 2009

Ms. CANTWELL introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

## A BILL

To amend the Public Health Service Act to promote and improve the allied health professions.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Allied Health Reinvest-  
5       ment Act”.

6       **SEC. 2. FINDINGS AND PURPOSE.**

7       (a) FINDINGS.—Congress makes the following find-  
8       ings:

9               (1) The United States Census Bureau and  
10       other reports highlight the increased demand for

1 acute and chronic healthcare services among both  
2 the general population and a rapidly growing aging  
3 portion of the population.

4 (2) The calls for reduction in medical errors, in-  
5 creased patient safety, and quality of care have re-  
6 sulted in an amplified call for allied health profes-  
7 sionals to provide healthcare services.

8 (3) Several allied health professions are charac-  
9 terized by workforce shortages, declining enrollments  
10 in allied health education programs, or a combina-  
11 tion of both factors, and hospital officials have re-  
12 ported vacancy rates in positions occupied by allied  
13 health professionals.

14 (4) Many allied health education programs are  
15 facing significant economic pressure that could force  
16 their closure due to an insufficient number of stu-  
17 dents.

18 (b) PURPOSE.—It is the purpose of this Act to pro-  
19 vide incentives for individuals to seek and complete high  
20 quality allied health education and training and provide  
21 additional funding to ensure that such education and  
22 training can be provided to allied health students so that  
23 the United States healthcare industry will have a supply  
24 of allied health professionals needed to support the health

1 care system of the United States in this decade and be-  
 2 yond.
