

111TH CONGRESS
2D SESSION

S. 3775

To improve prostate cancer screening and treatment, particularly in medically underserved communities, and for other purposes.

IN THE SENATE OF THE UNITED STATES

SEPTEMBER 14, 2010

Mr. TESTER (for himself and Mr. VOINOVICH) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To improve prostate cancer screening and treatment, particularly in medically underserved communities, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Prostate Research,
5 Outreach, Screening, Testing, Access, and Treatment Ef-
6 fectiveness Act of 2010” or the “PROSTATE Act of
7 2010”.

8 **SEC. 2. FINDINGS.**

9 Congress makes the following findings:

1 (1) In 2009, prostate cancer was the second
2 leading cause of cancer death among men.

3 (2) In 2009, more than 190,000 new patients
4 were diagnosed with and more than 27,000 men died
5 from prostate cancer.

6 (3) In 2009, approximately 2,000,000 people in
7 the United States were living with a diagnosis of
8 prostate cancer and its consequences.

9 (4) While prostate cancer generally affects older
10 men, younger men are also at risk of the disease.
11 When prostate cancer appears in early middle age it
12 frequently takes on a more aggressive form.

13 (5) There are significant racial, ethnic, popu-
14 lation, and geographic disparities with respect to
15 prostate cancer in the United States.

16 (6) African-Americans have prostate cancer
17 mortality rates that are more than double the pros-
18 tate cancer mortality rates among Whites.

19 (7) Certain veterans populations may have
20 nearly twice the incidence of prostate cancer than
21 the general population of the United States.

22 (8) Underserved rural and highly rural popu-
23 lations have higher rates of mortality than urban
24 populations.

1 (9) Urologists are specialists who diagnose and
2 treat the vast majority of prostate cancer patients.

3 (10) Investments in basic and translational re-
4 search have proved promising for the prevention, di-
5 agnosis, and treatment of prostate cancer.

6 (11) There are many unanswered questions re-
7 garding prostate cancer.

8 (12) It is not fully understood how much of the
9 known disparities in prostate cancer rates among
10 differing communities are attributable to disease eti-
11 ology, access to care, or education and awareness of
12 matters relating to prostate cancer.

13 (13) The causes of prostate cancer are un-
14 known.

15 (14) There are no treatments that can durably
16 arrest growth or cure prostate cancer once it has
17 metastasized.

18 (15) A significant proportion (approximately 23
19 to 54 percent) of cases of prostate cancer may be
20 clinically indolent or over-diagnosed, resulting in sig-
21 nificant over treatment.

22 (16) Good information regarding how to dif-
23 ferentiate accurately, early on, between aggressive
24 and indolent forms of prostate cancer is generally
25 unavailable, resulting in significant over treatment.

1 (17) More accurate tests for prostate cancer—

2 (A) will minimize the physical, psycho-
3 logical, financial, and emotional trauma that
4 men and their families face; and

5 (B) could increase efficiencies in public
6 and private health care systems that result in
7 the saving of billions of dollars.

8 (18) Treatment of prostate cancer has been
9 identified by the Centers for Medicare and Medicaid
10 Services under the Physician Feedback Program es-
11 tablished under section 1848(n) of the Social Secu-
12 rity Act (42 U.S.C. 1395w-4(n)) as one of eight
13 highest volume, highest cost areas of health care in
14 the United States.

15 **SEC. 3. SENSE OF CONGRESS ON ACCESS TO AND PROVI-**
16 **SION AND COORDINATION OF HEALTH CARE**
17 **FOR DIAGNOSIS AND TREATMENT OF PROS-**
18 **TATE CANCER.**

19 It is the sense of Congress that—

20 (1) innovative and cost-efficient methods to im-
21 prove access to high-quality health care by under-
22 served, rural, and highly rural populations should
23 take advantage of advances in telehealth to diagnose
24 and treat prostate cancer;

1 (2) a coordinated effort between specialists and
2 primary care physicians is essential to provide the
3 most effective diagnosis and treatment plan for pros-
4 tate cancer patients;

5 (3) prostate cancer research and health care
6 programs across Federal agencies should be coordi-
7 nated—

8 (A) to improve transparency and account-
9 ability;

10 (B) to encourage the translation of re-
11 search into practice;

12 (C) to identify and implement best prac-
13 tices; and

14 (D) to foster an integrated and consistent
15 focus on effective prevention, diagnosis, and
16 treatment of prostate cancer.

17 **SEC. 4. INTERAGENCY PROSTATE CANCER COORDINATION**
18 **AND EDUCATION TASK FORCE.**

19 (a) ESTABLISHMENT.—

20 (1) IN GENERAL.—Not later than 180 days
21 after the date of the enactment of this Act, the Sec-
22 retary of Veterans Affairs shall, in conjunction with
23 the Secretary of Defense and the Secretary of
24 Health and Human Services, establish a task force

1 on the coordination of Federal activities relating to
2 prostate cancer.

3 (2) DESIGNATION.—The task force established
4 under paragraph (1) shall be known as the “Inter-
5 agency Prostate Cancer Coordination and Education
6 Task Force” (in this section referred to as the
7 “Task Force”).

8 (b) MEMBERSHIP.—

9 (1) COMPOSITION.—The Task Force shall be
10 composed as follows:

11 (A) Such representatives of the Depart-
12 ment of Veterans Affairs and such program
13 areas of the Department as the Secretary of
14 Veterans Affairs considers appropriate for the
15 purpose of coordinating a uniform Federal mes-
16 sage relating to prostate cancer screening and
17 treatment.

18 (B) Such representatives of the Depart-
19 ment of Defense as the Secretary of Defense
20 considers appropriate for such purpose.

21 (C) Such representatives of the Depart-
22 ment of Health and Human Services as the
23 Secretary of Health and Human Services con-
24 sider appropriate for such purpose, including
25 representatives of the following:

1 (i) The National Institutes of Health.

2 (ii) National research institutes and
3 centers, including the National Cancer In-
4 stitute, the National Institute of Allergy
5 and Infectious Diseases, and the Office of
6 Minority Health.

7 (iii) The Centers for Medicare and
8 Medicaid Services.

9 (iv) The Food and Drug Administra-
10 tion.

11 (v) The Centers for Disease Control
12 and Prevention.

13 (vi) The Agency for Healthcare Re-
14 search and Quality.

15 (vii) The Health Resources and Serv-
16 ices Administration.

17 (2) MEETINGS.—The Task Force shall meet at
18 the call of the Secretary of Veterans Affairs, but not
19 less frequently than twice each year.

20 (c) DUTIES.—

21 (1) SUMMARY OF ADVANCES IN FEDERAL PROS-
22 TATE CANCER RESEARCH.—The Task Force shall
23 develop a summary of advances in prostate cancer
24 research supported or conducted by Federal agencies

1 relevant to the diagnosis, prevention, and treatment
2 of prostate cancer.

3 (2) LIST OF BEST PRACTICES FOR TREATMENT
4 OF PROSTATE CANCER.—The Task Force shall de-
5 velop a list of best practices for treatment of pros-
6 tate cancer that warrant broader adoption in health
7 care programs.

8 (3) SHARE AND COORDINATE.—The Task Force
9 shall share and coordinate information on existing
10 Federal research and health care program activities
11 relating to prostate cancer, including by carrying out
12 the following with respect to such research and
13 health care program activities:

14 (A) Determining how to improve existing
15 research and health care programs.

16 (B) Identifying any gaps in the overall re-
17 search inventory and in health care programs.

18 (C) Identifying opportunities to promote
19 translation of research into practice.

20 (D) Maximizing the impact of existing ef-
21 forts by identifying opportunities for collabora-
22 tion and leveraging of resources in research and
23 health care programs that serve those suscep-
24 tible to or diagnosed with prostate cancer.

1 (4) COMPREHENSIVE STRATEGY AND ADVICE
2 ON SOLICITATION OF PROPOSALS.—The Task Force
3 shall develop a comprehensive interagency strategy
4 on, and advise relevant Federal agencies in, the so-
5 licitation of proposals for collaborative, multidisci-
6 plinary research and health care programs relating
7 to prostate cancer, including proposals to evaluate
8 factors that may be related to the etiology of pros-
9 tate cancer, that would—

10 (A) result in innovative approaches to
11 studying emerging scientific opportunities or
12 eliminating knowledge gaps in research to im-
13 prove the prostate cancer research portfolio of
14 the Federal Government;

15 (B) outline key research questions, meth-
16 odologies, and knowledge gaps;

17 (C) expand the number of research pro-
18 posals and health care programs that involve
19 collaboration between two or more Federal
20 agencies, national research institutes, or na-
21 tional centers, including proposals for Common
22 Fund research described in section 402(b)(7) of
23 the Public Health Service Act (42 U.S.C.
24 282(b)(7)) to improve the prostate cancer re-
25 search portfolio of the Federal Government;

1 (D) expand the number of collaborative,
2 multidisciplinary, and multi-institutional re-
3 search grants relating to prostate cancer; and

4 (E) encourage such collaborations to in-
5 clude coordination with other robust Federal
6 and private health care services research and
7 health care programs that have successfully ad-
8 dressed prostate cancer education, outreach,
9 and awareness among medically underserved
10 populations.

11 (5) COORDINATED MESSAGE.—The Task Force
12 shall develop a coordinated message related to
13 screening and treatment for prostate cancer to be
14 reflected in educational and beneficiary materials for
15 Federal health programs as such materials are up-
16 dated.

17 (6) RECOMMENDATIONS AND REPORT.—

18 (A) IN GENERAL.—Not later than two
19 years after the date of the establishment of the
20 Task Force, the Task Force shall submit to the
21 Secretary of Veterans Affairs, the Secretary of
22 Defense, and the Secretary of Health and
23 Human Services a report on the matters de-
24 scribed in subparagraph (B).

1 (B) MATTERS.—The matters described in
2 this subparagraph are the following:

3 (i) Appropriate changes to research
4 and health care programs of the Federal
5 Government, including recommendations to
6 improve the research portfolio of the De-
7 partment of Veterans Affairs, Department
8 of Defense, National Institutes of Health,
9 and other Federal agencies, to ensure that
10 scientifically based strategic planning is
11 implemented in support of prostate cancer
12 research and health care program prior-
13 ities.

14 (ii) How to ensure that the prostate
15 cancer research and health care program
16 activities of the Department of Veterans
17 Affairs, the Department of Defense, the
18 National Institutes of Health, and other
19 Federal agencies are free of unnecessary
20 duplication.

21 (iii) How to improve public participa-
22 tion in decisions relating to prostate cancer
23 research and health care programs to in-
24 crease the involvement of patient advocacy,
25 community organizations, and medical as-

sociations representing a broad geographical area.

(iv) How best to disseminate information on prostate cancer research and progress achieved by health care programs.

(v) How to expand partnerships between public entities, including Federal agencies, and private entities to encourage collaboration between such entities and agencies in prostate cancer research and health care delivery.

(vi) How to assess any cost savings and efficiencies realized through any activities identified or supported pursuant to this Act and recommending expansion of those activities that have proven most promising for the prevention, diagnosis, and treatment of prostate cancer.

(C) ELEMENTS.—The report required by subparagraph (A) shall include the following:

(i) The recommendations of the Task Force on the matters described in subparagraph (B).

(ii) A prioritized ranking of the recommendations.

1 (iii) A description of the funding nec-
2 essary to carry out each of the rec-
3 ommendations included in the report.

4 (d) APPOINTING EXPERT ADVISORY PANELS.—The
5 Task Force shall appoint expert advisory panels to obtain
6 input and concurrence from individuals and organizations
7 from the medical, research, and health care delivery com-
8 munities with expertise in prostate cancer diagnosis, treat-
9 ment, and research, including practicing urologists, pri-
10 mary care providers, and individuals with expertise in edu-
11 cation and outreach to medically underserved populations.

12 **SEC. 5. PROSTATE CANCER RESEARCH.**

13 (a) PROGRAM ESTABLISHMENT.—The Secretary of
14 Veterans Affairs shall, in coordination with the Secretary
15 of Defense and the Secretary of Health and Human Serv-
16 ices, establish and carry out a program to coordinate and
17 intensify prostate cancer research.

18 (b) PROGRAM ACTIVITIES.—In carrying out the pro-
19 gram required by subsection (a), the Secretary of Veterans
20 Affairs shall—

21 (1) carry out research to develop advances in
22 improved early detection, diagnostic, and prognostic
23 methods and tests, including—

24 (A) biomarkers and an improved prostate
25 cancer screening blood test; and

1 (B) improvements or alternatives to the
2 prostate specific antigen test and additional
3 tests to distinguish indolent from aggressive
4 disease;

5 (2) carry out research to better understand the
6 etiology of prostate cancer to improve prevention ef-
7 forts, including an analysis of—

8 (A) susceptibility and lifestyle factors prov-
9 en to be involved in higher rates of prostate
10 cancer, such as obesity and diet; and

11 (B) the role in which belonging to different
12 ethnic, racial, geographic, and socioeconomic
13 groups, such African-American, Latino, and
14 American Indian populations, as well as those
15 living in rural and highly rural areas, has on
16 the incidence of prostate cancer and mortality
17 from prostate cancer;

18 (3) expand basic research into prostate cancer,
19 including studies of fundamental molecular and cel-
20 lular mechanisms;

21 (4) identify and provide clinical testing of novel
22 agents for the prevention and treatment of prostate
23 cancer;

24 (5) establish clinical registries for prostate can-
25 cer; and

1 (6) utilize the National Institute of Biomedical
2 Imaging and Bioengineering and the National Can-
3 cer Institute for assessment of appropriate imaging
4 services and technologies.

5 (c) MATTERS ADDRESSED.—In carrying out the pro-
6 gram required by subsection (a), the Secretary shall ad-
7 dress the following:

8 (1) The racial, ethnic, and geographic dispari-
9 ties in the incidence and mortality rates of prostate
10 cancer.

11 (2) The barriers, if any, regarding access to
12 care and participation in clinical trials that are spe-
13 cific to racial, ethnic, and other underserved popu-
14 lations.

15 (3) Such outreach and education as the Sec-
16 retary considers necessary to raise awareness of
17 prostate cancer in the communities of racial, ethnic,
18 and other underserved populations.

19 (4) The availability of and utilization of appro-
20 priate imaging services and technologies by racial,
21 ethnic, and other underserved populations.

22 (d) GRANTS FOR ELIGIBLE ENTITIES THAT SERVE
23 MEDICALLY UNDERSERVED POPULATIONS.—The Sec-
24 retary shall carry out the program required by subsection

1 (a) through the award of grants to entities that are eligible
 2 to apply for at least 1 grant under any Federal program.

3 (e) COMPARATIVE EFFECTIVENESS RESEARCH.—In
 4 carrying out the program required by subsection (a), the
 5 Secretary shall integrate and build upon existing knowl-
 6 edge gained from comparative effectiveness research.

7 **SEC. 6. INCORPORATION OF PROSTATE CANCER TREAT-**
 8 **MENT INTO FEDERAL TELEHEALTH PRO-**
 9 **GRAMS.**

10 (a) IN GENERAL.—Whenever practicable, the Sec-
 11 retary of Veterans Affairs, the Secretary of Defense, and
 12 the Secretary of Health and Human Services shall incor-
 13 porate prostate cancer prevention, diagnosis, and treat-
 14 ment for medically underserved populations into the tele-
 15 health programs of the Department of Veterans Affairs,
 16 the Department of Defense, and the Department of
 17 Health and Human Services, respectively.

18 (b) POPULATIONS.—In providing prostate cancer pre-
 19 vention, diagnosis, and treatment via telehealth programs
 20 under this section, the Secretary of Veterans Affairs, the
 21 Secretary of Defense, and the Secretary of Health and
 22 Human Services shall give priority to the provision of such
 23 prevention, diagnosis, and treatment to populations—

24 (1) in medically underserved areas, particularly
 25 areas that include populations consisting predomi-

1 nantly of Indians, Alaska Natives, African-Ameri-
2 cans, Hawaii Natives and other Pacific Islanders,
3 Asians, and Latinos; and

4 (2) in rural and highly rural areas.

5 (c) DELIVERY OF HEALTH CARE.—In providing
6 prostate cancer prevention, diagnosis, and treatment via
7 telehealth programs under this section, the Secretary of
8 Veterans Affairs, the Secretary of Defense, and the Sec-
9 retary of Health and Human Services shall—

10 (1) promote the efficient use of specialist care
11 through better coordination of primary care and
12 physician extender teams in medically underserved
13 areas; and

14 (2) more effectively employ tumor boards to
15 better counsel patients.

16 (d) EVALUATION.—In providing prostate cancer pre-
17 vention, diagnosis, and treatment via telehealth programs
18 under this section, the Secretary of Veterans Affairs, the
19 Secretary of Defense, and the Secretary of Health and
20 Human Services shall evaluate the following:

21 (1) The effectiveness and efficiency of diag-
22 nosing and treating prostate cancer using telehealth
23 services in medically underserved, rural, highly rural,
24 and tribal areas, including the use of tumor boards
25 to facilitate better patient counseling.

1 (2) The collaborative uses of health care profes-
2 sionals and the integration of a range of telehealth
3 and other technologies in the provision of health care
4 in medically underserved communities.

5 (3) The effectiveness of improving the capacity
6 of non-medical providers and non-specialized medical
7 providers to provide health care services for prostate
8 cancer in medically underserved, rural, highly rural,
9 and tribal areas, including—

10 (A) the use of innovative medical home
11 models with collaboration between urologists
12 and primary care physicians; and

13 (B) coordination of care through the effi-
14 cient use of primary care physicians and physi-
15 cian extenders.

16 (e) REPORT.—

17 (1) IN GENERAL.—Not later than five years
18 after the date of the enactment of this Act, the Sec-
19 retary of Veterans Affairs, the Secretary of Defense,
20 and the Secretary of Health and Human Services
21 shall submit to Congress a report on their activities
22 under this section.

23 (2) ELEMENTS.—The report required by para-
24 graph (1) shall include the following:

1 (A) A description of the outcomes of the
2 activities carried out under this section.

3 (B) An assessment of the effectiveness and
4 efficiency of using telehealth services to provide
5 health care in medically underserved commu-
6 nities.

7 (C) The recommendations, if any, of the
8 Secretary concerned as to whether the Federal
9 Government should increase the use of tele-
10 health services to deliver health care to medi-
11 cally underserved communities.

12 (f) DEFINITIONS.—In this section:

13 (1) MEDICAL HOME MODEL.—The term “med-
14 ical home model” means a model of care in which
15 each patient has an ongoing relationship with a per-
16 sonal physician who leads a health care team that
17 includes a specialist and takes collective responsi-
18 bility for patient care. Such team is responsible for
19 providing all the patient’s health care needs and,
20 when needed, arranges for appropriate care with
21 qualified physicians who are not part of such team.

22 (2) PHYSICIAN EXTENDER.—The term “physi-
23 cian extender” means a trained health care profes-
24 sional who provides quasi-autonomous health care

1 under a particular physician's license. Such term in-
2 cludes physician assistants and nurse practitioners.

3 (3) PRIMARY CARE AND PHYSICIAN EXTENDER
4 TEAM.—A “primary care and physician extender
5 team” is the collaboration of a primary care physi-
6 cian and one or more physician extenders working in
7 collaboration with a urologist for the care of the
8 prostate cancer patient.

9 (4) TELEHEALTH.—The term “telehealth”
10 means technology-based professional consultations,
11 patient monitoring, patient training services, clinical
12 observation, assessment, or treatment, and any addi-
13 tional services that utilize technologies specified in
14 the Healthcare Common Procedure Coding System
15 of the Centers for Medicare and Medicaid Services.

16 (5) TUMOR BOARD.—The term “tumor board”
17 means a group of physician experts in a particular
18 disease or condition who convene to discuss a par-
19 ticular case, normally one that is challenging or
20 complex, in order to draw upon the collective exper-
21 tise of the group to reach consensus on a rec-
22 ommended course of treatment.

1 **SEC. 7. NATIONAL EDUCATION CAMPAIGN FOR PROSTATE**
2 **CANCER AWARENESS.**

3 (a) NATIONAL EDUCATION CAMPAIGN REQUIRED.—

4 The Secretary of Veterans Affairs shall carry out a na-
5 tional education campaign to encourage men to seek pros-
6 tate cancer prevention, diagnosis, and treatment when ap-
7 propriate.

8 (b) MANNER.—The Secretary shall carry out the na-
9 tional education campaign required by subsection (a)
10 through the development and distribution of educational
11 materials and through public service announcements in a
12 manner that is consistent with the findings and rec-
13 ommendations of the Interagency Prostate Cancer Coordi-
14 nation and Education Task Force established under sec-
15 tion 4.

16 (c) AVAILABILITY OF EDUCATIONAL MATERIALS AND
17 PUBLIC SERVICE ANNOUNCEMENTS IN COMMUNITIES
18 WITH HIGHER INCIDENCE OF PROSTATE CANCER.—In
19 carrying out the national education campaign required by
20 subsection (a), the Secretary shall ensure that such edu-
21 cational materials and public service announcements re-
22 quired by subsection (b) are more readily available in com-
23 munities with higher than average rates of incidence of
24 prostate cancer and rates of mortality from prostate can-
25 cer.

1 (d) GRANTS.—In carrying out the national education
 2 campaign required by subsection (a), the Secretary shall
 3 award grants to private nonprofit organizations to test al-
 4 ternative outreach and education strategies.

5 **SEC. 8. DEFINITIONS.**

6 In this Act:

7 (1) HIGHLY RURAL.—The term “highly rural”,
 8 with respect to an area, means that the area consists
 9 of a county or counties having a population density
 10 of less than seven persons per square mile.

11 (2) RURAL.—The term “rural”, with respect to
 12 an area, means the area is a rural area as classified
 13 by the Director of the Bureau of the Census.

14 **SEC. 9. AUTHORIZATION OF APPROPRIATIONS.**

15 There is authorized to be appropriated to carry out
 16 this Act, such sums as necessary for each of fiscal years
 17 2012 through 2016.

○
