### 112TH CONGRESS 1ST SESSION

# H. R. 2271

To prohibit the awarding of contracts by the Federal Government to Chinese entities until the People's Republic of China signs the WTO Agreement on Government Procurement.

## IN THE HOUSE OF REPRESENTATIVES

June 22, 2011

Mr. ROYCE (for himself and Mr. CONNOLLY of Virginia) introduced the following bill; which was referred to the Committee on Oversight and Government Reform

# A BILL

To prohibit the awarding of contracts by the Federal Government to Chinese entities until the People's Republic of China signs the WTO Agreement on Government Procurement.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. FINDINGS.
- 4 Congress finds the following:
- 5 (1) The Agreement on Government Procure-
- 6 ment (GPA) is a plurilateral agreement among 41
- 7 members of the World Trade Organization (WTO)

- that provides reciprocal market access for certain
  government procurement projects.
  - (2) Members of the GPA submit schedules containing lists of covered government entities, as well as goods and services that are open to bidding by firms of the other GPA members.
    - (3) The People's Republic of China became an official observer of the GPA committee in February 2002, and formally applied for GPA membership in December 2007, when it submitted its first offer.
    - (4) The United States, along with several other major GPA parties, deemed China's accession bid unacceptable.
    - (5) China submitted a follow-up bid to join the GPA on July 9, 2010, that was viewed as an improvement from its previous offer, but was ultimately unacceptable to all GPA members, in part because the Chinese offer excluded purchases by local and provincial governments as well as stateowned enterprises.
    - (6) Chinese entities continue to be awarded United States Government contracts, despite not being a party to the GPA.

- 1 (7) Concerns remain over China's alleged dis-2 criminatory procurement practices and policies 3 against foreign firms.
  - (8) China estimated its public procurement market at \$110,000,000,000 in 2009.
    - (9) The United States Department of Commerce estimated the Chinese public procurement market could be as high as \$200,000,000,000 or more in its report entitled "Doing Business in China, 2011 Country Commercial Guide for United States Companies".
- 12 (10) The European Chamber of Commerce's re-13 port, "Public Procurement in China: European 14 Business Experiences Competing for Public Con-15 tracts in China" found that "China's overall public 16 procurement market could be worth over 7 trillion 17 RMB. FIEs (Foreign Invested Enterprise) com-18 peting for this market face numerous significant 19 non-market challenges".
- 20 (11) Congress urges the Chinese Government to 21 end these discriminatory practices against United 22 States businesses.

### 23 SEC. 2. PROHIBITION ON GOVERNMENT CONTRACTS.
