To reauthorize and improve the Older Americans Act of 1965, and for
other purposes.

IN THE SENATE OF THE UNITED STATES

SEPTEMBER 19, 2012

Mr. SANDERS (for himself, Mr. BLUMENTHAL, Mr. KERRY, Ms. MIKULSKI, Mr. BEGICH, Mr. AKAKA, Mr. DURBIN, Mrs. GILLIBRAND, Ms. KLOBUCHAR, Mr. LEAHY, Mr. WYDEN, Mr. FRANKEN, Mrs. BOXER, Mr. JOHNSON of South Dakota, Mr. MERKLEY, and Mr. MENENDEZ) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To reauthorize and improve the Older Americans Act of
1965, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Older Americans Act
5 Amendments of 2012”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1 (1) Older adults are the fastest growing seg-
2 ment of the Nation's population, in the Nation's his-
3 tory.

4 (2) Every day, 10,000 Baby Boomers turn 65.

5 (3) One in every 5 of those individuals age 65
6 and older survives on an average of \$7,500 a year.

7 (4) Older adults haven't seen a cost of living
8 adjustment in Federal benefits, including assistance
9 under the Social Security Act, in more than 2 years
10 and will only see a very slight cost of living adjust-
11 ment in those benefits for fiscal year 2012.

12 (5) Federal funding to support older adults and
13 their caregivers has not kept pace with inflation.

14 (6) Only 7 percent of individuals who are food
15 insecure are getting a home-delivered meal.

16 (7) The cost of staying in a nursing home is
17 averaging over \$77,000 per year.

18 (8) The Medicaid program is paying for the
19 majority of nursing home care.

20 (9) States are cutting budgets for Medicaid pro-
21 grams, and the cuts sometimes result in nursing
22 homes dropping older adults off at homeless shel-
23 ters.

24 (10) In 2009, the Department of Justice esti-
25 mated that 14.1 percent of noninstitutionalized older

1 adults in the United States had experienced some
2 form of elder abuse in the past year.

3 (11) Only 1 in 23.5 cases of abuse of older
4 adults is ever reported due to a lack of screening,
5 awareness, and prevention efforts.

6 (12) The mortality rate for older adults who are
7 victims of abuse is 3 times higher than for older
8 adults who are not victims of abuse.

9 (13) The annual financial loss by older adults
10 who are victims of financial abuse, due to that
11 abuse, is estimated to be at least \$2,900,000,000,
12 and steadily increasing.

13 (14) By making significant improvements
14 through the Older Americans Act Amendments of
15 2012, it is possible to improve the lives of millions
16 of older adults, and ensure that they receive all of
17 the supports and services that they need to stay
18 healthy and active in their homes and communities.

7 **SEC. 406. DEMONSTRATION PROGRAM ON CARE COORDINA-**
 8 **TION AND SERVICE DELIVERY.**

9 (a) FINDINGS.—Congress finds the following:

10 (1) As of 2011, more than 35,000,000 Ameri-
 11 cans are aged 65 or older. Sixty-two percent of them
 12 suffer from multiple chronic conditions which require
 13 person-centered, coordinated care that helps them to
 14 live in a home- or community-based setting. In
 15 2007, 42 percent of Americans age 65 or older re-
 16 ported needing assistance performing instrumental
 17 activities of daily living or activities of daily living.

18 (2) Direct-care workers (referred to in this sub-
 19 section as “DCWs”) provide an estimated 70 to 80
 20 percent of the paid hands-on long-term care and per-
 21 sonal assistance received by elders and people with
 22 disabilities or other chronic conditions in the United
 23 States. These workers help their clients bathe, dress,
 24 and negotiate a host of other daily tasks. DCWs are

1 a lifeline for those they serve, as well as for families
2 and friends struggling to provide quality care.

3 (3) Eldercare and disability services positions
4 account for nearly one-third of the 15,000,000
5 health care jobs in the United States. The direct-
6 care workforce alone accounts for more than
7 3,000,000 jobs, expected to grow to more than
8 4,000,000 by 2018.

9 (4) The majority of DCWs are now employed in
10 home and community-based settings, and not in in-
11 stitutional settings such as nursing care facilities or
12 hospitals. By 2018, home and community-based
13 DCWs are likely to outnumber facility workers by
14 nearly 2 to 1.

15 (5) A 2008 Institute of Medicine report, enti-
16 tled “Re-tooling for an Aging America: Building the
17 Health Care Workforce”, called for new models of
18 care delivery and coordination, and dedicated a
19 chapter to the central importance of the direct-care
20 workforce in a “re-tooled” eldercare delivery system.

21 (6) An Institute of Medicine report on the fu-
22 ture of nursing, released in October of 2010, rec-
23 ommended nurses should practice to the full extent
24 of their education and training. The report also
25 states that all health care professionals should work

1 collaboratively in team-based models, and that the
2 goal should be to encourage care models that use
3 every member of the team to the full capacity of his
4 or her training and skills.

5 (7) The Patient Protection and Affordable Care
6 Act (Public Law 111–148) emphasizes the need for
7 improving care and lowering costs by better coordi-
8 nation of care and integration of services, particu-
9 larly for consumers with multiple chronic conditions.
10 This will require developing new models of care for
11 those receiving long-term services and supports.

12 (8) A November 2010 focus group of DCWs ex-
13 amined the concept of an advanced role for this
14 workforce. About half of the participants shared that
15 they care for consumers who do not have any family
16 or other unpaid caregivers present, which often re-
17 quires them to assume an additional role as an advo-
18 cate, with those consumers often turning to them as
19 a source of trusted information and emotional sup-
20 port. All participants agreed that consumers and
21 family members frequently ask them to undertake
22 tasks that they would like to provide, but for which
23 they have not received proper training.

24 (b) PROGRAM.—Part A of title IV of the Older Amer-
25 icans Act of 1965 (42 U.S.C. 3032 et seq.), as amended

1 by section 405, is further amended by adding at the end
 2 the following:

3 **“SEC. 424. DEMONSTRATION PROGRAM ON CARE COORDI-**
 4 **NATION AND SERVICE DELIVERY.**

5 “(a) ESTABLISHMENT OF DEMONSTRATION PRO-

 16 care coordination and service delivery that
 17 thoughtfully and effectively deploy advanced
 18 aides to improve efficiency and quality of care

 21 ties for career advancement through additional
 22 training, an expanded role, and increased com-
 23 pensation.

 25 the term ‘direct-care worker’ has the meaning given

2 fications of the Department of Labor for Home
3 Health Aides [31–1011], Psychiatric Aides [31–

12 necessary hospital readmissions. Under these
13 projects, direct-care workers shall be incorporated as
14 essential members of interdisciplinary care coordina-
15 tion teams.

16 “(2) Two demonstration projects shall focus on
17 maintaining the health and improving the health sta-
18 tus of those with multiple chronic conditions and
19 long-term care needs. Under these projects, direct-
20 care workers shall assist in monitoring health status,
21 ensuring compliance with prescribed care, and edu-
22 cating and coaching the older individual involved and
23 any family caregivers.

24 “(3) Two demonstration projects shall focus on
