3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Concrete Masonry  
5       Products Research, Education, and Promotion Act of  
6       2013”.

7       **SEC. 2. FINDINGS AND DECLARATION OF POLICY.**

8       (a) FINDINGS.—Congress finds the following:

1                   (1) The production of concrete masonry prod-  
2       ucts plays a significant role in the economy of the  
3       United States.

4                   (2) Concrete masonry products are produced by  
5       hundreds of concrete manufacturers and utilized  
6       throughout the United States and foreign countries.

7                   (3) Concrete masonry products move in the  
8       channels of interstate and foreign commerce, and  
9       concrete masonry products that do not move in such  
10      channels of commerce directly burden or affect inter-  
11      state commerce of concrete masonry products.

12                  (4) The concrete masonry products industry  
13      employs thousands of workers and positively impacts  
14      economic stability throughout the United States.

15                  (5) The maintenance and expansion of existing  
16      markets for concrete masonry products and the de-  
17      velopment of new markets is vital to the welfare of  
18      concrete manufacturers in the United States and  
19      those concerned with marketing and using concrete  
20      masonry products as well as the general economic  
21      welfare of the United States.

22                  (6) The concrete masonry products industry  
23      plays a vital role in providing safe, environmentally  
24      sustainable, and economical construction for citizens  
25      of the United States and abroad.

1                         (7) Concrete masonry products are used for the  
2 construction of structures that protect and provide  
3 shelter for citizens during disasters (earthquakes,  
4 floods, hurricanes, tornados, fire, et cetera).

5                         (8) Concrete masonry structures provide energy  
6 efficiencies to reduce American energy demands.

7                         (9) Concrete masonry provides for durable  
8 structures that support sustainability objectives, re-  
9 ducing long-term demands on natural resources.

10                        (10) Concrete masonry products are made  
11 using locally available resources throughout the  
12 United States, reducing transportation and infra-  
13 structure demands.

14                        (11) Concrete masonry products are used to  
15 support the construction of durable and cost-effi-  
16 cient, low-income housing.

17                       (b) PURPOSE.—The purpose of this Act is to author-  
18 ize the establishment of an orderly program for devel-  
19 oping, financing, and carrying out an effective, contin-  
20 uous, and coordinated program of research, education, and
