

113TH CONGRESS  
1ST SESSION

# H. R. 2447

To direct the Committee on Technology under the National Science and Technology Council to develop a national manufacturing competitiveness strategic plan, and for other purposes.

---

## IN THE HOUSE OF REPRESENTATIVES

JUNE 20, 2013

Mr. LIPINSKI (for himself, Mr. KINZINGER of Illinois, Mr. DINGELL, Mr. WOLF, Mr. MICHAUD, Mr. HULTGREN, and Mr. RYAN of Ohio) introduced the following bill; which was referred to the Committee on Science, Space, and Technology, and in addition to the Committees on Energy and Commerce and the Budget, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

---

## A BILL

To direct the Committee on Technology under the National Science and Technology Council to develop a national manufacturing competitiveness strategic plan, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “American Manufac-  
5       turing Competitiveness Act of 2013”.

1   **SEC. 2. NATIONAL MANUFACTURING COMPETITIVENESS**

2                   **STRATEGIC PLAN.**

3       Section 102 of the America COMPETES Reauthor-  
4 ization Act of 2010 (42 U.S.C. 6622) is amended—

5                   (1) in subsection (b), by striking paragraph (7)  
6  and inserting the following:

7                   “(7) develop and update a national manufac-  
8  turing competitiveness strategic plan in accordance  
9  with subsection (c).”; and

10                  (2) by striking subsection (c) and inserting the  
11  following:

12                  “(c) NATIONAL MANUFACTURING COMPETITIVENESS  
13  STRATEGIC PLAN.—

14                  “(1) IN GENERAL.—The Committee shall de-  
15  velop, and update every 4 years, a strategic plan to  
16  improve Government coordination and provide long-  
17  term guidance for Federal programs and activities in  
18  support of United States manufacturing competitive-  
19  ness, including advanced manufacturing research  
20  and development.

21                  “(2) COMMITTEE CHAIRPERSON.—In developing  
22  and updating the strategic plan, the Secretary of  
23  Commerce, or a designee of the Secretary, shall  
24  serve as the chairperson of the Committee.

25                  “(3) GOALS.—The goals of such strategic plan  
26  shall be to—

1               “(A) promote growth, including job cre-  
2               ation, sustainability, and competitiveness, in the  
3               United States manufacturing sector;

4               “(B) support the development of a skilled  
5               manufacturing workforce;

6               “(C) enable innovation and investment in  
7               domestic manufacturing; and

8               “(D) support national security.

9               “(4) CONTENTS.—Such strategic plan shall—

10              “(A) specify and prioritize near-term and  
11              long-term objectives to meet the goals of the  
12              plan, including research and development objec-  
13              tives, the anticipated timeframe for achieving  
14              the objectives, and the metrics for use in assess-  
15              ing progress toward the objectives;

16              “(B) describe the progress made in achiev-  
17              ing the objectives from prior strategic plans, in-  
18              cluding a discussion of why specific objectives  
19              were not met;

20              “(C) specify the role, including the pro-  
21              grams and activities, of each Federal agency in  
22              meeting the objectives of the strategic plan;

23              “(D) describe how the Federal agencies  
24              and federally funded research and development  
25              centers supporting advanced manufacturing re-

1           search and development will foster the transfer  
2           of research and development results into new  
3           manufacturing technologies and United States  
4           based manufacturing of new products and proc-  
5           esses for the benefit of society to ensure na-  
6           tional, energy, and economic security;

7                 “(E) describe how such Federal agencies  
8                 and centers will strengthen all levels of manu-  
9                 facturing education and training programs to  
10                ensure an adequate, well-trained workforce;

11                “(F) describe how such Federal agencies  
12                and centers will assist small- and medium-sized  
13                manufacturers in developing and implementing  
14                new products and processes;

15                “(G) take into consideration and include a  
16                discussion of the analysis conducted under  
17                paragraph (5); and

18                “(H) take into consideration the rec-  
19                ommendations of a wide range of stakeholders,  
20                including representatives from diverse manufac-  
21                turing sectors and companies, academia, exist-  
22                ing Federal advisory committees, such as the  
23                Defense Science Board, the President’s Council  
24                of Advisors on Science and Technology, the  
25                Manufacturing Council established by the De-

5                   “(5) PRELIMINARY ANALYSIS.—

6                   “(A) IN GENERAL.—As part of developing  
7                   such strategic plan, the Committee shall con-  
8                   duct an analysis of factors that impact the com-  
9                   petitiveness and growth of the United States  
10                  manufacturing sector, including—

11                             “(i) research, development, innova-  
12                             tion, technology transfer, and commer-  
13                             cialization activities in the United States;

“(ii) the adequacy of the industrial base for maintaining national security;

“(v) financing, investment, and taxation policies and practices;

1                         “(vii) efforts and policies related to  
2                         manufacturing promotion undertaken by  
3                         competing nations.

4                         “(B) RELIANCE ON EXISTING INFORMA-  
5                         TION.—To the extent practicable, in completing  
6                         the analysis under subparagraph (A), the Com-  
7                         mittee shall use existing information and the re-  
8                         sults of previous studies and reports.

9                         “(d) REPORT.—Not later than 1 year after the date  
10                         of enactment of the American Manufacturing Competitive-  
11                         ness Act of 2013, the Director shall transmit the strategic  
12                         plan developed under subsection (b)(7) to the Committee  
13                         on Commerce, Science, and Transportation of the Senate  
14                         and the Committee on Science, Space, and Technology of  
15                         the House of Representatives and shall transmit subse-  
16                         quent updates to those committees as appropriate.

17                         “(e) REQUIREMENT TO CONSIDER STRATEGY IN THE  
18                         BUDGET.—In preparing the budget for a fiscal year under  
19                         section 1105(a) of title 31, United States Code, the Presi-  
20                         dent shall include information regarding the consistency  
21                         of the budget with the goals and recommendations in-  
22                         cluded in the strategic plan developed under subsection  
23                         (b)(7) applying to that fiscal year.”.
