

113TH CONGRESS
1ST SESSION

H. R. 3013

To reform the National Flood Insurance Program, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

AUGUST 2, 2013

Mr. CASSIDY (for himself, Mr. PALAZZO, Mr. ALEXANDER, Mr. BOUSTANY, Mr. SCALISE, Mr. NUNNELEE, Mr. JONES, and Mr. GRIMM) introduced the following bill; which was referred to the Committee on Financial Services

A BILL

To reform the National Flood Insurance Program, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Home Protection Act
5 of 2013”.

6 **SEC. 2. MAPPING OF NON-STRUCTURAL FLOOD MITIGA-**
7 **TION FEATURES.**

8 Section 100216 of the Biggert-Waters Flood Insur-
9 ance Reform Act of 2012 (42 U.S.C. 4101b) is amended—
10 (1) in subsection (b)(1)(A)—

1 (A) in clause (iv), by striking “and” at the
2 end;

3 (B) by redesignating clause (v) as clause
4 (vi);

5 (C) by inserting after clause (iv) the fol-
6 lowing new clause:

7 “(v) areas that are protected by
8 pumping stations, decertified levees, or
9 non-Federal or non-structural flood protec-
10 tion measures; and”; and

11 (D) in clause (vi) (as so redesignated), by
12 striking “flood control structures” and inserting
13 “flood control structures, pumping stations, de-
14 certified levees, or non-Federal or non-struc-
15 tural flood mitigation measures”; and

16 (2) in subsection (d)(1)—

17 (A) by redesignating subparagraphs (A)
18 through (C) as subparagraphs (B) through (D),
19 respectively; and

20 (B) by inserting before subparagraph (B)
21 (as so redesignated) the following new subpara-
22 graph:

23 “(A) work with States, local communities,
24 and property owners to identify areas and
25 measures described in subsection (b)(1)(A)(v);”.

1 **SEC. 3. APPLYING CIRCULAR WIND MODELS TO FLOOD IN-**
2 **SURANCE RATE MAPS.**

3 Section 100216(b)(3) of the Biggert-Waters Flood
4 Insurance Reform Act of 2012 (42 U.S.C. 4101b(b)(3))
5 is amended—

6 (1) in subparagraph (D), by striking “and” at
7 the end;

8 (2) by redesignating subparagraph (E) as sub-
9 paragraph (F); and

10 (3) by inserting after subparagraph (D) the fol-
11 lowing new subparagraph:

12 “(E) in consultation with the Secretary of
13 the Army, acting through the Chief of Engi-
14 neers, any relevant information that leads to
15 the appropriate use of circular wind models for
16 the application of stillwater elevation calcula-
17 tions; and”.

18 **SEC. 4. HOME IMPROVEMENT FAIRNESS.**

19 Section 1307(a)(2)(E)(ii) of the National Flood In-
20 surance Act of 1968 (42 U.S.C. 4014(a)(2)(E)(ii)) is
21 amended by striking “30 percent” and inserting “50 per-
22 cent”.

23 **SEC. 5. CONSTRUCTION AND RESTORATION OF FLOOD PRO-**
24 **TECTION SYSTEMS.**

25 (a) ADEQUATE PROGRESS ON CONSTRUCTION OF
26 FLOOD PROTECTION SYSTEMS.—Section 1307(e) of the

1 National Flood Insurance Act of 1968 (42 U.S.C.
2 4014(e)) is amended—

3 (1) in the first sentence, by inserting “or recon-
4 struction” after “construction”;

5 (2) in the second sentence, by striking “con-
6 struction of a flood protection system as required
7 herein has been only if” and inserting “construction
8 or reconstruction of a flood protection system has
9 been made only if, based on the present value of the
10 completed system”; and

11 (3) by adding at the end the following new sen-
12 tence: “The Administrator shall not consider the
13 level of Federal funding of or participation in the
14 construction or reconstruction of a flood protection
15 system in determining whether adequate progress on
16 such construction has been made.”.

17 (b) COMMUNITIES RESTORING DISACCREDITED
18 FLOOD PROTECTION SYSTEMS.—Section 1307(f) of the
19 National Flood Insurance Act of 1968 (42 U.S.C.
20 4014(f)) is amended in the first sentence by striking “no
21 longer does so.” and inserting the following: “no longer
22 does so, and shall apply without regard to the level of Fed-
23 eral funding of or participation in the restoration of the
24 flood protection system.”.

1 **SEC. 6. STATE AND LOCAL GOVERNMENT FLEXIBILITY.**

2 The National Flood Insurance Act of 1968 (42
3 U.S.C. 4001 et seq.) is amended by inserting after section
4 1308 the following:

5 **“SEC. 1308A. STATE AND LOCAL GOVERNMENT FLEXI-**
6 **BILITY.**

7 “(a) IN GENERAL.—The Administrator shall issue
8 regulations to establish a means by which a State or local
9 government may, on its own accord or in conjunction with
10 other State or local governments, submit such payments
11 to the Administrator as are necessary to cover part or all
12 of the cost of any premium for any property within the
13 jurisdiction of the State or local government.

14 “(b) RISK PREMIUM RATE.—The Administrator
15 shall, under the regulations issued under subsection (a),
16 require that the amount of any payment from a State or
17 local government under such regulations be consistent
18 with sections 1307 and 1308.”.

19 **SEC. 7. APPROPRIATE CREDIT FOR FLOOD CONTROL**
20 **STRUCTURES.**

21 Section 1360 of the National Flood Insurance Act of
22 1968 (42 U.S.C. 4101) is amended by adding at the end
23 the following:

24 “(k) ACTUAL PROTECTION PROVIDED BY LEVEE
25 SYSTEMS.—The Administrator may not publish a flood in-

1 surance rate map or an update to a flood insurance rate
2 map for an area unless—

3 “(1) the flood insurance rate map or update
4 adequately reflects the level of protection provided
5 by any flood protection system for such area, includ-
6 ing a pumping station, decertified levee, or non-Fed-
7 eral or non-structural flood mitigation measure,
8 against the 100-year frequency flood, regardless of
9 the accreditation status of the flood protection sys-
10 tem; or

11 “(2) the community for which a flood protection
12 system provides protection elects not to provide the
13 data necessary for the Administrator to publish a
14 flood insurance rate map or update that adequately
15 reflects the protection provided by the flood protec-
16 tion system against the 100-year frequency flood.”.

17 **SEC. 8. INTEGRATION OF REVISED LEVEE ANALYSIS AND**
18 **MAPPING PROCEDURES.**

19 Notwithstanding any other provision of law, para-
20 graphs (1) and (2) of section 1307(g) of the National
21 Flood Insurance Act of 1968 (42 U.S.C. 4014(g)) shall
22 have no force or effect with respect to a property until—

23 (1) the Administrator of the Federal Emer-
24 gency Management Agency publishes or updates a
25 flood insurance rate map for the area in which the

1 property is located that adequately reflects the pro-
2 tection provided by any flood protection system for
3 such area, including a pumping station, decertified
4 levee, or non-Federal or non-structural flood mitiga-
5 tion measure, against the 100-year frequency flood,
6 without regard to the accreditation status of the
7 flood protection system; or

8 (2) the community in which such property is lo-
9 cated elects not to provide the data necessary for the
10 Administrator to publish a flood insurance rate map
11 or update that adequately reflects the protection
12 provided by any flood protection system, including a
13 pumping station, decertified levee, or non-Federal or
14 non-structural flood mitigation measure.

15 **SEC. 9. ALTERNATIVE APPROACH FOR ASSESSING AND**
16 **PRICING FLOOD RISK.**

17 It is the sense of the House of Representatives that—

18 (1) there should be established in the House of
19 Representatives a Bipartisan Task Force on Innova-
20 tion in Financing Flood Risk with the primary pur-
21 pose of compiling data and information on innova-
22 tive market-based solutions to make flood insurance
23 more accessible and affordable for all Americans;
24 and

25 (2) such Task Force should—

1 (A) consult with flood risk management
2 stakeholder groups, insurers, reinsurers, State
3 regulators, and financial experts knowledgeable
4 and interested in finding innovative new rate
5 methodologies and approaches to financing
6 flood risk, including insurance risk
7 securitization;

8 (B) compile information on existing risk
9 assessment methodologies that—

10 (i) identify and standardize broader
11 types of risks, hazards, structures, and
12 losses, at a granular level, faced by prop-
13 erty owners and communities, that helps
14 investors, buyers, regulators, and policy-
15 makers finding a methodology to facilitate
16 transparency and liquidity while reducing
17 risk and increasing asset value through the
18 clear reduction of risk uncertainty;

19 (ii) encourage transparency in the de-
20 velopment of Flood Insurance Rate Maps
21 that the Federal Emergency Management
22 Agency uses to assign risk in flood-risk
23 zones;

24 (iii) introduce financial or non-finan-
25 cial risk determination, analysis, and valu-

1 ation of individual mortgages and housing
2 transactions in a unified approach that in-
3 cludes engineering structures and environ-
4 mental risks in the pricing by risk ele-
5 ments of catastrophe-linked products;

6 (iv) integrate different approaches (fi-
7 nancial, actuarial, and engineering) into
8 one pricing framework that complements
9 modern flood risk analysis and captures
10 potential losses as accurately as possible;

11 (v) granulate the risks and value and
12 offer risk-differentiated and risk-specific
13 solutions so that any differentiated risk
14 can be redistributed and diversified in nu-
15 merous ways;

16 (vi) explore transparency indexes that
17 link monetary value to risk disclosure; and

18 (vii) average national catastrophic in-
19 sured losses and appropriately assign
20 weights and risk values to equitably dis-
21 tribute catastrophic, all-peril insurance
22 risk;

23 (C) consider the relationship between new
24 transparent, benchmark pricing of flood insur-
25 ance-linked securitization and structured catas-

1 trophe derivatives that integrates engineering,
2 financial, and actuarial parameters to reduce
3 the cost of mitigating financial losses due to
4 floods;

5 (D) evaluate options for—

6 (i) educating policyholders on methods
7 for risk mitigation;

8 (ii) integrating policyholder and cap-
9 ital market participants, including inves-
10 tors, in the entire risk-financing process to
11 demonstrate or feature specific system
12 measures that increase asset value; and

13 (iii) expressing different ways to
14 incentivize both the financial markets and
15 the individual market participant to update
16 all risk disclosures and risk-remediating
17 actions on an individual basis; and

18 (E) not later than 180 days after the date
19 of the enactment of this Act, report findings,
20 options, and recommendations to the House of
21 Representatives with regard to the consider-
22 ation of future flood-risk analysis and risk inno-
23 vation in pricing.
