IN THE HOUSE OF REPRESENTATIVES

A BILL

To provide for the coverage of medically necessary food under Federal health programs, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Medical Foods Equity
5 Act of 2013”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1 (1) Newborns are screened for inborn errors of
2 metabolism, but treatment for such conditions is not
3 uniformly covered by insurance.

4 (2) Each year approximately 2,550 children in
5 the United States are diagnosed with an inborn
6 error of metabolism disorder, requiring foods modi-
7 fied to be void of the nutrient or nutrients the
8 child's body is incapable of processing, or requiring
9 supplementation with vitamins or amino acids.

10 (3) More than 35 States have passed laws to at
11 least partially address the inequity in coverage for
12 medically necessary foods, critical treatment for such
13 disorders.

14 (4) The cost associated with providing medically
15 necessary foods presents a large financial burden for
16 many families.

17 (5) There is no current cure for inborn errors
18 of metabolism disorders and treatment is necessary
19 during the entire lifespan of the individual.
