A BILL

To promote the domestic development and deployment of clean energy technologies required for the 21st century.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the
5 “Clean Energy Victory Bond Act of 2014”.

6 (b) TABLE OF CONTENTS.—The table of contents for
7 this Act is as follows:

Sec. 1. Short title; table of contents.

Sec. 2. Findings.

TITLE I—CLEAN ENERGY VICTORY BONDS

Sec. 101. Clean Energy Victory Bonds.

1 SEC. 2. FINDINGS.

2 Congress finds the following:

3 (1) There is enormous potential for increasing
4 renewable energy production and energy efficiency
5 installation in the United States.

6 (2) A major barrier to rapid expansion of re-
7 newable energy and energy efficiency is upfront cap-
8 ital costs. Government tax incentives and other as-
9 sistance programs have proven beneficial in encour-
10 aging private sector development, manufacturing
11 and installation of renewable energy and energy effi-
12 ciency projects nationwide. However, these govern-
13 ment incentives are not currently meeting demand
14 from the private sector, and we are not taking full
15 advantage of the potential for clean energy and
16 transportation, as well as energy efficiency in the
17 United States.

1 (3) Other nations, including China and Ger-
2 many are ahead of the United States in manufac-
3 turing and deploying various clean energy tech-
4 nologies, even though the United States invented
5 many of these technologies.

6 (4) Investments in renewable energy and energy
7 efficiency projects in the United States create green
8 jobs for U.S. citizens across the United States. Hun-
9 dreds of thousands of jobs could be created through
10 expanded government support for clean energy and
11 energy efficiency.

12 (5) As Americans choose energy efficiency and
13 clean energy and transportation, it reduces our de-
14 pendence on foreign oil and improves our energy se-
15 curity.

16 (6) Bonds are a low-cost method for encour-
17 aging clean energy, not requiring direct budget allo-
18 cations or expenditures. The projects supported
19 through Clean Energy Victory Bonds will create jobs
20 and business revenues that will increase Federal tax
21 revenues, while simultaneously reducing health and
22 environmental costs incurred by the Federal Govern-
23 ment nationwide.

24 (7) In World War II, over 80 percent of Amer-
25 ican households purchased Victory Bonds to support

1 the war effort, raising over \$185 billion, or over \$2
2 trillion in today's dollars.

3 **TITLE I—CLEAN ENERGY**
4 **VICTORY BONDS**

15 additional issues after the expiration of such 4-year
16 period may not exceed \$50,000,000,000.

17 (f) LAWFUL INVESTMENTS.—Clean Energy Victory
18 Bonds shall be lawful investments, and may be accepted
19 as security for all fiduciary, trust, and public funds, the
20 investment or deposit of which shall be under the author-
21 ity or control of the United States or any officer or officers
