RESOLUTION

Supporting the goals and ideals of October as National Domestic Violence Awareness Month and expressing the sense of the House of Representatives that Congress should continue to raise awareness of domestic violence and its devastating effects on individuals, families, and

communities, and support programs designed to end domestic violence in the United States.

Whereas domestic violence affects people of all ages as well as racial, ethnic, gender, economic, and religious backgrounds;

Whereas females are disproportionately victims as one in four women will experience domestic violence at some point in her life;

Whereas on average, more than three women are murdered by their husbands or boyfriends in the United States every day;

Whereas in 2007, 1,640 women were murdered by an intimate partner, constituting 70 percent of all intimate partner homicides that year;

Whereas women ages 16 to 24 experience the highest rates, per capita, of intimate partner violence;

Whereas 1 out of 3 Native American women will be raped and 6 out of 10 will be physically assaulted in their lifetimes;

Whereas the cost of intimate partner violence exceeds \$5,800,000,000 each year, \$4,100,000 of which is for direct medical and mental health care services;

Whereas one-quarter to one-half of domestic violence victims report that they have lost a job due, at least in part, to domestic violence;

Whereas some landlords deny housing to victims of domestic violence who have protection orders or evict victims of domestic violence for seeking help after a domestic violence incident, such as by calling 911, or who have other indications that they are domestic violence victims;

Whereas 92 percent of homeless women experience severe physical or sexual abuse at some point in their lifetimes;

Whereas approximately 40 to 60 percent of men who abuse women also abuse children;

Whereas at least 10,000,000 children are exposed to domestic violence each year;

Whereas children exposed to domestic violence are more likely to attempt suicide, abuse drugs and alcohol, run away from home, and become a victim of human trafficking;

Whereas one large study found that men exposed to physical abuse, sexual abuse, and adult domestic violence as children were almost four times more likely than other men to have perpetrated domestic violence as adults;

Whereas nearly 1,500,000 high school students nationwide experienced physical abuse from a dating partner;

Whereas 13 percent of teenage girls who have been in a relationship report being hit or hurt by their partners and one in four teenage girls has been in a relationship in which she was pressured by her partner into performing sexual acts;

Whereas adolescent girls who reported dating violence were 60 percent more likely to report one or more suicide attempts in the past year;

Whereas there is a need for middle schools, secondary schools, and post-secondary schools to educate students about the issues of domestic violence, sexual assault, dating violence, and stalking;

Whereas a recently released multi-State study shows that the Nation's domestic violence shelters are addressing vic-

tims' urgent and long-term needs and are helping victims protect themselves and their children;

Whereas a 2012 National Census Survey reported that 64,324 domestic violence victims were served by domestic violence shelters and programs around the Nation in a single day;

Whereas an additional 10,401 people requested help that day, but due to lack of resources, they were unable to be served;

Whereas there is a need to increase funding for programs aimed at intervening and preventing domestic violence in the United States;

Whereas domestic shelters and programs experience increased demands for service, 80 percent report cuts in funding; and

Whereas individuals and organizations that are dedicated to preventing and ending domestic violence should be recognized: Now, therefore, be it
