

113TH CONGRESS
1ST SESSION

S. 1067

To establish within the Department of Education the Innovation Inspiration school grant program, and for other purposes.

IN THE SENATE OF THE UNITED STATES

MAY 23, 2013

Mrs. SHAHEEN (for herself, Mr. REID, Mrs. GILLIBRAND, Ms. KLOBUCHAR, Mr. BEGICH, Mr. COONS, and Mr. FRANKEN) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To establish within the Department of Education the Innovation Inspiration school grant program, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “Innovation Inspiration
5 School Grant Program Act”.

6 SEC. 2. FINDINGS.

7 Congress makes the following findings:

8 (1) According to the National Science Board’s
9 2010 Science and Engineering Indicators, only 5

1 percent of college graduates in the United States
2 major in engineering. In Asia, about 20 percent of
3 all baccalaureate degrees are in engineering and in
4 China about 33 percent of baccalaureate degrees are
5 in engineering.

6 (2) Although 4th graders in the United States
7 score well against international competition, stu-
8 dents in the United States fall near the bottom or
9 dead last by 12th grade in mathematics and science,
10 respectively.

11 (3) Admissions requirements for undergraduate
12 engineering schools include a solid background in
13 mathematics (algebra, geometry, trigonometry, and
14 calculus) and science (biology, chemistry, and phys-
15 ics), in addition to courses in English, social studies,
16 and humanities.

17 (4) According to the Bureau of Labor Statis-
18 tics, overall engineering employment is expected to
19 grow by 11 percent from 2008 through 2018, and,
20 as a group, engineers earn some of the highest aver-
21 age starting salaries among individuals holding bac-
22 calaureate degrees.

23 (5) According to the Department of Labor, en-
24 gineers should be creative, inquisitive, analytical,
25 and detail-oriented. Engineers should be able to

1 work as part of a team and to communicate well,
2 both orally and in writing. Communication abilities
3 are becoming increasingly important as engineers
4 interact more frequently with specialists in a wide
5 range of fields outside engineering.

6 (6) Exposure to project- and problem-based
7 learning, in a competitive team environment, gives
8 9th through 12th graders the skills that they need
9 to be successful in engineering programs of study
10 and engineering careers.

11 (7) According to Brandeis University's Center
12 for Youth and Communities, participants in FIRST
13 Robotics (a nonprofit organization that inspires
14 young people to be science and technology leaders by
15 engaging the young people in mentor-based pro-
16 grams)—

17 (A) are more likely than nonparticipants to
18 attend an institution of higher education on a
19 full-time basis (88 percent versus 53 percent);

20 (B) are nearly 2 times as likely to major
21 in a science or engineering field; and

22 (C) are more than 3 times as likely to have
23 majored specifically in engineering.

24 **SEC. 3. DEFINITIONS.**

25 In this Act:

1 (1) LOCAL EDUCATIONAL AGENCY.—The term
2 “local educational agency” has the meaning given
3 the term in section 9101 of the Elementary and Sec-
4 ondary Education Act of 1965 (20 U.S.C. 7801).

5 (2) LOW-INCOME STUDENT.—The term “low-in-
6 come student” means a student who is eligible for
7 free or reduced price lunch under the Richard B.
8 Russell National School Lunch Act (42 U.S.C. 1751
9 et seq.).

10 (3) SECONDARY SCHOOL.—The term “sec-
11 ondary school” has the meaning given the term in
12 section 9101 of the Elementary and Secondary Edu-
13 cation Act of 1965 (20 U.S.C. 7801).

14 (4) SECRETARY.—The term “Secretary” means
15 the Secretary of Education.

16 (5) STEM.—The term “STEM” means science,
17 technology, engineering (including robotics), or
18 mathematics.

19 (6) NON-TRADITIONAL STEM TEACHING METH-
20 OD.—The term “non-traditional STEM teaching
21 method” means a STEM education method or strat-
22 egy such as incorporating self-directed student learn-
23 ing, inquiry-based learning, cooperative learning in
24 small groups, collaboration with mentors in the field

1 of study, and participation in STEM-related com-
2 petitions.

**3 SEC. 4. INNOVATIVE INSPIRATION SCHOOL GRANT PRO-
4 GRAM.**

5 (a) GOALS OF PROGRAM.—The goals of the Innova-
6 tion Inspiration grant program are—

7 (1) to provide opportunities for local edu-
8 cational agencies to support non-traditional STEM
9 education teaching methods;

10 (2) to support the participation of students in
11 nonprofit STEM competitions;

18 (A) students who are involved in STEM
19 activities; and

(B) other students in the STEM class-
rooms and communities of such educators and
mentors; and

23 (4) to encourage collaboration among students,
24 engineers, and professional mentors.

25 (b) PROGRAM AUTHORIZED.—

1 (1) IN GENERAL.—The Secretary is authorized
2 to award grants, on a competitive basis, to local edu-
3 cational agencies to enable the local educational
4 agencies—

5 (A) to promote STEM in secondary schools
6 and after school programs;

7 (B) to support the participation of sec-
8 ondary school students in non-traditional
9 STEM teaching methods; and

10 (C) to broaden secondary school students'
11 access to careers in STEM.

12 (2) DURATION.—The Secretary shall award
13 each grant under this Act for a period of not more
14 than 5 years.

15 (3) AMOUNTS.—The Secretary shall award a
16 grant under this Act in an amount that is sufficient
17 to carry out the goals of this Act.

18 (c) APPLICATION.—

19 (1) IN GENERAL.—Each local educational agen-
20 cy desiring a grant under this Act shall submit an
21 application to the Secretary at such time, in such
22 manner, and containing such information as the Sec-
23 retary may reasonably require.

1 (2) CONTENTS.—The application shall, at a
2 minimum, include a description of how the local edu-
3 cational agency will—

4 (A) carry out STEM teaching programs
5 that will use a non-traditional STEM teaching
6 method;

7 (B) identify and recruit partners and men-
8 tors—

9 (i) to help carry out the programs de-
10 scribed in subparagraph (A); and

11 (ii) to assist students who participate
12 in such programs, including through tech-
13 nology-supported means;

14 (C) support educators who lead such pro-
15 grams, and participants in such programs,
16 through stipends or other incentives;

17 (D) recruit young women and individuals
18 from populations historically underrepresented
19 in the STEM fields to participate in such pro-
20 grams;

21 (E) identify public and private partners
22 that can support such programs with cash or
23 in-kind contributions;

24 (F) plan for sustaining such programs fi-
25 nancially beyond the grant period; and

(G) evaluate the grant project and the results of the grant project among participating students, including—

(i) comparing students who participate in the grant project to similar students who do not participate; and

(ii) evaluating—

(I) secondary school graduation

rates;

(II) rates of attendance at insti-

tutions of higher education;

(III) the number of students tak-

ing advanced STEM related secondary school classes; and

(IV) the abili

ticipating in the grant project to partner with professional mentors.

(3) PRIORITY.—In awarding grants under this section, the Secretary shall give priority to applications from local educational agencies that propose to carry out activities that target—

(A) a rural or urban school;

(B) a low-performing school or local educational agency; or

(C) a local educational agency or school that serves low-income students.

(d) USES OF FUNDS.—

(A) STEM EDUCATION AND CAREER ACTIVITIES.—Promotion of STEM education and career activities.

10 (B) PURCHASE OF PARTS.—The purchase
11 of parts and supplies needed to support partici-
12 pation in non-traditional STEM teaching meth-
13 ods.

14 (C) TEACHER INCENTIVES AND STI-
15 PENDS.—Incentives and stipends for teachers
16 involved in non-traditional STEM teaching
17 methods outside of their regular teaching du-
18 ties.

(E) ADDITIONAL MATERIALS AND SUPPORT.—Additional materials and support, such as equipment, facility use, technology,

1 broadband access, and other expenses, directly
2 associated with non-traditional STEM teaching
3 and mentoring.

4 (F) EVALUATION.—Carrying out the eval-
5 uation described in subsection (c)(2)(G).

6 (G) OTHER ACTIVITIES.—Carrying out
7 other activities that are related to the goals of
8 the grant program, as described in subsection
9 (a).

10 (2) PROHIBITION.—A local educational agency
11 shall not use grant funds awarded under this Act to
12 participate in any STEM competition that is not a
13 nonprofit competition.

14 (3) ADMINISTRATIVE COSTS.—Each local edu-
15 cational agency that receives a grant under this Act
16 may use not more than 2 percent of the grant funds
17 for costs related to the administration of the grant
18 project.

19 (e) MATCHING REQUIREMENT.—

20 (1) IN GENERAL.—Subject to paragraph (2),
21 each local educational agency that receives a grant
22 under this Act shall secure, toward the cost of the
23 activities assisted under the grant, from non-Federal
24 sources, an amount equal to 50 percent of the grant.

1 The non-Federal contribution may be provided in
2 cash or in kind.

3 (2) WAIVER.—The Secretary may waive all or
4 part of the matching requirement described in para-
5 graph (1) for a local educational agency if the Sec-
6 retary determines that applying the matching re-
7 quirement would result in a serious financial hard-
8 ship or a financial inability to carry out the goals of
9 the grant project.

10 (f) SUPPLEMENT, NOT SUPPLANT.—Grant funds
11 provided to a local educational agency under this Act shall
12 be used to supplement, and not supplant, funds that would
13 otherwise be used for activities authorized under this Act.

14 (g) EVALUATION.—The Secretary shall establish an
15 evaluation program to determine the efficacy of the grant
16 program established by this Act, which shall include com-
17 paring students participating in a grant project funded
18 under this Act to similar students who do not so partici-
19 pate, in order to assess the impact of student participation
20 on—

21 (1) what courses a student takes in the future;
22 and
23 (2) a student's postsecondary study.

24 (h) AUTHORIZATION OF APPROPRIATIONS.—

1 (1) IN GENERAL.—There are authorized to be
2 appropriated to carry out this Act such sums as may
3 be necessary for each of the fiscal years 2014
4 through 2018.

5 (2) LIMITATIONS.—Of the amounts appro-
6 priated under paragraph (1) for a fiscal year, not
7 more than 2 percent shall be used for the evaluation
8 described under subsection (g).
