

113TH CONGRESS  
1ST SESSION

# S. 350

To provide for Federal agencies to develop public access policies relating to research conducted by employees of that agency or from funds administered by that agency.

---

IN THE SENATE OF THE UNITED STATES

FEBRUARY 14, 2013

Mr. CORNYN (for himself and Mr. WYDEN) introduced the following bill; which was read twice and referred to the Committee on Homeland Security and Governmental Affairs

---

## A BILL

To provide for Federal agencies to develop public access policies relating to research conducted by employees of that agency or from funds administered by that agency.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Fair Access to Science  
5 and Technology Research Act of 2013”.

6 **SEC. 2. FINDINGS.**

7       Congress finds that—

8           (1) the Federal Government funds basic and  
9       applied research with the expectation that new ideas

1 and discoveries that result from the research, if  
2 shared and effectively disseminated, will advance  
3 science and improve the lives and welfare of people  
4 of the United States and around the world;

5 (2) the Internet makes it possible for this infor-  
6 mation to be promptly available to every scientist,  
7 physician, educator, and citizen at home, in school,  
8 or in a library; and

9 (3) the United States has a substantial interest  
10 in maximizing the impact and utility of the research  
11 it funds by enabling a wide range of reuses of the  
12 peer-reviewed literature that reports the results of  
13 such research, including by enabling computational  
14 analysis by state-of-the-art technologies.

15 **SEC. 3. DEFINITION OF FEDERAL AGENCY.**

16 In this Act, the term “Federal agency” means an Ex-  
17 ecutive agency as defined under section 105 of title 5,  
18 United States Code.

19 **SEC. 4. FEDERAL RESEARCH PUBLIC ACCESS POLICY.**

20 (a) REQUIREMENT TO DEVELOP POLICY.—

21 (1) IN GENERAL.—Not later than 1 year after  
22 the date of enactment of this Act, each Federal  
23 agency with extramural research expenditures of  
24 over \$100,000,000 shall develop a Federal research

1       public access policy that is consistent with and ad-  
2       vances the purposes of the Federal agency.

3                 (2) COMMON PROCEDURES.—To the extent  
4       practicable, Federal agencies required to develop a  
5       policy under paragraph (1) shall follow common pro-  
6       cedures for the collection and depositing of research  
7       papers.

8                 (b) CONTENT.—Each Federal research public access  
9       policy shall provide for—

10                         (1) submission to the Federal agency of an elec-  
11       tronic version of the author's final manuscript of  
12       original research papers that have been accepted for  
13       publication in peer-reviewed journals and that result  
14       from research supported, in whole or in part, from  
15       funding by the Federal Government;

16                         (2) the incorporation of all changes resulting  
17       from the peer review publication process in the  
18       manuscript described under paragraph (1);

19                         (3) the replacement of the final manuscript  
20       with the final published version if—

21                                 (A) the publisher consents to the replace-  
22       ment; and

23                                 (B) the goals of the Federal agency for  
24       functionality and interoperability are retained;

1                             (4) free online public access to such final peer-  
2                             reviewed manuscripts or published versions as soon  
3                             as practicable, but not later than 6 months after  
4                             publication in peer-reviewed journals;

5                             (5) providing research papers as described in  
6                             paragraph (4) in formats and under terms that en-  
7                             able productive reuse, including computational anal-  
8                             ysis by state-of-the-art technologies;

9                             (6) production of an online bibliography of all  
10                            research papers that are publicly accessible under  
11                            the policy, with each entry linking to the cor-  
12                            responding free online full text; and

13                             (7) long-term preservation of, and free public  
14                            access to, published research findings—

15                                 (A) in a stable digital repository main-  
16                             tained by the Federal agency; or

17                                 (B) if consistent with the purposes of the  
18                             Federal agency, in any repository meeting con-  
19                             ditions determined favorable by the Federal  
20                             agency, including free public access, interoper-  
21                             ability, and long-term preservation.

22                             (c) APPLICATION OF POLICY.—Each Federal re-  
23                             search public access policy shall—

24                                 (1) apply to—

1                             (A) researchers employed by the Federal  
2                             agency whose works remain in the public do-  
3                             main; and

4                             (B) researchers funded by the Federal  
5                             agency;

6                             (2) provide that works described under para-  
7                             graph (1)(A) shall be—

8                             (A) marked as being public domain mate-  
9                             rial when published; and

10                            (B) made available at the same time such  
11                             works are made available under subsection  
12                             (b)(4); and

13                            (3) make effective use of any law or guidance  
14                             relating to the creation and reservation of a Govern-  
15                             ment license that provides for the reproduction, pub-  
16                             lication, release, or other uses of a final manuscript  
17                             for Federal purposes.

18                           (d) EXCLUSIONS.—Each Federal research public ac-  
19                             cess policy shall not apply to—

20                            (1) research progress reports presented at pro-  
21                             fessional meetings or conferences;

22                            (2) laboratory notes, preliminary data analyses,  
23                             notes of the author, phone logs, or other information  
24                             used to produce final manuscripts;

7       (e) PATENT OR COPYRIGHT LAW.—Nothing in this  
8 Act shall be construed to affect any right under the provi-  
9 sions of title 17 or 35, United States Code.

10 (f) REPORT.—

11                   (1) IN GENERAL.—Not later than October 1 of  
12                   each year, the head of each Federal agency shall  
13                   submit a report on the Federal research public ac-  
14                   cess policy of that agency to—

20 (C) the Committee on Science and Tech-  
21 nology of the House of Representatives:

(F) any other committee of Congress of appropriate jurisdiction.

(2) CONTENT.—Each report under this subsection shall include—

(A) a statement of the effectiveness of the Federal research public access policy in providing the public with free online access to papers on research funded by the Federal agency;

(B) the results of a study by the agency of the terms of use applicable to the research papers described in subsection (b)(4), including—

(i) a statement of whether the terms  
use applicable to such research papers  
effective in enabling productive reuse  
computational analysis by state-of-the-  
technologies; and

(ii) an examination of whether such research papers should include a royalty-free copyright license that is available to the public and that permits the reuse of those research papers, on the condition that attribution is given to the author or authors of the research and any others designated by the copyright owner;

(C) a list of papers published in peer-reviewed journals that report on research funded by the Federal agency;

(E) a summary of the periods of time between public availability of each paper in a journal and in the online repository of the Federal agency.
