Whereas the Association of American Veterinary Medical Colleges (AAVMC) is an international academic association that represents all of the accredited schools and colleges of veterinary medicine in the United States and many around the world;

Whereas the profession of veterinary medicine plays a critical role in the health and well-being of society, provides human-quality healthcare for more than 180,000,000 beloved family pets in the United States, fosters the abundance and safety of the Nation's food supply by pro-

Whereas the AAVMC helps advance the standards of excellence in academic veterinary medicine, and makes critical and lasting contributions to the quality of our schools and colleges of veterinary medicine;

Whereas the AAVMC is observing 50 years of public service in 2016 through a broad-based celebration of academic veterinary medicine, an anniversary year designed to celebrate and highlight the critical role our schools and colleges of veterinary medicine play in the well-being of the agricultural, companion animal and organized veterinary medical communities; and

Whereas because the people and animals of the United States benefit substantially as a result of the presence and the contributions of the AAVMC, this anniversary celebration is a timely reminder of the important contributions made by veterinarians in the promotion of human and animal health and well-being in the United States: Now, therefore, be it
