

114TH CONGRESS
1ST SESSION

H. RES. 203

Expressing support for designation of June 2015 as “National Men’s Cancer Awareness Month”.

IN THE HOUSE OF REPRESENTATIVES

APRIL 15, 2015

Mr. HASTINGS (for himself, Mr. RANGEL, Mrs. WATSON COLEMAN, Ms. KELLY of Illinois, Ms. MOORE, Mr. MCGOVERN, Mr. MURPHY of Florida, Ms. WASSERMAN SCHULTZ, Ms. CLARKE of New York, Mrs. LAWRENCE, and Mr. PAYNE) submitted the following resolution; which was referred to the Committee on Energy and Commerce

RESOLUTION

Expressing support for designation of June 2015 as
“National Men’s Cancer Awareness Month”.

Whereas 1 in 2 men will be diagnosed with cancer over the course of their lifetimes;

Whereas according to the Centers for Disease Control and Prevention (CDC), cancer claims the lives of nearly 300,000 men annually in the United States;

Whereas the CDC also reports that the incidence of cancer for men varies by race and ethnicity, with minority men having the highest cancer incidence and mortality rates;

Whereas statistics show that a higher percentage of men will die from cancer than women because they are typically diagnosed at a later stage;

Whereas despite advances in medical technology and research, men continue to live an average of 5 fewer years compared to their female counterparts;

Whereas “National Men’s Health Week”, which is annually celebrated as the week leading up to, and including Father’s Day, was established in 1994 by the United States Congress, to show how simple diagnostic and screening tests can save lives;

Whereas promoting awareness and education about men’s cancer is crucial to improving the health and well-being of men across the Nation, facilitating early detection, improving the prognoses of men who have been diagnosed with the disease, and ultimately preventing further loss of life; and

Whereas June 2015 would be an appropriate month to designate as “National Men’s Cancer Awareness Month”:
Now, therefore, be it

1 *Resolved*, That the House of Representatives—

2 (1) supports the designation of “Men’s Cancer
3 Awareness Month”;

4 (2) encourages the Federal Government, States,
5 localities, and nonprofit organizations to observance
6 the month with appropriate awareness programs and
7 educational activities, with the goal of increasing
8 public knowledge of cancers disproportionately af-
9 fecting men;

1 (3) recognizes the profound toll a diagnosis of
2 cancer has on men, families, and communities and
3 pledges to make its prevention and cure a public
4 health priority; and

5 (4) urges public and private sector efforts to
6 promote awareness, invest in research, and improve
7 treatments for men's cancers.
