

114TH CONGRESS
1ST SESSION

H. RES. 361

Expressing the sense of the House of Representatives concerning the need to explore emerging technologies that are mobile and capable of supplying high volumes of sterile, pathogenic-free water, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JULY 14, 2015

Mr. WILLIAMS submitted the following resolution; which was referred to the Committee on Transportation and Infrastructure, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

RESOLUTION

Expressing the sense of the House of Representatives concerning the need to explore emerging technologies that are mobile and capable of supplying high volumes of sterile, pathogenic-free water, and for other purposes.

Whereas small communities are severely burdened when the Environmental Protection Agency closes their wastewater treatment plants;

Whereas flood waters can disable wastewater and drinking water facilities;

Whereas natural disasters, such as hurricanes, tornadoes, and earthquakes, can leave entire cities without power and, therefore, without potable water; and

Whereas due to the growing population of the United States,
there are more pathogens entering the Nation's water
systems: Now, therefore, be it

1 *Resolved*, That it is the sense of the House of Rep-
2 resentatives that in order to respond to situations in which
3 water systems are closed as a result of Environmental
4 Protection Agency induced shutdowns, disease outbreaks,
5 epidemics, pandemics, or natural disasters, the Environ-
6 mental Protection Agency and the Department of Home-
7 land Security should explore emerging technologies that
8 are mobile and capable of supplying affected communities
9 and hospitals with high volumes of sterile, pathogenic-free
10 water.
