IN THE SENATE OF THE UNITED STATES

SEPTEMBER 14, 2016

Mr. PERDUE (for himself and Mr. LANKFORD) introduced the following bill;  
which was read twice and referred to the Committee on Foreign Relations

---

## A BILL

To ensure transparent enforcement of the Joint  
Comprehensive Plan of Action.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “JCPOA Enforcement  
5 Transparency Act of 2016”.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

8 (1) The United States entered into the Joint  
9 Comprehensive Plan of Action (JCPOA) on July 14,  
10 2015, without the approval of Congress.

1           (2) The JCPOA established the Joint Commis-  
2           sion in Annex IV of the agreement.

3           (3) The JCPOA placed detailed limitations on  
4           components of Iran’s nuclear agreement, and re-  
5           quired those limitations to be met by Implementa-  
6           tion Day, which took place on January 16, 2016.

7           (4) The Joint Commission provided alternate  
8           arrangements regarding some Iranian nuclear stocks  
9           and facilities prior to January 16, 2016.

10          (5) The JCPOA capped Iran’s stockpile of low  
11          enriched uranium (LEU) at 300 kilograms (kg).

12          (6) Iran was granted an exemption to retain  
13          more than 300 kg of LEU by the Joint Commission.

14          (7) The JCPOA required all Iranian uranium  
15          oxide enriched to between 5 percent and 20 percent  
16          to be fabricated into fuel plates for the Tehran Re-  
17          search Reactor or transferred outside of Iran or di-  
18          luted to an enrichment level of 3.67 percent or less.

19          (8) The Joint Commission found near 20 per-  
20          cent LEU in “lab contaminant” that was judged as  
21          unrecoverable.

22          (9) Under the JCPOA, Iran committed to only  
23          develop, acquire, build, or operate hot cells, shielded  
24          cells, or shielded glove boxes with dimensions less  
25          than 6 cubic meters for 15 years.

1           (10) Prior to Implementation Day, the Joint  
2 Commission agreed to allow Iran to continue oper-  
3 ating 19 large hot cells in three Tehran locations  
4 and one Karaj location which are in excess of the 6  
5 cubic meter limitation.

6           (11) In July 2016, the Joint Commission estab-  
7 lished a Technical Working Group to evaluate stocks  
8 of Iranian 3.67 percent LEU and other stocks.

9           (12) Ensuring Iranian compliance with the  
10 JCPOA is tantamount to restricting breakout times  
11 for the development of a nuclear weapon.

12           (13) The current Administration's policy to  
13 maintain secrecy on the decisions of the Joint Com-  
14 mission and its Technical Working Group interferes  
15 in the process of establishing adequate congressional  
16 and public oversight of the JCPOA.

17 **SEC. 3. NOTIFICATION AND JUSTIFICATION REQUIREMENT**

18 **FOR DECISIONS ISSUED BY THE JOINT COM-**

19 **MISSION AND TECHNICAL WORKING GROUP.**

17 making process and a summary of all decisions granted  
18 by the Joint Commission, the Technical Working Group,  
19 or any subsequent working group established under the  
20 auspices of the JCPOA.

23 (1) the United States representative to the  
24 Joint Commission, the Technical Working Group, or  
25 any subsequent working group established under the

1       auspices of the JCPOA should oppose any exemp-  
2       tions or modifications to requirements for Iran  
3       under the JCPOA; and

4               (2) the workings of the Joint Commission, the  
5       Technical Working Group, and any subsequent
