

115TH CONGRESS
1ST SESSION

H. R. 2242

To prohibit drilling in the outer Continental Shelf, to prohibit coal leases on Federal land, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

APRIL 28, 2017

Mr. HUFFMAN (for himself, Mr. CARTWRIGHT, Mr. NADLER, Ms. NORTON, Ms. LEE, Ms. MCCOLLUM, Mr. QUIGLEY, Ms. SCHAKOWSKY, Mr. MCGOVERN, and Mr. RASKIN) introduced the following bill; which was referred to the Committee on Natural Resources

A BILL

To prohibit drilling in the outer Continental Shelf, to prohibit coal leases on Federal land, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Keep It in the Ground
5 Act of 2017”.

6 **SEC. 2. FINDINGS; STATEMENT OF POLICY.**

7 (a) FINDINGS.—Congress finds that—

8 (1) from 1880 through 2014, global tempera-
9 tures have increased by about 0.9 degrees Celsius;

1 (2) the vast majority of global warming that
2 has occurred over the past 50 years was due to
3 human activities, primarily the burning of fossil
4 fuels;

5 (3) emissions of greenhouse gases and atmos-
6 pheric concentrations of greenhouse gases continue
7 to rise, which results in a continued warming trend;

8 (4) global warming already has a significant im-
9 pact on the economy, including the farming, fishing,
10 forestry, and recreation industries;

11 (5) the significant impacts of global warming
12 that are already occurring will be amplified by a
13 global temperature increase of 2 degrees Celsius,
14 which will lead to increased droughts, rising seas,
15 mass extinctions, heat waves, desertification,
16 wildfires, acidifying oceans, significant economic dis-
17 ruption, and security threats;

18 (6) to avoid exceeding 2 degrees Celsius warm-
19 ing, at least 80 percent of carbon from proven fossil
20 fuel reserves must be kept in the ground;

21 (7) the potential emissions resulting from ex-
22 tracting and burning all fossil fuels on Federal land
23 and waters amounts to a significant percentage of
24 the greenhouse gas emissions limit; and

1 (8) ending new leases for fossil fuels will pre-
2 vent the release of 90 percent of the potential emis-
3 sions from Federal fossil fuels.

4 (b) STATEMENT OF POLICY.—It is the policy of the
5 United States that—

6 (1) Federal land and waters should be managed
7 for the benefit of the people of the United States—

8 (A) to avoid the most dangerous impacts
9 of climate change; and

10 (B) to promote a rapid transition to a
11 clean energy economy by keeping fossil fuels in
12 the ground; and

13 (2) the Federal Government should pursue
14 management of Federal land and waters for the ben-
15 efit of the people of the United States by not issuing
16 any new lease or renewing any nonproducing lease
17 for coal, oil, or natural gas in any Federal land or
18 waters.

13 tract.

- 2 shall not be affected.
