2 In this Act:

3 (1) SECRETARY.—The term “Secretary” means

5 (2) URBAN AGRICULTURE.—The term “urban

8 and may include household, school, and community
9 gardens, food bank production sites, urban farms,

18 Congress finds the following:

20 use changes have created pockets of land suitable for
21 urban agriculture.

22 (2) The United States population is increasing
23 at a rate of 0.69 percent annually, and by 2050 it

1 is expected that the United States population will in-
2 crease to 398 million.

3 (3) Despite the United States being an ad-
4 vanced economy, many neighborhoods and commu-
5 nities are categorically food and nutrient short popu-
6 lations.

7 (4) Advances in agricultural practices, tech-
8 nologies, and natural resources make production ag-
9 riculture possible in previously ignored locations in-
10 cluding urban areas that were once cordoned off
11 from agricultural production.

12 (5) There is a disconnect between daily urban
13 life, health outcomes, and food production that
14 urban agriculture can help address.

15 (6) According to the 2012 Census of Agri-
16 culture, approximately 7 percent of all farms in the
17 United States had direct sales of agricultural prod-
18 ucts totaling at least \$1,300,000,000, with the high-
19 est of such sales coming from farms in metropolitan
20 counties or in adjacent rural counties.

21 (7) It is imperative to ensure that advances in
22 urban agriculture be available as a viable option to

24 and to address chronic food and nutrition shortages
25 of communities.
