2D SESSION

H. R. 7036

To amend title 35, United States Code, with respect to actions for patent infringement, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

OCTOBER 5, 2018

Mr. CHABOT introduced the following bill; which was referred to the Committee on the Judiciary, and in addition to the Committee on Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To amend title 35, United States Code, with respect to actions for patent infringement, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-
2 tives of the United States of America in Congress assembled,*

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “Zero Tolerance for
5 Electronics Theft Act” or the “ZTE Theft Act”.

6 SEC. 2. FINDINGS.

7 Congress finds the following:

1 (1) The Federal Bureau of Investigation (FBI)
2 has determined that certain foreign actors pose a se-
3 rious threat to the telecommunications supply chain.

4 (2) Through cyber espionage and other delib-
5 erate acts, billions of dollars in trade secrets, intel-
6 llectual property, and technology are stolen each year
7 from the Federal Government, corporations, and
8 academic institutions.

9 (3) The People's Republic of China (China) is
10 one of the two largest participants in cyber espio-
11 nage.

12 (4) A 2012 report by the Permanent Select
13 Committee on Intelligence of the House of Rep-
14 resentatives found that China exerts cyber espionage
15 capabilities through telecommunications components
16 and systems marketed directly to businesses and
17 other entities in the United States.

18 (5) A 2018 report by the Office of the United
19 States Trade Representative found that Chinese gov-
20 ernment-owned entities were responsible for a sub-
21 stantial number of patent infringements.

22 (6) ZTE Corporation, based in China, dem-
23 onstrates the risks associated with doing business in
24 countries sanctioned by the United States and pro-
25 vides a model, as well as advocates for, the use of

1 shell companies to subvert the export control laws of
2 the United States, explicitly stating that “[t]he big-
3 gest advantage of [this model] is that it is more ef-
4 fective, [because it’s] harder for the U.S. Govern-
5 ment to trace it or investigate the real flow of the
6 controlled commodities.”.

7 (7) United States businesses provide an esti-
8 mated 25 to 30 percent of the components used in
9 products of ZTE Corporation, including smart-
10 phones.

11 (8) The FBI determined that ZTE Corporation
12 sold banned technology to Iran and used the meth-
13 ods discussed in paragraph (6) to mask its trans-
14 action history in an effort to undermine investiga-
15 tions of the Department of Commerce.

16 (9) Since 2008, ZTE Corporation has been the
17 defendant, counterclaimant, or respondent in 722
18 court actions.

19 (10) On March 23, 2017, the Department of
20 Justice stated that “ZTE Corporation has agreed to
21 enter a guilty plea and to pay a \$430,488,798 pen-
22 alty to the United States for conspiring to violate
23 the International Emergency Economic Powers Act
24 by illegally shipping U.S.-origin items to Iran, ob-

1 structing justice and making a material false state-
2 ment.”.

3 (11) ZTE Corporation has also previously
4 reached settlement agreements with the Bureau of
5 Industry and Security of the Department of Com-
6 mmerce and the Office of Foreign Assets Control of
7 the Department of the Treasury.

8 (12) The Bureau of Industry and Security sub-
9 sequently found ZTE Corporation in violation of the
10 settlement agreement with the Bureau due to—

11 (A) falsification of reports and correspond-
12 ence with the Bureau; and

13 (B) failure to discipline all individuals
14 named in the settlement agreement.

15 (13) On March 13, 2018, the Bureau of Indus-
16 try and Security notified ZTE Corporation that the
17 agency would activate a conditionally suspended de-
18 nial order, due to the determination by the agency
19 that ZTE Corporation had continuously made false
20 statements to the United States Government.

21 (14) On June 7, 2018, Secretary of Commerce
22 Wilbur Ross announced that ZTE Corporation—

23 (A) agreed to additional penalties and com-
24 pliance measures which would supplant a prior
25 order of the Bureau; and

5 SEC. 3. SENSE OF CONGRESS.

6 It is the sense of Congress that—

10 (2) ZTE Corporation engages and will continue
11 to engage in the theft of intellectual property to the
12 detriment of businesses in the United States.

13 SEC. 4. INJUNCTION.

14 Section 283 of title 35, United States Code, is
15 amended—

16 (1) by striking “The several courts” and insert-
17 ing the following:
