

115TH CONGRESS  
1ST SESSION

# H. R. 737

To amend the Head Start Act to promote trauma-informed practices, age-appropriate positive behavioral intervention and support, services for young children who have experienced trauma or toxic stress, and improved coordination between Head Start agencies and other programs that serve very young children.

---

## IN THE HOUSE OF REPRESENTATIVES

JANUARY 30, 2017

Ms. CLARK of Massachusetts (for herself and Mr. REED) introduced the following bill; which was referred to the Committee on Education and the Workforce

---

## A BILL

To amend the Head Start Act to promote trauma-informed practices, age-appropriate positive behavioral intervention and support, services for young children who have experienced trauma or toxic stress, and improved coordination between Head Start agencies and other programs that serve very young children.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Caring Start Act of  
5       2017”.

1   **SEC. 2. FINDINGS.**

2       The Congress finds the following:

3           (1) Neglect, hunger, abuse, and other forms of  
4           trauma present significant challenges to young chil-  
5           dren's learning and social-emotional development.

6           (2) Trauma-informed and trauma-sensitive  
7           caregiving is an ideal targeted intervention for vul-  
8           nerable children who experience trauma.

9           (3) A child's development relies significantly on  
10          the development of executive function skills, includ-  
11          ing cognitive flexibility, self-regulation, and effortful  
12          control and attention.

13          (4) Focusing on these skills, even though they  
14          are not obviously academic, is critical in order to im-  
15          prove children's long-term outcomes.

16          (5) Providing high-quality early childhood edu-  
17          cation can protect young children from some of the  
18          most adverse effects of poverty, enable their healthy  
19          development, strengthen their health, and reduce or  
20          mediate toxic stress responses to adverse experi-  
21          ences.

22          (6) Robust support, professional development,  
23          and specialized training for the early education and  
24          care workforce is essential to providing a high-qual-  
25          ity early education to every child.

1 **SEC. 3. AMENDMENTS.**

2       Section 648 of the Head Start Act (42 U.S.C. 9843)

3 is amended—

4           (1) in subsection (a)(3)—

5              (A) in subparagraph (A)—

6                  (i) in clause (ii) by striking “and” at  
7                  the end,

8                  (ii) in clause (iii) by striking “and” at  
9                  the end, and

10                 (iii) by adding at the end the fol-  
11                 lowing:

12                 “(iv) activities that support the imple-  
13                 mentation of evidence-based trauma-in-  
14                 formed practices, age-appropriate positive  
15                 behavioral interventions and supports,  
16                 early childhood mental health consultation,  
17                 and prevention of suspension and expul-  
18                 sion; and

19                 “(v) activities that appropriately in-  
20                 crease the level of coordination between  
21                 Head Start agencies and other programs  
22                 that serve very young children, in order to  
23                 increase the general quality, availability,  
24                 and reliability of services provided; and”;

25              (B) in subparagraph (B)—

3 (ii) in clause (xvi) by striking the pe-  
4 riod at the end and inserting “; and”, and

(iii) by adding at the end the following:

7                     “(xvii) assist Head Start agencies in  
8                     adopting evidence-based approaches to best  
9                     identify and serve children whose experi-  
10                  ences have elicited a toxic stress re-  
11                  sponse.”,

12 (2) in subsection (b)(2)—

15 (B) in subparagraph (G) by striking the  
16 period at the end and inserting a semicolon,  
17 and

(C) by adding at the end the following:

19 “(H) in evidence-based trauma-informed  
20 practices, as well as early childhood mental  
21 health consultation and age-appropriate positive  
22 behavioral interventions and supports; and

“(I) in helping children who have experienced, or are experiencing, trauma or toxic stress.”, and

(3) in subsection (d)(1)—

(A) in subparagraph (G) by striking “and children under 3 years of age, where applicable” and inserting “children who experience trauma, and children under 3 years of age, especially for whom such experiences have caused a toxic stress response, including appropriate training and professional development on evidence-based trauma-informed practices and early childhood mental health consultation”,

(B) by redesignating subparagraph (I) as subparagraph (J), and

(C) by inserting after subparagraph (H) the following:

“(I) Activities designed to prevent suspension and expulsion and to increase utilization of age-appropriate positive behavioral interventions and supports.”.
