RESOLUTION

Supporting the goals and ideals of GLSEN’s 2018 national “Day of Silence” in bringing attention to anti-lesbian, gay, bisexual, transgender, and queer (LGBTQ) name-calling, bullying, and harassment faced by individuals in schools.

Whereas the national “Day of Silence” is a day in which students take a vow of silence to bring attention to the anti-lesbian, gay, bisexual, transgender, and queer name-calling, bullying, and harassment faced by individuals in schools;

Whereas GLSEN is a national nonprofit organization working to create safe and affirming learning environments in primary and secondary schools nationwide, regardless of sexual orientation, gender identity, or gender expression;

Whereas GLSEN designates one day of every April as the national “Day of Silence”;

Whereas hundreds of thousands of students at thousands of schools, domestic and international, have participated in the national “Day of Silence” in past years;

Whereas students experiences of anti-LGBTQ discrimination and harassment are not unique but shared worldwide;

Whereas GLSEN’s 2015 National School Climate Survey illustrates the pervasive harassment and victimization faced by lesbian, gay, bisexual, transgender, and queer students by documenting their experiences within the preceding academic year;

Whereas 70 percent of lesbian, gay, bisexual, and transgender students reported being verbally harassed by their peers at school because of their sexual orientation and 54 percent because of their gender expression;

Whereas 27 percent of lesbian, gay, bisexual, and transgender students reported being physically harassed by their peers at school because of their sexual orientation and 20 percent because of their gender expression;

Whereas nearly 13 percent of lesbian, gay, bisexual, and transgender students reported being physically assaulted

by their peers at school because of their sexual orientation and 9 percent because of their gender expression;

Whereas 57 percent of lesbian, gay, bisexual, and transgender students reported that they felt unsafe in school due to bullying, harassment, and discrimination, and 31.8 percent reported missing at least one entire school day in the preceding month because of safety concerns;

Whereas transgender students were more likely than all other students to report feeling unsafe at school due to bullying, harassment, and discrimination;

Whereas according to the 2015 National Transgender Discrimination Survey, those who identified as transgender or gender nonconforming while in grades K through 12 reported alarming rates of harassment, physical assault, and sexual violence so severe that 17 percent of those surveyed had to leave school;

Whereas student academic performance is affected such that lesbian, gay, bisexual, and transgender students who experienced high levels of verbal harassment because of their sexual orientation or gender expression report a grade point average nearly a half grade lower than those of lesbian, gay, bisexual, and transgender students who experienced low levels of such harassment;

Whereas the presence of supportive staff contributed to a range of positive indicators including fewer reports of missing school, fewer reports of feeling unsafe, greater academic achievement, higher educational aspirations, and a greater sense of school belonging;

Whereas a growing number of States, cities, and local education authorities are adopting laws and policies to prohibit name-calling, bullying, harassment, and discrimina-

tion against students on the basis of their sexual orientation and gender identity or expression; and

Whereas every child should be guaranteed an education free from name-calling, bullying, harassment, and discrimination regardless of their sexual orientation and gender identity or expression: Now, therefore, be it
