

115TH CONGRESS
2D SESSION

S. 2469

To amend the Public Health Service Act to enhance efforts to address antibiotic resistance, and for other purposes.

IN THE SENATE OF THE UNITED STATES

FEBRUARY 28, 2018

Mr. BROWN introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To amend the Public Health Service Act to enhance efforts to address antibiotic resistance, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Strategies to Address
5 Antibiotic Resistance Act” or the “STAAR Act”.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

8 (1) Antibiotic resistance is one of the greatest
9 threats to human health worldwide, necessitating in-
10 creased prevention efforts, antimicrobial stewardship

1 programs and surveillance programs, and research
2 and development of new antibiotics and rapid
3 diagnostics.

4 (2) Since the discovery of antibiotic drugs,
5 these powerful drugs have saved millions of lives and
6 allowed for incredible medical progress. However,
7 antibiotic resistance is accelerated by over- and inap-
8 propriate use of antibiotic drugs by which bacteria,
9 through mutation and other mechanisms, can de-
10 velop resistance to antibiotic drugs.

11 (3) Antibiotic-resistant infections significantly
12 complicate a wide variety of complex medical serv-
13 ices, including chemotherapy to treat cancer, solid
14 organ and bone marrow transplants, joint replace-
15 ments and other surgeries, and care of preterm in-
16 fants and other immunocompromised individuals.

17 (4) According to the Centers for Disease Con-
18 trol and Prevention, each year in the United States
19 at least 2,000,000 people become infected with bac-
20 teria that are resistant to antibiotics and at least
21 23,000 people die as a result of antibiotic-resistant
22 infections. Many more people die from other condi-
23 tions that were complicated by an antibiotic-resistant
24 infection.

1 (5) According to a 2015 report from the New
2 England Journal of Medicine, *Clostridium difficile*
3 infects approximately 500,000 patients in the United
4 States each year, resulting in almost 30,000 deaths
5 and an estimated \$4,800,000,000 in excess health
6 care costs each year. *Clostridium difficile* infections
7 are most common as a result of over-prescribing
8 antibiotics, and antibiotic-resistant strains of *Clos-*
9 tridium *difficile* are on the rise.

10 (6) The Centers for Disease Control and Pre-
11 vention estimate that the annual impact of anti-
12 biotic-resistant infections on the United States econ-
13 omy is more than \$20,000,000,000 in excess direct
14 health care costs. Additional costs to the United
15 States economy for lost productivity from antibiotic-
16 resistant infections may be as great as
17 \$35,000,000,000 per year.

18 (7) Data from the Centers for Disease Control
19 and Prevention indicate that at least 30 percent of
20 antibiotic drugs used in hospitals are unnecessary or
21 prescribed incorrectly. Similarly, the Centers for
22 Disease Control and Prevention estimate that ap-
23 proximately 30 percent of antibiotic drugs prescribed
24 in outpatient clinics are unnecessary and that ap-
25 proximately 40 percent of orders for antibiotic drugs

1 in nursing homes lacked important prescribing infor-
2 mation. Thus, improvements in prescribing antibiotic
3 drugs are necessary across health care settings.

4 (8) The National Action Plan for Combating
5 Antibiotic-Resistant Bacteria, published in March
6 2015, in response to Executive Order 13676 of Sep-
7 tember 18, 2014 (79 Fed. Reg. 56931; relating to
8 combating antibiotic-resistant bacteria), outlines the
9 domestic and international efforts to be conducted
10 by the United States to prevent, detect, and control
11 illness and death related to infections caused by an-
12 tibiotic-resistant bacteria.

13 **SEC. 3. COMBATING ANTIMICROBIAL RESISTANCE.**

14 Section 319E of the Public Health Service Act (42
15 U.S.C. 247d–5) is amended—

16 (1) in subsection (a)—

17 (A) in paragraph (1), in the first sentence,
18 by striking “and coordinate Federal programs
19 relating to antimicrobial resistance” and insert-
20 ing “relating to antimicrobial resistance, coordi-
21 nate Federal programs relating to antimicrobial
22 resistance, and implement the objectives of the
23 National Action Plan for Combating Antibiotic-
24 Resistant Bacteria, published in March 2015 in
25 response to Executive Order 13676 of Sep-

tember 18, 2014 (79 Fed. Reg. 56931; relating to combating antibiotic-resistant bacteria) (referred to in this section as the ‘Action Plan’));

(B) by amending paragraph (2) to read as follows:

“(2) MEMBERS OF TASK FORCE.—The task force described in paragraph (1) shall be co-chaired by the Secretary of Health and Human Services, the Secretary of Agriculture, and the Secretary of Defense, and shall be composed of representatives of relevant Federal agencies and such executive departments, agencies, or offices as the co-chairs may designate.”;

(C) by amending paragraph (4) to read as follows:

“(4) MEETINGS.—At least twice a year, the task force described in paragraph (1) shall have a public meeting to assess progress and obstacles to implementing the objectives of the Action Plan. The task force may discuss and review based on need or concern the following (among other issues):

“(A) Federal activities to slow the emergence of antimicrobial-resistant bacteria and prevent the spread of resistant infections. Such activities may include optimal use of vaccines

1 and other infection control measures to prevent
2 infections, implementation of health care poli-
3 cies and antimicrobial stewardship programs
4 that improve patient outcomes, regional efforts
5 to control transmission across community and
6 health care settings, and public awareness cam-
7 paigns.

8 “(B) Federal activities to strengthen na-
9 tional One-Health surveillance efforts, which
10 are efforts addressing the interactions between
11 human, animal, and environmental health, to
12 combat antibiotic resistance. One-Health sur-
13 veillance efforts to combat antibiotic resistance
14 may include enhanced data sharing and coordi-
15 nation of surveillance and laboratory systems
16 across human and animal settings, and en-
17 hanced monitoring of sales, usage, resistance,
18 and management practices of antibiotic drugs
19 along the food-production chain. Such surveil-
20 lance and laboratory systems may include the
21 National Healthcare Safety Network, the
22 Emerging Infections Program, the National
23 Antimicrobial Resistance Monitoring System,
24 the National Animal Health Monitoring Sys-
25 tem, the National Animal Health Laboratory

1 Network, the Veterinary Laboratory Investiga-
2 tion and Response Network, and the Antibiotic
3 Resistance Laboratory Network.

4 “(C) Federal efforts to advance the devel-
5 opment and use of rapid and innovative diag-
6 nostic tests for identification and characteriza-
7 tion of antibiotic-resistant bacteria. Such efforts
8 may include development of new diagnostic
9 tests and expansion of their availability and use
10 to improve treatment, infection control, and
11 outbreak response.

12 “(D) Federal efforts to accelerate basic
13 and applied research and development for new
14 antibiotic drugs, other therapeutics, prevention
15 efforts, and vaccines. Such efforts may include
16 support for basic and applied research, provi-
17 sion of scientific services and guidance to re-
18 searchers, and fostering of public-private part-
19 nerships.

20 “(E) Federal efforts to improve inter-
21 national collaboration and capacities for anti-
22 biotic-resistance prevention, surveillance, and
23 control and antibiotic research and develop-
24 ment. Such efforts may include collaborations
25 with foreign ministries of health and agri-

1 culture, the World Health Organization, the
 2 Food and Agriculture Organization, the World
 3 Organization for Animal Health, and other mul-
 4 tinational organizations.”; and

5 (D) by adding at the end the following:

6 “(5) AVAILABILITY OF INFORMATION.—The
 7 task force described in paragraph (1), to the extent
 8 permitted by law, shall—

9 “(A) provide the Advisory Council defined
 10 in section 319E–1(a) with such information as
 11 may be required for carrying out the functions
 12 of such Advisory Council, including information
 13 on progress in advancing the Action Plan, meet-
 14 ing minutes, and other key information of the
 15 task force; and

16 “(B) ensure that all information described
 17 in subparagraph (A) is made available on the
 18 websites of the Department of Health and
 19 Human Services, the Department of Agri-
 20 culture, and the Department of Defense.”;

21 (2) in subsection (h)—

22 (A) in the heading, by striking “INFORMA-
 23 TION RELATED TO”;

24 (B) by striking “The Secretary” and in-
 25 serting the following:

1 “(1) DISSEMINATION OF INFORMATION.—The
2 Secretary”; and

3 (C) by adding at the end the following:

4 “(2) ENCOURAGING ANTIMICROBIAL STEWARD-
5 SHIP PROGRAMS.—The Secretary shall encourage
6 health care facilities to establish antimicrobial stew-
7 ardship programs that are consistent with docu-
8 ments issued by the Centers for Disease Control and
9 Prevention relating to the core elements of anti-
10 microbial stewardship programs.

11 “(3) DEFINITION OF ANTIMICROBIAL STEWARD-
12 SHIP.—For purposes of this section, the term ‘anti-
13 microbial stewardship’ means coordinated interven-
14 tions designed to improve and evaluate the appro-
15 priate use of antimicrobial agents, including pro-
16 moting the use of antimicrobial drugs only when
17 clinically indicated, and, when antimicrobial drugs
18 are clinically indicated, promoting the selection of
19 the optimal antimicrobial drug regimen, including
20 through factors such as dosage, duration of therapy,
21 and route of administration.”;

22 (3) in subsection (m), by striking
23 “\$40,000,000” and all that follows through the pe-
24 riod at the end and inserting “such sums as may be

1 necessary for each of fiscal years 2018 through
2 2024.”; and

3 (4) by adding at the end the following:

4 “(n) ANNUAL REPORT ON IMPLEMENTING THE AC-
5 TION PLAN OBJECTIVES.—Not later than 1 year after the
6 date of the enactment of the Strategies to Address Anti-
7 biotic Resistance Act, and annually thereafter, the Sec-
8 retary, in cooperation with the Secretary of Agriculture,
9 the Secretary of Defense, and the task force described in
10 subsection (a), shall submit to the Committee on Health,
11 Education, Labor, and Pensions of the Senate and the
12 Committee on Energy and Commerce of the House of
13 Representatives, and make available on the websites of the
14 Department of Health and Human Services, the Depart-
15 ment of Agriculture, and the Department of Defense, a
16 report on the progress made in implementing the objec-
17 tives of the Action Plan.”.

18 **SEC. 4. ADDITIONAL STRATEGIES FOR COMBATING ANTI-**
19 **BIOTIC RESISTANCE.**

20 Part B of title III of the Public Health Service Act
21 (42 U.S.C. 243 et seq.) is amended by inserting after sec-
22 tion 319E the following:

23 **“SEC. 319E-1. PRESIDENTIAL ADVISORY COUNCIL ON COM-**
24 **BATING ANTIBIOTIC-RESISTANT BACTERIA.**

25 “(a) DEFINITIONS.—In this section:

1 “(1) ACTION PLAN.—The term ‘Action Plan’
2 means the Action Plan described in section
3 319E(a)(1).

4 “(2) ADVISORY COUNCIL.—The term ‘Advisory
5 Council’ means the Presidential Advisory Council on
6 Combating Antibiotic-Resistant Bacteria established
7 by Executive Order 13676 of September 18, 2014
8 (79 Fed. Reg. 56931; relating to combating anti-
9 biotic-resistant bacteria).

10 “(3) NATIONAL STRATEGY.—The term ‘Na-
11 tional Strategy’ means the National Strategy for
12 Combating Antibiotic-Resistant Bacteria issued by
13 the White House in September 2014, and any subse-
14 quent update to such strategy or a successor strat-
15 egy.

16 “(b) ADVISORY COUNCIL.—The Advisory Council
17 shall provide advice, information, and recommendations to
18 the Secretary regarding programs and policies intended to
19 support and evaluate the implementation of Executive
20 Order 13676 of September 18, 2014 (79 Fed. Reg. 56931;
21 relating to combating antibiotic-resistant bacteria), includ-
22 ing the National Strategy, and the Action Plan.

23 “(c) MEETINGS AND DUTIES.—

24 “(1) MEETINGS.—The Advisory Council shall
25 meet as the Chair determines appropriate but not

1 less than twice per year, and, to the extent prac-
2 ticable, in conjunction with meetings of the task
3 force described in section 319E.

4 “(2) RECOMMENDATIONS.—The Advisory Coun-
5 cil shall make recommendations to the Secretary, in
6 consultation with the Secretary of Agriculture and
7 the Secretary of Defense, regarding programs and
8 policies intended to—

9 “(A) preserve the effectiveness of anti-
10 biotics by optimizing their use;

11 “(B) advance research to develop improved
12 methods for combating antibiotic resistance and
13 conducting antimicrobial stewardship, as de-
14 fined in section 319E(h)(3);

15 “(C) strengthen surveillance of antibiotic-
16 resistant bacterial infections;

17 “(D) prevent the transmission of anti-
18 biotic-resistant bacterial infections;

19 “(E) advance the development of rapid
20 point-of-care and agricultural diagnostics;

21 “(F) further research on new treatments
22 for bacterial infections;

23 “(G) develop alternatives to antibiotics for
24 animal health purposes;

1 “(H) maximize the dissemination of up-to-
 2 date information on the appropriate and proper
 3 use of antibiotics to the general public and
 4 human and animal health care providers; and
 5 “(I) improve international coordination of
 6 efforts to combat antibiotic resistance.

7 **“SEC. 319E-2. SURVEILLANCE AND REPORTING OF ANTI-**
 8 **BIOTIC USE AND RESISTANCE.**

9 “(a) IN GENERAL.—The Secretary, acting through
 10 the Director of the Centers for Disease Control and Pre-
 11 vention, shall use the National Healthcare Safety Network
 12 and other appropriate surveillance systems to assess—

13 “(1) appropriate conditions, outcomes, and
 14 measures causally related to antibacterial resistance,
 15 including types of infections, the causes for infec-
 16 tions, and whether infections are acquired in a com-
 17 munity or hospital setting, increased lengths of hos-
 18 pital stay, increased costs, and rates of mortality;
 19 and

20 “(2) changes in bacterial resistance to drugs in
 21 relation to patient outcomes, including changes in
 22 percent resistance, prevalence of antibiotic-resistant
 23 infections, and other such changes.

24 “(b) ANTIBIOTIC USE DATA.—The Secretary, acting
 25 through the Director of the Centers for Disease Control

1 and Prevention, shall work with Federal agencies (includ-
2 ing the Department of Veterans Affairs, the Department
3 of Defense, and the Centers for Medicare & Medicaid
4 Services), private vendors, health care organizations, phar-
5 macy benefit managers, and other entities as appropriate
6 to obtain reliable and comparable human antibiotic drug
7 consumption data (including, as available and appropriate,
8 volume antibiotic distribution data and antibiotic use data,
9 including prescription data) by State or metropolitan
10 areas.

11 “(c) ANTIBIOTIC RESISTANCE TREND DATA.—The
12 Secretary, acting through the Director of the Centers for
13 Disease Control and Prevention, shall intensify and ex-
14 pand efforts to collect antibiotic resistance data and en-
15 courage adoption of the antibiotic resistance and use mod-
16 ule within the National Healthcare Safety Network among
17 all health care facilities across the continuum of care, in-
18 cluding, as appropriate, acute care hospitals, dialysis fa-
19 cilities, nursing homes, and ambulatory surgical centers.
20 The Secretary shall seek to collect such data from elec-
21 tronic medication administration reports and laboratory
22 systems to produce the reports described in subsection (d).

23 “(d) PUBLIC AVAILABILITY OF DATA.—The Sec-
24 retary, acting through the Director of the Centers for Dis-
25 ease Control and Prevention, shall, for the purposes of im-

1 proving the monitoring of important trends in patient out-
 2 comes in relation to antibacterial resistance—

3 “(1) make the data derived from surveillance
 4 under this section publicly available through reports
 5 issued on a regular basis that is not less than annu-
 6 ally; and

7 “(2) examine opportunities to make such data
 8 available in near real time.

9 **“SEC. 319E-3. DETECTING NETWORK OF ANTIBIOTIC RE-**
 10 **SISTANCE REGIONAL LABORATORIES.**

11 “(a) IN GENERAL.—The Secretary, acting through
 12 the Director of the Centers for Disease Control and Pre-
 13 vention, shall establish not less than 7 Antibiotic Resist-
 14 ance Surveillance and Laboratory Network sites, building
 15 upon the intramural and extramural programs and labora-
 16 tories of the Centers for Disease Control and Prevention,
 17 to intensify, strengthen, and expand the national capacity
 18 to—

19 “(1) monitor the emergence and changes in the
 20 patterns of antibiotic-resistant bacteria;

21 “(2) describe, confirm, and, as necessary, facili-
 22 tate a response to, local or regional outbreaks of re-
 23 sistant bacteria;

1 “(3) assess and describe antibiotic resistance
2 patterns to inform public health and improve preven-
3 tion practices;

4 “(4) obtain isolates of pathogens, and in par-
5 ticular, bacteria that show new or atypical patterns
6 of resistance adversely affecting public health;

7 “(5) assist in studying the epidemiology of in-
8 fections from such pathogens;

9 “(6) evaluate commonly used antibiotic suscep-
10 tibility testing methods to improve the accuracy of
11 resistance testing and reporting;

12 “(7) as necessary, develop or evaluate novel di-
13 agnostic tests capable of detecting new or emerging
14 resistance in bacteria;

15 “(8) link data generated by regional laboratory
16 networks under existing public health surveillance
17 networks and relevant government agencies; and

18 “(9) provide laboratory assistance and reference
19 testing of antibiotic-resistant bacteria to enhance in-
20 fection control and facilitate outbreak detection and
21 response in health care and community settings.

22 “(b) GEOGRAPHIC DISTRIBUTION.—The sites estab-
23 lished under subsection (a) shall be geographically distrib-
24 uted across the United States.

1 “(c) NONDUPLICATION OF CURRENT NATIONAL CA-
 2 PACITY.—The sites established under subsection (a) may
 3 be based in academic centers, health departments, and ex-
 4 isting surveillance and laboratory sites.

5 **“SEC. 319E-4. CLINICAL TRIALS NETWORK ON ANTI-
 6 BACTERIAL RESISTANCE.**

7 “(a) IN GENERAL.—The Secretary, acting through
 8 the Director of the National Institute of Allergy and Infec-
 9 tious Diseases, shall maintain a Clinical Trials Network
 10 on Antibacterial Resistance to enhance, strengthen, and
 11 expand research on clinical science, antibacterial and diag-
 12 nostic development, and optimal usage strategies with re-
 13 spect to addressing antibacterial resistance. Such Network
 14 shall, at a minimum—

15 “(1) facilitate research to better understand re-
 16 sistance mechanisms and how to prevent, control,
 17 and treat resistant organisms;

18 “(2) advance clinical trial efforts to develop
 19 antibiotics diagnostics, and evaluate and optimize
 20 the usage of such antibiotics diagnostics;

21 “(3) conduct clinical research to develop natural
 22 histories of resistant infectious diseases;

23 “(4) examine patient outcomes with currently
 24 available antibiotic therapy and validate and improve
 25 upon biomarkers and other surrogate endpoints; and

1 “(5) study shorter treatment duration and early
2 cessation of antibiotic therapy for treatment efficacy
3 and the effect on development of resistance.

4 “(b) AUTHORIZATION OF APPROPRIATIONS.—There
5 are authorized to be appropriated to carry out this section
6 such sums as may be necessary for each of fiscal years
7 2018 through 2024.

8 **“SEC. 319E-5. REGIONAL PREVENTION COLLABORATIVE EF-**
9 **FORTS.**

10 “(a) IN GENERAL.—The Secretary, acting through
11 the Director of the Centers for Disease Control and Pre-
12 vention, shall work with State and local health depart-
13 ments to support the expansion of collaborative efforts by
14 groups of health care facilities that focus on preventing
15 the spread of antibiotic-resistant bacteria that pose a seri-
16 ous threat to public health, and that are designed to inter-
17 rupt and prevent the transmission of significant antibiotic-
18 resistant pathogens being transmitted across health care
19 settings in a geographic region. Such collaborative efforts
20 shall—

21 “(1) identify significant drug resistant patho-
22 gens being transmitted across health care settings
23 locally;

24 “(2) implement evidence-based interventions to
25 interrupt the transmission of antibiotic-resistant

1 strains of bacteria and prevent the infections caused
2 by such bacteria, including evidence-based trans-
3 mission prevention guidelines, rigorous hand-hygiene
4 protocols, and infection control and prevention meas-
5 ures;

6 “(3) assess compliance and identify barriers to
7 adherence to such measures;

8 “(4) evaluate the impact of such measures, to
9 the extent possible, on hospital readmissions in
10 health care facilities across the continuum of care,
11 rates of health care associated infections, or any
12 other relevant measures that characterize the health
13 or economic impact of the collaborative efforts; and

14 “(5) provide recommendations for improved
15 outcomes and compliance with such measures.

16 “(b) PREVENTION EPICENTERS.—

17 “(1) EXPANSION.—The Secretary, acting
18 through the Director of the Centers for Disease
19 Control and Prevention, may intensify and expand
20 academic public health partnerships through the
21 Prevention Epicenters Program to provide the re-
22 gional prevention collaboration efforts described in
23 subsection (a) with tools, strategies, and evidence-
24 based interventions.

1 “(2) EVALUATIONS AND RESEARCH.—The Di-
 2 rector of the Centers for Disease Control and Pre-
 3 vention and the epicenters participating in the Pre-
 4 vention Epicenters Program shall work with entities,
 5 including the entities participating in the regional
 6 prevention collaborative efforts, to—

7 “(A) evaluate new and existing interven-
 8 tions to prevent or limit infection rates in
 9 health care facilities across the continuum of
 10 care and in community settings;

11 “(B) facilitate public health research on
 12 the prevention and control of resistant orga-
 13 nisms; and

14 “(C) assess the feasibility, cost-effective-
 15 ness, and appropriateness of surveillance and
 16 prevention programs in differing health care
 17 and institutional settings.

18 “(c) EDUCATIONAL MATERIALS.—The Secretary,
 19 acting through the Director of the Centers for Disease
 20 Control and Prevention, shall use the evaluations, re-
 21 search, and assessments described in subsection (b) to cre-
 22 ate and disseminate educational materials focused on in-
 23 fection prevention and control for use in health care facili-
 24 ties across the continuum of care and in community set-
 25 tings.”.

1 **SEC. 5. PROTECTION OF CONFIDENTIAL AND NATIONAL SE-**
2 **CURITY INFORMATION.**

3 This Act, and the amendments made by this Act,
4 shall not be construed to permit the disclosure of any
5 trade secret, confidential commercial information, or ma-
6 terial inconsistent with national security, that is otherwise
7 prohibited by law.
