

115TH CONGRESS  
1ST SESSION

# S. RES. 207

Designating the week of July 9 through July 15, 2017 as “Sarcoma Awareness Week” and designating July 15, 2017 as “Leiomyosarcoma Awareness Day”.

---

IN THE SENATE OF THE UNITED STATES

JUNE 28, 2017

Ms. STABENOW submitted the following resolution; which was referred to the  
Committee on the Judiciary

---

## RESOLUTION

Designating the week of July 9 through July 15, 2017 as  
“Sarcoma Awareness Week” and designating July 15,  
2017 as “Leiomyosarcoma Awareness Day”.

Whereas a soft tissue sarcoma is a rare type of cancer, accounting for approximately 1 percent of all newly diagnosed cancers, that arises in the connective tissue of the body;

Whereas the National Institutes of Health designates sarcoma as a rare form of cancer, with sarcoma containing approximately 70 different subtypes;

Whereas sarcomas are largely resistant to current chemotherapy agents, immunotherapy agents, and radiation therapies, posing a formidable challenge for researchers and specialists;

Whereas sarcoma subtypes have largely not received benefit from immunotherapies due to the complexity of the DNA, genomes, and mutations associated with the many variations in the sarcoma subtype landscape;

Whereas leiomyosarcoma (referred to in this preamble as “LMS”) is a malignant, aggressive subtype of soft tissue sarcoma derived from smooth muscle cells typically of uterine, gastrointestinal or soft tissue origin, and can metastasize to the bone, spine, brain, and liver;

Whereas the National Institutes of Health classifies LMS as a rare disease, accounting for approximately 15 percent of all sarcomas, and LMS itself encompasses at least 4 different LMS subtypes;

Whereas LMS primarily affects adults without regard to gender;

Whereas research and clinical trials for LMS remain complicated and the prospects for long-term survival remain poor;

Whereas multidisciplinary care coordination teams, because of their expertise and experience, are critical to the health of sarcoma and LMS patients;

Whereas sarcoma and LMS research will allow medical professionals to improve the quality of care for affected patients, lead to better clinical outcomes, and promote longer survival for patients; and

Whereas increased education and awareness about sarcoma and LMS will contribute to the well-being of the communities of the United States: Now, therefore, be it

1       *Resolved*, That the Senate—

1           (1) designates the week of July 9 through July  
2           15, 2017, as “Sarcoma Awareness Week”;

3           (2)     designates     July     15,     2017,     as  
4           “Leiomyosarcoma Awareness Day”;

5           (3) recognizes the challenges faced by sarcoma  
6           and leiomyosarcoma patients; and

7           (4) commends the dedication of organizations,  
8           volunteers, researchers, and caregivers across the  
9           country working to improve the quality of life of sar-  
10          coma and leiomyosarcoma patients and their fami-  
11          lies.
