introduced the following bill; which was referred to the Committee on

Education and Labor, for a period to be subsequently determined by the
Speaker, in each case for consideration of such provisions as fall within
the jurisdiction of the committee concerned

A BILL

To ensure that older adults and individuals with disabilities
are prepared for disasters, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Real Emergency Ac-
5 cess for Aging and Disability Inclusion for Disasters Act”
6 or the “REAADI for Disasters Act”.

1 **SEC. 2. FINDINGS AND SENSE OF CONGRESS.**

2 (a) FINDINGS.—Congress makes the following find-
3 ings:

4 (1) In the United States, according to the Cen-
5 ters for Disease Control and Prevention, there are
6 more than 61,000,000 adults who are individuals
7 with disabilities and, according to the Bureau of the
8 Census, there are more than 47,800,000 adults age
9 65 or older.

10 (2) There have been more than 80 hurricanes,
11 resulting in thousands of deaths, in the United
12 States since 2005.

13 (3) The National Oceanic and Atmospheric Ad-
14 ministration estimates that—

15 (A) the cumulative damage from weather-
16 and climate-related disasters in 2017 cost the
17 United States over \$300,000,000,000; and

18 (B) 17 of the disasters in 2017 cost over
19 \$1,000,000,000 each.

20 (4) Individuals with disabilities and older adults
21 have been found to die at higher rates, compared to
22 the general population, during disasters.

23 (5) According to the Federal Emergency Man-
24 agement Administration—

1 (A) more than 48,000,000 people were af-
2 fected by hurricanes and wildfires between Au-
3 gust and December of 2017; and

4 (B) more than 12,000,000, or one quarter,
5 of those peoples were adults who were individ-
6 uals with disabilities.

7 (6) An estimated 70 percent of the deaths at-
8 tributed to Hurricane Maria in 2017 were to people
9 age 70 or older.

10 (7) Failure to provide accessibility for, or plan
11 for accommodating, individuals with physical or sen-
12 sory disabilities, chronic illness, or mental disabilities
13 decreases the ability of those individuals to evacuate
14 prior to or during a disaster.

15 (8) Households of individuals with disabilities
16 are more likely to need assistance and are less likely
17 to be able to evacuate in advance of disasters.

18 (9) Less than a third of individuals with intel-
19 lectual disabilities and individuals needing personal
20 care attendants have planned with their personal
21 care providers what to do in a disaster.

22 (10) Evacuation information, including orders,
23 is not uniformly communicated in ways and via
24 media that are accessible to individuals with disabil-
25 ities, including being communicated in ways that

1 lack use of American Sign Language, captions, and
2 plain language on websites, instructional materials,
3 and television and radio announcements.

4 (11) Displaced individuals with disabilities
5 served in general population shelters have better ac-
6 cess to information and material resources than indi-
7 viduals with disabilities in specially designed shel-
8 ters.

9 (12) Despite better access to information and
10 resources, personnel in general population shelters
11 often do not have the resources or training to ad-
12 dress the needs of individuals with disabilities and
13 older adults.

14 (13) Public shelters often do not have dis-
15 ability-related accommodations, often forcing individ-
16 uals with disabilities and older adults to be seg-
17 regated, sometimes apart from their families and
18 natural supports during disasters.

19 (14) Households with individuals with disabil-
20 ities sustain more costly property damage from dis-
21 asters than households without individuals with dis-
22 abilities.

23 (15) Historically, disaster-related recommenda-
24 tions for individuals with disabilities and older
25 adults have been typically aimed at caregivers and

1 service providers, not individuals with disabilities
2 and older adults.

3 (16) Thousands of individuals with disabilities
4 have been denied their civil rights because they do
5 not receive accessible notice during disasters—

6 (A) of spoken instructions via phone or
7 video; or

8 (B) of instructions regarding evacuations,
9 sheltering, and other procedures during disas-
10 ters.

11 (17) Disaster shelters and services do not rou-
12 tinely have American Sign Language interpreters
13 nor procedures written or presented in plain lan-
14 guage.

15 (18) Individuals with disabilities and older
16 adults are more at risk for loss of life, loss of inde-
17 pendence, and violation of civil rights than the gen-
18 eral population during times of disasters, response,
19 and recovery.

20 (b) SENSE OF CONGRESS.—It is the sense of Con-
21 gress that—

22 (1) individuals with disabilities and older adults
23 should be supported during times of disasters, and
24 during disaster preparedness, response, recovery,
25 and mitigation in order to—

1 (A) ensure maintenance of and access to
2 services and supports; and

3 (B) enable those individuals and adults to
4 return to their communities in a timely manner
5 as compared with the general population;

6 (2) during the recovery and mitigation phases
7 of disaster response, all buildings and services
8 should be designed, and constructed or recon-
9 structed, according to principles of universal design
10 and to the standards established by the Architec-
11 tural and Transportation Barriers Compliance
12 Board in order to ensure access for individuals with
13 disabilities, older adults, and all individuals;

14 (3) individuals with disabilities and older adults
15 should have access to shelters and other services
16 during disasters in the same locations and settings
17 as the general population;

18 (4) individuals with disabilities and older adults
19 should receive information about preparation for, re-
20 sponse to, recovery from, and mitigation of disasters
21 in formats accessible to them, including in American
22 Sign Language, Braille, and plain language, as well
23 as captioned video messages;

24 (5) individuals with disabilities and older adults
25 must be included as key speakers, essential stake-

1 holders, and decisionmakers in the preparation (in-
2 cluding planning), response, recovery, and mitigation
3 phases of disasters;

4 (6) local, State (including territorial), tribal,
5 and Federal disaster planning must include robust
6 representation of individuals with disabilities and
7 older adults; and

8 (7) individuals with disabilities and older adults
9 must be included in the evaluation of governmental,
10 VOAD, and other nongovernmental preparation (in-
11 cluding planning), response, recovery, and mitigation
12 of disasters.

13 **SEC. 3. PURPOSES.**

14 The purposes of this Act are to—

15 (1) improve the inclusion of individuals with
16 disabilities and older adults in the preparation for,
17 response to, recovery from, and mitigation of disas-
18 ters;

19 (2) ensure the rights of individuals with disabil-
20 ities and older adults, to be free from discrimination
21 on the basis of disability or age in programs and ac-
22 tivities, are protected during all phases of disaster
23 preparation, response, recovery, and mitigation;

24 (3) ensure compliance with the Americans with
25 Disabilities Act of 1990, the Rehabilitation Act of

1 1973, and other disability laws during preparation
2 for, response to, recovery from, and mitigation of
3 disasters;

4 (4) improve coordination, among the commu-
5 nities of individuals with disabilities and older
6 adults, government agencies, VOADs, and other
7 nongovernmental entities, in preparing (including
8 planning) for, responding to, recovery from, and
9 mitigation of disasters; and
