Subtitle B—Infrastructure Spending Bills to Include Development Programs That Recruit and Train Individuals From Communities With High Unemployment Rates

SEC. 10201. FINDINGS.

The Congress finds the following:

(1) America would need to spend approximately \$1.44 trillion over the next 10 years to close the infrastructure gap.

1 (2) The infrastructure workforce is aging at a
2 rate where approximately 3,000,000 workers will
3 need to be replaced over the next 10 years,
4 compounding America's infrastructure crisis.

5 (3) Infrastructure jobs include a wide range of
6 employment opportunities in both the public and pri-
7 vate sectors, including design, construction, oper-
8 ation, governance, and maintenance of America's as-
9 sets.

10 (4) Infrastructure jobs provide competitive
11 wages with low barriers to entry, many of which re-
12 quire on-the-job training in lieu of formal higher
13 education.

14 (5) In spite of rising income inequality, infra-
15 structure jobs paid approximately 30 percent more
16 to low-income individuals than other occupations be-
17 tween the years of 2005 and 2015.

18 (6) In the fourth quarter of 2016, African-
19 Americans and Hispanics between the ages of 25
20 and 34 had the highest unemployment levels at 8.6
21 percent and 5.3 percent, respectively.

22 (7) The unemployment rate for military vet-
23 erans serving in conflicts since September 11, 2001,
24 has remained above the national unemployment rate,
25 with the Federal Reserve of Chicago highlighting

1 how wartime deployment can limit the types of
2 training veterans receive that are transferable to the
3 civilian labor market.

4 (8) The Federal Government should make con-
5 certed efforts, by coordination with State and local
6 governments, workforce development agencies, edu-
7 cational institutions, including Historically Black
8 Colleges and Universities and Hispanic Serving In-
9 stitutions, to recruit, train, and retain America's
10 next generation of infrastructure workers to close
11 the workforce gap.

12 **SEC. 10202. SENSE OF CONGRESS.**

13 It is the sense of Congress that—

14 (1) any infrastructure spending bill enacted
15 during the 116th Congress should include robust in-
16 vestments in workforce development programs that
17 take meaningful actions to recruit and train individ-
18 uals from communities with high unemployment
19 rates, including African-American communities, His-
20 panic communities, and American Indian tribal
21 areas;

22 (2) any infrastructure spending bill enacted
23 during the 116th Congress should include robust in-
24 vestments in workforce development programs that
25 take meaningful actions to recruit and train unem-

1 ployed veterans that have served in a conflict since
2 September 11, 2001; and

3 (3) any infrastructure spending bill enacted
4 during the 116th Congress should include meaning-
5 ful outreach efforts geared toward underrepresented
6 contractors, including minority- and women-owned
7 businesses, veteran owned small businesses, service-
8 disabled veteran owned small businesses, and
9 offerors that employ veterans on a full-time basis.

10 **Subtitle C—Drinking Water** 11 **Infrastructure for Job Creation**

12 **SEC. 10301. SHORT TITLE.**

13 This subtitle may be cited as the “Drinking Water
14 Infrastructure for Job Creation Act”.

15 **SEC. 10302. FINDINGS.**

16 Congress finds the following:

17 (1) Investments in infrastructure create jobs
18 while fulfilling critical needs in communities
19 throughout the United States.

20 (2) According to the Brookings Institution,
21 nearly 14.5 million workers—11 percent of the U.S.
22 workforce—were employed in infrastructure jobs in
23 2013.

24 (3) According to data from the Brookings Insti-
25 tution, infrastructure occupations often provide more

1 competitive and equitable wages in comparison to all
2 jobs nationally, consistently paying up to 30 percent
3 more to low-income workers.

4 (4) The American Society of Civil Engineers
5 gave the infrastructure of the United States an over-
6 all grade of “D+” in 2017 and estimated that the
7 United States will need to invest \$4.59 trillion by
8 2025 in order to improve the condition of the Na-
9 tion’s infrastructure and bring it to a state of good
10 repair.

11 (5) The American Society of Civil Engineers as-
12 signed a “D” grade to the Nation’s drinking water
13 infrastructure and a “D+” grade to the Nation’s
14 wastewater infrastructure and estimated that the
15 United States will need to invest \$150 billion by
16 2025 to bring them to a state of good repair.

17 (6) According to the American Society of Civil
18 Engineers, there are an estimated 240,000 water
19 main breaks per year in the United States, wasting
20 over two trillion gallons of treated drinking water.

21 (7) In 2016, the U.S. Environmental Protection
22 Agency (EPA) reported that although exposure to
23 lead can cause serious health problems, including
24 damage to the brain and nervous system in children
25 and kidney problems and high blood pressure in

1 adults, an estimated 6.5 to 10 million homes nation-
2 wide receive drinking water through lead service
3 lines.

4 (8) Congress created the Drinking Water State
5 Revolving Funds in 1996 to help eligible public
6 water systems finance infrastructure projects in
7 order to comply with Federal drinking water regula-
8 tions and meet the health objectives of the Safe
9 Drinking Water Act.

10 (9) The EPA is required periodically to conduct
11 a survey of the capital improvement needs of eligible
12 public water systems and distribute funding appro-
13 priated for the Drinking Water State Revolving
14 Funds among the States based on the results of the
15 most recent survey.

16 (10) In March of 2018, the EPA issued the
17 2015 Drinking Water Needs Survey and Assess-
18 ment, which is the most recent survey of the capital
19 improvement needs of eligible public water systems
20 and which estimated that \$472.6 billion in improve-
21 ments are needed for the Nation's drinking water in-
22 frastructure over 20 years in order to ensure the
23 safety of drinking water.

24 (11) In fiscal year 2018, Congress appropriated
25 \$1.163 billion for the Drinking Water State Revolv-

1 ing Funds to enable States to provide grants and fi-
2 nancing assistance to eligible public water systems in
3 order to improve drinking water infrastructure in
4 communities throughout the United States.

5 (12) Past appropriations for the Drinking
6 Water State Revolving Funds are not sufficient to
7 address the tremendous need for investments in
8 drinking water infrastructure in communities
9 throughout the United States.

10 (13) Appropriating \$7.5 billion in fiscal year
11 2019 for the Drinking Water State Revolving
12 Funds, and allowing the funds to remain available
13 for 6 years, will enable States to begin immediately
14 to expand investments in drinking water infrastruc-
15 ture in communities throughout the United States.

16 (14) Restricting appropriations for the Drink-
17 ing Water State Revolving Funds through the use of
18 arbitrary budget caps or sequestration undermines
19 economic recovery and job creation efforts; disrupts
20 planning by States, local communities, and eligible
21 public water systems; and leaves critical infrastruc-
22 ture needs unmet.

23 (15) Emergency supplemental appropriations
24 for the Drinking Water State Revolving Funds, pro-
25 vided in addition to other appropriations and not

1 subject to sequestration, will improve drinking water
2 infrastructure and create jobs throughout the United
3 States without reducing funding for other domestic
4 priorities.

5 (16) An emergency supplemental appropriation
6 of \$7.5 billion for the Drinking Water State Revolv-
7 ing Funds to be made available in fiscal year 2019,
8 and to remain available for 6 years, will allow States
9 to begin immediately to distribute funds to eligible
10 public water systems and allow local communities
11 and eligible public water systems to develop and im-
12 plement plans to improve drinking water infrastruc-
13 ture, thus ensuring an efficient use of funds and
14 timely job creation.

15 **SEC. 10303. SUPPLEMENTAL APPROPRIATIONS FOR THE**
16 **DRINKING WATER STATE REVOLVING FUNDS.**

17 The following sums are appropriated, out of any
18 money in the Treasury not otherwise appropriated, for fis-
19 cal year 2019:

20 **ENVIRONMENTAL PROTECTION AGENCY**

22 For an additional amount for capitalization grants
23 under section 1452 of the Safe Drinking Water Act in ac-
24 cordance with the provisions under this heading in title
25 VII of division A of Public Law 111–5, \$7,500,000,000,

1 to remain available through September 30, 2024: *Pro-*
2 *vided*, That the amount under this heading is designated
3 by the Congress as an emergency requirement pursuant
4 to section 251(b)(2)(A) of the Balanced Budget and
5 Emergency Deficit Control Act of 1985, except that such
6 amount shall be available only if the President subse-
7 quently so designates such amount and transmits such
8 designation to the Congress.

9 **SEC. 10304. EXEMPTION FROM SEQUESTRATION.**

10 The appropriation in section 10303 shall be exempt
11 from sequestration under the Balanced Budget and Emer-
12 gency Deficit Control Act of 1985.

13 **Subtitle D—Build Local, Hire Local**

14 **SEC. 10401. SHORT TITLE.**

15 This subtitle may be cited as the “Build Local, Hire
16 Local Act”.

17 **SEC. 10402. FINDINGS.**

18 Congress finds that—

19 (1) infrastructure plays a vital role in the lives
20 of all people in the United States;

21 (2) the aging infrastructure of the United
22 States is in need of a significant investment to re-
23 pair, rebuild, and modernize, and in the process, the
24 Federal Government can take necessary steps to ad-
25 dress economic and racial injustices that have lim-

1 ited opportunities for far too many people of the
2 United States;

3 (3) decades of disinvestment and exclusionary
4 policies have isolated many people of color, low-in-
5 come people, and disabled individuals in the United
6 States from opportunity across the urban centers,
7 deindustrialized cities, rural regions, and Tribal
8 areas of the United States, including horribly inad-
9 equately investment to ensure universal access to
10 clean air and water, safe and reliable transportation,
11 affordable housing, quality living wage jobs, high-
12 speed internet, modernized schools, and parks and
13 community facilities;

14 (4) while the construction of the National High-
15 way System remains one of the most transformative
16 achievements in the history of the United States, it
17 came at the expense of many low-income commu-
18 nities as well as minority neighborhoods of all in-
19 come levels that were destroyed by the construction
20 and isolated from the broader community and from
21 economic opportunity;

22 (5) investing in repairing, rebuilding, and mod-
23 ernizing the infrastructure of the United States pre-
24 sents an opportunity to learn from the mistakes of
25 the past and reimagine how communities can design

1 and build infrastructure to be more equitable, help-
2 ing to address structural inequities faced by
3 marginalized communities nationwide, including a
4 lack of good paying jobs, affordable, accessible, and
5 inclusive housing, decaying roads, bridges, and
6 schools, inadequate access to technology, and expo-
7 sure to toxic emissions and poisoned water;

8 (6) accessibility to quality infrastructure, train-
9 ing, and jobs is an issue across the United States,
10 spanning from rural and Tribal areas to urban and
11 suburban areas;

12 (7) transportation infrastructure has a signifi-
13 cant impact on access to jobs, education, healthcare,
14 healthy foods, and other essential services;

15 (8) accessibility to essential services is defined
16 not only by speed, but also by ease of access, which
17 includes the ability to safely and conveniently access
18 services by all modes of travel;

19 (9) with a shortage of construction firms that
20 are ready and able to take on the large-scale infra-
21 structure projects the United States demands, the
22 close to 478,000 specialty trade contractors in small-
23 er minority, women, and disadvantaged businesses
24 could be supported to meet this demand;

1 (10) small businesses and under-represented
2 contractors, including minority-, women-, veteran-
3 owned businesses, and businesses owned by disabled
4 individuals should have the opportunity to rebuild
5 their communities and employ hardworking people of
6 the United States along the way;

7 (11) as of 2018, about $\frac{1}{4}$ of the infrastructure
8 workforce is projected to retire or permanently leave
9 their jobs over the next decade, compounding the in-
10 frastructure crisis in the United States;

11 (12) as of 2019, the Board of Governors of the
12 Federal Reserve System finds that skilled trades and
13 many occupations that do not require a 4-year de-
14 gree are not considered to be at significant risk of
15 automation;

16 (13) infrastructure jobs include a wide range of
17 employment opportunities in both the public and pri-
18 vate sectors, including design, manufacturing, con-
19 struction, operation, governance, and maintenance of
20 infrastructure assets in the United States;

21 (14) more than 1 in 10 jobs in the United
22 States is a transportation- or infrastructure-related
23 job;

24 (15) many infrastructure jobs provide competi-
25 tive wages with low barriers to entry, many of which

1 require on-the-job training in lieu of formal 4-year
2 degree higher education programs;

3 (16) in spite of rising income inequality, infra-
4 structure jobs paid approximately 30 percent more
5 to low income individuals than other occupations in
6 2018;

7 (17) women, people of color, and particularly
8 women of color are underrepresented in construction
9 jobs;

10 (18) while women across all occupations cur-
11 rently make up about 50 percent of the workforce,
12 women in construction and extraction occupations
13 has hovered around 3 percent for the last 3 decades;

14 (19) while Black Americans make up about 12
15 percent of the overall workforce, Black Americans
16 only represent 7 percent of construction and extrac-
17 tion occupations;

18 (20) by focusing on improving workforce devel-
19 opment systems through targeted employment strat-
20 egies, the Federal Government can improve the qual-
21 ity of future projects and better ensure that all com-
22 munities benefit from investments that—

23 (A) protect workers;

24 (B) expand opportunities for advancement;

25 (C) establish strong labor standards; and

1 (D) redress discriminatory policies that
2 have unfairly burdened low-income communities
3 and communities of color with pollution of geo-
4 graphic isolation; and

5 (21) the Federal Government should make con-
6 certed efforts to close the workforce gap, through co-
7 ordination with States and units of local govern-
8 ment, workforce development agencies, national and
9 regional nonprofit intermediaries, labor organiza-
10 tions, and institutions of higher education and other
11 educational institutions, including historically Black
12 colleges and universities and Hispanic-serving insti-
13 tutions, to recruit, train, and retain the next genera-
14 tion of infrastructure workers in the United States,
15 with a focus on—

16 (A) achieving gender, ethnic, racial, and
17 ability diversity; and

18 (B) recruiting and training individuals
19 from communities with high unemployment
20 rates, including African-American communities,
21 Hispanic communities, Indian Tribes, the dis-
22 abled community, and the LGBTQ community.

12 (1) ALLOWABLE COSTS.—Except as provided in
13 paragraph (2), an entity receiving a covered award
14 or covered subaward may use the assistance of such
15 award or subaward for costs incurred in maintaining
16 satisfactory relations between the entity and employ-

9 **Subtitle E—Transportation**
10 **Infrastructure for Job Creation**

11 **SEC. 10501. SHORT TITLE.**

12 This subtitle may be cited as the “Transportation In-
13 frastructure for Job Creation Act”.

14 **SEC. 10502. FINDINGS.**

15 Congress finds the following:

16 (1) Investments in infrastructure create jobs
17 while fulfilling critical needs in communities
18 throughout the United States.

19 (2) According to the Brookings Institution,
20 nearly 14.5 million workers—11 percent of the U.S.
21 workforce—were employed in infrastructure jobs in
22 2013.

23 (3) According to data from the Brookings Insti-
24 tution, infrastructure occupations often provide more
25 competitive and equitable wages in comparison to all

1 jobs nationally, consistently paying up to 30 percent
2 more to low-income workers.

3 (4) The American Society of Civil Engineers
4 gave the infrastructure of the United States an over-
5 all grade of “D+” in 2017 and estimated that the
6 United States will need to invest \$4.59 trillion by
7 2025 in order to improve the condition of the Na-
8 tion’s infrastructure and bring it to a state of good
9 repair.

10 (5) The American Society of Civil Engineers as-
11 signed a “D” grade to the Nation’s roads, a “C+”
12 grade to the Nation’s bridges, and a “D–” grade
13 to the Nation’s transit systems and estimated that
14 the United States will need to invest \$2.04 trillion
15 by 2025 to bring the Nation’s surface transportation
16 infrastructure to a state of good repair.

17 (6) BUILD is a nationwide competitive grant
18 program that creates jobs by funding investments in
19 transportation infrastructure by States, local govern-
20 ments, and transit agencies.

21 (7) BUILD is formally known as the Better
22 Utilizing Investments to Leverage Development
23 (BUILD) Transportation Grants program and was
24 previously known as the Transportation Investment

1 Generating Economic Recovery (TIGER) grant pro-
2 gram.

3 (8) BUILD funds projects that will have a sig-
4 nificant impact on the Nation, a metropolitan area,
5 or a region.

6 (9) In distributing grants under BUILD, the
7 Secretary of Transportation is required to ensure an
8 equitable geographic distribution of funds, a balance
9 in addressing the needs of urban and rural areas,
10 and investments in a variety of modes of transpor-
11 tation.

12 (10) TIGER or BUILD received an appropria-
13 tion of \$600,000,000 in fiscal year 2014, an appro-
14 priation of \$500,000,000 in fiscal year 2015, an ap-
15 propriation of \$500,000,000 in fiscal year 2016, an
16 appropriation of \$500,000,000 in fiscal year 2017,
17 and an appropriation of \$1,500,000,000 in fiscal
18 year 2018.

19 (11) Past appropriations for TIGER and
20 BUILD are not sufficient to address the need for in-
21 vestments in transportation infrastructure in com-
22 munities throughout the United States as the
23 amounts only fund a small fraction of the transpor-
24 tation infrastructure projects for which grant appli-
25 cations have been received.

1 (12) Appropriating \$7.5 billion in fiscal year
2 2019 for BUILD and allowing the funds to remain
3 available for 6 years will enable the Secretary of
4 Transportation to begin immediately to expand in-
5 vestments in transportation infrastructure throughout
6 the United States.

7 (13) Restricting appropriations for BUILD
8 through the use of arbitrary budget caps or seques-
9 tration undermines economic recovery and job cre-
10 ation efforts; disrupts planning by States, local gov-
11 ernments, and transit agencies; and leaves critical
12 infrastructure needs unmet.

13 (14) Emergency supplemental appropriations
14 for BUILD, provided in addition to other appropria-
15 tions and not subject to sequestration, will improve
16 transportation infrastructure and create jobs
17 throughout the United States without reducing
18 funding for other domestic priorities.

19 (15) An emergency supplemental appropriation
20 of \$7.5 billion for BUILD to be made available in
21 fiscal year 2019 and to remain available for 6 years
22 will allow the Secretary of Transportation to begin
23 immediately to organize new competitions for
24 BUILD grants and allow States, local governments,
25 and transit agencies to prepare grant applications,

1 thus ensuring an efficient use of funds and timely
2 job creation.

3 **SEC. 10503. SUPPLEMENTAL APPROPRIATIONS FOR BUILD**
4 **DISCRETIONARY GRANT PROGRAM.**

5 The following sums are appropriated, out of any
6 money in the Treasury not otherwise appropriated, for fis-
7 cal year 2019:

8 DEPARTMENT OF TRANSPORTATION

9 OFFICE OF THE SECRETARY

10 NATIONAL INFRASTRUCTURE INVESTMENTS

11 For an additional amount for “National Infrastruc-
12 ture Investments” in accordance with the provisions under

14 31, \$7,500,000,000, to remain available through Sep-
15 tember 30, 2024: *Provided*, That the amount under this
16 heading is designated by the Congress as an emergency
17 requirement pursuant to section 251(b)(2)(A) of the Bal-
18 anced Budget and Emergency Deficit Control Act of 1985,
19 except that such amount shall be available only if the
20 President subsequently so designates such amount and
21 transmits such designation to the Congress.

22 **SEC. 10504. EXEMPTION FROM SEQUESTRATION.**

23 The appropriation in section 10503 shall be exempt
24 from sequestration under the Balanced Budget and Emer-
25 gency Deficit Control Act of 1985.

2 It is the sense of Congress that a qualified entity con-
3 ducting a demonstration project under the Assets for
4 Independence Act (42 U.S.C. 604 note) should, to the
5 maximum extent practicable, increase—

6 (1) the rate at which the entity matches con-
7 tributions by individuals participating in the project
8 under section 410(a)(1) of such Act; or

10 the project.

26 serting “clause (v)”;

1 (3) in paragraph (7)(A)—

18 **Subtitle G—Look-back Elimination**

19 **SEC. 10701. SHORT TITLE.**

20 This subtitle may be cited as the “Look-back Elimi-
21 nation Act of 2020”.

1 **SEC. 10702. FINDINGS.**

2 The Congress finds as follows:

3 (1) As part of President Franklin Delano Roo-
4 sevelt's New Deal, the Social Security Act of 1935
5 included the creation of the Aid to Dependent Chil-
6 dren program as a way to provide Federal support
7 to poor children. Over time, this program became
8 the Aid to Families with Dependent Children
9 (AFDC) program and provided assistance to strug-
10 gling families for over 60 years.

11 (2) Part E of title IV of the Social Security Act
12 provides primary Federal funding for child welfare
13 services. Under that part, the Federal Government
14 pays a portion of the cost of providing Federal foster
15 care and adoption assistance benefits for eligible
16 children.

17 (3) In 1996, when Congress replaced the AFDC
18 program with the Temporary Assistance for Needy
19 Families (TANF) program, Congress also fixed the
20 income eligibility requirement for Federal foster care
21 and adoption assistance benefits at a level based on
22 the income thresholds established by the States
23 under their former AFDC programs. This income
24 eligibility requirement is now commonly referred to
25 as the "AFDC look-back standard".

1 (4) At that time, many States had established
2 very strict household income requirements in order
3 for children to be eligible for AFDC benefits. As a
4 result of this very strict requirement, many children
5 in the Federal foster care and adoption assistance
6 programs are ineligible to receive a wide range of
7 Federal benefits, services, and activities. For exam-
8 ple, this outdated, restrictive standard prevents the
9 State of Georgia from providing assistance to more
10 than half of the children in the child welfare system.

11 (5) Forced to adhere to a stagnant standard,
12 States increasingly struggle to administer Federal
13 foster care and adoption assistance programs and
14 provide services to those children most in need. As
15 inflation increases, fewer children are eligible to re-
16 ceive Federal benefits, and States struggle to pro-
17 vide services from other, limited local and State re-
18 sources.

19 (6) Although the AFDC look-back standard still
20 applies to the Federal foster care program, the Fos-
21 tering Connections to Success and Increasing Adop-
22 tions Act of 2008 completely eliminated the AFDC
23 look-back standard in the Federal adoption assist-
24 ance program in 2018.

1 **SEC. 10703. ELIMINATION OF THE AFDC ELIGIBILITY RE-**
2 **QUIREMENT IN THE FOSTER CARE MAINTENANCE PAYMENTS PROGRAM.**

4 (a) IN GENERAL.—Section 472(a) of the Social Security Act (42 U.S.C. 672(a)) is amended—

6 (1) in paragraph (1), by striking “specified”
7 and all that follows and inserting “or caretaker into
8 foster care if the removal and foster care placement
9 met, and continues to meet, the requirements of
10 paragraph (2).”; and

11 (2) by striking paragraphs (3) and (4).

12 (b) CONFORMING AMENDMENT.—Section 470 of
13 such Act (42 U.S.C. 670) is amended by striking “who
14 otherwise would have been eligible for assistance under the
15 State’s plan approved under part A (as such plan was in
16 effect on June 1, 1995)”.

17 **SEC. 10704. SENSE OF THE CONGRESS.**

18 It is the sense of the Congress that—

19 (1) the AFDC eligibility requirement for Federal foster care and adoption assistance benefits
20 should be eliminated and replaced with income eligibility standards that are based on modern, balanced
21 criteria that treat all children equally; and

24 (2) the Secretary of Health and Human Services
25 should collaborate with Members of Congress

1 and child welfare advocates in developing any modi-
2 fied standards.

7 The Congress finds as follows:

8 (1) The environmental health workforce is vital
9 to protecting the health and safety of the public.

10 (2) For years, State and local governmental
11 public health agencies have reported substantial
12 workforce losses and other challenges to the environ-

18 environmental health workforce jobs have been lost
19 since 2008. This represents approximately 22 per-
20 cent of the total State and local environmental
21 health workforce.

22 (4) In the coming years, the retiring Baby
23 Boomer Generation will lead to a further decrease in
24 the environmental health workforce.

1 (5) Currently, only 28 States require a creden-
2 tial for environmental health workers that is an im-
3 partial, third-party endorsement of an individual's
4 professional knowledge and experience.

16 **Subtitle S—Opening Doors for** 17 **Youth**

18 **SEC. 12101. SHORT TITLE.**

19 This subtitle may be cited as the “Opening Doors for
20 Youth Act of 2020”.

21 **SEC. 12102. FINDINGS.**

22 Congress finds the following:

23 (1) The time between the early teens and mid-
24 twenties represents a critical developmental period in
25 which individuals can gain the education and train-

1 ing, entry-level work experiences, work-readiness
2 skills, and social networks needed to smoothly tran-
3 sition into the labor market and build towards fu-
4 ture professional success.

5 (2) Yet, nearly 5 million young people ages 16
6 to 24 are out of school and unemployed, leaving
7 them disconnected from the systems and institutions
8 critical for developing the building blocks of inde-
9 pendence and self-sufficiency.

10 (3) Communities of color experience the highest
11 rates of youth disconnection: 25.4 percent of Native
12 American youth, 18.9 percent of Black youth, and
13 14.3 percent of Latino youth between the ages of 16
14 and 24 were disconnected from school and work in
15 2015.

16 (4) Disconnected youth are also three times
17 more likely than other youth to have a disability,
18 twice as likely to live below the Federal poverty
19 threshold, and significantly more likely to live in ra-
20 cially segregated neighborhoods. Disconnected young
21 women and girls are three times more likely to have
22 a child, and young people involved in the juvenile
23 justice system or aging out of the foster care system
24 are at high risk of disconnection.

1 (5) Disconnection from school and work can
2 have significant consequences for youth, including
3 decreased earning power and fewer future employ-
4 ment opportunities. According to the 2012 report,
5 “The Economic Value of Opportunity Youth”, dis-
6 connected youth will, on average, earn \$392,070 less
7 than the average worker over their lifetimes.

8 (6) Failure to successfully connect young people
9 to employment and educational opportunities also re-
10 sults in a significant loss in productivity for the
11 overall economy, as well as increases in government
12 spending. According to a recent report from Meas-
13 ure of America, in 2013, youth disconnection re-
14 sulted in \$26.8 billion in public expenditures, includ-
15 ing spending on health care, public assistance, and
16 incarceration.

17 (7) Disconnected young people, commonly re-
18 ferred to as “opportunity youth” because of their
19 tremendous potential, can add great social and eco-
20 nomic value to our communities and the economy, if
21 given the appropriate supports and resources. Ac-
22 cording to the Opportunity Index, an annual meas-
23 urement of opportunity in a geographic region, the
24 number of opportunity youth, along with educational
25 attainment and poverty rates, are strongly linked to

1 overall opportunity in communities. When young
2 adults do well, communities do well.

3 (8) Despite their talent and motivation, many
4 opportunity youth lack access to the training, edu-
5 cation, and entry-level jobs that can help them gain
6 the work experience and credentials needed to suc-
7 cessfully transition into the labor market.

8 (9) Lack of access to entry-level jobs can limit
9 a young adult's ability to accrue early work experi-
10 ence and demonstrate productivity and work readi-
11 ness to potential employers. Labor market shifts
12 have also limited opportunities for young people
13 without a high school diploma or with limited post-
14 secondary credentials.

15 (10) Summer and year-round youth employ-
16 ment programs that connect young people with
17 entry-level jobs give youth the work experience and
18 opportunity for skill development needed to transi-
19 tion into the labor market and prevent points of dis-
20 connection, such as involvement in the criminal and
21 juvenile justice systems.

22 (11) Evidence suggests that summer youth em-
23 ployment programs may help in-school youth remain
24 connected to the education system. A 2014 study of
25 the New York City Summer Youth Employment

1 Program found that after program participation,
2 youth older than 16 increased their school attend-
3 ance by four or five additional days compared to
4 their previous fall semester attendance. This attend-
5 ance increase represented 25 percent of the total
6 days students were permitted to miss school and still
7 continue on to the next grade.

8 (12) Evidence shows that participation in sum-
9 mer youth employment programs also reduces the
10 rate of violent crimes arrests. For example, a 2014
11 study of Chicago's One Summer Plus program
12 shows that the program reduced violent crime ar-
13 rests among at-risk youth by approximately 43 per-
14 cent, with crime reduction benefits lasting over a
15 year after the program had ended. This reduction
16 can have significant impact for young people, given
17 the impact of a criminal record on future employ-
18 ment prospects and wages.

19 (13) Despite its benefits, summer youth em-
20 ployment has declined by more than 40 percent dur-
21 ing the past 12 years, at a loss of more than 3 mil-
22 lion summer jobs for young Americans. A J.P. Mor-
23 gan Chase study of 14 major U.S. cities found that
24 summer youth employment programs were only able

1 to provide opportunities for 46 percent of applicants
2 in 2014.

3 (14) According to research by Measure of
4 America, the overwhelming number of youth discon-
5 nected from school and work come from discon-
6 nected communities marked by high adult unemploy-
7 ment, poverty, and racial segregation, as well as low
8 levels of adult education attainment. These commu-
9 nities often lack the resources and supports needed
10 to prevent and reverse youth disconnection.

11 (15) Many at-risk or opportunity youth, finding
12 that traditional pathways to educational attainment
13 or employment are ill-matched to their individual
14 needs, struggle to remain connected or reconnect to
15 school and work.

16 (16) For some youth, individual barriers—such
17 as unstable housing, lack access to affordable child
18 care or transportation, or involvement in the juvenile
19 or criminal justice system—make it difficult to take
20 advantage of existing employment and education
21 pathways.

22 (17) According the 2016 report, “Supportive
23 Services in Job Training and Education: A Research
24 Review”, studies suggest that education and training
25 programs that offer supportive services, such as

1 child care, transportation, and financial assistance,
2 are associated with improved outcomes.

3 (18) Community-based preventions and inter-
4 ventions can address the distinct problems oppor-
5 tunity youth may face in the local community and
6 provide a connection to the education and training,
7 re-engagement, and supportive services needed to
8 help these young people succeed.

9 (19) Previous Federal grant programs targeting
10 communities with high rates of poverty have been
11 successful in building such communities' capacity to
12 improve labor market participation and education at-
13 tainment rates for young people.

14 **SEC. 12103. AUTHORIZATION OF APPROPRIATIONS.**

10 with, Indian tribes, tribal organizations, Alaska Na-

14 (b) WITHIN STATE ALLOCATIONS.—

15 (1) IN GENERAL.—The Governor of a State, in
16 accordance with the State plan developed under sec-
17 tion 102 or 103 of the Workforce Innovation and
18 Opportunity Act (29 U.S.C. 3112, 3113), shall allo-
19 cate the amounts that are allotted to the State
20 under subsection (a)(1) to eligible local areas in ac-
21 cordance with section 128(b)(2)(A) of the Workforce

2 made available for summer youth employment pro-
3 grams under this section shall supplement and not

7 Workforce Innovation and Opportunity Act (29
8 U.S.C. 3163).

9 (3) REALLOCATION AMONG LOCAL AREAS.—The
10 Governor may, after consultation with the State
11 board, reallocate to eligible local areas within the
12 State amounts that are made available to local areas
13 from allocations made under this section and that
14 are available for reallocation in accordance with sec-
15 tion 128(c)(2)–(4) of the Workforce Innovation and
16 Opportunity Act (29 U.S.C. 3163(c)(2)–(4)).

17 (4) LOCAL RESERVATION.—Of the amounts al-
18 located to a local area under paragraph (1), not
19 more than 7 percent of such amounts may be used

1 **Subtitle FF—Expanding Broadcast**
2 **Ownership Opportunities**

3 **SEC. 14201. SHORT TITLE.**

4 This subtitle may be cited as the “Expanding Broad-
5 cast Ownership Opportunities Act of 2020”.

6 **SEC. 14202. FINDINGS.**

7 Congress finds the following:

8 (1) One of the main missions of the Federal
9 Communications Commission, and a compelling gov-
10 ernmental interest, is to ensure that there is a diver-
11 sity of ownership and viewpoints in the broadcasting
12 industry.

13 (2) The Commission should continue to collect
14 relevant data and conduct studies on such diversity
15 and make appropriate recommendations to Congress
16 on how to increase the number of minority- and
17 women-owned broadcast stations.

18 (3) Data from 2014 shows that, of the over
19 1,700 commercial broadcast television stations in the
20 United States, less than 6 percent are owned by
21 women, and less than 3 percent are minority-owned.
22 With respect to radio stations, women owned ap-
23 proximately 7 percent of FM broadcast radio sta-
24 tions, and minorities owned less than 3 percent of
25 such stations.

1 (4) Women and minority ownership is 5 to 10
2 times higher in other industries than in the broad-
3 casting industry.

4 (5) During the 17 years that a minority tax
5 certificate program was in place at the Commission
6 (from 1978 to 1995), the Commission issued 287
7 certificates for radio stations and 40 certificates for
8 television stations.

9 (6) The Commission can also support minority-
10 and women-owned entrants into the broadcasting in-
11 dustry by implementing an incubator program in
12 which existing licensees assist new entrants in the
13 operation of broadcast stations.

14 **SEC. 14203. FCC REPORTS TO CONGRESS.**

15 (a) BIENNIAL REPORT CONTAINING RECOMMENDA-
16 TIONS FOR INCREASING NUMBER OF MINORITY- AND
17 WOMEN-OWNED BROADCAST STATIONS.—Not later than
18 180 days after the date of the enactment of this Act, and
19 not less frequently than every 2 years thereafter, the Com-
20 mission shall submit to Congress a report containing rec-
21 ommendations for how to increase the total number of
22 broadcast stations that are owned or controlled by mem-
23 bers of minority groups or women, or by both members
24 of minority groups and women.

1 (b) BIENNIAL REPORT ON NUMBER OF MINORITY-
2 AND WOMEN-OWNED BROADCAST STATIONS.—Not later
3 than 180 days after the date of the enactment of this Act,
4 and not less frequently than every 2 years thereafter, the
5 Commission shall submit to Congress a report that states
6 the total number of broadcast stations that are owned or
7 controlled by members of minority groups or women, or
8 by both members of minority groups and women, based
9 on data reported to the Commission on Form 323.

16 **SEC. 15201. SHORT TITLE.**

17 This subtitle may be cited as the “Jobs, On-the-Job
 18 ‘Earn-While-You-Learn’ Training, and Apprenticeships
 19 for Young African-Americans Act”.

20 **SEC. 15202. FINDINGS AND PURPOSE.**

21 (a) FINDINGS.—Congress finds the following:

22 (1) Young African-American men and women
 23 are the hardest hit by economic instability. Declared
 24 and affirmed by the Federal Reserve, African Ameri-
 25 cans face unemployment rates that are two to three

1 times higher than their White counterparts for the
2 last several decades.

3 (2) During economic recessions in 1974–75,
4 1981–82, 1990–91, and 2008, the African-American
5 community faced significantly higher unemployment
6 rates than their White counterparts.

7 (3) Even during times of economic growth, Af-
8 rican-American communities experience prolonged fi-
9 nancial vulnerability and delayed recovery. Unem-
10 ployment rates decline at a slower rate for African-
11 American men, and even a slower rate for African-
12 American women as compared to their White coun-
13 terparts.

14 (4) This extraordinarily high unemployment
15 rate has a terrible rippling impact on the breakdown
16 of the family structure, as men and women in this
17 age group are in the primary child-producing ages.

18 (5) Affirmed by the Department of Labor, di-
19 versity and inclusion within the workforce benefits
20 employees and businesses across all industries, in-
21 cluding apprenticeship programs, which provide eco-
22 nomic mobility to its participants.

23 (6) Through the combined efforts of building
24 trades unions and community partners at the State
25 and local level, there have been established more

1 than 150 apprenticeship readiness programs across
2 the United States that focus on creating pathways
3 to Registered Programs for people of color, women,
4 and veterans. Overall, from 2009 to 2019, building
5 trades unions and their signatory contractors have
6 invested over \$100,000,000 in outreach efforts tar-
7 geting under-represented communities to participate
8 in apprenticeship readiness programs. Of the 4,800
9 individuals who have successfully completed a build-
10 ing trades apprenticeship readiness program since
11 2016, 70 percent were from communities of color
12 and 22 percent were women.

13 (7) The disproportionately high-unemployment
14 rates, combined with low participation rates from
15 African Americans in registered apprenticeship pro-
16 grams not only constitute a national crisis but a na-
17 tional tragedy for the young African Americans,
18 many of whom are fathers and mothers who, without
19 jobs, are unable to provide for their families or
20 home.

21 (b) PURPOSE.—The purpose of this subtitle is to se-
22 cure jobs, on-the-job training, and apprenticeships for
23 young African Americans ages 18 to 39 with the labor
24 unions, general contractors, and businesses who will re-

1 build the Nation's crumbling infrastructure in cities and
2 communities throughout the Nation.

3 **SEC. 15203. SENSE OF CONGRESS.**

4 It is the sense of Congress that—

5 (1) this subtitle, while rebuilding the crumbling
6 infrastructure of this great Nation, will simulta-
7 neously help create good paying jobs and job train-
8 ing that will provide young African Americans ages
9 18 to 39 with the technical skills, computer capabili-
10 ties, and other skills necessary in this high tech-
11 nology-driven job market, thus providing young Afri-
12 can Americans with highly developed skills that will
13 make them very competitive and attractive to many
14 employers;

15 (2) this subtitle greatly exemplifies and
16 strengthens the high nobility of purpose that is the
17 founding grace of this great Nation; and

18 (3) the African-American organizations de-
19 scribed in section 15204(c) have a long and rich his-
20 tory of working to improve the lives of African
21 Americans, and can be very helpful in successfully
22 reaching, contacting, and recruiting unemployed
23 young African Americans.

2 **AND APPRENTICESHIPS FOR UNEMPLOYED**
3 **YOUNG AFRICAN AMERICANS IN REBUILDING**
4 **THE NATION'S CRUMBLING INFRASTRUC-**
5 **TURE.**

6 (a) IN GENERAL.—The Secretary of Labor shall
7 strongly and urgently encourage those labor unions, gen-
8 eral contractors, and businesses, who will rebuild the Na-
9 tion's crumbling infrastructure, transportation systems,
10 technology and computer networks, and energy distribu-
11 tion systems, to actively recruit, hire, train, and provide
12 apprentice programs registered under the National Ap-
13 prenticeship Act (29 U.S.C. 50 et seq.) to African Ameri-
14 cans ages 18 to 39 through their existing jobs and through
15 apprenticeships and earn-while-you-learn programs, reg-
16 istered under such Act. The Secretary shall provide assist-
17 ance to such labor unions, general contractors, and busi-
18 nesses through every means available under existing law
19 to help coordinate the recruitment of such individuals for
20 such jobs, on-the-job training, and apprenticeships.

21 (b) COORDINATION.—The jobs, on-the-job training,
22 and apprenticeships made available by labor unions, gen-
23 eral contractors, and businesses described in subsection
24 (a) shall be conducted in conjunction with the Secretary
25 of Labor and the labor unions and other associations
26 which the Secretary has identified as those primarily in-

1 volved in the infrastructure rebuilding described in such
2 subsection. Such coordination shall also be done in con-
3 junction with the National Joint Apprenticeship and
4 Training Committee.

5 (c) RECRUITMENT.—The Secretary shall coordinate
6 with labor unions, general contractors, and businesses de-
7 scribed in subsections (a) and (b) to recruit African Amer-
8 icans for the jobs, on-the-job training, and apprenticeships
9 described in subsection (a) by reaching out and seeking
10 assistance from within the African-American community,
11 churches, and civil rights organizations that can offer val-
12 uable assistance to the Secretary of Labor, the labor
13 unions, general contractors, and businesses with identi-
14 fying, locating, and contacting unemployed young African
15 Americans who want jobs, on-the-job training, and ap-
16 prenticeships.

17 **Subtitle OO—Media Diversity**

18 **SEC. 15301. FINDINGS.**

19 The Congress finds the following:

20 (1) The principle that an informed and engaged
21 electorate is critical to a vibrant democracy is deeply
22 rooted in our laws of free speech and underpins the
23 virtues on which we established our Constitution, “in
24 Order to form a more perfect Union, establish Jus-
25 tice, insure domestic Tranquility, provide for the

1 common defences, promote the general Welfare, and
2 secure the Blessings of Liberty to ourselves and our
3 Posterity. . .”.

4 (2) Having independent, diverse, and local
5 media that provide exposure to a broad range of
6 viewpoints and the ability to contribute to the polit-
7 ical debate is central to sustaining that informed en-
8 gagement.

9 (3) It is in the public interest to encourage
10 source, content, and audience diversity on our Na-
11 tion’s shared telecommunications and media plat-
12 forms.

13 (4) The survival of small, independent, and di-
14 verse media outlets that serve diverse audiences and
15 local media markets is essential to preserving local
16 culture and building understanding on important
17 community issues that impact the daily lives of resi-
18 dents.

19 (5) Research by the American Society of News
20 Editors, the Radio Television Digital News Associa-
21 tion, the Pew Research Center, and others has docu-
22 mented the continued challenges of increasing diver-
23 sity among all types of media entities.

24 (6) With increasing media experience and so-
25 phistication, it is even more important to have mi-

1 nority participation in local media to ensure a di-
2 verse range of information sources are available and
3 different ideas and viewpoints are expressed to
4 strengthen social cohesion among different commu-
5 nities.

6 (7) The constriction in small, independent, and
7 diverse media outlets and limited participation of di-
8 verse populations in media ownership and decision-
9 making are combining to negatively impact our goal
10 of increasing local civic engagement and civic knowl-
11 edge through increased voter participation, member-
12 ship in civic groups, and knowledge of local political
13 and civil information.

14 **SEC. 15302. SENSE OF CONGRESS.**

15 That the Congress—

16 (1) reaffirms its commitment to diversity as a
17 core tenet of the public interest standard in media
18 policy; and

19 (2) pledges to work with media entities and di-
20 verse stakeholders to develop common ground solu-
21 tions to eliminate barriers to media diversity.

1 requirements for expungement or sealing consider-
2 ation;

3 “(2) for petitions meeting the eligibility require-
4 ments, evaluate those petitions on the merits in
5 order to make a recommendation on the advisability
6 of granting the petition; and

8 explanation, to the Chief Judge in each Federal Dis-

22 that misdemeanor or nonviolent offense conviction;
23 and

3 on the date the case is disposed of.

4 “(d) GRANT OF PETITION.—If a court grants a peti-

8 “(e) CIVIL ACTIONS.—

9 “(1) IN GENERAL.—If an individual who has a
10 record expunged or sealed under this section brings
11 an action that might be defended with the contents
12 of the record, there shall be a rebuttable presump-
13 tion that the defendant has a complete defense to
14 the action.

15 “(2) SHOWING BY PLAINTIFF.—In an action
16 described in paragraph (1), the plaintiff may rebut
17 the presumption of a complete defense by showing
18 that the contents of the record would not prevent
19 the defendant from being liable.

20 “(3) DUTY TO TESTIFY AS TO EXISTENCE OF
21 RECORD.—The court in which an action described in
22 paragraph (1) is filed may require the plaintiff to
23 state under oath whether the plaintiff had a record
24 and whether the record was expunged or sealed.

1 “(4) PROOF OF EXISTENCE OF RECORD.—If the
2 plaintiff in an action described in paragraph (1) de-
3 nied the existence of a record, the defendant may
4 prove the existence of the record in any manner
5 compatible with the applicable laws of evidence.

6 “(f) ATTORNEY GENERAL NONPUBLIC RECORDS.—
7 The Attorney General shall—

8 “(1) maintain a nonpublic database of all

15 to whom the record relates is eligible for a first-
16 time-offender diversion program;

17 “(C) for a background check that relates
18 to law enforcement employment or any employ-
19 ment that requires a Government security clear-
20 ance; or

21 “(D) if the Attorney General determines
22 that disclosure is necessary to serve the inter-
23 ests of national security; and

1 “(3) to the extent practicable, notify the indi-
2 vidual to whom the record pertains of the disclosure
3 unless it is made pursuant to paragraph (2)(D).

4 **SEC. 15603. RETROACTIVE EFFECT.**

5 This subpart and the amendments made by this sub-
6 part apply with respect to youth without regard to whether
7 they become involved in the Federal criminal justice sys-
8 tem before, on, or after the date of the enactment of this
9 Act.

10 **Subpart B—Youth Prison Reduction Through Oppor-**
11 **tunities, Mentoring, Intervention, Support, and**
12 **Education**

13 **SEC. 15611. SHORT TITLE.**

14 This subpart may be cited as the “Youth Prison Re-
15 duction through Opportunities, Mentoring, Intervention,
16 Support, and Education Act” or the “Youth PROMISE
17 Act”.

18 **SEC. 15612. DEFINITIONS.**

19 In this subpart:

20 (1) **ADMINISTRATOR.**—The term “Adminis-
21 trator” means the Administrator of the Office of Ju-
22 venile Justice and Delinquency Prevention.

23 (2) **COMMUNITY.**—The term “community”
24 means a unit of local government or an Indian tribe,
25 or part of such a unit or tribe, as determined by

1 such a unit or tribe for the purpose of applying for
2 a grant under this Act.

3 (3) DESIGNATED GEOGRAPHIC AREA.—The
4 term “designated geographic area” means a 5-digit
5 postal ZIP Code assigned to a geographic area by
6 the United States Postal Service.

7 (4) EVIDENCE-BASED.—

8 (A) IN GENERAL.—The term “evidence-
9 based”, when used with respect to a practice re-
10 lating to juvenile delinquency and criminal
11 street gang activity prevention and intervention,
12 means a practice (including a service, program,
13 activity, intervention, technology, or strategy)
14 for which the Administrator has determined—

15 (i) causal evidence documents a rela-
16 tionship between the practice and its in-
17 tended outcome, based on measures of the
18 direction and size of a change, and the ex-
19 tent to which a change may be attributed
20 to the practice; and

21 (ii) the use of scientific methods rules
22 out, to the extent possible, alternative ex-
23 planations for the documented change.

1 (B) SCIENTIFIC METHODS.—For the pur-
2 poses of subparagraph (A), the term “scientific
3 methods” means—

4 (i) evaluation by an experimental trial,
5 in which participants are randomly as-
6 signed to participate in the practice that is
7 subject to such trial; or

8 (ii) evaluation by a quasi-experimental
9 trial, in which the outcomes for partici-
10 pants are compared with outcomes for a
11 control group that is made up of individ-
12 uals who are similar to such participants.

13 (5) INTERVENTION.—The term “intervention”
14 means the provision of programs and services that
15 are supported by research, are evidence-based or
16 promising practices, and are provided to youth who
17 are involved in, or who are identified by evidence-
18 based risk assessment methods as being at high risk
19 of continued involvement in, juvenile delinquency or
20 criminal street gangs, as a result of indications that
21 demonstrate involvement with problems such as tru-
22 ancy, substance abuse, mental health treatment
23 needs, or siblings who have had involvement with ju-
24 venile or criminal justice systems.

1 (6) JUVENILE DELINQUENCY AND CRIMINAL
2 STREET GANG ACTIVITY PREVENTION.—The term
3 “juvenile delinquency and criminal street gang activ-
4 ity prevention” means the provision of programs and
5 resources to children and families who have not yet
6 had substantial contact with criminal justice or juve-
7 nile justice systems, that—

8 (A) are designed to reduce potential juve-
9 nile delinquency and criminal street gang activ-
10 ity risks; and

11 (B) are evidence-based or promising edu-
12 cational, health, mental health, school-based,
13 community-based, faith-based, parenting, job
14 training, social opportunities and experiences,
15 or other programs, for youth and their families,
16 that have been demonstrated to be effective in
17 reducing juvenile delinquency and criminal
18 street gang activity risks.

19 (7) PROMISING.—The term “promising”, when
20 used with respect to a practice relating to juvenile
21 delinquency and criminal street gang activity preven-
22 tion and intervention, means a practice (including a
23 service, program, activity, intervention, technology,
24 or strategy) that, based on statistical analyses or a

1 theory of change, the Administrator has deter-
2 mined—

3 (A) has outcomes from an evaluation that
4 demonstrate such practice reduces juvenile de-
5 linquency and criminal street gang activity; and

6 (B) is part of a study being conducted to
7 determine if such a practice is evidence-based.

8 (8) STATE.—The term “State” means each of
9 the several States, the District of Columbia, the
10 Commonwealth of Puerto Rico, the Virgin Islands,
11 American Samoa, Guam, the Northern Mariana Is-
12 lands, and any other territories or possessions of the
13 United States.

14 (9) THEORY OF CHANGE.—The term “theory of
15 change” means a program planning strategy ap-
16 proved by the Administrator that outlines the types
17 of interventions and outcomes essential to achieving
18 a set of program goals.

19 (10) YOUTH.—The term “youth” means—

20 (A) an individual who is 18 years of age or
21 younger; or

22 (B) in any State in which the maximum
23 age at which the juvenile justice system of such
24 State has jurisdiction over individuals exceeds

1 18 years of age, an individual who is such max-
2 imum age or younger.

3 **SEC. 15613. FINDINGS.**

4 The Congress finds as follows:

5 (1) Youth gang crime has taken a toll on a
6 number of communities, and senseless acts of gang-
7 related violence have imposed economic, social, and
8 human costs.

9 (2) Drug- and alcohol-dependent youth, and
10 youth dually diagnosed with addiction and mental
11 health disorders, are more likely to become involved
12 with the juvenile justice system than youth without
13 such risk factors, absent appropriate prevention and
14 intervention services.

15 (3) Children of color are over-represented rel-
16 ative to the general population at every stage of the
17 juvenile justice system. Black youth are 17 percent
18 of the United States population, but represent 38
19 percent of youth in secure placement juvenile facili-
20 ties, and 58 percent of youth incarcerated in adult
21 prisons.

22 (4) Research funded by the Department of Jus-
23 tice indicates that gang membership is short-lived
24 among adolescents. With very few youth remaining

1 gang-involved throughout their adolescent years, on-
2 going opportunities for intervention exist.

3 (5) Criminal justice costs have become burden-
4 some in many States and cities, requiring reductions
5 in vital educational, social, welfare, mental health,
6 and related services.

7 (6) Direct expenditures for each of the major
8 criminal justice functions, police, corrections, and ju-
9 dicial services, have increased steadily over the last
10 30 years. In fiscal year 2012, Federal, State, and
11 local governments spent an estimated
12 \$265,000,000,000 for police protection, corrections,
13 and judicial and legal services, nearly a 213-percent
14 increase since 1982.

15 (7) Estimates suggest that each year the
16 United States incurs over \$8,000,000,000 in long-
17 term costs for the confinement of young people. The
18 average annual cost to incarcerate one youth is
19 \$146,302.

20 (8) Coordinated efforts of stakeholders in the
21 juvenile justice system in a local community, to-
22 gether with other organizations and community
23 members concerned with the safety and welfare of
24 children, have a strong record of demonstrated suc-
25 cess in reducing the impact of youth and gang-re-

1 lated crime and violence, as demonstrated in Boston,
2 Massachusetts; Chicago, Illinois; Richmond, Vir-
3 ginia; Los Angeles, California; and other commu-
4 nities.

5 (9) Investment in prevention and intervention
6 programs for children and youth, including quality
7 early childhood programs, comprehensive evidence-
8 based school, after school, and summer school pro-
9 grams, mentoring programs, mental health and
10 treatment programs, evidence-based job training
11 programs, and alternative intervention programs,
12 has been shown to lead to decreased youth arrests,
13 decreased delinquency, lower recidivism, and greater
14 financial savings from an educational, economic, so-
15 cial, and criminal justice perspective.

16 (10) Quality early childhood education pro-
17 grams have been demonstrated to help children start
18 school ready to learn and to reduce delinquency and
19 criminal street gang activity risks.

20 (11) Evidence-based mentoring programs have
21 been shown to prevent youth drug abuse and vio-
22 lence.

23 (12) Evidence-based school-based comprehen-
24 sive instructional programs that pair youth with re-

1 sponsible adult mentors have been shown to have a
2 strong impact upon delinquency prevention.

3 (13) After-school programs that connect chil-
4 dren to caring adults and that provide constructive
5 activities during the peak hours of juvenile delin-
6 quency and criminal street gang activity, between 3
7 p.m. and 6 p.m., have been shown to reduce delin-
8 quency and the attendant costs imposed on the juve-
9 nile and criminal justice systems.

10 (14) States with higher levels of educational at-
11 tainment have been shown to have crime rates lower
12 than the national average. Researchers have found
13 that a 5-percent increase in male high school grad-
14 uation rates would produce an annual estimated sav-
15 ings of \$18,500,000,000 in crime-related expenses.

16 (15) Therapeutic programs that engage and
17 motivate high-risk youth and their families to
18 change behaviors that often result in criminal activ-
19 ity have been shown to significantly reduce recidi-
20 vism among juvenile offenders, and significantly re-
21 duce the attendant costs of crime and delinquency
22 imposed upon the juvenile and criminal justice sys-
23 tems.

24 (16) Comprehensive programs that target kids
25 who are already serious juvenile offenders by ad-

1 dressing the multiple factors in peer, school, neigh-
2 borhood, and family environments known to be re-
3 lated to delinquency can reduce recidivism among ju-
4 venile offenders and save the public significant eco-
5 nomic costs.

6 (17) There are many alternatives to incarceration
7 ation of youth that have been proven to be more ef-
8 fective in reducing crime and violence at the Na-
9 tional, State, local, and tribal levels, and the failure
10 to provide for such effective alternatives is a perva-
11 sive problem that leads to increased youth, and later
12 adult, crime and violence.

13 (18) Savings achieved through early interven-
14 tion and prevention are significant, especially when
15 noncriminal justice social, educational, mental
16 health, and economic outcomes are considered.

17 (19) The prevention of child abuse and neglect
18 can help stop a cycle of violence and save up to
19 \$5.00 for every \$1.00 invested in preventing such
20 abuse and neglect.

21 (20) Targeting interventions at special youth
22 risk groups and focusing upon relatively low-cost
23 interventions increases the probability of fiscal ben-
24 efit.

1 (21) Evidence-based intervention treatment fa-
2 cilities have been shown to reduce youth delinquency
3 and to be cost-effective.

4 (22) States, including Wisconsin, Ohio, New
5 York, Texas, and Pennsylvania, have seen a reduc-
6 tion in juvenile incarceration due to a reallocation of
7 criminal justice funds towards prevention programs.

7 **Subtitle A—Commission to Study**
8 **and Develop Reparation Pro-**
9 **posals for African-Americans**

10 **SEC. 20101. SHORT TITLE.**

11 This subtitle may be cited as the “Commission to
12 Study and Develop Reparation Proposals for African-
13 Americans Act”.

14 **SEC. 20102. FINDINGS AND PURPOSE.**

15 (a) FINDINGS.—The Congress finds that—

16 (1) approximately 4,000,000 Africans and their
17 descendants were enslaved in the United States and
18 colonies that became the United States from 1619 to
19 1865;

20 (2) the institution of slavery was constitu-
21 tionally and statutorily sanctioned by the Govern-
22 ment of the United States from 1789 through 1865;

23 (3) the slavery that flourished in the United
24 States constituted an immoral and inhumane depri-
25 vation of Africans’ life, liberty, African citizenship

1 rights, and cultural heritage, and denied them the
2 fruits of their own labor;

3 (4) a preponderance of scholarly, legal, commu-
4 nity evidentiary documentation and popular culture
5 markers constitute the basis for inquiry into the on-
6 going effects of the institution of slavery and its leg-
7 acy of persistent systemic structures of discrimina-
8 tion on living African-Americans and society in the
9 United States; and

10 (5) following the abolition of slavery the United
11 States Government, at the Federal, State, and local
12 level, continued to perpetuate, condone and often
13 profit from practices that continued to brutalize and
14 disadvantage African-Americans, including share
15 cropping, convict leasing, Jim Crow, redlining, un-
16 equal education, and disproportionate treatment at
17 the hands of the criminal justice system; and

18 (6) as a result of the historic and continued dis-
19 crimination, African-Americans continue to suffer
20 debilitating economic, educational, and health hard-
21 ships including but not limited to having nearly
22 1,000,000 black people incarcerated; an unemploy-
23 ment rate more than twice the current white unem-
24 ployment rate; and an average of less than $\frac{1}{16}$ of

1 the wealth of white families, a disparity which has
2 worsened, not improved over time.

3 (b) PURPOSE.—The purpose of this subtitle is to es-
4 tablish a commission to study and develop Reparation pro-
5 posals for African-Americans as a result of—

6 (1) the institution of slavery, including both the
7 Trans-Atlantic and the domestic “trade” which ex-
8 isted from 1565 in colonial Florida and from 1619
9 through 1865 within the other colonies that became
10 the United States, and which included the Federal
11 and State governments which constitutionally and
12 statutorily supported the institution of slavery;

13 (2) the de jure and de facto discrimination
14 against freed slaves and their descendants from the
15 end of the Civil War to the present, including eco-
16 nomic, political, educational, and social discrimina-
17 tion;

18 (3) the lingering negative effects of the institu-
19 tion of slavery and the discrimination described in
20 paragraphs (1) and (2) on living African-Americans
21 and on society in the United States;

22 (4) the manner in which textual and digital in-
23 structional resources and technologies are being used
24 to deny the inhumanity of slavery and the crime

1 against humanity of people of African descent in the
2 United States;

3 (5) the role of Northern complicity in the
4 Southern based institution of slavery;

5 (6) the direct benefits to societal institutions,
6 public and private, including higher education, cor-
7 porations, religious and associational;

8 (7) and thus, recommend appropriate ways to
9 educate the American public of the Commission's
10 findings;

11 (8) and thus, recommend appropriate remedies
12 in consideration of the Commission's findings on the
13 matters described in paragraphs (1), (2), (3), (4),
14 (5), and (6); and

15 (9) submit to the Congress the results of such
16 examination, together with such recommendations.

17 **SEC. 20103. ESTABLISHMENT AND DUTIES.**

16 colonies and the United States, including the

18 their labor, and destruction of their culture,
19 language, religion, and families; and

20 (E) the extensive denial of humanity, sex-
21 ual abuse and the chattelization of persons.

22 (2) The role which the Federal and State gov-
23 ernments of the United States supported the institu-
24 tion of slavery in constitutional and statutory provi-
25 sions, including the extent to which such govern-

1 ments prevented, opposed, or restricted efforts of
2 formerly enslaved Africans and their descendants to
3 repatriate to their homeland.

4 (3) The Federal and State laws that discrimi-
5 nated against formerly enslaved Africans and their
6 descendants who were deemed United States citizens
7 from 1868 to the present.

8 (4) The other forms of discrimination in the
9 public and private sectors against freed African
10 slaves and their descendants who were deemed
11 United States citizens from 1868 to the present, in-
12 cluding redlining, educational funding discrepancies,
13 and predatory financial practices.

23 (6). In making such recommendations, the Commis-

25 questions:

1 (A) How such recommendations comport

4 include full reparations and special measures,
5 as understood by various relevant international
6 protocols, laws, and findings.

7 (B) How the Government of the United
8 States will offer a formal apology on behalf of
9 the people of the United States for the per-
10 petration of gross human rights violations and
11 crimes against humanity on African slaves and
12 their descendants.

13 (C) How Federal laws and policies that
14 continue to disproportionately and negatively
15 affect African-Americans as a group, and those
16 that perpetuate the lingering effects, materially
17 and psycho-social, can be eliminated.

18 (D) How the injuries resulting from mat-
19 ters described in paragraphs (1), (2), (3), (4),
20 (5), and (6) can be reversed and provide appro-
21 priate policies, programs, projects and rec-
22 ommendations for the purpose of reversing the
23 injuries.

1 (E) How, in consideration of the Commis-

1 **Subtitle C—Minority Bank Deposit**
2 **Program**

3 **SEC. 20301. FINDINGS.**

4 Congress finds the following:

5 (1) On March 5, 1969, pursuant to Executive
6 Order 11458, the Minority Bank Deposit Program
7 was established as a national program supporting
8 minority-owned business enterprise. It was expanded
9 in 1971 under Executive Order 11625 and in 1979
10 under Executive Order 12138. The Competitive
11 Equality Banking Act of 1987 (Public Law 100–86)
12 and the Financial Institutions Reform, Recovery and
13 Enforcement Act of 1989 (Public Law 101–73) in-
14 clude provisions supporting the intent of the Minor-
15 ity Bank Deposit Program.

16 (2) Under the leadership of President Jimmy
17 Carter, on April 8, 1977, a memorandum for all
18 heads of Federal agencies and departments was
19 signed. This document promoted the use of minor-
20 ity-owned business enterprises by placing deposits in
21 minority banks. The agency assigned to head this
22 program was the Department of the Treasury.

23 (3) The Fiscal Assistant Secretary of the De-
24 partment of the Treasury is responsible for certi-

1 fying financial institutions that are eligible for par-
 2 ticipation in the Minority Bank Deposit Program.

3 (4) Although the program continues today, the
 4 overwhelming majority of financial institutions cer-
 5 tified under the Minority Bank Deposit Program do
 6 not have existing relationships with the Federal
 7 agencies which suggests the need for reforms to in-
 8 crease utilization of eligible institutions.

9 **SEC. 20302. MINORITY BANK DEPOSIT PROGRAM.**

2 **Leadership**

3 **SEC. 20401. SHORT TITLE.**

4 This subtitle may be cited as the “Ensuring Diverse
5 Leadership Act of 2020”.

6 **SEC. 20402. CONGRESSIONAL FINDINGS.**

7 The Congress finds that—

8 (1) while significant progress has occurred due
9 to the antidiscrimination amendments to the Federal
10 Reserve Act, barriers continue to pose significant ob-
11 stacles for candidates reflective of gender diversity
12 and racial or ethnic diversity for Federal Reserve
13 bank president positions in the Federal Reserve Sys-
14 tem;

15 (2) the continuing barriers described in para-
16 graph (1) merit the following amendment;

17 (3) Congress has received and reviewed testi-
18 mony and documentation of the historical lack of
19 gender, racial, and ethnic diversity from numerous
20 sources, including congressional hearings, scientific
21 reports, reports issued by public and private agen-
22 cies, news stories, and reports of related barriers by
23 organizations and individuals, which show that
24 race-, ethnicity-, and gender-neutral efforts alone are
25 insufficient to address the problem;

1 (4) the testimony and documentation described
2 in paragraph (3) demonstrate that barriers across
3 the United States prove problematic for full and fair
4 participation in developing monetary policy by indi-
5 viduals reflective of gender diversity and racial or
6 ethnic diversity; and

7 (5) the testimony and documentation described
8 in paragraph (3) provide a strong basis that there
9 is a compelling need for the below amendment to ad-
10 dress the historical lack of gender, racial, and ethnic
11 diversity in the Federal Reserve regional bank presi-
12 dents selection process in the Federal Reserve Sys-
13 tem.

14 **SEC. 20403. FEDERAL RESERVE BANK PRESIDENTS.**

19 appointment of a president, the bank shall interview at
20 least one individual reflective of gender diversity and one

22 (b) REPORT.—Not later than January 1 of each year,
23 each Federal reserve bank shall submit to the Committee
24 on Banking, Housing, and Urban Affairs of the Senate,
25 the Committee on Financial Services of the House of Rep-

1 representatives, and the Office of Inspector General for the

7 **SEC. 20501. SHORT TITLE.**

8 This subtitle may be cited as the “Startup Oppor-
9 tunity Accelerator Act of 2020” or the “SOAR Act”.

10 **SEC. 20502. FINDINGS.**

11 Congress finds that—

12 (1) startups have contributed greatly to the
13 United States economy, with research showing that
14 between 1982 and 2011, businesses 5 years or
15 younger were responsible for nearly every net new
16 job created;

17 (2) startups face common challenges as they
18 seek to transform their ideas into successful, high-
19 growth businesses;

20 (3) 4 metropolitan areas in 3 States—the San
21 Francisco Bay Area, New York City, Boston, and
22 Los Angeles—receive nearly 75 percent of all ven-
23 ture capital investment, which is a critical source of
24 funding for high-growth startups;

1 (4) of startups that receive venture capital
2 funding, 2 percent are African-American-owned, 6
3 percent are Latino-owned, and only 13 percent are
4 owned solely by women;

5 (5) incubators and accelerators are new models
6 of growth that drive innovation by connecting entre-
7 preneurial individuals and teams to create viable
8 business ventures and social initiatives;

9 (6) incubators and accelerators support prom-
10 ising startups through partnerships, mentoring, and
11 resources connecting them with seasoned entre-
12 preneurs;

13 (7) the goal of an incubator or an accelerator
14 is to help create and grow young businesses by pro-
15 viding them with necessary financial, technical, and
16 industry support and financial and technical serv-
17 ices; and

18 (8) startups offer unique opportunities for
19 growth and development for women, minority, and
20 veterans to become successful entrepreneurs and
21 leaders in new and developed fields.

10 This subtitle may be cited as the “EITC Moderniza-
11 tion Act of 2020”.

12 **SEC. 30202. FINDINGS.**

13 Congress finds the following:

14 (1) The Federal earned income tax credit is a
15 refundable tax credit for lower- and middle-income
16 working individuals and families whose earnings are
17 below an income threshold.

18 (2) Since its establishment in 1975, the credit
19 has increased family income, reduced child poverty,
20 and promoted employment by supplementing the
21 earnings of low-wage workers, including military
22 families.

23 (3) The credit has a positive impact on the edu-
24 cation and health of children living in poverty.

1 (4) The credit has a positive economic impact
 2 on local economies and businesses because it puts
 3 more money in the hands of low- and middle-income
 4 working people who spend the money on immediate
 5 needs, such as groceries, school supplies, car repairs,
 6 rent, and health care.

7 (5) The widening gap between the incomes of
 8 the wealthiest Americans and those of middle- and
 9 lower-income Americans is alarming.

10 (6) There is an urgent need to address that
 11 gap, including through measures like this legislation
 12 and by raising the Federal minimum wage which to-
 13 gether increase the wages of working Americans,
 14 widen the path to income stability, and narrow in-
 15 come inequality.

1 **Subtitle J—Protections Against**
2 **Poverty**

3 **SEC. 31001. FINDINGS.**

4 Congress finds the following:

5 (1) According to the Census Bureau, more than
6 38,000,000 people, including 12,000,000 children,
7 lived in poverty in 2018 based on the Official Pov-
8 erty Measure.

9 (2) More than 17,000,000 people lived in deep
10 poverty, defined as living in a household with a total
11 cash income below 50 percent of its poverty thresh-
12 old.

13 (3) Poverty disproportionately impacts commu-
14 nities of color, with the poverty rate at 20.8 percent
15 for Blacks, 17.6 percent for Hispanics, and 10.1
16 percent for Asians, versus 8.1 percent for non-His-
17 panic Whites.

18 (4) The Official Poverty Measure often under-
19 states the number of people who have trouble mak-
20 ing ends meet.

21 (5) According to a 2020 Federal Reserve report
22 on the economic well-being of United States house-
23 holds, an estimated 37 percent of people cannot
24 cover an unexpected \$400 expense.

1 (6) The top one percent of United States house-
2 holds have experienced income growth before taxes
3 and transfer payments nearly seven times faster
4 than the bottom 20 percent of households since
5 1979.

6 (7) Wealth has become even more concentrated
7 than income.

8 (8) According to the Federal Reserve Bank of
9 St. Louis, the top 10 percent of United States
10 households ranked by wealth own 77 percent of the
11 country's total wealth while those in the bottom 50
12 percent own one percent.

13 (9) A full-time, full-year minimum wage worker
14 at the Federal minimum wage level of \$7.25 lives
15 below the poverty line.

16 (10) A vast majority of low wage earners lack
17 access to paid family leave, leaving them just one ac-
18 cident or illness away from economic devastation.

19 (11) Unions increase workers' wages, ensure ac-
20 cess to better benefits, address wage inequality, and
21 reduce poverty.

22 (12) 5,140,000 Americans aged 65 and older
23 lived in poverty in 2018.

1 (13) According to the United States Census
2 Bureau, 27,500,000 people did not have health in-
3 surance at any point in 2018.

4 (14) According to the Federal Reserve, 25 per-
5 cent of adults reported skipping medical care, such
6 as a visit to a doctor or dentist, because they were
7 unable to afford the cost in 2019.

8 (15) Minority and low-income individuals are
9 disproportionately affected by air pollution and are
10 more likely to face health conditions that put them
11 at greater risk when exposed to hazardous air pollu-
12 tion.

13 (16) Families living in poverty also struggle to
14 afford childcare, housing, utilities, and food ex-
15 penses.

16 (17) According to the United States Census
17 Bureau, households with incomes less than the Fed-
18 eral poverty level who pay for childcare spend on av-
19 erage four times the percentage of their income on
20 it as do other families.

21 (18) In 2017, 83 percent of renter households
22 with incomes below \$15,000 paid more than 30 per-
23 cent of their total household income for housing, ex-
24periencing housing costs burdens, and 72 percent

1 paid more than 50 percent of their income for hous-
2 ing, experiencing severe cost burdens.

3 (19) Water and wastewater bills are increas-
4 ingly unaffordable for millions of households nation-
5 wide.

6 (20) According to the Energy Information Ad-
7 ministration, nearly one-third of United States
8 households reported facing a challenge in paying en-
9 ergy bills or sustaining adequate heating and cooling
10 in their homes in 2015.

11 (21) More than 20,000,000 Americans lack ac-
12 cess to any broadband whatsoever and many more
13 are unable to adopt broadband, primarily due to pro-
14 hibitive costs.

15 (22) Limited access to technology and
16 broadband services makes it difficult for people to
17 apply for jobs online, connect with health insurance,
18 apply for financial aid, telework, or complete online
19 homework.

20 (23) According to the Department of Agri-
21 culture, 37,200,000 people, including 11,200,000
22 children, lived in food-insecure households in 2018.

23 (24) 5,600,000 households had very low food
24 security, defined as households in which the food in-
25 take of one or more members was reduced and eat-

1 ing patterns disrupted because of insufficient money
2 and other resources for food.

3 (25) According to a 2009 Department of Agri-
4 culture report on access to affordable and nutritious
5 food, millions of people live in food deserts, or areas
6 where they are more than a mile from a super-
7 market.

8 (26) Reliable and affordable public transpor-
9 tation is critical to accessing employment, food,
10 health care, and education.

11 (27) The educational level attained by individ-
12 uals has a dramatic impact on poverty, with 25.9
13 percent of adults over 25 years old without a high
14 school diploma in poverty versus 12.7 percent for
15 those with a high school degree, but no college, and
16 4.4 percent for those with a college degree.

17 (28) According to the Government Account-
18 ability Office, socioeconomic and racial segregation
19 in schools has increased dramatically in the past
20 decade.

21 (29) Low-income individuals are more likely to
22 be targeted by child welfare services and the crimi-
23 nal justice system and live in communities with high
24 rates of violence and heavy police presence.

1 (30) Low-income parents have their children re-
2 moved from the household every day, because living
3 in poverty is incorrectly treated as child neglect.

4 (31) The criminal justice system often punishes
5 poverty, as court fees and fines disproportionately
6 impact the poor.

7 (32) Police are most likely to use deadly force
8 in low-income, more highly segregated neighbor-
9 hoods.

10 (33) Low-income communities often have lim-
11 ited social capital and political voice.

12 (34) Strict voter ID requirements, closures of
13 polling places, limited access to alternatives to in-
14 person voting and other voter suppression tactics
15 disproportionately impact poor and minority Ameri-
16 cans.

17 (35) The effects of poverty are widespread,
18 long-lasting, and dangerous, and leave families vul-
19 nerable to unexpected events.

20 (36) Adults who were poor during childhood are
21 more likely to experience poverty as adults, are less
22 likely to graduate high school, and are less likely to
23 be consistently employed as young adults.

24 (37) Lower incomes are associated with shorter
25 life expectancies.

1 (38) The COVID–19 pandemic threatens to in-
2 crease health, food, housing, and economic insecurity
3 and push millions of people into poverty.

4 (39) Low-income and minority communities
5 have long experienced inadequate access to health
6 care, housing, nutritious food, and education and
7 economic opportunity, which increase the prevalence
8 of COVID–19 risk factors, such as diabetes, asthma,
9 heart disease, and high blood pressure.

10 (40) The COVID–19 pandemic has exposed and
11 exacerbated the inequality and poverty afflicting the
12 United States, as well as underlined the short-
13 comings of its social safety net programs.

14 **SEC. 31002. SENSE OF THE HOUSE OF REPRESENTATIVES.**

15 It is the sense of the House of Representatives that
16 the Congress should enact the Poverty Bill of Rights to
17 reaffirm the right of all Americans to live a life free from
18 poverty and its impacts, including the right to—

19 (1) equal opportunity, irrespective of race, gen-
20 der, or socioeconomic status;

21 (2) working family tax credits, such as the
22 Child Tax Credit and the Earned Income Tax Cred-
23 it, that are proven to lift families out of poverty, free
24 from onerous eligibility requirements;

1 (3) a livable wage that is enough to ensure ade-
2 quate housing, food, clothing, and other basic house-
3 hold needs;

4 (4) robust paid leave programs so they can care
5 for themselves, their families, and dependents with-
6 out fear of financial devastation;

7 (5) emergency financial assistance in times of
8 unemployment;

9 (6) unionize to negotiate for higher wages, bet-
10 ter benefits, and safe working conditions;

11 (7) financial security for themselves and their
12 families during retirement years;

13 (8) quality, affordable health care and prescrip-
14 tion drugs;

15 (9) clean air through robust environmental and
16 public health policies;

17 (10) high-quality, affordable, and reliable
18 childcare;

19 (11) accessible, affordable, safe housing;

20 (12) safe, clean, and affordable water and
21 wastewater services;

22 (13) affordable, reliable energy service;

23 (14) equitable access to technology and tele-
24 phone and broadband services;

1 (15) adequate access to affordable and nutri-
2 tious foods;

3 (16) reliable, efficient, and affordable public
4 transportation;

5 (17) high-quality, equitable PreK–12 public
6 education;

7 (18) safe public schools that promote racial and
8 socioeconomic diversity;

9 (19) access to affordable higher education, reg-
10 istered apprenticeships, and other vocational train-
11 ing opportunities;

12 (20) live with their families and not be sepa-
13 rated from each other on the basis of poverty;

14 (21) safe neighborhoods, where they are pro-
15 tected by law enforcement, not targeted, profiled,
16 harassed, and brutalized;

17 (22) equal treatment in criminal justice set-
18 tings, free from discrimination; and

19 (23) equal representation and participation in
20 democracy through unfettered, unabridged access to
21 the ballot box, accessible polling places, and alter-
22 natives to traditional in-person voting, such as early
23 voting and voting by mail.

 11 1986 is amended by inserting after section 36 the fol-
 12 lowing new section:

13 **“SEC. 36A. MIDDLE CLASS TAX CREDIT.**

14 **“(a) ALLOWANCE OF CREDIT.—**

15 **“(1) IN GENERAL.—**In the case of an eligible
 16 individual, for any taxable year beginning after De-
 17 cember 31, 2018, there shall be allowed as a credit
 18 against the tax imposed by this subtitle for the tax-
 19 able year an amount equal to so much of the tax-

 21 as does not exceed \$3,000.

22 **“(2) PHASEOUT OF CREDIT.—**The amount of
 23 the credit allowable to the taxpayer under paragraph
 24 (1) for the taxable year shall be reduced (but not

2 such paragraph as—

3 “(A) the amount (not less than zero) equal

5 earned income) of the taxpayer for the pre-
6 ceding taxable year minus \$30,000, bears to

7 “(B) \$20,000.

8 “(3) JOINT RETURNS.—

9 “(A) IN GENERAL.—For purposes of deter-
10 mining the amount of the credit allowed under
11 this section for any taxable year, if a joint re-

13 an eligible individual and such individual’s
14 spouse, each of the dollar amounts under para-

7 “(5) INFLATION ADJUSTMENTS.—

8 “(A) IN GENERAL.—In the case of any
9 taxable year after 2019, each of the dollar

18 paragraph (A)(ii) thereof.

19 “(B) ROUNDING.—If any increase deter-
20 mined under subparagraph (A) is not a multiple
21 of \$50, such increase shall be rounded to the

15 section 911 for the preceding taxable year.

16 “(B) LIMITATION ON ELIGIBILITY OF NON-
17 RESIDENT ALIENS.—The term ‘eligible indi-

18 shall be treated as in the United States during
19 any period during which such member is sta-

21 on extended active duty with the Armed Forces
22 of the United States. For purposes of the pre-

1 call or order to such duty for a period in excess
2 of 90 days or for an indefinite period.

3 “(2) EARNED INCOME.—The term ‘earned in-

Subtitle N—Pathways Out of Poverty

SEC. 31401. FINDINGS.

Congress finds the following:

(1) The persistence of poverty, and especially intergenerational poverty, in America can be seen as a deep, structural problem that implicates our value system and our educational and economic institutions.

(2) Poverty may be defined as the lack of basic necessities of life such as food, shelter, clothing, health care, education, economic security, and economic opportunity.

(3) Policy initiatives and many safety net programs addressing poverty have not kept pace with the needs of millions of Americans.

(4) The lack of an equitable distribution of housing choices across the country leads to isolation and concentrated poverty.

(5) The number of Americans living in poverty rose by over 2.6 million from 2009 to 2010 (U.S. Census Bureau, September 2011).

(6) There were 46.2 million Americans living in poverty in 2010, consisting of 15.1 percent of the

1 American people (U.S. Census Bureau, September
2 2011).

3 (7) Poverty has a disproportionate impact on
4 minority communities in America with 27.4 percent
5 of African Americans, 26.6 percent of Hispanics,
6 12.1 percent of Asian Americans, and 9.9 percent of
7 Whites living in poverty in the United States in
8 2010 (U.S. Census Bureau, September 2011).

9 (8) In 2010 a family of 4 was considered poor
10 under the U.S. Census Bureau's official measure if
11 the family's income was below \$22,314.

12 (9) The economic consequences of poverty in
13 the United States are estimated to be at least \$500
14 billion per year (Center for American Progress,
15 2007).

16 (10) Children who grow up in poverty experi-
17 ence higher crime rates, decreased productivity, and
18 higher health costs over their lives (Center for Amer-
19 ican Progress, 2007).

20 (11) 3,500,000 seniors lived in poverty in 2010
21 (U.S. Census Bureau, 2011).

22 (12) Young Americans, ages 18–24, experience
23 a higher poverty rate than the national average
24 (U.S. Census Bureau, 2011).

1 (13) 16,400,000 children lived in poverty in
2 2010—more than one in every five American chil-
3 dren (U.S. Census Bureau, 2011).

4 (14) Almost 35 percent of African-American
5 children and over 30 percent of Hispanic children
6 lived in poverty in 2009 (U.S. Census Bureau,
7 2011).

8 (15) The 46,180,000 of Americans in poverty
9 in 2010 was the largest number yet recorded in the
10 52 years for which poverty estimates are available
11 (U.S. Census Bureau, 2011).

12 (16) The United States overseas territories
13 have high levels of poverty and varying access to
14 Federal anti-poverty programs. Poverty rates in
15 2009 for people over 18 were 41.4 percent in Puerto
16 Rico, 53.7 percent in Guam, 65.1 percent in the
17 United States Virgin Islands, 66.6 percent in the
18 Commonwealth of the Northern Mariana Islands,
19 and 52.6 percent in American Samoa.

20 (17) Individuals and families in poverty are
21 more socially vulnerable to natural disasters, ex-
22 treme weather and impacts of climate change and
23 have greater difficulty preparing for, responding to
24 and recovering from such events (Oxfam America,
25 2009).

1 (18) Children who live in families who fall into
2 poverty for even short periods of time are at greater
3 risk of a lifetime of lower earnings, lower edu-
4 cational attainment, and increased reliance on public
5 services and increased rates of incarceration (First
6 Focus, 2008).

7 (19) It is estimated that the additional 3 mil-
8 lion children who were forced into poverty due to the
9 recession of 2008, resulted in \$35 billion in eco-
10 nomic losses annually, and will cause at least \$1.7
11 trillion in economic losses to the United States dur-
12 ing their lifetimes (First Focus, 2008).

13 (20) Reducing poverty, especially child poverty,
14 not only reduces costs for Federal, State, and local
15 social services and benefits programs, but also in-
16 creases tax revenue at all levels of government (Chil-
17 dren's Defense Fund, 2009).

18 (21) The House of Representatives, on January
19 22, 2008, has resolved that it is the sense of Con-
20 gress that the United States should set a national
21 goal of cutting poverty in half over the next 10
22 years.

4 (1) develop, within 180 days of enactment, a
5 National Strategy to reduce the number of persons
6 living in poverty in America in half within 10 years
7 of the release of the 2012 Census report on Income,
8 Poverty and Health Insurance Coverage in the
9 United States: 2011, that includes goals and objec-
10 tives relating to—

11 (A) reducing in half the number of Ameri-
12 cans living in poverty as reported by the 2012
13 Census report on Income, Poverty and Health
14 Insurance Coverage in the United States: 2011;

15 (B) eliminating child poverty in America;

2 ferences in costs of living, the impact of rising
3 income inequality, the impact of the persistent
4 “digital divide”, expanding the understanding
5 of poverty by distinguishing a standard that
6 measures a level of freedom from deprivation
7 versus a standard that measures a standard of
8 economic adequacy provided by a living wage
9 and access to a decent living standard, and the
10 impact of poverty on other measures of eco-
11 nomic stability and economic outcomes, such as
12 educational attainment, rates of incarceration,
13 lifetime earnings, access to health care, health
14 care outcomes, access to housing, and including
15 other measures as necessary to improve our un-
16 derstanding of why poverty persists in America;

17 (F) eliminating the disparate rates of pov-

25 value of preventive practice and policy, and em-

1 plying fact-based measures of programs to
2 make improvements;

3 (H) improving the accessibility of benefit
4 and social services programs, reducing the com-
5 plexity and difficulty of enrollment, and improv-
6 ing the rates of enrollment in need based pro-
7 grams for all eligible recipients to maximize the

9 on reducing the impacts of poverty and improv-
10 ing economic outcomes;

11 (I) making more uniform eligibility re-
12 quirements to improve the coordination of serv-
13 ice delivery, reduce gaps in eligibility, and im-
14 prove outcomes of programs addressing poverty
15 in the Federal Government;

16 (J) reducing the negative impacts of asset
17 limits for eligibility which impact Federal, State
18 and local poverty programs on the effectiveness
19 of programs where limited eligibility creates
20 gaps in necessary service and benefit delivery,
21 and restricts access to benefits as individuals
22 and families attempt to transition off of assist-
23 ance programs and which can prevent needy
24 beneficiaries from improving long-term out-

1 comes and achieving long-term economic inde-
2 pendence from need-based programs;

3 (K) identifying Federal programs, includ-
4 ing those related to disaster relief, hazard miti-
5 gation, extreme weather and climate change,
6 and necessary reforms to better target re-
7 sources towards disproportionately impacted so-
8 cially vulnerable, low-income and disadvantaged
9 communities may provide greater socio-eco-

24 (O) developing a comprehensive strategy to
25 connect low-income young people and to re-con-

1 nect currently disconnected youth to education,
2 work, and their community; and

3 (P) shifting the focus of poverty and
4 means-tested programs across the Federal Gov-
5 ernment beyond the relief of deprivation and in-
6 stead setting goals, measures, and outcomes
7 more focused on measuring the success of pro-
8 grams in supporting and improving how capable
9 individuals and families can access educational
10 and economic opportunities to successfully tran-
11 sition away from accessing public assistance
12 and benefits and achieving long-term economic
13 stability which will reduce long-term costs in
14 domestic social needs programs, reduce long-
15 term health care costs due to the improved
16 health of formerly poverty stricken households,
17 increase the number of taxpaying individuals
18 which will increase revenue, and lower the en-
19 rollment and costs in need based benefits and
20 services programs, thus improving the economy
21 and reducing long-term deficits for Federal,
22 State, and local governments;

23 (2) oversee, coordinate, and integrate all poli-

4 Federal poverty line, in extreme poverty or near pov-
5 erty and increasing the number of households able
6 to achieve long-term economic stability with assets
7 sufficient to maintain a decent living standard with-
8 out relying on public-support—

9 (A) economic, commercial, and pro-
10 grammatic policies that can effect or relieve the
11 effects of poverty through job creation, and eco-
12 nomic development targeted to low-income, mi-
13 nority, rural, urban and other populations who
14 suffer disparate rates of poverty, among Fed-
15 eral agencies; and

16 (B) services and benefits including emer-
17 gency programs, discretionary economic pro-
18 grams, and other policies and activities nec-
19 essary to ensure that the Federal Government
20 is able to mount effective responses to economic
21 downturns and increases in the rates of poverty;

22 (3) ensure that all relevant Federal agencies
23 comply with appropriate guidelines, policies, and di-
24 rectives from the Federal Interagency Working
25 Group on Reducing Poverty and the Department of

1 Health and Human Services and other Federal
2 agencies with responsibilities relating to poverty re-
3 duction or improving economic stability and inde-
4 pendence;

5 (4) ensure that Federal agencies, State govern-
6 ments and relevant congressional committees have
7 access to, receive, and appropriately disseminate best
8 practices in the administration of programs, have

10 of programs, increase the reach of those programs,

2 der, and sexual orientation or sexual identity
3 based disparities in the rates of poverty;

4 (C) adequately measuring the effectiveness,
5 efficiency and impact of programs on the out-
6 comes for individuals, families and communities
7 who receive benefits and services;

8 (D) streamlining enrollment and eligibility
9 for programs;

10 (E) improving long-term outcomes for indi-
11 viduals who are enrolled in service and benefit
12 programs;

13 (F) reducing reliance on public programs;

14 (G) improving connections to work;

15 (H) improving economic stability;

16 (I) improving savings and investment, ac-
17 cess to capital, increasing rates of entrepreneur-
18 ship;

19 (J) improving our understanding of the

23 and recovery from extreme weather and natural
24 disasters;

1 (K) improving access to living wage em-
2 ployment; and

18 (A) Macroeconomic costs (effects on pro-

20 (B) Health costs (effects on health expend-

22 (C) Crime and other social costs.

6 and other social ills (e.g., Indian reservations,
7 some inner city areas, some rural areas).

9 poverty (e.g., income to poverty ratios of less
10 than 50 percent, less than 100 percent, less
11 than 200 percent).

12 This second workshop shall be convened within 9

3 **TITLE IV—HOUSING AND ASSET**
4 **BUILDING**

5 **Subtitle A—Affirming the Right of**
6 **All Renters to a Safe, Afford-**
7 **able, and Decent Home**

8 **SEC. 40101. FINDINGS.**

9 Congress finds the following:

10 (1) Housing is a basic human right.

11 (2) Evidence-based research has shown that
12 families with safe, decent, and affordable homes are
13 better able to find employment, achieve economic
14 mobility, perform better in school, and maintain im-
15 proved health.

16 (3) Investing in affordable housing strengthens
17 our economy, creates jobs, boosts families' incomes,
18 and encourages further development.

19 (4) Far too many families living in urban, sub-
20 urban, and rural communities struggle to afford
21 their rent each month, putting them at increased
22 risk of eviction and homelessness.

23 (5) According to the Department of Housing
24 and Urban Development (HUD) point-in-time count
25 of 2016, there were 549,928 people in the United

1 States experiencing homelessness on any given night,
2 including over 120,000 children.

3 (6) Homelessness has become so pervasive that
4 some States and cities have declared that homeless-
5 ness has reached a state of emergency.

6 (7) Major progress towards the national goals
7 for ending homelessness in our Nation has stalled in
8 the absence of increased funding.

9 (8) A shortage of affordable housing exists in
10 every State and major metropolitan area.

11 (9) A full-time worker earning the Federal min-
12 imum wage cannot afford a modest two-bedroom
13 apartment in any State, metropolitan area, or coun-
14 ty in the United States.

15 (10) Over half of all renters are cost-burdened,
16 paying more than 30 percent of their income for
17 housing, and 71 percent of extremely low-income
18 households are severely cost-burdened, paying more
19 than half of their income for housing.

20 (11) Rapidly rising rents across the country
21 have pushed many long-time residents and families
22 out of the communities they call home.

23 (12) Closed waiting lists and long waits mean
24 only a quarter of the families who qualify for hous-
25 ing assistance actually receive it.

1 (13) The role of Federal affordable housing in-
2 vestments is even more important given the limited
3 ability of the private market alone to address these
4 needs.

5 (14) Various programs at the Department of
6 Housing and Urban Development help to subsidize
7 housing for more than 4,000,000 low-income fami-
8 lies, including the Public Housing program, the Sec-
9 tion 8 Housing Choice Vouchers (HCV) program,
10 the Section 8 Project-Based Rental Assistance pro-
11 gram, the Section 202 Supportive Housing for the
12 Elderly program, the Section 811 Supportive Hous-
13 ing for Persons with Disabilities program, and the
14 Housing Opportunities for Persons with AIDS
15 (HOPWA) program.

16 (15) Despite leveraging billions of dollars in pri-
17 vate resources to preserve and expand the supply of
18 affordable housing, affordable housing programs
19 continue to be chronically underfunded despite their
20 success at providing safe housing to families in need.

21 (16) Chronic underfunding of the Public Hous-
22 ing Capital Fund has led to a backlog of more than
23 \$26,000,000,000 in capital repairs and deteriorating
24 conditions for residents.

1 (17) Without Federal investments, many more
2 families would be homeless, living in substandard or
3 overcrowded conditions, or struggling to meet other
4 basic needs because too much of their limited income
5 would be used to pay rent.

6 (18) Low Federal spending caps required by
7 the Budget Control Act of 2011 (Public Law 112–
8 25) have decreased funding for affordable housing
9 and community development programs.

10 (19) These austere spending caps threaten af-
11 fordable housing and community development for
12 millions of low income families.

13 (20) Even renters with housing subsidies often
14 face barriers to finding housing providers willing to
15 rent to them.

16 (21) Under current Federal law, housing dis-
17 crimination against a renter is illegal if it is based
18 on race, color, religion, sex, familial status, national
19 origin, or disability.

20 (22) Renters should be protected against hous-
21 ing discrimination through stronger enforcement of
22 fair housing laws.

23 (23) Despite various clarifying memos from
24 HUD, the re-entry community continues to face bar-

1 riers in trying to secure access to federally assisted
2 housing.

3 **SEC. 40102. SENSE OF CONGRESS.**

4 The Congress—

5 (1) supports lifting the spending caps required
6 by the Budget Control Act of 2011 and robustly
7 funding programs to increase access to affordable
8 housing and address homelessness at the Depart-
9 ment of Housing and Urban Development (HUD)
10 and other Federal agencies;

11 (2) opposes any cuts to Federal investments in
12 affordable housing programs at the Department of
13 Housing and Urban Development and other Federal
14 agencies;

15 (3) supports increased funding to the Public
16 Housing Capital Fund to address the backlog of
17 capital repairs for public housing;

18 (4) supports expanded funding for the National
19 Housing Trust Fund to boost the supply of afford-
20 able housing available to extremely low-income fami-
21 lies;

22 (5) supports efforts to preserve and rehabilitate
23 existing housing to maintain and increase the avail-
24 able stock of affordable housing and proposals by

1 local entities to prevent any net loss of overall af-
2 fordable housing units receiving Federal subsidies;

3 (6) supports strengthened Federal fair housing
4 laws;

5 (7) affirms that renters may not be barred from
6 federally assisted housing solely on the basis of a
7 criminal record;

8 (8) supports expansion of renters' rights, in-
9 cluding the right of tenants to organize tenant asso-
10 ciations; and

11 (9) affirms that housing is a basic human right.

12 **Subtitle B—Ending Homelessness**

13 **SEC. 40201. SHORT TITLE.**

14 This subtitle may be cited as the “Ending Homeless-
15 ness Act of 2020”.

16 **SEC. 40202. CONGRESSIONAL FINDINGS.**

17 The Congress finds that—

18 (1) although the United States has experienced
19 a reduction in veteran homelessness after a surge of
20 new Federal funding targeted to homeless veterans
21 starting in fiscal year 2008, major progress towards
22 the national goals for ending homelessness in our
23 Nation has virtually stalled in the absence of in-
24 creased funding;

1 (2) according to the Department of Housing
2 and Urban Development’s 2016 point-in-time count,
3 there were 549,928 people experiencing homeless-
4 ness in the United States on any given night, includ-
5 ing over 120,000 children;

6 (3) homelessness in many communities has
7 reached crisis proportions and some cities have de-
8 clared that homelessness has reached a state of
9 emergency; and

10 (4) the Federal Government must renew its
11 commitment to the national goals to end homeless-
12 ness.

13 **SEC. 40203. EMERGENCY RELIEF FUNDING.**

14 Title IV of the McKinney-Vento Homeless Assistance
15 Act (42 U.S.C. 11360 et seq) is amended—

17 11408; relating to rural housing stability grant pro-
18 gram) as section 441;

 16 terms and conditions:

17 (1) MORTGAGE FORECLOSURE MITIGATION
 18 COUNSELING.—

19 (A) The Neighborhood Reinvestment Cor-
 20 poration (in this section referred to as the
 21 “NRC”) may make grants under this para-
 22 graph to counseling intermediaries approved by
 23 the Department of Housing and Urban Devel-
 24 opment (in this section referred to as “HUD”)
 25 (with match to be determined by NRC based on

1 affordability and the economic conditions of an
2 area; a match also may be waived by NRC
3 based on the aforementioned conditions) to pro-
4 vide mortgage foreclosure mitigation assistance
5 to the 15 States with highest rates of home
6 mortgage defaults and foreclosures, as of Janu-
7 ary 1, 2018, to help eliminate the default and
8 foreclosure of mortgages of owner-occupied sin-
9 gle-family homes that are at risk of such fore-
10 closure and located in metropolitan statistical
11 areas having the greatest such need. Other than
12 areas with high rates of defaults and fore-
13 closures, grants may also be provided to ap-
14 proved counseling intermediaries based on a ge-
15 ographic analysis of the Nation by NRC which
16 determines where there is a prevalence of mort-
17 gages that are risky and likely to fail, including
18 any trends for mortgages that are likely to de-
19 fault and face foreclosure. A State Housing Fi-

9 such assistance that shall consist of activities
10 that are likely to prevent foreclosures and result
11 in the long-term affordability of the mortgage
12 retained pursuant to such activity or another
13 positive outcome for the homeowner. No funds
14 made available pursuant to this paragraph may
15 be provided directly to lenders or homeowners
16 to discharge outstanding mortgage balances or
17 for any other direct debt reduction payments.

18 (C) The use of mortgage foreclosure miti-
19 gation assistance by approved counseling inter-
20 mediaries and State Housing Finance Agencies
21 shall involve a reasonable analysis of the bor-
22 rower's financial situation, an evaluation of the
23 current value of the property that is subject to
24 the mortgage, counseling regarding the assump-
25 tion of the mortgage by another non-Federal

1 party, counseling regarding the possible pur-
2 chase of the mortgage by a non-Federal third
3 party, counseling and advice of all likely re-
4 structuring and refinancing strategies or the
5 approval of a work-out strategy by all interested
6 parties.

7 (D) NRC may provide up to 15 percent of
8 the total funds made available pursuant to this
9 paragraph to its own charter members with ex-
10 pertise in foreclosure prevention counseling,
11 subject to a certification by NRC that the pro-
12 cedures for selection do not consist of any pro-
13 cedures or activities that could be construed as
14 a conflict of interest or have the appearance of
15 impropriety.

16 (E) HUD-approved counseling entities and
17 State Housing Finance Agencies receiving
18 funds made available pursuant to this para-
19 graph shall have demonstrated experience in
20 successfully working with financial institutions
21 as well as borrowers facing default, delinquency,
22 and foreclosure as well as documented coun-
23 seling capacity, outreach capacity, past success-
24 ful performance and positive outcomes with doc-
25 umented counseling plans (including post-mort-

1 gage foreclosure mitigation counseling), loan
2 workout agreements, and loan modification
3 agreements. NRC may use other criteria to
4 demonstrate capacity in underserved areas.

5 (F) Of the total amount made available
6 pursuant to this paragraph, up to \$250,000
7 may be made available to build the mortgage
8 foreclosure and default mitigation counseling
9 capacity of counseling intermediaries through
10 NRC training courses with HUD-approved
11 counseling intermediaries and their partners,
12 except that private financial institutions that
13 participate in NRC training shall pay market
14 rates for such training.

15 (G) Of the total amount made available
16 pursuant to this paragraph, up to 5 percent
17 may be used for associated administrative ex-
18 penses for NRC to carry out activities provided
19 under this paragraph.

20 (H) Mortgage foreclosure mitigation assist-
21 ance grants may include a budget for outreach
22 and advertising, and training, as determined by
23 NRC.

24 (I) NRC shall report bi-annually to the
25 House and Senate Committees on Appropria-

1 tions as well as the Senate Banking Committee
2 and House Financial Services Committee on its
3 efforts to mitigate mortgage default.

4 (2) LEGAL ASSISTANCE.—

5 (A) The Neighborhood Reinvestment Cor-
6 poration may make grants to counseling inter-
7 mediaries approved by HUD or the NRC to
8 hire attorneys to assist homeowners who have
9 legal issues directly related to the homeowner's
10 foreclosure, delinquency, or short sale.

11 (B) Such attorneys shall be capable of as-
12 sisting homeowners of owner-occupied homes
13 with mortgages in default, in danger of default,
14 or subject to or at risk of foreclosure and who
15 have legal issues that cannot be handled by
16 counselors already employed by such inter-
17 mediaries.

18 (C) Grants under this paragraph may only
19 be made to counseling intermediaries and legal
20 organizations that (i) provide legal assistance in
21 the 15 States with the highest rates of home
22 mortgage defaults and foreclosures, as of Janu-
23 ary 1, 2018, and (ii) have the capacity to begin
24 using the financial assistance within 90 days
25 after receipt of the assistance.

1 (D) No funds made available pursuant to
2 this paragraph shall be used to provide, obtain,
3 or arrange on behalf of a homeowner, legal rep-
4 resentation involving or for the purposes of civil
5 litigation.

18 vouchers for public housing agencies that administer
19 10,000 or more vouchers for rental assistance under such

22 **Subtitle G—Young Americans**
23 **Financial Literacy**

24 **SEC. 40701. SHORT TITLE.**

25 This subtitle may be cited as the “Young Americans
26 Financial Literacy Act”.

1 **SEC. 40702. FINDINGS.**

2 The Congress finds as follows:

3 (1) That 87 percent of Americans believe fi-
4 nance education should be taught in schools and 92
5 percent of K–12 teachers believe that financial edu-
6 cation should be taught in school, but only 12 per-
7 cent of teachers actually teach the subject.

8 (2) According to a 2016 survey, 1 in 3 States
9 require high school students to take a personal fi-
10 nance course, and only 5 States require high school
11 students to take a semester long personal finance
12 course.

13 (3) The percentage of Americans grading them-
14 selves with an A or B in personal finance knowledge
15 has declined from 60 percent in 2013 to 56 percent
16 in 2016. In 2016, 75 percent of Americans admitted
17 they could benefit from additional advice and an-
18 swers to everyday financial questions from a profes-
19 sional. Most adults feel that their financial literacy
20 skills are inadequate, yet they do not rely on anyone
21 else to handle their finances; they feel it is impor-
22 tant to know more but have received no financial
23 education.

24 (4) It is necessary to respond immediately to
25 the pressing needs of individuals faced with the loss
26 of their financial stability; however increased atten-

1 tion must also be paid to financial literacy education
2 reform and long-term solutions to prevent future
3 personal financial disasters.

4 (5) Research-based financial literacy education
5 programs are needed to reach individuals at all ages
6 and socioeconomic levels, particularly those facing
7 unique and challenging financial situations, such as
8 high school graduates entering the workforce, soon-
9 to-be and recent college graduates, young families,
10 and to address the unique needs of military per-
11 sonnel and their families.

12 (6) High school and college students who are
13 exposed to cumulative financial education show an
14 increase in financial knowledge, which in turn drives
15 increasingly responsible behavior as they become
16 young adults.

17 (7) Sixty percent of parents identify their teens
18 as “quick spenders”, and most acknowledge they
19 could do a better job of teaching and preparing kids
20 for the financial challenges of adulthood, including
21 budgeting, saving, and investing.

22 (8) The majority (52 percent) of young adults
23 ages 23 through 28 consider “making better choices
24 about managing money”, the single most important
25 issue for individual Americans to act on today.

1 (9) According to the Government Accountability
2 Office, giving Americans the information they need
3 to make effective financial decisions can be key to
4 their well-being and to the country's economic
5 health. The recent financial crisis, when many bor-
6 rowers failed to fully understand the risks associated
7 with certain financial products, underscored the need
8 to improve individuals' financial literacy and em-
9 power all Americans to make informed financial de-
10 cisions. This is especially true for young people as
11 they are earning their first paychecks, securing stu-
12 dent aid, and establishing their financial independ-
13 ence. Therefore, focusing economic education and fi-
14 nancial literacy efforts and best practices for young
15 people ages 8 through 24 is of utmost importance.

3 cational outcomes;

4 (2) establish parameters for identifying the
5 types of programs that most effectively reach young
6 people and families in unique life situations and fi-
7 nancial pitfalls, including bankruptcy, foreclosure,
8 credit card misuse, and predatory lending;

9 (3) include content that is appropriate to age
10 and socioeconomic levels;

11 (4) develop programs based on educational

17 (d) APPLICATION AND EVALUATION STANDARDS AND
18 PROCEDURES; DISTRIBUTION CRITERIA.—The Director
19 shall establish application and evaluation standards and
20 procedures, distribution criteria, and such other forms,

22 termines to be appropriate.

Subtitle O—Closing the Racial Wealth Gap

SEC. 41501. SHORT TITLE.

This subtitle may be cited as the “Closing the Racial Wealth Gap Act of 2020”.

SEC. 41502. FINDINGS.

Congress finds that:

1 (1) Between 1983 and 2016, the median Black
2 family saw their wealth drop by more than half after
3 adjusting for inflation, compared to a 33 percent in-
4 crease for the median White household.

5 (2) The Forbes 400 richest Americans own
6 more wealth than all Black households plus a quar-
7 ter of Latinx households.

8 (3) Black families are about 20 times more
9 likely to have zero or negative wealth (37 percent)
10 than they are to have \$1 million or more in assets
11 (1.9 percent).

12 (4) Latinx families are 14 times more likely to
13 have zero or negative wealth (32.8 percent) than
14 they are to reach the millionaire threshold (2.3 per-
15 cent).

16 (5) White families are equally likely to have
17 zero or negative wealth (about 15 percent) as they
18 are to be a millionaire (15 percent).

19 (6) The rate of home ownership for Black fami-
20 lies is the same today in 2019 as it was before pas-
21 sage of the Fair Housing Act of 1968.

22 (7) The racial wealth gap is not an accident or
23 the result of inadvisable financial choices by people
24 of color, rather it is the result of the centuries of
25 policies, programs, Supreme Court decisions and in-

1 stitutional practices that were designed to create
2 barriers or to strip wealth from people of color.

3 (8) Adjustments to Black and Latinx education
4 rates, homeownership, savings and employment do
5 not greatly reduce the racial wealth divide due to the
6 structural underpinnings holding the racial wealth
7 divide in place.

8 (9) To understand and address the racial
9 wealth gap, many experts believe we need federally
10 funded data collection efforts with the ability to
11 disaggregate sample sizes by race, ethnicity, tribal
12 affiliation, and country of birth.

13 (10) Analytical tools like the “Racial Wealth
14 Audit” from the Institute on Assets and Social Pol-
15 icy (IASP) and the “Racial Equity Toolkit” from
16 the Government Alliance on Racial Equity (GARE)
17 are needed to provide a framework to assess how
18 legislation will widen or narrow the racial wealth di-
19 vide.

20 (11) Changes in individual behavior will not
21 close the racial wealth divide, only structural sys-
22 temic policy change.

1 **SEC. 41503. DATA COLLECTION ON RACE AND WEALTH.**

2 Section 10 of the Federal Reserve Act (12 U.S.C. 241
3 et seq.) is amended by inserting before paragraph (12) the
4 following:

5 “(11) DATA COLLECTION ON RACE AND
6 WEALTH.—The Board of Governors of the Federal
7 Reserve System shall, in carrying out any Survey of
8 Consumer Finances or Survey of Household Eco-
9 nomics and Decisionmaking, including the collection
10 of localized data, collect information on household
11 assets and debt disaggregated by respondent race,
12 ethnicity, tribal affiliation, and ancestral origin.”.

10 Support for Small Dollar Mortgages Act of 2020”.

11 **SEC. 42002. REVIEW OF FHA SMALL-DOLLAR MORTGAGE**
12 **PRACTICES.**

13 (a) CONGRESSIONAL FINDINGS.—The Congress finds
14 that—

15 (1) affordable homeownership opportunities are
16 being hindered due to the lack of financing available
17 for home purchases under \$70,000;

18 (2) according to the Urban Institute, small-dol-
19 lar mortgage loan applications in 2017 were denied
20 by lenders at double the rate of denial for large
21 mortgage loans, and this difference in denial rates
22 cannot be fully explained by differences in the appli-
23 cants’ credit profiles;

24 (3) according to data compiled by Attom Data
25 solutions, small-dollar mortgage originations have

1 decreased 38 percent since 2009, while there has
2 been a 65 percent increase in origination of mort-
3 gages for more than \$150,000;

4 (4) the FHA's mission is to serve creditworthy
5 borrowers who are underserved and, according to the
6 Urban Institute, the FHA serves 24 percent of the
7 overall market, but only 19 percent of the small-dol-
8 lar mortgage market; and

9 (5) the causes behind these variations are not
10 fully understood, but merit study that could assist in
11 furthering the Department of Housing and Urban
12 Development's mission, including meeting the hous-
13 ing needs of borrowers the program is designed to
14 serve and reducing barriers to homeownership, while
15 protecting the solvency of the Mutual Mortgage In-
16 surance Fund.

17 (b) REVIEW.—The Secretary of Housing and Urban
18 Development shall conduct a review of its FHA single-
19 family mortgage insurance policies, practices, and prod-
20 ucts to identify any barriers or impediments to supporting,
21 facilitating, and making available mortgage insurance for
22 mortgages having an original principal obligation of
23 \$70,000 or less. Not later than the expiration of the 12-
24 month period beginning on the date of the enactment of
25 this subtitle, the Secretary shall submit a report to the

1 Congress describing the findings of such review and the
2 actions that the Secretary will take, without adversely af-
3 fecting the solvency of the Mutual Mortgage Insurance
4 Fund, to remove such barriers and impediments to pro-
5 viding mortgage insurance for such mortgages.

11 **SEC. 42102. TEMPORARY MORATORIUM ON EVICTION FIL-**
12 **INGS.**

13 (a) CONGRESSIONAL FINDINGS.—The Congress finds
14 that—

15 (1) according to the 2018 American Community
16 Survey, 36 percent of households in the United
17 States—more than 43 million households—are rent-
18 ers;

19 (2) in 2019 alone, renters in the United States
20 paid \$512 billion in rent;

21 (3) according to the Joint Center for Housing
22 Studies of Harvard University, 20.8 million renters
23 in the United States spent more than 30 percent of
24 their incomes on housing in 2018 and 10.9 million

1 renters spent more than 50 percent of their incomes
2 on housing in the same year;

3 (4) Moody's Analytics estimates that 27 million
4 jobs in the United States economy are at high risk
5 because of COVID-19;

6 (5) the impacts of the spread of COVID-19,
7 which is now considered a global pandemic, are ex-
8 pected to negatively impact the incomes of poten-
9 tially millions of renter households, making it dif-
10 ficult for them to pay their rent on time; and

11 (6) evictions in the current environment would
12 increase homelessness and housing instability which
13 would be counterproductive towards the public
14 health goals of keeping individuals in their homes to
15 the greatest extent possible.

16 (b) MORATORIUM.—During the period beginning on
17 the date of the enactment of this subtitle and ending on
18 the date described in paragraph (1) of subsection (d), the
19 lessor of a covered dwelling may not make, or cause to
20 be made, any filing with the court of jurisdiction to initiate
21 a legal action to recover possession of the covered dwelling
22 from the tenant regardless of cause, except when a tenant
23 perpetrates a serious criminal act that threatens the
24 health, life, or safety of other tenants or staff of the prop-
25 erty in which the covered dwelling is located.

1 (c) DEFINITIONS.—For purposes of this section, the
2 following definitions shall apply:

3 (1) COVERED DWELLING.—The term “covered
4 dwelling” means a dwelling that is occupied by a
5 tenant—

6 (A) pursuant to a residential lease; or

7 (B) without a lease or with a lease ter-
8 minable at will under State law.

9 (2) DWELLING.—The term “dwelling” has the
10 meaning given such term in section 802 of the Fair
11 Housing Act (42 U.S.C. 3602) and includes houses
12 and dwellings described in section 803(b) of such
13 Act (42 U.S.C. 3603(b)).

14 (d) SUNSET.—

15 (1) SUNSET DATE.—The date described in this
16 paragraph is the date of the expiration of the 6-
17 month period that begins upon the termination by
18 the Federal Emergency Management Agency of the
19 emergency declared on March 13, 2020, by the
20 President under the Robert T. Stafford Disaster Re-
21 lief and Emergency Assistance Act (42 U.S.C. 4121
22 et seq.) relating to the Coronavirus Disease 2019
23 (COVID–19) pandemic.

24 (2) NOTICE TO VACATE AFTER SUNSET
25 DATE.—After the date described in paragraph (1),

1 the lessor of a covered dwelling may not require the
2 tenant to vacate the covered dwelling before the ex-
3 piration of the 30-day period that begins upon the
4 provision by the lessor to the tenant, after the date

7 **TITLE V—EDUCATION**
8 **Subtitle A—Computer Science for**
9 **All**

10 **SEC. 50101. SHORT TITLE.**

11 This subtitle may be cited as the “Computer Science
12 for All Act of 2020”.

13 **SEC. 50102. FINDINGS.**

14 Congress finds that:

15 (1) Computer science is transforming industry,
16 creating new fields of commerce, driving innovation,
17 and bolstering productivity.

18 (2) There are more than 520,000 computing
19 jobs unfilled in the United States as of January
20 2017. It is projected that there will be 1,400,000
21 new jobs in the technology sector by 2020; however,
22 70 percent of those jobs will be unfulfilled at the
23 rate American universities are producing qualified
24 graduates.

1 (3) Knowledge of computer science and use of
2 technology is increasingly essential for all individ-
3 uals, not just those working or planning to work in
4 the technology sector.

5 (4) Providing students with computer science
6 education in elementary school and secondary school
7 is critical for student success, and strengthening the
8 workforce of a 21st century economy.

9 (5) While an estimated 90 percent of parents
10 want computer science taught in their children's
11 schools, just 25 percent of all elementary schools
12 and secondary schools offer high-quality computer
13 science instruction that includes programming and
14 coding.

15 (6) African-Americans, Latinos, Native Ameri-
16 cans, and Pacific Islanders are disproportionately
17 underrepresented in the technology sector. About 9
18 percent of graduates from the Nation's top computer
19 science programs are from underrepresented minor-
20 ity groups. However, only 5 percent of employees at
21 large tech firms belong to an underrepresented mi-
22 nority group

23 (7) While underrepresented minority students
24 overall face an opportunity gap in STEAM edu-
25 cation, women of color particularly face an achieve-

1 ment gap in science and engineering education. In
2 2012, while women received 48.8 percent of all bach-
3 elor's degrees in science and engineering majors,
4 women of color received only 15.7 percent (Black:
5 5.3 percent; Latino: 5.5 percent; Native American or
6 Alaska Native: 0.3 percent, and Asian or Pacific Is-
7 lander: 4.6 percent).

8 (8) Women overall face challenges in accessing
9 computer science education. Only 18 percent of all
10 bachelor's degrees awarded in computer science in
11 2012 went to women, and women of color received
12 only 6.6 percent (Black: 3.0 percent; Latino: 1.7
13 percent; Native American or Alaska Native: 0.1 per-
14 cent, and Asian or Pacific Islander: 1.8 percent).

15 (9) Disparities in enrollment and academic
16 achievement start early. In 2016, only 23 percent of
17 students taking the AP Computer Science exam
18 were women, and just 16 percent were African-
19 American or Latino.

20 (10) Nationwide, only 88 Native American stu-
21 dents took the AP Computer Science exam in 2016,
22 a decrease from 2015. This means that while Native
23 Americans make up about 1.1 percent of the U.S.
24 student population, they made up $\frac{1}{5}$ of a percent of

1 students who took AP Computer Science exams in
2 2016.

3 **SEC. 50103. DEFINITIONS.**

11 ware design, logic and the use of abstraction and
12 representation, algorithm design, algorithm expres-
13 sion, problem decomposition, modularity, program-

14 **SEC. 50302. FINDINGS.**

15 Congress finds the following:

16 (1) From 1993 to 1995, Ronald V. Dellums
17 served as the Chairman of the Armed Services Com-
18 mittee of the House of Representatives after 20
19 years of service on such Committee.

20 (2) As a stalwart champion of diversity and in-
21 clusion, Chairman Dellums was an early supporter
22 of integrating lesbian, gay, transgender, and bisex-
23 ual individuals into the military.

24 (3) Before Chairman Dellums was elected to
25 the House of Representatives in 1970, he was a psy-

1 chiatric social worker, community organizer, and lec-
2 turer.

3 (4) Chairman Dellums served in the United
4 States Marine Corps from 1954 to 1956.

5 (5) In section 4201 of the Fiscal Year 2018
6 National Defense Authorization Act, Congress reit-
7 erated the importance of prioritizing this relation-
8 ship by authorizing more than \$12,000,000 above
9 the President's requests, including 2,000,000 au-
10 thorized specifically for minority women in the fields
11 of science, technology, engineering, and mathe-

16 represented in the STEAM fields.

17 (7) While underrepresented minority students
18 overall face an opportunity gap in STEAM edu-
19 cation, women of color face a larger achievement gap

9 bachelor's degrees in computer sciences, mathe-
10 matics, and statistics, and engineering received by
11 women of color has declined since 1996.

12 (10) Intentional and proactive strategies and
13 programs are necessary to ensure the underrepresen-
14 tation of women of color in the disciplines and pro-

1 **Subtitle D—Student Support**

2 **SEC. 50401. SHORT TITLE.**

3 This subtitle may be cited as the “Student Support
4 Act”.

5 **SEC. 50402. SCHOOL-BASED MENTAL HEALTH AND STU-**
6 **DENT SERVICE PROVIDERS.**

7 (a) IN GENERAL.—Part A of title IV of the Elemen-
8 tary and Secondary Education Act of 1965 (20 U.S.C.
9 7101 et seq.) is amended by adding at the end the fol-
10 lowing:

11 “SUBPART 3—SCHOOL-BASED MENTAL HEALTH AND
12 STUDENT SERVICE PROVIDERS

13 **“SEC. 4131. FINDINGS.**

14 “The Congress finds the following:

15 “(1) The Surgeon General of the Public Health
16 Service has found that 1 in 5 children has a
17 diagnosable mental disorder and 1 in 10 children
18 and adolescents suffer from mental illness severe
19 enough to cause some level of impairment. However,
20 75 to 80 percent of children in need of mental
21 health services do not receive needed treatment. The
22 short- and long-term consequences of untreated
23 childhood mental disorders are costly, in both human
24 and fiscal terms.

1 “(2) Thirty-seven percent of students with a
2 mental health condition age 14 and older drop out
3 of school—the highest dropout rate of any disability
4 group.

5 “(3) Fifty percent of all lifetimes cases of men-
6 tal illness begin by the age of 14 and 75 percent by
7 age 24.

8 “(4) In June 2010, the American Academy of
9 Pediatrics called for all pediatricians to screen chil-
10 dren and adolescents for mental illness and sub-
11 stance use.

12 “(5) Just over half (50.6 percent) of children
13 with a mental health condition aged 8–15 received
14 mental health services in the previous year.

15 “(6) African Americans and Hispanic Ameri-
16 cans each use mental health services at about one-
17 half the rate of Caucasian Americans and Asian
18 Americans at about one-third the rate.

19 “(7) School counselors, school social workers,
20 school psychologists, other qualified psychologists,
21 and child and adolescent psychiatrists are critically
22 needed to help these children and to provide a vari-
23 ety of crucial support services as 70–80 percent of
24 children and adolescents who receive mental health
25 services access these services in school settings.

1 “(8) Across the United States, there are insuffi-
2 cient resources for school-based counseling profes-
3 sionals, and often students do not get the help they
4 need. The 2017 national average ratio of students to
5 school counselors in elementary and secondary
6 schools was 482 to 1.

7 “(9) United States public schools need more
8 mental health professionals because participation in
9 the use of school-based mental health centers
10 (SBHC) was positively associated with increases in
11 grade point average (GPA) and attendance.

12 “(10) According to the leading counseling, guid-
13 ance, and mental health organizations, including the
14 American School Counselor Association, the Na-
15 tional Association of Social Psychologists, the Na-
16 tional Association of Social Workers, and the School
17 Social Work Association of America, the maximum
18 recommended ratio of—

19 “(A) students to school counselors is 250
20 to 1;

21 “(B) students to school psychologists is
22 500 to 700 to 1; and

23 “(C) students to school social workers is
24 250 to 1.

1 “(11) A recent study revealed a national aver-
2 age ratio of 1,653 students per school psychologist,
3 despite the 1:500–700 recommendation from the
4 National Association of Social Psychologists. This
5 deficit is further compounded by studies predicting
6 a 2–4 percent shortage of school psychologists over
7 the next 10 years due to retirement. In some
8 schools, there are no school-based mental health and
9 student service providers available to assist students
10 in times of crisis, or at any other time.

11 “(12) Counselor-to-student ratios in 35 States
12 exceed 1:400 despite recommendations from the
13 American School Counselor Association for a 1:250
14 ratio. Only three States—Vermont, Wyoming & New
15 Hampshire—meet the recommended ratio. This
16 shortage occurs during a time when the National
17 Center on Education Statistics forecasts that the
18 Nation’s number of public school students (Pre-K to
19 12th) will grow by 7 percent between 2011 and
20 2022, particularly in States that already spend the
21 least money per student.

22 “(13) Model programs using school-based men-
23 tal health and student service providers have positive
24 effects on emotional, behavioral and academic out-
25 comes, such as reductions in aggressive and disrup-

1 tive behavior, referrals to the principal’s office, the
2 use of weapons, force, or threats, and increased stu-
3 dents’ feelings of safety. Studies also find that men-
4 tal health programs can have a range of positive out-
5 comes across all grade levels, including gains in
6 achievement test scores, grade point averages, course
7 credit completion, as well as decreases in absences
8 and substance use.

9 **“SEC. 4132. PURPOSES.**

10 “The purposes of this subpart are to assist States
11 and local educational agencies in hiring additional school-
12 based mental health providers, including additional school
13 counselors, school psychologists, other qualified psycholo-
14 gists, child and adolescent psychiatrists, and school social
15 workers to achieve each of the following:

16 “(1) To reduce the ratios of school-based men-
17 tal health and student service providers to students
18 in elementary and secondary schools in the United
19 States to the following minimum ratios rec-
20 ommended by the leading counseling, guidance, and
21 mental health organizations, including the American
22 School Counselor Association, the National Associa-
23 tion of Social Psychologists, the National Associa-
24 tion of Social Workers, and the School Social Work
25 Association of America:

1 “(A) One school counselor for every 250
2 students.

3 “(B) One school psychologist for every 500
4 to 700 students.

5 “(C) One school social worker for every
6 250 students.

7 “(2) To provide evidence-based school mental
8 health and student services through a whole school
9 and interdisciplinary approach.

10 “(3) To remove emotional, behavioral, and psy-
11 chosocial barriers to learning so as to enhance stu-
12 dents’ classroom preparedness, overall school per-
13 formance, decrease rates of absenteeism, and ability
14 to problem solve and set goals.

15 “(4) To support school staff and teachers in
16 improving classroom management, conducting be-
17 havioral interventions to improve school discipline,
18 and developing the awareness and skills to identify
19 the need for mental health services.

20 “(5) To support parental involvement in im-
21 proving the school behavior and academic success of
22 their children.

23 “(6) To improve the overall mental, behavioral,
24 social, and psychology assessment and trajectory of
25 each student who seeks mental health services.

1 “(7) To ensure each student feels comfortable
2 and has all the resources they need to continue short
3 and/or long-term mental health treatment.

Subtitle E—Expressing the Sense of the House of Representatives Regarding the Need for Increased Diversity and Inclusion in the Tech Sector, and Increased Access to Opportunity in Science, Technology, Engineering, Arts, and Mathematics (STEAM) Education

SEC. 50501. FINDINGS.

Congress finds the following:

(1) There will be 1,400,000 new tech jobs by 2020, however, 70 percent of those jobs will be unfulfilled at the rate United States universities are currently producing qualified graduates.

(2) Communities of color (African Americans, Latinos, Native Americans, Asian Americans, and

1 Pacific Islanders) are woefully underrepresented in
2 corporate leadership roles, including the technology
3 sector.

4 (3) African Americans, Latinos, Native Ameri-
5 cans, and Pacific Islanders are disproportionately
6 underrepresented in the technology sector.

7 (4) Black and Hispanic workers in the science
8 and engineering workforce continue to be underrep-
9 resented, Black employees represent 11 percent of
10 the United States workforce but only 9 percent of
11 the science and engineering workforce, and Hispanic
12 employees represent 16 percent of the United States
13 workforce but only 7 percent of the science and engi-
14 neering workforce.

15 (5) The share of women working in science and
16 engineering jobs has held steady around 50 percent
17 since 1990, but the share of women in specific fields
18 has varied from 47 percent in life sciences to only
19 25 percent in computer science.

20 (6) Women of color represent less than 10 per-
21 cent of all computer science professionals (African
22 American: 5.7 percent; Hispanic: 6.4 percent; Amer-
23 ican Indian or Alaska Native: 0.1 percent; and
24 Asian: 22.9 percent).

1 (7) 50 to 70 percent of employees in tech com-
2 panies work in non-tech positions, for which an ex-
3 isting pipeline of qualified African Americans and
4 Latinos currently exists.

5 (8) A pipeline of qualified technical candidates
6 is critical as the tech industry improves its recruit-
7 ing, hiring, and retaining of candidates and employ-
8 ees of color.

9 (9) Underrepresented minority students overall
10 face an opportunity gap in STEAM education.

11 (10) Women of color particularly face an
12 achievement gap in science and engineering edu-
13 cation.

14 (11) In 2015, women were conferred nearly a
15 third of all science and engineering degrees.

16 (12) In 2015, women of color received only 13
17 percent of all science and engineering degrees
18 (Black: 3.2 percent; Hispanic: 3.9 percent; Native
19 American or Alaskan Native: 0.2 percent; Asian or
20 Pacific Islander: 4.5 percent; and multi-racial: 1.2
21 percent).

22 (13) Women overall face a large opportunity
23 gap in computer science.

24 (14) Only 18 of all bachelor's degrees conferred
25 in computer science went to women in 2015.

1 (15) In 2015, women of color received only 9
2 percent of degrees conferred in computer science
3 (Black: 3 percent; Hispanic: 2 percent; Native
4 American or Alaska Native: 0.8 percent; and Asian
5 or Pacific Islander: 3 percent).

6 (16) The opportunity and achievement gap be-
7 tween boys and girls starts early.

8 (17) In 2017, 22 percent of high schools offered
9 the Advanced Placement (AP) Computer Science
10 course, and only 35 percent of high schools teach
11 computer science.

12 (18) In 2018, 28 percent of AP Computer
13 Science test takers were girls, and 21 percent were
14 African American or Latino.

15 (19) There is a dearth of disaggregated data to
16 show academic attainment across different Asian-
17 American and Pacific Islander communities.

18 **SEC. 50502. NECESSITY OF REDUCING AND ELIMINATING**

19 **BARRIERS FOR MINORITIES IN STEAM.**

20 That the House of Representatives supports efforts
21 to—

22 (1) increase diversity and inclusion in the tech-
23 nology sector, including robust plans to ensure re-
24 cruitment, training, and retention of underrep-
25 resented minorities at all levels, from the boardroom

1 to the senior executive level, to rank and file employ-
2 ees, as well as vendors;

3 (2) eliminate barriers faced by people of color,
4 and other underrepresented groups when breaking
5 into the technology sector;

6 (3) ensure all students have access to science,
7 technology, engineering, arts, and mathematics
8 (STEAM) education for a 21st century economy, in-
9 cluding computer science education in particular;

10 (4) strengthen investments in, and collabora-
11 tions with educational institutions including commu-
12 nity colleges, Historically Black Colleges and Univer-
13 sities, Hispanic-serving institutions, Asian-American,
14 Native American, and Pacific Islander-serving insti-
15 tutions, American Indian Tribally controlled colleges
16 and universities, Alaska Native and Native Hawai-
17 ian-serving institutions, predominantly Black institu-
18 tions, Native American-serving, non-Tribal institu-
19 tions, and other minority-serving institutions to sus-
20 tain a pipeline of diverse STEAM graduates ready
21 to enter the technology sector; and

22 (5) improve data collection, disaggregation, and
23 dissemination of information for greater under-
24 standing and transparency of diversity in STEAM
25 education and across the workforce.

11 **SEC. 50601. FINDINGS.**

12 Congress finds the following:

13 (1) No Name-Calling Week is an annual week
14 of educational activities aimed at ending name-call-
15 ing of all kinds and providing schools with the tools
16 and inspiration to launch an ongoing dialogue about
17 ways to eliminate name-calling and bullying in their
18 communities.

19 (2) Tens of thousands of elementary and middle
20 school students have participated in No Name-Call-
21 ing Week since its inception in 2004.

22 (3) Over 3,000 students help to lead No Name-
23 Calling Week each year.

1 (4) 26 percent of elementary students reported
2 hearing others say hurtful things based on another
3 student's race or ethnic background.

4 (5) 36 percent of elementary students reported
5 being bullied or called names at some point while in
6 school.

7 (6) Elementary students who are bullied are
8 four times as likely as other students to say they do
9 not want to go to school because they feel afraid or
10 unsafe.

11 (7) Over 87 percent of LGBTQ middle and
12 high school students have heard negative remarks
13 about transgender people.

14 (8) Over 70 percent of LGBTQ middle and
15 high school students were verbally harassed in the
16 past year because of their sexual orientation.

17 (9) 48 percent of LGBTQ middle and high
18 school students experienced harassment via elec-
19 tronic means in the past year.

20 (10) Students who faced anti-LGBTQ discrimi-
21 nation at school were more likely to receive school
22 discipline than their peers.

23 (11) Students feeling unsafe in their schools
24 has often resulted in missed school days and exposes

1 students to disciplinary actions because of truancy
2 policies.

3 (12) Nearly 70 percent of American Indian or
4 Alaska Native (or Two Spirit) LGBTQ middle and
5 high school students felt unsafe based on their sex-
6 ual orientation or gender identity in the past year.

7 (13) 60 percent of Latinx LGBTQ middle and
8 high school students experienced bullying based on
9 their gender identity in the past year.

10 (14) Nearly 60 percent of Black LGBTQ mid-
11 dle and high school students experienced bullying
12 based on their sexual orientation in the past year.

13 (15) Nearly 50 percent of multiracial LGBTQ
14 middle and high school students felt unsafe in school
15 based on the way they express their gender.

16 (16) Over 25 percent of LGBTQ students re-
17 ported being victimized at school based on their ac-
18 tual or perceived disability.

19 **SEC. 50602. NECESSITY OF ADDITIONAL PROTECTIONS FOR**
20 **LGBT YOUTH IN SCHOOLS.**

21 That Congress—

22 (1) supports the goals and ideals of No Name-
23 Calling Week;

1 (2) encourages the people of the United States
2 to observe No Name-Calling Week with appropriate
3 ceremonies, programs, and activities;

4 (3) encourages schools to consider a more com-
5 prehensive anti-bullying and harassment policy that
6 contains specific provisions addressing infractions
7 based on the sexual orientation or gender identity of
8 the victim; and

9 (4) calls for schools to have more inclusive cur-
10 ricula on LGBTQ people, history, and events.

11 **Subtitle G—Getting Youth Re-in-**
12 **vested in Environmental Edu-**
13 **cation Now**

14 **SEC. 50701. SHORT TITLE.**

15 This subtitle may be cited as—

16 (1) the “Getting Youth Re-invested in Environ-
17 mental Education Now Act”; or

18 (2) the “GREEN Act”.

19 **SEC. 50702. FINDINGS.**

20 The Congress makes the following findings:

21 (1) Environmental justice education is essential
22 for—

23 (A) producing students who are prepared
24 to address not only the imminent climate
25 change issues that effect them locally, but to be

1 the driving force behind global environmental
2 solutions that will be the stimulus of an emerg-
3 ing eco-efficient economy;

4 (B) addressing the global and local envi-
5 ronmental issues that are disproportionately af-
6 fecting people of color; and

7 (C) fostering a critical understanding of
8 the environment within the context of human
9 political and social actions.

10 (2) Environmental justice education lends itself
11 to the field of service learning with the call to move
12 beyond the classroom and experience the earth in an
13 experiential, embodied way which empowers students
14 to confront global environmental justice.

15 (3) States and local educational agencies should
16 create an integrated curriculum in which environ-
17 mental justice education is incorporated throughout
18 subject areas such as math, science, history, lan-
19 guage arts, and all other core subject areas.

20 (4) Environmental justice education uses mul-
21 tiple strategies including experiential learning, inte-
22 grated core subject study, analytical research, and
23 project based learning.

1 **SEC. 50703. GRANTS AUTHORIZED.**

2 (a) IN GENERAL.—The Secretary of Education shall,
3 subject to the availability of appropriations, make grants

22 ronmental justice, such as air pollution, lead paint
23 poisoning, access to organic foods, sustainable agri-
24 culture, proximity to landfills, toxic dumping, rel-
25 ative asthma rates, and the historical patterns of en-
26 vironmental impacts.

1 (2) Empowering students actively to address
2 environmental issues in their local neighborhoods
3 while also considering global environmental prob-
4 lems.

5 (3) Allowing students to explore careers that in-
6 volve solving environmental problems and cultivating
7 innovators to solve such problems.

8 (4) Enhancing life skills required for sound per-
9 sonal decision making, participation in civic and cul-
10 tural affairs, and economic productivity, such as
11 problem solving, critical thinking, and good steward-
12 ship.

13 (5) Establishing a nurturing environment that
14 fosters democratic and socially just relationships
15 among schools, families, and surrounding commu-
16 nities.

17 (c) CO-OP PROGRAM DEVELOPMENT.—A co-op pro-
18 gram developed with funds received under this subtitle
19 shall satisfy the following objectives:

21 in the environmental field by building partnerships
22 with the public and private sector.

23 (2) Providing students with an opportunity to
24 earn secondary school course credits or credits to-
25 wards the jurisdiction's service learning require-

1 ments during the summer through experiential
2 learning such as internships and other types of field
3 experience.

4 (3) Assisting students in building skills nec-
5 essary for workforce success, such as development of
6 a career path; resume, letter, and memoranda writ-
7 ing; and job interviewing.

8 (4) Providing students with mentors recruited
9 through the partnerships described in paragraph (1)
10 who are equipped to assist a mentee in the skill
11 building described in paragraph (3).

18 The purpose of this subtitle is to help all individuals
19 of the United States earn the education and skills the indi-
20 viduals need—

21 (1) by making 2 years of community college
22 free, through a new partnership with States and In-
23 dian tribes to help the States and Indian tribes—

24 (A) waive resident community college tui-
25 tion and fees for eligible students;

1 (B) maintain State and Indian tribe sup-

15 which data are available; and

16 (II) for each subsequent award
17 year, the average resident community
18 college tuition and fees per student in
19 all States calculated under this sub-
20 clause for the preceding year, in-
21 creased by the lesser of—

22 (aa) the percentage by which
23 the average resident community

7 of the Senate and the Committee on Education and
8 the Workforce of the House of Representatives con-
9 taining the analysis described in paragraph (1) and

19 **Subtitle J—America RISING**

20 **SEC. 51101. SHORT TITLE.**

21 This subtitle may be cited as the “America Realizing
22 the Informational Skills and Initiative of New Graduates
23 Act of 2020” or “America RISING Act of 2020”.

24 **SEC. 51102. FINDINGS.**

25 Congress finds the following:

1 (1) According to the Bureau of Labor Statis-
2 tics, in 2012 the national unemployment rate for in-
3 dividuals ages 25 years and older with a bachelor's
4 degree was 4.5 percent and 6.2 percent for individ-
5 uals with an associate's degree. For college grad-
6 uates ages 18 to 25 the national unemployment rate
7 in 2012 was higher at 7.7 percent. Because the typ-
8 ical college graduates leaves college owing an aver-
9 age of \$29,400 in student loan debt, a rate that has
10 increased 6 percent every year since 2008, the cur-
11 rent job market offers exceedingly few opportunities
12 for such graduates to obtain employment at a salary
13 adequate to service their college loan debt.

14 (2) There are more than 26 million small busi-
15 nesses in the United States. In the current economic
16 climate, these small businesses are experiencing dif-
17 ficulty in finding the resources needed to increase
18 sales, modernize operations, and hire new employees.

19 (3) Recent college graduates need the experi-
20 ence that can be obtained only in the workplace to
21 refine their skills and develop the entrepreneurial
22 qualities that can lead to the creation of new busi-
23 nesses and jobs.

24 (4) Existing small businesses and companies
25 will benefit from the information and technology

1 skills possessed by many of the Nation's recent col-
2 lege graduates.

3 (5) Enabling recent college graduates to obtain
4 employment with small businesses benefits the na-
5 tional economy by providing such businesses the
6 human capital and technical expertise needed to
7 compete and win in the global economy of the 21st
8 century.

9 **SEC. 51103. ESTABLISHMENT OF AMERICA RISING PRO-**
10 **GRAM.**

11 (a) ESTABLISHMENT.—The Secretary of Labor and
12 the Secretary of Education shall, jointly, establish a pro-
13 gram under which—

14 (1) grants are paid to eligible employers to de-
15 fray the cost of compensation paid by such employ-
16 ers to recent college graduates; and

17 (2) grants are paid to recent college graduates
18 to enable such graduates to defray the cost of under-
19 taking further postsecondary courses at an institu-
20 tion of higher education for up to 24 months in sub-
21 jects relating to mathematics, science, engineering,

6 pating in the program under this section (by benefit-
7 ting from a grant awarded under paragraph (1), or

9 (a)) may defer payment on Federal student loans
10 made to the graduate under title IV of the Higher
11 Education Act of 1965 (20 U.S.C. 1070 et seq.) for
12 the period of the graduate’s participation in the pro-
13 gram.

14 (3) GRANTS TO ELIGIBLE EMPLOYERS.—With
15 respect to a grant awarded under subsection
16 (a)(1)—

17 (A) an eligible employer—

18 (i) may use the grant to defray the
19 cost of compensation for not more than 2
20 recent college graduates; and

21 (ii) shall provide a compensation
22 amount to each recent college graduate
23 participating in the program that is equal
24 to or greater than the grant amount re-

1 received by the employer for the graduate;

2 and

3 (B) the Secretary may not award an eligi-
4 ble employer more than \$25,000 per recent col-
5 lege graduate.

6 (4) GRANTS TO RECENT COLLEGE GRAD-
7 UATES.—With respect to a grant awarded under
8 subsection (a)(2) to a recent college graduate, the
9 graduate shall be eligible to receive Federal student
10 aid under title IV of the Higher Education Act of
11 1965 (20 U.S.C. 1070 et seq.) without regard to
12 whether the graduate has been or is delinquent on
13 any Federal student loans made to the graduate
14 under such title IV (20 U.S.C. 1070 et seq.).

15 (c) DEFINITIONS.—In this section:

16 (1) ELIGIBLE EMPLOYER.—The term “eligible
17 employer” means an employer that—

10 the term in section 101 of the Higher Education Act
11 of 1965 (20 U.S.C. 1001).

12 (4) MAJOR CORPORATION.—The term “major
13 corporation” means an employer that earns an an-
14 nual revenue of not less than \$5,000,000 and em-

16 (5) RECENT COLLEGE GRADUATE.—

17 (A) IN GENERAL.—The term “recent col-
18 lege graduate” means an individual—

19 (i) who has received a baccalaureate
20 or associate degree from an institution of
21 higher education on or after the date that
22 is 24 months before the grant benefitting
23 the graduate is awarded under this section;
24 and

1 (ii) who has not previously received
2 any such baccalaureate or associate degree.

3 (B) INSTITUTION OF HIGHER EDU-
4 CATION.—In subparagraph (A), the term “insti-

17 paragraph (1) shall remain available until expended.

20 **Enhancement Act**

21 **SEC. 51201. SHORT TITLE.**

22 This subtitle may be cited as the “Cyber Security
23 Education and Federal Workforce Enhancement Act”.

24 **SEC. 51202. FINDINGS.**

25 Congress makes the following findings:

1 (1) The Department of Homeland Security's
2 Cybersecurity Education & Awareness (CE&A)
3 Branch was established under National Security
4 Presidential Directive–54/Homeland Security Presi-
5 dential Directive–23, which launched the 2008 Com-
6 prehensive National Cybersecurity Initiative. There
7 is no appropriations language that references CE&A;
8 it is funded through the Infrastructure Protection
9 and Information Security appropriation under the
10 National Protection and Programs Directorate.

11 (2) The Department of Homeland Security's
12 CE&A works with universities to attract top talent
13 through competitive scholarship, fellowship, and in-
14 ternship programs.

15 (3) The agency certifies more than 125 institu-
16 tions nationwide as National Centers for Academic
17 Excellence to teach students valuable technical skills
18 in various disciplines of Information Assurance.

19 (4) The CE&A prepares and makes available
20 computer and information security lesson plans. At
21 the K–12 level, the Department has partnered with
22 USA Today to provide lesson plans about the impor-
23 tance of prevention of computer and digital informa-
24 tion crimes at home and in the classroom.

1 (5) The agency initiated the IT Security Essen-
2 tial Body of Knowledge (EBK). The National
3 Cybersecurity Division developed the EBK to estab-
4 lish a national baseline of the essential knowledge
5 and skills that IT security practitioners in the public
6 and private sector should have to perform specific
7 roles and responsibilities.

8 (6) The challenge for computer and information
9 security coordination and development is no single
10 agreed upon voluntary taxonomy nor definitions to
11 rely upon when categorizing or classifying computer
12 or information security jobs.

13 (7) The fields of computer and information se-
14 curity study is within the field of information assur-
15 ance.

16 (8) The information assurance, cybersecurity
17 and computer security workforce encompasses a va-
18 riety of context, roles, and occupations and is too
19 broad and diverse to be treated as a single occupa-
20 tion or profession.

21 (9) Science, technology, engineering, and math-
22 ematics occupations, which include computer and in-
23 formation security experts and professionals, are ex-
24 pected to grow by 17 percent by the year 2018 com-
25 pared to 9.8 percent for other jobs.

1 (10) The Federal Government is experiencing a
2 shortage of qualified professionals with expertise in
3 computer and information security.

4 (11) Insufficiently trained, educated, or super-
5 vised Federal computer workers can reduce the Na-
6 tion's ability to secure computer networks from
7 cyber attacks or incidents.

8 (12) The computing and information security
9 workforce encompasses a variety of context, roles,
10 and occupations and is too broad an diverse to be
11 treated as a single occupation or profession.

12 (13) Computing and information security is not
13 solely a technical endeavor, and thus encompasses a
14 wide range of backgrounds and skills that will be
15 needed in an effective national computing and infor-
16 mation security workforce.

17 (14) The route toward professionalization of a
18 field of study can be slow and difficult, and not all
19 portions of a field can or should be professionalized
20 at the same time.

21 (15) It is essential, just as it is for other dis-
22 ciplines like medicine and the law, that academics,
23 employers, and government share a common lan-
24 guage to identify, train, educate, and employ com-
25 puter and information security professionals.

1 (16) The secure management of digital sensitive
2 information collected maintained or transmitted by
3 Federal Government agencies, including taxpayer
4 data, Social Security records, medical records, intel-
5 lectual property, proprietary business information,
6 and sensitive Government data vital to national se-
7 curity and national defense requires an educated and
8 well-trained, as well as supervised, Federal work-
9 force.

10 (17) It is in the Nation's interest to promote
11 opportunities for science and technology education
12 and employment as a means of addressing the need
13 to fill computer and information security jobs within
14 the Federal Government.

15 (18) The Department of Homeland Security's
16 role is to lead, champion, and sustain the develop-
17 ment of a national information assurance,
18 cybersecurity and computer security workforce, as
19 well as to educate the citizenry.

20 (19) Developing, implementing, and articulating
21 programs that protect against and respond to com-
22 puter and information security threats and hazards
23 to the Homeland's security.

24 (20) The Department of Homeland Security
25 must create an agile, diverse workforce and digital

1 citizenry that are capable of sustaining a safe, se-
 2 cure, resilient computer and information security
 3 space, driven by a dynamic Department organization
 4 at the forefront of cross-sector computer and infor-
 5 mation security workforce development.

16 **SEC. 51306. EFFECTIVE DATE.**

17 This subtitle and the amendments made by this sub-
 18 title shall take effect on the first day of the fiscal year
 19 that begins after the date of enactment of this Act.

20 **Subtitle M—CAMPUS HATE**
 21 **Crimes**

22 **SEC. 51401. SHORT TITLE.**

23 This subtitle may be cited as the “Creating Account-
 24 ability Measures Protecting University Students Histori-

1 cally Abused, Threatened, and Exposed to Crimes Act”
2 or the “CAMPUS HATE Crimes Act”.

3 **SEC. 51402. FINDINGS.**

4 Congress finds the following:

5 (1) The incidence of violence motivated by the
6 actual or perceived race, color, religion, national ori-
7 gin, gender, sexual orientation, gender identity, or
8 disability of the victim, known as hate crimes or
9 crimes motivated by bias, poses a serious national
10 problem.

11 (2) Such violence motivated by hatred and big-
12 otry endangers our citizens and disrupts the commu-
13 nities they live in, by tearing at the fabric of our
14 Nation and our constitutional aspiration to create a
15 stronger, more perfect union.

16 (3) According to data obtained by the Southern
17 Poverty Law Center, schools were a particularly
18 common location for hate crimes to occur—including
19 150 incidents on college campuses in 33 States since
20 November.

21 (4) This level of violence demonstrates an un-
22 precedented escalation in race and hate-based crime
23 being committed on college campuses compared to
24 recent years.

1 (5) Hate groups have openly declared their ef-
2 forts to establish a physical presence on college cam-
3 puses and have specifically targeted young individ-
4 uals and students for their messaging. Such efforts
5 include placing fliers around campus, online orga-
6 nizing, and bringing national leaders to speak.

7 (6) College campuses have become the ideal lo-
8 cation for hate group activity because they tradition-
9 ally embrace diversity, tolerance, and social justice
10 and strive for equality and have created safe spaces
11 for students of every gender and identity.

12 (7) These are soft targets for such groups, be-
13 cause students are more curious and receptive to
14 new, even radical, ideas than older individuals.

15 (8) The Higher Education Act of 1965 and the
16 Jeanne Clery Disclosure of Campus Security Policy
17 and Campus Crime Statistics Act have enabled Fed-
18 eral authorities to understand, report, and where ap-
19 propriate, investigate and prosecute hate crimes
20 committed within the jurisdiction of an institution of
21 higher education.

22 (9) However, an enduring effort cannot be
23 made to address the national problem posed by hate
24 crimes if many of our institutions of higher edu-
25 cation fail to properly evaluate, prepare, and imple-

1 ment an effective strategy to prevent and respond to
2 such crimes.

3 (10) The annual dissemination of relevant in-
4 formation to students and faculty regarding the in-
5 stitution's campus safety apparatus will provide for
6 a more transparent and informed campus commu-
7 nity on the infrastructure and process in place, and
8 the assistance services available.

9 (11) Federal financial assistance with regard to
10 providing training, technical assistance, evaluation,
11 and other associated services will allow school secu-
12 rity and administration to understand the unique
13 needs for the campus and the assistance to imple-
14 ment the proper safety plan to address those needs.

15 (12) Amending the Program Participation
16 Agreement between an institution of higher edu-
17 cation and the Department of Education to include
18 hate crime programs provides substantial assurance
19 that campus climate and safety will become an in-
20 creasing priority and focal point to the higher edu-
21 cation community.

22 (13) Modifying the Jeanne Clery Disclosure of
23 Campus Security Policy and Campus Crime Statis-
24 tics Act will enable campus security and local law
25 enforcement to more efficiently collaborate in detail-

1 ing and recording information on crimes, including
2 violence motivated by the actual or perceived race,
3 color, religion, national origin, gender, sexual ori-
4 entation, gender identity, or disability of the victim.

5 (14) The problem of crimes motivated by bias
6 is sufficiently serious, widespread, and interstate in
7 nature as to warrant Federal financial assistance to
8 States and local jurisdictions.

9 **SEC. 51403. HATE CRIME PREVENTION AND RESPONSE.**

10 Part B of title I of the Higher Education Act of 1965
11 is amended by adding at the end the following:

12 **“SEC. 124. HATE CRIME PREVENTION AND RESPONSE.**

14 ing any other provision of law, no institution of higher

18 the institution has adopted and has implemented a pro-

20 within the jurisdiction of the institution or by students
21 and employees that, at a minimum, includes—

22 “(1) the annual distribution to each student
23 and employee of—

25 ble sanctions that clearly prohibit, at a min-

1 imum, the acts or threats of violence, property
2 damage, harassment, intimidation, or other
3 crimes that specifically target an individual
4 based on their race, religion, ethnicity, handi-
5 cap, sexual orientation, gender, or gender iden-
6 tification by students and employees on the in-
7 stitution's property or as a part of any of the
8 institution's activities;

11 and State law or other applicable authority;

8 by subparagraph (A); and

18 part of any of the institution’s activities;
19 and

20 “(ii) are reported to campus officials
21 or nonaffiliated local law enforcement
22 agencies with jurisdiction over the incident;

23 “(C) determine the number, type, and se-
24 verity of sanctions described in paragraph
25 (1)(F) that are imposed by the institution as a

1 result of hate crimes and fatalities on the insti-

10 or community service directly related to the
11 community harmed by the respondent’s offense.

12 “(2) APPEALS.—Upon determination by the
13 Secretary to terminate financial assistance to any in-

15 institution may file an appeal with an administrative
16 law judge before the expiration of the 30-day period
17 beginning on the date such institution is notified of
18 the decision to terminate financial assistance under
19 this section. Such judge shall hold a hearing with re-

22 Congress finds the following:

23 (1) The United States needs individuals with
24 the knowledge, skills, and abilities that enable them

1 to thrive as educated citizens in society and success-
2 fully participate in an interconnected economy.

3 (2) Investments in higher education through
4 student aid such as the Federal Pell Grant program
5 under section 401 of the Higher Education Act of
6 1965 (20 U.S.C. 1070a) help students and families
7 reach, afford, and complete education and training
8 opportunities beyond high school.

9 (3) The Federal Pell Grant program is the larg-
10 est source of federally funded grant aid for postsec-
11 ondary education.

12 (4) The Federal Pell Grant program allows mil-
13 lions of people of the United States to attend college
14 and is especially vital to students of color. Three in
15 5 African American undergraduate students, and
16 one-half of all Latino undergraduate students, rely
17 on the Federal Pell Grant program.

18 (5) The Federal Pell Grant program should
19 continue to be a reliable source of funding for aspir-
20 ing students, their families, and future generations
21 that they can count on to be there for them when
22 they seek higher education.

23 (6) To stabilize Federal Pell Grant funding and
24 ensure the grant will continue to serve millions of
25 students now and in the future, the program should

1 become a fully mandatory program that grows with
2 inflation.

3 (7) Protecting surplus funds, restoring prior eli-

5 students will give millions of students and families
6 the critical student aid support they need and de-
7 serve.

1 (1) Hazing is a problem in the United States,
2 but most especially in our Nation's educational sys-
3 tem.

4 (2) Hazing undermines the educational experi-
5 ence of the victims and the perpetrators. Hazing
6 often perpetuates a cycle in which students who have
7 been hazed feel the need to haze other students as
8 a rite of passage to join a student organization.

9 (3) While hazing takes many forms, including
10 menial labor, disparagement, public or private hu-
11 miliation, and forced exercise, the combination of al-
12 cohol or drug consumption as a form of hazing has
13 caused bodily injury to thousands of students and
14 has been fatal in many instances.

15 (4) Numerous students have died as a result of
16 collegiate hazing. Some of the recent tragedies in-
17 clude Nicky Cumberland, Max Gruver, Tim Piazza,
18 Dalton Debrick, Marquise Braham, and Harrison
19 Kowiak.

2 **American History**

3 **SEC. 53301. SHORT TITLE.**

4 This subtitle may be cited as the “Black History is
5 American History Act”.

6 **SEC. 53302. FINDINGS.**

7 Congress finds the following:

8 (1) Whereas since before its founding, the
9 United States of America has benefited from and
10 been enhanced by the integral role African Ameri-
11 cans have played in our country’s history and con-
12 tributions to the world.

13 (2) Whereas African American history does not
14 begin in the Americas. It can be traced back to the
15 great empires of West Africa beginning in A.D. 790,
16 which aided the establishment and survival of colo-
17 nies in America and the New World, generally, and
18 fought against European oppression.

19 (3) Whereas African Americans have rep-
20 resented a significant portion of the American popu-
21 lation from nearly 20 percent at the signing of the
22 Declaration of Independence, almost all of whom, if
23 not all, were victims of the largest forced deporta-
24 tions in recorded history, the transatlantic slave
25 trade and resulting African diaspora. It is estimated

1 over 10,000,000 free Africans were enslaved between
2 the mid-fifteenth and nineteenth centuries during
3 the diaspora.

4 (4) Whereas slavery was not abolished and Afri-
5 can Americans not acknowledged as American citi-
6 zens until the mid-nineteenth century, servitude did
7 not abate their contributions to the settlement,
8 growth, and development of the United States,
9 which continued through Post-Reconstruction, Jim
10 Crow, industrialization, World Wars and conflicts,
11 innovation and inventiveness, constitutional
12 progress, and every aspect of American society.

13 (5) Whereas during the civil rights movement of
14 the 1950s and 1960s, civil rights leaders and activ-
15 ists championed the fight for equal rights, including
16 voting rights, for all African Americans.

17 (6) Whereas the seminal case of *Brown v.*
18 *Board of Education*, decided May 17, 1954, found
19 that the decades old policy of separate but equal ac-
20 cess to education was inherently unequal, and the
21 segregation of Black public-school students was no
22 longer the law of the land.

23 (7) Whereas African Americans continue to
24 fight discrimination, structural racism, economic in-
25 equities, and benign and overt omission of the inte-

1 gral role they played in our country's rise to great-
2 ness.

3 (8) Whereas currently, 12 States (Arkansas,
4 California, Colorado, Florida, Illinois, New Jersey,
5 New York, Michigan, Mississippi, Rhode Island,
6 South Carolina, and Texas) have passed educational
7 laws requiring Black history be incorporated into the
8 curricula of all public schools.

9 (9) Whereas Congress established the National
10 Museum of African American History and Culture
11 in 2003 after decades of efforts to promote and
12 highlight the contributions of African Americans,
13 which serves as an indication of the national impor-
14 tance of examining Black history. Since opening in
15 2016, the museum has worked to educate the public
16 on the American story through the lens of African
17 American history and culture and provide educators,
18 parents, caregivers, and students with tools and re-
19 sources on the African American experience, its na-
20 tional impact, race, racism, and the importance of
21 tolerance and inclusivity.

22 (10) Whereas according to a 2015 research
23 study conducted by the National Museum of African
24 American History and Culture and reported in Re-
25 search into the State of African American History

1 and Culture in K–12 Public Schools, key findings in-
2 dicated that teachers considered Black history as in-
3 fluential in understanding the complexity of United
4 States history.

5 (11) Whereas the importance of Black history
6 is reflected in the National Assessment of Edu-
7 cational Progress United States History framework,
8 from pre-colonization through contemporary Amer-
9 ica.

10 (12) Whereas the Federal Government, through
11 support for educational activities of national muse-
12 ums established under Federal law, can assist teach-
13 ers in efforts to incorporate historically accurate in-
14 struction on the comprehensive history of African
15 Americans and students in their exploration of Black
16 history as an integral part of American history.

17 **SEC. 53303. AMERICAN HISTORY AND CIVICS EDUCATION.**

15 Museum of African American History and Cul-
16 ture initiative providing programs and resources
17 for educators and students” after “National
18 Parks”; and

21 Black history,” after “American history”;

22 (B) in subparagraph (A), by inserting “,

 5 mentary and Secondary Education Act of 1965 (20 U.S.C.

 16 shall include Black history)” after “history,”.

17 **Subtitle FF—CAMPUS HATE**
 18 **Crimes**

19 **SEC. 53401. SHORT TITLE.**

20 This subtitle may be cited as the “Creating Account-
 21 ability Measures Protecting University Students Histori-
 22 cally Abused, Threatened, and Exposed to Crimes Act”
 23 or the “CAMPUS HATE Crimes Act”.

24 **SEC. 53402. FINDINGS.**

25 Congress finds the following:

1 (1) The incidence of violence motivated by the
2 actual or perceived race, color, religion, national ori-
3 gin, gender, sexual orientation, gender identity, or
4 disability of the victim, known as hate crimes or
5 crimes motivated by bias, poses a serious national
6 problem.

7 (2) Such violence motivated by hatred and big-
8 otry endangers our citizens and disrupts the commu-
9 nities they live in, by tearing at the fabric of our
10 Nation and our constitutional aspiration to create a
11 stronger, more perfect union.

12 (3) According to data obtained by the Southern
13 Poverty Law Center, schools were a particularly
14 common location for hate crimes to occur—including
15 150 incidents on college campuses in 33 States since
16 November.

17 (4) This level of violence demonstrates an un-
18 precedented escalation in race and hate-based crime
19 being committed on college campuses compared to
20 recent years.

21 (5) Hate groups have openly declared their ef-
22 forts to establish a physical presence on college cam-
23 puses and have specifically targeted young individ-
24 uals and students for their messaging. Such efforts

1 include placing fliers around campus, online orga-
2 nizing, and bringing national leaders to speak.

3 (6) College campuses have become the ideal lo-
4 cation for hate group activity because they tradition-
5 ally embrace diversity, tolerance, and social justice
6 and strive for equality and have created safe spaces
7 for students of every gender and identity.

8 (7) These are soft targets for such groups, be-
9 cause students are more curious and receptive to
10 new, even radical, ideas than older individuals.

11 (8) The Higher Education Act of 1965 and the
12 Jeanne Clery Disclosure of Campus Security Policy
13 and Campus Crime Statistics Act have enabled Fed-
14 eral authorities to understand, report, and where ap-
15 propriate, investigate and prosecute hate crimes
16 committed within the jurisdiction of an institution of
17 higher education.

18 (9) However, an enduring effort cannot be
19 made to address the national problem posed by hate
20 crimes if many of our institutions of higher edu-
21 cation fail to properly evaluate, prepare, and imple-
22 ment an effective strategy to prevent and respond to
23 such crimes.

24 (10) The annual dissemination of relevant in-
25 formation to students and faculty regarding the in-

stitution's campus safety apparatus will provide for a more transparent and informed campus community on the infrastructure and process in place, and the assistance services available.

(11) Federal financial assistance with regard to providing training, technical assistance, evaluation, and other associated services will allow school security and administration to understand the unique needs for the campus and the assistance to implement the proper safety plan to address those needs.

(12) Amending the Program Participation Agreement between an institution of higher education and the Department of Education to include hate crime programs provides substantial assurance that campus climate and safety will become an increasing priority and focal point to the higher education community.

(13) Modifying the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act will enable campus security and local law enforcement to more efficiently collaborate in detailing and recording information on crimes, including violence motivated by the actual or perceived race, color, religion, national origin, gender, sexual orientation, gender identity, or disability of the victim.

1 (14) The problem of crimes motivated by bias
2 is sufficiently serious, widespread, and interstate in
3 nature as to warrant Federal financial assistance to
4 States and local jurisdictions.

5 **SEC. 53403. HATE CRIME PREVENTION AND RESPONSE.**

6 Part B of title I of the Higher Education Act of 1965
7 is amended by adding at the end the following:

12 **SEC. 53601. SHORT TITLE.**

13 This subtitle may be cited as the “Beyond the Box
14 for Higher Education Act of 2020”.

15 **SEC. 53602. FINDINGS.**

16 Congress finds the following:

17 (1) An estimated 70,000,000 Americans have
18 some type of arrest or conviction record that would
19 appear in a criminal background check.

20 (2) Each year, more than 600,000 people re-
21 turn to society from State or Federal prison.

22 (3) Nearly 11,000,000 Americans are admitted
23 to city and county jails each year, with an average
24 daily population of more than 700,000 people.

1 (4) An estimated 2,100,000 youth under the
2 age of 18 are arrested every year in the United
3 States.

4 (5) 1,700,000 juvenile delinquency cases are
5 disposed of in juvenile courts annually.

6 (6) Juvenile records are not always confidential;
7 many States disclose information about youth in-
8 volvement with the juvenile justice system or do not
9 have procedures to seal or expunge juvenile records.

10 (7) The compounding effects of collateral con-
11 sequences due to criminal justice involvement hinder
12 the ability of individuals to reenter society success-
13 fully.

14 (8) People of color and low-income people are
15 disproportionately impacted by the collateral con-
16 sequences of criminal justice involvement.

17 (9) Incarceration leads to decreased earnings,
18 unemployment, and poverty.

19 (10) Upon reentry, lower educational attain-
20 ment, a lack of work skills or history, and the stig-
21 ma of a criminal record can hinder a formerly incar-
22 cerated person's ability to return to their commu-
23 nities successfully.

1 (11) One way to improve reentry outcomes is to
2 increase educational opportunities for people with a
3 criminal or juvenile justice history.

4 (12) By reducing rearrests and reconvictions,
5 and by increasing educational attainment, formerly
6 incarcerated individuals are better situated to find
7 stable employment, contributing to their commu-
8 nities.

9 **SEC. 53603. BEYOND THE BOX FOR HIGHER EDUCATION.**

10 Part B of title I of the Higher Education Act of 1965
11 (20 U.S.C. 1011 et seq.) is amended by adding at the end
12 the following:

13 **“SEC. 124. BEYOND THE BOX FOR HIGHER EDUCATION.**

14 “(a) TRAINING AND TECHNICAL ASSISTANCE.—

15 “(1) IN GENERAL.—The Secretary, acting
16 through the Office of Policy, Planning, and Innova-

2 guidance and recommendations issued under para-
3 graph (1) shall include the following:

4 “(A) If an institution of higher education
5 collects criminal or juvenile justice information
6 on applicants for admission, it is recommended
7 that the institution determine whether this in-
8 formation is necessary to make an informed ad-
9 mission decision and whether it would be appro-
10 prium to remove these questions from the appli-
11 cation.

12 “(B) If an institution of higher education
13 determines that it is appropriate to remove
14 criminal or juvenile justice questions from the
15 institution’s application for admissions process,
16 it is recommended that the institution comply
17 with the following:

18 “(i) If criminal or juvenile justice
19 questions are necessary for the other as-
20 pects of the institution’s interactions with
21 applicants, identify those specific inter-
22 actions in which it is appropriate to ask
23 such questions.

24 “(ii) In nonadmissions interactions,
25 inquire about criminal or juvenile justice

1 history transparently and clearly inform
2 applicants as early as possible how to re-
3 spond to the inquiry.

4 “(iii) In nonadmissions inquiries
5 about criminal or juvenile justice history,
6 ensure the questions are specific and nar-
7 rowly focused, and make it clear that an-
8 swering the questions may not negatively
9 impact applicants’ chances of enrollment.

10 “(iv) In nonadmissions inquiries about
11 criminal or juvenile justice history, give ap-
12 plicants the opportunity to explain criminal
13 or juvenile justice involvement and pre-
14 paredness for postsecondary study.

15 “(v) Provide staff of the institution
16 who have access to a prospective or current
17 student’s criminal or juvenile justice his-
18 tory, the necessary and proper training on
19 the effective use of criminal or juvenile jus-
20 tice history data, including the problems
21 associated with this information, the types
22 of supporting documents that may need to
23 be obtained, and the appropriate privacy
24 protections that must be put in place.

1 “(C) If an institution of higher education
2 determines that it is necessary to inquire about
3 the criminal or juvenile justice history of appli-
4 cants for admission, it is recommended that the
5 institution comply with the following:

6 “(i) Delay the request for, or consid-
7 eration of, such information until after an
8 admission decision has been made to avoid
9 a chilling effect on applicants whose crimi-
10 nal or juvenile justice involvement may ul-
11 timately be determined irrelevant by the
12 institution.

13 “(ii) Provide notice and justification
14 for applicants within 30 days if, upon re-
15 ceiving information regarding applicants’
16 criminal or juvenile justice involvement,
17 the admission to the institution is denied
18 or rescinded based solely on the applicant’s
19 criminal or juvenile justice involvement.

20 “(iii) Inquire about criminal or juve-
21 nile justice history transparently and clear-
22 ly inform applicants as early as possible in
23 the application process how to respond to
24 the inquiry.

1 “(iv) Ensure the questions are specific
2 and narrowly focused.

3 “(v) Give applicants the opportunity
4 to explain criminal or juvenile justice in-
5 volvement and preparedness for postsec-
6 ondary study.

7 “(vi) Provide admissions personnel,
8 registrars, and any other relevant staff of
9 the institution, as well as any other staff
10 that should have access to a prospective or
11 current student’s criminal or juvenile jus-
12 tice history, the necessary and proper
13 training on the effective use of criminal or
14 juvenile justice history data, including the
15 biases or limitations associated with this
16 information, the types of supporting docu-
17 ments that may need to be obtained, and
18 the appropriate privacy protections that
19 must be put in place.

20 “(3) TRAINING AND TECHNICAL ASSISTANCE.—

21 “(A) IN GENERAL.—The Secretary, acting
22 through the Office of Postsecondary Education
23 of the Department, shall use funds available to
24 the Department to provide institutions of high-
25 er education with training and technical assist-

11 “(I) the institution makes a de-
12 termination under paragraph (2)(A)
13 to continue asking criminal or juvenile
14 justice history questions in the admis-
15 sions process; or

16 “(II) the institution makes a de-
17 termination under paragraph (2)(A)
18 to remove criminal or juvenile justice
19 history questions in the admissions
20 process, but continues to make crimi-
21 nal or juvenile justice history inquiries
22 in nonadmissions settings;

23 “(ii) training to ensure that if an in-

25 justice history questions, that proxy ques-

2 criminal or juvenile justice history informa-
3 tion;

4 “(iii) training for financial aid per-
5 sonnel and any other staff of an institution
6 of higher education involved with campus
7 employment to provide guidance related to
8 work study programs or on campus em-
9 ployment available to formerly incarcerated
10 or juvenile adjudicated individuals;

11 “(iv) training for registrars, academic
12 counselors, student housing staff, student
13 life staff, and any other staff of an institu-
14 tion of higher education who would have
15 access to a student’s criminal or juvenile
16 justice information when the student is an
17 enrolled student; and

18 “(v) training for career counselors to
19 ensure that students with involvement in
20 the criminal or juvenile justice system are
21 provided with targeted career guidance,
22 made aware of potential barriers to em-
23 ployment or licensure, and provided assist-
24 ance to respond to these barriers.

1 “(b) RESOURCE CENTER.—The Secretary shall de-
2 velop a resource center that will serve as the repository
3 for—

4 “(1) best practices as institutions of higher edu-
5 cation develop and implement practices aligned with
6 the recommendations described in subsection (a)(2)
7 to ensure the successful educational outcomes of stu-
8 dents with criminal or juvenile justice histories; and

22 illegal drugs.”.

**Subtitle II—United States
Territories College Access**

SEC. 53701. SHORT TITLE.

This subtitle may be cited as the “United States Territories College Access Act”.

SEC. 53702. PURPOSE.

It is the purpose of this subtitle to establish a program that enables college-bound residents of the outlying areas to have greater choices among institutions of higher education.

SEC. 53703. COLLEGE ACCESS GRANTS.

(a) GRANTS.—

(1) IN GENERAL.—

(A) ALLOCATION TO OUTLYING AREAS.—

From the total amount appropriated under subsection (n) for a fiscal year, the Secretary shall allocate 25 percent to each of the outlying areas to make grants to eligible institutions in accordance with subparagraph (B).

(B) GRANTS TO ELIGIBLE INSTITUTIONS.—

From the amount allocated to an outlying area under subparagraph (A) for a fiscal year, the Governor of the outlying area shall carry out a program under which the Governor awards grants to eligible institutions, on behalf

1 of each eligible student from the outlying area
2 who is enrolled in such institution, to pay the
3 difference between—

4 (i) the base amount of tuition and
5 fees charged to the eligible student; and

6 (ii) the base amount of tuition and
7 fees charged to a student of the institution
8 who is a resident of the State in which the
9 institution is located.

10 (2) MAXIMUM STUDENT AMOUNTS.—The
11 amount paid on behalf of an eligible student under
12 this section shall be—

13 (A) not more than \$15,000 for any one
14 award year (as defined in section 481 of the
15 Higher Education Act of 1965 (20 U.S.C.
16 1088)); and

17 (B) not more than \$45,000 in the aggre-
18 gate.

19 (3) PRORATION.—In the case of a grant made
20 under this section on behalf of an eligible student
21 who is attending an eligible institution on a less
22 than full-time basis, the amount of the grant shall
23 be reduced in proportion to the degree to which that
24 student is not so attending on a full-time basis.

1 (b) REDUCTION FOR INSUFFICIENT APPROPRIA-
2 TIONS.—

3 (1) IN GENERAL.—If the funds appropriated
4 pursuant to subsection (n) for any fiscal year are in-
5 sufficient to enable the Governor of an outlying area
6 to award a grant in the amount determined under
7 subsection (a) on behalf of each eligible student from
8 the outlying area enrolled in an eligible institution,
9 then the Governor, in consultation with the Sec-
10 retary, shall—

11 (A) first, ratably reduce the amount of the
12 tuition and fee payment made on behalf of each
13 eligible student from the outlying area who has
14 not received funds under this section for a pre-
15 ceding year; and

16 (B) after making reductions under sub-
17 paragraph (A), ratably reduce the amount of
18 the tuition and fee payments made on behalf of
19 all other eligible students from the outlying
20 area.

21 (2) ADJUSTMENTS.—The Governor of an out-
22 lying area, in consultation with the Secretary, may
23 adjust the amount of tuition and fee payments made
24 under paragraph (1) based on—

1 (A) the financial need of the eligible stu-
2 dents to avoid undue hardship to the eligible
3 students; or

4 (B) undue administrative burdens on the
5 Governor.

6 (3) FURTHER ADJUSTMENTS.—Notwith-
7 standing paragraphs (1) and (2), the Governor of an
8 outlying area may prioritize the making or amount
9 of tuition and fee payments under this subsection
10 based on the income and need of eligible students.

11 (c) RULE OF CONSTRUCTION.—Nothing in this sec-
12 tion shall be construed to require an institution of higher
13 education to alter the institution's admissions policies or
14 standards in any manner to enable an eligible student to
15 enroll in the institution.

16 (d) APPLICATIONS.—Each student desiring that a
17 Governor award a grant under this section to an eligible
18 institution on behalf of the student shall submit an appli-
19 cation to the eligible institution at such time, in such man-
20 ner, and accompanied by such information as the eligible
21 institution may require.

1 **SEC. 54403. FINDINGS.**

2 Congress finds the following:

3 (1) A child's brain grows at a faster rate be-
4 tween birth and age 3 than at any later point in the
5 child's lifetime.

6 (2) Decades of research shows that children
7 under age 3 that receive quality child care are more
8 likely to have the behavioral, cognitive, and language
9 skills development necessary for success in school,
10 college, and life.

11 (3) According to a 2018 survey, 83 percent of
12 parents with a child under age 5 responded that
13 finding quality, affordable child care was a serious
14 problem in their area.

15 (4) In 2017, on average, center-based child care
16 for an infant cost 61 percent more than for a pre-
17 schooler, over \$11,000 annually per child, and in 28
18 States, more than the cost of public college tuition.

19 (5) In the 2015–2016 academic year, approxi-
20 mately 4,300,000 postsecondary education students
21 were raising children while in college, and over half
22 of those students had children preschool-aged or
23 younger.

1 (6) According to a 2016 survey, 95 percent of
2 child care centers at 2-year and 4-year colleges
3 across the United States had a waiting list, with the
4 average list containing 82 children.

5 (7) Student parents were 20 percent more likely
6 to leave college without a degree than students with-
7 out children.

8 (8) The Child Care Access Means Parents in
9 School Federal Grant program under subpart 7 of
10 part A of title IV of the Higher Education Act of
11 1965 (20 U.S.C. 1070e et seq.) helps over 3,300
12 students at institutions of higher education afford
13 child care each year, but this program impacts just
14 0.5 percent of the entire student parent population,
15 and many institutions of higher education do not
16 open their subsidized child care programs to children
17 under age 3.

18 (9) The share of community colleges and 4-year
19 institutions of higher education with on-campus
20 child care has been in decline. Community colleges
21 saw a 10 percent decrease in the number of cam-
22 puses with child care between 2002 and 2017.

23 (10) Student parents are more likely to be en-
24 rolled at community colleges and minority-serving
25 institutions than other institutions of higher edu-

1 cation. Over a quarter of all community college stu-
2 dents are parents, and in the 2015–2016 academic
3 year, 40 percent of Black women attending college
4 were parents, 3 times the rate for White male col-
5 lege students.

6 (11) Community colleges and minority-serving
7 institutions lead the higher education sector in edu-
8 cating infant and toddler child care providers, espe-
9 cially child care providers of color, so they are the
10 optimal actors for driving quality infant and toddler
11 child care access in their regions.

18 (e) FINAL ASSESSMENT.—Not later than 1 year after
19 the date on which the pilot program authority terminates
20 under subsection (f), the Secretary and the Secretary of
21 State shall each—

22 (1) prepare an assessment of the pilot program,
23 including a recommendation as to whether—

24 (A) the pilot program should be continued
25 and expanded; or

1 (B) a similar program related to other
2 higher education programs, such as graduate
3 and postgraduate programs, community col-
4 leges, vocational programs, and apprenticeship
5 programs, should be carried out; and

6 (2) submit such assessment to Congress.

7 (f) TERM.—The authority to carry out the pilot pro-
8 gram under this section shall terminate on the date that
9 is 5 years after the date of the enactment of this Act.

10 (g) AUTHORIZATION OF APPROPRIATIONS.—There is
11 authorized to be appropriated to carry out this section
12 \$500,000 for fiscal year 2022 and each of the succeeding
13 3 fiscal years.

14 (h) DEFINITIONS.—In this section:

15 (1) HISPANIC-SERVING INSTITUTION.—The
16 term “Hispanic-serving institution” has the meaning
17 given the term under section 502 of the Higher
18 Education Act of 1965 (20 U.S.C. 1101a).

19 (2) HISTORICALLY BLACK COLLEGE OR UNI-
20 VERSITY.—The term “historically Black college or
21 university” has the meaning given the term “part B
22 institution” under section 322(2) of the Higher
23 Education Act of 1965 (20 U.S.C. 1061(2)).

24 (3) INSTITUTION OF HIGHER EDUCATION.—The
25 term “institution of higher education” has the

1 meaning given the term in section 101 of the Higher
2 Education Act (20 U.S.C. 1002).

3 (4) PELL GRANT RECIPIENT.—The term “Pell
4 Grant recipient” means a recipient of financial aid
5 under subpart 1 of part A of title IV of the Higher
6 Education Act of 1965 (20 U.S.C. 1070a et seq.).

7 (5) SECRETARY.—The term “Secretary” means
8 the Secretary of Education.

9 **Subtitle RR—STEM Opportunities** 10 **Act**

11 **SECTION 54801. SHORT TITLE; FINDINGS.**

12 (a) SHORT TITLE.—This title may be cited as the
13 “STEM Opportunities Act of 2020”.

14 (b) FINDINGS.—The Congress finds the following:

15 (1) Many reports over the past decade have
16 found that it is critical to our Nation’s economic
17 leadership and global competitiveness that the
18 United States educates and trains more scientists
19 and engineers.

20 (2) Research shows that women and minorities
21 who are interested in STEM careers are dispropor-
22 tionately lost at nearly every educational transition
23 and at every career milestone.

24 (3) The National Center for Science and Engi-
25 neering Statistics at the National Science Founda-

1 tion collects, compiles, analyzes, and publishes data
2 on the demographics of STEM degrees and STEM
3 jobs in the United States.

4 (4) Women now earn nearly 37 percent of all
5 STEM bachelor's degrees, but major variations per-
6 sist among fields. In 2017, women earned only 20
7 percent of all bachelor's degrees awarded in engi-
8 neering and 19 percent of bachelor's degrees award-
9 ed in computer sciences. Based on Bureau of Labor
10 Statistics data, jobs in computing occupations are
11 expected to account for nearly 60 percent of the pro-
12 jected annual growth of newly created STEM job
13 openings from 2016 to 2026.

14 (5) In 2017, underrepresented minority groups
15 comprised 39 percent of the college-age population
16 of the United States, but only 18 percent of stu-
17 dents who earned bachelor's degrees in STEM fields.
18 The Higher Education Research Institute at the
19 University of California, Los Angeles, found that,
20 while freshmen from underrepresented minority
21 groups express an interest in pursuing a STEM un-
22 dergraduate degree at the same rate as all other
23 freshmen, only 22.1 percent of Latino students, 18.4
24 percent of African-American students, and 18.8 per-
25 cent of Native American students studying in STEM

1 fields complete their degree within 5 years, com-
2 pared to approximately 33 percent of White students
3 and 42 percent of Asian students who complete their
4 degree within 5 years.

5 (6) In some STEM fields, including the com-
6 puter sciences, women persist at about the same rate
7 through doctorate degrees. In other STEM fields,
8 women persist through doctorate degrees at a lower
9 rate. In mathematics, women earn just 26 percent of
10 doctorate degrees compared with 42 percent of un-
11 dergraduate degrees. Overall, women earned 38 per-
12 cent of STEM doctorate degrees in 2016. The rate
13 of minority students earning STEM doctorate de-
14 grees in physics is 9 percent, compared with 15 per-
15 cent for bachelor's degree. Students from underrep-
16 resented minority groups accounted for only 11.5
17 percent of STEM doctorate degrees awarded in
18 2016.

19 (7) The representation of women in STEM
20 drops significantly from the doctorate degree level to
21 the faculty level. Overall, women hold only 26 per-
22 cent of all tenured and tenure-track positions and 27
23 percent of full professor positions in STEM fields in
24 our Nation's universities and 4-year colleges. Black
25 and Hispanic faculty together hold about 6.8 percent

1 of all tenured and tenure-track positions and 7.5
2 percent of full professor positions. Many of the num-
3 bers in the American Indian or Alaskan Native and
4 Native Hawaiian or Other Pacific Islander cat-
5 egories for different faculty ranks were too small for
6 the National Science Foundation to report publicly
7 without potentially compromising confidential infor-
8 mation about the individuals being surveyed.

9 (8) The representation of women is especially
10 low at our Nation's top research universities. Even
11 in the biological sciences, in which women now earn
12 more than 50 percent of the doctorates and passed
13 the 25 percent level 37 years ago, women make up
14 only 25 percent of the full professors at the approxi-
15 mately 100 most research-intensive universities in
16 the United States. In the physical sciences and
17 mathematics, women make up only 11 percent of full
18 professors, in computer sciences only 10 percent,
19 and across engineering fields only 7 percent. The
20 data suggest that approximately 6 percent of all ten-
21 ure-track STEM faculty members at the most re-
22 search-intensive universities are from underrep-
23 resented minority groups, but in some fields the
24 numbers are too small to report publicly.

1 (9) By 2050, underrepresented minorities will
2 comprise 52 percent of the college-age population of
3 the United States. If the percentage of female stu-
4 dents and students from underrepresented minority
5 groups earning bachelor's degrees in STEM fields
6 does not significantly increase, the United States
7 will face an acute shortfall in the overall number of
8 students who earn degrees in STEM fields just as
9 United States companies are increasingly seeking
10 students with those skills. With this impending
11 shortfall, the United States will almost certainly lose
12 its competitive edge in the 21st century global econ-
13 omy.

14 (10) According to a 2014 Association for
15 Women in Science survey of over 4,000 scientists
16 across the globe, 70 percent of whom were men,
17 STEM researchers face significant challenges in
18 work-life integration. Researchers in the United
19 States were among the most likely to experience a
20 conflict between work and their personal life at least
21 weekly. One-third of researchers surveyed said that
22 ensuring good work-life integration has negatively
23 impacted their careers, and, of researchers intending
24 to leave their current job within the next year, 9

1 percent indicated it was because they were unable to
2 balance work and life demands.

3 (11) Female students and students from under-
4 represented minority groups at institutions of higher
5 education who see few others “like themselves”
6 among faculty and student populations often do not
7 experience the social integration that is necessary for
8 success in all disciplines, including STEM.

9 (12) One in five children in the United States
10 attend school in a rural community. The data shows
11 that rural students are at a disadvantage with re-
12 spect to STEM readiness. Among STEM-interested
13 students, 17 percent of students in rural high
14 schools and 18 percent of students in town-located
15 high schools meet the ACT STEM Benchmark, com-
16 pared with 33 percent of students in suburban high
17 schools and 27 percent of students in urban high
18 schools.

19 (13) A substantial body of evidence establishes
20 that most people hold implicit biases. Decades of
21 cognitive psychology research reveal that most peo-
22 ple carry prejudices of which they are unaware but
23 that nonetheless play a large role in evaluations of
24 people and their work. Unintentional biases and out-
25 moded institutional structures are hindering the ac-

1 cess and advancement of women, minorities, and
2 other groups historically underrepresented in STEM.

3 (14) Workshops held to educate faculty about
4 unintentional biases have demonstrated success in
5 raising awareness of such biases.

6 (15) In 2012, the Office of Diversity and Equal
7 Opportunity of the National Aeronautics and Space
8 Administration (in this subtitle referred to as
9 “NASA”) completed a report that—

10 (A) is specifically designed to help NASA
11 grant recipients identify why the dearth of
12 women in STEM fields continues and to ensure
13 that it is not due to discrimination; and

14 (B) provides guidance that is usable by all
15 institutions of higher education receiving sig-
16 nificant Federal research funding on how to
17 conduct meaningful self-evaluations of campus
18 culture and policies.

19 (16) The Federal Government provides 55 per-
20 cent of research funding at institutions of higher
21 education and, through its grant-making policies,
22 has had significant influence on institution of higher
23 education policies, including policies related to insti-
24 tutional culture and structure.

1 **SEC. 54802. PURPOSES.**

2 The purposes of this subtitle are as follows:

3 (1) To ensure that Federal science agencies and
4 institutions of higher education receiving Federal re-
5 search and development funding are fully engaging
6 the entire talent pool of the United States.

7 (2) To promote research on, and increase un-
8 derstanding of, the participation and trajectories of
9 women, minorities, and other groups historically
10 underrepresented in STEM studies and careers, in-
11 cluding persons with disabilities, older learners, vet-
12 erans, and rural, poor, and tribal populations, at in-
13 stitutions of higher education and Federal science
14 agencies, including Federal laboratories.

15 (3) To raise awareness within Federal science
16 agencies, including Federal laboratories, and institu-
17 tions of higher education about cultural and institu-
18 tional barriers limiting the recruitment, retention,
19 promotion, and other indicators of participation and
20 achievement of women, minorities, and other groups
21 historically underrepresented in academic and Gov-
22 ernment STEM research careers at all levels.

23 (4) To identify, disseminate, and implement
24 best practices at Federal science agencies, including
25 Federal laboratories, and at institutions of higher
26 education to remove or reduce cultural and institu-

1 tional barriers limiting the recruitment, retention,
2 and success of women, minorities, and other groups
3 historically underrepresented in academic and Gov-
4 ernment STEM research careers.

5 (5) To provide grants to institutions of higher
6 education to recruit, retain, and advance STEM fac-
7 ulty members from underrepresented minority
8 groups and to implement or expand reforms in un-
9 dergraduate STEM education in order to increase
10 the number of students from underrepresented mi-
11 nority groups receiving degrees in these fields.

12 **SEC. 54803. FEDERAL SCIENCE AGENCY POLICIES FOR**
13 **CAREGIVERS.**

14 (a) OSTP GUIDANCE.—Not later than 6 months

4 under subsection (c), by gender, at both institutions
5 of higher education and Federal laboratories; and

6 (2) report such data on an annual basis to the
7 Director in such form as required by the Director.

8 **SEC. 54804. COLLECTION AND REPORTING OF DATA ON**
9 **FEDERAL RESEARCH GRANTS.**

15 eral laboratories supported by that agency, the
16 standardized record-level annual information on de-
17 mographics, primary field, award type, institution
18 type, review rating, budget request, funding out-
19 come, and awarded budget.

20 (2) UNIFORMITY AND STANDARDIZATION.—The

2 than 2 years after the date of the enactment of
3 this Act, and on an annual basis thereafter,
4 each Federal science agency shall submit to the

19 ing in conjunction with the National Science Foundation’s
20 report required by section 37 of the Science and Tech-
21 nology Equal Opportunities Act (42 U.S.C. 1885d; Public
22 Law 96–516).

2 **GRANTS.**

3 (a) IN GENERAL.—Each Federal science agency shall
4 implement the policy recommendations with respect to re-
5 ducing the impact of implicit bias at Federal science agen-
6 cies and grantee institutions as developed by the Office
7 of Science and Technology Policy in the 2016 report enti-
8 tled “Reducing the Impact of Bias in the STEM Work-
9 force” and any subsequent updates.

10 (b) PILOT ACTIVITY.—In consultation with the Na-
11 tional Science Foundation and consistent with policy rec-
12 ommendations referenced in subsection (a), each Federal
13 science agency shall implement a 2-year pilot orientation
14 activity for program officers and members of standing re-
15 view committees to educate reviewers on research related
16 to, and minimize the effects of, implicit bias in the review
17 of extramural and intramural Federal research grants.

18 (c) ESTABLISHMENT OF POLICIES.—Drawing upon
19 lessons learned from the pilot activity under subsection
20 (b), each Federal science agency shall maintain or develop

23 mural and intramural Federal research grants.

24 (d) ASSESSMENT OF POLICIES.—Federal science
25 agencies shall regularly assess, and amend as necessary,
26 the policies and practices implemented pursuant to sub-

3 mural and intramural Federal research grants.

4 **SEC. 54806. COLLECTION OF DATA ON DEMOGRAPHICS OF**
5 **FACULTY.**

6 (a) COLLECTION OF DATA.—

7 (1) IN GENERAL.—Not later than 3 years after
8 the date of enactment of this Act, and at least every

11 lect data from grantees on the demographics of
12 STEM faculty, by broad fields of STEM, at dif-
13 ferent types of institutions of higher education.

14 (2) CONSIDERATIONS.—To the extent prac-
15 ticable, the Director of the National Science Foun-
16 dation shall consider, by gender, race, ethnicity, citi-

14 ing existing Federal surveys of higher education (as nec-
15 essary)—

16 (1) take into account the considerations under
17 subsection (a)(2) by collaborating with statistical
18 centers at other Federal agencies; or

20 of higher education or other nonprofit organization
21 to take such considerations into account.

22 (c) REPORTING DATA.—The Director of the National
23 Science Foundation shall publish statistical summary data
24 collected under this section, including as part of the Na-

8 **SEC. 54807. CULTURAL AND INSTITUTIONAL BARRIERS TO**
9 **EXPANDING THE ACADEMIC AND FEDERAL**
10 **STEM WORKFORCE.**

11 (a) BEST PRACTICES AT INSTITUTIONS OF HIGHER
12 EDUCATION AND FEDERAL LABORATORIES.—

13 (1) DEVELOPMENT OF GUIDANCE.—Not later
14 than 12 months after the date of enactment of this
15 Act, the Director, in consultation with the inter-
16 agency working group on inclusion in STEM, shall
17 develop written guidance for institutions of higher
18 education and Federal laboratories on the best prac-
19 tices for—

20 (A) conducting periodic climate surveys of
21 STEM departments and divisions, with a par-
22 ticular focus on identifying any cultural or in-
23 stitutional barriers to the recruitment, reten-
24 tion, or advancement of women, racial and eth-
25 nic minorities, and other groups historically

1 underrepresented in STEM studies and careers;
2 and

3 (B) providing educational opportunities, in-
4 cluding workshops as described in subsection
5 (b), for STEM faculty, research personnel, and
6 administrators to learn about current research
7 on implicit bias in recruitment, evaluation, and
8 promotion of undergraduate and graduate stu-
9 dents and research personnel.

10 (2) EXISTING GUIDANCE.—In developing the
11 guidance under paragraph (1), the Director shall
12 utilize guidance already developed by Federal science
13 agencies.

14 (3) DISSEMINATION OF GUIDANCE.—Federal
15 science agencies shall broadly disseminate the guid-
16 ance developed under paragraph (1) to institutions
17 of higher education that receive Federal research
18 funding and Federal laboratories.

20 with the guidance developed under paragraph (1)—

21 (A) the Director of the National Science
22 Foundation shall develop a policy that—

23 (i) applies to, at a minimum, doctoral
24 degree granting institutions that receive
25 Federal research funding; and

1 (ii) requires each such institution, not
2 later than 3 years after the date of enact-
3 ment of this Act, to report to the Director
4 of the National Science Foundation on ac-
5 tivities and policies developed and imple-
6 mented based on the guidance developed
7 under paragraph (1); and

8 (B) each Federal science agency with a
9 Federal laboratory shall maintain or develop
10 and implement practices and policies for the
11 purposes described in paragraph (1) for such
12 laboratory.

13 (b) WORKSHOPS TO ADDRESS CULTURAL BARRIERS
14 TO EXPANDING THE ACADEMIC AND FEDERAL STEM
15 WORKFORCE.—

16 (1) IN GENERAL.—Not later than 6 months
17 after the date of enactment of this Act, the Director,
18 in consultation with the interagency working group
19 on inclusion in STEM, shall recommend a uniform
20 policy for Federal science agencies to carry out a
21 program of workshops that educate STEM depart-
22 ment chairs at institutions of higher education, sen-
23 ior managers at Federal laboratories, and other fed-
24 erally funded researchers about methods that mini-
25 mize the effects of implicit bias in the career ad-

1 vancement, including hiring, tenure, promotion, and
2 selection for any honor based in part on the recipi-
3 ent's research record, of academic and Federal
4 STEM researchers.

5 (2) INTERAGENCY COORDINATION.—The Direc-
6 tor shall, to the extent practicable, ensure that work-
7 shops supported under this subsection are coordi-
8 nated across Federal science agencies and jointly
9 supported as appropriate.

10 (3) MINIMIZING COSTS.—To the extent prac-
11 ticable, workshops shall be held in conjunction with
12 national or regional STEM disciplinary meetings to
13 minimize costs associated with participant travel.

14 (4) PRIORITY FIELDS FOR ACADEMIC PARTICI-
15 PANTS.—In considering the participation of STEM
16 department chairs and other academic researchers,
17 the Director shall prioritize workshops for the broad
18 fields of STEM in which the national rate of rep-
19 resentation of women among tenured or tenure-track
20 faculty or nonfaculty researchers at doctorate-grant-
21 ing institutions of higher education is less than 25
22 percent, according to the most recent data available
23 from the National Center for Science and Engineer-
24 ing Statistics.

1 (5) ORGANIZATIONS ELIGIBLE TO CARRY OUT
2 WORKSHOPS.—A Federal science agency may carry
3 out the program of workshops under this subsection
4 by making grants to organizations made eligible by
5 the Federal science agency and any of the following
6 organizations:

7 (A) Nonprofit scientific and professional
8 societies and organizations that represent one
9 or more STEM disciplines.

10 (B) Nonprofit organizations that have the
11 primary mission of advancing the participation
12 of women, minorities, or other groups histori-
13 cally underrepresented in STEM.

14 (6) CHARACTERISTICS OF WORKSHOPS.—The
15 workshops shall have the following characteristics:

19 relevant STEM discipline or disciplines
20 from doctoral degree granting institutions
21 that receive Federal research funding; and

22 (ii) in the case of Federal laboratories,
23 individuals with personnel management re-
24 sponsibilities comparable to those of an in-

1 stitution of higher education department
2 chair.

3 (B) Activities at the workshops shall in-
4 clude research presentations and interactive dis-
5 cussions or other activities that increase the
6 awareness of the existence of implicit bias in re-
7 cruitment, hiring, tenure review, promotion, and
8 other forms of formal recognition of individual
9 achievement for faculty and other federally
10 funded STEM researchers and shall provide
11 strategies to overcome such bias.

12 (C) Research presentations and other
13 workshop programs, as appropriate, shall in-
14 clude a discussion of the unique challenges
15 faced by different underrepresented groups, in-
16 cluding minority women, minority men, persons
17 from rural and underserved areas, persons with
18 disabilities, gender and sexual minority individ-
19 uals, and first generation graduates in research.

20 (D) Workshop programs shall include in-
21 formation on best practices for mentoring un-
22 dergraduate, graduate, and postdoctoral
23 women, minorities, and other students from
24 groups historically underrepresented in STEM.

1 (7) DATA ON WORKSHOPS.—Any proposal for
2 funding by an organization seeking to carry out a
3 workshop under this subsection shall include a de-
4 scription of how such organization will—

5 (A) collect data on the rates of attendance
6 by invitees in workshops, including information
7 on the home institution and department of
8 attendees, and the rank of faculty attendees;

9 (B) conduct attitudinal surveys on work-
10 shop attendees before and after the workshops;
11 and

12 (C) collect follow-up data on any relevant
13 institutional policy or practice changes reported
14 by attendees not later than 1 year after attend-
15 ance in such a workshop.

16 (8) REPORT TO NSF.—Organizations receiving
17 funding to carry out workshops under this sub-
18 section shall report the data required in paragraph
19 (7) to the Director of the National Science Founda-
20 tion in such form as required by such Director.

21 (c) REPORT TO CONGRESS.—Not later than 4 years
22 after the date of enactment of this Act, the Director of
23 the National Science Foundation shall submit a report to
24 Congress that includes—

1 (1) a summary and analysis of the types and
2 frequency of activities and policies developed and
3 carried out under subsection (a) based on the re-
4 ports submitted under paragraph (4) of such sub-
5 section; and

6 (2) a description and evaluation of the status
7 and effectiveness of the program of workshops re-
8 quired under subsection (b), including a summary of

Subtitle SS—Student Loan Fairness Act

SEC. 54901. SHORT TITLE.

This title may be cited as the “Student Loan Fairness Act”.

SEC. 54902. FINDINGS.

Congress finds the following:

(1) A well-educated citizenry is critical to our Nation’s ability to compete in the global economy.

(2) The Federal Government has a vested interest in ensuring access to higher education.

(3) Higher education should be viewed as a public good benefitting our country rather than as a commodity solely benefitting individual students.

(4) Total outstanding student loan debt officially surpassed total credit card debt in the United States in 2015, and now exceeds \$1,400,000,000,000.

1 (5) Excessive student loan debt is impeding eco-
2 nomic growth in the United States. Faced with ex-
3 cessive repayment burdens, many individuals are un-
4 able to start businesses, invest, or buy homes. Re-
5 lieving student loan debt would give these individuals
6 greater control over their earnings and would in-
7 crease entrepreneurship and demand for goods and
8 services.

9 (6) Because of soaring tuition costs, students
10 often have no choice but to amass significant debt
11 to obtain an education that is widely considered a
12 prerequisite for earning a living wage.

13 (7) Amidst rising tuition rates and stagnant
14 grant funding, many students are forced to supple-
15 ment Federal loans with private loans, which fre-
16 quently feature higher interest rates with fewer con-
17 sumer protections.

18 (8) A borrower who experiences an extended
19 hardship for whatever reason, or a borrower who ex-
20 periences a series of separate hardships over a
21 longer period of time, will often have no choice but
22 to default on his or her private student loans. Op-
23 portunities to put such private loans into forbear-
24 ance are limited.

1 (9) During the period of forbearance on private
 2 student loans, interest continues to accrue and is
 3 capitalized, and once the borrower comes out of for-
 4 bearance, he or she owes significantly more on the
 5 principal of the loan than before the hardship period
 6 began.

7 **SEC. 54903. 10/10 LOAN REPAYMENT AND FORGIVENESS.**

8 Part G of title IV of the Higher Education Act of
 9 1965 is amended by adding at the end the following:

10 **“SEC. 493E. 10/10 LOAN REPAYMENT AND FORGIVENESS.**

11 “(a) 10/10 LOAN REPAYMENT PLAN.—

12 “(1) 10/10 LOAN REPAYMENT PLAN AUTHOR-
 13 IZED.—Notwithstanding any other provision of this
 14 Act, the Secretary shall carry out a program (to be
 15 known as the ‘10/10 Loan Repayment Plan’) under
 16 which—

17 “(A) a borrower of an eligible loan who is
 18 eligible under paragraph (3) may elect to have
 19 the borrower’s aggregate monthly payment for
 20 all such loans not exceed the monthly payment
 21 amount described in paragraph (2);

22 “(B) any interest due and not paid under
 23 a monthly payment under this subsection—

24 “(i) shall continue to accrue; and

1 “(ii) shall be capitalized up to an
2 amount equal to 10 percent of the original
3 principal amount of all the eligible loans
4 that the borrower is repaying under this
5 subsection;

6 “(C) any principal due and not paid under
7 a monthly payment under this subsection shall
8 be deferred, and shall be forgiven in accordance
9 with subsection (b) if the borrower meets the
10 requirements for forgiveness under such sub-
11 section;

12 “(D) the amount of time the borrower
13 makes monthly payments under this subsection
14 may exceed 10 years;

15 “(E) a borrower who is repaying an eligi-
16 ble loan pursuant to 10/10 Loan Repayment
17 under this subsection may elect, at any time, to
18 terminate repayment pursuant to 10/10 Loan
19 Repayment and repay such loan under the
20 standard repayment plan, in which case the
21 amount of time the borrower is permitted to
22 repay such loans may exceed 10 years; and

23 “(F) the special allowance payment to a
24 lender calculated under section 438(b)(2)(I),
25 when calculated for a loan in repayment under

1 this section, shall be calculated on the principal
2 balance of the loan and on any accrued interest
3 unpaid by the borrower in accordance with this
4 section.

5 “(2) 10/10 LOAN REPAYMENT MONTHLY PAY-
6 MENT FORMULA.—A borrower who has elected to
7 participate in the 10/10 Loan Repayment Plan
8 under this subsection shall, during each month the
9 borrower is participating in such Plan, make a
10 monthly payment in an amount equal to—

11 “(A) one-twelfth of the amount that is 10
12 percent of the result obtained by calculating, on
13 at least an annual basis, the amount by
14 which—

15 “(i) the borrower’s, and the bor-
16 rower’s spouse’s (if applicable), adjusted
17 gross income; exceeds

18 “(ii) 150 percent of the poverty line
19 applicable to the borrower’s family size as
20 determined under section 673(2) of the
21 Community Services Block Grant Act (42
22 U.S.C. 9902(2)), as adjusted by

23 “(iii) the regional variation in the cost
24 of living (determined by the Secretary, in
25 consultation with the Bureau of Economic

1 Analysis of the Department of Commerce
2 and the Bureau of Labor Statistics of the
3 Department of Labor) for the geographic
4 area in which the borrower resides, so that
5 a borrower residing in a higher cost geo-
6 graphic area will experience a downward
7 trend in such monthly payment amount; or
8 “(B) in the case of a borrower who is in
9 deferment due to an economic hardship de-
10 scribed in section 435(o), \$0.

11 “(3) ELIGIBILITY.—The Secretary shall estab-
12 lish procedures for annually determining the bor-
13 rower’s eligibility for 10/10 Loan Repayment, includ-
14 ing verification of a borrower’s annual adjusted
15 gross income and the annual amount due on the
16 total amount of eligible loans, and such other proce-
17 dures as are necessary to effectively implement 10/
18 10 Loan Repayment under this subsection.

19 “(4) SPECIAL RULE FOR MARRIED BORROWERS
20 FILING SEPARATELY.—In the case of a married bor-

22 This title may be cited as the “Financial Aid Fair-
 23 ness for Students Act” or the “FAFSA Act”.

24 **SEC. 55002. FINDINGS.**

25 Congress finds the following:

1 (1) Expanding the ability of low- and middle-in-
2 come borrowers to pursue higher education is critical
3 to reversing decades of exclusionary policies that
4 have adversely impacted people of color.

5 (2) Under current law, individuals with drug-re-
6 lated offenses are precluded from accessing Federal
7 grants, loans, and work-study aid pursuant to sec-
8 tion 484(r) of the Higher Education Act of 1965
9 (20 U.S.C. 1091(r)), commonly referred to as the
10 “Aid Elimination Penalty”.

11 (3) The Free Application for Federal Student
12 Aid (FAFSA) screens applicants for Federal finan-
13 cial aid based on her or his history of drug offenses.

14 (4) Given that criminal sentencing laws in the
15 United States disproportionately impact racial mi-
16 norities and low-income communities, the Aid Elim-
17 ination Penalty may disproportionately hinder these
18 same groups from accessing Federal financial aid.

19 (5) Recognizing that an educated citizenry is
20 the powerhouse of the Nation, that higher education
21 allows Americans to access well-paying jobs, health-
22 care, strong interpersonal relationships and a higher
23 quality of life, the Federal Government should incen-
24 tivize the pursuit of higher education while ensuring
25 equality of opportunity.

3 cation during the 2017–2018 school year, with 46
4 States and the District of Columbia identifying
5 shortages in special education, 47 States and the
6 District of Columbia identifying teacher shortages in
7 mathematics, 43 States identifying teacher shortages
8 in science, 32 States identifying shortages in teach-
9 ers of English learners, and 32 States identifying
10 teacher shortages in career and technical education.
11 One reason for the shortages in these areas is be-
12 cause mathematics and science teachers can earn
13 significantly higher starting salaries in the private
14 sector. Further, rural communities face limitations
15 in recruiting and retaining teachers for reasons such
16 as funding issues, limited teacher supply, and geo-
17 graphic isolation.

18 (2) Students in high-poverty and high-minority
19 schools, both urban and rural, typically feel the larg-
20 est impact of teacher shortages. These schools often
21 experience difficulty hiring and high turnover on a
22 regular basis, and they are the most severely af-
23 fected when teacher shortages become widespread.
24 This happens, in part, because inequitable funding
25 of schools leaves many low-wealth urban and rural

1 communities with inadequate resources, so they
2 must pay lower salaries and typically have poorer
3 working conditions.

4 (3) According to a study by Mathematica, when
5 high-performing teachers were offered large financial
6 incentives to transfer to low-performing schools,
7 their students' scores climbed 10 points in reading
8 and 9 points in math compared to students state-
9 wide over 2 years.

10 (4) According to a survey conducted by Scho-
11 lastic, 97 percent of teachers list supportive school
12 leadership as essential or very important for retain-
13 ing strong teachers and improving student achieve-
14 ment, more than any other factor.

15 (5) Research suggests that incurring postsec-
16 ondary education debt can decrease the likelihood
17 that high-achieving students, lower-income students,
18 and students of color choose to work in lower-wage
19 professions in general, especially in the education
20 system. Therefore, loan forgiveness and service
21 scholarships for educators may be especially effective
22 for recruiting teachers and school leaders from di-
23 verse, lower-income backgrounds.

24 (6) According to the Learning Policy Institute,
25 teacher loan forgiveness and service scholarship pro-

1 grams can be successful in both recruiting and re-
2 taining teachers. To be effective, these programs
3 should provide a financial benefit that meaningfully
4 offsets the cost of a teacher's professional prepara-
5 tion. This includes covering licensing and certifi-
6 cation costs.

7 (7) A 2015 Government Accountability Office
8 study and a 2018 follow up study by the Depart-
9 ment of Education of Federal grant and loan for-
10 giveness programs for teachers found that the struc-
11 ture of these programs matters. Further research
12 shows effective loan forgiveness and service scholar-
13 ship programs follow 5 design principles. These pro-
14 grams—

15 (A) cover all or a large percentage of tui-
16 tion;

17 (B) target high-need fields or schools, or
18 both;

19 (C) recruit candidates who are academi-
20 cally strong, committed to teaching, and well-
21 prepared;

22 (D) commit recipients to teach with rea-
23 sonable incentives to fulfill their commitment;
24 and

1 (E) are bureaucratically manageable for
2 participating teachers, local educational agen-
3 cies, and institutions of higher education.

4 (8) The TEACH grant program under subpart
5 9 of part A of title IV of the Higher Education Act
6 of 1965 (20 U.S.C. 1070g et seq.) provides up to
7 \$16,000 in grants to prospective teachers who agree
8 to teach in low-income schools and high-need subject
9 areas for 4 years. This is far below the Department
10 of Education's most recent estimate of the average
11 annual cost of approximately \$25,409 in tuition,
12 fees, and room and board at the average full-time
13 undergraduate 4-year institution.

14 (9) The National Center for Education Statis-
15 tics found that more than $\frac{2}{3}$ of the individuals en-
16 tering the education field borrow money to pay for
17 their higher education. Teachers with a bachelor's
18 degree have an average debt of \$20,000 and teach-
19 ers with a master's degree have an average debt of
20 \$50,000. Teachers also start out earning 20 percent
21 less than their peers with comparable degrees who
22 pursue jobs outside of education. According to a re-
23 port by the Center for American Progress, in more
24 than 30 States, a mid-career teacher heading a fam-
25 ily of 4 is eligible for several forms of government

1 assistance, including the free and reduced-price
2 lunch program for their children. These
3 compounding factors can disincentivize prospective
4 teachers from entering the profession.

5 (10) In evaluating the TEACH grant program,
6 the Government Accountability Office found that al-
7 most $\frac{2}{3}$ of the requests for assistance under the pro-
8 gram from October 2011 through March 2014 cited
9 problems submitting certification paperwork. The
10 Government Accountability Office recommended im-
11 provements in the program's design, including re-
12 ducing burdensome annual paperwork, increasing
13 awareness about the program, and streamlining the
14 dispute process.

15 (11) Spending by teachers on school supplies
16 adds up to \$1,600,000,000 per year nationally. Ac-
17 cording to the Education Market Association, most
18 teachers spend around \$500, with 10 percent spend-
19 ing \$1,000 or more.

20 (12) Teacher quality partnerships are designed
21 to strengthen higher education-based teacher and
22 school leader preparation. Studies show that teach-
23 ers who are better prepared to enter the classroom
24 stay longer and perform better than their underpre-
25 pared peers. Teacher quality partnerships also fund

1 programs like induction and mentoring that have
2 been shown to increase teacher and school leader re-
3 tention. Research indicates that the ongoing support
4 for teachers provided by teacher quality partner-
5 ships, including mentoring and coaching, is an im-
6 portant part of early childhood education programs.

7 (13) According to the Center for Education
8 Data and Research, a more diverse teaching work-
9 force leads to better student outcomes, particularly
10 in high-poverty environments with significant at-risk
11 student populations. Further, researchers from Van-
12 derbilt University found that greater racial and eth-
13 nic diversity in the principal corps benefits students,
14 especially children of color. Three commonly cited
15 rationales for this benefit are—

16 (A) students of color benefit from seeing
17 minority adult role models in a position of au-
18 thority;

19 (B) the higher expectations that teachers
20 of color tend to place on students of color; and

21 (C) the effect of cultural differences be-
22 tween teachers of different backgrounds on in-
23 structional strategies and interpretation of stu-
24 dents' behavior.

1 (14) According to the report entitled “Empow-
2 ered Educators: How Leading Nations Design Sys-
3 tems for Teaching Quality”, effective teacher prepa-
4 ration successfully integrates theory and practice
5 components. Further, according to the “Preparing
6 Teachers for a Changing World” report sponsored
7 by the National Academy Foundation, highly effec-
8 tive teachers vary in styles, yet have many teaching
9 strategies in common. Research has identified a set
10 of knowledge, skills, and dispositions essential for
11 beginning teachers that should be incorporated into
12 the teacher education curriculum. This includes the
13 opportunity and capacity to reflect on and evaluate
14 skills and to learn from practice. Evidence-based
15 teacher preparation includes developing teacher
16 skills, content knowledge, inquiry, and the capacity
17 to provide effective learning experiences for a diverse
18 set of students.

19 (15) As it does in medicine, the Federal Gov-
20 ernment should maintain a substantial, sustained
21 program of service scholarships or loan forgiveness
22 programs that cover training costs in high-quality
23 preparation programs at the undergraduate or grad-
24 uate level for those who will teach in a high-need
25 field or location for at least 4 years, as candidates

1 are much more likely to remain in the profession
2 and to make a difference for student achievement
3 after 3 years of teaching. State governments can
4 augment such an approach with programs targeted
5 to specific local needs.

6 (16) Research has shown the impact cultural
7 competence can have on closing student achievement
8 gaps and improving student outcomes by incor-
9 porating racial and ethnic minority contributions in
10 curricula and diversifying pedagogical practices. Cul-
11 tural competence is both a moral and ethical respon-
12 sibility to create a welcoming environment for stu-
13 dents to succeed. The impact of having educators
14 who have the ability to challenge and motivate di-
15 verse student populations can dramatically improve
16 our educational system and student outcomes.

23 **SCHOOL LEADERS.**

24 Section 2003 of the Elementary and Secondary Edu-
25 cation Act of 1965 (20 U.S.C. 6603) is amended—

1 (1) in the section heading, by striking “**AU-**
2 **THORIZATION OF APPROPRIATIONS**” and insert-
3 ing “**FUNDING**”; and

4 (2) by striking subsection (a) and inserting the
5 following:

6 “(a) APPROPRIATIONS FOR PART A.—

7 “(1) IN GENERAL.—For fiscal year 2020 and
8 each subsequent fiscal year, there are authorized to
9 be appropriated, and there are appropriated, out of
10 any funds not otherwise appropriated,
11 \$3,200,000,000 to carry out part A.

12 “(2) RESERVATION FOR MENTORING GRANTS.—

13 For each fiscal year for which the total amount ap-
14 propriated under paragraph (1) is greater than
15 \$2,200,000,000, the Secretary shall, after making
16 any reservations under section 2101(a), reserve 50
17 percent of the additional amount to establish a grant
18 program that awards grants, on a competitive basis,
19 to States for the establishment of a mentoring pro-
20 gram for all beginning elementary school and sec-
21 ondary school teachers and beginning early child-
22 hood educators in all local educational agencies in
23 the States.

24 “(3) RESERVATION FOR PROFESSIONAL DEVEL-
25 OPMENT GRANTS.—For each fiscal year for which

1 the total amount appropriated under paragraph (1)
 2 is greater than \$2,200,000,000 the Secretary shall,
 3 after making any reservations under section
 4 2101(a), reserve 10 percent of the additional
 5 amount to award grants to States, based on allot-
 6 ments through a formula determined by the Sec-
 7 retary to best accomplish the purposes of this title,
 8 to enable such States to establish or enhance profes-
 9 sional development in-service and pre-service oppor-
 10 tunities for school leaders, including efforts to re-
 11 cruit and retain school leaders who are underrep-
 12 resented in the school leader profession, such as
 13 members of racial and ethnic minority groups.

14 “(4) ADDITIONAL AMOUNT.—In this subsection,
 15 the term ‘additional amount’ means the amount by
 16 which the funds appropriated under paragraph (1)
 17 for a fiscal year exceeds \$2,200,000.”.

18 **CHAPTER 2—TEACHER LOAN**

19 **FORGIVENESS PROGRAMS**

20 **SEC. 55121. TEACHER LOAN FORGIVENESS PROGRAMS AND** 21 **GRANTS.**

22 (a) REPAYMENT PLAN FOR QUALIFYING TEACH-
 23 ERS.—

1 (1) IN GENERAL.—Section 455 of the Higher
2 Education Act of 1965 (20 U.S.C. 1087e) is amend-
3 ed by adding at the end the following:

4 “(r) REPAYMENT PLAN FOR QUALIFYING TEACH-
5 ERS.—

6 “(1) IN GENERAL.—The Secretary shall cancel
7 a portion, in accordance with paragraph (2), of the
8 balance of interest and principal due on any eligible
9 Federal Direct Loan not in default for a borrower
10 who, in a 12-month time period—

11 “(A) has made 12 consecutive on-time
12 monthly payments on the eligible Federal Di-
13 rect Loan, in an amount equal to or greater
14 than the amount of payments for the borrower
15 under an income-based repayment plan under
16 section 493C (regardless of whether some or all
17 of those payments were made before the effec-
18 tive date of the Supporting the Teaching pro-
19 fession through Revitalizing Investments in Val-
20 uable Educators Act); and

21 “(B)(i) is employed in a qualifying teach-
22 ing position, regardless of subject matter area,
23 at the time of such forgiveness; and

24 “(ii) has been employed in a qualifying
25 teaching position, regardless of subject matter

1 area, during the period in which the borrower
2 made each of the 12 payments described in sub-
3 paragraph (A).

4 “(2) LOAN CANCELLATION AMOUNT.—

5 “(A) IN GENERAL.—The portion to be can-
6 celled under this paragraph shall be—

7 “(i) for each of—

8 “(I) the first 5 years that the
9 borrower qualifies under paragraph
10 (1), in the case of a borrower em-
11 ployed for such year in a full-time
12 qualifying teaching position in the
13 subject of English as a second lan-
14 guage, science, technology, engineer-
15 ing, mathematics, special education,
16 or career and technical education, 15
17 percent of the balance of principal and
18 interest due on all of the eligible Fed-
19 eral Direct Loans of the borrower, as
20 of the final day of that 1-year employ-
21 ment period; or

22 “(II) the first 6 years (or the
23 equivalent calculated under subpara-
24 graph (B)(i)) that the borrower quali-
25 fies under paragraph (1)—

1 “(aa) in the case of a bor-
2 rower employed for such year in
3 a full-time qualifying teaching
4 position in a subject that is not
5 described in subclause (I), 10
6 percent of the balance of prin-
7 cipal and interest due on all of
8 the eligible Federal Direct Loans
9 of the borrower, as of the final
10 day of that 1-year employment
11 period; or

12 “(bb) in the case of a bor-
13 rower employed for such year in
14 a part-time qualifying teaching
15 position (regardless of subject), 5
16 percent of the balance of prin-
17 cipal and interest due on all of
18 the eligible Federal Direct Loans
19 of the borrower, as of the final
20 day of that 1-year employment
21 period; and

22 “(ii) after the borrower has received
23 partial loan cancellation described in clause
24 (i)—

1 “(I) for 5 years, in the case of a
2 borrower described in clause (i)(I),
3 and then qualifies for loan cancella-
4 tion under paragraph (1) for a sixth
5 year, all of the borrower’s remaining
6 obligation to repay the balance of
7 principal and interest due, as of the
8 date of such calculation, on all of the
9 eligible Federal Direct Loan made to
10 a borrower; or

11 “(II) for 6 years (or the equiva-
12 lent calculated under subparagraph
13 (B)(i)), in the case of a borrower de-
14 scribed in clause (i)(II), and then
15 qualifies for loan cancellation under
16 paragraph (1) for a seventh year (or
17 the equivalent calculated under sub-
18 paragraph (B)(ii)), all of the bor-
19 rower’s remaining obligation to repay
20 the balance of principal and interest
21 due, as of the date of such calculation,
22 on all of the eligible Federal Direct
23 Loan made to a borrower.

24 “(B) SPECIAL RULE REGARDING PART-
25 TIME TEACHING.—

1 “(i) GENERAL RULE.—In the case of
2 a borrower who qualifies for loan cancella-
3 tion under subparagraph (A) for one or
4 more years through a part-time qualifying
5 teaching position, the Secretary shall de-
6 termine when the equivalent of 6 years of
7 partial cancellation for full-time employ-
8 ment has been met for purposes of sub-
9 paragraph (A)(ii)(II) by giving the bor-
10 rower credit for one-half of a year for each
11 year that the borrower receives partial
12 part-time cancellation under subparagraph
13 (A)(i)(II)(bb).

14 “(ii) RULE FOR FINAL CANCELLA-
15 TION.—A borrower who wishes to complete
16 the equivalent of the seventh year of teach-
17 ing necessary for complete cancellation
18 under subparagraph (A)(ii)(II) through
19 employment in a part-time qualifying
20 teaching position—

21 “(I) shall be required to qualify
22 for loan cancellation through a part-
23 time qualifying teaching position for 2
24 additional years; and

1 “(II) notwithstanding subpara-
2 graph (A), shall receive partial can-
3 cellation, in accordance with subpara-
4 graph (A)(i)(II)(bb), for the first of
5 such 2 years.

6 “(C) CHANGE IN SUBJECT TAUGHT.—In
7 any case where a teacher first qualifies for loan
8 cancellation under subparagraph (A)(i)(II) and
9 then, in a subsequent year, teaches in a full-
10 time qualifying teaching position in a subject
11 described in subparagraph (A)(i)(I), the per-
12 centage of loan forgiveness provided to the
13 teacher for each academic year of full-time
14 teaching in such a subject shall be 15 percent,
15 until the teacher qualifies for cancellation in the
16 seventh year under subparagraph (A)(ii)(II).

17 “(3) ELIGIBILITY PROVISIONS.—

18 “(A) CERTIFICATION.—A borrower who
19 desires to participate in the repayment plan
20 under this subsection shall submit to the Sec-
21 retary an employer certification, as required by
22 the Secretary, of the employment dates for the
23 qualifying service.

24 “(B) INELIGIBILITY FOR DOUBLE BENE-
25 FITS.—

1 “(i) IN GENERAL.—No borrower may,
2 for the same service, receive a reduction of
3 loan obligations under both this subsection
4 and section 428J, 428K, 428L, or 460.

5 “(ii) INELIGIBILITY OF EDUCATION
6 AWARD.—No borrower may count any pay-
7 ments made from an education award re-
8 ceived under subtitle D of title I of the Na-
9 tional and Community Service Act of 1990
10 (42 U.S.C. 12601 et seq.) toward the pay-
11 ments required under paragraph (1).

12 “(C) CONTINUED ELIGIBILITY.—A teacher
13 who is employed, for consecutive years (exclud-
14 ing a documented medical leave of absence or
15 military service), in a qualifying teaching posi-
16 tion at a school that meets the requirements of
17 paragraph (6)(C)(i) for a school year but fails
18 to meet such requirements in subsequent years,
19 shall be deemed to be in a qualifying teaching
20 position, for purposes of this subsection, for all
21 of the consecutive subsequent years during
22 which the teacher remains at the school.

23 “(4) STATE CERTIFICATION.—

24 “(A) STATE RESPONSIBILITIES.—Each
25 State educational agency that receives assist-

1 ance under part A of title I of the Elementary
2 and Secondary Education Act of 1965 shall
3 provide to the Secretary an annual list of the
4 elementary schools and secondary schools in the
5 State that meet the requirements of subclauses
6 (I) and (II) of paragraph (6)(C)(i).

7 “(B) DISSEMINATION OF SCHOOL LISTS.—
8 The Secretary shall—

9 “(i) in coordination with the Secretary
10 of the Interior, develop a list of elementary
11 schools and secondary schools that meet
12 the requirement of paragraph
13 (6)(C)(i)(III); and

14 “(ii) make the lists developed under
15 clause (i) and provided under subpara-
16 graph (A) easily accessible for applicants
17 and recipients of TEACH Grants.

18 “(5) SPECIAL DEFERRAL.—

19 “(A) IN GENERAL.—In addition to any
20 deferment for which a borrower of an eligible
21 Federal Direct Loan may be eligible under sec-
22 tion 455(f), a borrower shall be eligible for
23 deferment, as described in section 455(f)(1), for
24 a period not in excess of 2 years if—

1 “(i) the borrower has qualified for
2 partial loan forgiveness under paragraph
3 (1) for the immediately preceding year;
4 and

5 “(ii) the borrower is unable to con-
6 tinue working in a qualified teaching posi-
7 tion during the period of deferment, due
8 to—

9 “(I) extenuating or unforeseen fi-
10 nancial circumstances or health rea-
11 sons; or

12 “(II) other extraordinary cir-
13 cumstances as determined by the Sec-
14 retary.

15 “(6) DEFINITIONS.—In this subsection:

16 “(A) ELIGIBLE FEDERAL DIRECT LOAN.—
17 The term ‘eligible Federal Direct Loan’ means
18 a Federal Direct Stafford Loan, Federal Direct
19 PLUS Loan, Federal Direct Unsubsidized Staf-
20 ford Loan, or Federal Direct Consolidation
21 Loan.

22 “(B) PART-TIME.—The term ‘part-time’,
23 when used in reference to a teacher for a par-
24 ticular school year, means a teacher who works
25 in such year a number of hours that is not less

1 than 50 percent, but less than 100 percent, of
2 the hours worked by an average full-time teach-
3 er in the local educational agency that serves
4 the area where the teacher is employed.

5 “(C) QUALIFYING TEACHING POSITION.—

6 The term ‘qualifying teaching position’ means
7 part-time or full-time employment (not includ-
8 ing a short-term substitute teaching assign-
9 ment)—

10 “(i) in—

11 “(I) a public or nonprofit private
12 elementary school or secondary school
13 that, for the purpose of this subpara-
14 graph and for that year—

15 “(aa) has been determined
16 by the Secretary (pursuant to
17 regulations of the Secretary and
18 after consultation with the State
19 educational agency of the State
20 in which the school is located) to
21 be a school in which the number
22 of children meeting a measure of
23 poverty under section 1113(a)(5)
24 of the Elementary and Secondary
25 Education Act of 1965, exceeds

1 70 percent of the total number of
2 children enrolled in such school;
3 and

4 “(bb) is in the school district
5 of a local educational agency that
6 is eligible in such year for assist-
7 ance pursuant to part A of title
8 I of the Elementary and Sec-
9 ondary Education Act of 1965;

10 “(II) a public or nonprofit pri-
11 vate elementary school or secondary
12 school served by an educational serv-
13 ice agency, or a location operated by
14 an educational service agency, that,
15 for the purpose of this subparagraph
16 and for that year, has been deter-
17 mined by the Secretary (pursuant to
18 regulations of the Secretary and after
19 consultation with the State edu-
20 cational agency of the State in which
21 the educational service agency oper-
22 ates) to be a school or location at
23 which the number of children taught
24 who meet a measure of poverty under
25 section 1113(a)(5) of the Elementary

1 and Secondary Education Act of
2 1965, exceeds 30 percent of the total
3 number of children taught at such
4 school or location;

5 “(III) an elementary school or
6 secondary school that is funded by the
7 Bureau of Indian Education; or

8 “(IV) in the case of an individual
9 who is an early childhood educator, an
10 early childhood education program;

11 “(ii) through which the individual pro-
12 vides direct classroom teaching, or class-
13 room-type teaching in a nonclassroom set-
14 ting, including—

15 “(I) special education teachers;

16 “(II) career and technical edu-
17 cation teachers;

18 “(III) teachers in the field of
19 science, technology, engineering,
20 mathematics, or other subjects;

21 “(IV) early childhood educators;

22 “(V) English as a second lan-
23 guage teachers; and

24 “(VI) teachers of a Native Amer-
25 ican language (as defined in section

1 103 of the Native American Lan-
2 guages Act (25 U.S.C. 2902)); and

3 “(iii) with respect to which the indi-
4 vidual meets the requirements of an effec-
5 tive teacher or effective early childhood ed-
6 ucator, as determined by the State in ac-
7 cordance with part A of title I and title II
8 of the Elementary and Secondary Edu-
9 cation Act of 1965 (20 U.S.C. 6311 et
10 seq., 6601 et seq.).”.

11 (2) EFFECTIVE DATE.—The amendment made
12 by this subsection shall be effective on the date that
13 is 1 year after the date of enactment of this Act.

14 (b) TAX TREATMENT OF CANCELLATION OF STU-
15 DENT LOANS.—

16 (1) IN GENERAL.—Subsection (f) of section 108
17 of the Internal Revenue Code of 1986 is amended by
18 adding at the end the following new paragraph:

19 “(6) CANCELLATIONS UNDER STRIVE ACT
20 TEACHER LOAN FORGIVENESS PROGRAMS.—In the
21 case of an individual, gross income does not include
22 any amount which (but for this subsection) would be
23 includible in gross income for the taxable year by
24 reasons of the cancellation (in whole or in part)
25 under section 455(r) of the Higher Education Act of

1 1965 of any eligible Federal Direct Loan (as defined
2 in section 455(r)(6)(A) of such Act).”.

3 (2) EFFECTIVE DATE.—The amendment made
4 by this subsection shall apply to cancellations of in-
5 debtedness after the date that is 1 year after the
6 date of the enactment of this Act.

7 **SEC. 55122. TEACH GRANTS.**

8 (a) AMENDMENTS.—Subpart 9 of part A of title IV
9 of the Higher Education Act of 1965 (20 U.S.C. 1070g
10 et seq.) is amended—

11 (1) in section 420L (20 U.S.C. 1070g), by
12 striking paragraph (1) and inserting the following:

13 “(1) ELIGIBLE INSTITUTION.—The term ‘eligi-
14 ble institution’ has the meaning given the term
15 ‘teacher, principal, or other school leader prepara-
16 tion academy’ in section 2002 of the Elementary
17 and Secondary Education Act of 1965 (20 U.S.C.
18 6602).”; and

19 (2) in section 420N (20 U.S.C. 1070g–2)—

20 (A) in the matter preceding clause (i) of
21 subsection (a)(2)(B), by inserting “, including
