RESOLUTION

Expressing support for the designation of the week beginning on October 11, 2020, as National Wildlife Refuge Week.

Whereas, in 1903, President Theodore Roosevelt established the first national wildlife refuge on Pelican Island in Florida;

Whereas, in 2019, the National Wildlife Refuge System, administered by the United States Fish and Wildlife Service, is the premier system of land and water to conserve wildlife in the world and has grown to 568 national wild-

life refuges and 38 wetland management districts located in every State and territory of the United States;

Whereas national wildlife refuges are important recreational and tourism destinations in communities across the United States, and this protected land offers a variety of recreational opportunities, including the six wildlife-dependent uses of hunting, fishing, wildlife observation, photography, environmental education, and interpretation;

Whereas the National Wildlife Refuge System receives more than 59,700,000 annual visits, which generate more than \$3,200,000,000 in local economies, including 41,000 jobs;

Whereas 430 units of the National Wildlife Refuge System have hunting programs and 360 units have fishing programs that receive more than 2,400,000 hunting visits and more than 7,100,000 fishing visits annually;

Whereas the National Wildlife Refuge System has hosted more than 42,100,000 birding and wildlife observation visits in recent years;

Whereas national wildlife refuges are important to local businesses and gateway communities;

Whereas the National Wildlife Refuge System encompasses every kind of ecosystem in the United States, including temperate, tropical and boreal forests, wetlands, deserts, grasslands, arctic tundras, and remote islands, and spans 12 time zones from the United States Virgin Islands to Guam;

Whereas national wildlife refuges are home to more than 700 species of birds, 220 species of mammals, 250 species of reptiles and amphibians, and more than 1,000 species of fish;

Whereas national wildlife refuges are the primary Federal lands on which the production, migration, and wintering habitat for waterfowl are fostered;

Whereas, since 1934, the Migratory Bird Conservation Fund, which has been largely funded from the sale of the Federal Duck Stamp to outdoor enthusiasts, has generated more than \$1,600,000,000 and enabled the conservation of more than 6,000,000 acres of habitat for waterfowl and numerous other species in the National Wildlife Refuge System;

Whereas refuges provide protection to more than 380 threatened and endangered species;

Whereas national wildlife refuges are cores of conservation for larger landscapes and resources for other agencies of the Federal Government, State governments, private landowners, and organizations in efforts to secure the wildlife heritage of the United States;

Whereas more than 38,000 volunteers and almost 200 national wildlife refuge “Friends” organizations contribute around 1,350,000 volunteer hours annually, the equivalent of 650 full-time employees, and provide an important link to local communities;

Whereas national wildlife refuges provide an important opportunity for children to discover and gain a greater appreciation for the natural world;

Whereas there are national wildlife refuges located in numerous urban and suburban areas and there is a refuge located within a 1-hour drive of nearly every metropolitan area in the United States, which has enabled national wildlife refuges to employ, educate, and engage young people from all backgrounds in exploring, connecting

with, and preserving the natural heritage of the United States;

Whereas, since 1995, refuges across the United States have held festivals, educational programs, guided tours, and other events to celebrate National Wildlife Refuge Week during the second full week of October;

Whereas the United States Fish and Wildlife Service has designated the week beginning on October 11, 2020, as National Wildlife Refuge Week; and

Whereas the designation of National Wildlife Refuge Week by the House of Representatives would recognize more than a century of conservation in the United States, raise awareness about the importance of wildlife and the National Wildlife Refuge System, and celebrate the myriad recreational opportunities available for the enjoyment of this network of protected lands: Now, therefore, be it
