

116TH CONGRESS
2D SESSION

S. RES. 528

Recognizing the importance of the blueberry industry to the United States
and designating July 2020 as “National Blueberry Month”.

IN THE SENATE OF THE UNITED STATES

MARCH 4, 2020

Ms. STABENOW submitted the following resolution; which was referred to the
Committee on the Judiciary

RESOLUTION

Recognizing the importance of the blueberry industry to the
United States and designating July 2020 as “National
Blueberry Month”.

Whereas the blueberry is a fruit native to North America that
was first used fresh and dried in food and medicines by
Native Americans, who introduced blueberries to early
colonists, which led to new uses and forms of blueberries,
including frozen, establishing traditions still observed in
2020;

Whereas the pioneering work conducted in New Jersey in the
early 1900s by Elizabeth White and Dr. Frederick
Coville, a botanist at the Department of Agriculture, to
domesticate wild lowbush blueberries resulted in the de-
velopment of the hybrid for cultivated highbush blue-
berries;

Whereas, because of those early efforts, highbush blueberries are large, sweet, juicy berries that can be commercially produced and shipped, allowing the highbush blueberry industry to become an important agricultural industry in the United States;

Whereas highbush blueberries—

(1) have a harvested area estimated at more than 97,000 acres; and

(2) are produced in 48 States by more than 14,000 growers and their families;

Whereas highbush blueberry production in the United States has continually increased, with particular growth during the first 2 decades of the 21st century, reaching a harvest of 551,100,000 pounds in 2018;

Whereas blueberries are—

(1) low in fat; and

(2) a source of fiber, vitamins, and minerals;

Whereas blueberries are being studied to examine the role that the berries may play in promoting good health in areas such as cardiovascular health, brain health, exercise, insulin response, and gut health; and

Whereas highbush blueberries are harvested in the United States from April through early September, with the peak of the harvest occurring in July: Now, therefore, be it

1 *Resolved*, That the Senate—

2 (1) designates July 2020 as “National Blue-
3 berry Month”;

4 (2) recognizes the contributions of blueberry
5 growers in the United States and their families; and

1 (3) recognizes that purchasing blueberries
2 grown in the United States supports farmers, jobs,
3 and the economy of the United States.
