(2) The source and security of the natural gas supply to be imported or exported, including contract volumes and a description of the gas reserves supporting the project during the term of the requested authorization;

(3) Identification of all the participants in the transaction, including the

parent company, if any, and identification of any corporate or other affiliations among the participants;

(4) The terms of the transaction, such as take-or-pay obligations, make-up provisions, and other terms that affect the marketability of the gas;

(5) The provisions of the import arrangement which establish the base price, volume requirements, transportation and other costs, and allow adjustments during the life of the project, and a demonstration as to why the import arrangement is and will remain competitive over the life of the project and is otherwise not inconsistent with the public interest;

(7) The potential environmental impact of the project. To the extent possible, the application shall include a listing and description of any environmental assessments or studies being performed on the proposed gas project. The application shall be updated as the status of any environmental assessments changes.

§ 590.203 Deficient applications.

If an application is incomplete or otherwise deemed deficient, the Assistant Secretary or the Assistant Secretary's delegate may require the applicant to submit additional information or exhibits to remedy the deficiency. (a) Upon receipt of an application, the FE shall publish a notice of application in the FEDERAL REGISTER. The notice shall summarize the proposal. Except in emergency circumstances, generally the notice shall provide a time limit of not less than thirty (30) days from the notice's date of publication in the FEDERAL REGISTER for persons to file protests, comments, or a

(b) The notice of application shall advise the parties of their right to request additional procedures, including the opportunity to file written comments and to request that a conference, oral presentation, or trial-type hearing be convened. Failure to request additional procedures at this time shall be deemed a waiver of any right to additional procedures should the Assistant Secretary decide to grant the application and authorize the import or export by issuing a final opinion and order in accordance with § 590.316.

(c) Where negotiations between the DOE, including FE, and a foreign government have resulted in a formal policy agreement or statement affecting a particular import or export proceeding, FE shall include in the notice of application a description of the terms or policy positions of that agreement or statement to the extent they apply to the proceeding, and invite comment. A formal policy agreement or statement affecting a particular import or export proceeding that is arrived at after publication of the notice of application shall be placed on the record in that proceeding and the parties given an opportunity to comment thereon.

§ 590.206 Notice of procedures.
