## § 107.1430 Redeeming 4 percent Preferred Securities with proceeds of non-subsidized Debentures.

## $\S 107.1440$ Three percent preferred stock issued before November 21, 1989.

Before November 21, 1989, Preferred Securities were available only in the form of preferred stock and had a preferred and cumulative dividend of 3 percent. If you have such preferred stock outstanding, you must follow §107.1400 (except for §107.1400(d)), substituting " 3 percent" for " 4 percent" throughout.) Dividends on 3 percent preferred stock are payable at the discretion of your Board of Directors or General Partner(s), except that all dividends in arrears must be paid in full before any non-SBA investor receives any distribution. Upon your liquidation, SBA is entitled to payment of all dividends in arrears even if you have no Retained Earnings Available for Distribution at such time.

## $\S$ 107.1450 Optional redemption of Pre-

 ferred Securities.(a) Redemption at par or face value. A Section 301(d) Licensee may redeem Preferred Securities at any time, provided you give SBA at least 30 days written notice. You may redeem all or only part of your Preferred Securities, but the par value or face value of the securities being redeemed must be at least $\$ 50,000$. At the redemption date, you must pay to SBA:
(1) The par value (of preferred stock) or face value (of a preferred limited partnership interest); plus
(2) Any unpaid dividends or partnership distributions accrued to the redemption date.
(b) Repurchase of 3 percent preferred stock for less than par value. If you issued 3 percent preferred stock to SBA, you may ask SBA to sell it back to you at a price less than its par value. The terms and conditions of any such transaction will be as set forth in the Notice published in the Federal REGISTER on April 1, 1994 (Copies of this notice are available from SBA, 409 3rd Street, SW., Washington, DC, 20416). SBA has sole discretion to:
(1) Approve or disapprove the sale.
(2) Determine the sale price after considering any factors SBA considers appropriate.
(3) Determine the form of payment SBA will accept. SBA is not authorized to accept the proceeds of a subsidized Debenture as payment.

## Participating Securities Leverage

## § 107.1500 General description of Par-

 ticipating Securities.(a) Types of Participating Securities. Participating Securities are redeemable, preferred, equity-type securities. SBA may purchase or guarantee Participating Securities issued by Licensees in the form of limited partnership interests, preferred stock, or debentures with interest payable only to the extent of earnings. The structure, terms and conditions of Participating Securities are set forth in detail in $\S \S 107.1500$ through 107.1590.
(b) Special eligibility requirements for Participating Securities. In addition to the general eligibility requirements for Leverage under §107.1120, Participating Securities issuers must also comply with special rules on:
(1) Minimum capital (see §107.210).
(2) Liquidity (see §107.1505).
(3) Non-SBA borrowing (see § 107.570).
(4) Equity investing, as set forth in this paragraph (b)(4). If you issue Participating Securities, you must invest an amount equal to the Original Issue Price of such securities solely in Equity Capital Investments, as defined in §107.50.
(c) Special features of Participating Se-curities-Prioritized Payments, Adjustments, and Profit Participation. When
you issue Participating Securities, you agree to make the following payments:
(1) Prioritized Payments. Depending upon the type of Participating Security you issue, Prioritized Payments may be preferred partnership distributions, preferred dividends, or interest. Your obligation to pay Prioritized Payments is contingent upon your profits as determined under §107.1520.
(2) Adjustments to Prioritized Payments. If you have unpaid Prioritized Payments, you must compute Adjustments, which are additional contingent obligations determined under §107.1520. The conditions for paying Adjustments are the same as for Prioritized Payments.
(3) SBA Profit Participation. Profit Participation is an amount payable to SBA under $\S 107.1530$ in consideration for SBA's guarantee of your Participating Securities.
(d) Distributions by Licensees issuing Participating Securities. Sections 107.1540 through 107.1580 govern both required and optional Distributions by Participating Securities issuers. Distributions include both profit distributions and returns of capital, paid either to SBA or to your non-SBA investors.
(e) Mandatory redemption of Participating Securities. You must redeem Participating Securities at the redemption date, which is the same as the maturity date of the Trust Certificates for the Trust containing such securities. The redemption date can never be later than 15 years after the issue date. You must pay the Redemption Price plus any unpaid Earned Prioritized Payments and any earned Adjustments and earned Charges (see §107.1520).
(f) Priority of Participating Securities in liquidation of Licensee. In the event of your liquidation, the following are senior in priority, for all purposes, to all other equity interests you have issued at any time:
(1) The Redemption Price of Participating Securities;
(2) Any Earned Prioritized Payments and any earned Adjustments and earned Charges (see §107.1520); and
(3) Any Profit Participation allocated to SBA under §107.1530.

§ 107.1505 Liquidity requirements for Licensees issuing Participating Securities.
If you have outstanding Participating Securities, you must maintain sufficient liquidity to avoid a condition of Liquidity Impairment. Such a condition will constitute noncompliance with the terms of your Leverage under §107.1820(e).
(a) Definition of Liquidity Impairment. A condition of Liquidity Impairment exists when your Liquidity Ratio, as determined in paragraph (b) of this section, is less than 1.20. You are responsible for calculating whether you have a condition of Liquidity Impairment:
(1) As of the close of your fiscal year;
(2) At the time you apply for Leverage, unless SBA permits otherwise; and
(3) At such time as you contemplate making any Distribution.
(b) Computation of Liquidity Ratio. Your Liquidity Ratio equals your Total Current Funds Available (A) divided by your Total Current Funds Required (B), as determined in the following table:

Calculation of Liquidity Ratio
