

the entire period of measurement, rather than only for the period after which affiliation ceased. However, if a concern has sold a segregable division to another business concern during the applicable period of measurement or before the date on which it self-certified as small, the employees used in determining size status will continue to include the employees of the division that was sold.

§ 121.107 How does SBA determine a concern’s “primary industry”?

In determining the primary industry in which a concern or a concern combined with its affiliates is engaged, SBA considers the distribution of receipts, employees and costs of doing business among the different industries in which business operations occurred for the most recently completed fiscal year. SBA may also consider other factors, such as the distribution of patents, contract awards, and assets.

§ 121.108 What are the penalties for misrepresentation of size status?

(a) *Presumption of Loss Based on the Total Amount Expended.* In every contract, subcontract, cooperative agreement, cooperative research and development agreement, or grant which is set aside, reserved, or otherwise classified as intended for award to small business concerns, there shall be a presumption of loss to the United States based on the total amount expended on the contract, subcontract, cooperative agreement, cooperative research and development agreement, or grant whenever it is established that a business concern other than a small business concern willfully sought and received the award by misrepresentation.

(b) *Deemed Certifications.* The following actions shall be deemed affirmative, willful and intentional certifications of small business size and status:

(1) Submission of a bid, proposal, application or offer for a Federal grant, contract, subcontract, cooperative agreement, or cooperative research and development agreement reserved, set aside, or otherwise classified as in-

tended for award to small business concerns.

(2) Submission of a bid, proposal, application or offer for a Federal grant, contract, subcontract, cooperative agreement or cooperative research and development agreement which in any way encourages a Federal agency to classify the bid or proposal, if awarded, as an award to a small business concern.

(3) Registration on any Federal electronic database for the purpose of being considered for award of a Federal grant, contract, subcontract, cooperative agreement, or cooperative research and development agreement, as a small business concern.

(c) *Signature Requirement.* Each offer, proposal, bid, or application for a Federal contract, subcontract, or grant shall contain a certification concerning the small business size and status of a business concern seeking the Federal contract, subcontract or grant. An authorized official must sign the certification on the same page containing the size status claimed by the concern.

(d) *Limitation of Liability.* Paragraphs (a) through (c) of this section may be determined not to apply in the case of unintentional errors, technical malfunctions, and other similar situations that demonstrate that a misrepresentation of size was not affirmative, intentional, willful or actionable under the False Claims Act, 31 U.S.C. §§3729, et seq. A prime contractor acting in good faith should not be held liable for misrepresentations made by its subcontractors regarding the subcontractors’ size. Relevant factors to consider in making this determination may include the firm’s internal management procedures governing size representation or certification, the clarity or ambiguity of the representation or certification requirement, and the efforts made to correct an incorrect or invalid representation or certification in a timely manner. An individual or firm may not be held liable where government personnel have erroneously identified a concern as small without any representation or certification having been made by the concern and where such identification is made without the knowledge of the individual or firm.
