### **§ 121.402 What size standards are applicable to Federal Government Contracting programs?**

(a) A concern must not exceed the size standard for the NAICS code specified in the solicitation. The contracting officer must specify the size standard in effect on the date the solicitation is issued. If SBA amends the size standard and it becomes effective before the date initial offers (including

price) are due, the contracting officer may amend the solicitation and use the new size standard.

(b) The procuring agency contracting officer, or authorized representative, designates the proper NAICS code and corresponding size standard in a solicitation, selecting the single NAICS code which best describes the principal purpose of the product or service being acquired. Except for multiple award contracts as set forth in paragraph (c) of this section, every solicitation, including a request for quotations, must contain only one NAICS code and only one corresponding size standard.

(1) Primary consideration is given to the industry descriptions in the U.S. NAICS Manual, the product or service description in the solicitation and any attachments to it, the relative value and importance of the components of the procurement making up the end item being procured, and the function of the goods or services being purchased.

(2) A procurement is generally classified according to the component which accounts for the greatest percentage of contract value. Acquisitions for supplies must be classified under the appropriate manufacturing or supply NAICS code, not under a Wholesale Trade or Retail Trade NAICS code. A concern that submits an offer or quote for a contract, order, or subcontract where the NAICS code assigned to the contract, order, or subcontract is one for supplies, and furnishes a product it did not itself manufacture or produce, is categorized as a nonmanufacturer and deemed small if it has 500 or fewer employees and meets the requirements of § 121.406(b).

(c) *Multiple Award Contracts* (see definition at § 125.1).

(1) For a Multiple Award Contract, the contracting officer must:

(i) Assign the solicitation a single NAICS code and corresponding size standard which best describes the principal purpose of the acquisition as set forth in paragraph (b) of this section, only if the NAICS code will also best describe the principal purpose of each order to be placed under the Multiple Award Contract; or

(ii) Divide the solicitation into discrete categories (such as Contract Line
