of Commerce for the purpose of consideration of or concerning license applications, as well as related information, will not be publicly disclosed without the approval of the Secretary of Commerce. Electronic Export Information (EEI) filings via the Automated Export System (AES) are also exempt from public disclosure, except with the approval of the Secretary of Commerce, in accordance with §301(g) of Title 13, United States Code.

Administrative Order Two: Conduct of Business and Practice in Connection with Export Control Matters.

- (a) Exclusion of persons guilty of unethical conduct or not possessing required integrity and ethical standards.
- (1) Who may be excluded. Any person, whether acting on his own behalf or on behalf of another, who shall be found guilty of engaging in any unethical activity or who shall be demonstrated not to possess the required integrity and ethical standards, may be excluded from (denied) export privileges on his own behalf, or may be excluded from practice before BIS on behalf of another, in connection with any export control matter, or both, as provided in part 764 of the EAR.
- (2) Grounds for exclusion. Among th grounds for exclusion are the following:
- (i) Inducing or attempting to induce by gifts, promises, bribes, or otherwise, any officer or employee of BIS or any customs or post office official, to take any action with respect to the issuance of licenses or any other aspects of the administration of the Export Administration Act, whether or not in violation of any regulation;
- (ii) Offering or making gifts or promises thereof to any such officer or employee for any other reason;
- (iii) Soliciting by advertisement or otherwise the handling of business before BIS on the representation, express or implied, that such person, through personal acquaintance or otherwise, possesses special influence over any officer or employee of BIS;
- (iv) Charging, or proposing to charge, for any service performed in connection with the issuance of any license, any fee wholly contingent upon the granting of such license and the amount or value thereof. This provision will not be construed to prohibit the charge of any fee agreed to by the parties; provided that the out-of-pocket expenditures and the reasonable value of the services performed, whether or not the license is issued and regardless of the amount thereof, are fairly compensated; and
- (v) Knowingly violating or participating in the violation of, or an attempt to violate, any regulation with respect to the export of commodities or technical data, including the making of or inducing another to make any false representations to facilitate any export in violation of the Export Administration

Act or any order or regulation issued thereunder.

- (3) Definition. As used in this Administrative Order, the terms "practice before BIS" and "appear before BIS" include:
- (i) The submission on behalf of another of applications for export licenses or other documents required to be filed with BIS, or the execution of the same:
- (ii) Conferences or other communications on behalf of another with officers or employees of BIS for the purpose of soliciting or expediting approval by BIS of applications for export licenses or other documents, or with respect to quotas, allocations, requirements or other export control actions, pertaining to matters within the jurisdiction of BIS;
- (iii) Participating on behalf of another in any proceeding pending before BIS;
- (iv) Submission on behalf of another of a license or other export control document to U.S. Customs and Border Protection (CBP);
- (v) Reporting on behalf of another Electronic Export Information via the Automated Export System (AES) to CBP.
- (4) Proceedings. All proceedings under this Administrative Order shall be conducted in the same manner as provided in part 766 of the EAR.
- (b) Employees and former employees. Persons who are or at any time have been employed on a full-time or part-time, compensated or uncompensated, basis by the U.S. Government are subject to the provisions of 18 U.S.C. 203, 205, and 207 (Pub. L. 87-849, 87th Congress) in connection with representing a private party or interest before the U.S. Department of Commerce in connection with any export control matter.

§738.1 Introduction.

- (a) Commerce Control List scope. (1) In this part, references to the EAR are references to 15 CFR chapter VII, subchapter C. The Bureau of Industry and Security (BIS) maintains the Commerce Control List (CCL) within the Export Administration Regulations (EAR), which includes items (i.e., commodities, software, and technology) subject to the export licensing authority of BIS. The CCL does not include those items exclusively controlled for export or reexport by another department or agency of the U.S. Government. In instances where agencies other than the Department of Commerce administer controls over related items, entries in the CCL contain a reference to these controls.
- (2) The CCL is contained in supplement no. 1 to part 774 of the EAR. Supplement no. 2 to part 774 of the EAR contains the General Technology and Software Notes relevant to entries contained in the CCL.
- (3) Items that warrant control for export or reexport but currently are not permanently classified on the CCL. Items subject to temporary CCL controls are classified under the ECCN 0Y521 series (i.e., 0A521, 0B521, 0C521, 0D521, and 0E521) pursuant to §742.6(a)(8) of the EAR while a determination is made as to whether classification under a revised or new ECCN, or an EAR99 designation, is appropriate.
- (b) Commerce Country Chart scope. BIS also maintains the Commerce Country Chart. The Commerce Country Chart, located in supplement no. 1 to part 738, contains licensing requirements based on destination and Reason for Control. In combination with the CCL, the Commerce Country Chart allows you to determine whether a license is required for items on the CCL to any country in the world.

[61 FR 12756, Mar. 25, 1996, as amended at 77 FR 22198, Apr. 13, 2012; 85 FR 23462, Apr. 28, 2020]

§ 738.2 Commerce Control List (CCL) structure.

(a) Categories. The CCL is divided into 10 categories, numbered as follows:

- 0—Nuclear Materials, Facilities and Equipment and Miscellaneous
- 1—Materials, Chemicals, "Microorganisms," and Toxins
- 2—Materials Processing
- 3—Electronics
- 4—Computers
- 5—Telecommunications and Information Security
- 6—Lasers and Sensors
- 7—Navigation and Avionics
- 8-Marine
- 9—Aerospace and Propulsion
- (b) *Groups*. Within each category, items are arranged by group. Each category contains the same five groups. Each Group is identified by the letters A through E, as follows:
- A—Equipment, Assemblies and Components B—Test, Inspection and Production Equipment
- C-Materials
- D-Software
- E-Technology
- (c) Order of review. The CCL includes a supplement no. 4 to part 774—Commerce Control List Order of Review. This supplement establishes the steps (i.e., the order of review) that should be followed in classifying items that are "subject to the EAR."
- (d) Entries—(1) Composition of an entry. Within each group, individual items are identified by an Export Control Classification Number (ECCN). Each number consists of a set of digits and a letter. The first digit identifies the general category within which the entry falls (e.g., 3A001). The letter immediately following this first digit identifies under which of the five groups the item is listed (e.g., 3 A001). The second digit differentiates individual entries by identifying the type of controls associated with the items contained in the entry (e.g., 3A001). Listed below are the Reasons for Control associated with this second digit.
- 0: National Security reasons (including Dual Use and Wassenaar Arrangement Munitions List) and Items on the NSG Dual Use Annex and Trigger List
- 1: Missile Technology reasons
- 2: Nuclear Nonproliferation reasons
- 3: Chemical & Biological Weapons reasons
- 5: Items warranting national security or foreign policy controls at the determination of the Department of Commerce.
- 6: "600 series" controls items because they are items on the Wassenaar Arrangement

§738.2

Munitions List (WAML) or formerly on the U.S. Munitions List (USML).

- 9: Anti-terrorism, Crime Control, Regional Stability, Short Supply, UN Sanctions,
- (i) Since Reasons for Control are not mutually exclusive, numbers are assigned in order of precedence. As an example, if an item is controlled for both National Security and Missile Technology reasons, the entry's third alphanumeric character will be a "0". If the item is controlled only for Missile Technology the third alphanumeric character will be "1".
- (ii) The numbers in either the second or third digit (e.g., 3A001) serve to differentiate between multilateral and unilateral entries. An entry with the number "9" as the second digit, identifies the entire entry as controlled for a unilateral concern (e.g., 2B991 for antiterrorism reasons). If the number "9" appears as the third digit, the item is controlled for unilateral purposes based on a proliferation concern (e.g., 2A290 is controlled for unilateral purposes based on nuclear nonproliferation concerns).
- (iii) The last digit within each entry (e.g., 3A001) is used for the sequential numbering of ECCNs to differentiate between entries on the CCL.
- (iv) Last two characters in a "600 series" ECCN. The last two characters of each "600 series" ECCN generally track the Wassenaar Arrangement Munitions List (WAML) categories for the types of items at issue. The WAML ML21 ("software") and ML22 ("technology") are, however, included in D ("software") and E ("technology") CCL product groups to remain consistent with the structure of the CCL.
- (2) Reading an ECCN. An ECCN is made up of four sections, the "Heading," "License Requirements," "License Exceptions," and "List of Items Controlled" sections. A brief description of each section and its use follows:
- (i) Heading. A description of the items controlled is provided next to each ECCN. In certain ECCNs, the description is a summary and will direct you to "see List of Items Controlled" for a complete list of items classified under those respective ECCNs. The "Items" paragraph in the List of Items Controlled section will describe all of

the items that the ECCN controls for the portions of the heading that precede the "see List of Items Controlled" phrase. Portions of the heading that follow the phrase are complete descriptions of the items controlled by that portion of the heading. If "see List of Items Controlled" appears at the end of the heading, the "Items" paragraph in the List of Items Controlled section is the exclusive, complete list of the items the ECCN controls.

- (ii) License Requirements. This section contains a separate line identifying all possible Reasons for Control in order of precedence, and two columns entitled "Control(s)" and "Country Chart".
- (A) The "Controls" header identifies all applicable Reasons for Control, in order of restrictiveness, and to what extent each applies (e.g., to the entire entry or only to certain subparagraphs). Those requiring licenses for a larger number of countries and/or items are listed first. As you read down the list the number of countries and/or items requiring a license declines. Since Reasons for Control are not mutually exclusive, items controlled within a particular ECCN may be controlled for more than one reason. The following is a list of all possible Reasons for Control:
- Anti-Terrorism
- Chemical & Biological Weapons CBCCCrime Control
- Chemical Weapons Convention CWET Encryption Items
- FC Firearms Convention
- Missile Technology MT National Security
- Nuclear Nonproliferation
- Regional Stability
- Short Supply
- United Nations Embargo
- SI Significant Items
- SL Surreptitious Listening
- (B) The "Country Chart" header identifies, for each applicable Reason for Control, a column name and number (e.g., CB Column 1). These column identifiers are used to direct you from the CCL to the appropriate column identifying the countries requiring a license. Consult part 742 of the EAR for an indepth discussion of the licensing requirements and policies applicable to each Country Chart column.
- (iii) License Exceptions. This section provides a brief eligibility statement

for each ECCN-driven License Exception that may be applicable to your transaction, and should be consulted only AFTER you have determined a license is required based on an analysis of the entry and the Country Chart. The brief eligibility statement in this section is provided to assist you in deciding which ECCN-driven License Exception related to your particular item and destination you should explore prior to submitting an application. The term "Yes" (followed in some instances by the scope of Yes) appears next to each available ECCN-driven License Exception. Some ECCNs have License Exception STA exclusion paragraphs. These paragraphs identify items for which the License Exception STA provisions in §740.20(c)(2) of the EAR may not be used, but do not otherwise affect License Exception STA availability. The term "N/A" will be noted for License Exceptions that are not available within a particular entry. In some "600 series" ECCNs, the STA license exception paragraph or a note to the License Exceptions section contains additional information on the availability of License Exception STA for that ECCN. If one or more License Exceptions appear to apply to your transaction, you must consult part 740 of the EAR to review the conditions and restrictions applicable to each available License Exception. The list of License Exceptions contained within each ECCN is not an all-exclusive list. Other License Exceptions, not based on particular ECCNs, may be available. Consult part 740 of the EAR to determine eligibility for non-ECCN-driven License Exceptions.

(iv) List of Items Controlled—(A) Related definitions. This header identifies, where appropriate, definitions or parameters that apply to all items controlled by the entry. The information provided in this section is unique to the entry, and hence not listed in the definitions contained in part 772 of the EAR.

(B) Related controls. If another U.S. government agency or department has export licensing authority over items related to those controlled by an entry, a statement is included identifying the agency or department along with the applicable regulatory cite. An additional cross-reference may be included

in instances where the scope of controls differs between a CCL entry and its corresponding entry on list maintained by the European Union. This information is provided to assist readers who use both lists.

(C) Items. This paragraph describes the relationship between the "items" paragraph and ECCN headings and will assist your understanding as you classify items on the CCL. When the heading contains the phrase "see List of Items Controlled," the portion of the heading preceding that phrase is only a summary of the items controlled by the ECCN and the "items" paragraph contains an exclusive list of items described in the heading. Paragraphs (d)(2)(iv)(C)(1), (2) and (3) of this section provide examples of the three different uses of the phrase "(see List of Items Controlled)" in ECCN headings. Each heading on the CCL uses one of these three structures. Understanding the relationship between the heading and the "items" paragraph is important when classifying items that are "subject to the EAR" on the CCL.

(I) "(See List of Items Controlled)" is at the end of the ECCN heading. An example of an ECCN where all of the heading text precedes the phrase "(see List of Items Controlled)" is ECCN 8A002 Marine systems, equipment, "parts" and "components," as follows (see List of Items Controlled). ECCNs 1A001, 3A001, 6A001, 7A004 and 9A012 are other examples where all of the heading text precedes the phrase "(see List of Items Controlled)." In these types of headings, the items paragraphs must be reviewed to determine whether your item is contained within the heading and classified under that ECCN.

(2) "(See List of Items Controlled)" is in the middle of the ECCN heading. If the phrase "(see List of Items Controlled)" appears in the middle of the ECCN heading, then all portions of the heading that follow the phrase "(see List of Items Controlled)" will list items controlled in addition to the list in the "items" paragraph. An example of such a heading is ECCN 2B992 Non-"numerically controlled" machine tools for generating optical quality surfaces, (see List of Items Controlled) and "specially designed" "parts" and "components" therefor. Under the

§ 738.3

ECCN 2B992 example, the "items" paragraph must be reviewed to determine whether your item is contained within the first part of the heading ("non-'numerically controlled' machine tools for generating optical quality surfaces") and classified under 2B992. The second part of the ECCN 2B992 heading ("and 'specially designed' 'parts' and 'components' therefor") contains the exclusive list described in the heading. ECCNs 1A006, 3B992, 4A001, 6A006 and 7A001 are other examples where the phrase "(see List of Items Controlled)" appears in the middle of the ECCN heading.

(3) ECCNs that do not use the phrase "(see List of Items controlled)." When all items classified in the ECCN are listed in the heading, a sentence is generally included in the "items" paragraph to direct you to the heading. An example of such a heading is ECCN 4E980 "Technology" for the "development," "production" or "use" of commodities controlled by 4A980. ECCNs 0A982, 5D101, 8D001 and 9A002 are other examples where the heading is the exclusive description of the items classified under those respective ECCNs.

§ 738.3 Commerce Country Chart structure.

(a) Scope. The Commerce Country Chart allows you to determine the Commerce Control List (CCL) export and reexport license requirements for most items listed on the CCL. Such license requirements are based on the Reasons for Control listed in the Export Control Classification Number (ECCN) that applies to the item. Some ECCNs, however, impose license requirements either without reference to a reason for control code that is listed on the Commerce Country Chart, or in addition to such a reference. Those ECCNs may state their license requirements in full in their "Reasons for Control" sections or they may refer the reader to another provision of the

EAR for license requirement information. In addition, some ECCNs do not impose license requirements, but refer the reader to the regulations of another government agency that may impose license requirements on the items described in that ECCN.

(1) ECCNs 0A983, 5A001.f.1, 5A980. 5D001 (for 5A001.f.1, or for 5E001.a (for 5A001.f.1 or for 5D001.a (for 5A001.f.1))), 5D980, 5E001.a (for 5A001.f.1, or for 5D001.a (for 5A001.f.1)) and 5E980. A license is required for all destinations for items controlled under these entries. For items controlled by 0A983, 5E001.a (for 5A001.f.1, or for 5D001.a (for 5A001.f.1)) and 5E980, no license exceptions apply. For items controlled by 5A001.f.1, 5A980, 5D001 (for 5A001.f.1 or for 5E001.a (for 5A001.f.1, or for 5D001.a (for 5A001.f.1))) and 5D980, License Exception GOV may apply if your item is consigned to and for the official use of an agency of the U.S. Government (see §740.2(a)(3)). If your item is controlled by 0A983, 5A001.f.1, 5A980, 5D001 (for 5A001.f.1 or for 5E001.a (for 5A001.f.1, or for 5D001.a (for 5A001.f.1))), 5D980, 5E001.a (for 5A001.f.1, or for 5D001.a (for 5A001.f.1)) or 5E980 you should proceed directly to part 748 of the EAR for license application instructions and §742.11 or §742.13 of the EAR for information on the licensing policy relevant to these types of applications.

(2) [Reserved]

(b) Countries. The first column of the Country Chart lists countries in alphabetical order. There are a number of destinations that are not listed in the Country Chart contained in supplement no. 1 to part 738. If your destination is not listed on the Country Chart and such destination is a territory, possession, dependency or department of a country included on the Country Chart, the EAR accords your destination the same licensing treatment as the country of which it is a territory, possession, dependency or department. For example, if your destination is the Cayman Islands, a dependent territory of the United Kingdom, refer to the United Kingdom on the Country Chart for licensing requirements. In addition, if your destination is Liechtenstein, which serves as one territory with Switzerland for purposes of the EAR,

refer to Switzerland on the Country Chart for licensing requirements.

(c) Columns. Stretching out to the right are horizontal headers identifying the various Reasons for Control. Under each Reason for Control header are diagonal column identifiers capping individual columns. Each column identifier consists of the two letter Reason for Control and a column number. (e.g., CB Column 1). The column identifiers correspond to those listed in the "Country Chart" header within the "License Requirements" section of each ECCN.

(d) Cells. The symbol "X" is used to denote licensing requirements on the Country Chart. If an "X" appears in a particular cell, transactions subject to that particular Reason for Control/Destination combination require a license. There is a direct correlation between the number of "X" applicable to your transaction and the number of licensing reviews your application will undergo.

[61 FR 12756, Mar. 25, 1996, as amended at 63 FR 42228, Aug. 7, 1998; 65 FR 55178, Sept. 13, 2000; 70 FR 8249, Feb. 18, 2005; 71 FR 67035, Nov. 20, 2006; 76 FR 54930, Sept. 6, 2011; 76 FR 70339, Nov. 14, 2011; 77 FR 39367, July 2, 2012; 78 FR 37382, June 20, 2013]

§ 738.4 Determining whether a license is required.

(a) Using the CCL and the Country Chart—(1) Overview. Once you have determined that your item is classified under a specific ECCN, you must use information contained in the "License Requirements" section of that ECCN in combination with the Country Chart to decide whether a license is required. Note that not all license requirements set forth under the "License Requirements" section of an ECCN refer you to the Commerce Country Chart, but in some cases this section will contain references to a specific section in the EAR for license requirements. In such cases, this section would not apply.

- (2) License decision making process. The following decision making process must be followed in order to determine whether a license is required to export or reexport a particular item to a specific destination:
- (i) Examine the appropriate ECCN in the CCL. Is the item you intend to ex-

port or reexport controlled for a single Reason for Control?

- (A) If yes, identify the single Reason for Control and the relevant Country Chart column identifier (e.g., CB Column 1).
- (B) If no, identify the Country Chart column identifier for each applicable Reason for Control (e.g., NS Column 1, NP Column 1, etc.).
- (ii) Review the Country Chart. With each of the applicable Country Chart Column identifiers noted, turn to the Country Chart (supplement no. 1 to part 738). Locate the correct Country Chart column identifier on the diagonal headings, and determine whether an "X" is marked in the cell next to the country in question for each Country Chart column identified in the applicable ECCN. If your item is subject to more than one reason for control, repeat this step using each unique Country Chart column identifier.
- (A) If yes, a license application must be submitted based on the particular reason for control and destination. unless a License Exception applies. If "Yes" is noted next to any of the listed License Exceptions, you should consult part 740 of the EAR to determine whether you can use any of the available ECCN-driven License Exceptions to effect your shipment, rather than applying for a license. Each affirmative license requirement must be overcome by a License Exception. If you are unable to qualify for a License Exception based on each license requirement noted on the Country Chart, you must apply for a license. Note that other License Exceptions, not related to the CCL, may also apply to your transaction (See part 740 of the EAR).
- (B) If no, a license is not required based on the particular Reason for Control and destination. Provided that General Prohibitions Four through Ten do not apply to your proposed transaction and the License Requirement section does not refer you to any other part of the EAR to determine license requirements. For example, any applicable encryption classification requirements described in §740.17(b) of the EAR must be met for certain mass market encryption items to affect your shipment using the symbol "NLR." Proceed to parts 758 and 762 of the EAR

§738.4

for information on export clearance procedures and recordkeeping requirements. Note that although you may stop after determining a license is required based on the first Reason for Control, it is best to work through each applicable Reason for Control. A full analysis of every possible licensing requirement based on each applicable Reason for Control is required to determine the most advantageous License Exception available for your particular transaction and, if a license is required, ascertain the scope of review conducted by BIS on your license application.

(b) Sample analysis using the CCL and Country Chart—(1) Scope. The following sample entry and related analysis is provided to illustrate the type of thought process you must complete in order to determine whether a license is required to export or reexport a particular item to a specific destination using the CCL in combination with the Country Chart.

(2) Sample CCL entry.

2A000: Entry heading. LICENSE REQUIREMENTS Reason for Control: NS, NP, AT

LVS: \$5,000 GBS: Yes LIST OF ITEMS CONTROLLED Related Definition: N/A Related Controls: N/A Items:

- a. Having x.
- b. Having z.
- (3) Sample analysis. After consulting the CCL, I determine my item, valued at \$10,000, is classified under ECCN 2A000.a. I read that the entire entry is controlled for national security, and anti-terrorism reasons. Because my item is classified under paragraph .a, and not .b, I understand that though nuclear nonproliferation controls apply to a portion of the entry, they do not apply to my item. I note that the appropriate Country Chart column identifiers are NS Column 2 and AT Column 1. Turning to the Country Chart, I locate my specific destination, Chad, and see that an "X" appears in the NS Column 2 cell for Chad, but not in the AT Column 1 cell. I understand that a license is required, unless my transaction qualifies for a License Exception. From the License Exception LVS value listed in the entry, I know immediately that my proposed transaction exceeds the value limitation associated with LVS. Noting that License Exception GBS is "Yes" for this entry, I turn to part 740 of the EAR to review the provisions related to use of GBS.
