expiration year and month for an options contract or a delivery year and month for a futures contract. The day portion of the field for these contracts contains spaces.

(ix) *Strike price*. This is a signed numeric field for reporting options strike prices. The strike prices should be right-justified and the field zero-filled. Strike prices must be reported in the same formats that are used by an exchange. For futures, the field is left blank.

(x) *Exercise style*. Valid values for this field are “A” for American style options, i.e., those that can be exercised at any time during the life of the options; and “E” for European, i.e., those that can be exercised only at the end of an option’s life. (xiv) *Record type (1)*. Record type is used to correct errors or delete records that have previously been submitted. Valid values are “A”, “C”, “D” or “blank”. An A or “blank” is used in this field for all new records. If the record corrects information for a previously provided record, this field must contain a “C” or “blank” and the record must contain all information on the previously transmitted record. If the record deletes information on a

previously provided record, this field must contain a “D” and all information on the previously transmitted record.

(h) *Correction of errors and omissions*. Unless otherwise approved by the Commission or its designee, corrections to errors and omissions in data provided pursuant to §17.00(a) shall be filed on series ‘01 forms or in the format, coding structure and data transmission procedures approved in writing by the Commission or its designee.
