§ 209.1 Form D-A: Disclosure of assets and financial information.

(a) Rules 410 and 630 of the Rules of Practice (17 CFR 201.410 and 201.630) provide that under certain circumstances a respondent who asserts or intends to assert an inability to pay disgorgement, interest or penalties may be required to disclose certain financial information. Unless otherwise ordered, this form may be used by individuals required to supply such information.

(b) The respondent filing Form D-A is required promptly to notify the Commission of any material change in the answer to any question on this form.

(c) Form D-A may not be withheld from the interested division. A respondent making financial information disclosures on this form after the institution of proceedings may make a motion, pursuant to Rule 322 of the Commission's Rules of Practice (17 CFR 201.322), for the issuance of a protective order to limit disclosure to the public or parties other than the interested division of the information submitted on Form D-A. A request for a protective order allows the requester an opportunity to justify the need for confidentiality. The making of a motion for a protective order, however, does not guarantee that disclosure will be limited.

(d) No party receiving information for which a motion for a protective order has been made may transfer or convey the information to any other person prior to a ruling on the motion without the prior permission of the Commission or a hearing officer.

(e) A person making financial information disclosures on Form D-A prior to the institution of proceedings, in connection with an offer of settlement

17 CFR Ch. II (4-1-25 Edition)

or otherwise, may request confidential treatment of the information pursuant to the Freedom of Information Act. *See* the Commission's Freedom of Information Act ("FOIA") regulations, 17 CFR 200.83. A request for confidential treatment allows the requester an opportunity to substantiate the need for confidentiality. No determination as to the validity of any request for confidential treatment will be made until a request for disclosure of the information under FOIA is received.

§ 210.1-02

(1) Registration statements under the Securities Act of 1933 (part 239 of this chapter), except as otherwise specifically provided in the forms which are to be used for registration under this Act;

(2) Registration statements under section 12 (subpart C of part 249 of this chapter), annual or other reports under sections 13 and 15(d) (subparts D and E of part 249 of this chapter), and proxy and information statements under section 14 of the Securities Exchange Act of 1934 except as otherwise specifically provided in the forms which are to be used for registration and reporting under these sections of this Act; and

Unless the context otherwise requires, terms defined in the general rules and regulations or in the instructions to the applicable form, when used in Regulation S-X (this part 210), shall have the respective meanings given in such instructions or rules. In addition, the following terms shall have the meanings indicated in this section unless the context otherwise requires.

(a)(1) *Accountant's report*. The term *accountant's report*, when used in regard

to financial statements, means a document in which an independent public or certified public accountant indicates the scope of the audit (or examination) which he has made and sets forth his opinion regarding the financial statements taken as a whole, or an assertion to the effect that an overall opinion cannot be expressed. When an overall opinion cannot be expressed, the reasons therefor shall be stated.

(2) *Attestation report on internal control over financial reporting*. The term *attestation report on internal control over financial reporting* means a report in which a registered public accounting firm expresses an opinion, either unqualified or adverse, as to whether the registrant maintained, in all material respects, effective internal control over financial reporting (as defined in § 240.13a-15(f) or § 240.15d-15(f) of this chapter), except in the rare circumstance of a scope limitation that cannot be overcome by the registrant or the registered public accounting firm which would result in the accounting firm disclaiming an opinion.

(3) *Attestation report on assessment of compliance with servicing criteria for asset-backed securities*. The term *attestation report on assessment of compliance with servicing criteria for asset-backed securities* means a report in which a registered public accounting firm, as required by § 240.13a-18(c) or § 240.15d-18(c) of this chapter, expresses an opinion, or states that an opinion cannot be expressed, concerning an asserting party's assessment of compliance with servicing criteria, as required by § 240.13a-18(b) or § 240.15d-18(b) of this chapter, in accordance with standards on attestation engagements. When an overall opinion cannot be expressed, the registered public accounting firm must state why it is unable to express such an opinion.

(4) *Definitions of terms related to internal control over financial reporting*.

Material weakness means a deficiency, or a combination of deficiencies, in internal control over financial reporting (as defined in § 240.13a-15(f) or § 240.15d-15(f) of this chapter) such that there is a reasonable possibility that a material misstatement of the registrant's annual or interim financial statements

§ 210.1-02

17 CFR Ch. II (4-1-25 Edition)

will not be prevented or detected on a timely basis.

Significant deficiency means a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the registrant's financial reporting.

(b) *Affiliate*. An *affiliate* of, or a person *affiliated* with, a specific person is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified.

The term *audit* (or *examination*), when used in regard to financial statements of issuers as defined by section 2(a)(7) of the Sarbanes-Oxley Act of 2002, means an examination of the financial statements by an independent accountant in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB") for the purpose of expressing an opinion thereon. See § 210.15-01(a) for definition of an audit when used in regard to financial statements of an entity that will combine with an entity that is a shell company (other than a business combination related shell company). When used in regard to financial statements of entities that are not issuers as defined by section 2(a)(7) of the Sarbanes-Oxley Act of 2002, other than in transactions where § 210.15-01(a) applies, the term means an examination of the financial statements by an independent accountant in accordance with either the standards of the PCAOB or U.S. generally accepted auditing standards ("U.S. GAAS") as specified or permitted in this part and forms applicable to those entities for the purpose of expressing an opinion thereon. The standards of the PCAOB and U.S. GAAS may be modified or supplemented by the Commission.

(e) *Bank holding company*. The term *bank holding company* means a person which is engaged, either directly or indirectly, primarily in the business of owning securities of one or more banks for the purpose, and with the effect, of exercising control.

(f) *Certified*. The term *certified*, when used in regard to financial statements, means examined and reported upon with an opinion expressed by an independent public or certified public accountant.

(g) *Control*. The term *control* (including the terms *controlling*, *controlled by* and *under common control with*) means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

(h) *Development stage company*. A company shall be considered to be in the development stage if it is devoting substantially all of its efforts to establishing a new business and either of the following conditions exists: (1) Planned principal operations have not commenced. (2) Planned principal operations have commenced, but there has been no significant revenue therefrom.

(i) *Equity security*. The term *equity security* means any stock or similar security; or any security convertible, with or without consideration, into such a security, or carrying any warrant or right to subscribe to or purchase such a security; or any such warrant or right.

(2) The majority of its executive officers and directors are not United States citizens or residents.

(m) *Insurance holding company.* The term *insurance holding company* means a person which is engaged, either directly or indirectly, primarily in the business of owning securities of one or more insurance companies for the purpose, and with the effect, of exercising control.

(o) *Material.* The term *material*, when used to qualify a requirement for the furnishing of information as to any subject, limits the information required to those matters about which an average prudent investor ought reasonably to be informed.

(p) *Parent.* A *parent* of a specified person is an affiliate controlling such person directly, or indirectly through one or more intermediaries.

(q) *Person.* The term *person* means an individual, a corporation, a partnership, an association, a joint-stock company, a business trust, or an unincorporated organization.

(r) *Principal holder of equity securities.* The term *principal holder of equity securities*, used in respect of a registrant or other person named in a particular statement or report, means a holder of record or a known beneficial owner of more than 10 percent of any class of equity securities of the registrant or other person, respectively, as of the date of the related balance sheet filed.

(s) *Promoter.* The term *promoter* includes:

(1) Any person who, acting alone or in conjunction with one or more other persons, directly or indirectly takes initiative in founding and organizing the business or enterprise of an issuer;

(2) Any person who, in connection with the founding and organizing of the business or enterprise of an issuer, directly or indirectly receives in consideration of services or property, or both services and property, 10 percent or

more of any class of securities of the issuer or 10 percent or more of the proceeds from the sale of any class of securities. However, a person who receives such securities or proceeds either solely as underwriting commissions or solely in consideration of property shall not be deemed a promoter within the meaning of this paragraph if such person does not otherwise take part in founding and organizing the enterprise.

(t) *Registrant.* The term *registrant* means the issuer of the securities for which an application, a registration statement, or a report is filed.

(u) *Related parties.* The term *related parties* is used as that term is defined in the FASB ASC Master Glossary.

(w) *Significant subsidiary.* (1) The term *significant subsidiary* means a subsidiary, including its subsidiaries, which meets any of the conditions in paragraph (w)(1)(i), (ii), or (iii) of this section; however if the registrant is a registered investment company or a business development company, the tested subsidiary meets any of the conditions in paragraph (w)(2) of this section instead of any of the conditions in this paragraph (w)(1). In an acquisition by a predecessor to a shell company, use the predecessor's consolidated financial statements instead of those of the shell company registrant in applying the significance tests in paragraphs (w)(1)(i), (ii), and (iii) of this section. A registrant that files its financial statements in accordance with or provides a reconciliation to U.S. Generally Accepted Accounting Principles (U.S. GAAP) must use amounts determined under U.S. GAAP. A foreign private issuer that files its financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS-IASB) must use amounts determined under IFRS-IASB.

(i) *Investment test.* (A) For acquisitions, other than those described in paragraph (w)(1)(i)(B) of this section, and dispositions this test is met when the registrant's and its other subsidiaries' investments in and advances to

§ 210.1-02

the tested subsidiary exceed 10 percent of the aggregate worldwide market value of the registrant's voting and non-voting common equity, or if the registrant has no such aggregate worldwide market value the total assets of the registrant and its subsidiaries consolidated as of the end of the most recently completed fiscal year.

(1) For acquisitions, the "investments in" the tested subsidiary is the consideration transferred, adjusted to exclude the registrant's and its other subsidiaries' proportionate interest in the carrying value of assets transferred by the registrant and its subsidiaries consolidated to the tested subsidiary that will remain with the combined entity after the acquisition. It must include the fair value of contingent consideration if required to be recognized at fair value by the registrant at the acquisition date under U.S. GAAP or IFRS-IASB, as applicable; however if recognition at fair value is not required, it must include all contingent consideration, except contingent consideration for which the likelihood of payment is remote.

(2) For dispositions, the "investments in" the tested subsidiary is the fair value of the consideration, including contingent consideration, for the disposed subsidiary when comparing to the aggregate worldwide market value of the registrant's voting and non-voting common equity, or, when the registrant has no such aggregate worldwide market value, the carrying value of the disposed subsidiary when comparing to total assets of the registrant.

(3) When determining the aggregate worldwide market value of the registrant's voting and non-voting common equity, use the average of such aggregate worldwide market value calculated daily for the last five trading days of the registrant's most recently completed month ending prior to the earlier of the registrant's announcement date or agreement date of the acquisition or disposition.

(B) For a combination between entities or businesses under common control, this test is met when either the net book value of the tested subsidiary exceeds 10 percent of the registrant's and its subsidiaries' consolidated total assets or the number of common shares

17 CFR Ch. II (4-1-25 Edition)

exchanged or to be exchanged by the registrant exceeds 10 percent of its total common shares outstanding at the date the combination is initiated.

(C) In all other cases, this test is met when the registrant's and its other subsidiaries' investments in and advances to the tested subsidiary exceed 10 percent of the total assets of the registrant and its subsidiaries consolidated as of the end of the most recently completed fiscal year.

(ii) *Asset test.* This test is met when the registrant's and its other subsidiaries' proportionate share of the tested subsidiary's consolidated total assets (after intercompany eliminations) exceeds 10 percent of such total assets of the registrant and its subsidiaries consolidated as of the end of the most recently completed fiscal year.

(iii) *Income test.* (A) This test is met when:

(1) The absolute value of the registrant's and its other subsidiaries' equity in the tested subsidiary's consolidated income or loss from continuing operations before income taxes (after intercompany eliminations) attributable to the controlling interests exceeds 10 percent of the absolute value of such income or loss of the registrant and its subsidiaries consolidated for the most recently completed fiscal year; and

(2) The registrant's and its other subsidiaries' proportionate share of the tested subsidiary's consolidated total revenue from continuing operations (after intercompany eliminations) exceeds 10 percent of such total revenue of the registrant and its subsidiaries consolidated for the most recently completed fiscal year. This paragraph (w)(1)(iii)(A)(2) does not apply if either the registrant and its subsidiaries consolidated or the tested subsidiary did not have material revenue in each of the two most recently completed fiscal years.

(B) When determining the income component in paragraph (w)(1)(iii)(A)(1) of this section:

(1) If a net loss from continuing operations before income taxes (after intercompany eliminations) attributable to the controlling interest has been incurred by either the registrant and its subsidiaries consolidated or the tested

Securities and Exchange Commission

§ 210.1-02

subsidiary, but not both, exclude the equity in the income or loss from continuing operations before income taxes (after intercompany eliminations) of the tested subsidiary attributable to the controlling interest from such income or loss of the registrant and its subsidiaries consolidated for purposes of the computation;

(2) Compute the test using the average described in this paragraph (w)(1)(iii)(B)(2) if the revenue component in paragraph (w)(1)(iii)(A)(2) of this section does not apply and the absolute value of the registrant's and its subsidiaries' consolidated income or loss from continuing operations before income taxes (after intercompany eliminations) attributable to the controlling interests for the most recent fiscal year is at least 10 percent lower than the average of the absolute value of such amounts for each of its last five fiscal years; and

(3) Entities reporting losses must not be aggregated with entities reporting income where the test involves combined entities, as in the case of determining whether summarized financial data must be presented or whether the aggregate impact specified in §§ 210.3-05(b)(2)(iv) and 210.3-14(b)(2)(i)(C) is met, except when determining whether related businesses meet this test for purposes of §§ 210.3-05 and 210.8-04.

(2) For a registrant that is a registered investment company or a business development company, the term *significant subsidiary* means a subsidiary, including its subsidiaries, which meets any of the following conditions using amounts determined under U.S. GAAP and, if applicable, section 2(a)(41) of the Investment Company Act of 1940 (15 U.S.C. 80a-2(a)(41)):

(i) *Investment test.* The value of the registrant's and its other subsidiaries' investments in and advances to the tested subsidiary exceed 10 percent of the value of the total investments of the registrant and its subsidiaries consolidated as of the end of the most recently completed fiscal year; or

(ii) *Income test.* The absolute value of the sum of combined investment income from dividends, interest, and other income, the net realized gains and losses on investments, and the net change in unrealized gains and losses

on investments from the tested subsidiary (except, for purposes of § 210.6-11, the absolute value of the change in net assets resulting from operations of the tested subsidiary), for the most recently completed fiscal year exceeds:

(A) 80 percent of the absolute value of the change in net assets resulting from operations of the registrant and its subsidiaries consolidated for the most recently completed fiscal year; or

(B) 10 percent of the absolute value of the change in net assets resulting from operations of the registrant and its subsidiaries consolidated for the most recently completed fiscal year and the investment test (paragraph (w)(2)(i) of this section) condition exceeds 5 percent. However, if the absolute value of the change in net assets resulting from operations of the registrant and its subsidiaries consolidated is at least 10 percent lower than the average of the absolute value of such amounts for each of its last five fiscal years, then the registrant may compute both conditions of the income test using the average of the absolute value of such amounts for the registrant and its subsidiaries consolidated for each of its last five fiscal years.

(x) *Subsidiary.* A subsidiary of a specified person is an affiliate controlled by such person directly, or indirectly through one or more intermediaries.

(y) *Totally held subsidiary.* The term *totally held subsidiary* means a subsidiary (1) substantially all of whose outstanding equity securities are owned by its parent and/or the parent's other totally held subsidiaries, and (2) which is not indebted to any person other than its parent and/or the parent's other totally held subsidiaries, in an amount which is material in relation to the particular subsidiary, excepting indebtedness incurred in the ordinary course of business which is not overdue and which matures within 1 year from the date of its creation, whether evidenced by securities or not. Indebtedness of a subsidiary which is secured by its parent by guarantee, pledge, assignment, or otherwise is to be excluded for purposes of paragraph (x)(2) of this section.

(z) *Voting shares.* The term *voting shares* means the sum of all rights,

§ 210.1-02

17 CFR Ch. II (4-1-25 Edition)

other than as affected by events of default, to vote for election of directors and/or the sum of all interests in an unincorporated person.

(aa) *Wholly owned subsidiary.* The term *wholly owned subsidiary* means a subsidiary substantially all of whose outstanding voting shares are owned by its parent and/or the parent's other wholly owned subsidiaries.

(bb) *Summarized financial information.* (1) Except as provided in paragraph (bb)(2) of this section, *summarized financial information* referred to in this

part shall mean the presentation of summarized information as to the assets, liabilities and results of operations of the entity for which the information is required. Summarized financial information shall include the following disclosures, which may be subject to appropriate variation to conform to the nature of the entity's business:

(i) Current assets, noncurrent assets, current liabilities, noncurrent liabilities, and, when applicable, redeemable preferred stocks (see § 210.5-02.27) and noncontrolling interests (for specialized industries in which classified balance sheets are normally not presented, information shall be provided as to the nature and amount of the majority components of assets and liabilities);

(ii) Net sales or gross revenues, gross profit (or, alternatively, costs and expenses applicable to net sales or gross revenues), income or loss from continuing operations, net income or loss, and net income or loss attributable to the entity (for specialized industries, other information may be substituted for sales and related costs and expenses if necessary for a more meaningful presentation); and

(2) Summarized financial information for unconsolidated subsidiaries and 50 percent or less owned persons referred to in and required by § 210.10-01(b) for interim periods shall include the information required by paragraph (bb)(1)(ii) of this section.

(cc) *Statement(s) of comprehensive income.* The term *statement(s) of comprehensive income* means a financial statement that includes all changes in equity during a period except those resulting from investments by owners

and distributions to owners. Comprehensive income comprises all components of net income and all components of other comprehensive income. The statement of comprehensive income may be presented either in a single continuous financial statement or in two separate but consecutive financial statements. A statement(s) of operations or variations thereof may be used in place of a statement(s) of comprehensive income if there was no other comprehensive income during the period(s).

(dd) *Restricted net assets.* The term *restricted net assets* shall mean that amount of the registrant's proportionate share of net assets of consolidated subsidiaries (after intercompany eliminations) which as of the end of the most recent fiscal year may not be transferred to the parent company by subsidiaries in the form of loans, advances or cash dividends without the consent of a third party (*i.e.*, lender, regulatory agency, foreign government, etc.). Not all limitations on transferability of assets are considered to be restrictions for purposes of this rule, which considers only specific third party restrictions on the ability of subsidiaries to transfer funds outside of the entity. For example, the presence of subsidiary debt which is secured by certain of the subsidiary's assets does not constitute a restriction under this rule. However, if there are any loan provisions prohibiting dividend payments, loans or advances to the parent by a subsidiary, these are considered restrictions for purposes of computing restricted net assets. When a loan agreement requires that a subsidiary maintain certain working capital, net tangible asset, or net asset levels, or where formal compensating arrangements exist, there is considered to be a restriction under the rule because the lender's intent is normally to preclude the transfer by dividend or otherwise of funds to the parent company. Similarly, a provision which requires that a subsidiary reinvest all of its earnings is a restriction, since this precludes loans, advances or dividends in the amount of such undistributed earnings by the entity. Where restrictions on the amount of funds which may be loaned or advanced differ from

Securities and Exchange Commission

§ 210.2-01

the amount restricted as to transfer in the form of cash dividends, the amount least restrictive to the subsidiary shall be used. Redeemable preferred stocks (§ 210.5-02.27) and noncontrolling interests shall be deducted in computing net assets for purposes of this test.

QUALIFICATIONS AND REPORTS OF ACCOUNTANTS

SOURCE: Sections 210.2-01 through 210.2-05 appear at 37 FR 14594, July 21, 1972, unless otherwise noted.

§ 210.2-01 Qualifications of accountants.

Section 210.2-01 is designed to ensure that auditors are qualified and independent of their audit clients both in fact and in appearance. Accordingly, the rule sets forth restrictions on financial, employment, and business relationships between an accountant and an audit client and restrictions on an accountant providing certain non-audit services to an audit client. Section 210.2-01(b) sets forth the general standard of auditor independence. Paragraphs (c)(1) through (c)(5) of this section reflect the application of the general standard to particular circumstances. The rule does not purport to, and the Commission could not, consider all circumstances that raise independence concerns, and these are subject to the general standard in § 210.2-01(b). In considering this standard, the Commission looks in the first instance to whether a relationship or the provision of a service: Creates a mutual or conflicting interest between the accountant and the audit client; places the accountant in the position of auditing his or her own work; results in the accountant acting as management or an employee of the audit client; or places the accountant in a position of being an advocate for the audit client. These factors are general guidance only, and their application may depend on particular facts and circumstances. For that reason, § 210.2-01(b) provides

that, in determining whether an accountant is independent, the Commission will consider all relevant facts and circumstances. For the same reason, registrants and accountants are encouraged to consult with the Commission's Office of the Chief Accountant before entering into relationships, including relationships involving the provision of services that are not explicitly described in the rule.

(a) The Commission will not recognize any person as a certified public accountant who is not duly registered and in good standing as such under the laws of the place of his residence or principal office. The Commission will not recognize any person as a public accountant who is not in good standing and entitled to practice as such under the laws of the place of his residence or principal office.

(b) The Commission will not recognize an accountant as independent, with respect to an audit client, if the accountant is not, or a reasonable investor with knowledge of all relevant facts and circumstances would conclude that the accountant is not, capable of exercising objective and impartial judgment on all issues encompassed within the accountant's engagement. In determining whether an accountant is independent, the Commission will consider all relevant circumstances, including all relationships between the accountant and the audit client, and not just those relating to reports filed with the Commission.

(c) This paragraph sets forth a non-exclusive specification of circumstances inconsistent with paragraph (b) of this section.

(1) *Financial relationships.* An accountant is not independent if, at any point during the audit and professional engagement period, the accountant has a direct financial interest or a material indirect financial interest in the accountant's audit client, such as:

(i) *Investments in audit clients.* An accountant is not independent when:

(A) The accounting firm, any covered person in the firm, or any of his or her immediate family members, has any direct investment in an audit client, such as stocks, bonds, notes, options, or other securities. The term *direct investment* includes an investment in an

§ 210.2-01

audit client through an intermediary if:

(1) The accounting firm, covered person, or immediate family member, alone or together with other persons, supervises or participates in the intermediary's investment decisions or has control over the intermediary; or

(2) The intermediary is not a diversified management investment company, as defined by section 5(b)(1) of the Investment Company Act of 1940, 15 U.S.C. 80a-5(b)(1), and has an investment in the audit client that amounts to 20% or more of the value of the intermediary's total investments.

(B) Any partner, principal, shareholder, or professional employee of the accounting firm, any of his or her immediate family members, any close family member of a covered person in the firm, or any group of the above persons has filed a Schedule 13D or 13G (17 CFR 240.13d-101 or 240.13d-102) with the Commission indicating beneficial ownership of more than five percent of an audit client's equity securities or controls an audit client, or a close family member of a partner, principal, or shareholder of the accounting firm controls an audit client.

(C) The accounting firm, any covered person in the firm, or any of his or her immediate family members, serves as voting trustee of a trust, or executor of an estate, containing the securities of an audit client, unless the accounting firm, covered person in the firm, or immediate family member has no authority to make investment decisions for the trust or estate.

(D) The accounting firm, any covered person in the firm, any of his or her immediate family members, or any group of the above persons has any material indirect investment in an audit client. For purposes of this paragraph, the term *material indirect investment* does not include ownership by any covered person in the firm, any of his or her immediate family members, or any group of the above persons of 5% or less of the outstanding shares of a diversified management investment company, as defined by section 5(b)(1) of the Investment Company Act of 1940, 15 U.S.C. 80a-5(b)(1), that invests in an audit client.

17 CFR Ch. II (4-1-25 Edition)

(E) The accounting firm, any covered person in the firm, or any of his or her immediate family members:

(1) Has any direct or material indirect investment in an entity where:

(i) An audit client has an investment in that entity that is material to the audit client and has the ability to exercise significant influence over that entity; or

(ii) The entity has an investment in an audit client that is material to that entity and has the ability to exercise significant influence over that audit client;

(2) Has any material investment in an entity over which an audit client has the ability to exercise significant influence; or

(3) Has the ability to exercise significant influence over an entity that has the ability to exercise significant influence over an audit client.

(ii) *Other financial interests in audit client.* An accountant is not independent when the accounting firm, any covered person in the firm, or any of his or her immediate family members has:

(A) *Loans/debtor-creditor relationship.*

(1) Any loan (including any margin loan) to or from an audit client, an audit client's officers or directors that have the ability to affect decision-making at the entity under audit, or beneficial owners (known through reasonable inquiry) of the audit client's equity securities where such beneficial owner has significant influence over the entity under audit. The following loans obtained from a financial institution under its normal lending procedures, terms, and requirements are excepted from this paragraph (c)(1)(ii)(A)(I):

(i) Automobile loans and leases collateralized by the automobile;

(ii) Loans fully collateralized by the cash surrender value of an insurance policy;

(iii) Loans fully collateralized by cash deposits at the same financial institution;

(iv) Mortgage loans collateralized by the borrower's primary residence provided the loans were not obtained while the covered person in the firm was a covered person; and

Securities and Exchange Commission

§ 210.2-01

(v) Student loans provided the loans were not obtained while the covered person in the firm was a covered person.

(2) For purposes of paragraph (c)(1)(ii)(A) of this section:

(i) The term *audit client* for a fund under audit excludes any other fund that otherwise would be considered an *affiliate of the audit client*;

(ii) The term *fund* means: An investment company or an entity that would be an investment company but for the exclusions provided by Section 3(c) of the Investment Company Act of 1940 (15 U.S.C. 80a-3(c)); or a commodity pool as defined in Section 1a(10) of the U.S. Commodity Exchange Act, as amended [(7 U.S.C. 1-1a(10)], that is not an investment company or an entity that would be an investment company but for the exclusions provided by Section 3(c) of the Investment Company Act of 1940 (15 U.S.C. 80a-3(c)).

(B) *Savings and checking accounts.* Any savings, checking, or similar account at a bank, savings and loan, or similar institution that is an audit client, if the account has a balance that exceeds the amount insured by the Federal Deposit Insurance Corporation or any similar insurer, except that an accounting firm account may have an uninsured balance provided that the likelihood of the bank, savings and loan, or similar institution experiencing financial difficulties is remote.

(C) *Broker-dealer accounts.* Brokerage or similar accounts maintained with a broker-dealer that is an audit client, if:

(1) Any such account includes any asset other than cash or securities (within the meaning of "security" provided in the Securities Investor Protection Act of 1970 ("SIPA") (15 U.S.C. 78aaa *et seq.*));

(2) The value of assets in the accounts exceeds the amount that is subject to a Securities Investor Protection Corporation advance, for those accounts, under Section 9 of SIPA (15 U.S.C. 78fff-3); or

(3) With respect to non-U.S. accounts not subject to SIPA protection, the value of assets in the accounts exceeds the amount insured or protected by a program similar to SIPA.

(D) *Futures commission merchant accounts.* Any futures, commodity, or

similar account maintained with a futures commission merchant that is an audit client.

(E) *Consumer loans.* Any aggregate outstanding consumer loan balance owed to a lender that is an audit client that is not reduced to \$10,000 or less on a current basis taking into consideration the payment due date and any available grace period.

(F) *Insurance products.* Any individual policy issued by an insurer that is an audit client unless:

(1) The policy was obtained at a time when the covered person in the firm was not a covered person in the firm; and

(2) The likelihood of the insurer becoming insolvent is remote.

(G) *Investment companies.* Any financial interest in an entity that is part of an investment company complex that includes an audit client.

(iii) *Exceptions.* Notwithstanding paragraphs (c)(1)(i) and (c)(1)(ii) of this section, an accountant will not be deemed not independent if:

(A) *Inheritance and gift.* Any person acquires an unsolicited financial interest, such as through an unsolicited gift or inheritance, that would cause an accountant to be not independent under paragraph (c)(1)(i) or (c)(1)(ii) of this section, and the financial interest is disposed of as soon as practicable, but no later than 30 days after the person has knowledge of and the right to dispose of the financial interest.

(B) *New audit engagement.* Any person has a financial interest that would cause an accountant to be not independent under paragraph (c)(1)(i) or (c)(1)(ii) of this section, and:

(1) The accountant did not audit the client's financial statements for the immediately preceding fiscal year; and

(2) The accountant is independent under paragraph (c)(1)(i) and (c)(1)(ii) of this section before the earlier of:

(i) Signing an initial engagement letter or other agreement to provide audit, review, or attest services to the audit client; or

(ii) Commencing any audit, review, or attest procedures (including planning the audit of the client's financial statements).

(C) *Employee compensation and benefit plans.* An immediate family member of

§ 210.2-01

17 CFR Ch. II (4-1-25 Edition)

a person who is a covered person in the firm only by virtue of paragraphs (f)(11)(iii) or (f)(11)(iv) of this section has a financial interest that would cause an accountant to be not independent under paragraph (c)(1)(i) or (c)(1)(ii) of this section, and the acquisition of the financial interest was an unavoidable consequence of participation in his or her employer's employee compensation or benefits program, provided that the financial interest, other than unexercised employee stock options, is disposed of as soon as practicable, but no later than 30 days after the person has the right to dispose of the financial interest.

(iv) *Audit clients' financial relationships.* An accountant is not independent when:

(A) *Investments by the audit client in the accounting firm.* An audit client has, or has agreed to acquire, any direct investment in the accounting firm, such as stocks, bonds, notes, options, or other securities, or the audit client's officers or directors are record or beneficial owners of more than 5% of the equity securities of the accounting firm.

(B) *Underwriting.* An accounting firm engages an audit client to act as an underwriter, broker-dealer, market-maker, promoter, or analyst with respect to securities issued by the accounting firm.

(2) *Employment relationships.* An accountant is not independent if, at any point during the audit and professional engagement period, the accountant has an employment relationship with an audit client, such as:

(i) *Employment at audit client of accountant.* A current partner, principal, shareholder, or professional employee of the accounting firm is employed by the audit client or serves as a member of the board of directors or similar management or governing body of the audit client.

(ii) *Employment at audit client of certain relatives of accountant.* A close family member of a covered person in the firm is in an accounting role or financial reporting oversight role at an audit client, or was in such a role during any period covered by an audit for which the covered person in the firm is a covered person.

(iii) *Employment at audit client of former employee of accounting firm.* (A) A former partner, principal, shareholder, or professional employee of an accounting firm is in an accounting role or financial reporting oversight role at an audit client, unless the individual:

(1) Does not influence the accounting firm's operations or financial policies;

(2) Has no capital balances in the accounting firm; and

(3) Has no financial arrangement with the accounting firm other than one providing for regular payment of a fixed dollar amount (which is not dependent on the revenues, profits, or earnings of the accounting firm):

(i) Pursuant to a fully funded retirement plan, rabbi trust, or, in jurisdictions in which a rabbi trust does not exist, a similar vehicle; or

(ii) In the case of a former professional employee who was not a partner, principal, or shareholder of the accounting firm and who has been disassociated from the accounting firm for more than five years, that is immaterial to the former professional employee; and

(B) A former partner, principal, shareholder, or professional employee of an accounting firm is in a financial reporting oversight role at an issuer (as defined in section 10A(f) of the Securities Exchange Act of 1934 (15 U.S.C. 78j-1(f)), except an issuer that is an investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8), unless the individual:

(1) Employed by the issuer was not a member of the audit engagement team of the issuer during the one year period preceding the date that audit procedures commenced for the fiscal period that included the date of initial employment of the audit engagement team member by the issuer;

(2) For purposes of paragraph (c)(2)(iii)(B)(1) of this section, the following individuals are not considered to be members of the audit engagement team:

(i) Persons, other than the lead partner and the Engagement Quality Reviewer, who provided 10 or fewer hours of audit, review, or attest services during the period covered by paragraph (c)(2)(iii)(B)(1) of this section;

Securities and Exchange Commission

§ 210.2-01

(ii) Individuals employed by the issuer as a result of a business combination between an issuer that is an audit client and the employing entity, provided employment was not in contemplation of the business combination and the audit committee of the successor issuer is aware of the prior employment relationship; and

(iii) Individuals that are employed by the issuer due to an emergency or other unusual situation provided that the audit committee determines that the relationship is in the interest of investors;

(3) For purposes of paragraph (c)(2)(iii)(B)(1) of this section, audit procedures are deemed to have commenced for a fiscal period the day following the filing of the issuer's periodic annual report with the Commission covering the previous fiscal period; or

(C) A former partner, principal, shareholder, or professional employee of an accounting firm is in a financial reporting oversight role with respect to an investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8), if:

(1) The former partner, principal, shareholder, or professional employee of an accounting firm is employed in a financial reporting oversight role related to the operations and financial reporting of the registered investment company at an entity in the investment company complex, as defined in (f)(14) of this section, that includes the registered investment company; and

(2) The former partner, principal, shareholder, or professional employee of an accounting firm employed by the registered investment company or any entity in the investment company complex was a member of the audit engagement team of the registered investment company or any other registered investment company in the investment company complex during the one year period preceding the date that audit procedures commenced that included the date of initial employment of the audit engagement team member by the registered investment company or any entity in the investment company complex.

(3) For purposes of paragraph (c)(2)(iii)(C)(2) of this section, the fol-

lowing individuals are not considered to be members of the audit engagement team:

(i) Persons, other than the lead partner and the Engagement Quality Reviewer, who provided 10 or fewer hours of audit, review, or attest services during the period covered by paragraph (c)(2)(iii)(C)(2) of this section;

(ii) Individuals employed by the registered investment company or any entity in the investment company complex as a result of a business combination between a registered investment company or any entity in the investment company complex that is an audit client and the employing entity, provided employment was not in contemplation of the business combination and the audit committee of the registered investment company is aware of the prior employment relationship; and

(iii) Individuals that are employed by the registered investment company or any entity in the investment company complex due to an emergency or other unusual situation provided that the audit committee determines that the relationship is in the interest of investors.

(4) For purposes of paragraph (c)(2)(iii)(C)(2) of this section, audit procedures are deemed to have commenced the day following the filing of the registered investment company's periodic annual report with the Commission.

(iv) *Employment at accounting firm of former employee of audit client.* A former officer, director, or employee of an audit client becomes a partner, principal, shareholder, or professional employee of the accounting firm, unless the individual does not participate in, and is not in a position to influence, the audit of the financial statements of the audit client covering any period during which he or she was employed by or associated with that audit client.

(3) *Business relationships.* An accountant is not independent if, at any point during the audit and professional engagement period, the accounting firm or any covered person in the firm has any direct or material indirect business relationship with an audit client, or with persons associated with the

§ 210.2-01

17 CFR Ch. II (4-1-25 Edition)

audit client in a decision-making capacity, such as an audit client's officers or directors that have the ability to affect decision-making at the entity under audit or beneficial owners (known through reasonable inquiry) of the audit client's equity securities where such beneficial owner has significant influence over the entity under audit. The relationships described in this paragraph (c)(3) do not include a relationship in which the accounting firm or covered person in the firm provides professional services to an audit client or is a consumer in the ordinary course of business.

(4) *Non-audit services.* An accountant is not independent if, at any point during the audit and professional engagement period, the accountant provides the following non-audit services to an audit client:

(i) *Bookkeeping or other services related to the accounting records or financial statements of the audit client.* Any service, unless it is reasonable to conclude that the results of these services will not be subject to audit procedures during an audit of the audit client's financial statements, including:

(A) Maintaining or preparing the audit client's accounting records;

(B) Preparing the audit client's financial statements that are filed with the Commission or that form the basis of financial statements filed with the Commission; or

(C) Preparing or originating source data underlying the audit client's financial statements.

(ii) *Financial information systems design and implementation.* Any service, unless it is reasonable to conclude that the results of these services will not be subject to audit procedures during an audit of the audit client's financial statements, including:

(A) Directly or indirectly operating, or supervising the operation of, the audit client's information system or managing the audit client's local area network; or

(B) Designing or implementing a hardware or software system that aggregates source data underlying the financial statements or generates information that is significant to the audit client's financial statements or other

financial information systems taken as a whole.

(iii) *Appraisal or valuation services, fairness opinions, or contribution-in-kind reports.* Any appraisal service, valuation service, or any service involving a fairness opinion or contribution-in-kind report for an audit client, unless it is reasonable to conclude that the results of these services will not be subject to audit procedures during an audit of the audit client's financial statements.

(iv) *Actuarial services.* Any actuarially-oriented advisory service involving the determination of amounts recorded in the financial statements and related accounts for the audit client other than assisting a client in understanding the methods, models, assumptions, and inputs used in computing an amount, unless it is reasonable to conclude that the results of these services will not be subject to audit procedures during an audit of the audit client's financial statements.

(v) *Internal audit outsourcing services.* Any internal audit service that has been outsourced by the audit client that relates to the audit client's internal accounting controls, financial systems, or financial statements, for an audit client unless it is reasonable to conclude that the results of these services will not be subject to audit procedures during an audit of the audit client's financial statements.

(vi) *Management functions.* Acting, temporarily or permanently, as a director, officer, or employee of an audit client, or performing any decision-making, supervisory, or ongoing monitoring function for the audit client.

(vii) *Human resources.* (A) Searching for or seeking out prospective candidates for managerial, executive, or director positions;

Securities and Exchange Commission

§ 210.2-01

(E) Recommending, or advising the audit client to hire, a specific candidate for a specific job (except that an accounting firm may, upon request by the audit client, interview candidates and advise the audit client on the candidate's competence for financial accounting, administrative, or control positions).

(viii) *Broker-dealer, investment adviser, or investment banking services.* Acting as a broker-dealer (registered or unregistered), promoter, or underwriter, on behalf of an audit client, making investment decisions on behalf of the audit client or otherwise having discretionary authority over an audit client's investments, executing a transaction to buy or sell an audit client's investment, or having custody of assets of the audit client, such as taking temporary possession of securities purchased by the audit client.

(ix) *Legal services.* Providing any service to an audit client that, under circumstances in which the service is provided, could be provided only by someone licensed, admitted, or otherwise qualified to practice law in the jurisdiction in which the service is provided.

(x) *Expert services unrelated to the audit.* Providing an expert opinion or other expert service for an audit client, or an audit client's legal representative, for the purpose of advocating an audit client's interests in litigation or in a regulatory or administrative proceeding or investigation. In any litigation or regulatory or administrative proceeding or investigation, an accountant's independence shall not be deemed to be impaired if the accountant provides factual accounts, including in testimony, of work performed or explains the positions taken or conclusions reached during the performance of any service provided by the accountant for the audit client.

(5) *Contingent fees.* An accountant is not independent if, at any point during the audit and professional engagement period, the accountant provides any service or product to an audit client for a contingent fee or a commission, or receives a contingent fee or commission from an audit client.

(6) *Partner rotation.* (i) Except as provided in paragraph (c)(6)(ii) of this sec-

tion, an accountant is not independent of an audit client when:

(A) Any audit partner as defined in paragraph (f)(7)(ii) of this section performs:

(1) The services of a lead partner, as defined in paragraph (f)(7)(ii)(A) of this section, or Engagement Quality Reviewer, as defined in paragraph (f)(7)(ii)(B) of this section; for more than five consecutive years; or

(2) One or more of the services defined in paragraphs (f)(7)(ii)(C) and (D) of this section for more than seven consecutive years;

(B) Any audit partner:

(1) Within the five consecutive year period following the performance of services for the maximum period permitted under paragraph (c)(6)(i)(A)(1) of this section, performs for that audit client the services of a lead partner, as defined in paragraph (f)(7)(ii)(A) of this section, or Engagement Quality Reviewer, as defined in paragraph (f)(7)(ii)(B) of this section, or a combination of those services; or

(2) Within the two consecutive year period following the performance of services for the maximum period permitted under paragraph (c)(6)(i)(A)(2) of this section, performs one or more of the services defined in paragraph (f)(7)(ii) of this section.

(ii) Any accounting firm with less than five audit clients that are issuers (as defined in section 10A(f) of the Securities Exchange Act of 1934 (15 U.S.C. 78j-1(f))) and less than ten partners shall be exempt from paragraph (c)(6)(i) of this section *provided* the Public Company Accounting Oversight Board conducts a review at least once every three years of each of the audit client engagements that would result in a lack of auditor independence under this paragraph.

(iii) For purposes of paragraph (c)(6)(i) of this section, an audit client that is an investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8), does not include an affiliate of the audit client that is an entity in the same investment company complex, as defined in paragraph (f)(14) of this section, except for another registered investment company in the same investment company complex. For purposes

§210.2-01

17 CFR Ch. II (4-1-25 Edition)

of calculating consecutive years of service under paragraph (c)(6)(i) of this section with respect to investment companies in an investment company complex, audits of registered investment companies with different fiscal year-ends that are performed in a continuous 12-month period count as a single consecutive year.

(7) *Audit committee administration of the engagement.* An accountant is not independent of an issuer (as defined in section 10A(f) of the Securities Exchange Act of 1934 (15 U.S.C. 78j-1(f))), other than an issuer that is an Asset-Backed Issuer as defined in § 229.1101 of this chapter, or an investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8), other than a unit investment trust as defined by section 4(2) of the Investment Company Act of 1940 (15 U.S.C. 80a-4(2)), unless:

(i) In accordance with Section 10A(i) of the Securities Exchange Act of 1934 (15 U.S.C. 78j-1(i)) either:

(A) Before the accountant is engaged by the issuer or its subsidiaries, or the registered investment company or its subsidiaries, to render audit or non-audit services, the engagement is approved by the issuer's or registered investment company's audit committee; or

(B) The engagement to render the service is entered into pursuant to pre-approval policies and procedures established by the audit committee of the issuer or registered investment company, *provided* the policies and procedures are detailed as to the particular service and the audit committee is informed of each service and such policies and procedures do not include delegation of the audit committee's responsibilities under the Securities Exchange Act of 1934 to management; or

(C) With respect to the provision of services other than audit, review or attest services the pre-approval requirement is waived if:

(1) The aggregate amount of all such services provided constitutes no more than five percent of the total amount of revenues paid by the audit client to its accountant during the fiscal year in which the services are provided;

(2) Such services were not recognized by the issuer or registered investment

company at the time of the engagement to be non-audit services; and

(3) Such services are promptly brought to the attention of the audit committee of the issuer or registered investment company and approved prior to the completion of the audit by the audit committee or by one or more members of the audit committee who are members of the board of directors to whom authority to grant such approvals has been delegated by the audit committee.

(ii) A registered investment company's audit committee also must pre-approve its accountant's engagements for non-audit services with the registered investment company's investment adviser (not including a sub-adviser whose role is primarily portfolio management and is sub-contracted or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registered investment company in accordance with paragraph (c)(7)(i) of this section, if the engagement relates directly to the operations and financial reporting of the registered investment company, except that with respect to the waiver of the pre-approval requirement under paragraph (c)(7)(i)(C) of this section, the aggregate amount of all services provided constitutes no more than five percent of the total amount of revenues paid to the registered investment company's accountant by the registered investment company, its investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registered investment company during the fiscal year in which the services are provided that would have to be pre-approved by the registered investment company's audit committee pursuant to this section.

(8) *Compensation.* An accountant is not independent of an audit client if, at any point during the audit and professional engagement period, any audit partner earns or receives compensation based on the audit partner procuring engagements with that audit client to provide any products or services other than audit, review or attest services.

Securities and Exchange Commission

§ 210.2-01

Any accounting firm with fewer than ten partners and fewer than five audit clients that are issuers (as defined in section 10A(f) of the Securities Exchange Act of 1934 (15 U.S.C. 78j-1(f))) shall be exempt from the requirement stated in the previous sentence.

(d) *Quality controls.* An accounting firm's independence will not be impaired solely because a covered person in the firm is not independent of an audit client provided:

(1) The covered person did not know of the circumstances giving rise to the lack of independence;

(2) The covered person's lack of independence was corrected as promptly as possible under the relevant circumstances after the covered person or accounting firm became aware of it; and

(3) The accounting firm has a quality control system in place that provides reasonable assurance, taking into account the size and nature of the accounting firm's practice, that the accounting firm and its employees do not lack independence, and that covers at least all employees and associated entities of the accounting firm participating in the engagement, including employees and associated entities located outside of the United States.

(4) For an accounting firm that annually provides audit, review, or attest services to more than 500 companies with a class of securities registered with the Commission under section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78l), a quality control system will not provide such reasonable assurance unless it has at least the following features:

(i) Written independence policies and procedures;

(ii) With respect to partners and managerial employees, an automated system to identify their investments in securities that might impair the accountant's independence;

(iii) With respect to all professionals, a system that provides timely information about entities from which the accountant is required to maintain independence;

(iv) An annual or on-going firm-wide training program about auditor independence;

(v) An annual internal inspection and testing program to monitor adherence to independence requirements;

(vi) Notification to all accounting firm members, officers, directors, and employees of the name and title of the member of senior management responsible for compliance with auditor independence requirements;

(vii) Written policies and procedures requiring all partners and covered persons to report promptly to the accounting firm when they are engaged in employment negotiations with an audit client, and requiring the firm to remove immediately any such professional from that audit client's engagement and to review promptly all work the professional performed related to that audit client's engagement; and

(viii) A disciplinary mechanism to ensure compliance with this section.

(e) *Transition provisions for mergers and acquisitions involving audit clients.* An accounting firm's independence will not be impaired because an audit client engages in a merger or acquisition that gives rise to a relationship or service that is inconsistent with this rule, provided that:

(1) The accounting firm is in compliance with the applicable independence standards related to such services or relationships when the services or relationships originated and throughout the period in which the applicable independence standards apply;

(2) The accounting firm has or will address such services or relationships promptly under relevant circumstances as a result of the occurrence of the merger or acquisition;

(3) The accounting firm has in place a quality control system as described in paragraph (d)(3) of this section that has the following features:

(i) Procedures and controls that monitor the audit client's merger and acquisition activity to provide timely notice of a merger or acquisition; and

(ii) Procedures and controls that allow for prompt identification of such services or relationships after initial notification of a potential merger or acquisition that may trigger independence violations, but before the effective date of the transaction.

(A) The professional engagement period begins when the accountant either signs an initial engagement letter (or other agreement to review or audit a client's financial statements) or begins audit, review, or attest procedures, whichever is earlier; and

(iii) The "audit and professional engagement period" does not include periods ended prior to the first day of the last fiscal year before the issuer first filed, or was required to file, a registration statement or report with the Commission, provided there has been full compliance with applicable independence standards in all prior periods covered by any registration statement or report filed with the Commission.

(c) *Opinions to be expressed in accountants' reports.* The accountant's report shall state clearly:

(1) The opinion of the accountant in respect of the financial statements covered by the report and the accounting principles and practices reflected therein; and

Notwithstanding any other Commission rule or regulation, a registrant that cannot obtain an accountants' report that meets the technical requirements of paragraph (a) of this section after reasonable efforts may include in the document a copy of the latest signed and dated accountants' report issued by Andersen for such period in satisfaction of that requirement, if prominent disclosure that the report is a copy of the previously issued Andersen accountants' report and that the report has not been reissued by Andersen is set forth on such copy.

(f) *Attestation report on internal control over financial reporting.* (1) Every registered public accounting firm that issues or prepares an accountant's report for a registrant, other than a registrant that is neither an accelerated filer nor a large accelerated filer (as defined in § 240.12b-2 of this chapter), or is an emerging growth company, as defined in Rule 405 of the Securities Act (§ 230.405 of this chapter) or Rule 12b-2 of the Exchange Act (§ 240.12b-2 of this chapter), or an investment company registered under Section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8), that is included in an annual report required by section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*) containing an assessment by management of the effectiveness of the registrant's internal control over financial reporting must include an attestation report on internal control over financial reporting.

(2) If an attestation report on internal control over financial reporting is included in an annual report required by section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*), it shall clearly state the opinion of the accountant, either unqualified or adverse, as to whether the registrant maintained, in all material respects, effective internal control over financial reporting, except in the rare circumstance of a scope limitation that cannot be overcome by the registrant or the registered public accounting firm which would result in the accounting firm disclaiming an opinion. The attestation report on internal control over financial reporting

If an overall opinion cannot be expressed, explain why.

(c) The instruction in paragraph (b) of this section is also applicable to filings, other than on Form 10-K or Form 10, made after 45 days but within the number of days of the end of the registrant's fiscal year specified in paragraph (i) of this section: *Provided*, that the following conditions are met:

Notwithstanding the requirements of this section, the most recent interim balance sheet included in a filing shall be at least as current as the most recent balance sheet filed with the Commission on Form 10-Q.

(g) For filings by registered management investment companies, the requirements of § 210.3-18 shall apply in lieu of the requirements of this section.

(h) Any foreign private issuer, other than a registered management investment company or an employee plan, may file the financial statements required by Item 8.A of Form 20-F (§ 249.220 of this chapter) in lieu of the financial statements specified in this rule.

(a) The statements required shall be prepared in compliance with the applicable requirements of this regulation.

(b) If the registrant is engaged primarily—

(1) In the generation, transmission or distribution of electricity, the manufacture, mixing, transmission or distribution of gas, the supplying or distribution of water, or the furnishing of telephone or telegraph service; or

(2) In holding securities of companies engaged in such businesses, it may at its option include statements of comprehensive income and cash flows (which may be unaudited) for the twelve-month period ending on the date of the most recent balance sheet being filed, in lieu of the statements of comprehensive income and cash flows for the interim periods specified.

An analysis of the changes in each caption of stockholders' equity and noncontrolling interests presented in the balance sheets shall be given in a note or separate statement. § 210.3-05 Financial statements of businesses acquired or to be acquired.

(a) *Financial statements required.* (1) Financial statements (except the related schedules specified in § 210.12) prepared and audited in accordance with Regulation S-X (including the independence standards in § 210.2-01 or, alternatively if the business is not a registrant, the applicable independence standards) must be filed for the periods specified in paragraph (b) of this sec-

tion if any of the following conditions exist:

(i) During the most recent fiscal year or subsequent interim period for which a balance sheet is required by § 210.3-01, a business acquisition has occurred; or

(ii) After the date of the most recent balance sheet filed pursuant to § 210.3-01, consummation of a business acquisition has occurred or is probable.

(2) For purposes of determining whether the provisions of this section apply:

(i) The determination of whether a *business* has been acquired should be made in accordance with the guidance set forth in § 210.11-01(d); and

(ii) The acquisition of a business encompasses the acquisition of an interest in a business accounted for by the registrant under the equity method or, in lieu of the equity method, the fair value option.

(3) Acquisitions of a group of related businesses that are probable or that have occurred subsequent to the latest fiscal year-end for which audited financial statements of the registrant have been filed must be treated under this section as if they are a single business acquisition. The required financial statements of related businesses may be presented on a combined basis for any periods they are under common control or management. For purposes of this section, businesses will be deemed to be related if:

(i) They are under common control or management;

(ii) The acquisition of one business is conditional on the acquisition of each other business; or

(iii) Each acquisition is conditioned on a single common event.

(4) This section does not apply to a real estate operation subject to § 210.3-14 or a business which is totally held by the registrant prior to consummation of the transaction.

(b) *Periods to be presented.* (1) If registering an offering of securities to the security holders of the business to be acquired, then the financial statements specified in §§ 210.3-01 and 210.3-02 must be filed for the business to be acquired, except as provided otherwise for filings on Form N-14, S-4, or F-4 (§ 239.23, § 239.25, or § 239.34 of this chapter). The financial statements covering fiscal

years must be audited except as provided in Item 14 of Schedule 14A (§ 240.14a-101 of this chapter) with respect to certain proxy statements or in registration statements filed on Forms N-14, S-4, or F-4 (§ 239.23, § 239.25, or § 239.34 of this chapter).

(2) In all cases not specified in paragraph (b)(1) of this section, financial statements of the business acquired or to be acquired must be filed for the periods specified in this paragraph (b)(2) or such shorter period as the business has been in existence. Determine the periods for which such financial statements are to be filed using the conditions specified in the definition of significant subsidiary in § 210.1-02(w), using the lower of the total revenue component or income or loss from continuing operations component for evaluating the income test condition, as follows:

(i) If none of the conditions exceeds 20 percent, financial statements are not required.

(ii) If any of the conditions exceeds 20 percent, but none exceed 40 percent, financial statements must be filed for at least the most recent fiscal year and the most recent interim period specified in §§ 210.3-01 and 210.3-02.

(iii) If any of the conditions exceeds 40 percent, financial statements must be filed for at least the two most recent fiscal years and any interim periods specified in §§ 210.3-01 and 210.3-02.

(iv) If the aggregate impact of businesses acquired or to be acquired since the date of the most recent audited balance sheet filed for the registrant, for which financial statements are either not required by paragraph (b)(2)(i) of this section or are not yet required based on paragraph (b)(4)(i) of this section, exceeds 50 percent for any condition, the registrant must provide the disclosure specified in paragraphs (b)(2)(iv)(A) and (B) of this section, however in determining the aggregate impact of the investment test condition also include the aggregate impact calculated in accordance with § 210.3-14(b)(2)(ii) of any acquired or to be acquired real estate operations specified in § 210.3-14(b)(2)(i)(C). In determining whether the income test condition (*i.e.* both the revenue component and the income or loss from continuing oper-

ations component) exceeds 50 percent, the businesses specified in this paragraph (b)(2)(iv) reporting losses must be aggregated separately from those reporting income. If either group exceeds 50 percent, paragraphs (b)(2)(iv)(A) and (B) of this section will apply to all of the businesses specified in this paragraph (b)(2)(iv) and will not be limited to either the businesses with losses or those with income.

(A) Pro forma financial information pursuant to §§ 210.11-01 through 210.11-02 that depicts the aggregate impact of these acquired or to be acquired businesses and real estate operations, in all material respects; and

(B) Financial statements covering at least the most recent fiscal year and the most recent interim period specified in §§ 210.3-01 and 210.3-02 for any acquired or to be acquired business or real estate operation for which financial statements are not yet required based on paragraph (b)(4)(i) of this section or § 210.3-14(b)(3)(i).

(3) The determination must be made using § 210.11-01(b)(3) and (4).

(4) Financial statements required for the periods specified in paragraph (b)(2) of this section may be omitted to the extent specified as follows:

(i) Registration statements not subject to the provisions of § 230.419 of this chapter and proxy statements need not include separate financial statements of an acquired or to be acquired business if neither the business nor the aggregate impact specified in paragraph (b)(2)(iv) of this section exceeds any of the conditions of significance in the definition of significant subsidiary in § 210.1-02 at the 50 percent level computed in accordance with paragraph (b)(3) of this section, and either:

(A) The consummation of the acquisition has not yet occurred; or

(B) The date of the final prospectus or prospectus supplement relating to an offering as filed with the Commission pursuant to § 230.424(b) of this chapter, or mailing date in the case of a proxy statement, is no more than 74 days after consummation of the business acquisition, and the financial statements have not previously been filed by the registrant.

(ii) A registrant, other than a foreign private issuer required to file reports

§ 210.3-05

17 CFR Ch. II (4-1-25 Edition)

on Form 6-K (§ 249.306 of this chapter) or a shell company (other than a business combination related shell company), that omits from its initial registration statement financial statements of a recently consummated business acquisition pursuant to paragraph (b)(4)(i) of this section must file those financial statements and any pro forma information specified by §§ 210.11-01 through 210.11-03 (Article 11) under cover of Form 8-K (§ 249.308 of this chapter) no later than 75 days after consummation of the acquisition. When a predecessor to a shell company (other than a business combination related shell company) acquires a business and the financial statements of that recently consummated business are omitted from a registration statement or proxy statement pursuant to paragraph (b)(4)(i) of this section, refer to § 210.15-01(d)(2).

(iii) Separate financial statements of the acquired business specified in paragraph (b)(2)(ii) of this section need not be presented once the operating results of the acquired business have been reflected in the audited consolidated financial statements of the registrant for at least nine months. Separate financial statements of the acquired business specified in paragraph (b)(2)(iii) of this section need not be presented once the operating results of the acquired business have been reflected in the audited consolidated financial statements of the registrant for a complete fiscal year.

(iv) A separate audited balance sheet of the acquired business is not required when the registrant's most recent audited balance sheet required by § 210.3-01 is for a date after the date the acquisition was consummated.

(c) *Financial statements of a foreign business.* Financial statements of an acquired or to be acquired foreign business (as defined in § 210.1-02(l)) meeting the requirements of Item 17 of Form 20-F (§ 249.220f of this chapter) will satisfy this section. Such financial statements may be reconciled to U.S. Generally Accepted Accounting Principles (U.S. GAAP) or International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS-IASB) if the registrant is a foreign private issuer that prepares

its financial statements in accordance with IFRS-IASB. This reconciliation must generally follow the form and content requirements in Item 17(c) of Form 20-F; however, accommodations in Item 17(c)(2) of Form 20-F that would be inconsistent with IFRS-IASB may not be applied, and IFRS 1, *First-time Adoption of International Financial Reporting Standards*, may be applied.

(d) *Financial statements of an acquired or to be acquired business that would be a foreign private issuer if it were a registrant.* Financial statements of an acquired or to be acquired business that is not a foreign business (as defined in § 210.1-02(l)), but would qualify as a foreign private issuer (as defined in §§ 230.405 and 240.3b-4 of this chapter) if it were a registrant may be prepared in accordance with IFRS-IASB without reconciliation to U.S. GAAP or, if the registrant is a foreign private issuer that prepares its financial statements in accordance with IFRS-IASB, may be prepared according to a comprehensive basis of accounting principles other than U.S. GAAP or IFRS-IASB and must be reconciled to IFRS-IASB or to U.S. GAAP. This reconciliation must generally follow the form and content requirements in Item 17(c) of Form 20-F; however, accommodations in Item 17(c)(2) of Form 20-F that would be inconsistent with IFRS-IASB may not be applied, and IFRS 1, *First-time Adoption of International Financial Reporting Standards*, may be applied.

(e) *Financial statements for net assets that constitute a business.* For an acquisition of net assets that constitutes a business (e.g., an acquired or to be acquired product line), the financial statements prepared and audited in accordance with Regulation S-X may be abbreviated financial statements prepared in accordance with paragraph (e)(2) of this section if the business meets all of the qualifying conditions in paragraph (e)(1) of this section.

(1) *Qualifying conditions.* (i) The total assets and total revenues (both after intercompany eliminations) of the acquired or to be acquired business constitute 20 percent or less of such corresponding amounts of the seller and its subsidiaries consolidated as of and for the most recently completed fiscal year.

Securities and Exchange Commission

§ 210.3-06

(ii) Separate financial statements for the business have not previously been prepared;

(iii) The acquired business was not a separate entity, subsidiary, operating segment (as defined in U.S. GAAP or IFRS-IASB, as applicable) or division during the periods for which the acquired business financial statements would be required; and

(iv) The seller has not maintained the distinct and separate accounts necessary to present financial statements that, absent this paragraph (e), would satisfy the requirements of this section and it is impracticable to prepare such financial statements.

(2) *Presentation requirements.* (i) The balance sheet may be a statement of assets acquired and liabilities assumed;

(ii) The statement of comprehensive income must include expenses incurred by or on behalf of the acquired business during the pre-acquisition financial statement periods to be presented including, but not limited to, costs of sales or services, selling, distribution, marketing, general and administrative, depreciation and amortization, and research and development, but may otherwise omit corporate overhead expense, interest expense for debt that will not be assumed by the registrant or its subsidiaries consolidated, and income tax expense. The title of the statement of comprehensive income must be appropriately modified to indicate it omits certain expenses; and

(iii) The notes to the financial statements must include:

(A) A description of the type of omitted expenses and the reason(s) why they are excluded from the financial statements.

(B) An explanation of the impracticability of preparing financial statements that include the omitted expenses.

(C) A description of how the financial statements presented are not indicative of the financial condition or results of operations of the acquired business going forward because of the omitted expenses.

(D) Information about the business's operating, investing and financing cash flows, to the extent available.

(f) *Financial statements of a business that includes oil and gas producing activi-*

ties. (1) Disclosures about oil and gas producing activities must be provided for each full year of operations presented for an acquired or to be acquired business that includes significant oil- and gas-producing activities (as defined in the FASB ASC Master Glossary). The financial statements may present the disclosures in FASB ASC Topic 932 *Extractive Activities—Oil and Gas*, 932-235-50-3 through 50-11 and 932-235-50-29 through 50-36 as unaudited supplemental information. If prior year reserve studies were not made, they may be computed using only production and new discovery quantities and valuation, in which case there will be no “revision of prior estimates” amounts. Registrants may develop these disclosures based on a reserve study for the most recent year, computing the changes backward. The method of computation must be disclosed in a footnote.

(2) The financial statements prepared and audited in accordance with Regulation S-X may consist of only statements of revenues and expenses that exclude expenses not comparable to the proposed future operations such as depreciation, depletion and amortization, corporate overhead, income taxes, and interest for debt that will not be assumed by the registrant or its subsidiaries consolidated if:

(i) The acquisition generates substantially all of its revenues from *oil and gas producing activities* (as defined in § 210.4-10(a)(16)); and

(ii) The qualifying conditions specified in paragraph (e)(1) of this section are met.

(3) If the financial statements are presented in accordance with paragraph (f)(2) of this section, the disclosures specified in paragraph (e)(2)(iii) of this section must be provided.

§ 210.3-06 Financial statements covering a period of nine to twelve months.

(a) Except with respect to registered investment companies, the filing of financial statements covering a period of 9 to 12 months will be deemed to satisfy a requirement for filing financial statements for a period of 1 year where:

§§ 210.3-07—210.3-08

- (1) The issuer has changed its fiscal year;
- (2) The issuer has made a significant business acquisition for which financial statements are required under § 210.3-05, § 210.3-14, § 210.8-04, or § 210.8-06 and the financial statements covering the interim period pertain to the business being acquired; or
- (3) The Commission so permits pursuant to § 210.3-13 or § 210.8-01(e).

(b) Where there is a requirement for filing financial statements for a time period exceeding one year but not exceeding three consecutive years (with not more than 12 months included in any period reported upon), the filing of financial statements covering a period of 9 to 12 months will satisfy a filing requirement of financial statements for one year of that time period only if the conditions described in paragraph (a)(1), (2), or (3) of this section exist and financial statements are filed that cover the full fiscal year or years for all other years in the time period.

§§ 210.3-07—210.3-08 [Reserved]**§ 210.3-09 Separate financial statements of subsidiaries not consolidated and 50 percent or less owned persons.**

(a) If any of the conditions set forth in § 210.1-02(w), substituting 20 percent for 10 percent in the tests used therein to determine a significant subsidiary, are met for a majority-owned subsidiary not consolidated by the registrant or by a subsidiary of the registrant, separate financial statements of such subsidiary must be filed. Similarly, if either the first or third condition set forth in § 210.1-02(w)(1), substituting 20 percent for 10 percent, is met by a 50 percent or less owned person accounted for by the equity method either by the registrant or a subsidiary of the registrant, separate financial statements of such 50 percent or less owned person must be filed.

(b) Insofar as practicable, the separate financial statements required by this section shall be as of the same dates and for the same periods as the audited consolidated financial statements required by §§ 210.3-01 and 3-02. However, these separate financial

statements are required to be audited only for those fiscal years in which either the first or third condition set forth in § 210.1-02(w), substituting 20 percent for 10 percent, is met. For purposes of a filing on Form 10-K (§ 249.310 of this chapter):

(2) If the fiscal year of any 50 percent or less owned person ends within the *registrant's number of filing days* before the date of the filing, or if the fiscal year ends after the date of the filing, the required financial statements may be filed as an amendment to the report within the *subsidiary's number of filing days*, or within six months if the 50 percent or less owned person is a foreign business, after the end of such subsidiary's or person's fiscal year.

(ii) 75 days if the 50 percent or less owned person is an accelerated filer; and

(iii) 90 days for all other 50 percent or less owned persons.

(1) The guaranteed security is debt or debt-like; and

(i) The parent company issues the security or co-issues the security, jointly and severally, with one or more of its consolidated subsidiaries; or

(ii) A consolidated subsidiary issues the security or co-issues the security with one or more other consolidated subsidiaries of the parent company, and the security is guaranteed fully and unconditionally by the parent company; and

(2) The parent company provides the disclosures specified in § 210.13-01.

(b) For the purposes of this section and § 210.13-01:

(1) The "parent company" is the entity that:

(i) Is an issuer or guarantor of the guaranteed security;

(ii) Is, or as a result of the subject Securities Act registration statement

will be, an Exchange Act reporting company; and

(iii) Consolidates each subsidiary issuer and/or subsidiary guarantor of the guaranteed security in its consolidated financial statements.

(2) A security is "debt or debt-like" if it has the following characteristics:

(i) The issuer has a contractual obligation to pay a fixed sum at a fixed time; and

(ii) Where the obligation to make such payments is cumulative, a set amount of interest must be paid.

Note 1 to paragraph (b)(2). Neither the form of the security nor its title will determine whether a security is debt or debt-like. Instead, the substance of the obligation created by the security will be determinative.

Note 2 to paragraph (b)(2). The phrase "set amount of interest" is not intended to mean "fixed amount of interest." Floating and adjustable rate securities, as well as indexed securities, may meet the criteria specified in paragraph (b)(2)(ii) of this section as long as the payment obligation is set in the debt instrument and can be determined from objective indices or other factors that are outside the discretion of the obligor.

(3) A guaranteee is "full and unconditional," if, when an issuer of a guaranteed security has failed to make a scheduled payment, the guarantor is obligated to make the scheduled payment immediately and, if it does not, any holder of the guaranteed security may immediately bring suit directly against the guarantor for payment of all amounts due and payable.

§ 210.3-11 Financial statements of an inactive registrant.

If a registrant is an inactive entity as defined below, the financial statements required by this regulation for purposes of reports pursuant to the Securities Exchange Act of 1934 may be unaudited. An inactive entity is one meeting all of the following conditions:

(a) Gross receipts from all sources for the fiscal year are not in excess of \$100,000;

(b) The registrant has not purchased or sold any of its own stock, granted

§ 210.3-12

options therefor, or levied assessments upon outstanding stock,

(c) Expenditures for all purposes for the fiscal year are not in excess of \$100,000;

(d) No material change in the business has occurred during the fiscal year, including any bankruptcy, reorganization, readjustment or succession or any material acquisition or disposition of plants, mines, mining equipment, mine rights or leases; and

(e) No exchange upon which the shares are listed, or governmental authority having jurisdiction, requires the furnishing to it or the publication of audited financial statements.

§ 210.3-12 Age of financial statements at effective date of registration statement or at mailing date of proxy statement.

(a) If the financial statements in a filing are as of a date the number of days specified in paragraph (g) of this section or more before the date the filing is expected to become effective, or proposed mailing date in the case of a proxy statement, the financial statements shall be updated, except as specified in the following paragraphs, with a balance sheet as of an interim date within the number of days specified in paragraph (g) of this section and with statements of comprehensive income and cash flows for the interim period between the end of the most recent fiscal year and the date of the interim balance sheet provided and for the corresponding period of the preceding fiscal year. Such interim financial statements may be unaudited and need not be presented in greater detail than is required by § 210.10-01. Notwithstanding the above requirements, the most recent interim financial statements shall be at least as current as the most recent financial statements filed with the Commission on Form 10-Q.

(b) Where the anticipated effective date of a filing, or in the case of a proxy statement the proposed mailing date, falls within the number of days subsequent to the end of the fiscal year specified in paragraph (g) of this section, the filing need not include financial statements more current than as of the end of the third fiscal quarter of the most recently completed fiscal

year unless the audited financial statements for such fiscal year are available or unless the anticipated effective date or proposed mailing date falls after 45 days subsequent to the end of the fiscal year and the registrant does not meet the conditions prescribed under paragraph (c) of § 210.3-01. If the anticipated effective date or proposed mailing date falls after 45 days subsequent to the end of the fiscal year and the registrant does not meet the conditions prescribed under paragraph (c) of § 210.3-01, the filing must include audited financial statements for the most recently completed fiscal year.

(c) Where a filing is made near the end of a fiscal year and audited financial statements for that fiscal year are not included in the filing, the filing shall be updated with such audited financial statements if they become available prior to the anticipated effective date, or proposed mailing date in the case of a proxy statement.

(d) The age of the registrant's most recent audited financial statements included in a registration statement filed under the Securities Act of 1933 or filed on Form 10 (17 CFR 249.210) under the Securities Exchange Act of 1934 shall not be more than one year and 45 days old at the date the registration statement becomes effective if the registration statement relates to the security of an issuer that was not subject, immediately before the time of filing the registration statement, to the reporting requirements of section 13 or 15(d) of the Securities Exchange Act of 1934.

(e) For filings by registered management investment companies, the requirements of § 210.3-18 shall apply in lieu of the requirements of this section.

(f) Any foreign private issuer may file financial statements whose age is specified in Item 8.A of Form 20-F (§ 249.220f of this chapter). Financial statements of a foreign business which are furnished pursuant to § 210.3-05 or § 210.3-09 because it is an acquired business or a 50 percent or less owned person may be of the age specified in Item 8.A of Form 20-F.

§ 210.3-13 Filing of other financial statements in certain cases.

The Commission may, upon the informal written request of the registrant, and where consistent with the protection of investors, permit the omission of one or more of the financial statements herein required or the filing in substitution therefor of appropriate statements of comparable character. The Commission may also by informal written notice require the filing of other financial statements in addition to, or in substitution for, the statements herein required in any case where such statements are necessary or appropriate for an adequate presentation of the financial condition of any person whose financial statements are required, or whose statements are otherwise necessary for the protection of investors.

§ 210.3-14 Special instructions for financial statements of real estate operations acquired or to be acquired.

(a) *Financial statements required.* (1) Financial statements (except the related schedules specified in § 210.12) prepared and audited in accordance with Regulation S-X (including the independence standards in § 210.2-01 or, alternatively if the real estate operation is not a registrant, the applicable independence standards) for the periods specified in paragraph (b) of this section and the supplemental information

specified in paragraph (f) of this section must be filed if any of the following conditions exist:

(i) During the most recent fiscal year or subsequent interim period for which a balance sheet is required by § 210.3-01, an acquisition of a real estate operation has occurred; or

(ii) After the date of the most recent balance sheet filed pursuant to § 210.3-01, consummation of an acquisition of a real estate operation has occurred or is probable.

(2) For purposes of determining whether the provisions of this section apply:

(i) The term *real estate operation* means a business (as set forth in § 210.11-01(d)) that generates substantially all of its revenues through the leasing of real property.

(ii) The acquisition of a real estate operation encompasses the acquisition of an interest in a real estate operation accounted for by the registrant under the equity method or, in lieu of the equity method, the fair value option.

(3) Acquisitions of a group of related real estate operations that are probable or that have occurred subsequent to the latest fiscal year-end for which audited financial statements of the registrant have been filed will be treated under this section as if they are a single acquisition. The required financial statements may be presented on a combined basis for any periods they are under common control or management. For purposes of this section, acquisitions will be deemed to be related if:

(i) They are under common control or management;

(ii) A registrant, other than a foreign private issuer required to file reports on Form 6-K (§ 249.306 of this chapter) or shell company (other than a business combination related shell company), that omits from its initial registration statement financial statements of a recently consummated acquisition of a real estate operation pursuant to paragraph (b)(3)(i) of this section must file those financial statements and any pro forma information specified by §§ 210.11-01 through 210.11-03 (Article 11) under cover of Form 8-K (§ 249.308 of this chapter) no later than 75 days after consummation of the acquisition. When a predecessor to a shell

§ 210.3-14

company (other than a business combination related shell company) acquires a real estate operation and the financial statements of that recently consummated acquisition of a real estate operation are omitted from a registration statement or proxy statement pursuant to paragraph (b)(3)(i) of this section, refer to § 210.15-01(d)(2).

(iii) Each acquisition is conditioned on a single common event.

(4) This section does not apply to a real estate operation that is totally held by the registrant prior to consummation of the transaction.

(b) *Periods to be presented.* (1) If registering an offering of securities to the security holders of the real estate operation to be acquired, then the financial statements specified in paragraph (c) of this section and the supplemental information specified in paragraph (f) of this section must be filed for the real estate operation to be acquired for the periods specified in §§ 210.3-01 and 210.3-02, except as provided otherwise for filings on Form S-4 or F-4 (§ 239.25 or § 239.34 of this chapter). The financial statements covering fiscal years must be audited except as provided in Item 14 of Schedule 14A (§ 240.14a-101 of this chapter) with respect to certain proxy statements or in registration statements filed on Form S-4 or F-4 (§ 239.25 or § 239.34 of this chapter).

(2) In all cases not specified in paragraph (b)(1) of this section, financial statements of the real estate operation acquired or to be acquired must be filed for the periods specified in this paragraph (b)(2) or such shorter period as the real estate operation has been in existence. The periods for which such financial statements are to be filed must be determined using the investment test condition specified in the definition of significant subsidiary in § 210.1-02(w)(1)(i) modified as follows:

(i)(A) If the condition does not exceed 20 percent, financial statements are not required.

(B) If the condition exceeds 20 percent, financial statements of the real estate operation for at least the most recent fiscal year and the most recent interim period specified in §§ 210.3-01 and 210.3-02 must be filed.

(C) If the aggregate impact of acquired or to be acquired real estate op-

erations since the date of the most recent audited balance sheet filed for the registrant, for which financial statements are either not required by paragraph (b)(2)(i)(A) of this section or are not yet required based on paragraph (b)(3)(i) of this section, exceeds 50 percent, the registrant must provide the disclosures specified in paragraphs (b)(2)(i)(C)(1) and (b)(2)(i)(C)(2) of this section. If there are also businesses acquired or to be acquired as described in § 210.3-05(b)(2)(iv), the requirements in § 210.3-05(b)(2)(iv) will apply instead.

(1) Pro forma financial information pursuant to §§ 210.11-01 through 210.11-02 that depicts the aggregate impact of these acquired or to be acquired real estate operations in all material respects; and

(2) Financial statements covering at least the most recent fiscal year and the most recent interim period specified in §§ 210.3-01 and 210.3-02 for any acquired or to be acquired real estate operation for which financial statements are not yet required based on paragraph (b)(3)(i) of this section.

(ii) When the investment test is based on the total assets of the registrant and its subsidiaries consolidated, include any assumed debt secured by the real properties in the "investments in" the tested real estate operation.

(iii) The determination must be made using § 210.11-01(b)(3) and (4).

(3) Financial statements required for the periods specified in paragraph (b)(2) of this section may be omitted to the extent specified as follows:

(i) Registration statements not subject to the provisions of § 230.419 of this chapter and proxy statements need not include separate financial statements of the acquired or to be acquired real estate operation if neither the real estate operation nor the aggregate impact specified in paragraph (b)(2)(i)(C) of this section exceeds the condition of significance in the definition of significant subsidiary in § 210.1-02(w)(1)(i), as modified by paragraphs (b)(2)(ii) and (iii) of this section, at the 50 percent level computed in accordance with paragraph (b)(2) of this section, and either:

(A) The consummation of the acquisition has not yet occurred; or

Securities and Exchange Commission**§ 210.3-14**

(B) The date of the final prospectus or prospectus supplement relating to an offering as filed with the Commission pursuant to § 230.424(b) of this chapter, or mailing date in the case of a proxy statement, is no more than 74 days after consummation of the acquisition of the real estate operation, and the financial statements have not previously been filed by the registrant.

(ii) A registrant, other than a foreign private issuer required to file reports on Form 6-K (§ 249.306 of this chapter), that omits from its initial registration statement financial statements of a recently consummated acquisition of a real estate operation pursuant to paragraph (b)(3)(i) of this section must file those financial statements and any pro forma information specified by §§ 210.11-01 through 210.11-03 (Article 11) under cover of Form 8-K (§ 249.308 of this chapter) no later than 75 days after consummation of the acquisition.

(iii) Separate financial statements of the acquired real estate operation specified in paragraph (b)(2)(i)(B) of this section need not be presented once the operating results of the acquired real estate operation have been reflected in the audited consolidated financial statements of the registrant for at least nine months.

(c) *Presentation of the financial statements.* (1) The financial statements prepared and audited in accordance with Regulation S-X may be only statements of revenues and expenses excluding expenses not comparable to the proposed future operations such as mortgage interest, leasehold rental, depreciation, amortization, corporate overhead and income taxes.

(2) The notes to the financial statements must include the following disclosures:

(i) The type of omitted expenses and the reason(s) why they are excluded from the financial statements;

(ii) A description of how the financial statements presented are not indicative of the results of operations of the acquired real estate operation going forward because of the omitted expenses; and

(iii) Information about the real estate operation's operating, investing and financing cash flows, to the extent available.

(d) *Financial statements of a foreign real estate operation.* Financial statements of an acquired or to be acquired foreign business (as defined in § 210.1-02(1)) that is a real estate operation, specified in paragraph (c) of this section and meeting the requirements of Item 17 of Form 20-F (§ 249.220f of this chapter), will satisfy this section. Such financial statements may be reconciled to U.S. Generally Accepted Accounting Principles (U.S. GAAP) or International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS-IASB) if the registrant is a foreign private issuer that prepares its financial statements in accordance with IFRS-IASB. This reconciliation must generally follow the form and content requirements in Item 17(c) of Form 20-F; however, accommodations in Item 17(c)(2) of Form 20-F that would be inconsistent with IFRS-IASB may not be applied, and IFRS 1, *First-time Adoption of International Financial Reporting Standards*, may be applied.

(e) *Financial statements of an acquired or to be acquired real estate operation that would be a foreign private issuer if it were a registrant.* Financial statements of an acquired or to be acquired real estate operation that is not a foreign business (as defined in § 210.1-02(1)), but would qualify as a foreign private issuer (as defined in §§ 230.405 and 240.3b-4 of this chapter) if it were a registrant, may be prepared in accordance with IFRS-IASB without reconciliation to U.S. GAAP or, if the registrant is a foreign private issuer that prepares its financial statements in accordance with IFRS-IASB, may be prepared according to a comprehensive basis of accounting principles other than U.S. GAAP or IFRS-IASB and must be reconciled to IFRS-IASB or to U.S. GAAP. This reconciliation must generally follow the form and content requirements in Item 17(c) of Form 20-F; however, accommodations in Item 17(c)(2) of Form 20-F that would be inconsistent with IFRS-IASB may not be applied, and IFRS 1, *First-time Adoption of International Financial Reporting Standards*, may be applied.

(f) *Supplemental information.* For each real estate operation for which financial statements are required to be filed

§ 210.3-15

by paragraphs (b)(2)(i)(B) and (b)(2)(i)(C)(2) of this section, material factors considered by the registrant in assessing the real estate operation must be described with specificity in the filing, including sources of revenue (including, but not limited to, competition in the rental market, comparative rents, and occupancy rates) and expense (including, but not limited to, utility rates, property tax rates, maintenance expenses, and capital improvements anticipated). The disclosure must also indicate that the registrant is not aware of any other material factors relating to the specific real estate operation that would cause the reported financial statements not to be indicative of future operating results.

Instruction 1 to paragraph (f): When the financial statements are presented in Form S-11 (§ 239.18 of this chapter), the discussion of material factors considered should supplement the disclosures required by Item 15 of Form S-11.

(b) If the filing is made within 60 days after the end of the registrant's fiscal year and audited financial statements for the most recent fiscal year are not available, the balance sheet or statement of assets and liabilities may be as of the end of the preceding fiscal year and the filing shall include an additional balance sheet or statement of assets and liabilities as of an interim date within 245 days of the date of filing. § 210.3-20 Currency for financial statements.

(a)(1) A foreign private issuer, as defined in § 230.405 of this chapter, shall state amounts in its primary financial statements in the currency which it deems appropriate.

(2) An issuer that is not a foreign private issuer shall present its financial statements in U.S. dollars.

(b)(1) The currency in which amounts in the financial statements are stated shall be disclosed prominently on the face of the financial statements. If dividends on publicly-held equity securities will be declared in a currency other than the reporting currency, a note to the financial statements shall identify that currency. If there are material exchange restrictions or controls relating to the issuer's reporting currency, the currency of the issuer's domicile, or the currency in which the issuer will pay dividends, prominent disclosure of this fact shall be made in

§ 210.3A-01**17 CFR Ch. II (4-1-25 Edition)**

the financial statements. If the reporting currency is not the U.S. dollar, dollar-equivalent financial statements or convenience translations shall not be presented, except a translation may be presented of the most recent fiscal year and any subsequent interim period presented using the exchange rate as of the most recent balance sheet included in the filing, except that a rate as of the most recent practicable date shall be used if materially different.

(2) If there are material exchange restrictions or controls relating to the currency of a subsidiary's domicile, the currency held by a subsidiary, or the currency in which a subsidiary will pay dividends or transfer funds to the issuer or other subsidiaries, prominent disclosure of this fact shall be made in the financial statements.

(c) If the financial statements of a foreign private issuer are stated in a currency of a country that has experienced cumulative inflationary effects exceeding a total of 100 percent over the most recent three year period, and have not been recast or otherwise supplemented to include information on a historical cost/constant currency or current cost basis prescribed or permitted by appropriate authoritative standards, the issuer shall present supplementary information to quantify the effects of changing prices upon its financial position and results of operations.

(d) Notwithstanding the currency used for reporting purposes, the issuer shall measure separately its own transactions, and those of each of its material operations (e.g., branches, divisions, subsidiaries, joint ventures, and similar entities) that is included in the issuer's consolidated financial statements and not located in a hyperinflationary environment, using the particular currency of the primary economic environment in which the issuer or the operation conducts its business. Assets and liabilities so determined shall be translated into the reporting currency at the exchange rate at the balance sheet date; all revenues, expenses, gains, and losses shall be translated at the exchange rate existing at the time of the transaction or, if appropriate, a weighted average of the exchange rates during the pe-

riod; and all translation effects of exchange rate changes shall be included as a separate component ("cumulative translation adjustment") of shareholder's equity. For purposes of this paragraph, the currency of an operation's primary economic environment is normally the currency in which cash is primarily generated and expended; a hyperinflationary environment is one that has cumulative inflation of approximately 100% or more over the most recent three year period. Departures from the methodology presented in this paragraph shall be quantified pursuant to Item 17(c)(2) of Form 20-F (\$249.220f of this chapter).

(e) The issuer shall state its primary financial statements in the same currency for all periods for which financial information is presented. If the financial statements are stated in a currency that is different from that used in financial statements previously filed with the Commission, the issuer shall recast its financial statements as if the newly adopted currency had been used since at least the earliest period presented in the filing. The decision to change and the reason for the change in the reporting currency shall be disclosed in a note to the financial statements in the period in which the change occurs.

CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**§ 210.3A-01 [Reserved]****§ 210.3A-02 Consolidated financial statements of the registrant and its subsidiaries.**

In deciding upon consolidation policy, the registrant must consider what financial presentation is most meaningful in the circumstances and should follow in the consolidated financial statements principles of inclusion or exclusion which will clearly exhibit the financial position and results of operations of the registrant. There is a presumption that consolidated financial statements are more meaningful than separate financial statements and that they are usually necessary for a fair presentation when one entity directly

Securities and Exchange Commission

§ 210.4-01

or indirectly has a controlling financial interest in another entity. Other particular facts and circumstances may require combined financial statements, an equity method of accounting, or valuation allowances in order to achieve a fair presentation.

(a) *Majority ownership*: Among the factors that the registrant should consider in determining the most meaningful presentation is majority ownership. Generally, registrants shall consolidate entities that are majority owned and shall not consolidate entities that are not majority owned. The determination of *majority ownership* requires a careful analysis of the facts and circumstances of a particular relationship among entities. In rare situations, consolidation of a majority owned subsidiary may not result in a fair presentation, because the registrant, in substance, does not have a controlling financial interest (for example, when the subsidiary is in legal reorganization or in bankruptcy). In other situations, consolidation of an entity, notwithstanding the lack of technical majority ownership, is necessary to present fairly the financial position and results of operations of the registrant, because of the existence of a parent-subsidiary relationship by means other than record ownership of voting stock.

(2) In all filings of foreign private issuers (see § 230.405 of this chapter), except as stated otherwise in the applicable form, the financial statements may be prepared according to a comprehensive set of accounting principles, other than those generally accepted in the United States or International Financial Reporting Standards as issued by the International Accounting Standards Board, if a reconciliation to U.S. Generally Accepted Accounting Principles and the provisions of Regulation S-X of the type specified in Item 18 of Form 20-F (§ 249.220f of this chapter) is also filed as part of the financial statements. Alternatively, the financial statements may be prepared according to U.S. Generally Accepted Accounting Principles or International Financial Reporting Standards as issued by the International Accounting Standards Board.

§ 210.4-02

(b) All money amounts required to be shown in financial statements may be expressed in whole dollars or multiples thereof, as appropriate: *Provided*, That, when stated in other than whole dollars, an indication to that effect is inserted immediately beneath the caption of the statement or schedule, at the top of the money columns, or at an appropriate point in narrative material.

(c) Negative amounts (red figures) shall be shown in a manner which clearly distinguishes the negative attribute. When determining methods of display, consideration should be given to the limitations of reproduction and microfilming processes.

(e) *Restrictions which limit the payment of dividends by the registrant.* (1) Describe the most significant restrictions on the payment of dividends by the registrant, indicating their sources, their pertinent provisions, and the amount of retained earnings or net income restricted or free of restrictions.

(2) Disclose the amount of consolidated retained earnings which represents undistributed earnings of 50 percent or less owned persons accounted for by the equity method.

(3) The disclosures in paragraphs (e)(3)(i) and (ii) of this section shall be provided when material.

(i) Describe the nature of any restrictions on the ability of consolidated subsidiaries and unconsolidated subsidiaries to transfer funds to the registrant in the form of cash dividends, loans or advances (*i.e.*, borrowing arrangements, regulatory restraints, foreign government, etc.).

(ii) Disclose separately the amounts of such restricted net assets for unconsolidated subsidiaries and consolidated subsidiaries as of the end of the most recently completed fiscal year.

(f) *Significant changes in bonds, mortgages and similar debt.* Any significant changes in the authorized amounts of bonds, mortgages and similar debt since the date of the latest balance sheet being filed for a particular person or group shall be stated.

(g) *Summarized financial information of subsidiaries not consolidated and 50 percent or less owned persons.* (1) The summarized information as to assets, liabilities and results of operations as detailed in § 210.1-02(bb) shall be presented in notes to the financial statements on an individual or group basis for:

(i) Subsidiaries not consolidated; or

(ii) For 50 percent or less owned persons accounted for by the equity method by the registrant or by a subsidiary of the registrant, if the criteria in § 210.1-02(w) for a significant subsidiary are met:

(A) Individually by any subsidiary not consolidated or any 50% or less owned person; or

(B) On an aggregated basis by any combination of such subsidiaries and persons.

(2) Summarized financial information shall be presented insofar as is practicable as of the same dates and for the same periods as the audited consolidated financial statements provided and shall include the disclosures prescribed by § 210.1-02(bb). Summarized information of subsidiaries not consolidated shall not be combined for disclosure purposes with the summarized information of 50 percent or less owned persons.

(h) *Income tax expense.* (1) Disclosure shall be made in the statement of comprehensive income, or a note thereto, of the components of income (loss) before income tax expense (benefit) as either domestic or foreign.

NOTE 1 TO PARAGRAPH (h)(1): Amounts applicable to United States Federal income taxes, to foreign income taxes and the other income taxes shall be stated separately for each major component. Amounts applicable to foreign income (loss) and amounts applicable to foreign or other income taxes which are less than five percent of the total of income before taxes or the component of tax expense, respectively, need not be separately disclosed. For purposes of this note, foreign income (loss) is defined as income (loss) generated from a registrant's foreign operations, *i.e.*, operations that are located outside of the registrant's home country.

(2) In the reconciliation between the amount of reported total income tax expense (benefit) and the amount computed by multiplying the income (loss) before tax by the applicable statutory Federal income tax rate, if no individual reconciling item amounts to more than five percent of the amount computed by multiplying the income before tax by the applicable statutory Federal income tax rate, and the total difference to be reconciled is less than five percent of such computed amount, no reconciliation need be provided unless it would be significant in appraising the trend of earnings. Reconciling items that are individually less than five percent of the computed amount may be aggregated in the reconciliation. Where the reporting person is a foreign entity, the income tax rate in that person's country of domicile should normally be used in making the above computation, but different rates should not be used for subsidiaries or other segments of a reporting entity. When the rate used by a reporting person is other than the United States

§ 210.4-08

Federal corporate income tax rate, the rate used and the basis for using such rate shall be disclosed.

(3) [Reserved]

(4) Price at which warrant or right is exercisable.

(i)-(j) [Reserved]

(k) *Related party transactions that affect the financial statements.* (1) Amounts of related party transactions should be stated on the face of the balance sheet, statement of comprehensive income, or statement of cash flows.

(2) In cases where separate financial statements are presented for the registrant, certain investees, or subsidiaries, any intercompany profits or losses resulting from transactions with related parties and the effects thereof shall be disclosed.

(l) [Reserved]

(m) *Repurchase and reverse repurchase agreements*—(1) *Repurchase agreements (assets sold under agreements to repurchase).* (i) If, as of the most recent balance sheet date, the carrying amount (or market value, if higher than the carrying amount or if there is no carrying amount) of the securities or other assets sold under agreements to repurchase (*repurchase agreements*) exceeds 10% of total assets, disclose separately in the balance sheet the aggregate amount of liabilities incurred pursuant to repurchase agreements including accrued interest payable thereon.

(ii)(A) If, as of the most recent balance sheet date, the carrying amount (or market value, if higher than the carrying amount) of securities or other assets sold under repurchase agreements, other than securities or assets specified in paragraph (m)(1)(ii)(B) of this section, exceeds 10% of total assets, disclose in an appropriately captioned footnote containing a tabular presentation, segregated as to type of such securities or assets sold under agreements to repurchase (e.g., U.S. Treasury obligations, U.S. Government agency obligations and loans), the following information as of the balance sheet date for each such agreement or group of agreements (other than agreements involving securities or assets specified in paragraph (m)(1)(ii)(B) of this section) maturing (1) overnight; (2) term up to 30 days; (3) term of 30 to 90

17 CFR Ch. II (4-1-25 Edition)

days; (4) term over 90 days and (5) demand:

(i) The carrying amount and market value of the assets sold under agreement to repurchase, including accrued interest plus any cash or other assets on deposit under the repurchase agreements; and

(ii) The repurchase liability associated with such transaction or group of transactions and the interest rate(s) thereon.

(B) For purposes of paragraph (m)(1)(ii)(A) of this section only, do not include securities or other assets for which unrealized changes in market value are reported in current income or which have been obtained under reverse repurchase agreements.

(iii) If, as of the most recent balance sheet date, the amount at risk under repurchase agreements with any individual counterparty or group of related counterparties exceeds 10% of stockholders' equity (or in the case of investment companies, net asset value), disclose the name of each such counterparty or group of related counterparties, the amount at risk with each, and the weighted average maturity of the repurchase agreements with each. The amount at risk under repurchase agreements is defined as the excess of carrying amount (or market value, if higher than the carrying amount or if there is no carrying amount) of the securities or other assets sold under agreement to repurchase, including accrued interest plus any cash or other assets on deposit to secure the repurchase obligation, over the amount of the repurchase liability (adjusted for accrued interest). (Cash deposits in connection with repurchase agreements shall not be reported as unrestricted cash pursuant to rule 5-02.1.)

(2) *Reverse repurchase agreements (assets purchased under agreements to resell).* (i) If, as of the most recent balance sheet date, the aggregate carrying amount of "reverse repurchase agreements" (securities or other assets purchased under agreements to resell) exceeds 10% of total assets:

(A) Disclose separately such amount in the balance sheet; and

(B) Disclose in an appropriately captioned footnote:

Securities and Exchange Commission

§ 210.4-10

(1) The registrant's policy with regard to taking possession of securities or other assets purchased under agreements to resell; and

(2) Whether or not there are any provisions to ensure that the market value of the underlying assets remains sufficient to protect the registrant in the event of default by the counterparty and if so, the nature of those provisions.

(ii) If, as of the most recent balance sheet date, the amount at risk under reverse repurchase agreements with any individual counterparty or group of related counterparties exceeds 10% of stockholders' equity (or in the case of investment companies, net asset value), disclose the name of each such counterparty or group of related counterparties, the amount at risk with each, and the weighted average maturity of the reverse repurchase agreements with each. The amount at risk under reverse repurchase agreements is defined as the excess of the carrying amount of the reverse repurchase agreements over the market value of assets delivered pursuant to the agreements by the counterparty to the registrant (or to a third party agent that has affirmatively agreed to act on behalf of the registrant) and not returned to the counterparty, except in exchange for their approximate market value in a separate transaction.

(n) *Accounting policies for certain derivative instruments.* Disclosures regarding accounting policies shall include, to the extent material, where in the statement of cash flows derivative financial instruments, and their related gains and losses, as defined by U.S. generally accepted accounting principles, are reported.

§ 210.4-9 [Reserved]

§ 210.4-10 Financial accounting and reporting for oil and gas producing activities pursuant to the Federal securities laws and the Energy Policy and Conservation Act of 1975.

This section prescribes financial accounting and reporting standards for registrants with the Commission engaged in oil and gas producing activities in filings under the Federal securities laws and for the preparation of accounts by persons engaged, in whole or in part, in the production of crude oil or natural gas in the United States, pursuant to section 503 of the Energy Policy and Conservation Act of 1975 (42 U.S.C. 6383) (EPCA) and section 11(c) of the Energy Supply and Environmental Coordination Act of 1974 (15 U.S.C. 796) (ESECA), as amended by section 505 of EPCA. The application of this section to those oil and gas producing operations of companies regulated for rate-making purposes on an individual-company-cost-of-service basis may, however, give appropriate recognition to differences arising because of the effect of the ratemaking process.

Exemption. Any person exempted by the Department of Energy from any record-keeping or reporting requirements pursuant to section 11(c) of ESECA, as amended, is similarly exempted from the related provisions of this section in the preparation of accounts pursuant to EPCA. This exemption does not affect the applicability of this section to filings pursuant to the Federal securities laws.

DEFINITIONS

(a) *Definitions.* The following definitions apply to the terms listed below as they are used in this section:

(1) *Acquisition of properties.* Costs incurred to purchase, lease or otherwise acquire a property, including costs of lease bonuses and options to purchase or lease properties, the portion of costs applicable to minerals when land including mineral rights is purchased in fee, brokers' fees, recording fees, legal costs, and other costs incurred in acquiring properties.

(2) *Analogous reservoir.* Analogous reservoirs, as used in resources assessments, have similar rock and fluid

§ 210.4-10

properties, reservoir conditions (depth, temperature, and pressure) and drive mechanisms, but are typically at a more advanced stage of development than the reservoir of interest and thus may provide concepts to assist in the interpretation of more limited data and estimation of recovery. When used to support proved reserves, an "analogous reservoir" refers to a reservoir that shares the following characteristics with the reservoir of interest:

- (i) Same geological formation (but not necessarily in pressure communication with the reservoir of interest);
- (ii) Same environment of deposition;
- (iii) Similar geological structure; and
- (iv) Same drive mechanism.

Instruction to paragraph (a)(2): Reservoir properties must, in the aggregate, be no more favorable in the analog than in the reservoir of interest.

(3) *Bitumen.* Bitumen, sometimes referred to as natural bitumen, is petroleum in a solid or semi-solid state in natural deposits with a viscosity greater than 10,000 centipoise measured at original temperature in the deposit and atmospheric pressure, on a gas free basis. In its natural state it usually contains sulfur, metals, and other non-hydrocarbons.

(4) *Condensate.* Condensate is a mixture of hydrocarbons that exists in the gaseous phase at original reservoir temperature and pressure, but that, when produced, is in the liquid phase at surface pressure and temperature.

(5) *Deterministic estimate.* The method of estimating reserves or resources is called deterministic when a single value for each parameter (from the geoscience, engineering, or economic data) in the reserves calculation is used in the reserves estimation procedure.

(6) *Developed oil and gas reserves.* Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

- (i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

- (ii) Through installed extraction equipment and infrastructure operational at the time of the reserves esti-

17 CFR Ch. II (4-1-25 Edition)

mate if the extraction is by means not involving a well.

(7) *Development costs.* Costs incurred to obtain access to proved reserves and to provide facilities for extracting, treating, gathering and storing the oil and gas. More specifically, development costs, including depreciation and applicable operating costs of support equipment and facilities and other costs of development activities, are costs incurred to:

- (i) Gain access to and prepare well locations for drilling, including surveying well locations for the purpose of determining specific development drilling sites, clearing ground, draining, road building, and relocating public roads, gas lines, and power lines, to the extent necessary in developing the proved reserves.

- (ii) Drill and equip development wells, development-type stratigraphic test wells, and service wells, including the costs of platforms and of well equipment such as casing, tubing, pumping equipment, and the wellhead assembly.

- (iii) Acquire, construct, and install production facilities such as lease flow lines, separators, treaters, heaters, manifolds, measuring devices, and production storage tanks, natural gas cycling and processing plants, and central utility and waste disposal systems.

- (iv) Provide improved recovery systems.

(8) *Development project.* A development project is the means by which petroleum resources are brought to the status of economically producible. As examples, the development of a single reservoir or field, an incremental development in a producing field, or the integrated development of a group of several fields and associated facilities with a common ownership may constitute a development project.

(9) *Development well.* A well drilled within the proved area of an oil or gas reservoir to the depth of a stratigraphic horizon known to be productive.

(10) *Economically producible.* The term economically producible, as it relates to a resource, means a resource which generates revenue that exceeds, or is reasonably expected to exceed, the costs of the operation. The value of the

Securities and Exchange Commission

§ 210.4-10

products that generate revenue shall be determined at the terminal point of oil and gas producing activities as defined in paragraph (a)(16) of this section.

(11) *Estimated ultimate recovery (EUR).* Estimated ultimate recovery is the sum of reserves remaining as of a given date and cumulative production as of that date.

(12) *Exploration costs.* Costs incurred in identifying areas that may warrant examination and in examining specific areas that are considered to have prospects of containing oil and gas reserves, including costs of drilling exploratory wells and exploratory-type stratigraphic test wells. Exploration costs may be incurred both before acquiring the related property (sometimes referred to in part as prospecting costs) and after acquiring the property. Principal types of exploration costs, which include depreciation and applicable operating costs of support equipment and facilities and other costs of exploration activities, are:

(i) Costs of topographical, geographical and geophysical studies, rights of access to properties to conduct those studies, and salaries and other expenses of geologists, geophysical crews, and others conducting those studies. Collectively, these are sometimes referred to as geological and geophysical or *G&G* costs.

(ii) Costs of carrying and retaining undeveloped properties, such as delay rentals, ad valorem taxes on properties, legal costs for title defense, and the maintenance of land and lease records.

(iii) Dry hole contributions and bottom hole contributions.

(iv) Costs of drilling and equipping exploratory wells.

(v) Costs of drilling exploratory-type stratigraphic test wells.

(13) *Exploratory well.* An exploratory well is a well drilled to find a new field or to find a new reservoir in a field previously found to be productive of oil or gas in another reservoir. Generally, an exploratory well is any well that is not a development well, an extension well, a service well, or a stratigraphic test well as those items are defined in this section.

(14) *Extension well.* An extension well is a well drilled to extend the limits of a known reservoir.

(15) *Field.* An area consisting of a single reservoir or multiple reservoirs all grouped on or related to the same individual geological structural feature and/or stratigraphic condition. There may be two or more reservoirs in a field that are separated vertically by intervening impervious, strata, or laterally by local geologic barriers, or by both. Reservoirs that are associated by being in overlapping or adjacent fields may be treated as a single or common operational field. The geological terms *structural feature* and *stratigraphic condition* are intended to identify localized geological features as opposed to the broader terms of basins, trends, provinces, plays, areas-of-interest, etc.

(16) *Oil and gas producing activities.* (i) Oil and gas producing activities include:

(A) The search for crude oil, including condensate and natural gas liquids, or natural gas ("oil and gas") in their natural states and original locations;

(B) The acquisition of property rights or properties for the purpose of further exploration or for the purpose of removing the oil or gas from such properties;

(C) The construction, drilling, and production activities necessary to retrieve oil and gas from their natural reservoirs, including the acquisition, construction, installation, and maintenance of field gathering and storage systems, such as:

(1) Lifting the oil and gas to the surface; and

(2) Gathering, treating, and field processing (as in the case of processing gas to extract liquid hydrocarbons); and

(D) Extraction of saleable hydrocarbons, in the solid, liquid, or gaseous state, from oil sands, shale, coalbeds, or other nonrenewable natural resources which are intended to be upgraded into synthetic oil or gas, and activities undertaken with a view to such extraction.

Instruction 1 to paragraph (a)(16)(i): The oil and gas production function shall be regarded as ending at a "terminal point", which is the outlet valve on the lease or field

§ 210.4-10

storage tank. If unusual physical or operational circumstances exist, it may be appropriate to regard the terminal point for the production function as:

a. The first point at which oil, gas, or gas liquids, natural or synthetic, are delivered to a main pipeline, a common carrier, a refinery, or a marine terminal; and

b. In the case of natural resources that are intended to be upgraded into synthetic oil or gas, if those natural resources are delivered to a purchaser prior to upgrading, the first point at which the natural resources are delivered to a main pipeline, a common carrier, a refinery, a marine terminal, or a facility which upgrades such natural resources into synthetic oil or gas.

Instruction 2 to paragraph (a)(16)(i): For purposes of this paragraph (a)(16), the term *saleable hydrocarbons* means hydrocarbons that are saleable in the state in which the hydrocarbons are delivered.

(ii) Oil and gas producing activities do not include:

(A) Transporting, refining, or marketing oil and gas;

(B) Processing of produced oil, gas or natural resources that can be upgraded into synthetic oil or gas by a registrant that does not have the legal right to produce or a revenue interest in such production;

(C) Activities relating to the production of natural resources other than oil, gas, or natural resources from which synthetic oil and gas can be extracted; or

(D) Production of geothermal steam.

(17) *Possible reserves.* Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits

17 CFR Ch. II (4-1-25 Edition)

of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

(18) *Probable reserves.* Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.

(i) When deterministic methods are used, it is as likely as not that actual

Securities and Exchange Commission

§ 210.4-10

remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion. Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

(19) *Probabilistic estimate.* The method of estimation of reserves or resources is called probabilistic when the full range of values that could reasonably occur for each unknown parameter (from the geoscience and engineering data) is used to generate a full range of possible outcomes and their associated probabilities of occurrence.

(20) *Production costs.* (i) Costs incurred to operate and maintain wells and related equipment and facilities, including depreciation and applicable operating costs of support equipment and facilities and other costs of operating and maintaining those wells and related equipment and facilities. They become part of the cost of oil and gas produced. Examples of production costs (sometimes called lifting costs) are:

(A) Costs of labor to operate the wells and related equipment and facilities.

(B) Repairs and maintenance.

(C) Materials, supplies, and fuel consumed and supplies utilized in operating the wells and related equipment and facilities.

(D) Property taxes and insurance applicable to proved properties and wells and related equipment and facilities.

(E) *Severance taxes.*

(ii) Some support equipment or facilities may serve two or more oil and gas producing activities and may also serve transportation, refining, and marketing activities. To the extent that the support equipment and facilities are used in oil and gas producing activities, their depreciation and applicable operating costs become exploration, development or production costs, as appropriate. Depreciation, depletion, and amortization of capitalized acquisition, exploration, and development costs are not production costs but also become part of the cost of oil and gas produced along with production (lifting) costs identified above.

(21) *Proved area.* The part of a property to which proved reserves have been specifically attributed.

(22) *Proved oil and gas reserves.* Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well

§ 210.4-10

penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

(23) *Proved properties.* Properties with proved reserves.

(24) *Reasonable certainty.* If deterministic methods are used, reasonable certainty means a high degree of confidence that the quantities will be recovered. If probabilistic methods are used, there should be at least a 90% probability that the quantities actually recovered will equal or exceed the estimate. A high degree of confidence exists if the quantity is much more

17 CFR Ch. II (4-1-25 Edition)

likely to be achieved than not, and, as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.

(25) *Reliable technology.* Reliable technology is a grouping of one or more technologies (including computational methods) that has been field tested and has been demonstrated to provide reasonably certain results with consistency and repeatability in the formation being evaluated or in an analogous formation.

(26) *Reserves.* Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.

NOTE TO PARAGRAPH (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (*i.e.*, absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (*i.e.*, potentially recoverable resources from undiscovered accumulations).

(27) *Reservoir.* A porous and permeable underground formation containing a natural accumulation of producible oil and/or gas that is confined by impermeable rock or water barriers and is individual and separate from other reservoirs.

(28) *Resources.* Resources are quantities of oil and gas estimated to exist in naturally occurring accumulations. A portion of the resources may be estimated to be recoverable, and another

Securities and Exchange Commission

§ 210.4-10

portion may be considered to be unrecoverable. Resources include both discovered and undiscovered accumulations.

(29) *Service well.* A well drilled or completed for the purpose of supporting production in an existing field. Specific purposes of service wells include gas injection, water injection, steam injection, air injection, salt-water disposal, water supply for injection, observation, or injection for in-situ combustion.

(30) *Stratigraphic test well.* A stratigraphic test well is a drilling effort, geologically directed, to obtain information pertaining to a specific geologic condition. Such wells customarily are drilled without the intent of being completed for hydrocarbon production. The classification also includes tests identified as core tests and all types of expendable holes related to hydrocarbon exploration. Stratigraphic tests are classified as "exploratory type" if not drilled in a known area or "development type" if drilled in a known area.

(31) *Undeveloped oil and gas reserves.* Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in para-

graph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

(32) *Unproved properties.* Properties with no proved reserves.

SUCCESSFUL EFFORTS METHOD

(b) A reporting entity that follows the successful efforts method shall comply with the accounting and financial reporting disclosure requirements of FASB ASC Topic 932, *Extractive Activities—Oil and Gas*.

FULL COST METHOD

(c) *Application of the full cost method of accounting.* A reporting entity that follows the full cost method shall apply that method to all of its operations and to the operations of its subsidiaries, as follows:

(1) *Determination of cost centers.* Cost centers shall be established on a country-by-country basis.

(2) *Costs to be capitalized.* All costs associated with property acquisition, exploration, and development activities (as defined in paragraph (a) of this section) shall be capitalized within the appropriate cost center. Any internal costs that are capitalized shall be limited to those costs that can be directly identified with acquisition, exploration, and development activities undertaken by the reporting entity for its own account, and shall not include any costs related to production, general corporate overhead, or similar activities.

(3) *Amortization of capitalized costs.* Capitalized costs within a cost center shall be amortized on the unit-of-production basis using proved oil and gas reserves, as follows:

(i) Costs to be amortized shall include (A) all capitalized costs, less accumulated amortization, other than the cost of properties described in paragraph (ii) below; (B) the estimated future expenditures (based on current costs) to be incurred in developing proved reserves; and (C) estimated dismantlement and abandonment costs, net of estimated salvage values.

(ii) The cost of investments in unproved properties and major development projects may be excluded from capitalized costs to be amortized, subject to the following:

§ 210.4-10

17 CFR Ch. II (4-1-25 Edition)

(A) All costs directly associated with the acquisition and evaluation of unproved properties may be excluded from the amortization computation until it is determined whether or not proved reserves can be assigned to the properties, subject to the following conditions:

(1) Until such a determination is made, the properties shall be assessed at least annually to ascertain whether impairment has occurred. Unevaluated properties whose costs are individually significant shall be assessed individually. Where it is not practicable to individually assess the amount of impairment of properties for which costs are not individually significant, such properties may be grouped for purposes of assessing impairment. Impairment may be estimated by applying factors based on historical experience and other data such as primary lease terms of the properties, average holding periods of unproved properties, and geographic and geologic data to groupings of individually insignificant properties and projects. The amount of impairment assessed under either of these methods shall be added to the costs to be amortized.

(2) The costs of drilling exploratory dry holes shall be included in the amortization base immediately upon determination that the well is dry.

(3) If geological and geophysical costs cannot be directly associated with specific unevaluated properties, they shall be included in the amortization base as incurred. Upon complete evaluation of a property, the total remaining excluded cost (net of any impairment) shall be included in the full cost amortization base.

(B) Certain costs may be excluded from amortization when incurred in connection with major development projects expected to entail significant costs to ascertain the quantities of proved reserves attributable to the properties under development (e.g., the installation of an offshore drilling platform from which development wells are to be drilled, the installation of improved recovery programs, and similar major projects undertaken in the expectation of significant additions to proved reserves). The amounts which may be excluded are applicable por-

tions of (1) the costs that relate to the major development project and have not previously been included in the amortization base, and (2) the estimated future expenditures associated with the development project. The excluded portion of any common costs associated with the development project should be based, as is most appropriate in the circumstances, on a comparison of either (i) existing proved reserves to total proved reserves expected to be established upon completion of the project, or (ii) the number of wells to which proved reserves have been assigned and total number of wells expected to be drilled. Such costs may be excluded from costs to be amortized until the earlier determination of whether additional reserves are proved or impairment occurs.

(C) Excluded costs and the proved reserves related to such costs shall be transferred into the amortization base on an ongoing (well-by-well or property-by-property) basis as the project is evaluated and proved reserves established or impairment determined. Once proved reserves are established, there is no further justification for continued exclusion from the full cost amortization base even if other factors prevent immediate production or marketing.

(iii) Amortization shall be computed on the basis of physical units, with oil and gas converted to a common unit of measure on the basis of their approximate relative energy content, unless economic circumstances (related to the effects of regulated prices) indicate that use of units of revenue is a more appropriate basis of computing amortization. In the latter case, amortization shall be computed on the basis of current gross revenues (excluding royalty payments and net profits disbursements) from production in relation to future gross revenues, based on current prices (including consideration of changes in existing prices provided only by contractual arrangements), from estimated production of proved oil and gas reserves. The effect of a significant price increase during the year on estimated future gross revenues shall be reflected in the amortization provision only for the period after the price increase occurs.

Securities and Exchange Commission

§ 210.4-10

(iv) In some cases it may be more appropriate to depreciate natural gas cycling and processing plants by a method other than the unit-of-production method.

(v) Amortization computations shall be made on a consolidated basis, including investees accounted for on a proportionate consolidation basis. Investees accounted for on the equity method shall be treated separately.

(4) *Limitation on capitalized costs.* (i) For each cost center, capitalized costs, less accumulated amortization and related deferred income taxes, shall not exceed an amount (the cost center ceiling) equal to the sum of:

(A) The present value of estimated future net revenues computed by applying current prices of oil and gas reserves (with consideration of price changes only to the extent provided by contractual arrangements) to estimated future production of proved oil and gas reserves as of the date of the latest balance sheet presented, less estimated future expenditures (based on current costs) to be incurred in developing and producing the proved reserves computed using a discount factor of ten percent and assuming continuation of existing economic conditions; plus

(B) the cost of properties not being amortized pursuant to paragraph (c)(3)(ii) of this section; plus

(C) the lower of cost or estimated fair value of unproven properties included in the costs being amortized; less

(D) income tax effects related to differences between the book and tax basis of the properties referred to in paragraphs (c)(4)(i) (B) and (C) of this section.

(ii) If unamortized costs capitalized within a cost center, less related deferred income taxes, exceed the cost center ceiling, the excess shall be charged to expense and separately disclosed during the period in which the excess occurs. Amounts thus required to be written off shall not be reinstated for any subsequent increase in the cost center ceiling.

(5) *Production costs.* All costs relating to production activities, including workover costs incurred solely to maintain or increase levels of production from an existing completion inter-

val, shall be charged to expense as incurred.

(6) *Other transactions.* The provisions of paragraph (h) of this section, "Mineral property conveyances and related transactions if the successful efforts method of accounting is followed," shall apply also to those reporting entities following the full cost method except as follows:

(i) *Sales and abandonments of oil and gas properties.* Sales of oil and gas properties, whether or not being amortized currently, shall be accounted for as adjustments of capitalized costs, with no gain or loss recognized, unless such adjustments would significantly alter the relationship between capitalized costs and proved reserves of oil and gas attributable to a cost center. For instance, a significant alteration would not ordinarily be expected to occur for sales involving less than 25 percent of the reserve quantities of a given cost center. If gain or loss is recognized on such a sale, total capitalization costs within the cost center shall be allocated between the reserves sold and reserves retained on the same basis used to compute amortization, unless there are substantial economic differences between the properties sold and those retained, in which case capitalized costs shall be allocated on the basis of the relative fair values of the properties. Abandonments of oil and gas properties shall be accounted for as adjustments of capitalized costs; that is, the cost of abandoned properties shall be charged to the full cost center and amortized (subject to the limitation on capitalized costs in paragraph (b) of this section).

(ii) *Purchases of reserves.* Purchases of oil and gas reserves in place ordinarily shall be accounted for as additional capitalized costs within the applicable cost center; however, significant purchases of production payments or properties with lives substantially shorter than the composite productive life of the cost center shall be accounted for separately.

(iii) *Partnerships, joint ventures and drilling arrangements.* (A) Except as provided in paragraph (c)(6)(i) of this section, all consideration received from

§ 210.4-10

sales or transfers of properties in connection with partnerships, joint venture operations, or various other forms of drilling arrangements involving oil and gas exploration and development activities (e.g., carried interest, turnkey wells, management fees, etc.) shall be credited to the full cost account, except to the extent of amounts that represent reimbursement of organization, offering, general and administrative expenses, etc., that are identifiable with the transaction, if such amounts are currently incurred and charged to expense.

(B) Where a registrant organizes and manages a limited partnership involved only in the purchase of proved developed properties and subsequent distribution of income from such properties, management fee income may be recognized provided the properties involved do not require aggregate development expenditures in connection with production of existing proved reserves in excess of 10% of the partnership's recorded cost of such properties. Any income not recognized as a result of this limitation would be credited to the full cost account and recognized through a lower amortization provision as reserves are produced.

(iv) *Other services.* No income shall be recognized in connection with contractual services performed (e.g. drilling, well service, or equipment supply services, etc.) in connection with properties in which the registrant or an affiliate (as defined in § 210.1-02(b)) holds an ownership or other economic interest, except as follows:

(A) Where the registrant acquires an interest in the properties in connection with the service contract, income may be recognized to the extent the cash consideration received exceeds the related contract costs plus the registrant's share of costs incurred and estimated to be incurred in connection with the properties. Ownership interests acquired within one year of the date of such a contract are considered to be acquired in connection with the service for purposes of applying this rule. The amount of any guarantees or similar arrangements undertaken as part of this contract should be considered as part of the costs related to the

17 CFR Ch. II (4-1-25 Edition)

properties for purposes of applying this rule.

(B) Where the registrant acquired an interest in the properties at least one year before the date of the service contract through transactions unrelated to the service contract, and that interest is unaffected by the service contract, income from such contract may be recognized subject to the general provisions for elimination of intercompany profit under generally accepted accounting principles.

(C) Notwithstanding the provisions of paragraphs (c)(6)(iv) (A) and (B) of this section, no income may be recognized for contractual services performed on behalf of investors in oil and gas producing activities managed by the registrant or an affiliate. Furthermore, no income may be recognized for contractual services to the extent that the consideration received for such services represents an interest in the underlying property.

(D) Any income not recognized as a result of these rules would be credited to the full cost account and recognized through a lower amortization provision as reserves are produced.

(7) *Disclosures.* Reporting entities that follow the full cost method of accounting shall disclose all of the information required by paragraph (k) of this section, with each cost center considered as a separate geographic area, except that reasonable groupings may be made of cost centers that are not significant in the aggregate. In addition:

(i) For each cost center for each year that a statement of comprehensive income is required, disclose the total amount of amortization expense (per equivalent physical unit of production if amortization is computed on the basis of physical units or per dollar of gross revenue from production if amortization is computed on the basis of gross revenue).

(ii) State separately on the face of the balance sheet the aggregate of the capitalized costs of unproved properties and major development projects that are excluded, in accordance with paragraph (c)(3) of this section, from the capitalized costs being amortized. Provide a description in the notes to the

Securities and Exchange Commission

§ 210.5-02

financial statements of the current status of the significant properties or projects involved, including the anticipated timing of the inclusion of the costs in the amortization computation. Present a table that shows, by category of cost, (A) the total costs excluded as of the most recent fiscal year; and (B) the amounts of such excluded costs, incurred (1) in each of the three most recent fiscal years and (2) in the aggregate for any earlier fiscal years in which the costs were incurred. Categories of cost to be disclosed include acquisition costs, exploration costs, development costs in the case of significant development projects and capitalized interest.

(8) For purposes of this paragraph (c), the term "current price" shall mean the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

INCOME TAXES

(d) *Income taxes.* Comprehensive interperiod income tax allocation by a method which complies with generally accepted accounting principles shall be followed for intangible drilling and development costs and other costs incurred that enter into the determination of taxable income and pretax accounting income in different periods.

§ 210.5-02 Balance sheets.

The purpose of this rule is to indicate the various line items and certain additional disclosures which, if applicable, and except as otherwise permitted by the Commission, should appear on the face of the balance sheets or related notes filed for the persons to whom this article pertains (see § 210.4-01(a)).

ASSETS AND OTHER DEBITS

Current Assets, when appropriate

1. *Cash and cash items.* Separate disclosure shall be made of the cash and cash items which are restricted as to withdrawal or usage. The provisions of any restrictions shall be described in a note to the financial statements. Restrictions may include legally restricted deposits held as compensating balances against short-term borrowing arrangements, contracts entered into with others, or company statements of intention with regard to particular deposits; however, time deposits and short-term certificates of deposit are not generally included in legally restricted deposits. In cases where compensating balance arrangements exist but are not agreements which legally restrict the use of cash amounts shown on the balance sheet, describe in the notes to the financial statements these arrangements and the amount involved, if determinable, for the most recent audited balance sheet required and for any subsequent unaudited balance sheet required in the notes to the financial statements. Compensating balances that are maintained under an agreement to assure future credit availability shall be disclosed in the notes to the financial statements along with the amount and terms of such agreement.

2. *Marketable securities.* The accounting and disclosure requirements for current marketable equity securities are specified by generally accepted accounting principles. With

§ 210.5-02

respect to all other current marketable securities, state, parenthetically or otherwise, the basis of determining the aggregate amount shown in the balance sheet, along with the alternatives of the aggregate cost or the aggregate market value at the balance sheet date.

3. *Accounts and notes receivable.* (a) State separately amounts receivable from (1) customers (trade); (2) related parties (see § 210.4-08(k)); (3) underwriters, promoters, and employees (other than related parties) which arose in other than the ordinary course of business; and (4) others.

(b) If the aggregate amount of notes receivable exceeds 10 percent of the aggregate amount of receivables, the above information shall be set forth separately, in the balance sheet or in a note thereto, for accounts receivable and notes receivable.

(c) If receivables include amounts due under long-term contracts (see § 210.5-02.6(d)), state separately in the balance sheet or in a note to the financial statements the following amounts:

(1) Balances billed but not paid by customers under retainage provisions in contracts.

(2) Amounts representing the recognized sales value of performance and such amounts that had not been billed and were not billable to customers at the date of the balance sheet. Include a general description of the prerequisites for billing.

(3) Billed or unbilled amounts representing claims or other similar items subject to uncertainty concerning their determination or ultimate realization. Include a description of the nature and status of the principal items comprising such amount.

(4) With respect to (1) through (3) above, also state the amounts included in each item which are expected to be collected after one year. Also state, by year, if practicable, when the amounts of retainage (see (1) above) are expected to be collected.

4. *Allowances for doubtful accounts and notes receivable.* The amount is to be set forth separately in the balance sheet or in a note thereto.

5. *Unearned income.*

6. *Inventories.* (a) State separately in the balance sheet or in a note thereto, if practicable, the amounts of major classes of inventory such as: (1) Finished goods; (2) inventoried costs relating to long-term contracts or programs (see paragraph (d) of this section); (3) work in process;

(4) raw materials; and (5) supplies. If the method of calculating a LIFO inventory does not allow for the practical determination of amounts assigned to major classes of inventory, the amounts of those classes may be stated under cost flow assumptions other than LIFO with the excess of such total amount over the aggregate LIFO amount

17 CFR Ch. II (4-1-25 Edition)

shown as a deduction to arrive at the amount of the LIFO inventory.

(b) The basis of determining the amounts shall be stated.

If *cost* is used to determine any portion of the inventory amounts, the description of this method shall include the nature of the cost elements included in inventory. Elements of *cost* include, among other items, retained costs representing the excess of manufacturing or production costs over the amounts charged to cost of sales or delivered or in-process units, initial tooling or other deferred startup costs, or general and administrative costs.

The method by which amounts are removed from inventory (e.g., *average cost*, *first-in, first-out*, *last-in, first-out*, *estimated average cost per unit*) shall be described. If the estimated average cost per unit is used as a basis to determine amounts removed from inventory under a total program or similar basis of accounting, the principal assumptions (including, where meaningful, the aggregate number of units expected to be delivered under the program, the number of units delivered to date and the number of units on order) shall be disclosed.

If any general and administrative costs are charged to inventory, state in a note to the financial statements the aggregate amount of the general and administrative costs incurred in each period and the actual or estimated amount remaining in inventory at the date of each balance sheet.

(c) If the LIFO inventory method is used, the excess of replacement or current cost over stated LIFO value shall, if material, be stated parenthetically or in a note to the financial statements.

(d) For purposes of §§ 210.5-02.3 and 210.5-02.6, long-term contracts or programs include (1) all contracts or programs for which gross profits are recognized on a percentage-of-completion method of accounting or any variant thereof (e.g., delivered unit, cost to cost, physical completion), and (2) any contracts or programs accounted for on a completed contract basis of accounting where, in either case, the contracts or programs have associated with them material amounts of inventories or unbilled receivables and where such contracts or programs have been or are expected to be performed over a period of more than twelve months. Contracts or programs of shorter duration may also be included, if deemed appropriate.

For all long-term contracts or programs, the following information, if applicable, shall be stated in a note to the financial statements:

(i) The aggregate amount of manufacturing or production costs and any related deferred costs (e.g., initial tooling costs) which exceeds the aggregate estimated cost of all in-process and delivered units on the basis of

Securities and Exchange Commission

§ 210.5-02

the estimated average cost of all units expected to be produced under long-term contracts and programs not yet complete, as well as that portion of such amount which would not be absorbed in cost of sales based on existing firm orders at the latest balance sheet date. In addition, if practicable, disclose the amount of deferred costs by type of cost (e.g., initial tooling, deferred production, etc.).

(ii) The aggregate amount representing claims or other similar items subject to uncertainty concerning their determination or ultimate realization, and include a description of the nature and status of the principal items comprising such aggregate amount.

(iii) The amount of progress payments netted against inventory at the date of the balance sheet.

7. Prepaid expenses.

8. Other current assets. State separately, in the balance sheet or in a note thereto, any amounts in excess of five percent of total current assets.

9. Total current assets, when appropriate.

10. Securities of related parties. (See § 210.4-08(k).)

11. Indebtedness of related parties—not current. (See § 210.4-08(k).)

12. Other investments. The accounting and disclosure requirements for non-current marketable equity securities are specified by generally accepted accounting principles. With respect to other security investments and any other investment, state, parenthetically or otherwise, the basis of determining the aggregate amounts shown in the balance sheet, along with the alternate of the aggregate cost or aggregate market value at the balance sheet date.

13. Property, plant and equipment.

(a) State the basis of determining the amounts.

(b) Tangible and intangible utility plant of a public utility company shall be segregated so as to show separately the original cost, plant acquisition adjustments, and plant adjustments, as required by the system of accounts prescribed by the applicable regulatory authorities. This rule shall not be applicable in respect to companies which are not required to make such a classification.

14. Accumulated depreciation, depletion, and amortization of property, plant and equipment. The amount is to be set forth separately in the balance sheet or in a note thereto.

15. Intangible assets. State separately each class of such assets which is in excess of five percent of the total assets, along with the basis of determining the respective amounts. Any significant addition or deletion shall be explained in a note.

16. Accumulated depreciation and amortization of intangible assets. The amount is to be set forth separately in the balance sheet or in a note thereto.

17. Other assets. State separately, in the balance sheet or in a note thereto, any other item not properly classed in one of the preceding asset captions which is in excess of five percent to total assets. Any significant addition or deletion should be explained in a note. With respect to any significant deferred charge, state the policy for deferral and amortization.

18. Total assets.

LIABILITIES AND STOCKHOLDERS' EQUITY

Current Liabilities, When Appropriate

19. Accounts and notes payable. (a) State separately amounts payable to (1) banks for borrowings; (2) factors or other financial institutions for borrowings; (3) holders of commercial paper; (4) trade creditors; (5) related parties (see § 210.4-08(k)); (6) underwriters, promoters, and employees (other than related parties); and (7) others. Amounts applicable to (1), (2) and (3) may be stated separately in the balance sheet or in a note thereto.

(b) The amount and terms (including commitment fees and the conditions under which lines may be withdrawn) of unused lines of credit for short-term financing shall be disclosed, if significant, in the notes to the financial statements. The weighted average interest rate on short term borrowings outstanding as of the date of each balance sheet presented shall be furnished in a note. The amount of these lines of credit which support a commercial paper borrowing arrangement or similar arrangements shall be separately identified.

20. Other current liabilities. State separately, in the balance sheet or in a note thereto, any item in excess of 5 percent of total current liabilities. Such items may include, but are not limited to, accrued payrolls, accrued interest, taxes, indicating the current portion of deferred income taxes, and the current portion of long-term debt. Remaining items may be shown in one amount.

21. Total current liabilities, when appropriate.

Long-Term Debt

22. Bonds, mortgages and other long-term debt, including capitalized leases. (a) State separately, in the balance sheet or in a note thereto, each issue or type of obligation and such information as will indicate:

(1) The general character of each type of debt including the rate of interest; (2) the date of maturity, or, if maturing serially, a brief indication of the serial maturities, such as "maturing serially from 1980 to 1990"; (3) if the payment of principal or interest is contingent, an appropriate indication of such contingency; (4) a brief indication of priority; and (5) if convertible, the basis. For amounts owed to related parties, see § 210.4-08(k).

§ 210.5-02

(b) The amount and terms (including commitment fees and the conditions under which commitments may be withdrawn) of unused commitments for long-term financing arrangements that would be disclosed under this rule if used shall be disclosed in the notes to the financial statements if significant.

23. *Indebtedness to related parties—noncurrent.* Include under this caption indebtedness to related parties as required under § 210.4-08(k).

24. *Other liabilities.* State separately, in the balance sheet or in a note thereto, any item not properly classified in one of the preceding liability captions which is in excess of 5 percent of total liabilities.

25. *Commitments and contingent liabilities.*

26. *Deferred credits.* State separately in the balance sheet amounts for (a) deferred income taxes, (b) deferred tax credits, and (c) material items of deferred income.

Redeemable Preferred Stocks

27. *Preferred stocks subject to mandatory redemption requirements or whose redemption is outside the control of the issuer.* (a) Include under this caption amounts applicable to any class of stock which has any of the following characteristics: (1) it is redeemable at a fixed or determinable price on a fixed or determinable date or dates, whether by operation of a sinking fund or otherwise; (2) it is redeemable at the option of the holder; or (3) it has conditions for redemption which are not solely within the control of the issuer, such as stocks which must be redeemed out of future earnings. Amounts attributable to preferred stock which is not redeemable or is redeemable solely at the option of the issuer shall be included under § 210.5-02.28 unless it meets one or more of the above criteria.

(b) State on the face of the balance sheet the title of each issue, the carrying amount, and redemption amount. (a) *Financial statements required.* (1) Financial statements described in §§210.3-01 and 210.3-02, or §210.3-18, as applicable, including the schedules specified in §§210.12-01 through 210.12-29 (Article 12), prepared and audited in accordance with Regulation S-X (including the independence standards in §210.2-01 or, alternatively if the fund is not a registrant, the applicable independence standards) for the periods specified in paragraph (b) of this section and the supplemental information specified in paragraph (d) of this section must be filed if any of the following conditions exist:

(i) During the most recent fiscal year or subsequent interim period for which a balance sheet is required by §210.3-01 or §210.3-18, a fund acquisition has occurred; or

(ii) After the date of the most recent balance sheet filed pursuant to §210.3-01 or §210.3-18 or, if no relevant balance sheet has been filed in connection with a post-effective amendment for a new

Securities and Exchange Commission

§ 210.6-11

series submitted pursuant to § 230.485(a)(2) of this chapter (Rule 485(a)(2) under the Securities Act), the filing of such amendment, consummation of a fund acquisition has occurred or is probable.

(2) For purposes of this section:

(i) The term *fund* includes any investment company as defined in section 3(a) of the Investment Company Act of 1940, including a business development company, or any company that would be an investment company but for the exclusions provided by sections 3(c)(1) or 3(c)(7) of that Act, or any private account managed by an investment adviser.

(ii) The determination of whether a fund has been acquired or will be acquired should be evaluated in light of the facts and circumstances involved. Among the facts and circumstances which should be considered in evaluating whether a fund acquisition has occurred or will occur are whether it will result in the acquisition by the registrant of all or substantially all of the portfolio investments held by another fund.

(3) Acquisitions of a group of related funds that are probable or that have occurred subsequent to the latest fiscal year-end for which audited financial statements of the registrant have been filed will be treated under this section as if they are a single acquisition. For purposes of this section, funds will be deemed to be related if:

(i) They are under common control or management;

(ii) The acquisition of one fund is conditional on the acquisition of each other fund; or

(iii) Each acquisition is conditioned on a single common event.

(4) This section does not apply to a fund which is totally held by the registrant prior to consummation of the transaction.

(b) *Periods to be presented.* (1) If securities are being registered to be offered to the security holders of the fund to be acquired, the financial statements specified in §§ 210.3-01 and 210.3-02 or § 210.3-18 for the fund to be acquired and the supplemental information specified in paragraph (d) of this section must be filed, except as provided otherwise for filings on Form N-14

(§ 239.23 of this chapter). The financial statements covering the fiscal year must be audited except as provided in Item 14 of Schedule 14A (§ 240.14a-101 of this chapter) with respect to certain proxy statements or in registration statements filed on Form N-14 (§ 239.23 of this chapter).

(2) In all cases not specified in paragraph (b)(1) of this section, financial statements of the fund acquired or to be acquired for the periods specified in this paragraph (b)(2) or such shorter period as the fund has been in existence and the supplemental information specified in paragraph (d) of this section must be filed. Whether such financial statements and supplemental information are to be filed must be determined using the conditions specified in the definition of significant subsidiary in § 210.1-02(w)(2)(i) and (w)(2)(ii)(B) as follows:

(i) If none of the conditions set forth in § 210.1-02(w)(2)(i) and (w)(2)(ii)(B), substituting 20 percent for 10 percent each place it appears therein, are satisfied, the financial statements and supplemental financial information in paragraph (d) of this section are not required.

(ii) If any of the conditions set forth in § 210.1-02(w)(2)(i) and (w)(2)(ii)(B), substituting 20 percent for 10 percent each place it appears therein, are satisfied, the financial statements of the acquired fund must be filed. If the acquired fund is subject to § 210.3-18, then the financial statements for the periods described therein must be filed. For all other acquired funds, the financial statements for the most recent fiscal year and the most recent interim period must be filed. The registrant must also provide the supplemental financial information in paragraph (d) of this section.

(iii) If the aggregate impact of funds acquired or to be acquired since the date of the most recent audited balance sheet filed for the registrant, for which financial statements are not required by paragraph (b)(2)(i) of this section, satisfies any of the conditions set forth in § 210.1-02(w)(2)(i) and (w)(2)(ii)(B), substituting 50 percent for 10 percent each place it appears therein, the registrant must provide financial statements for any fund acquired or to be

§ 210.6A-01

acquired for which financial statements are not yet required by paragraph (b)(2)(i) of this section. If any of the acquired funds are subject to § 210.3-18, then the financial statements for the periods described therein must be filed. For any other acquired funds, the financial statements for the most recent fiscal year and the most recent interim period must be filed. The registrant must also provide the supplemental financial information in paragraph (d) of this section for such funds.

(3) The determination must be made by comparing the most recent annual financial statement of each such fund, or for acquisitions each group of related funds on a combined basis, to the registrant's most recent annual financial statements filed at or prior to the date of acquisition. However, the determination may be made by using pro forma amounts as calculated by the registrant for the periods specified in § 210.1-02(w)(2) that only give effect to an acquisition consummated after the latest fiscal year-end for which the registrant's financial statements are required to be filed when the registrant has filed audited financial statements of such acquired fund and provided the supplemental financial information for the periods required by this section.

(4) Separate financial statements of the acquired fund and the supplemental information specified in paragraph (d) of this section need only to be filed once and not included in any subsequent filing or shareholder report.

(c) *Acquisitions involving private funds or private accounts.* If the fund acquired or to be acquired would be an investment company under the Investment Company Act but for the exclusion provided from that definition by either sections 3(c)(1) or 3(c)(7) of that Act, then the required financial statements may comply with U.S. Generally Accepted Accounting Principles and only Article 12. In situations of any private account managed by an investment adviser provide the schedules specified in Article 12 for the assets acquired or to be acquired.

(d) *Supplemental financial information.* (1) Supplemental financial information must consist of:

§ 210.8-03 Interim financial statements.

Interim financial statements may be unaudited; however, before filing, interim financial statements included in quarterly reports on Form 10-Q (§ 249.308(a) of this chapter) must be reviewed by an independent public accountant using applicable professional standards and procedures for conducting such reviews, as may be modified or supplemented by the Commission. If, in any filing, the issuer states that interim financial statements have been reviewed by an independent public accountant, a report of the accountant on the review must be filed with the interim financial statements. Interim financial statements shall include a balance sheet as of the end of the issuer's most recent fiscal quarter, a balance sheet as of the end of the preceding fiscal year, and statements of comprehensive income and statements of cash flows for the interim period up to the date of such balance sheet and the comparable period of the preceding fiscal year.

(a) *Condensed format.* Interim financial statements may be condensed as follows:

(1) Balance sheets should include separate captions for each balance sheet component presented in the annual financial statements that represents 10% or more of total assets. Cash and retained earnings should be presented regardless of relative significance to total assets. Registrants that present a classified balance sheet in their annual financial statements should present totals for current assets and current liabilities.

(2) Statements of comprehensive income (or the statement of net income if comprehensive income is presented in two separate but consecutive financial statements) should include net sales or gross revenue, each cost and expense category presented in the annual financial statements that exceeds 20% of sales or gross revenues, provision for income taxes, and discontinued operations. (Financial institutions should substitute net interest income for sales for purposes of determining items to be disclosed.)

§ 210.8-04

(3) Cash flow statements should include cash flows from operating, investing and financing activities as well as cash at the beginning and end of each period and the increase or decrease in such balance.

(4) Additional line items may be presented to facilitate the usefulness of the interim financial statements, including their comparability with annual financial statements.

(5) Provide the information required by § 210.3-04 for the current and comparative year-to-date periods, with subtotals for each interim period.

(b) *Disclosure required and additional instructions as to content*—(1) *Footnotes*. Footnote and other disclosures should be provided as needed for fair presentation and to ensure that the financial statements are not misleading.

(2) [Reserved]

(3) *Significant equity investees*. Sales, gross profit, net income (loss) from continuing operations, net income, and net income attributable to the investee must be disclosed for equity investees that constitute 20 percent or more of a registrant's consolidated assets, equity or income from continuing operations attributable to the registrant.

(4) [Reserved]

(5) *Material accounting changes*. The registrant's independent accountant must provide a letter in the first Form 10-Q (§ 249.308a of this chapter) filed after the change indicating whether or not the change is to a preferable method. Disclosure must be provided of any retroactive change to prior period financial statements, including the effect of any such change on income and income per share.

(6) *Financial statements of and disclosures about guarantors and issuers of guaranteed securities*. The requirements of § 210.3-10 are applicable to financial statements for a subsidiary of a smaller reporting company that issues securities guaranteed by the smaller reporting company or guarantees securities issued by the smaller reporting company. Disclosures about guarantors and issuers of guaranteed securities registered or being registered must be presented as required by § 210.13-01.

(7) *Disclosures about affiliates whose securities collateralize an issuance*. Disclosures about a smaller reporting com-

pany's affiliates whose securities collateralize any class of securities registered or being registered and the related collateral arrangement must be presented as required by § 210.13-02.

Instruction 1 to § 210.8-03. Where §§ 210.8-01 through 210.8-08 (Article 8 of this part) are applicable to a Form 10-Q (§ 249.308a of this chapter) and the interim period is more than one quarter, statements of comprehensive income must also be provided for the most recent interim quarter and the comparable quarter of the preceding fiscal year.

§ 210.8-07 Limited partnerships.

(a) Smaller reporting companies that are limited partnerships must provide the balance sheets of the general partners as described in paragraphs (b) through (d) of this section.

(b) Where a general partner is a corporation, the audited balance sheet of the corporation as of the end of its

most recently completed fiscal year must be filed. Receivables, other than trade receivables, from affiliates of the general partner should be deducted from shareholders' equity of the general partner. Where an affiliate has committed itself to increase or maintain the general partner's capital, the audited balance sheet of such affiliate must also be presented.

(c) Where a general partner is a partnership, there shall be filed an audited balance sheet of such partnership as of the end of its most recently completed fiscal year.

(d) Where the general partner is a natural person, there shall be filed, as supplemental information, a balance sheet of such natural person as of a recent date. Such balance sheet need not be audited. The assets and liabilities should be carried at estimated fair market value, with provisions for estimated income taxes on unrealized gains. The net worth of such general partner(s), based on such balance sheet(s), singly or in the aggregate, shall be disclosed in the registration statement.

§ 210.8-08 Age of financial statements.

At the date of filing, financial statements included in filings other than filings on Form 10-K must be not less current than the financial statements that would be required in Forms 10-K and 10-Q if such reports were required to be filed. If required financial statements are as of a date 135 days or more before the date a registration statement becomes effective or proxy material is expected to be mailed, the financial statements shall be updated to include financial statements for an interim period ending within 135 days of the effective or expected mailing date. Interim financial statements must be prepared and presented in accordance with paragraph (b) of this section.

(a) When the anticipated effective or mailing date falls within 45 days after the end of the fiscal year, the filing may include financial statements only as current as of the end of the third fiscal quarter; *Provided, however,* that if the audited financial statements for the recently completed fiscal year are available or become available before ef-

fectiveness or mailing, they must be included in the filing; and

(b) If the effective date or anticipated mailing date falls after 45 days but within 90 days of the end of the smaller reporting company's fiscal year, the smaller reporting company is not required to provide the audited financial statements for such year end provided that the following conditions are met:

(1) If the smaller reporting company is a reporting company, all reports due must have been filed;

(2) For the most recent fiscal year for which audited financial statements are not yet available, the smaller reporting company reasonably and in good faith expects to report income from continuing operations attributable to the registrant before taxes; and

(3) For at least one of the two fiscal years immediately preceding the most recent fiscal year the smaller reporting company reported income from continuing operations attributable to the registrant before taxes.

§ 210.9-07 [Reserved]

INTERIM FINANCIAL STATEMENTS

§ 210.10-01 Interim financial statements.

(a) *Condensed statements.* Interim financial statements shall follow the general form and content of presentation prescribed by the other sections of this Regulation with the following exceptions:

(1) Interim financial statements required by this section need only be provided as to the registrant and its subsidiaries consolidated and its predecessors and may be unaudited. Separate statements of other entities which may otherwise be required by this part may be omitted.

(2) Interim balance sheets shall include only major captions (*i.e.*, numbered captions) prescribed by the applicable sections of this Regulation with the exception of inventories. Data as to raw materials, work in process and finished goods inventories shall be included either on the face of the balance sheet or in the notes to the financial statements, if applicable. Where any major balance sheet caption is less than 10% of total assets, and the amount in the caption has not increased or decreased by more than 25% since the end of the preceding fiscal year, the caption may be combined with others.

(3) Interim statements of comprehensive income shall also include major captions prescribed by the applicable sections of part 210 of this chapter (Regulation S-X). When any major statement of comprehensive income (or statement of net income if comprehensive income is presented in two separate but consecutive financial statements) caption is less than 15% of average net income for the most recent three fiscal years and the amount in the caption has not increased or de-

creased by more than 20% as compared to the corresponding interim period of the preceding fiscal year, the caption may be combined with others. In calculating average net income, loss years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test. Notwithstanding these tests, § 210.4-02 applies and *de minimis* amounts therefore need not be shown separately, except that registrants reporting under § 210.9 shall show investment securities gains or losses separately regardless of size.

(4) The statement of cash flows may be abbreviated starting with a single figure of net cash flows from operating activities and showing cash changes from investing and financing activities individually only when they exceed 10% of the average of net cash flows from operating activities for the most recent three years. Notwithstanding this test, § 210.4-02 applies and *de minimis* amounts therefore need not be shown separately.

(5) The interim financial information shall include disclosures either on the face of the financial statements or in accompanying footnotes sufficient so as to make the interim information presented not misleading. Registrants may presume that users of the interim financial information have read or have access to the audited financial statements for the preceding fiscal year and that the adequacy of additional disclosure needed for a fair presentation may be determined in that context. Accordingly, footnote disclosure which would substantially duplicate the disclosure contained in the most recent annual report to security holders or latest audited financial statements, such as a statement of significant accounting policies and practices, details of accounts which have not changed significantly in amount or composition since the end of the most recently completed fiscal year, and detailed disclosures prescribed by § 210.4-08 may be omitted.

(6) Detailed schedules otherwise required by this Regulation may be omitted for purposes of preparing interim financial statements.

§210.10-01

17 CFR Ch. II (4-1-25 Edition)

(7) Provide the information required by §210.3-04 for the current and comparative year-to-date periods, with subtotals for each interim period.

(b) *Other instructions as to content.* The following additional instructions shall be applicable for purposes of preparing interim financial statements:

(1) Summarized statement of comprehensive income information shall be given separately as to each subsidiary not consolidated or 50 percent or less owned persons or as to each group of such subsidiaries or fifty percent or less owned persons for which separate individual or group statements would otherwise be required for annual periods. Such summarized information, however, need not be furnished for any such unconsolidated subsidiary or person which would not be required pursuant to §240.13a-13 or §240.15d-13 of this chapter to file quarterly financial information with the Commission if it were a registrant.

(2) The basis of the earnings per share computation shall be stated together with the number of shares used in the computation.

(3) If, during the most recent interim period presented, the registrant or any of its consolidated subsidiaries entered into a combination between entities under common control, supplemental disclosure of the separate results of the combined entities for periods prior to the combination shall be given, with appropriate explanations.

(4)-(5) [Reserved]

(6) For filings on Form 10-Q (§249.308(a) of this chapter), a letter from the registrant's independent accountant shall be filed as an exhibit (in accordance with the provisions of 17 CFR 229.601 (Item 601 of Regulation S-K)) in the first Form 10-Q after the date of an accounting change indicating whether or not the change is to an alternative principle which, in the accountant's judgment, is preferable under the circumstances; except that no letter from the accountant need be filed when the change is made in response to a standard adopted by the Financial Accounting Standards Board that requires such change.

(7) Any material retroactive prior period adjustment made during any period covered by the interim financial

statements shall be disclosed, together with the effect thereof upon net income—total and per share—of any prior period included and upon the balance of retained earnings. If results of operations for any period presented have been adjusted retroactively by such an item subsequent to the initial reporting of such period, similar disclosure of the effect of the change shall be made.

(8) Any unaudited interim financial statements furnished shall reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. A statement to that effect shall be included. If all such adjustments are of a normal recurring nature, a statement to that effect shall be made; otherwise, there shall be furnished information describing in appropriate detail the nature and amount of any adjustments other than normal recurring adjustments entering into the determination of the results shown.

(9) The requirements of §210.3-10 are applicable to financial statements for a subsidiary of the registrant that issues securities guaranteed by the registrant or guarantees securities issued by the registrant. Disclosures about guarantors and issuers of guaranteed securities registered or being registered must be presented as required by §210.13-01.

(10) Disclosures about a registrant's affiliates whose securities collateralize any class of securities registered or being registered and the related collateral arrangement must be presented as required by §210.13-02.

(c) *Periods to be covered.* The periods for which interim financial statements are to be provided in registration statements are prescribed elsewhere in this Regulation (see §§210.3-01 and 3-02). For filings on Form 10-Q, financial statements shall be provided as set forth in this paragraph (c):

(1) An interim balance sheet as of the end of the most recent fiscal quarter and a balance sheet as of the end of the preceding fiscal year shall be provided. The balance sheet as of the end of the preceding fiscal year may be condensed

Securities and Exchange Commission

§ 210.11-01

to the same degree as the interim balance sheet provided. An interim balance sheet as of the end of the corresponding fiscal quarter of the preceding fiscal year need not be provided unless necessary for an understanding of the impact of seasonal fluctuations on the registrant's financial condition.

(2) Interim statements of comprehensive income shall be provided for the most recent fiscal quarter, for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter, and for the corresponding periods of the preceding fiscal year. Such statements may also be presented for the cumulative twelve month period ended during the most recent fiscal quarter and for the corresponding preceding period.

(3) Interim statements of cash flows shall be provided for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter, and for the corresponding period of the preceding fiscal year. Such statements may also be presented for the cumulative twelve month period ended during the most recent fiscal quarter and for the corresponding preceding period.

(4) Registrants engaged in seasonal production and sale of a single-crop agricultural commodity may provide interim statements of comprehensive income and cash flows for the twelve month period ended during the most recent fiscal quarter and for the corresponding preceding period in lieu of the year-to-date statements specified in paragraphs (c)(2) and (3) of this section.

(d) *Interim review by independent public accountant.* Prior to filing, interim financial statements included in quarterly reports on Form 10-Q (17 CFR 249.308(a)) must be reviewed by an independent public accountant using applicable professional standards and procedures for conducting such reviews, as may be modified or supplemented by the Commission. If, in any filing, the company states that interim financial statements have been reviewed by an independent public accountant, a report of the accountant on the review must be filed with the interim financial statements.

(e) *Filing of other interim financial information in certain cases.* The Commission may, upon the informal written request of the registrant, and where consistent with the protection of investors, permit the omission of any of the interim financial information herein required or the filing in substitution thereof of appropriate information of comparable character. The Commission may also by informal written notice require the filing of other information in addition to, or in substitution for, the interim information herein required in any case where such information is necessary or appropriate for an adequate presentation of the financial condition of any person for which interim financial information is required, or whose financial information is otherwise necessary for the protection of investors.

PRO FORMA FINANCIAL INFORMATION

SOURCE: Sections 210.11-01 through 210.11-03 appear at 47 FR 29837, July 9, 1982, unless otherwise noted.

§ 210.11-01 Presentation requirements.

(a) Pro forma financial information must be filed when any of the following conditions exist:

(1) During the most recent fiscal year or subsequent interim period for which a balance sheet is required by § 210.3-01, a significant business acquisition has occurred (for purposes of this section, this encompasses the acquisition of an interest in a business accounted for by the equity method);

(2) After the date of the most recent balance sheet filed pursuant to § 210.3-01, consummation of a significant business acquisition or a combination of entities under common control has occurred or is probable;

(3) Securities being registered by the registrant are to be offered to the security holders of a significant business to be acquired or the proceeds from the

§210.11-01

offered securities will be applied directly or indirectly to the purchase of a specific significant business;

(4) The disposition of a significant portion of a business either by sale, abandonment or distribution to shareholders by means of a spin-off, split-up or split-off has occurred or is probable and such disposition is not fully reflected in the financial statements of the registrant included in the filing;

(5) [Reserved]

(6) Pro forma financial information required by §229.914 of this chapter is required to be provided in connection with a roll-up transaction as defined in §229.901(c) of this chapter;

(7) The registrant previously was a part of another entity and such presentation is necessary to reflect operations and financial position of the registrant as an autonomous entity; or

(8) Consummation of other transactions has occurred or is probable for which disclosure of pro forma financial information would be material to investors.

(b) A business acquisition or disposition will be considered significant if:

(1) The business acquisition meets:

(i) The definition of a significant subsidiary in §210.1-02(w)(1), substituting 20 percent for 10 percent each place it appears therein; or

(ii) If the business is a real estate operation as defined in §210.3-14(a)(2), the significant subsidiary condition in §210.1-02(w)(1)(i) (*i.e.*, the investment test condition), substituting 20 percent for 10 percent, as modified by the guidance in §210.3-14(b)(2)(ii).

(2) The business disposition, including a business that is a real estate operation as defined in §210.3-14(a)(2), meets the definition of a significant subsidiary in §210.1-02(w)(1), substituting 20 percent for 10 percent each place it appears therein.

(3) The determination must be made, except as noted in paragraph (b)(4) of this section for the continuous offerings described therein, by using:

(i) For amounts derived from financial statements, the registrant's most recent annual consolidated financial statements required to be filed at or prior to the date of acquisition or disposition and the business's pre-acquisition or pre-disposition financial state-

ments for the same fiscal year as the registrant or, if the fiscal years differ, the business's most recent fiscal year that would be required if the business had the same filer status as the registrant, however the determination may be made using:

(A) The financial statements for the business described in §210.3-05(e) or (f) if the business meets the conditions for presenting those financial statements.

(B) Pro forma amounts for the registrant for the periods specified in §210.11-01(b)(3) that only depict significant business acquisitions and dispositions consummated after the latest fiscal year-end for which the registrant's financial statements are required to be filed and only include Transaction Accounting Adjustments (*see* §210.11-02(a)(6)(i)), provided that:

(1) The registrant has filed audited financial statements for any such acquired business for the periods required by §210.3-05 or §210.3-14 and the pro forma financial information required by §§210.11-01 through 210.11-02 for any such acquired or disposed business. The tests may not be made by "annualizing" data; and

(2) If a registrant has used pro forma amounts to determine significance of an acquisition or disposition, it must continue to use pro forma amounts to determine significance of acquisitions and dispositions through the filing date of its next annual report on Form 10-K (§249.310 of this chapter) or Form 20-F (§249.220f of this chapter); or

(C) The registrant's annual consolidated financial statements, for the most recent fiscal year ended prior to the acquisition or disposition, that are included in the registrant's Form 10-K (§249.310 of this chapter) filed after the date of acquisition or disposition, but before the date financial statements and pro forma financial information for the acquisition or disposition would be required to be filed on Form 8-K (§249.308 of this chapter).

(ii) If the business is a related business (*see* §210.3-05(a)(3)), combined pre-acquisition financial statements of the group of related businesses for the fiscal year specified in paragraph (b)(3)(i) of this section.

(4) When a registrant, including a real estate investment trust, conducts

Securities and Exchange Commission

§ 210.11-02

a continuous offering over an extended period of time and applies the Item 20.D. Undertakings of Industry Guide 5, the income test condition does not apply, and the determination must be made for the investment test condition, when it is based on the total assets of the registrant and its subsidiaries consolidated, and the asset test condition, if applicable, using the following for the registrant:

(i) During the distribution period, total assets as of the date of acquisition or disposition plus the proceeds (net of commissions) in good faith expected to be raised in the registered offering over the next 12 months, except that for acquisitions total assets must exclude the acquired business; and

(ii) After the distribution period ends and until the next Form 10-K is filed, total assets as of the date of acquisition or disposition, except that for acquisitions total assets must exclude the acquired business; and

(iii) After that next Form 10-K is filed, the guidance in paragraph (b)(3).

(c) The pro forma effects of a business acquisition need not be presented pursuant to this section if separate financial statements of the acquired business are not included in the filing, except where the aggregate impact of businesses acquired or to be acquired is significant as determined by § 210.3-05(b)(2)(iv) or § 210.3-14(b)(2)(i)(C).

(d) For purposes of this rule, the term business should be evaluated in light of the facts and circumstances involved and whether there is sufficient continuity of the acquired entity's operations prior to and after the transactions so that disclosure of prior financial information is material to an understanding of future operations. A presumption exists that a separate entity, a subsidiary, or a division is a business. However, a lesser component of an entity may also constitute a business. Among the facts and circumstances which should be considered in evaluating whether an acquisition of a lesser component of an entity constitutes a business are the following:

(1) Whether the nature of the revenue-producing activity of the component will remain generally the same as before the transaction; or

(2) Whether any of the following attributes remain with the component after the transaction:

- (i) Physical facilities,
- (ii) Employee base,
- (iii) Market distribution system,
- (iv) Sales force,
- (v) Customer base,
- (vi) Operating rights,
- (vii) Production techniques, or
- (viii) Trade names.

(e) This rule does not apply to transactions between a parent company and its totally held subsidiary.

§ 210.11-02 Preparation requirements.

(a) *Form and content.* (1) Pro forma financial information must consist of a pro forma condensed balance sheet, pro forma condensed statements of comprehensive income, and accompanying explanatory notes. In certain circumstances (*i.e.*, where a limited number of pro forma adjustments are required and those adjustments are easily understood), a narrative description of the pro forma effects of the transaction may be disclosed in lieu of the statements described in this paragraph (a)(1).

(2) The pro forma financial information must be accompanied by an introductory paragraph which briefly sets forth a description of:

- (i) Each transaction for which pro forma effect is being given;
- (ii) The entities involved;
- (iii) The periods for which the pro forma financial information is presented; and
- (iv) An explanation of what the pro forma presentation shows.

(3) The pro forma condensed financial information need only include major captions (*i.e.*, the numbered captions) prescribed by the applicable sections of Regulation S-X. Where any major balance sheet caption is less than 10 percent of total assets, the caption may be combined with others. When any major statement of comprehensive income caption is less than 15 percent of average net income attributable to the registrant for the most recent three fiscal years, the caption may be combined

§ 210.11-02

17 CFR Ch. II (4-1-25 Edition)

with others. In calculating average net income attributable to the registrant, loss years should be excluded unless losses were incurred in each of the most recent three years, in which case the average loss must be used for purposes of this test. Notwithstanding these tests, *de minimis* amounts need not be shown separately.

(4) Pro forma statements will ordinarily be in columnar form showing condensed historical statements, pro forma adjustments, and the pro forma results.

(5) The pro forma condensed statement of comprehensive income must disclose income (loss) from continuing operations and income or loss from continuing operations attributable to the controlling interest.

(6) The pro forma condensed balance sheet and pro forma condensed statements of comprehensive income must include, and be limited to, the following pro forma adjustments, except as noted in paragraph (a)(7) of this section:

(i) *Transaction Accounting Adjustments.* (A) Adjustments that depict in the pro forma condensed balance sheet the accounting for the transaction required by U.S. Generally Accepted Accounting Principles (U.S. GAAP) or, as applicable, International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS-IASB). Calculate pro forma adjustments using the measurement date and method prescribed by the applicable accounting standards. For a probable transaction, calculate pro forma adjustments using, and disclose, the most recent practicable date prior to the effective date (for registration statements), qualification date (for offering statements under 17 CFR 230.251 through 230.263 (Regulation A)), or the mail date (for proxy statements).

(B) Adjustments that depict in the pro forma condensed statements of comprehensive income the effects of the pro forma balance sheet adjustments in paragraph (a)(6)(i)(A) of this section assuming those adjustments were made as of the beginning of the fiscal year presented. Such adjustments must be made whether or not the pro forma balance sheet is pre-

sented pursuant to paragraph (c)(1) of this section. If the condition in § 210.11-01(a) that is met does not have a balance sheet effect, then depict the accounting for the transaction required by U.S. GAAP or IFRS-IASB, as applicable.

(ii) *Autonomous Entity Adjustments.* Adjustments that depict the registrant as an autonomous entity if the condition in § 210.11-01(a)(7) is met. Autonomous Entity Adjustments must be presented in a separate column from Transaction Accounting Adjustments.

(7) Management's Adjustments depicting synergies and dis-synergies of the acquisitions and dispositions for which pro forma effect is being given may, in the registrant's discretion, be presented if in its management's opinion, such adjustments would enhance an understanding of the pro forma effects of the transaction and the following conditions are met:

(i) *Basis for Management's Adjustments.* (A) There is a reasonable basis for each such adjustment.

(B) The adjustments are limited to the effect of such synergies and dis-synergies on the historical financial statements that form the basis for the pro forma statement of comprehensive income as if the synergies and dis-synergies existed as of the beginning of the fiscal year presented. If such adjustments reduce expenses, the reduction must not exceed the amount of the related expense historically incurred during the pro forma period presented.

(C) The pro forma financial information reflects all Management's Adjustments that are, in the opinion of management, necessary to a fair statement of the pro forma financial information presented and a statement to that effect is disclosed. When synergies are presented, any related dis-synergies must also be presented.

(ii) *Form of presentation.* (A) If presented, Management's Adjustments must be presented in the explanatory notes to the pro forma financial information in the form of reconciliations of pro forma net income from continuing operations attributable to the controlling interest and the related pro forma earnings per share data specified in paragraph (a)(9) of this section to

Securities and Exchange Commission**§ 210.11-02**

such amounts after giving effect to Management's Adjustments.

(B) Management's Adjustments included or incorporated by reference into a registration statement, proxy statement, Regulation A offering statement, or Form 8-K should be as of the most recent practicable date prior to the effective date, mail date, qualification date, or filing date as applicable, which may require that they be updated if previously provided in a Form 8-K that is appropriately incorporated by reference.

(C) If Management's Adjustments will change the number of shares or potential common shares, reflect the change within Management's Adjustments in accordance with U.S. GAAP or IFRS-IASB, as applicable, as if the common stock or potential common stock were outstanding as of the beginning of the period presented.

(D) The explanatory notes must also include disclosure of the basis for and material limitations of each Management's Adjustment, including any material assumptions or uncertainties of such adjustment, an explanation of the method of the calculation of the adjustment, if material, and the estimated time frame for achieving the synergies and dis-synergies of such adjustment.

Instruction 1 to paragraph (a)(7): Any forward-looking information supplied is expressly covered by the safe harbor rules under §§ 230.175 and 240.3b-6 of this chapter.

(8) All pro forma adjustments should be referenced to notes that clearly explain the assumptions involved.

(9)(i) Historical and pro forma basic and diluted per share amounts based on continuing operations attributable to the controlling interests and the number of shares used to calculate such per share amounts must be presented on the face of the pro forma condensed statement of comprehensive income and only give effect to Transaction Accounting Adjustments and Autonomous Entity Adjustments.

(ii) The number of shares used in the calculation of the pro forma per share amounts must be based on the weighted average number of shares outstanding during the period adjusted to give effect to the number of shares

issued or to be issued to consummate the transaction, or if applicable whose proceeds will be used to consummate the transaction as if the shares were outstanding as of the beginning of the period presented. Calculate the pro forma effect of potential common stock being issued in the transaction (e.g., a convertible security), or the proceeds of which will be used to consummate the transaction, on pro forma earnings per share in accordance with U.S. GAAP or IFRS-IASB, as applicable, as if the potential common stock were outstanding as of the beginning of the period presented.

(10) If the transaction is structured in such a manner that significantly different results may occur, provide additional pro forma presentations which give effect to the range of possible results.

(11) The accompanying explanatory notes must disclose:

(i) Revenues, expenses, gains and losses and related tax effects which will not recur in the income of the registrant beyond 12 months after the transaction.

(ii) For Transaction Accounting Adjustments:

(A) A table showing the total consideration transferred or received including its components and how they were measured. If total consideration includes contingent consideration, describe the arrangement(s), the basis for determining the amount of payment(s) or receipt(s), and an estimate of the range of outcomes (undiscounted) or, if a range cannot be estimated, that fact and the reasons why; and

(B) The following information when the accounting is incomplete: A prominent statement to this effect; the items for which the accounting depicted is incomplete; a description of the information that the registrant requires, including, if material, the uncertainties affecting the pro forma financial information and the possible consequences of their resolution; an indication of when the accounting is expected to be finalized; and other available information that will enable a reader to understand the magnitude of any potential adjustments to the measurements depicted.

§ 210.11-02

17 CFR Ch. II (4-1-25 Edition)

(iii) For each Autonomous Entity Adjustment, a description of the adjustment (including the material uncertainties), the material assumptions, the calculation of the adjustment, and additional qualitative information about the Autonomous Entity Adjustments, if any, necessary to give a fair and balanced presentation of the pro forma financial information.

(12) A registrant must not:

(i) Present pro forma financial information on the face of the registrant's historical financial statements or in the accompanying notes, except where such presentation is required by U.S. GAAP or IFRS-IASB, as applicable.

(ii) Present pro forma financial information, or summaries of such information, elsewhere in a filing that excludes material transactions for which pro forma effect is required to be given.

(iii) Present the pro forma amounts in paragraph (a)(7) of this section elsewhere in a filing without also presenting with equal or greater prominence the amounts specified in paragraph (a)(7) of this section to which they are required to be reconciled and a cross-reference to that reconciliation.

(iv) Give pro forma effect to the registrant's adoption of an accounting standard in pro forma financial information required by §§ 210.11-01 through 210.11-03.

(b) *Implementation guidance*—(1) *Historical statement of comprehensive income*. The historical statement of comprehensive income used in the pro forma financial information must only be presented through income from continuing operations (or the appropriate modification thereof).

(2) *Business acquisitions*. In some transactions, such as in financial institution acquisitions, measuring the acquired assets at their acquisition date fair value may result in significant discounts relative to the acquired business's historical cost of the acquired assets. When such discounts can result in a significant effect on earnings (losses) in periods immediately subsequent to the acquisition that will be progressively eliminated over a relatively short period, the effect of the discounts on reported results of oper-

ations for each of the next five years must be disclosed in a note.

(3) *Business dispositions*. Transaction Accounting Adjustments giving effect to the disposition of a business must not decrease historically incurred compensation expense for employees who were not, or will not be, transferred or terminated as of the disposition date.

(4) *Multiple transactions*. (i) When consummation of more than one transaction has occurred, or is probable, the pro forma financial information must present in separate columns each transaction for which pro forma presentation is required by § 210.11-01.

(ii) If the pro forma financial information is presented in a proxy or information statement for purposes of obtaining shareholder approval of one of the transactions, the effects of that transaction must be clearly set forth.

(5) *Tax effects*. (i) Tax effects, if any, of pro forma adjustments normally should be calculated at the statutory rate in effect during the periods for which pro forma condensed statements of comprehensive income are presented and should be reflected as a separate pro forma adjustment.

(ii) When the registrant's historical statements of comprehensive income do not reflect the tax provision on the separate return basis, pro forma statements of comprehensive income adjustments must reflect a tax provision calculated on the separate return basis.

(c) *Periods to be presented*. (1) A pro forma condensed balance sheet as of the end of the most recent period for which a consolidated balance sheet of the registrant is required by § 210.3-01 must be filed unless the transaction is already reflected in such balance sheet.

(2)(i) Pro forma condensed statements of comprehensive income must be filed for only the most recent fiscal year, except as noted in paragraph (c)(2)(ii) of this section, and for the period from the most recent fiscal year end to the most recent interim date for which a balance sheet is required. A pro forma condensed statement of comprehensive income may be filed for the corresponding interim period of the

Securities and Exchange Commission

§ 210.11-03

preceding fiscal year. A pro forma condensed statement of comprehensive income must not be filed when the historical statement of comprehensive income reflects the transaction for the entire period.

(ii) For transactions required to be accounted for under U.S. GAAP or, as applicable, IFRS-IASB by retrospectively revising the historical statements of comprehensive income (*e.g.*, combination of entities under common control and discontinued operations), pro forma statements of comprehensive income must be filed for all periods for which historical financial statements of the registrant are required. Retrospective revisions stemming from the registrant's adoption of a new accounting principle must not be reflected in pro forma statements of comprehensive income until they are depicted in the registrant's historical financial statements.

(3) Pro forma condensed statements of comprehensive income must be presented using the registrant's fiscal year end. If the most recent fiscal year end of any other entity involved in the transaction differs from the registrant's most recent fiscal year end by more than one fiscal quarter, the other entity's statement of comprehensive income must be brought up to within one fiscal quarter of the registrant's most recent fiscal year end, if practicable. This updating could be accomplished by adding subsequent interim period results to the most recent fiscal year end information and deducting the comparable preceding year interim period results. Disclosure must be made of the periods combined and of the sales or revenues and income for any periods which were excluded from or included more than once in the condensed pro forma statement of comprehensive income (*e.g.*, an interim period that is included both as part of the fiscal year and the subsequent interim period).

Instruction 1 to paragraph (c)(3): In circumstances where different fiscal year ends exist, § 210.3-12 may require a registrant to include in the pro forma financial information an acquired or to be acquired foreign business historical period that would be more current than the periods included in the required

historical financial statements of the foreign business.

(4) Whenever unusual events enter into the determination of the results shown for the most recently completed fiscal year, the effect of such unusual events should be disclosed and consideration should be given to presenting a pro forma condensed statement of comprehensive income for the most recent twelve-month period in addition to those required in paragraph (c)(2)(i) of this section if the most recent twelve-month period is more representative of normal operations.

[85 FR 54066, Aug. 31, 2020]

§ 210.11-03 Presentation of financial forecast.

(a) A financial forecast may be filed in lieu of the pro forma condensed statements of comprehensive income required by § 210.11-02(a)(1).

(1) The financial forecast shall cover a period of at least 12 months from the latest of (i) the most recent balance sheet included in the filing or (ii) the consummation date or estimated consummation date of the transaction.

(2) The forecasted statement of comprehensive income shall be presented in the same degree of detail as the pro forma condensed statement of comprehensive income required by § 210.11-02(a)(3).

(3) Assumptions particularly relevant to the transaction and effects thereof should be clearly set forth.

(4) Historical condensed financial information of the registrant and the business acquired or to be acquired, if any, shall be presented for at least a recent 12 month period in parallel columns with the financial forecast.

(b) Such financial forecast shall be presented in accordance with the guidelines established by the American Institute of Certified Public Accountants.

(c) Forecasted earnings per share data shall be substituted for pro forma per share data.

(d) This section does not permit the filing of a financial forecast in lieu of pro forma information required by U.S. GAAP or IFRS-IASB.

Options on underlying investments where the underlying investment would otherwise be presented in accordance with §§ 210.12-12, 12-13A, 12-13B, 12-13C, or 12-13D should include the description of the underlying investment as would be required by §§ 210.12-12, 12-13A, 12-13B, 12-13C, or 12-13D as part of the description of the option.

⁴ Indicate the interest rate or preferential dividend rate and maturity date, as applicable, for preferred stocks, convertible securities, fixed income securities, government securities, loan participations and assignments, commercial paper, bankers' acceptances, certificates of deposit, short-term securities, repurchase agreements, or other instruments with a stated rate of income. For variable rate securities, indicate a description of the reference rate and spread and: (1) The end of period interest rate or (2) disclose the end of period reference rate for each reference rate described in the Schedule in a note to the Schedule. For securities with payment in kind income, disclose the rate paid in kind.

⁶ Column C shall be totaled. The total of Column C shall agree with the correlative amounts shown on the related balance sheet.

⁷ Indicate by an appropriate symbol each issue of securities which is non-income producing. Evidences of indebtedness and preferred shares may be deemed to be income producing if, on the respective last interest payment date or date for the declaration of dividends prior to the date of the related balance sheet, there was only a partial payment of interest or a declaration of only a partial amount of the dividends payable; in such case, however, each such issue shall be indicated by an appropriate symbol referring to a note to the effect that, on the last interest or dividend date, only partial interest was paid or partial dividends declared. If, on such respective last interest or dividend date, no interest was paid or no cash or in kind dividends declared, the issue shall not be deemed to be income producing. Common shares shall not be deemed to be income producing unless, during the last year preceding the date of the related balance sheet, there was at least one dividend paid upon such common shares.

⁸ Indicate by an appropriate symbol each issue of restricted securities. State the following in a footnote: (a) As to each such issue: (1) Acquisition date, (2) carrying value per unit of investment at date of related balance sheet, *e.g.*, a percentage of current market value of unrestricted securities of the same issuer, etc., and (3) the cost of such securities; (b) as to each issue acquired during the year preceding the date of the related balance sheet, the carrying value per unit of investment of unrestricted securities of the same issuer at: (1) The day the purchase price was agreed to; and (2) the day on which an enforceable right to acquire such securities was obtained; and (c) the aggregate value of all restricted securities and the percentage which the aggregate value bears to net assets.

⁹ Indicate by an appropriate symbol each issue of securities whose value was determined using significant unobservable inputs.

§ 210.12-12B Summary schedule of investments in securities of unaffiliated issuers.

Column A	Column B	Column C	Column D
Name of issuer and title of issue ^{1 3 4 5 6 7 8} .	Balance held at close of period. Number of shares—principal amount of bonds and notes ¹⁰ .	Value of each item at close of period ^{2 9 11 12 13} .	Percentage value compared to net assets.

¹ Categorize the schedule by (a) the type of investment (such as common stocks, preferred stocks, convertible securities, fixed income securities, government securities, options purchased, warrants, loan participations and assignments, commercial paper, bankers' acceptances, certificates of deposit, short-term securities, repurchase agreements, other investment companies, and so forth); and (b) the related industry, country or geographic region of the investment.

² The subtotals for each category of investments, subdivided both by type of investment and industry, country, or geographic region, shall be shown together with their percentage value compared to net assets.

³ Indicate the interest rate or preferential dividend rate and maturity date, as applicable, for preferred stocks, convertible securities, fixed income securities, government securities, loan participations and assignments, commercial paper, bankers' acceptances, certificates of deposit, short-term securities, repurchase agreements, or other instruments with a stated rate of income. For variable rate securities, indicate a description of the reference rate and spread and: (1) The end of period interest rate or (2) disclose the end of period reference rate for each reference rate described in the Schedule in a note to the Schedule. For securities with payment in kind income, disclose the rate paid in kind.

⁴ Except as provided in note 6, list separately the 50 largest issues and any other issue the value of which exceeded one percent of net asset value of the registrant as of the close of the period. For purposes of the list (including, in the case of short-term debt instruments, the first sentence of note 4), aggregate and treat as a single issue, respectively, (a) short-term debt instruments (i.e., debt instruments whose maturities or expiration dates at the time of acquisition are one year or less) of the same issuer (indicating the range of interest rates and maturity dates); and (b) fully collateralized repurchase agreements (indicate in a footnote the range of dates of the repurchase agreements, the total purchase price of the securities, the total amount to be received upon repurchase, the range of repurchase dates, and description of securities subject to the repurchase agreements). Restricted and unrestricted securities of the same issue should be aggregated for purposes of determining whether the issue is among the 50 largest issues, but should not be combined in the schedule. For purposes of determining whether the value of an issue exceeds one percent of net asset value, aggregate and treat as a single issue all securities of any one issuer, except that all fully collateralized repurchase agreements shall be aggregated and treated as a single issue. The U.S. Treasury and each agency, instrumentality, or corporation, including each government-sponsored entity, that issues U.S. government securities is a separate issuer.

⁵ For options purchased, all information required by § 210.12-13 for options contracts written should be shown. Options on underlying investments where the underlying investment would otherwise be presented in accordance with §§ 210.12-12, 12-13A, 12-13B, 12-13C, or 12-13D should include the description of the underlying investment as would be required by §§ 210.12-12, 12-13A, 12-13B, 12-13C, or 12-13D as part of the description of the option.

⁶ If multiple securities of an issuer aggregate to greater than one percent of net asset value, list each issue of the issuer separately (including separate listing of restricted and unrestricted securities of the same issue) except that the following may be aggregated and listed as a single issue: (a) Fixed-income securities of the same issuer which are not among the 50 largest issues and whose value does not exceed one percent of net asset value of the registrant as of the close of the period (indicating the range of interest rates and maturity dates); and (b) U.S. government securities of a single agency, instrumentality, or corporation, which are not among the 50 largest issues and whose value does not exceed one percent of net asset value of the registrant as of the close of the period (indicating the range of interest rates and maturity dates). For each category identified pursuant to note 1, group all issues that are neither separately listed nor included in a group of securities that is listed in the aggregate as a single issue in a sub-category labeled "Other securities," and provide the information for Columns C and D.

⁷ Any securities that would be required to be listed separately or included in a group of securities that is listed in the aggregate as a single issue may be listed in one amount as "Miscellaneous securities," provided the securities so listed are eligible to be, and are, categorized as "Miscellaneous securities" in the registrant's Schedule of Investments in Securities of Unaffiliated Issuers required under § 210.12-12. However, if any security that is included in "Miscellaneous securities" would otherwise be required to be included in a group of securities that is listed in the aggregate as a single issue, the remaining securities of that group must nonetheless be listed as required by notes 4 and 5 even if the remaining securities alone would not otherwise be required to be listed in this manner (e.g., because the combined value of the security listed in "Miscellaneous securities" and the remaining securities of the same issuer exceeds one percent of net asset value, but the value of the remaining securities alone does not exceed one percent of net asset value).

⁸ If any securities are listed as "Miscellaneous securities" pursuant to note 6 or "Other securities" pursuant to note 5, briefly explain in a footnote what those terms represent.

⁹ Total Column C. The total of Column C should equal the total shown on the related balance sheet for investments in securities of unaffiliated issuers.

¹⁰ Indicate by an appropriate symbol each issue of securities which is non-income producing. Evidences of indebtedness and preferred shares may be deemed to be income producing if, on the respective last interest payment date or date for the declaration of dividends prior to the date of the related balance sheet, there was only a partial payment of interest or a declaration of only a partial amount of the dividends payable; in such case, however, each such issue shall be indicated by an appropriate symbol referring to a note to the effect that, on the last interest or dividend date, only partial interest was paid or partial dividends declared. If, on such respective last interest or dividend date, no interest was paid or no cash or in kind dividends declared, the issue shall not be deemed to be income producing. Common shares shall not be deemed to be income producing unless, during the last year preceding the date of the related balance sheet, there was at least one dividend paid upon such common shares.

¹¹ Indicate by an appropriate symbol each issue of restricted securities. State the following in a footnote: (a) As to each such issue: (1) Acquisition date, (2) carrying value per unit of investment at date of related balance sheet, e.g., a percentage of current market value of unrestricted securities of the same issuer, etc., and (3) the cost of such securities; (b) as to each issue acquired during the year preceding the date of the related balance sheet, the carrying value per unit of investment of unrestricted securities of the same issuer at: (1) The day the purchase price was agreed to; and (2) the day on which an enforceable right to acquire such securities was obtained; and (c) the aggregate value of all restricted securities and the percentage which the aggregate value bears to net assets.

¹² Indicate by an appropriate symbol each issue of securities whose value was determined using significant unobservable inputs.

¹³ Indicate by an appropriate symbol each issue of securities held in connection with open put or call option contracts, loans for short sales, or where any portion of the issue is on loan.

If, on such respective last interest or dividend date, no interest was paid or no dividends declared, the issue shall not be deemed to be income-producing. Common shares shall not be deemed to be income-producing unless, during the last year preceding the date of the related balance sheet, there was at least one dividend paid upon such common shares. the issuers, guarantors, and subsidiaries of the parent company that are not issuers or guarantors of the guaranteed security;

(3) A description of other factors that may affect payments to holders of the guaranteed security, such as contractual or statutory restrictions on dividends, guarantee enforceability, or the rights of a noncontrolling interest holder;

(4) Summarized financial information as specified in § 210.1-02(bb)(1) of each issuer and guarantor of the guaranteed security as follows, with an accompanying note that briefly describes the basis of presentation:

(i) The summarized financial information of each such issuer and guarantor consolidated in the parent company's consolidated financial statements may be presented on a combined basis with the summarized financial information of the parent company;

(ii) Intercompany balances and transactions between issuers and guarantors whose summarized financial information is presented on a combined basis shall be eliminated;

(iii) The summarized financial information shall exclude subsidiaries that are not issuers or guarantors. An issuer's or guarantor's investment in a subsidiary that is not an issuer or guarantor shall not be presented. An issuer's or guarantor's amounts due from, amounts due to, and transactions with any of the following shall be presented in separate line items:

(A) Subsidiaries that are not issuers or guarantors; and

(B) Related parties;

(iv) If the information provided in response to the requirements of this section (*e.g.*, factors that may affect payments to holders of the guaranteed security) is applicable to one or more, but not all, issuers and/or guarantors, separately disclose the summarized financial information applicable to those issuers and/or guarantors. In limited circumstances (*i.e.*, where the separate financial information applicable to those issuers and/or guarantors can be easily explained and understood), narrative disclosure may be provided in lieu of the separate summarized financial information otherwise required by this paragraph (a)(4)(iv);

(v) Disclose this summarized financial information as of and for the most recently ended fiscal year and year-to-date interim period included in the parent company's consolidated financial statements; and

(vi) Notwithstanding that a parent company may omit this summarized financial information if not material, it may also be omitted if one of the following in paragraphs (a)(4)(vi)(A) through (D) of this section is true and disclosed. (A) The assets, liabilities and results of operations of the combined issuers and guarantors of the guaranteed security are not materially different than corresponding amounts presented in the consolidated financial statements of the parent company;

The determination of whether a business has been acquired shall be made in accordance with the guidance set forth in § 210.11-01(d). Acquisitions of a group of related businesses shall be treated as if they are a single business acquisition for purposes of this comparison. The determination of whether a group of businesses are related shall be made in a manner consistent with § 210.3-05(a)(3);

(6) Any financial and narrative information about each guarantor if the information would be material for investors to evaluate the sufficiency of the guarantee; and

(7) Sufficient information so as to make the financial and non-financial information presented not misleading.

(b) The parent company may elect to provide the disclosures required by this section in a footnote to its consolidated financial statements or alternatively, in management's discussion and analysis of financial condition and results of operations described in § 229.303 (Item 303 of Regulation S-K) of this chapter. § 210.14-01

ARTICLE 14 DISCLOSURE OF SEVERE WEATHER EVENTS AND OTHER INFORMATION

SOURCE: 89 FR 21912, Mar. 28, 2024, unless otherwise noted.

EFFECTIVE DATE NOTE: At 89 FR 21912, Mar. 28, 2024, a subject group heading and §§ 210.14-01 and 210.14-02 were added, effective May 28, 2024. At 89 FR 25804, Apr. 12, 2024, the effective date was delayed indefinitely..

§ 210.14-01 Instructions related to disclosure of severe weather events and other information.

(a) *General.* A registrant must include disclosure pursuant to § 210.14-02 in any filing that is required to include disclosure pursuant to subpart 229.1500 of this chapter and that also requires the registrant to include its audited financial statements. The disclosure pursuant to § 210.14-02 must be included in a note to the financial statements included in such filing.

(b) *Definitions.* The definitions in § 229.1500 of this chapter (Item 1500 of Regulation S-K) apply to §§ 210.14-01 and 210.14-02 (Article 14) except where otherwise indicated.

(c) *Basis of calculation.* When calculating the financial statement effects in this Article 14, except where otherwise indicated, a registrant must:

(1) Use financial information that is consistent with the scope of its consolidated financial statements included in the filing; and

(2) Apply the same accounting principles that it is required to apply in the preparation of its consolidated financial statements included in the filing.

(d) *Periods to be disclosed.* Disclosure must be provided for the registrant's most recently completed fiscal year, and to the extent previously disclosed or required to be disclosed, for the historical fiscal year(s), for which audited consolidated financial statements are included in the filing.

§ 210.14-02 Disclosures related to severe weather events and other information.

(a) *Contextual information.* Provide contextual information, describing how each specified financial statement effect disclosed under § 210.14-02(b) through (h) was derived, including a description of significant inputs and as-

17 CFR Ch. II (4-1-25 Edition)

sumptions used, significant judgments made, other information that is important to understand the financial statement effect and, if applicable, policy decisions made by the registrant to calculate the specified disclosures.

(b) *Disclosure thresholds.* (1) Disclosure of the aggregate amount of expenditures expensed as incurred and losses pursuant to paragraph (c) of this section is required if the aggregate amount of expenditures expensed as incurred and losses equals or exceeds one percent of the absolute value of income or loss before income tax expense or benefit for the relevant fiscal year. Such disclosure is not required, however, if the aggregate amount of expenditures expensed as incurred and losses is less than \$100,000 for the relevant fiscal year.

(2) Disclosure of the aggregate amount of capitalized costs and charges incurred pursuant to paragraph (d) of this section is required if the aggregate amount of the absolute value of capitalized costs and charges equals or exceeds one percent of the absolute value of stockholders' equity or deficit at the end of the relevant fiscal year. Such disclosure is not required, however, if the aggregate amount of the absolute value of capitalized costs and charges is less than \$500,000 for the relevant fiscal year.

(c) *Expenditures expensed as incurred and losses resulting from severe weather events and other natural conditions.* Disclose the aggregate amount of expenditures expensed as incurred and losses, excluding recoveries, incurred during the fiscal year as a result of severe weather events and other natural conditions, such as hurricanes, tornadoes, flooding, drought, wildfires, extreme temperatures, and sea level rise. For example, a registrant may be required to disclose the amount of expense or loss, as applicable, to restore operations, relocate assets or operations affected by the event or other natural condition, retire affected assets, repair affected assets, recognize impairment loss on affected assets, or otherwise respond to the effect that severe weather events and other natural conditions had on business operations. Disclosure pursuant to this paragraph must separately identify where the expenditures

expensed as incurred and losses are presented in the income statement.

(d) *Capitalized costs and charges resulting from severe weather events and other natural conditions.* Disclose the aggregate amount of capitalized costs and charges, excluding recoveries, incurred during the fiscal year as a result of severe weather events and other natural conditions, such as hurricanes, tornadoes, flooding, drought, wildfires, extreme temperatures, and sea level rise. For example, a registrant may be required to disclose the amount of capitalized costs or charges, as applicable, to restore operations, retire affected assets, replace or repair affected assets, recognize an impairment charge for affected assets, or otherwise respond to the effect that severe weather events and other natural conditions had on business operations. Disclosure pursuant to this paragraph must separately identify where the capitalized costs and charges are presented in the balance sheet.

(e) *Carbon offsets and RECs.* (1) If carbon offsets or RECs have been used as a material component of a registrant's plans to achieve its disclosed climate-related targets or goals, disclose the aggregate amount of carbon offsets and RECs expensed, the aggregate amount of capitalized carbon offsets and RECs recognized, and the aggregate amount of losses incurred on the capitalized carbon offsets and RECs, during the fiscal year. In addition, disclose the beginning and ending balances of the capitalized carbon offsets and RECs for the fiscal year. Disclosure pursuant to this paragraph must separately identify where the expenditures expensed, capitalized costs, and losses are presented in the income statement and the balance sheet.

(2) If a registrant is required to provide disclosure pursuant to paragraph (e)(1) of this section, then a registrant must state its accounting policy for carbon offsets and RECs as part of the contextual information required by paragraph (a) of this section.

(f) *Recoveries.* If a registrant is required to provide disclosure pursuant to paragraphs (c) or (d) of this section, then as part of the contextual information required by paragraph (a) of this section, a registrant must state sepa-

rately the aggregate amount of any recoveries recognized during the fiscal year as a result of severe weather events and other natural conditions for which capitalized costs, expenditures expensed, charges, or losses are disclosed pursuant to paragraphs (c) or (d) of this section. Disclosure pursuant to this paragraph must separately identify where the recoveries are presented in the income statement and the balance sheet.

(g) *Attribution.* For purposes of providing disclosure pursuant to paragraphs (c), (d), and (f) of this section, a capitalized cost, expenditure expensed, charge, loss, or recovery results from a severe weather event or other natural condition when the event or condition is a significant contributing factor in incurring the capitalized cost, expenditure expensed, charge, loss, or recovery. If an event or condition is a significant contributing factor in incurring a cost, expenditure, charge, loss, or recovery, then the entire amount of such cost, expenditure, charge, loss, or recovery must be included in the disclosure pursuant to paragraphs (c), (d), and (f) of this section.

(h) *Financial estimates and assumptions materially impacted by severe weather events and other natural conditions or disclosed targets or transition plans.* Disclose whether the estimates and assumptions the registrant used to produce the consolidated financial statements were materially impacted by exposures to risks and uncertainties associated with, or known impacts from, severe weather events and other natural conditions, such as hurricanes, tornadoes, flooding, drought, wildfires, extreme temperatures, and sea level rise, or any climate-related targets or transition plans disclosed by the registrant. If yes, provide a qualitative description of how the development of such estimates and assumptions were impacted by such events, conditions, targets, or transition plans.

§ 210.15-01

ACQUISITIONS OF BUSINESSES BY A SHELL COMPANY (OTHER THAN A BUSINESS COMBINATION RELATED SHELL COMPANY)

§ 210.15-01 Acquisitions of businesses by a shell company (other than a business combination related shell company).

(a) *Audit requirements.* The term *audit* (or *examination*), when used in regard to financial statements of an entity that is or will be a predecessor to a shell company (other than a business combination related shell company), means an examination of the financial statements by an independent accountant in accordance with the standards of the Public Company Accounting Oversight Board ("PCAOB") for the purpose of expressing an opinion thereon. When used in regard to financial statements of an entity that is not a predecessor that are included in a registration statement or proxy statement filed for a combination with an issuer that is a shell company (other than a business combination related shell company), the term means an examination of the financial statements by an independent accountant in accordance with either the standards of the PCAOB or U.S. generally accepted auditing standards ("U.S. GAAS") as specified or permitted in this part and forms applicable to those entities for the purpose of expressing an opinion thereon. In transactions involving a shell company that is not a SPAC (as defined in § 229.1601(b) of this chapter), the predecessor must be audited by an independent accountant registered with the PCAOB.

(b) *Financial statements.* When a registrant is a shell company (other than a business combination related shell company) and the financial statements of a business that will be combining with such registrant are required in a registration statement or proxy statement, such registrant must file financial statements of the business in accordance with §§ 210.3-01 through 210.3-12 and 210.10-01 (Articles 3 and 10 of Regulation S-X) as if the filing were a Securities Act registration statement for the initial public offering of the business's equity securities. The financial statements of the business may be

17 CFR Ch. II (4-1-25 Edition)

filed pursuant to §§ 210.8-01 through 210.8-08 (Article 8) when that business would qualify to be a smaller reporting company based on its annual revenues as of the most recently completed fiscal year for which audited financial statements are available, if it were filing a registration statement alone.

(c) *Age of financial statements.* The financial statements of a business that will be acquired by a shell company (other than a business combination related shell company) must comply with the requirements in § 210.3-12 (§ 210.8-08 when that business would qualify to be a smaller reporting company based on its annual revenues as of the most recently completed fiscal year for which audited financial statements are available, if it were filing a registration statement alone) as if the financial statements were included in an initial registration statement in determining the age of financial statements of the business in the registration statement or proxy statement of the registrant.

(d) *Acquisition of a business or real estate operation by a predecessor.* Registrants must apply § 210.3-05 (§ 210.8-04 when the predecessor would qualify to be a smaller reporting company based on its annual revenues as of the most recently completed fiscal year for which audited financial statements are available if it were filing a registration statement alone) or § 210.3-14 (§ 210.8-06 when the predecessor would qualify to be a smaller reporting company based on its annual revenues as of the most recently completed fiscal year for which audited financial statements are available if it were filing a registration statement alone) to acquisitions of a business or real estate operation, respectively, by a predecessor.

(1) See § 210.1-02(w)(1) for rules on applying the significance tests to acquisitions of a business or real estate operation that is not or will not be the predecessor.

(2) When the financial statements of a recently acquired business or real estate operation that is not or will not be the predecessor are omitted from a registration statement or proxy statement pursuant to § 210.3-05(b)(4)(i) (Rule 3-05(b)(4)(i) of Regulation S-X) or § 210.3-14(b)(3)(i) (Rule 3-14(b)(3)(i) of Regulation S-X), those financial statements

must be filed in a Form 8-K by the later of the filing of the Form 8-K filed pursuant to Item 2.01(f) of Form 8-K or 75 days after consummation of the acquisition.

(e) *Financial statements of shell company.* After a shell company registrant (other than a business combination related shell company) acquires a business that is its predecessor, the financial statements of the shell company for periods prior to consummation of the acquisition are not required to be included in any filing once the financial statements of the predecessor have been filed for all required periods through the acquisition date and the financial statements of the registrant include the period in which the acquisition was consummated. If a registrant is to acquire or has acquired a shell company (other than a business combination related shell company), the financial statements of the shell com-

pany are required to be included in any filing that requires the registrant's financial statements, as if the shell company were the registrant for the filing, unless the financial statements of the registrant include the period in which the acquisition of the shell company was consummated.
