

serious defect, or imminent safety hazard was delivered;

(2) By certified mail or other more expeditious means that provides a receipt to the first purchaser of each manufactured home in the class of manufactured homes containing the defect, serious defect, or imminent safety hazard, and, to the extent feasible, to any subsequent owner to whom any warranty provided by the manufacturer or required by federal, state, or local law on such manufactured home has been transferred, except that notification need not be sent to any person known by the manufacturer not to own the manufactured home in question if the manufacturer has a record of a subsequent owner of the manufactured home; and

(3) By certified mail or other more expeditious means that provides a receipt to each other person who is a registered owner of a manufactured home in the class of homes containing the defect, serious defect, or imminent safety hazard and whose name has been ascertained pursuant to § 3282.211 or is known to the manufacturer.

§ 3282.406 Required manufacturer correction.

(a) *Correction of noncompliances and defects.* (1) Section 3282.415 sets out requirements with respect to a manufacturer's correction of any noncompliance or defect that exists in each manufactured home that has been sold or otherwise released to a retailer but that has not yet been sold to a purchaser.

(2) In accordance with section 623 of the Act and Part 3288, "Manufactured Home Dispute Resolution Program," of this chapter, the manufacturer, retailer, or installer of a manufactured home deemed responsible for correction of repairs or defects must correct, at its expense, each failure in the performance, construction, components, or material of the home that renders the home or any part of the home not fit for the ordinary use for which it was intended and that is reported during the one-year period beginning on the date of installation of the home (see § 3286.115).

(b) *Correction of serious defects and imminent safety hazards.* (1) A manufac-

turer required to furnish notification under § 3282.405 or § 3282.413 must correct, at its expense, any serious defect or imminent safety hazard that can be related to an error in design or assembly of the manufactured home by the manufacturer, including an error in design or assembly of any component or system incorporated into the manufactured home by the manufacturer.

(2) If, while making corrections under any of the provisions of this subpart, the manufacturer creates an imminent safety hazard or serious defect, the manufacturer shall correct the imminent safety hazard or serious defect.

(3) Each serious defect or imminent safety hazard corrected under this paragraph (b) must be brought into compliance with applicable construction and safety standards or, where those standards are not specific, with the manufacturer's approved design.

(c) *Inclusion in plan.* (1) In the plan required by § 3282.408, the manufacturer must provide for correction of those homes that are required to be corrected pursuant to paragraph (b) of this section.

(2) If the Secretary or SAA orders a manufacturer to provide correction in accordance with the procedures in § 3282.413, the Secretary or SAA has the option of requiring a manufacturer to prepare and receive approval on a plan for correction.

(d) *Corrections by owners.* A manufacturer that is required to make corrections under paragraph (b) of this section, or that elects to make corrections in accordance with § 3282.407, must reimburse any owner of an affected manufactured home who chooses to make the correction before the manufacturer did so, for the reasonable cost of correction.

(e) *Correction of appliances, components, or systems.* (1) If any appliance, component, or system in a manufactured home is covered by a product warranty, the manufacturer, retailer, or installer that is responsible under this section for correcting a noncompliance, defect, serious defect, or imminent safety hazard in the appliance, component, or system may seek the required correction directly from the producer. The SAA that approves

any plan of notification required pursuant to § 3282.408 or the Secretary, as applicable, may establish reasonable time limits for the manufacturer of the home and the producer of the appliance, component, or system to agree on who is to make the correction and for completing the correction.

(2) Nothing in this section shall prevent the manufacturer, retailer, or installer from seeking indemnification from the producer of the appliance, component, or system for correction work done on any appliance, component, or system.

§ 3282.407 Voluntary compliance with the notification and correction requirements under the Act.

A manufacturer that takes corrective action that complies with one of the following three alternatives to the requirement in § 3282.408 for preparing a plan will be deemed to have provided any notification required by § 3282.405:

(a) *Voluntary action—one home.* When a manufacturer has made a determination that only one manufactured home is involved, the manufacturer is not required to provide notification pursuant to § 3282.405 or to prepare or submit a plan if:

(1) The manufacturer has made a determination of defect; or

(2) The manufacturer has made a determination of serious defect or imminent safety hazard and corrects the home within the 20-day period. The manufacturer must maintain, in the plant where the manufactured home was manufactured, a complete record of the correction. The record must describe briefly the facts of the case and any known cause of the serious defect or imminent safety hazard, state what corrective actions were taken, and be maintained in the service records in a form that will allow the Secretary or an SAA to review all such corrections.

(b) *Voluntary action—multiple homes.* Regardless of whether a plan has been submitted under § 3282.408, the manufacturer may act prior to obtaining approval of the plan. Such action is subject to review and disapproval by the SAA of the state where the home was manufactured or by the Secretary, unless the manufacturer obtains the written agreement of the SAA or the Sec-

retary that the corrective action is adequate. If such an agreement is obtained, the correction must be accepted as adequate by all SAAs and the Secretary, if the manufacturer makes the correction as agreed to and any imminent safety hazard or serious defect is eliminated.

(c) *Waiver.* (1) A manufacturer may obtain a waiver of the notification requirements in § 3282.405 and the plan requirements in § 3282.408 either from the SAA of the state of manufacture, when all of the manufactured homes that would be covered by the plan were manufactured in that state, or from the Secretary. As of the date of a request for a waiver, the notification and plan requirements are deferred pending timely submission of any additional documentation as the SAA or the Secretary may require and final resolution of the waiver request. If a waiver request is not granted, the plan required by § 3282.408 must be submitted within 5 days after the expiration of the time frame established in § 3282.408, if the manufacturer is notified that the request was not granted.

(2) The waiver may be approved if, not later than 20 days after making the determination that notification is required, the manufacturer presents evidence that it, in good faith, believes would show to the satisfaction of the SAA or the Secretary that:

(i) The manufacturer has identified all homes that would be covered by the plan in accordance with § 3282.408;

(ii) The manufacturer will correct, at its expense, all of the identified homes, either within 60 days of being informed that the request for waiver has been granted or within another time limit approved in the waiver;

(iii) The proposed repairs are adequate to remove the defect, serious defect, or imminent safety hazard that gave rise to the determination that correction is required; and

(3) The manufacturer must correct all affected manufactured homes within 60 days of being informed that the request for waiver has been granted or within the time limit approved in the waiver, as applicable. The manufacturer must record the known cause of the problem and the correction in the service records, in an approved form
