

Coast Guard, DHS

§ 117.113

with vessels, detect vessels immediately underneath the bridge or visually identify trains approaching the bridge;

(2) CSX fails to meet Federal Railway Administration (FRA) or any other government agency safety requirements;

(3) Anytime at the direction of the District Commander.

[USCG-2019-0910, 87 FR 42648, July 18, 2022]

§ 117.106 Black Warrior River.

The draw of the Alabama Gulf Coast (AGR) vertical lift span (Yo-Yo) bridge across the Black Warrior River, mile 219.0, at Demopolis, shall operate as follows:

(a) The draw shall be maintained in the fully open-to-navigation position for vessels at all times, except during periods when it is closed for the passage of rail traffic.

(b) Railroad track circuits will initiate the automatic bridge opening and closing sequences. (Estimated duration that the bridge will remain closed for passage of rail traffic is 10 to 15 minutes.)

(c) Upon detecting an approaching train, the track circuits will initiate bridge closing warning consisting of continuous horn blowing and the navigation lights changing to flashing yellow. Photoelectric (infrared) boat detectors will monitor the waterway beneath the bridge for the presence of vessels.

(d) At the end of a six-minute warning period, if no vessels have been detected by the boat detectors, the bridge lowering sequence will automatically proceed taking approximately two minutes to complete. As soon as the bridge leaves the up position, the horn will silence but the navigation lights change to flashing red.

(e) Upon passage of the train, the bridge will automatically open unless another movement is detected. The navigation lights will continue to flash red until the bridge has returned to the full open position at which time they will change to steady green.

(f) The bridge can also be operated from two locked trackside control location (key releases) on the approach spans, one on each side of the movable span.

(g) To request openings of the bridge when the lift span is in the closed-to-navigation position, mariners may contact the AGR via VHF-FM channel 16 or by telephone at 205-654-4364.

[USCG-2012-0764, 77 FR 57028, Sept. 17, 2012]

§ 117.107 Chattahoochee River.

The draws of the CSX Transportation Railroad bridge, mile 117.1 near Omaha, GA, shall open on signal if at least six hours notice is given.

§ 117.109 Coosa River.

The draw of the CSX Transportation Railroad bridge, mile 175.0 at Gadsden, shall open on signal if at least six hours notice is given.

§ 117.111 Mobile River.

(a) The draw of the CSX Transportation Railroad bridge, mile 13.1 near Hurricane, AL shall be remotely operated by the bridge tender at CSX's bridge remote control center in Mobile, AL and shall open promptly and fully when signaled to open. Vessels can contact the CSX bridge tender via VHF-FM channel 13 or by telephone at the number displayed on the signs posted at the bridge to request an opening of the draw.

(b) CSX will return the tender to the bridge location within 3 hours following any of the below situations:

(1) Any component of the remote operations system fails and prevents the remote operator from being able to visually identify vessels, communicate with vessels, detect vessels immediately underneath the bridge or visually identify trains approaching the bridge;

(2) CSX fails to meet Federal Railway Administration (FRA) or any other government agency safety requirements;

(3) Anytime at the direction of the District Commander.

[USCG-2019-0911, 87 FR 42645, July 18, 2022]

§ 117.113 Tensaw River.

The draw of the CSX Transportation Railroad bridge, mile 15.0 at Hurricane, shall open on signal if at least ten-hours-notice is given. The draw shall
