- (3) The date when operation of the facility is expected to commence; and
- (4) The date when the facility is expected to be available for inspection by the Coast Guard.
- (b) The information required in paragraph (a) of this section may be submitted together with a need not repeat information submitted in connection with the application and notice requirements in 33 CFR part 67 for aids to navigation on the Outer Continental Shelf.

§ 146.15 Maintenance of emergency equipment.

- (a) The emergency equipment provided, regardless of whether or not required by this subchapter, shall be maintained in good condition at all times. Good operating practices require replacement of expended equipment, as well as periodic renewal of those items which have a limited period of effectiveness.
- (b) Each personal flotation device light that has a non-replaceable power source must be replaced on or before the expiration date of the power source.
- (c) Each replaceable power source for a personal flotation device light must be replaced on or before its expiration date and the light must be replaced when it is no longer serviceable.

§146.20 Work vests.

- (a) Types of approved work vests. Each buoyant work vest carried under the permissive authority of this section must be approved under—
 - (1) 46 CFR 160.053; or
- (2) 46 CFR 160.077 as a commercial hybrid PFD.
- (b) Use. Approved buoyant work vests are considered to be items of safety apparel and may be carried aboard OCS facilities to be worn by persons employed thereon when working near or over the water. The use and control of such vests shall be under the supervision of the person in charge of the facility. When carried, such vests shall not be accepted in lieu of any portion of the required number of approved life preservers and shall not be substituted for the approved life preservers required to be worn during drills and emergencies.

- (c) Stowage. The work vests shall be stowed separately from the regular stowage of approved life preservers. The location for the stowage of work vests shall be such as not to be easily confused with that for approved life preservers.
- (d) Inspections. Each work vest shall be subject to examination by a marine inspector to determine its service-ability. If found to be satisfactory, it may be continued in service, but shall not be stamped by a marine inspector with a Coast Guard stamp. If a work vest is found not to be in a serviceable condition, then such work vest shall be removed from the OCS facility. If a work vest is beyond repair, it shall be destroyed or mutilated in the presence of a marine inspector so as to prevent its continued use as a work vest.
- (e) Additional requirements for hybrid work vests. Commercial hybrid PFD's must, in addition to the other requirements in this section, be—
- (1) Used, stowed, and maintained in accordance with—
- (i) The procedures set out in the manual required for these devices by 46 CFR 160.077-29; and
- (ii) Any limitation(s) marked on them: and
- (2) Of the same or similar design and have the same method of operation as each other hybrid PFD carried on board.

[CGD 78-160, 47 FR 9383, Mar. 4, 1982, as amended by CGD 78-174A, 51 FR 4339, Feb. 4, 1986]

§ 146.30 Notice of casualties.

- (a) The owner, operator, and person in charge of an OCS facility shall ensure that the Coast Guard is notified as soon as possible after a casualty occurs, and by the most rapid means available, of each casualty involving the facility which results in:
 - (1) Death: or
- (2) Injury to 5 or more persons in a single incident.
- (b) The owner, operator, and person in charge shall ensure that the Coast Guard is notified promptly of each casualty involving the facility which results in:
- (1) Damage affecting the usefulness of primary lifesaving or firefighting equipment;

§ 146.35

- (2) Injury causing any person to be incapacitated for more than 72 hours;
- (3) Damage to the facility exceeding \$25,000 resulting from a collision by a vessel with the facility; or
- (4) Damage to a floating OCS facility exceeding \$25,000.
- (c) The notice required by paragraphs (a) and (b) of this section must identify the person giving the notice and the facility involved and describe, insofar as practicable, the nature of the casualty and the extent of injury to personnel and damage to property.
- (d) Damage costs referred to in paragraphs (b)(3) and (b)(4) of this section include the cost of labor and material to restore the facility to the service condition which existed prior to the casualty, but does not include the cost of salvage, cleaning, gas freeing, drydocking or demurrage of the facility.

§146.35 Written report of casualty.

- (a) In addition to the notice of a casualty required by §146.30, the owner, operator, or person in charge shall, within 10 days of the casualty, submit to the Officer in Charge, Marine Inspection, a written report which:
- (1) Identifies the facility involved, its owner, operator, and person in charge;
- (2) Describes the casualty, including the date and time:
- (3) Describes the nature and extent of injury to personnel and damage to property;
- (4) Describes the factors which may have contributed to causing the casualty:
- (5) Gives the name, address, and phone number of persons involved in or witnessing the casualty; and
- (6) Gives any desired comments, especially with respect to use of or need for emergency equipment.
- (7) Includes information relating to alcohol or drug involvement as specified in the vessel casualty reporting requirements of 46 CFR 4.05–12.
- (b) The written report required by paragraph (a) of this section may be—

- (1) In narrative form if all appropriate parts of Form CG-2692 are addressed:
- (2) On Form CG-2692 for casualties resulting in property damage, personnel injury, or loss of life.
- (c) If filed or postmarked within 5 days of the casualty, the written report required by paragraph (a) of this section serves as the notice required by §146.30(b).

§ 146.40 Diving casualties.

Diving related casualties are reported in accordance with 46 CFR 197.484 and 197.486.

§ 146.45 Pollution incidents.

Oil pollution incidents involving an OCS facility are reported in accordance with §§ 135.305 and 135.307 of this chapter. Additional provisions concerning liability and compensation because of oil pollution are contained in Subchapter M of this chapter.

Subpart B—Manned OCS Facilities

§146.101 Applicability.

The provisions of this subpart apply only to manned OCS facilities except mobile offshore drilling units.

§146.102 Definitions.

For the purpose of this subpart:

Arrives on the OCS means when a floating facility enters any OCS block area for the purpose of engaging in operations subject to the jurisdiction of the OCS Lands Act.

OCS block area means the names given by the Bureau of Ocean Energy Management, (BOEM) to define the OCS areas used to facilitate management or leasing on the OCS.

U.S., as used in the term, "U.S. floating facility," means a "floating facility," that is registered, documented, or certificated under the laws of the United States or that is not registered, documented, or certificated under the
