

shall exercise due diligence to repair it at the earliest practicable time. He or she shall enter its failure in the log or other record carried on board. The failure of equipment, in itself, does not constitute a violation of this rule; nor does it constitute unseaworthiness; nor does it obligate an owner, master, or operator to moor or anchor the vessel. However, the owner, master, or operator shall consider the state of the equipment—along with such factors as weather, visibility, traffic, and the dictates of good seamanship—in deciding whether it is safe for the vessel to proceed.

(c) *Reporting.* The owner, master, or operator of each towing vessel whose equipment is inoperative or otherwise impaired while the vessel is operating within a Vessel Traffic Service (VTS) Area shall report the fact as required by 33 CFR Table 161.18(a) row Q.

(d) *Deviation and authorization.* The owner, master, or operator of each towing vessel unable to repair within 96 hours an inoperative marine radar required by §164.72(a) shall so notify the Captain of the Port (COTP) and shall seek from the COTP both a deviation from the requirements of this section and an authorization for continued operation in the area to be transited. Failure of redundant navigational-safety equipment, including but not limited to failure of one of two installed radars, where each satisfies §164.72(a), does not necessitate either a deviation or an authorization.

(1) The initial notice and request for a deviation and an authorization may be spoken, but the request must also be written. The written request must explain why immediate repair is impracticable, and state when and by whom the repair will be made.

(2) The COTP, upon receiving even a spoken request, may grant a deviation and an authorization from any of the provisions of §§164.70 through 164.82 for a specified time if he or she decides that they would not impair the safe navigation of the vessel under anticipated conditions.

(B) Any tank barge operating on any waters within the COTP Zone, if the operator demonstrates to the satisfaction of the COTP that the barge employs an equivalent level of safety to that provided by the positive control provisions of this section. Each request for an exemption under this paragraph must be submitted in writing to the cognizant COTP no later than 7 days before the intended transit.

(iv) The operator of a towing vessel engaged in towing any tank barge must immediately call for an escort or assist tug to render assistance in the event of any of the occurrences identified in paragraph (d)(1)(i) of this section.

Pilots are required to embark, direct, and control from the primary tug during transits of Buzzards Bay.

(iv) In addition to the vessels denoted in §161.16 of this chapter, requirements set forth in subpart B of 33 CFR part 161 also apply to any vessel transiting VMRS Buzzards Bay required to carry a bridge-to-bridge radiotelephone by part 26 of this chapter.

(A) A VMRS Buzzards Bay user must:

§ 165.118 Safety Zones; recurring annual events held in Coast Guard Sector Boston Captain of the Port Zone.

The Coast Guard is establishing safety zones for the events listed in Table 1 of this section. These regulations in this section will be enforced for the duration of each event, on or about the dates indicated in Table 1 of this section. Annual notice of the exact dates and times of the effective period of the regulations in this section with respect to each event, the geographical description of each regulated area, and details concerning the nature of the event and the number of participants and type(s) of vessels involved will be made to the local maritime community through the Local Notice to Mariners and/or Broadcast Notice to Mariners well in advance of the events. If the event does not have a date listed, then

the exact dates and times of the enforcement will be announced through a Notice of Enforcement in the FEDERAL REGISTER. Mariners should consult the FEDERAL REGISTER or their LNM to remain apprised of minor schedule or event changes. First Coast Guard District LNM can be found at: <http://www.navcen.uscg.gov/>. The Sector Boston Marine Events schedule can also be viewed electronically at: <http://www.homeport.uscg.mil>. Although listed in the Code of Federal Regulations, sponsors of events listed in Table 1 of this section are still required to submit a marine event permit application each year in accordance with 33 CFR 100.15.

(a) The Coast Guard may patrol each event area under the direction of a designated Coast Guard Patrol Commander. The Patrol Commander may be contacted on Channel 16 VHF-FM (156.8 MHz) by the call sign “PATCOM.” Official patrol vessels may consist of any Coast Guard, Coast Guard Auxiliary, state, or local law enforcement vessels assigned or approved by the Captain of the Port, Sector Boston.

(d) The Patrol Commander may control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, a vessel shall come to an immediate stop and comply with the lawful directions issued. Failure to comply with a lawful direction may result in expulsion from the area, citation for failure to comply, or both.

(e) The Patrol Commander may delay or terminate any marine event in this subpart at any time it is deemed necessary to ensure the safety of life or property. Such action may be justified as a result of weather, traffic density, spectator operation or participant behavior.

**§ 165.153 Regulated Navigation Area:
Long Island Sound Marine Inspection and Captain of the Port Zone.**

(a) *Regulated Navigation Area location.* All waters of the Long Island Sound Marine Inspection and Captain of the Port (COTP) Zone, as delineated in 33 CFR 3.05–35, extending seaward 12 nautical miles from the territorial sea baseline, are established as a regulated navigation area (RNA).

(b) *Applicability.* This section applies to all vessels operating within the RNA excluding public vessels.

(c) *Definitions.* The following definitions apply to this section:

Commercial service means any type of trade or business involving the transportation of goods or individuals, except service performed by a combatant vessel.

Ferry means a vessel that:

(1) Operates in other than ocean or coastwise service;

(2) Has provisions only for deck passengers or vehicles, or both;

(3) Operates on a short run on a frequent schedule between two points over the most direct water route; and

(4) Offers a public service of a type normally attributed to a bridge or tunnel.

Public vessels means vessels owned or bareboat chartered and operated by the United States, or by a State or political subdivision thereof, or by a foreign nation, except when such vessel is engaged in commercial service.

Territorial sea baseline means the line defining the shoreward extent of the territorial sea of the United States drawn according to the principles, as recognized by the United States, of the Convention on the Territorial Sea and the Contiguous Zone, 15 U.S.T. 1606, and the 1982 United Nations Convention on the Law of the Sea (UNCLOS), 21 I.L.M. 1261. Normally, the territorial sea baseline is the mean low water line along the coast of the United States.

(d) *Regulations.* (1) Speed restrictions in the vicinity of Naval Submarine Base New London and Lower Thames River. Unless authorized by the Captain of the Port (COTP), vessels of 300 gross tons or more may not proceed at a speed in excess of eight knots in the Thames River from New London Harbor channel buoys 7 and 8 (Light List

numbers 21875 and 21880 respectively) north through the upper limit of the Naval Submarine Base New London Restricted Area, as that area is specified in 33 CFR 334.75(a). The U.S. Navy and other Federal, State and municipal agencies may assist the U.S. Coast Guard in the enforcement of this rule.

(2) *Enhanced communications.* Vessels of 300 gross tons or more and all vessels engaged in towing barges must issue security calls on marine band or Very High Frequency (VHF) radio channel 16 upon approach to the following locations:

(i) Inbound approach to Cerberus Shoal; and

(ii) Outbound approach to Race Rock Light (USCG Light List No. 19815).

(3) All vessels operating within the RNA that are bound for a port or place located in the United States or that must transit the internal waters of the United States, must be inspected to the satisfaction of the U. S. Coast Guard, before entering waters within three nautical miles from the territorial sea baseline. Vessels awaiting inspection will be required to anchor in the manner directed by the COTP. This section does not apply to vessels operating exclusively within the Long Island Sound Marine Inspection and COTP Zone, vessels on a single voyage which depart from and return to the same port or place within the RNA, all towing vessels engaged in coastwise trade, vessels in innocent passage not bound for a port or place subject to the jurisdiction of the United States, and all vessels not engaged in commercial service whose last port of call was in the United States. Vessels requiring inspection by the COTP may contact the COTP via marine band or Very High Frequency (VHF) channel 16, telephone at (203) 468-4401, facsimile at (203) 468-4418, or letter addressed to Captain of the Port, Long Island Sound, 120 Woodward Ave., New Haven, CT 06512.

(4) All vessels operating within the RNA that are bound for a port or place located in the United States or that must transit the internal waters of the United States, must obtain authorization from the Captain of the Port (COTP) before entering waters within three nautical miles from the territorial sea baseline. Vessels awaiting

COTP authorization to enter waters within three nautical miles from the territorial sea baseline will be required to anchor in the manner directed by the COTP. This section does not apply to vessels operating exclusively within the Long Island Sound Marine Inspection and COTP Zone, vessels on a single voyage which depart from and return to the same port or place within the RNA, all towing vessels engaged in coastwise trade, vessels in innocent passage not bound for a port or place subject to the jurisdiction of the United States, and all vessels not engaged in commercial service whose last port of call was in the United States. Vessels may request authorization from the COTP by contacting the COTP via marine band or Very High Frequency (VHF) channel 16, telephone at (203) 468-4401, facsimile at (203) 468-4418, or letter addressed to Captain of the Port, Long Island Sound, 120 Woodward Ave., New Haven, CT 06512.

(5) Vessels over 1,600 gross tons operating in the RNA within three nautical miles from the territorial sea baseline that are bound for a port or place located in the United States or that must transit the internal waters of the United States must receive authorization from the COTP prior to transiting or any intentional vessel movements, including, but not limited to, shifting berths, departing anchorage, or getting underway from a mooring. This section does not apply to vessels in innocent passage not bound for a port or place subject to the jurisdiction of the United States.

(6) *Ferry vessels.* Vessels of 300 gross tons or more are prohibited from entering all waters within a 1200-yard radius of any ferry vessel transiting in any portion of the Long Island Sound Marine Inspection and COTP Zone without first obtaining the express prior authorization of the ferry vessel operator, master, COTP, or the designated COTP on-scene patrol.

(7) *Vessels engaged in commercial service.* No vessel may enter within a 100-yard radius of any vessel engaged in commercial service while that vessel is transiting, moored, or berthed in any portion of the Long Island Sound Marine Inspection and COTP zone, without the express prior authorization of

the vessel's operator, master, COTP, or the designated COTP on-scene representative.

(8) *Bridge foundations.* Any vessel operating beneath a bridge must make a direct, immediate and expeditious passage beneath the bridge while remaining within the navigable channel. No vessel may stop, moor, anchor or loiter beneath a bridge at any time. No vessel may approach within a 25-yard radius of any bridge foundation, support, stanchion, pier or abutment except as required for the direct, immediate and expeditious transit beneath a bridge.

(9) This section does not relieve any vessel from compliance with applicable Navigation Rules (COLREGS and their associated Annexes and Inland Navigation Rules (33 CFR subchapter E)).

§ 165.173 Safety Zones for annually recurring marine events held in Coast Guard Southeastern New England Captain of the Port Zone.

(a) *Regulations.* (1) The general regulations contained in 33 CFR 165.23 as well as the following regulations apply to the fireworks displays and swim events listed in the Table to § 165.173. These regulations may be enforced for the duration of each event.

(2) Notifications will be made to the local maritime community through the Local Notice to Mariners well in advance of the events. If the event does not have a date listed, then exact dates and times of the enforcement period will be announced through a Notice of Enforcement in the FEDERAL REGISTER.

NOTE TO PARAGRAPH (a): Although listed in the Code of Federal Regulations, sponsors of events listed in the Table shall submit an application each year in accordance with 33 CFR 100.15.

(b) *Definitions.* The following definitions apply to this section:

(1) *Designated representative.* A “designated representative” is any Coast Guard commissioned, warrant or petty officer of the U.S. Coast Guard who has been designated by the Captain of the Port, Southeastern New England (COTP), to act on his or her behalf. The designated representative may be on an official patrol vessel or may be on shore and will communicate with vessels via VHF-FM radio or loudhailer. In addition, members of the Coast Guard Auxiliary may be present to inform vessel operators of this regulation.

(2) *Official patrol vessels.* Official patrol vessels may consist of any Coast Guard, Coast Guard Auxiliary, state, or local law enforcement vessels assigned or approved by the COTP.

(3) *Spectators.* All persons and vessels not registered with the event sponsor as participants or official patrol vessels.

(c) The Coast Guard may patrol each event area under the direction of a designated Coast Guard Patrol Commander. The Patrol Commander may be contacted on Channel 16 VHF-FM (156.8 MHz) by the call sign “PATCOM.” The “official patrol vessels” may consist of any Coast Guard, Coast Guard Auxiliary, state, or local law enforcement vessels assigned or approved by the Captain of the Port, Southeastern New England.

(d) Vessels may not transit the regulated areas without Patrol Commander approval. Vessels permitted to transit must operate at a no wake speed, in a manner which will not endanger participants or other crafts in the event.

(e) Spectators or other vessels shall not anchor, block, loiter, or impede the movement of event participants or official patrol vessels in the regulated areas during the effective dates and times, or dates and times as modified through a Notice of Enforcement published in the FEDERAL REGISTER, unless authorized by an official patrol vessel.

(f) The Patrol Commander may control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, a vessel shall come to an immediate stop and comply with the lawful directions issued. Failure to comply with a lawful direction may result in expulsion from the area, citation for failure to comply, or both.

(g) The Patrol Commander may delay or terminate any event in this subpart at any time to ensure safety. Such action may be justified as a result of weather, traffic density, spectator operation or participant behavior.

(h) For all fireworks displays listed below, the regulated area is that area of navigable waters within the specified radius of the launch platform or launch site for each fireworks display, unless modified later in a Notice of Enforcement published in the FEDERAL REGISTER.

§ 165.749 Security Zone: Escorted Vessels, Savannah, Georgia, Captain of the Port Zone.

(a) *Definitions.* The following definitions apply to this section:

COTP means Captain of the Port Savannah, GA.

Designated representatives means Coast Guard Patrol Commanders including Coast Guard coxswains, petty officers and other officers operating Coast Guard vessels, and Federal, State, and local officers designated by or assisting the COTP, in the enforcement of the security zone.

Escorted vessel means a vessel, other than a large U.S. naval vessel as defined in 33 CFR 165.2015, that is accompanied by one or more Coast Guard assets or other Federal, State or local law enforcement agency assets clearly identifiable by lights, vessel markings, or with agency insignia as listed below:

(1) Coast Guard surface or air asset displaying the Coast Guard insignia.

(2) State and/or local law enforcement asset displaying the applicable agency markings and/or equipment associated with the agency.

(3) When escorted vessels are moored, dayboards or other visual indications such as lights or buoys may be used. In all cases, broadcast notice to mariners will be issued to advise mariners of these restrictions.

Minimum safe speed means the speed at which a vessel proceeds when it is fully off plane, completely settled in the water and not creating excessive wake. Due to the different speeds at which vessels of different sizes and configurations may travel while in compliance with this definition, no specific speed is assigned to minimum safe speed. In no instance should minimum safe speed be interpreted as a speed less than that required for a particular vessel to maintain steerageway. A vessel is not proceeding at minimum safe speed if it is:

(1) On a plane;

(2) In the process of coming up onto or coming off a plane; or

(3) Creating an excessive wake.

(b) *Regulated area.* All navigable waters, as defined in 33 CFR 2.36, within the Captain of the Port Zone, Savannah, Georgia 33 CFR 3.35-15.

(c) *Security zone.* A 300-yard security zone is established around each escorted vessel within the regulated area described in paragraph (b) of this section. This is a moving security zone when the escorted vessel is in transit and becomes a fixed zone when the escorted vessel is anchored or moored. A security zone will not extend beyond the boundary of the regulated area in this section.

(d) *Regulations.* (1) The general regulations for security zones contained in § 165.33 of this part apply to this section.

(2) A vessel may request the permission of the COTP Savannah or a designated representative to enter the security zone described in paragraph (c) of this section. If permitted to enter the security zone, a vessel must proceed at the minimum safe speed and must comply with the orders of the COTP or a designated representative. No vessel or person may enter the inner 50-yard portion of the security zone closest to the vessel.

(e) *Notice of security zone.* The COTP will inform the public of the existence or status of the security zones around escorted vessels in the regulated area by Broadcast Notice to Mariners. Coast Guard assets or other Federal, State or local law enforcement agency assets will be clearly identified by lights, vessel markings, or with agency insignia. When escorted vessels are moored, dayboards or other visual indications such as lights or buoys may be used.

(f) *Contact information.* The COTP Savannah may be reached via phone at (912) 652–4353. Any on scene Coast Guard or designated representative assets may be reached via VHF–FM channel 16.

§ 165.756 Regulated Navigation Area; Savannah River, Georgia.

(a) *Regulated Navigation Area (RNA)*. The Savannah River between Fort Jackson (32°04.93' N, 081°02.19' W) and the Savannah River Channel Entrance Sea Buoy is a regulated navigation area when an LNG tankship in excess of heel is transiting the area or moored at the LNG facility. All coordinates are North American Datum 1983.

33 CFR Ch. I (7-1-22 Edition)

(b) *Definitions*. The following definitions apply to this section:

Bare steerage way means the minimum speed necessary for a ship to maintain control over its heading.

Bollard pull means an industry standard used for rating tug capabilities and is the pulling force imparted by the tug to the towline. It means the power that an escort tug can apply to its working line(s) when operating in a direct mode.

Direct mode means a towing technique defined as a method of operation by which a towing vessel generates towline forces by thrust alone at an angle equal to or nearly equal to the towline, or thrust forces applied directly to the escorted vessel's hull.

Heel means the minimum quantity of liquefied natural gas (LNG) retained in an LNG tankship after unloading at the LNG facility to maintain temperature, pressure, and/or prudent operations. A quantity of LNG less than five percent (5 %) of the LNG tankship's carrying capacity shall be presumed to be heel.

Indirect mode means a towing technique defined as a method of operation by which an escorting towing vessel generates towline forces by a combination of thrust and hydrodynamic forces resulting from a presentation of the underwater body of the towing vessel at an oblique angle to the towline. This method increases the resultant bollard pull, thereby arresting and controlling the motion of an escorted vessel.

LNG tankship means a vessel as described in 46 CFR 154.

Operator means the person who owns, operates, or is responsible for the operation of a facility or vessel.

Savannah River Channel Entrance Sea Buoy means the aid to navigation labeled R W "T" Mo (A) WHIS on the National Oceanic and Atmospheric Administration's (NOAA) Nautical Chart 11512.

Standby means readily available at the facility and equipped to provide a ready means of assistance to maintain a safe zone around LNG tankships, provide emergency firefighting assistance, and aid the LNG tankship in the event of an emergency departure.

Underway means that a vessel is not at anchor, not made fast to the shore, or not aground.

(c) *Applicability.* This section applies to all vessels operating within the RNA, including naval and other public vessels, except vessels that are engaged in the following operations:

(1) Law enforcement, security, or search and rescue;

(2) Servicing aids to navigation;

(3) Surveying, maintenance, or improvement of waters in the RNA; or

(4) Actively engaged in escort, maneuvering, or support duties for an LNG tankship.

(d) *Regulations*—(1) *Requirements for vessel operations while a LNG tankship, carrying LNG in excess of heel, is underway within the RNA.* (i) Except for a vessel that is moored at a marina, wharf, or pier, and remains moored, no vessel 1,600 gross tons or greater may come within two nautical miles of a LNG tankship, carrying LNG in excess of heel, which is underway within the Savannah River shipping channel without the permission of the Captain of the Port (COTP).

(ii) All vessels less than 1,600 gross tons shall keep clear of transiting LNG tankships.

(iii) The owner, master, or operator of a vessel carrying liquefied natural gas (LNG) shall:

(A) Comply with the notice requirements of 33 CFR part 160. The COTP may delay the vessel's entry into the RNA to accommodate other commercial traffic.

(B) Obtain permission from the COTP before commencing the transit into the RNA.

(C) Not enter or get underway within the RNA if visibility during the transit is not sufficient to safely navigate the channel, and/or wind speed is, or is expected to be, greater than 25 knots.

(D) While transiting the RNA, LNG Tankships of cargo capacity over 120,000 m³, carrying LNG in excess of heel, shall have a minimum of two escort towing vessels with a minimum of 100,000 pounds of bollard pull, 4,000 horsepower, and capable of safely operating in the indirect mode. At least one of the towing vessels shall be FiFi Class 1 equipped.

(2) *Requirements while LNG tankships are moored inside the LNG facility slip.* (i)

An LNG Tankship of cargo capacity over 120,000 m³, moored inside the LNG facility slip shall have two standby towing vessels with a minimum capacity of 100,000 pounds of bollard pull, 4,000 horsepower, and the ability to operate safely in the indirect mode. At least one of the towing vessels shall be FiFi Class 1 equipped. The standby towing vessels shall take appropriate action in an emergency.

(ii) If two LNG tankships of cargo capacity over 120,000 m³ are moored inside the LNG facility slip, each vessel shall provide a standby towing vessel that is FiFi Class 1 equipped with a minimum capacity of 100,000 pounds of bollard pull and 4,000 horsepower that is available to assist.

(3) *Requirements for other vessels while within the RNA.* (i) Vessels 1,600 gross tons or greater shall at a minimum, transit at bare steerageway when within an area 1,000 yards on either side of the LNG facility slip to minimize potential wake or surge damage to the LNG facility and vessel(s) within the slip.

(ii) Vessels 1,600 gross tons or greater shall make a broadcast on channel 13 at the following points on the Savannah River:

(A) Buoy "33" in the vicinity of Fields Cut for inbound vessels;

(B) Buoy "53" in the vicinity of Fort Jackson for outbound vessels.

(iii) Vessels 1,600 gross tons or greater shall not meet nor overtake within the area adjacent to either side of the LNG facility slip when an LNG tankship is present within the slip.

(iv) Except for vessels involved in those operations noted in paragraph (c) of this section entitled Applicability, no vessel shall enter the LNG facility slip at any time without the permission of the Captain of the Port. The Coast Guard will issue a Broadcast Notice to Mariners on channel 16 upon enforcement of this RNA.

(e) *Waivers.* (1) The COTP may waive any requirement in this section, if the COTP finds that it is in the best interest of safety or in the interest of national security. Such waivers may be verbal or in writing.

§ 165.757

33 CFR Ch. I (7–1–22 Edition)

(2) An application for a waiver of these requirements must state the compelling need for the waiver and describe the proposed operation and methods by which adequate levels of safety are to be obtained.

Moving security zones are established 100 yards around all passenger vessels, vessels carrying cargoes of particular hazard, or vessels carrying liquefied hazardous gas (LHG) during transits entering or departing the Port of Palm Beach, Port Everglades, or Port of Miami. These moving security zones are activated when the subject vessel passes: Lake Worth Lighted Buoy LW, at approximate position 26°46'22" N, 80°00'37" W, when entering the Port of Palm Beach; passes Port Everglades Lighted Buoy PE, at approximate position 26°05'30" N, 080°04'46" W, when entering Port Everglades; and

passes Miami Lighted Buoy M, at approximate position 25°46'05" N, 080°05'01" W, when entering Port of Miami. These moving security zones remain active whenever a passenger vessel, vessels carrying cargoes of particular hazard, or vessels carrying LHG is underway westward of the above mentioned buoys. Fixed security zones are established 100 yards around all passenger vessels, vessels carrying cargoes of particular hazard, or vessels carrying LHG, while the vessel is moored in the Port of Palm Beach, Port Everglades, or Port of Miami, Florida. Persons and vessels may pass within 100 yards of a moored passenger vessel, vessel carrying cargoes of particular hazard, or vessel carrying LHG that is moored within or alongside a Federal channel as long as the passage occurs outside of the on scene law enforcement vessel. Persons and vessels shall pass north of the on scene law enforcement vessel when north of the Port of Miami, south of the on scene law enforcement vessel when south of the Port of Miami and east of the on scene law enforcement vessel in Port Everglades.

(2) *Fixed security zone in Port of Miami, Florida.* A fixed security zone encompasses all waters between Watson Park and Star Island from the MacArthur Causeway south to Port of Miami. The western boundary is formed by an imaginary line from points 25°46'45" N, 080°10'52" W, northwest to 25°46'46" N, 080°10'54" W, northeast to 25°46'53" N, 080°10'50" W, and extending northeast ending at Watson Island at 25°47'00" N, 080°10'40" W. The eastern boundary is formed by an imaginary line approximately 100 yards west of the Fisher Island Ferry terminal, in approximate position 25°46'20" N, 080°09'07" W, extending southwest across the Main Channel to Port of Miami, at 25°46'16" N, 080°09'11" W. The fixed security zone is in effect when two or more passenger vessels, vessels carrying cargoes of particular hazard, or vessels carrying LHG, enter or moor within this zone.

(i) When the security zone is in effect, persons and vessels shall not enter or transit the security zone along the Miami Main Channel unless authorized by Captain of the Port of Miami or a designated representative.

(ii) Persons and vessels may transit the Miami Main Channel when only one passenger vessel, one vessel carrying cargoes of particular hazard or one vessel carrying LHG is berthed.

(iii) Law enforcement vessels can be contacted on VHF Marine Band Radio, Channel 16 (156.8 MHz).

(3) *Fixed security zones in Port Everglades.* A fixed security zone encompasses Mid-Port to North-Port in Port Everglades and includes all waters west of an imaginary line starting at the southernmost point 26°05'24" N, 080°06'57" W, on the northern tip of Berth 22, to the northernmost point 26°06'01" N, 080°07'09" W, near the west side of the 17th Street Bridge and then move west to the northwestern most point at 26°06'01" N, 080°07'10" W. An additional fixed security zone encompasses the waters west of the Intracoastal Waterway to the pier face of Port Everglades from Mid-Port south to the northern tip of the Dania Cut-Off Canal and includes the waters westward of the line connecting the following points to the pier face of Port Everglades: Starting at 26°05'25" N, 080°06'58" W, on the northern tip of Berth 22 at Mid-Port, to a point directly east along the Intracoastal Waterway, 26°05'25" N, 080°06'54" W, then southeast along the Intracoastal Waterway to 26°05'10" N, 080°06'49" W, then southwest along the Intracoastal Waterway to 26°04'43" N, 080°06'53" W, then south along the Intracoastal Waterway to 26°03'54" N, 080°06'52" W, and then west to the Port Everglades pier face just north of the Dania Cut-Off Canal at 26°03'54" N, 080°06'55" W.

(i) Persons and vessels may transit the Intracoastal Waterway; however, persons and vessels are not authorized to enter the fixed security zone westward of the Intracoastal Waterway without authorization from Captain of the Port Miami or a designated representative. On occasion, a passenger vessel, vessel carrying cargoes of particular hazard, or vessel carrying LHG may moor and encroach into the Intracoastal Waterway. When this occurs, persons and vessels shall transit the Intracoastal Waterway east of the on scene law enforcement vessel.

(ii) Periodically, vessels may be required to temporarily hold their positions while large commercial traffic operates in this area. Vessels near the security zone must follow the orders of the Captain of the Port or the designated representative.

(iii) Law enforcement vessels can be contacted on VHF Marine Band Radio, Channel 16 (156.8 MHz).

(c) *Regulations.* (1) Prior to commencing any movement, the person directing the movement of a passenger vessel, a vessel carrying cargoes of particular hazard, or a vessel carrying LHG is encouraged to make a security broadcast on VHF Marine Band Radio Channel 16 (156.8 MHz) to advise mariners of the moving security zone activation and intended transit.

(2) In accordance with the general regulations §165.33, entry into these zones is prohibited, except as authorized by the Captain of the Port of Miami or a designated representative. Vessels such as pilot boats, tug boats, and contracted security vessels may assist the Coast Guard Captain of the Port by monitoring these zones strictly to advise mariners of the restrictions. The Captain of the Port will notify the public of the security zone via signs or by Marine Safety Radio Broadcasts on VHF Marine Band Radio Channel 16 (156.8 MHz) when applicable.

(3) Persons and vessels desiring to enter or transit the fixed or moving security zones may contact the Captain of the Port Miami at (305) 535-4472 or on VHF Marine Band Radio Channel 16 (156.8 MHz) to seek permission to transit the area. If permission is granted, all persons and vessels must comply with the instructions of the Captain of the Port or the designated representative.

(4) The Captain of the Port Miami may waive any of the requirements of this section for any vessel upon finding that the vessel or class of vessel, operational conditions, or other circumstances are such that application of this section is unnecessary or impractical for the purpose of port security, safety, or environmental safety.

§ 165.810 Mississippi River, LA-regulated navigation area.

(a) *Purpose and applicability.* This section prescribes rules for all vessels operating in the Lower Mississippi River below mile 233.9 above Head of Passes including South Pass and Southwest Pass, to assist in the prevention of allisions; collisions and groundings so as to ensure port safety and protect the navigable waters of the Mississippi River from environmental harm result-

ing from those incidents, and to enhance the safety of passenger vessels moored or anchored in the Mississippi River.

(b) Lower Mississippi River below mile 233.9 above Head of Passes including South and Southwest Passes:

(1) *Supervision.* The use, administration, and navigation of the waterways to which this paragraph applies shall be under the supervision of the District Commander, Eighth Coast Guard District.

(2) *Speed; high-water precautions.* When passing another vessel (in motion, anchored, or tied up), a wharf or other structure, work under construction, plant engaged in river and harbor improvement, levees withstanding flood waters, building partially or wholly submerged by high water, or any other structure liable to damage by collision, suction or wave action, vessels shall give as much leeway as circumstances permit and reduce their speed sufficiently to preclude causing damages to the vessel or structure being passed. Since this subparagraph pertains directly to the manner in which vessels are operated, masters of vessels shall be held responsible for strict observance and full compliance therewith. During high river stages, floods, or other emergencies, the District Commander may prescribe by navigation bulletins or other means the limiting speed in land miles per hour deemed necessary for the public safety for the entire section or any part of the waterways covered by this paragraph, and such limiting speed shall be strictly observed.

(3) *Towing.* Towing in any formation by a vessel with insufficient power to permit ready maneuverability and safe handling is prohibited.

(c) [Reserved]

(d) Navigation of South and Southwest Passes.

(1) No vessel, except small craft and towboats and tugs without tows, shall enter either South Pass or Southwest Pass from the Gulf until after any descending vessel which has approached within two and one-half (2½) miles of the outer end of the jetties and visible to the ascending vessel shall have passed to sea.

§ 165.810

33 CFR Ch. I (7–1–22 Edition)

(2) No vessel having a speed of less than ten mph shall enter South Pass from the Gulf when the stage of the Mississippi River exceeds 15 feet on the Carrollton Gage at New Orleans. This paragraph does not apply when Southwest Pass is closed to navigation.

(3) No vessel, except small craft and towboats and tugs without tows, ascending South Pass shall pass Franks Crossing Light until after a descending vessel shall have passed Depot Point Light.

(4) No vessel, except small craft and towboats and tugs without tows, shall enter the channel at the head of South Pass until after an ascending vessel which has reached Franks Crossing Light shall have passed through into the river.

(5) When navigating South Pass during periods of darkness no tow shall consist of more than one towed vessel other than small craft, and during daylight hours no tow shall consist of more than two towed vessels other than small craft. Tows may be in any formation. When towing on a hawser, the hawser shall be as short as practicable to provide full control at all times.

(6) When towing in Southwest Pass during periods of darkness no tow shall consist of more than two towed vessels other than small craft, and during daylight hours no tow shall consist of more than three towed vessels other than small craft.

(e) Watch requirements for anchored and moored passenger vessels.

(i) Keep a continuously manned pilot-house; and

(ii) Monitor river activities and marine VHF, emergency and working frequencies of the port, so as to be immediately available to take necessary action to protect the vessel, crew, and passengers if an emergency radio broadcast, danger signal, or visual or other indication of a problem is received or detected.

(2) Each ferryboat, and each small passenger vessel to which 46 CFR 175.110 applies, may monitor river activities using a portable radio from a

vantage point other than the pilot-house.

(f) Each self-propelled vessel of 1,600 or more gross tons subject to 33 CFR part 164 shall also comply with the following:

(1) While under way in the RNA, each vessel must have an engineering watch capable of monitoring the propulsion system, communicating with the bridge, and implementing manual-control measures immediately when necessary. The watch must be physically present in the machinery spaces or in the machinery-control spaces and must consist of at least an appropriately licensed or credentialed engineer officer.

(2) Before embarking a pilot when entering or getting under way in the RNA, the master of each vessel shall ensure that the vessel is in compliance with 33 CFR part 164.

(3) The master shall ensure that the chief engineer has certified that the following additional operating conditions will be satisfied so long as the vessel is under way within the RNA:

(i) The main propulsion plant is in all respects ready for operations including the main-propulsion air-start systems, fuel systems, lubricating systems, cooling systems, and automation systems;

(ii) Cooling, lubricating, and fuel-oil systems are at proper operating temperatures;

(iii) Main propulsion machinery is available to immediately respond to the full range of maneuvering commands any load-limiting programs or automatic acceleration-limiting programs that would limit the speed of response to engine orders beyond that needed to prevent immediate damage to the propulsion machinery are capable of being overridden immediately.

(iv) Main-propulsion standby systems are ready to be immediately placed in service.

The flow rate at this location is calculated by the U.S. Army Corps of Engineers on a regular and routine basis. This information will be distributed by announcements by Coast Guard Marine Information Broadcasts, publication in Coast Guard Local Notice to Mariners, and telephone or radio contact with the Lockmaster at Murray Lock and Dam.

(c) Transit of the RNA during periods of high velocity flow may only occur under the following conditions:

(1) Vessels may not meet or pass in the RNA.

(2) No vessel shall anchor, stop, remain or drift without power at any time in the RNA.

(3) All vessels shall continually monitor VHF-FM channel 13 on their radio-telephone while in or approaching the RNA.

(4) Prior to entering the RNA, downbound vessels shall make a broadcast in the blind on VHF-FM channel 13 announcing their estimated time of departure from Murray Lock and Dam or from the mooring cells at mile 121.5 to ensure there are no upbound vessels within the RNA. If there is upbound traffic within the RNA, the downbound vessel shall not depart until the upbound vessel has passed through the RNA. After departing, vessels will proceed through the RNA, including all drawbridges located therein, without delay.

(5) When upbound vessels reach mile 116, they shall make a broadcast in the blind on VHF-FM channel 13 announcing their estimated arrival time at the Rock Island Railroad Bridge at mile 118.2.

(6) When a downbound vessel is already in the RNA, an upbound vessel shall adjust its speed so as to avoid a meeting situation in the RNA.

§ 165.835 Security Zone; Port of Mobile, Mobile Ship Channel, Mobile, AL.

(a) *Definition.* As used in this section—

Cruise ship means a passenger vessel over 100 gross tons, carrying more than 12 passengers for hire, making a voyage lasting more than 24 hours any part of which is on the high seas, and for which passengers are embarked or disembarked in the United States or its territories. This definition covers pas-

senger vessels that must comply with 33 CFR parts 120 and 128.

(b) *Location.* The following areas are security zones: all waters of the Port of Mobile and Mobile Ship Channel—

(1) Within 100 yards of a cruise ship that is transiting shoreward of the Mobile Sea Buoy (located in approximate position 28°07'50" N, 88°04'12" W; NAD 83), and

(2) Within 25 yards of a cruise ship that is moored shoreward of the Mobile Sea Buoy.

(c) *Periods of enforcement.* This rule will only be enforced when a cruise ship is transiting the Mobile Ship Channel shoreward of the Mobile Sea Buoy, while transiting in the Port of Mobile, or while moored in the Port of Mobile. The Captain of the Port Mobile or a designated representative would inform the public through broadcast notice to mariners of the enforcement periods for the security zone.

(d) *Regulations.* (1) Under §165.33 of this part, entry into a security zone is prohibited unless authorized by the Captain of the Port Mobile or a designated representative.

(2) While a cruise ship is transiting on the Mobile Ship Channel shoreward of the Mobile Sea Buoy, and while transiting in the Port of Mobile, all persons and vessels are prohibited from entering within 100 yards of a cruise ship.

(3) While a cruise ship is moored in the Port of Mobile, all persons and vessels are prohibited from entering within 25 yards of a cruise ship.

(4) Persons or vessels that desire to enter into the security zone for the purpose of passing or overtaking a cruise ship that is in transit on the Mobile Ship Channel or in the Port of Mobile must contact the on-scene Coast Guard representative, request permission to conduct such action, and receive authorization from the on-scene Coast Guard representative prior to initiating such action. The on-scene Coast Guard representative may be contacted on VHF-FM channel 16.

(5) All persons and vessels authorized to enter into this security zone must obey any direction or order of the Captain of the Port or designated representative. § 165.836 Security Zone; Escorted Vessels, Mobile, Alabama, Captain of the Port.

(a) *Definitions.* The following definitions apply to this section:

COTP means Captain of the Port Mobile, AL.

Designated representatives means Coast Guard Patrol Commanders including Coast Guard coxswains, petty officers and other officers operating Coast Guard vessels, and Federal, State, and local officers designated by or assisting the COTP, in the enforcement of the security zone.

Escorted vessel means a vessel, other than a large U.S. naval vessel as defined in 33 CFR 165.2015, that is accompanied by one or more Coast Guard assets or other Federal, State, or local law enforcement agency assets clearly identifiable by flashing lights, vessel markings, or with agency insignia as follows: Coast Guard surface or air asset displaying the Coast Guard insignia. State and/or local law enforcement

asset displaying the applicable agency markings and/or equipment associated with the agency. *Escorted vessel* also means a moored or anchored vessel that was escorted by Coast Guard assets or other Federal, State, or local law enforcement agency assets to its present location and some or all of those properly marked assets remain on-scene to continue to enforce the security zone.

Minimum safe speed means the speed at which a vessel proceeds when it is fully off plane, completely settled in the water and not creating excessive wake or surge. Due to the different speeds at which vessels of different sizes and configurations may travel while in compliance with this definition, no specific speed is assigned to minimum safe speed. In no instance should minimum safe speed be interpreted as a speed less than that required for a particular vessel to maintain steerageway. A vessel is not proceeding at minimum safe speed if it is:

- (1) On a plane;
- (2) In the process of coming up onto or coming off a plane; or
- (3) Creating an excessive wake or surge.

(b) *Regulated area.* All navigable waters, as defined in 33 CFR 2.36, within the Captain of the Port Zone, Mobile, Alabama, as described in 33 CFR 3.40-10.

(c) *Security zone.* A 500-yard security zone is established around each escorted vessel within the regulated area described in paragraph (b) of this section. This is a moving security zone when the escorted vessel is in transit and becomes a fixed zone when the escorted vessel is anchored or moored. A security zone will not extend beyond the boundary of the regulated area described in paragraph (b) of this section.

(d) *Regulations.* (1) The general regulations for security zones contained in § 165.33 of this part applies to this section.

(2) A vessel may request the permission of the COTP Mobile or a designated representative to enter the security zone described in paragraph (c) of this section. If permitted to enter the security zone, a vessel must proceed at the minimum safe speed and

§ 165.837

33 CFR Ch. I (7–1–22 Edition)

must comply with the orders of the COTP or a designated representative.

(e) *Notice of security zone.* The COTP will inform the public of the existence or status of the security zones around escorted vessels in the regulated area by broadcast notices to mariners, normally issued at 30-minute intervals while the security zones remains in effect. Escorted vessels will be identified by the presence of Coast Guard assets or other Federal, State or local law enforcement agency assets.

(f) *Contact information.* The COTP Mobile may be reached via phone at (251) 441-6211. Any on scene Coast Guard or designated representative assets may be reached via VHF-FM channel 16.

§ 165.837 Safety Zone; Invista Inc Facility Docks, Victoria Barge Canal, Victoria, Texas.

(a) *Location.* The following area is a safety zone: All waters contained within a 500-foot (152.5m) extension east and west of the Invista Inc facility docks while performing offloading operations.

(b) *Enforcement period.* This rule will be enforced for periods of 24-30 hours twice a month, from the time the oversized barge docks at the Invista Inc facility until the vessel departs the facility upon conclusion of its offloading operations. The Captain of the Port Corpus Christi will issue a Broadcast Notice to Mariners before beginning enforcement and upon ceasing enforcement of the safety zone.

(c) *Definitions.* The following definition applies to this section:

designated representative means any commissioned, warrant, and petty officers of the Coast Guard on board Coast Guard, Coast Guard Auxiliary, and local, state, and Federal law enforcement vessels who have been authorized to act on the behalf of the Captain of the Port Corpus Christi.

(d) *Regulations.* (1) Persons desiring to transit the area of the safety zone may contact the Captain of the Port at telephone number 1-361-939-6393, or the barge on VHF Channel 16 (156.800MHz) to seek permission to transit the area. If permission is granted, all persons and vessels must comply with the in-

structions of the Captain of the Port or his or her designated representative.

(2) All persons and vessels must comply with the instructions of the Coast Guard Captain of the Port or the designated representative.

(3) Upon being hailed by U.S. Coast Guard patrol personnel by siren, radio, flashing light, or other means the operator of a vessel must proceed as directed.

(4) The Coast Guard may be assisted by other Federal, State, or local agencies.

(5) In accordance with the general regulations in 33 CFR part 165.23, no person or vessel may enter or remain in the zone described in paragraph (a) of this section except for support vessels/aircraft and support personnel, or other vessels authorized by the Captain of the Port Corpus Christi or his designated representative.

(e) *Penalties.* Vessels or persons violating this rule are subject to the penalties set forth in 46 U.S.C. 70036 and 46 U.S.C. 70052.

These vessel movements and time critical decisions will be made by the COTP in consultation with the Port Coordination Team.

(4) The COTP may review, on a case-by-case basis, alternatives to minimum mooring requirements and conditions set forth in paragraphs (f) and (g) of this section and may approve a deviation to these requirements and conditions should they provide an equivalent level of safety.

(e) *Special requirements for facilities.* In addition to the mooring and towboat requirements discussed in paragraph (f) and (g) of this section, Facilities within the area described in paragraph (a) of this section that wish to deviate from these restrictions because they have vessels intending to remain within the areas allowed in paragraphs (d)(1) and (2) of this section shall comply with the below documentation and maintenance requirements in order to obtain the COTP's approval for their vessel(s) to remain in the closed RNA.

(1) *Annual Hurricane Operations Plan.* All facilities that have vessels intending to deviate from this RNA and remain within the areas allowed in paragraphs (d)(1) and (2) of this section shall develop an operations plan. The operations plan shall be readily available by May 1st of each calendar year for review by the COTP. The Annual Hurricane Operations Plan shall include:

(i) A description of the maximum number of vessels the facility intends to have remaining at any one time during hurricane season.

The zone remains in effect during the entire transit of the large cruise ship.

(b) *Definitions.* As used in this section the term “large cruise ship” is defined as a vessel over 100 feet in length, carrying more than 500 passengers for hire, making a voyage lasting more than 24 hours, any part of which is on the high seas, and for which passengers are embarked or disembarked in the United States or its territories.

(c) *Regulations.* (1) In accordance with the general regulations in 33 CFR Part 165, Subpart C, no person or vessel may enter or remain in the Safety Zone except for vessels authorized by the Captain of the Port or Designated Representatives, except as provided for in paragraph (c)(3) of this section.

(2) For this section the Pilot directing the movement of the large cruise ship under the authority of the master has the authority to allow other vessels to enter the safety zone when necessary.

(3) All vessels are prohibited from entering this safety zone unless authorized as follows:

COTP means Captain of the Port New Orleans, LA.

Designated representatives means Coast Guard Patrol Commanders including Coast Guard coxswains, petty officers and other officers operating Coast Guard vessels, and Federal, State, and local officers designated by or assisting the COTP, in the enforcement of the security zone.

Escorted vessel means a vessel, other than a large U.S. naval vessel as defined in 33 CFR 165.2015, that is accompanied by one or more Coast Guard assets or other Federal, State or local law enforcement agency assets clearly identifiable by flashing lights, vessel markings, or with agency insignia as follows: Coast Guard surface or air asset displaying the Coast Guard insignia. State and/or local law enforcement asset displaying the applicable agency

markings and/or equipment associated with the agency.

Minimum safe speed for navigation means the speed at which a vessel proceeds when it is fully off plane, completely settled in the water and not creating excessive wake or surge. Due to the different speeds at which vessels of different sizes and configurations may travel while in compliance with this definition, no specific speed is assigned to a minimum safe speed for navigation. In no instance should minimum safe speed be interpreted as a speed less than that required for a particular vessel to maintain steerageway. A vessel is not proceeding at minimum safe speed if it is:

- (i) On a plane;
- (ii) In the process of coming up, onto or coming off a plane; or
- (iii) Creating an excessive wake or surge.

The security zone will not extend beyond the boundary of the regulated area in this section.

(d) *Notice of security zone.* The COTP will inform the public of the existence or status of any temporary moving security zones around escorted vessels in the regulated area by broadcast notices to mariners. The broadcast notice to mariners will inform the public of the enforcement period, size of the zone, and the navigable waters that will be affected, and will normally be issued at approximately 30-minute intervals while the moving security zone remains in effect. Escorted vessels will be identified by the presence of Coast Guard assets or other Federal, State or local law enforcement agency assets clearly identified by flashing lights, vessel markings, or agency insignia.

(e) *Regulations.* (1) In accordance with the general regulations in §165.33 of subpart D of this part, no person or vessel may enter or remain in a secu-

rity zone without the permission of the Captain of the Port. Section 165.33 also contains other general requirements.

(2) Vessels may request permission from the Captain of the Port New Orleans through the on-scene Coast Guard or other agency asset to enter the security zone described in paragraph (c) of this section.

(i) If permission to enter and transit through the security zone is granted, the vessel shall operate at the minimum speed necessary to maintain a safe course, unless required to maintain speed by the Navigation Rules, and must proceed as directed by the COTP or a designated representative. When within the security zone, no vessel or person is allowed within 50 yards of the escorted vessel unless authorized by the Coast Guard.

(ii) [Reserved]

(B) Vessels must not be a personal or human powered watercraft (*i.e.*, jet skis, waver runners, kayaks, row boats, etc.).

(C) Vessels engaged in commercial service, as defined in 46 U.S.C. 2101(5), may not pass (meet or overtake) in the RNA and must make a SECURITÉ call when approaching the RNA to announce intentions and work out passing arrangements.

(D) Commercial tows transiting the RNA must use wire rope or appropriate alternatives to ensure electrical connectivity between all segments of the tow.

(E) All vessels are prohibited from loitering in the RNA.

(F) Vessels may enter the RNA for the sole purpose of transiting to the other side and must maintain headway throughout the transit. All vessels and persons are prohibited from dredging, laying cable, dragging, fishing, conducting salvage operations, or any other activity, which could disturb the bottom of the RNA.

(G) Except for law enforcement and emergency response personnel, all personnel on vessels transiting the RNA should remain inside the cabin, or as inboard as practicable. If personnel must be on open decks, they must wear a Coast Guard approved personal flotation device.

(H) Vessels may not moor or lay up on the right or left descending banks of the RNA.

Non-potable water includes, but is not limited to, any water taken on board to control or maintain trim, draft, stability, or stresses of the vessel. Likewise, it includes any water taken on board due to free communication between the hull of the vessel and exterior water. Potable water is water treated and stored aboard the vessel that is suitable for human consumption.

(2) Vessels with non-potable water on board are permitted to transit the restricted navigation area if they have taken steps to prevent the release, in any form, of that water in or on the other side of the restricted navigation area. Alternatively, vessels with non-potable water on board are permitted to transit the restricted navigation area if they have plans to dispose of the water in a biologically sound manner.

(3) Vessels with non-potable water aboard that intend to discharge on the other side of the restricted navigation area must contact the Coast Guard's Ninth District Commander or his or her designated representatives prior to transit and obtain permission to transit and discharge. Examples of discharges that may be approved include plans to dispose of the water in a biologically sound manner or demonstrate through testing that the non-potable water does not contain potential live Silver or Asian carp, viable eggs, or gametes.

(4) In accordance with the general regulations in §165.23, entry into, transiting, or anchoring within this safety zone by vessels with non-potable

water on board is prohibited unless authorized by the Coast Guard's Ninth District Commander, his or her designated representatives, or an on-scene representative.

(b) *Definitions.* The following definition applies to this section: designated representative, means any commissioned, warrant, and petty officers of the Coast Guard on board Coast Guard, Coast Guard Auxiliary, and local, state, and Federal law enforcement vessels who have been authorized to act on the behalf of the Captain of the Port (COTP).

(c) *Enforcement.* (1) This regulation will be enforced at all times in Section G and the Wilson Cove section of the safety zone described in paragraph (a) of this section. Mariners must obtain permission in accordance with the procedure described in paragraph (d)(2) of this section before entering either of those sections (paragraphs (a)(7) and (8)).

(2) This regulation will be enforced in Sections A through F of the safety zone described in paragraphs (a)(1)

through (6) of this section except when the Coast Guard notifies the public that enforcement of the zone in specified sections is temporarily suspended. Mariners need not obtain permission in accordance with the procedure described in paragraph (d)(2) of this section to enter a zone section in which enforcement is temporarily suspended. At all other times, mariners must obtain permission in accordance with the procedure described in paragraph (d)(2) before entering any of those sections.

(3) The COTP will provide notice of suspended enforcement by means appropriate to effect the widest publicity, including broadcast notice to mariners, publication in the local notice to mariners, and posting the schedule of restricted access periods by date, location and duration at <http://www.scisland.org>.

(d) *Regulations.* (1) The general regulations governing safety zones found in 33 CFR 165.23 apply to the safety zone described in paragraph (a) of this section.

(2) Mariners requesting permission to transit through any section of the zone may request authorization to do so from the Fleet Area Control and Surveillance Facility (FACSFAC) San Diego by either calling 619-545-4742 or establishing a VHF bridge to bridge radio connection on Channel 16. Immediately upon completing transit, the vessel operator must promptly notify the FACSFAC of safe passage through the safety zone. Failure to expeditiously notify FACSFAC of passage through the safety zone will result in a determination by the Navy that the vessel is still in the safety zone, thereby restricting the use of the area for naval operations. If the Navy determines that facilitating safe transit through the zone negatively impacts range operations, the Navy will cease this practice and enforce the safety zones in these two areas without exception.

(3) All persons and vessels must comply with the instructions of the U.S. Navy, Coast Guard Captain of the Port or the designated representative.

(4) Upon being hailed by U.S. Navy or U.S. Coast Guard patrol personnel by siren, radio, flashing light, or other means, the operator of a vessel must proceed as directed.

(5) The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone described in paragraph (a) of this section by the U.S. Navy and local law enforcement agencies.

(ii) A power-driven vessel of 1600 or more gross tons, or a tug with a tow of 1600 or more gross tons, shall:

(A) Use the appropriate traffic lane and proceed in the general direction of traffic flow for that lane;

(B) Use the Central Bay Deep Water Traffic Lane if eastbound with a draft of 45 feet or greater or westbound with a draft of 28 feet or greater;

(C) Not enter the Central Bay Deep Water Traffic Lane when another power-driven vessel of 1600 or more gross tons or tug with a tow of 1600 or more gross tons is navigating therein when either vessel is:

(1) Carrying certain dangerous cargoes (as denoted in section 160.202 of this subchapter);

(2) Carrying bulk petroleum products; or

(3) A tank vessel in ballast if such entry would result in meeting, crossing, or overtaking the other vessel.

(D) Normally join or leave a traffic lane at the termination of the lane, but when joining or leaving from either side, shall do so at as small an angle to the general direction of traffic flow as practicable;

(E) So far as practicable keep clear of the Central Bay Separation Zone and the Deep Water Traffic Lane Separation Zone;

§ 165.1195 Regulated Navigation Area; Humboldt Bay Bar Channel and Humboldt Bay Entrance Channel, Humboldt Bay, California.

(a) *Location.* The Regulated Navigation Area (RNA) includes all navigable waters of the Humboldt Bay Bar Channel and the Humboldt Bay Entrance Channel, Humboldt Bay, California.

(b) *Definitions.* As used in this section—

COTP means the Captain of the Port as defined in Title 33, Code of Federal Regulations, Section 1.01–30 and 3.55–20.

Sector means Coast Guard Sector/Air Station Humboldt Bay.

Sector Commander means the Commanding Officer of Coast Guard Sector/Air Station Humboldt Bay.

Hazardous material means any of the materials or substances listed in 46 CFR 153.40.

Humboldt Bay Area means the area described in the location section of this regulation.

Oil means oil of any kind or in any form, including but not limited to, petroleum, fuel oil, sludge, oil refuse, and oil mixed with wastes other than dredged spoil.

Station means Coast Guard Station Humboldt Bay.

Tank Vessel means any vessel that is constructed or adapted to carry, or that carries, oil or hazardous material in bulk as cargo or cargo residue.

(c) *Applicability.* These regulations apply to the owners and operators of tank vessels transporting oil or hazardous material as cargo within the Humboldt Bay Area.

(d) *Regulations.* (1) In addition to the arrival and departure notification requirements listed in title 33 CFR, part 160, Ports and Waterways Safety—General, subpart C—Notifications of “Arrivals, Departures, Hazardous Conditions, and Certain Dangerous Cargoes”, the owner, master, agent or person in charge of a vessel to which this notice applies shall obtain permission to cross within four hours of crossing the Humboldt Bay Bar. Between 6:30 a.m. and 10

p.m., notification/requests for permission can be made to Station Humboldt Bay on VHF-FM Channel 16, or at (707) 443–2213. If between 10 p.m. and 6:30 a.m., or if unable to reach the Station, notification/requests for permission can be made directly to Sector/Air Station Humboldt Bay on VHF-FM Channel 16 or at (707) 839–6113.

(2) Permission for a bar crossing by vessels or towing vessels and their tows to which this regulation applies is dependent on environmental and safety factors, including but not limited to: Sea state, winds, visibility, size and type of vessel or tow, wave period, time of day/night, and tidal currents. The final decision to close the bar rests with Humboldt Bay Sector Commander or his designated representative. At a minimum, Humboldt Bay Bar Channel crossings by vessels subject to this advisory will generally not be permitted unless all of the following conditions exist: Proper permission to cross has been received, sea conditions at the bar are less than 6 feet, winds at the bar are less than 30 knots, the transit will take place during daylight hours, the vessel has only a single tow or no tow, the visibility at the bar is greater than 1,000 yards, and the vessel and tow are in proper operating condition.

(3) If the bar is closed to vessels to which this regulation applies, waiver requests will be accepted within four hours of crossing the entrance channel. If the waiver request is made between 6:30 a.m. and 10 p.m., the request should be made to Station Humboldt Bay on VHF-FM Channel 16, or at (707) 443–2213. If between 10 p.m. and 6:30 a.m., or if unable to reach the Station, the request can be made directly to Sector/Air Station Humboldt Bay on VHF-FM Channel 16 or at (707) 839–6113. Waiver requests must be made by the vessel master and must provide the following: A description of the proposed operation, the conditions for which the waiver is requested, the reasons for requesting the waiver, the reasons that the requester believes the proposed operation can be accomplished safely, and a callback phone number. The Station or Sector Watchstander receiving the request will brief the Officer in Charge of the Station who will then

Coast Guard, DHS

§ 165.1196

brief the Sector Commander. The authority to grant waivers rests with the Sector Commander or his designated representative.

(4) In addition to the requirements in paragraphs (d)(1)–(3) of this section, vessels transporting liquefied hazardous gases or compressed hazardous gases in bulk as cargo into or out of Humboldt Bay are required to be aided by two assist tugs. If the vessel carrying the gases is towed, the assist tug requirement is in addition to the towing tug. The assist tugs shall escort the vessel through its transit and must be stationed so as to provide immediate assistance in response to the loss of power or steering of the cargo vessel, its towing tug, or loss of control over the tow.

(5) Vessels to which this regulation applies may be required by the Sector Commander or his designated representative to be escorted by a Coast Guard vessel during their transit. In addition, if a vessel master, agent, or pilot has concerns about the safety of a vessel's transit through the Humboldt Bay Entrance Channel, a Coast Guard escort may be requested. Requests for an escort should be directed to Station on VHF-FM channel 16 or at (707) 443–2213 between 6:30 a.m. and 10 p.m., or to Sector on VHF-FM channel 16 or at (707) 839–6113 if between 10 p.m. and 6:30 a.m.

(e) *Enforcement.* Acting as a representative of the Captain of the Port, the Humboldt Bay Sector Commander will enforce this regulation and has the authority to take steps necessary to ensure the safe transit of vessels in Humboldt Bay. The Sector Commander can enlist the aid and cooperation of any Federal, State, county, and municipal agency to assist in the enforcement of the regulation. All persons and vessels shall comply with the instructions of the Sector Commander or the designated on-scene patrol personnel. Patrol personnel comprise commissioned, warrant, and petty officers of the Coast Guard onboard Coast Guard, Coast Guard Auxiliary, local, State, and Federal law enforcement vessels.

Upon being hailed by U.S. Coast Guard patrol personnel by siren, radio, flashing light, or other means, the op-

erator of a vessel shall proceed as directed.

Factors that will be considered include, but are not limited to: Size and type of vessel, sea state, winds, wave period, and tidal currents. When a bar is restricted, the operation of recreational and uninspected passenger vessels in the RNA established in paragraph (a) of this section in which the restricted bar is located is prohibited unless specifically authorized by the COTP or a designated representative.

(ii) *Bar closure.* The bars located in the RNAs established in paragraph (a) of this section will be closed to all vessels whenever environmental conditions exceed the operational limitations of the relevant Coast Guard Search and Rescue resources as determined by the COTP. When a bar is closed, the operation of any vessel in the RNA established in paragraph (a) of this section in which the closed bar is located, is prohibited unless specifically authorized by the COTP or a designated representative. For bars having deep draft vessel access, the COTP will consult with the local pilots association, when practicable, prior to closing the affected bar.

(iii) *Notification.* The Coast Guard will notify the public of bar restrictions and bar closures via a Broadcast Notice to Mariners on VHF-FM Channel 16 and 22A. Additionally, Coast Guard personnel may be on-scene to advise the public of any bar restrictions or closures. In some locations, the Coast Guard may use bar warning lights to provide a visual indication of unsafe conditions to the public. Monitoring cameras and associated websites may also provide mariners with additional information in some locations.

(2) *Safety requirements for recreational vessels.* The operator of any recreational vessel operating in an RNA established in paragraph (a) of this section shall ensure that all persons located in any unenclosed areas of the recreational vessel are wearing lifejackets and that lifejackets are readily accessible for/to all persons located in

any enclosed area of the recreational vessel:

(i) When crossing the bar and a bar restriction exists or

(ii) Whenever the recreational vessel is being towed or escorted across the bar.

(3) *Safety requirements for uninspected passenger vessels (UPVs).* (i) The master or operator of any uninspected passenger vessel operating in an RNA established in paragraph (a) of this section shall ensure that all persons located in any unenclosed areas of their vessel are wearing lifejackets and that lifejackets are readily accessible for/to all persons located in any enclosed areas of their vessel uninspected passenger vessel:

(A) When crossing the bar and a bar restriction exists or

(B) Whenever the uninspected passenger vessel is being towed or escorted across the bar.

(ii) The master or operator of any uninspected passenger vessel operating in an RNA established in paragraph (a) of this section during the conditions described in paragraph (c)(3)(i)(A) of this section shall contact the Coast Guard on VHF-FM Channel 16 prior to crossing the bar. The master or operator shall report the following:

(A) Vessel name,

(B) Vessel location or position,

(C) Number of persons onboard the vessel and

(D) Vessel destination.

(4) *Safety Requirements for Small Passenger Vessels (SPV).* (i) The master or operator of any small passenger vessel operating in an RNA established in paragraph (a) of this section shall ensure that all persons located in any unenclosed areas of the small passenger vessel are wearing lifejackets and that lifejackets are readily accessible for/to all persons located in any enclosed areas of the vessel:

(A) Whenever crossing the bar and a bar restriction exists or

(B) Whenever their vessel is being towed or escorted across the bar.

(ii) Small passenger vessels with bar crossing plans that have been reviewed by and accepted by the Officer in Charge of Marine Inspection (OCMI) are exempt from the safety requirements described in paragraph (c)(4)(i)

§ 165.1197

33 CFR Ch. I (7–1–22 Edition)

of this section during the conditions described in paragraph (c)(4)(i)(A) of this section so long as when crossing the bar the master or operator ensures that all persons on their vessel wear lifejackets in accordance with their bar crossing plan. If the vessel's bar crossing plan does not specify the conditions when the persons on their vessel shall wear lifejackets, however, then the master or operator shall comply with the safety requirements provided in paragraph (c)(4)(i) of this section in its entirety.

(iii) The master or operator of any small passenger vessel operating in an RNA established in paragraph (a) of this section during the conditions described in paragraph (c)(4)(i)(A) of this section shall contact the Coast Guard on VHF-FM Channel 16 prior to crossing the bar. The master or operator shall report the following:

- (A) Vessel name,
- (B) Vessel location or position,
- (C) Number of persons on board the vessel and
- (D) Vessel destination.

(5) *Safety Requirements for Commercial Fishing Vessels (CFV).* (i) The master or operator of any commercial fishing vessel operating in an RNA described in paragraph (a) of this section shall ensure that all persons located in any unenclosed areas of commercial fishing vessel are wearing lifejackets or immersion suits and that lifejackets or immersion suits are readily accessible for/to all persons located in any enclosed spaces of the vessel:

- (A) Whenever crossing the bar and a bar restriction exists or
- (B) Whenever the commercial fishing vessel is being towed or escorted across the bar.

(ii) The master or operator of any commercial fishing vessel operating in an RNA described in paragraph (a) of this section during the conditions described in paragraph (c)(5)(i)(A) of this section shall contact the Coast Guard on VHF-FM Channel 16 prior to crossing the bar. The master or operator shall report the following:

- (A) Vessel name,
- (B) Vessel location or position,

§ 165.11731 Security Zone: Escorted Vessels, Los Angeles-Long Beach, CA, Captain of the Port Zone.

(a) *Definitions.* The following definitions apply to this section:

COTP means Captain of the Port Los Angeles-Long Beach, CA (LALB).

Designated representatives means Coast Guard Patrol Commanders including Coast Guard coxswains, petty officers and other officers operating Coast Guard vessels, and Federal, State, and local officers designated by or assisting the COTP, in the enforcement of the security zone.

Escorted vessel means a vessel, other than a large U.S. naval vessel as defined in §165.2015, that is accompanied by one or more Coast Guard assets or other Federal, State or local law enforcement agency assets clearly identifiable by lights, vessel markings, or with agency insignia as listed below:

(1) Coast Guard surface or air asset displaying the Coast Guard insignia.

(2) State and/or local law enforcement asset displaying the applicable agency markings and/or equipment associated with the agency.

(3) When escorted vessels are moored, dayboards or other visual indications such as lights or buoys may be used. In

all cases, broadcast notice to mariners will be issued to advise mariners of these restrictions.

Minimum safe speed means the speed at which a vessel proceeds when it is fully off plane, completely settled in the water and not creating excessive wake. Due to the different speeds at which vessels of different sizes and configurations may travel while in compliance with this definition, no specific speed is assigned to minimum safe speed. In no instance should minimum safe speed be interpreted as a speed less than that required for a particular vessel to maintain steerageway. A vessel is not proceeding at minimum safe speed if it is:

- (1) On a plane;
- (2) In the process of coming up onto or coming off a plane; or
- (3) Creating an excessive wake.

(b) *Regulated area.* All navigable waters, as defined in 33 CFR 2.36, within the Captain of the Port Zone, Los Angeles-Long Beach, California 33 CFR 3.55-10.

(c) *Security zone.* A 500-yard security zone is established around each escorted vessel within the regulated area described in paragraph (b) of this section. This is a moving security zone when the escorted vessel is in transit and becomes a fixed zone when the escorted vessel is anchored or moored. A security zone will not extend beyond the boundary of the regulated area in this section.

(d) *Regulations.* (1) The general regulations for security zones contained in §165.33 apply to this section.

(2) A vessel may request the permission of the COTP LALB or a designated representative to enter the security zone described in paragraph (c) of this section. If permitted to enter the security zone, a vessel must proceed at the minimum safe speed and must comply with the orders of the COTP or a designated representative.

(e) *Notice of security zone.* The COTP will inform the public of the existence or status of the security zones around escorted vessels in the regulated area by Broadcast Notice to Mariners. Coast Guard assets or other Federal, State or local law enforcement agency assets will be clearly identified by lights, vessel markings, or with agency insignia.

§ 165.T13-0353

When escorted vessels are moored, dayboards or other visual indications such as lights or buoys may be used.

(f) *Contact information.* The COTP LALB may be reached via phone at (310) 521-3801. Any on scene Coast Guard or designated representative assets may be reached via VHF-FM channel 16.

§ 165.1301 Puget Sound and Adjacent Waters in Northwestern Washington—Regulated Navigation Area.

The following is a regulated navigation area—All of the following northwestern Washington waters under the jurisdiction of the Captain of the Port, Puget Sound: Puget Sound, Hood Canal, Possession Sound, Elliott Bay, Commencement Bay, the San Juan Archipelago, Rosario Strait, Guemes Channel, Bellingham Bay, U.S. waters of the Strait of the Strait of Juan de Fuca, Haro Strait, Boundary Pass, and Georgia Strait, and all lesser bays and harbors adjacent to the above.

(a) Definitions as used in this section:

(1) *Vessels engaged in fishing* are as identified in the definition found in Rule 3 of the International Regulations for Prevention of Collisions at Sea, 1972, (72 COLREGS), found in appendix A, part 81 of this chapter.

(2) *Hazardous levels of vessel traffic congestion* are as defined at the time by Puget Sound Vessel Traffic Service.

(b) Nothing in this section shall be construed as relieving any party from their responsibility to comply with applicable rules set forth in the 72 COLREGS.

(c) General Regulations: The provisions of this paragraph apply at all times.

(1) Vessels engaged in fishing or other operations—that are distinct from vessels following a TSS or a connecting precautionary area east of New Dungeness and which are not required by the Bridge to Bridge Radiotelephone Regulations to maintain a listening watch, are highly encouraged to maintain a listening watch on the Puget Sound Vessel Traffic Service (PSVTS) VHF-FM radio frequency for the area in which the vessel is operating. A safe alternative to the radio listening watch is to stay clear of the TSS and connecting precautionary area.

(2) Vessels engaged in gill net fishing at any time between sunset and sunrise in any of the waters defining the regulated navigation area of this section shall, in addition to the navigation lights and shapes required by Part 81 of this title (72 COLREGS), display at the

end of the net most distant from the vessel on all-round (32-point) white light visible for a minimum of two nautical miles and displayed from at least three feet above the surface of the water.

(3) Vessels engaged in fishing, including gillnet and purse seine fishing, are prohibited in the following Prohibited Fishing Area: The Hood Canal Bridge, to include the waters within a one-half nautical mile radius of the center of the main ship channel draw span during the immediate approach and transit of the draw by public vessels of the United States.

(4) East of New Dungeness, vessels engaged in fishing in a traffic lane or connecting precautionary area shall tend nets or other gear placed in the water so as to facilitate the movement of the vessel or gear from the traffic lane or precautionary area upon the approach of a vessel following the TSS.

(d) Congested Regulations: The provisions under this paragraph apply only when imposed in specific locations by Puget Sound Vessel Traffic Service. They are intended to enhance vessel traffic safety during periods and in locations where hazardous levels of vessel traffic congestion are deemed to exist by Puget Sound Vessel Traffic Service. Operations potentially creating vessel traffic congestion include, but are not limited to, vessels engaged in fishing, including gillnet or purse seine, recreational fishing derbies, regattas, or permitted marine events.

(1) Vessels engaged in fishing or other operations—that are distinct from vessels following a Traffic Separation Scheme (TSS) or a connecting precautionary area east of New Dungeness, may not remain in, nor their gear remain in, a traffic lane or a connecting precautionary area east of New Dungeness when a vessel following a TSS approaches. Such vessels not following a TSS or a connecting precautionary area shall draw in their gear, maneuver, or otherwise clear these areas so that their action is complete at least fifteen minutes before the arrival of a vessel following the TSS. Vessels which are required by this paragraph to remain clear of a connecting precautionary area east of New Dungeness or a traffic lane must also

§ 165.1302

33 CFR Ch. I (7-1-22 Edition)

remain clear of the adjacent separation zone when in a TSS east of New Dungeness.

(2) A vessel following the TSS may not exceed a speed of 11 knots through the water.

(3) Vessels engaged in fishing, including gillnet and purse seine fishing, are prohibited in the following Prohibited Fishing Area: Edmonds/Kingston ferry crossing lanes, to include the waters within one-quarter nautical mile on either side of a straight line connecting the Edmonds and Kingston ferry landings during the hours that the ferry is operating.

(e) Authorization to deviate from this section.

(1) Commander, Thirteenth Coast Guard District may, upon written request, issue an authorization to deviate from this section if the proposed deviation provides a level of safety equivalent to or beyond that provided by the required procedure. An application for authorization must state the need for the deviation and describe the proposed alternative operation.

Datum: NAD 1983.

(b) During a whale hunt, while the international numeral pennant five (5) is flown by a Makah whale hunt vessel, the following area within the RNA is a Moving Exclusion Zone: The column of water from the surface to the seabed with a radius of 500 yards centered on the Makah whale hunt vessel displaying international numeral pennant five (5). This Moving Exclusionary Zone is activated only when surface visibility exceeds one nautical mile, between sunrise and sunset, and the Makah whale hunt vessel displays the international numeral pennant five (5). The Moving Exclusionary Zone is deactivated upon sunset, visibility is reduced to less than one nautical mile, or when the Makah hunt vessel strikes international numeral pennant five (5).

(c) Unless otherwise authorized by the Commander, Thirteenth Coast Guard District or his or her representative, no person or vessel may enter the active Moving Exclusionary Zone except for:

(1) Authorized Makah whale hunt vessel actively engaged in hunting operations under direction of the master of the Makah vessel flying international numeral pennant five (5), and

(2) A single authorized media pool vessel operating in accordance with paragraph (f) of this section.

(d) The international numeral pennant five (5) is only authorized to be displayed from one Makah whale hunt

vessel during actual whale hunt operations. No other vessels may display this pennant within the RNA at any time. Whale hunt operations commence when a whale hunt vessel is underway and its master intends to have a whale killed during the voyage. Whale hunt operations cease once this intent is abandoned, a whale is landed, or when the international numeral pennant five (5) is struck.

(e) The Makah Tribe shall make SECURITE broadcasts beginning one half hour before the commencement of a hunt and every half hour thereafter until hunting activities are concluded. This broadcast shall be made on channel 16 VHF-FM and state:

A whale hunt is proceeding today within the Regulated Navigation Area established for Makah whaling activities. The (name of vessel) is a (color and description of vessel) and will be flying international numeral pennant five (5) while engaged in whaling operations. This pennant is yellow and blue in color. Mariners are required by federal regulation to stay 500 yards away from (name of vessel), and are strongly urged to remain even further away from whale hunt activities as an additional safety measure.

(f)(1) Credentialed members of the media interested in entering the Moving Exclusionary Zone may request permission to operate a single media vessel in the Moving Exclusionary Zone by telephoning Coast Guard Public Affairs, as soon as practicable at (206) 220-7237 during normal working hours, and (206) 220-7001 after hours. Coast Guard preauthorization is required prior to entry into the Moving Exclusionary Zone by a single media pool vessel.

(2) The media pool vessel must be a U.S. documented vessel. The media pool vessel must be under command at all times within the Moving Exclusionary zone by a master holding a license or merchant mariner credential issued in the U.S. to carry passenger for hire. All expenses, liabilities and risks associated with operation of the media pool vessel lie with members of the pool and the pool vessel owners and operators.

(3) The master of the media pool vessel shall maneuver to avoid positioning the pool vessel between whales and hunt vessel(s), out of the line of fire, at

§ 165.1311

a prudent distance and location relative to whale hunt operations, and in a manner that avoids hindering the hunt or path of the whale in any way.

(4) Although permitted to maneuver within the Moving Exclusionary Zone, personnel aboard the media pool vessel are still required to follow safety and law enforcement related instructions of Coast Guard personnel.

(b) *Special requirements.* Fireworks barges or launch sites on land used in locations stated in this section must display a sign. The sign will be affixed to the port and starboard side of the barge or mounted on a post 3 feet above ground level when on land and in close proximity to the shoreline facing the water labeled “FIREWORKS—DANGER—STAY AWAY.” This will provide on-scene notice that the safety zone is, or will, be enforced on that day. This notice will consist of a diamond shaped sign, 4-foot by 4-foot, with a 3-inch orange retro-reflective border. The word “DANGER” will be 10-inch black block letters centered on the sign with the words “FIREWORKS” and “STAY AWAY” in 6-inch black block letters placed above and below the word “DANGER” respectively on a white background. An on-scene patrol vessel may enforce these safety zones at least 1 hour prior to the start and 1 hour after the conclusion of the fireworks display.

(c) *Notice of enforcement.* These safety zones will be activated and thus subject to enforcement, under the following conditions: The Coast Guard must receive an Application for Marine Event for each fireworks display; and, the Captain of the Port will cause notice of the enforcement of these safety zones to be made by all appropriate means to provide notice to the affected segments of the public as practicable, in accordance with §165.7(a). The Captain of the Port will issue a Local Notice to Mariners notifying the public of activation and suspension of enforcement of these safety zones. Additionally, an on-scene Patrol Commander

may be appointed to enforce the safety zones by limiting the transit of non-participating vessels in the designated areas described in paragraph (a) of this section.

(d) *Enforcement periods.* This section will be enforced at least 1 hour before and 1 hour after the duration of the event each day a barge or launch site with a “FIREWORKS—DANGER—STAY AWAY” sign is located within any of the safety zones identified in paragraph (a) of this section and meets the criteria established in paragraphs (b) and (c) of this section.

(e) *Regulations.* In accordance with the general regulations in subpart C of this part no person may enter or remain in the safety zone created in this section or bring, cause to be brought, or allow to remain in the safety zone created in this section any vehicle, vessel, or object unless authorized by the Captain of the Port or his designated representative. The Captain of the Port may be assisted by other Federal, State, or local agencies with the enforcement of the safety zone.

(f) *Authorization.* All vessel operators who desire to enter the safety zone must obtain permission from the Captain of the Port or Designated Representative by contacting either the on-scene patrol craft on VHF Ch 13 or Ch 16 or the Coast Guard Sector Columbia River Command Center via telephone at (503) 861-6211.

Captain of the Port Puget Sound will cause notice of the enforcement of the large passenger vessel security and safety zone to be made by all appropriate means to effect the widest publicity among the affected segments of the public including publication in the FEDERAL REGISTER as practicable, in accordance with 33 CFR 165.7(a). Such means of notification may also include but are not limited to, Broadcast Notice to Mariners or Local Notice to Mariners. The Captain of the Port Puget Sound will issue a Broadcast Notice to Mariners and Local Notice to Mariners notifying the public when enforcement of the large passenger vessel security and safety zone is suspended.

Large Passenger Vessel does not include vessels inspected and certificated under 46 CFR, Chapter I, Subchapter T such as excursion vessels, sight seeing vessels, dinner cruise vessels, and whale watching vessels.

Large Passenger Vessel Security and Safety Zone is a regulated area of water established by this section, surrounding large passenger vessels for a 500-yard radius to provide for the security and safety of these vessels.

Navigable waters of the United States means those waters defined as such in 33 CFR part 2.

Navigation Rules means the Navigation Rules, International—Inland.

Official Patrol means those persons designated by the Captain of the Port to monitor a large passenger vessel security and safety zone, permit entry into the zone, give legally enforceable orders to persons or vessels within the zone and take other actions authorized by the Captain of the Port. Public vessel means vessels owned, chartered, or operated by the United States, or by a State or political subdivision thereof.

Washington Law Enforcement Officer means any General Authority Washington Peace Officer, Limited Authority Washington Peace Officer, or Specially Commissioned Washington Peace Officer as defined in Revised Code of Washington section 10.93.020.

(c) *Security and safety zone.* There is established a large passenger vessel security and safety zone extending for a 500-yard radius around all large passenger vessels located in the navigable waters of the United States in Puget Sound, WA, east of 123°30' West Longitude. [Datum: NAD 1983].

(d) *Compliance.* The large passenger vessel security and safety zone established by this section remains in effect around large passenger vessels at all times, whether the large passenger vessel is underway, anchored, or moored. Upon notice of enforcement by the Captain of the Port Puget Sound, the Coast Guard will enforce the large passenger vessel security and safety zone in accordance with rules set out in this section. Upon notice of suspension of enforcement by the Captain of the Port Puget Sound, all persons and vessels are authorized to enter, transit, and exit the large passenger vessel security and safety zone, consistent with the Navigation Rules.

(f) When within a large passenger vessel security and safety zone all vessels must operate at the minimum speed necessary to maintain a safe course and must proceed as directed by the on-scene official patrol or large

passenger vessel master. No vessel or person is allowed within 100 yards of a large passenger vessel that is underway or at anchor, unless authorized by the on-scene official patrol or large passenger vessel master. No vessel or person is allowed within 25 yards of a large passenger vessel that is moored.

(g) To request authorization to operate within 100 yards of a large passenger vessel that is underway or at anchor, contact the on-scene official patrol or large passenger vessel master on VHF-FM channel 16 or 13.

(h) When conditions permit, the on-scene official patrol or large passenger vessel master should:

(1) Permit vessels constrained by their navigational draft or restricted in their ability to maneuver to pass within 100 yards of a large passenger vessel in order to ensure a safe passage in accordance with the Navigation Rules; and

(2) Permit vessels that must transit via a navigable channel or waterway to pass within 100 yards of an anchored large passenger vessel or within 25 yards of a moored large passenger vessel with minimal delay consistent with security.

(i) When a large passenger vessel approaches within 100 yards of any vessel that is moored or anchored, the stationary vessel must stay moored or anchored while it remains within the large passenger vessel's security and safety zone unless it is either ordered by, or given permission by the Captain of the Port Puget Sound, his designated representative or the on-scene official patrol to do otherwise.

(2) *Bar crossing plan* (also known as a Go/No-Go plan) means a plan developed by local industry professionals, in coordination with the Coast Guard, for a bar within a regulated navigation area established in paragraph (a) of this section and adopted by the master or operator of a small passenger vessel to guide his vessel's operations on and in the vicinity of that bar.

(3) *Bar restriction* means that operation of a recreational or uninspected passenger vessel within a regulated navigation area established in paragraph (a) of this section has been prohibited by the Coast Guard.

(4) *Commercial fishing industry vessel* means a fishing vessel, fish tender vessel, or a fish processing vessel.

(5) *Designated representative* means any Coast Guard commissioned, warrant, or petty officer that has been au-

thorized by the Captain of the Port to act on his behalf.

(6) *Fish processing vessel* means a vessel that commercially prepares fish or fish products other than by gutting, decapitating, gilling, skinning, shucking, icing, freezing, or brine chilling.

(7) *Fish tender vessel* means a vessel that commercially supplies, stores, refrigerates, or transports fish, fish products, or materials directly related to fishing or the preparation of fish to or from a fishing, fish processing, or fish tender vessel or a fish processing facility.

(8) *Fishing vessel* means a vessel that commercially engages in the catching, taking, or harvesting of fish or an activity that can reasonably be expected to result in the catching, taking, or harvesting of fish.

(9) *Readily accessible* means equipment that is taken out of stowage and is available within the same space as any person for immediate use during an emergency.

(10) *Recreational vessel* is any vessel manufactured or used primarily for non-commercial use or leased, rented, or chartered to another for the latter's non-commercial use. It does not include a vessel engaged in carrying paying passengers.

(11) *Small passenger vessel* means a vessel inspected under 46 CFR subchapter T or 46 CFR subchapter K.

(12) *Uninspected passenger vessel* means an uninspected vessel—

(i) Of at least 100 gross tons;

(B) That is chartered with the crew provided or specified by the owner or the owner's representative and carrying not more than 12 passengers; or

(ii) Of less than 100 gross tons;

(A) Carrying not more than six passengers, including at least one passenger-for-hire; or

(B) That is chartered with the crew provided or specified by the owner or the owner's representative and carrying not more than six passengers.

(13) *Unsafe condition* exists when the wave height within a regulated navigation area identified in paragraph (a) of this section is equal to or greater than

the maximum wave height determined by the formula $L/10 + F = W$ where:

L = Overall length of a vessel measured in feet in a straight horizontal line along and parallel with the centerline between the intersections of this line with the vertical planes of the stem and stern profiles excluding deckhouses and equipment.

F = The minimum freeboard when measured in feet from the lowest point along the upper strake edge to the surface of the water.

W = Maximum wave height in feet to the nearest highest whole number.

(c) *Regulations*—(1)(i) *Bar restriction*. Passage across the bars located in the regulated navigation areas established in paragraph (a) of this section will be restricted for recreational and uninspected passenger vessels as determined by the Captain of the Port (COTP) or his designated representative. In making this determination, the COTP or his designated representative will determine whether an unsafe condition exists for such vessels as defined in paragraph (b) of this section. Additionally, the COTP or his designated representative will use their professional maritime experience and knowledge of local environmental conditions in making their determination. Factors that will be considered include, but are not limited to: size and type of vessel, sea state, winds, wave period, and tidal currents. When a bar is restricted, the operation of recreational and uninspected passenger vessels in the regulated navigation area established in paragraph (a) of this section in which the restricted bar is located is prohibited unless specifically authorized by the COTP or his designated representative.

(ii) *Bar closure*. The bars located in the regulated navigation areas established in paragraph (a) of this section will be closed to all vessels whenever environmental conditions exceed the operational limitations of the relevant Coast Guard search and rescue resources as determined by the COTP. When a bar is closed, the operation of any vessel in the regulated navigation area established in paragraph (a) of this section in which the closed bar is located is prohibited unless specifically authorized by the COTP or his designated representative. For bars having

deep draft vessel access, the COTP will consult with the local pilots association, when practicable, prior to closing the affected bar.

(iii) The Coast Guard will notify the public of bar restrictions and bar closures via a Broadcast Notice to Mariners on VHF-FM Channel 16 and 22A. Additionally, Coast Guard personnel may be on-scene to advise the public of any bar restrictions and/or closures.

(2) *Safety requirements for recreational vessels*. The operator of any recreational vessel operating in a regulated navigation area established in paragraph (a) of this section shall ensure that whenever their vessel is being towed or escorted across a bar by the Coast Guard all persons located in any unenclosed areas of their vessel are wearing lifejackets and that lifejackets are readily accessible for/to all persons located in any enclosed areas of their vessel.

(3) *Safety requirements for Uninspected Passenger Vessels (UPV)*. (i) The master or operator of any uninspected passenger vessel operating in a regulated navigation area established in paragraph (a) of this section shall ensure that all persons located in any unenclosed areas of their vessel are wearing lifejackets and that lifejackets are readily accessible for/to all persons located in any enclosed areas of their vessel:

(A) When crossing the bar and a bar restriction exists for recreational vessels of the same length or

(B) Whenever their vessel is being towed or escorted across the bar by the Coast Guard.

(B) Whenever their vessel is being towed or escorted across the bar by the Coast Guard.

(ii) Small passenger vessels with bar crossing plans that have been reviewed by and accepted by the Officer in Charge, Marine Inspection (OCMI) are exempt from the safety requirements provided in paragraph (c)(4)(i) of this section during the conditions described in paragraph (c)(4)(i)(A) of this section so long as when crossing the bar the master or operator ensures that all persons on their vessel wear lifejackets in accordance with their bar crossing plan. If the vessel's bar crossing plan does not specify the conditions when the persons on their vessel must wear lifejackets, however, then the master or operator must comply with the safety requirements provided in paragraph (c)(4)(i) of this section in their entirety.

(iii) The master or operator of any small passenger vessel operating in a regulated navigation area established in paragraph (a) of this section during the conditions described in paragraph (c)(4)(i)(A) of this section shall contact the Coast Guard on VHF-FM Channel 16 or 22A prior to crossing the bar between sunset and sunrise. (2) [Reserved]

(b) *Special requirements.* Firework barges or launch sites on land used in

locations stated in this rule shall display a sign. The sign will be affixed to the port and starboard side of the barge

or mounted on a post 3 feet above ground level when on land and in close proximity to the shoreline facing the water labeled “FIREWORKS-DANGER-STAY AWAY.” This will provide on-scene notice that the safety zone is, or will, be enforced on that day. This notice will consist of a diamond shaped sign, 4 foot by 4 foot, with a 3 inch orange retro-reflective border. The word “DANGER” shall be 10 inch black block letters centered on the sign with the words “FIREWORKS” and “STAY AWAY” in 6 inch black block letters placed above and below the word “DANGER” respectively on a white background. An on-scene patrol vessel will enforce these safety zones 30 minutes prior to the start and 30 minutes after the conclusion of the fireworks display.

(c) *Notice of enforcement.* These safety zones will be activated and thus subject to enforcement, under the following conditions: the Coast Guard must receive and approve a marine event permit for each firework display and then the Captain of the Port will cause notice of the enforcement of these safety zones to be made by all appropriate means to provide notice to the affected segments of the public as practicable, in accordance with 33 CFR 165.7(a). The Captain of the Port will issue a Broadcast Notice to Mariners and Local Notice to Mariners notifying the public of activation and suspension of enforcement of these safety zones. Additionally, an on-scene Patrol Commander will ensure enforcement of this safety zone by limiting the transit of non-participating vessels in the designated areas described above.

(d) *Regulations.* In accordance with the general regulations in 33 CFR part 165, subpart C, no vessel operator may enter, transit, moor, or anchor within this safety zone, except for vessels authorized by the Captain of the Port or Designated Representative.

(e) *Authorization.* All vessel operators who desire to enter the safety zone must obtain permission from the Captain of the Port or Designated Representative by contacting either the on-scene patrol craft on VHF Ch 13 or Ch 16 or the Coast Guard Sector Seattle Joint Harbor Operations Center (JHOC) via telephone at (206) 217-6002.

(f) *Enforcement period.* This rule will be enforced from 5 p.m. until 1 a.m. each day a barge with a “FIREWORKS-DANGER-STAY AWAY” sign is located within any of the above designated safety zone locations and meets the criteria established in section (b), within the following timeframes:

(1) The last two weeks of December until the conclusion of the first week-end of January.

(2) The last weekend of June until the conclusion of the third week of July.

(3) The second weekend of August until the conclusion of the fourth week of August.

(4) The first weekend of September until the conclusion of the third week of September.

(5) The first weekend of December.

§ 165.1333 Security Zones, Seattle's Seafair Fleet Week moving vessels, Puget Sound, WA.

(a) *Location.* The following areas are security zones: All navigable waters within 500 yards of each designated participating vessel in the Parade of Ships while each such vessel is in the Sector Puget Sound Captain of the Port (COTP) zone, as defined in 33 CFR 3.65-10, during a time specified in paragraph (e) of this section. The Coast Guard will publish a notice in the FEDERAL REGISTER each year before the start of the Seattle Seafair Fleet Week to identify the designated participating vessels for that year. Should information in the notice change after publication, as it may for operational reasons, the Coast Guard will use actual notice to enforce security zones around participating vessels not in the published notice. The Coast Guard will also provide this information in the Local Notice to Mariners.

§ 165.1334

33 CFR Ch. I (7–1–22 Edition)

(b) *Definitions.* For purposes of this section—

Designated participating vessel means a military vessel participating in the Seattle Seafair Fleet Week that has been designated by the Sector Puget Sound COTP in accordance with this section.

The COTP has granted general permission for vessels to enter the outer 400 yards of the security zones as long as those vessels within the outer 400 yards of the security zones operate at the minimum speed necessary to maintain course unless required to maintain speed by the navigation rules. The COTP may be assisted by other federal, state or local agencies with the enforcement of the security zones.

(d) *Authorization.* All vessel operators who desire to enter the inner 100 yards of the security zones or transit the outer 400 yards at greater than minimum speed necessary to maintain course must obtain permission from the COTP or a Designated Representative by contacting the on-scene Coast Guard patrol craft on VHF 13 or Ch 16. § 165.1413 Regulated navigation area; Southern Oahu Tsunami Evacuation; Honolulu, Hawaii.

(a) *Location.* The following area is a regulated navigation area (RNA): All waters of the Pacific Ocean south of

the southern side of Oahu, HI extending from the surface of the water to the ocean floor, and is bound by a line connecting the following points: 21°17'14" N, 157°55'34" W; 21°13'30" N, 157°55'34" W; 21°13'30" N, 157°48'20" W; 21°14'14" N, 157°48'20" W thence westward along the 50-fathom line to the beginning point. These coordinates are based upon the National Oceanic and Atmospheric Administration Coast Survey, Pacific Ocean, Oahu, Hawaii, chart 19357.

(b) *Regulations.* You may contact the Coast Guard on VHF Channel 16 (156.800 MHz) or at telephone number 808-842-2600, to obtain clarification on RNA transits and locations. Operations permitting, the Coast Guard plans to provide on-scene direction using Coast Guard patrol boats and assets. During the enforcement period persons and vessels wishing to remain inside the RNA must abide by the following stipulations:

(1) No person or vessel may enter into an exclusionary area 3.7 nautical miles long by 1 nautical mile wide, centered lengthwise and along a line running seaward at 208 degrees southwest of Honolulu Harbor Front Range Light, except to transit to or from the staging areas or other areas outside the zone. Loitering or lingering in the exclusionary zone is prohibited.

(2) The Western Recreational Vessel Staging area is bound by the following points: 21°17'14" N, 157°55'34" W; 21°13'30" N, 157°55'34" W; 21°13'30" N, 157°55'17" W; 21°16'46" N, 157°53'23" W and then along the 50-fathom line to the beginning point. This staging area is intended for recreational vessels departing from and returning to the Keehi Lagoon area.

(3) The Commercial Vessel Staging Area is bound by a line connecting the following points: 21°16'48" N, 157°52'10" W; 21°13'30" N, 157°54'05" W; 21°13'30" N, 157°51'36" W; 21°15'55" N, 157°50'58" W and then along the 50-fathom line to the beginning point. This staging area is intended for use by all commercial vessels intended to remain in the RNA during a tsunami treat.

(4) The Eastern Recreational Vessel Staging Area is bound by the following points: 21°15'55" N, 157°50'58" W; 21°13'30" N, 157°51'36" W; 21°13'30" N, 157°48'20" W; 21°14'14" N, 157°48'20" W and then along the 50-fathom line to the beginning

point. The Commercial Vessel Staging Area borders this staging area's western edge. The dividing line between the Commercial Vessel Staging Area and the Eastern Recreational Vessel Staging Area can be determined visually. The private dayboards located in the Ala Wai Small Boat Harbor and the La Ronde Rotating Restaurant roof top restaurant form a natural range that mariners can use in daylight hours to gauge the eastern boundary of the Commercial Vessel Staging Area and the western boundary of the Eastern Recreational Vessel Staging Area. This eastern recreational staging area is intended for use by recreational vessels departing from and returning to the Ala Wai Small Boat harbor and Kewalo Basin.
