

§ 13.42

(e) *Closures and restrictions.* The Superintendent may prohibit or restrict the non-subsistence taking of fish in accordance with the provisions of §13.50.

[71 FR 69333, Nov. 30, 2006, as amended at 80 FR 64343, Oct. 23, 2015]

§ 13.42 Taking of wildlife in national preserves.

(a) Hunting and trapping are allowed in national preserves in accordance with applicable Federal and non-conflicting State law and regulation.

(b) Violating a provision of either Federal or non-conflicting State law or regulation is prohibited.

(c) Engaging in trapping activities as the employee of another person is prohibited.

(d) It shall be unlawful for a person having been airborne to use a firearm or any other weapon to take or assist in taking any species of bear, caribou, Sitka black-tailed deer, elk, coyote, arctic and red fox, mountain goat, moose, Dall sheep, lynx, bison, musk ox, wolf and wolverine until after 3 a.m. on the day following the day in which the flying occurred. This prohibition does not apply to flights on regularly scheduled commercial airlines between regularly maintained public airports.

(e) Persons transporting wildlife through park areas must identify themselves and the location where the wildlife was taken when requested by NPS law enforcement personnel.

(f)–(g) [Reserved]

(h) The Superintendent may prohibit or restrict the non-subsistence taking of wildlife in accordance with the provisions of §13.50.

(i) A person may not intentionally obstruct or hinder another person's lawful hunting or trapping by:

(1) Placing oneself in a location in which human presence may alter the behavior of the game that another person is attempting to take or the imminent feasibility of taking game by another person; or

(2) Creating a visual, aural, olfactory, or physical stimulus in order to alter the behavior of the game that another person is attempting to take.

(j) Collecting, capturing, or possessing living wildlife is prohibited un-

36 CFR Ch. I (7–1–23 Edition)

less expressly authorized by federal statute or pursuant to §2.5 of this chapter. A falconry permit or other permit issued by the State of Alaska does not provide the required authorization. These collecting activities are not hunting or trapping activities and therefore are not allowed in national preserves under paragraph (a) of this section. This regulation does not prohibit the use of trained raptors for hunting activities where authorized by applicable federal and state law.

[80 FR 64343, Oct. 23, 2015, as amended at 82 FR 3632, Jan. 12, 2017; 85 FR 35191, June 9, 2020]

§ 13.45 Unattended or abandoned property.

(a) This section applies to all park areas in Alaska except Klondike Gold Rush National Historical Park and Sitka National Historical Park, or as further restricted for specific park areas in subparts H through V of this part.

(b) *Personal property.* (1) Leaving personal property longer than 4 months is prohibited. The Superintendent may authorize property to be left in place for more than 4 months.

(2) Identification information is required for all personal property left in park areas. Identification information consists of the owner's name, home address, telephone number, date that the property was left, and the type of fuel if the property contains fuel. This information must be—

(i) Labeled on the property; or

(ii) Provided to the Superintendent.

(3) All property must be stored in such a manner that wildlife is unable to access the contents. Storing property in a manner that wildlife can access contents is prohibited.

(4) Leaving fuel in more than one location in a park area or leaving more than 30 gallons of fuel is prohibited unless authorized by the Superintendent.

(5) Storing fuel within 100 feet of a water source, high water mark of a body of water, or mean high tide is prohibited unless stored in a spill proof overpack container or authorized by the Superintendent. Fuel must be contained in an undamaged and closed fuel container designed for fuel storage. Fueling from containers must occur in

National Park Service, Interior

§ 13.50

such a manner that any spillage would be prevented from coming into contact with water, soil, or vegetation. Failure to properly contain or prevent spillage is prohibited.

(6) Leaving property unattended for longer than 24 hours on facilities is prohibited unless authorized by the Superintendent.

(7) Property left in violation of this section is prohibited and subject to impoundment and, if abandoned, disposal or forfeiture.

(c) The Superintendent may designate areas where personal property may not be left unattended for any time period, establish limits on the amount and type of personal property that may be left unattended, prescribe the manner in which personal property may be left unattended, or establish limits on the length of time personal property may be left unattended. Such designations and restrictions shall be published in at least one newspaper of general circulation within the State, posted at community post offices within the vicinity affected, made available for broadcast on local radio stations in a manner reasonably calculated to inform residents in the affected community, and designated on a map which shall be available for public inspection at the office of the Superintendent, or designated by the posting of appropriate signs, or both.

(d) In the event unattended property interferes with the safe and orderly management of a park area or is causing damage to the resources of the area, it may be impounded by the Superintendent at any time.

§ 13.50 Closure and restriction procedures.

(a) *Applicability and authority.* The Superintendent will follow the provisions of this section to close an area or restrict an activity, or terminate or relax a closure or restriction, in NPS areas in Alaska.

(b) *Factors.* In determining whether to close an area or restrict an activity, or whether to terminate or relax a closure or restriction, the Superintendent must ensure that the activity or area is managed in a manner compatible with the purposes for which the park area was established. The Superintendent-

ent's decision under this paragraph must therefore be guided by factors such as public health and safety, resource protection, protection of cultural or scientific values, subsistence uses, conservation of endangered or threatened species, and other management considerations.

(c) *Rulemaking requirements.* This paragraph applies only to a closure or restriction, or the termination or relaxation of such, which is of a nature, magnitude and duration that will result in a significant alteration in the public use pattern of the area; adversely affect the area's natural, aesthetic, scenic, or cultural values; or require a long-term modification in the resource management objectives of the area. Except in emergency situations, the closure or restriction, or the termination or relaxation of such, must be published as a rulemaking in the FEDERAL REGISTER.

(d) *Written determination.* Except in emergency situations, prior to implementing or terminating a closure or restriction, the superintendent shall prepare a written determination justifying the action. That determination shall set forth the reasons the closure or restriction authorized by paragraph (a) of this section has been established. This determination will be posted on the NPS Web site at www.nps.gov.

(e) *Restrictions on taking fish or wildlife.* (1) Except in emergencies, the NPS will consult with the State agency having responsibility over fishing, hunting, or trapping and provide an opportunity for public comment, including one or more public meetings near the affected NPS unit, prior to implementing a closure or restriction on taking fish or wildlife.

(2) Emergency closures or restrictions may not exceed a period of 60 days and may not be extended without following the nonemergency procedures of this section.

(f) *Notice.* A list of closures and restrictions will be compiled in writing and updated annually. The list will be posted on the NPS Web site at www.nps.gov and made available at park headquarters. Additional means of notice reasonably likely to inform residents in the affected vicinity will
