National Park Service, Interior

§7.4

(3) No person shall conduct, lead, or guide a river trip unless such person possesses a permit issued by the Superintendent, Grand Canyon National Park. (i) The Superintendent shall issue a permit upon a determination that the person leading, guiding, or conducting a river trip is experienced in running rivers in white water navigation of similar difficulty, and possesses appropriate equipment, which is identified in the terms and conditions of the permit.

(ii) No person shall conduct, lead, guide, or outfit a commercial river trip without first securing the above permit and possessing an additional permit authorizing the conduct of a commercial or business activity in the park.

A legally inoperative vehicle is a motor vehicle capable of movement under its own power, but not licensed to legally operate on roads.

(2) Leaving, storing, or placing upon federally owned lands within the park any immobilized or legally inoperative vehicle for a period exceeding 30 days is prohibited, except under the terms of a permit issued by the Superintendent.

(3) A revocable permit for an immobilized or legally inoperative vehicle may be issued without fee by the Superintendent for a specific period of time, upon a finding that the issuance of such a permit will not interfere with park management or impair park resources.

(i) Any permit issued will be valid for the period stated on the permit, unless otherwise revoked or terminated by the Superintendent, and will state the name and address of the owner, the description of the vehicle, and the exact location where it may be left, stored or placed.

(ii) The permittee will affix the permit securely and conspicuously to the vehicle.

(iii) The permit shall be nontransferable.

§ 7.5

36 CFR Ch. I (7–1–23 Edition)

that continued authorization under the permit would interfere with park management or impair park resources.

(4) An immobilized or legally inoperative vehicle left in excess of 30 days without a permit will be removed at the owner's expense.

(5) An immobilized or legally inoperative vehicle constituting a safety hazard, causing an obstruction to roads or trails, or interfering with maintenance operations will be removed immediately at the owner's expense. Such interference or impairment may include, but shall not be limited to, the creation of a safety hazard, traffic congestion, visual pollution, or fuel and lubricant drip pollution.

(6) The Superintendent shall have the right of inspection at all reasonable times to ensure compliance with the requirements of this paragraph.

Operation of motorboats south of the latter line is prohibited.

(7) Motorboats are prohibited on park waters except as permitted in paragraphs (d) (5) and (6) of this section.

(8) *Hand-propelled vessel waters.* Hand-propelled vessels and sail vessels may operate in park waters except on those waters named in paragraph (d)(4) of this section.

(11) The disturbance of birds inhabiting or nesting on either of the islands designated as "Molly Islands" in the Southeast Arm of Yellowstone Lake is prohibited; nor shall any vessel approach the shoreline of said islands within one-quarter mile.

(12) Boat racing, water pageants, and spectacular or unsafe types of recreational use of vessels are prohibited on park waters.

(e) *Fishing.* (1) Fishing restrictions, based on management objectives described in the park's Resources Management Plan, are established annually by the superintendent.

(2) The superintendent may impose closures and establish conditions or restrictions, in accordance with the criteria and procedures of §§1.5 and 1.7 of this chapter, on any activity pertaining to fishing, including, but not limited to, seasons and hours during which fishing may take place, size, creel and possession limits, species of fish that may be taken and methods of taking.

(3) *Closed waters.* The following waters of the park are closed to fishing and are so designated by appropriate signs:

(i) Pelican Creek from its mouth to a point two miles upstream.

(ii) The Yellowstone River and its tributary streams from the Yellowstone Lake outlet to a point one mile downstream.

(iii) The Yellowstone River and its tributary streams from the confluence of Alum Creek with the Yellowstone River upstream to the Sulphur Caldron.

(4) Fishing in closed waters or violating a condition or restriction established by the superintendent is prohibited.

(f) *Commercial passenger-carrying vehicles.* The prohibition against the commercial transportation of passengers by motor vehicles in Yellowstone National Park contained in §5.4 of this chapter shall be subject to the following exception: Motor vehicles operated on an infrequent and non-scheduled tour on which the visit to the park is an incident to such tour, carrying only round trip passengers traveling from the point of origin of the tour will, subject to the conditions set forth in this paragraph, be accorded admission to the park for the purpose of delivering passengers to a point of overnight stay in the park and exit from the park. After passengers have completed their stay, such motor vehicles shall leave the park by the most convenient exit station, considering their destinations. Motor vehicles admitted to the park under this paragraph shall not, while in the park, engage in general sightseeing operations. Admission will be accorded such vehicles upon establishing to the satisfaction of the superintendent that the tour originated from such place and in such manner as not to provide in effect a regular and duplicating service conflicting with, or in competition with, the services provided for the public pursuant to contract authorization from the Secretary. The superintendent shall have the authority to specify the route to be followed by such vehicles within the park.

(g) *Camping.* (1) Camping in Yellowstone National Park by any person, party, or organization during any calendar year during the period Labor Day through June 30, inclusive, shall not exceed 30 days, either in a single period or combined separate periods, when such limitations are posted.

(2) The intensive public-use season for camping shall be the period July 1 to Labor Day. During this period camping by any person, party, or organization shall be limited to a total of 14

days either in a single period or combined separate periods.

(h) *Dogs and cats.* Dogs and cats on leash, crated, or otherwise under physical restraint are permitted in the park only within 100 feet of established roads and parking areas. Dogs and cats are prohibited on established trails and boardwalks.

(k) *Portable engines and motors.* The operation of motor-driven chain saws, portable motor-driven electric light plants, portable motor-driven pumps, and other implements driven by portable engines and motors is prohibited in the park, except in Mammoth, Canyon, Fishing Bridge, Bridge Bay, Grant Village, and Madison Campgrounds, for park operation purposes, and for construction and maintenance projects authorized by the Superintendent. This restriction shall not apply to outboard motors on waters open to motorboating.

(1)(1) *What is the scope of this regulation?* The regulations contained in paragraphs (1)(2) through (1)(15) and (1)(18) of this section apply to the use of snowcoaches and snowmobiles by guides and park visitors. Except where indicated, paragraphs (1)(2) through (1)(15) do not apply to non-administrative oversnow vehicle use by affiliated persons.

(2) *What terms do I need to know?* The definitions in this paragraph (1)(2) also apply to non-administrative oversnow vehicle use by affiliated persons.

Affiliated persons means persons other than guides or park visitors. Affiliated persons include NPS employees, contractors, concessioner employees, their families and guests, or other persons designated by the Superintendent.

Commercial guide means a person who operates as a snowmobile or snowcoach guide for a monetary fee or other compensation and is authorized to operate in the park under a concession contract or a commercial use authorization.

Commercial tour operator means a person authorized to operate oversnow vehicle tours in the park under a concession contract or a commercial use authorization.

Enhanced emission standards means for snowmobiles, a maximum of 65 dB(A) as measured at cruising speed (approximately 35 mph) in accordance with the Society of Automotive Engineers (SAE) J1161 test procedures and certified under 40 CFR part 1051 to a Family Emission Limit no greater than 60 g/kW-hr for carbon monoxide; and for snowcoaches, a maximum of 71 dB(A) when measured by operating the snowcoach at cruising speed for the test cycle in accordance with the SAE J1161 test procedures.

Guide means a commercial guide or a non-commercial guide.

Non-commercial guide means a person who has successfully completed training and certification requirements established by the Superintendent that demonstrate the requisite knowledge and skills to operate a snowmobile in Yellowstone National Park. In order to be certified and receive a special use permit, a non-commercial guide must be at least 18 years of age by the day of the trip and possess a valid state-issued motor vehicle driver's license.

Non-commercially guided group means a group of no more than five snowmobiles, including a non-commercial guide, permitted to enter the park under the Non-commercially Guided Snowmobile Access Program.

Non-commercially Guided Snowmobile Access Program means a program that permits authorized parties to enter Yellowstone National Park without a commercial guide.

Oversnow route means that portion of the unplowed roadway located between the road shoulders and designated by snow poles or other poles, ropes, fencing, or signs erected to regulate oversnow activity. Oversnow routes include pullouts or parking areas that are groomed or marked similarly to roadways and are adjacent to designated oversnow routes. An oversnow route may also be distinguished by the interior boundaries of the berm created by the packing and grooming of the unplowed roadway.

National Park Service, Interior

§ 7.13

Oversnow vehicle means a snowmobile, snowcoach, or other motorized vehicle that is intended for travel primarily on snow and has been authorized by the Superintendent to operate in the park. All-terrain vehicles and utility-type vehicles are not oversnow vehicles, even if they have been modified for use on snow with track or ski systems

Snowcoach means a self-propelled mass transit vehicle intended for travel on snow, having a curb weight of over 1,000 pounds (450 kilograms), having a capacity of at least eight passengers and no more than 32 passengers, plus a driver.

Snowcoach transportation event means one snowcoach that does not meet enhanced emission standards traveling in Yellowstone National Park on any given day, or two snowcoaches that both meet enhanced emission standards traveling together in Yellowstone National Park on any given day.

Snowmobile means a self-propelled vehicle intended for travel solely on snow, with a maximum curb weight of 1,000 pounds (450 kilograms), driven by a track or tracks in contact with the snow, and which may be steered by a ski or skis in contact with the snow.

Snowmobile transportation event means a group of 10 or fewer commercially guided snowmobiles traveling together in Yellowstone National Park on any given day or a non-commercially guided group, which is defined separately. Snowmobiles entering Cave Falls Road are not considered snowmobile transportation events.

Snowplane means a self-propelled vehicle intended for oversnow travel and driven by an air-displacing propeller.

Transportation event means a snowmobile transportation event or a snowcoach transportation event.

(3) *When may I operate a snowmobile in Yellowstone National Park?* You may op-

erate a snowmobile in Yellowstone National Park each winter season only in compliance with use limits, guiding requirements, operating hours, equipment, and operating conditions established under this section. The operation of snowmobiles under a concessions contract or commercial use authorization is subject to the conditions stated in the concessions contract or commercial use authorization. The Superintendent may establish additional operating conditions after providing notice of those conditions in accordance with one or more methods listed in 36 CFR 1.7.

(4) *When may I operate a snowcoach in Yellowstone National Park?* (i) A snowcoach may be operated in Yellowstone National Park only under a concessions contract or commercial use authorization each winter season. Snowcoach operation is subject to the conditions stated in the concessions contract or commercial use authorization and all other conditions identified in this section. The Superintendent may establish additional operating conditions, including performance-based emission standards for snowcoaches, after providing notice of those conditions in accordance with one or more methods listed in 36 CFR 1.7.

(ii) The requirements in paragraphs (1)(4)(iii) through (iv) of this section apply to:

(A) new snowcoaches put into service on or after December 15, 2014;

(B) snowcoaches used in lieu of snowmobile transportation events during the 2014-2015 and 2015-2016 winter seasons; and

(C) all existing snowcoaches as of December 15, 2016.

(iii) The following air emission requirements apply to snowcoaches:

A snowcoach that is a . . .	must meet the following standard . . .
(A) Diesel-fueled snowcoach with a gross vehicle weight rating (GVWR) less than 8,500 pounds.	The functional equivalent of 2010 (or newer) EPA Tier 2 model year engine and emission control technology requirements. The EPA model year 2010 "engine configuration certified" diesel air emission requirements. Alternately, a snowcoach in this category may be certified under the functional equivalent of 2010 (or newer) EPA Tier 2 model year engine and emission control technology requirements if the snowcoach: (1) Has a GVWR between 8,500 and 10,000 pounds; and (2) Would achieve better emission results with a configuration that meets the Tier 2 requirements.
(B) Diesel-fueled snowcoach with a GVWR greater than or equal to 8,500 pounds.	

A snowcoach that is a . . .	must meet the following standard . . .
(C) Gasoline-fueled snowcoach greater than or equal to 10,000 GVWR.	The functional equivalent of 2008 (or newer) EPA Tier 2 model year engine and emission control technology requirements.
(D) Gasoline-fueled snowcoach less than 10,000 GVWR.	The functional equivalent of 2007 (or newer) EPA Tier 2 model year engine and emission control technology requirements.

(iv) A snowcoach may not exceed a sound level of 75 dB(A) when measured by operating the snowcoach at 25 mph, or at its maximum cruising speed if that is less than 25 mph, for the test cycle in accordance with the SAE J1161 test procedures.

(v) All emission-related exhaust components (as listed in the applicable portion of 40 CFR 86.004–25) must function properly. These emission-related components must be replaced with the original equipment manufacturer (OEM) component, if practicable. If OEM parts are not available, aftermarket parts may be used.

(vi) Operating a snowcoach with the original pollution control equipment disabled or modified is prohibited.

(vii) Before the start of a winter season, a snowcoach manufacturer or a commercial tour operator must demonstrate, by means acceptable to the Superintendent, that a snowcoach meets the air and sound emission standards. The NPS will test and certify snowcoaches for compliance with air and sound emission requirements at locations in the park. A snowcoach meeting the requirements for air and sound emissions may be operated in the park through the winter season that begins no more than 10 years from the engine manufacture date, or longer if the snowcoach is certified to meet performance-based emission standards established by the Superintendent under paragraph (1)(4)(i) of this section.

(viii) Snowcoaches are subject to periodic and unannounced inspections to determine compliance with the requirements of paragraph (1)(4) of this section.

(ix) This paragraph (1)(4) also applies to non-administrative oversnow vehicle use by affiliated persons.

(5) *Must I operate a certain model of snowmobile?* Only snowmobiles that meet NPS air and sound emissions requirements in this section may be operated in the park. Before the start of a winter season, a snowmobile manu-

facturer must demonstrate, by means acceptable to the Superintendent, that a snowmobile meets the air and sound emission standards. The Superintendent will approve snowmobile makes, models, and years of manufacture that meet those requirements. Any snowmobile model not approved by the Superintendent may not be operated in the park.

(6) *What standards will the Superintendent use to approve snowmobile makes, models, and years of manufacture for use in the park?* (i) Snowmobiles must meet the following air emission requirements:

(A) Through March 15, 2015, all snowmobiles must be certified under 40 CFR part 1051 to a Family Emission Limit no greater than 15 g/kW-hr for hydrocarbons and to a Family Emission Limit no greater than 120 g/kW-hr for carbon monoxide.

(B) As of December 15, 2015, all snowmobiles must be certified under 40 CFR part 1051 to a Family Emission Limit no greater than 15 g/kW-hr for hydrocarbons and to a Family Emission Limit no greater than 90 g/kW-hr for carbon monoxide.

(ii) Snowmobiles must meet the following sound emission requirements:

(A) Through March 15, 2015, snowmobiles must operate at or below 73 dB(A) as measured at full throttle according to SAE J192 test procedures (revised 1985). During this period, snowmobiles may be tested at any barometric pressure equal to or above 23.4 inches Hg uncorrected.

(B) As of December 15, 2015, snowmobiles must operate at or below 67 dB(A) as measured at cruising speed (approximately 35mph) in accordance with SAE J1161 test procedures. Sound emissions tests must be accomplished within the barometric pressure limits of the test procedure; there will be no allowance for elevation. A population of measurements for a snowmobile model may not exceed a mean output of 67 dB(A), and a single measurement may not exceed

National Park Service, Interior

§7.13

69 dB(A). The Superintendent may revise these testing procedures based on new information or updates to the SAE J1161 testing procedures.

(iii) A snowmobile meeting the requirements for air and sound emissions may be operated in the park for a period not exceeding six years from the manufacturing date, or after the snowmobile has travelled 6,000 miles, whichever occurs later.

(iv) Operating a snowmobile that has been modified in a manner that may adversely affect air or sound emissions is prohibited.

(v) These air and sound emissions requirements do not apply to snowmobiles operated on the Cave Falls Road in the park.

(vi) Snowmobiles are subject to periodic and unannounced inspections to determine compliance with the requirements of paragraph (1)(6) of this section.

(vii) This paragraph (1)(6) also applies to non-administrative oversnow vehicle use by affiliated persons.

(7) *Where may I operate a snowmobile in Yellowstone National Park?* (i) You may operate an authorized snowmobile only upon designated oversnow routes established within the park in accordance with 36 CFR 2.18(c). The following oversnow routes are so designated:

(A) Entrance roads: from the parking lot at Upper Terrace Drive south of Mammoth Hot Springs to Norris Junction, from the park boundary at West Yellowstone to Madison Junction, from the South Entrance to West Thumb, and from the East Entrance to junction with the Grand Loop Road.

(B) Grand Loop Road segments: from Norris Junction to Madison Junction, from Madison Junction to West Thumb, from West Thumb to the junction with the East Entrance Road, from Norris Junction to Canyon Junction, and from Canyon Junction to the junction with the East Entrance Road.

(C) Side roads: South Canyon Rim Drive, Lake Butte Road, Firehole Canyon Drive, North Canyon Rim Drive, and Riverside Drive.

(D) Developed area roads in the areas of Madison Junction, Old Faithful, Grant Village, West Thumb, Lake, East Entrance, Fishing Bridge, Canyon, Indian Creek, and Norris.

(ii) The Superintendent may open or close these oversnow routes, or portions thereof, for snowmobile travel after taking into consideration the location of wintering wildlife, appropriate snow cover, public safety, avalanche conditions, resource protection, park operations, use patterns, and other factors. The Superintendent will provide public notice of any opening or closing by one or more of the methods listed in 36 CFR 1.7.

(iii) This paragraph (1)(7) also applies to non-administrative oversnow vehicle use by affiliated persons.

(iv) Maps detailing the designated oversnow routes are available at Park Headquarters.

(8) *What routes are designated for snowcoach use?*

(i) Authorized snowcoaches may be operated on the routes designated for snowmobile use in paragraph (1)(7)(i) of this section. Snowcoaches may be operated on the Grand Loop Road from Canyon Junction to the Washburn Hot Springs Overlook. In addition, rubber-tracked snowcoaches may be operated from the park entrance at Gardiner, MT, to the parking lot of Upper Terrace Drive and in the Mammoth Hot Springs developed area.

(ii) The Superintendent may open or close these oversnow routes, or portions thereof, after taking into consideration the location of wintering wildlife, appropriate snow cover, public safety, avalanche conditions, resource protection, park operations, use patterns, and other factors. The Superintendent will provide public notice of any opening or closing by one of more of the methods listed in 36 CFR 1.7.

(iii) This paragraph (1)(8) also applies to non-administrative snowcoach use by affiliated persons.

(9) *Must I travel with a guide while snowmobiling in Yellowstone and what other guiding requirements apply?*

(i) All visitors operating snowmobiles in the park must be accompanied by a guide.

(ii) Unguided snowmobile access is prohibited.

(iii) The Superintendent will establish the requirements, including training and certification requirements for commercial guides and non-commercial guides and accompanying snowmobile operators.

§ 7.13

36 CFR Ch. I (7–1–23 Edition)

(iv) Guided parties must travel together within one-third of a mile of the first snowmobile in the group.

(v) Snowmobiles operated by non-commercial guides must be clearly marked so that park personnel can easily ascertain which snowmobiles in the park are part of a non-commercially guided group.

(vi) Non-commercial guides must obtain a special use permit from the Non-commercially Guided Snowmobile Access Program prior to entering the park with a non-commercially guided group.

(vii) The guiding requirements described in this paragraph (1)(9) do not apply to Cave Falls Road.

(10) *Are there limits upon the number of snowmobiles and snowcoaches permitted to operate in the park each day?* As of December 15, 2014, the number of snowmobiles and snowcoaches permitted to operate in the park each day will be managed by transportation events, as follows:

(i) A transportation event consists of a group of no more than 10 snowmobiles (including the snowmobile operated by the guide) or 1 snowcoach (unless enhanced emission standards allow for 2).

(ii) No more than 110 transportation events may occur in Yellowstone National Park on any given day.

(iii) No more than 50 of the 110 transportation events allowed each day may be snowmobile transportation events.

(iv) Four of the 50 snowmobile transportation events allowed each day are reserved for non-commercially guided groups, with one such group allowed per entrance per day. The Superintendent may adjust or terminate the Non-commercially Guided Snowmobile Access Program, or redistribute non-commercially guided transportation events, based upon impacts to park resources, park operations, utilization rates, visitor experiences, or other factors, after providing public notice in accordance with one or more methods listed in 36 CFR 1.7.

(v) Transportation events allocated to commercial tour operators may be

exchanged among commercial tour operators, but only for the same entrance or location.

(vi) Commercial tour operators may decide whether to use their daily allocations of transportation events for snowmobiles or snowcoaches, subject to the limits in this section.

(vii) Transportation events may not exceed the maximum number of oversnow vehicles allowed for each transportation event.

(viii) Snowmobile transportation events conducted by a commercial tour operator may not exceed an average of 7 snowmobiles, averaged over the winter season. However, snowmobile transportation events conducted by a commercial tour operator that consist entirely of snowmobiles meeting enhanced emission standards may not exceed an average of 8 snowmobiles, averaged over the winter season. For the 2014–2015 winter season only, snowmobile transportation events conducted by a commercial tour operator that consist of any snowmobile that does not meet the air emission requirements in paragraph (1)(6)(i)(B) of this section or the sound emission requirements in paragraph (1)(6)(ii)(B) of this section may not exceed an average of 7 snowmobiles, averaged daily.

(ix) Snowcoach transportation events that consist entirely of snowcoaches meeting enhanced emission standards may not exceed an average of 1.5 snowcoaches, averaged over the winter season.

(x) A commercial tour operator that is allocated a transportation event, but does not use it or exchange it can count that event as “0” against that commercial tour operator’s daily and seasonal averages. A commercial tour operator that receives a transportation event from another concessioner, but does not use it, may also count that event as “0” against its daily and seasonal averages.

(xi) Up to 50 snowmobiles may enter Cave Falls Road each day.

(xii) Daily allocations and entrance distributions for transportation events are listed in the following table:

National Park Service, Interior

§ 7.13

DAILY TRANSPORTATION EVENT ENTRY LIMITS BY PARK ENTRANCE/LOCATION

Park entrance/location	Commercially guided snowmobile transportation events	Non-commercially guided snowmobile transportation events	Snowcoach transportation events if all 50 snowmobile transportation events are used	Snowcoach transportation events if zero commercially guided snowmobile transportation events are used*
West Entrance	23	1	26	49
South Entrance	17	1	8	25
East Entrance	2	1	1	3
North Entrance	2	1	13	15
Old Faithful	2	0	12	14
Total	46	4	60	106

* The remaining 4 transportation events are reserved for non-commercially guided snowmobiles.

(xiii) The Superintendent may decrease the maximum number of transportation events allowed in the park each day, or make limited changes to the transportation events allocated to each entrance, after taking into consideration the location of wintering wildlife, appropriate snow cover, public safety, avalanche conditions, park operations, utilization rates, visitor experiences, or other factors. The Superintendent will provide public notice of changes by one or more of the methods listed in 36 CFR 1.7.

(xiv) For the 2013–2014 winter season only, the number of snowmobiles and snowcoaches allowed to operate in the park each day is limited to a certain number per entrance or location as set forth in the following table. During this period, all snowmobiles operated by park visitors must be accompanied by a commercial guide. Snowmobile parties must travel in a group of no more than 11 snowmobiles, including the guide.

NUMBER OF SNOWMOBILES AND SNOWCOACHES ALLOWED IN THE PARK ON ANY DAY BY PARK ENTRANCE/LOCATION FOR THE 2013–2014 WINTER SEASON

Park entrance/location	Commercially guided snowmobiles	Commercially guided snowcoaches
West Entrance	160	34
South Entrance	114	13
East Entrance	20	2
North Entrance *	12	13
Old Faithful *	12	16

* Commercially guided snowmobile tours originating at the North Entrance and Old Faithful are currently provided solely by one concessioner. Because this concessioner is the sole provider at both of these areas, this regulation allows reallocation of snowmobiles between the North Entrance and Old Faithful as necessary, so long as the total daily number of snowmobiles originating from the two locations does not exceed 24. For example, the concessioner could operate 6 snowmobiles at Old Faithful and 18 at the North Entrance if visitor demand warranted it. This will allow the concessioner to respond to changing visitor demand for commercially guided snowmobile tours, thus enhancing the availability of visitor services in Yellowstone.

(xv) Paragraph (1)(10)(xiv) remains in effect until March 15, 2014.

(11) *How will the park monitor compliance with the required average and maximum size of transportation events?* As of December 15, 2014:

(i) Each commercial tour operator must maintain accurate and complete records of the number of transportation events it has brought into the park on a daily basis.

(ii) The records kept by commercial tour operators under paragraph (1)(11)(i) of this section must be made available for inspection by the park upon request.

(iii) Each commercial tour operator must submit a monthly report to the park that includes the information below about snowmobile and snowcoach use. We may require the report to be submitted more frequently than monthly if it becomes necessary

§ 7.13

36 CFR Ch. I (7–1–23 Edition)

to more closely monitor activities to protect natural or cultural resources in the park.

(A) Average group size for allocated transportation events during the previous month and for the winter season to date. Any transportation events that have been exchanged among commercial tour operators must be noted and the receiving party must include these transportation events in its reports.

(B) For each transportation event; the departure date, the duration of the trip (in days), the event type (snowmobile or snowcoach), the number of snowmobiles or snowcoaches, the number of visitors and guides, the entrance used, route, and primary destinations, and if the transportation event allocation was from another commercial tour operator.

(iv) To qualify for the increased average size of snowmobile transportation events or increased maximum size of snowcoach transportation events, a commercial tour operator must:

(A) Demonstrate before the start of a winter season, by means acceptable to the Superintendent, that his or her snowmobiles or snowcoaches meet the enhanced emission standards; and

(B) Maintain separate records for snowmobiles and snowcoaches that meet enhanced emission standards and those that do not to allow the park to measure compliance with required average and maximum sizes of transportation events.

(12) *How will I know when I can operate a snowmobile or snowcoach in the park?* The Superintendent will:

(i) Determine the start and end dates of the winter season, which will begin no earlier than December 15 and end no later than March 15 each year. The Superintendent will consider appropriate factors when determining the length of the winter season, including adequate snow cover, the location of wintering wildlife, public safety, resource protection, park operations, and use patterns. Based upon these factors, the Superintendent may determine that there will be no winter season for oversnow vehicles or that certain areas of the park may be closed to public OSV use.

(ii) Determine operating hours, dates, and use levels.

(iii) Notify the public of the start and end dates of the winter season, operating hours, dates, use levels, and any applicable changes through one or more of the methods listed in § 1.7 of this chapter.

(iv) Except for emergency situations, announce annually any changes to the operating hours, dates, and use levels.

(13) *What other conditions apply to the operation of oversnow vehicles?* (i) The following are prohibited:

(A) Idling an oversnow vehicle for more than three minutes at any one time.

(B) Driving an oversnow vehicle while the driver's motor vehicle license or privilege is suspended or revoked.

(C) Allowing or permitting an unlicensed driver to operate an oversnow vehicle.

(D) Driving an oversnow vehicle with disregard for the safety of persons, property, or park resources, or otherwise in a reckless manner.

(E) Operating an oversnow vehicle without a lighted white headlamp and red taillight.

(F) Operating an oversnow vehicle that does not have brakes in good working order.

(G) The towing of persons on skis, sleds, or other sliding devices by oversnow vehicles, except for emergency situations.

(H) Racing snowmobiles, or operating a snowmobile in excess of 35 mph, or operating a snowmobile in excess of any lower speed limit in effect under § 4.21(a)(1) or (2) of this chapter or that has been otherwise designated.

(I) Operating a snowcoach in excess of 25 mph, or operating a snowcoach in excess of any lower speed limit in effect under § 4.21(a)(1) or (2) of this chapter or that has been otherwise designated.

(ii) The following are required:

(A) All oversnow vehicles that stop on designated routes must pull over to the far right and next to the snow berm. Pullouts must be used where available and accessible. Oversnow vehicles may not be stopped in a hazardous location or where the view might be obscured. Oversnow vehicles may not be operated so slowly as to interfere with the normal flow of traffic.

National Park Service, Interior

(ix) “Part-time residents” means those persons who physically and continuously reside in their homes on the Island for less than 12 months of the year.

(x) “Essential service vehicle” means any motor vehicle other than a public utility vehicle whose use on the Island is essential to the continued use of residences on the Island. This may include vehicles used for the following purposes, while in use for such purposes:

(A) Transporting heating fuel and bottled gas.

(B) Sanitation or refuse removal.

(xi) “Official vehicle” means any motor vehicle operated and owned or leased by a Federal, State, or local governmental agency, except for law enforcement vehicles and fire fighting apparatus, while that vehicle is being used to transact the official business of that agency.

(xii) “Construction and business vehicle” means any motor vehicle other than a public utility vehicle or essential service vehicle involved in construction, maintenance, or repair of structures on the Island or the transportation of materials or supplies to retail business establishments on the Island.

(2) *Routes for motor vehicle travel.* No motor vehicle may be operated on Seashore lands except on routes designated for that purpose and subject to the limitations of this paragraph (a). The following are the routes for off-road motor vehicle travel on Seashore lands, which shall be designated on a map available at the office of the Superintendent or by the posting of signs where appropriate:

(i) Along the Atlantic Ocean on the south shore of Fire Island, within the Seashore boundaries between the water’s edge and 20 feet seaward of the beach grass (*Ammophila breviligata*) line. If the water is higher than this 20-foot line, no vehicle travel is permitted.

(ii) A 1-mile route in the interior of the Island, crossing the “Lighthouse Tract” from the easterly end of the paved road in Robert Moses State Park to the eastern boundary of the Tract, which is the western boundary of the community of Lighthouse Shores-Kismet Park.

(iii) An interior route which extends intermittently the length of the island, commonly referred to as the “Burma Road,” for limited travel by public utility and law enforcement vehicles and fire fighting apparatus.

(iv) Posted dune crossings from the beach to the “Burma Road” or to pathways within the island communities.

(3) *Alternative means of transportation.* In providing for access to the island, the Superintendent shall require maximum possible reliance on those means of transportation which are other than private motor vehicles and which have the minimum feasible impact on Seashore lands. As used in this paragraph (a), the term “alternative transportation” shall mean a waterborne conveyance that is licensed for hire and that provides a reasonable means of transportation between the mainland and the island. Such alternative transportation shall be deemed to exist for each particular factual situation in which:

(i) The schedule of the transportation service in question permits departure from an island terminal before 9 a.m. and departure from a mainland terminal after 5 p.m. on the same day; and

(ii) When the interval between the earliest and latest service provided by the transportation service in question on any day exceeds 8 hours, such service provides at least one round trip between the mainland and the island during that interval; and

(iii) The island transportation terminal in question is no more than one mile from the point of origin or destination on the island or from a point on the island to which access by motor vehicle is permitted; and

(iv) The mode of transportation in question is adequate to carry the person or object to be transported.

(4) *Permit required.* No motor vehicle, other than a piece of firefighting apparatus or a motor vehicle operated and owned or leased by a duly constituted

law enforcement agency having jurisdiction within the Seashore, shall be operated on Seashore lands without a valid permit issued by the Superintendent.

(5) *Permit eligibility.* Any person, firm, partnership, corporation, organization, or agency falling within the categories listed below may apply to the Superintendent for a permit, using a form to be supplied for that purpose. The following will be eligible to submit permit applications:

(i) Those persons who are year-round residents.

(ii) Those persons who held part-time permits prior to January 1, 1978.

(iii) Those persons, firms, partnerships, corporations, organizations, or agencies which provide services essential to public facilities and the occupancy of residences on the Island.

(iv) Those persons who desire access by motor vehicle to Seashore lands in order to engage in fishing or hunting thereon, provided such access is compatible with conservation and preservation of Seashore resources.

(v) Those owners of estates in real property located on the Island who have a demonstrated need for temporary access to that property on days when there is no alternative transportation.

(vi) Holders of reserved rights of use and occupancy.

(6) *Standards for issuance of permits.* Permits will not be issued for the convenience of travel on Seashore lands. The Superintendent shall approve an application for a motor vehicle permit with appropriate limitations and restrictions or deny the application, in accordance with the provisions of this paragraph (a). Permits will be issued only for those motor vehicles whose travel on Seashore lands is deemed by the Superintendent to be essential to the management or enjoyment of Seashore resources, or to the occupancy of residences or the ownership of real property on the island. In making this determination, the Superintendent shall consider the purposes of the Act in providing for the conservation and preservation of the natural resources of the Seashore and for the enjoyment of these resources by the public; the scope

National Park Service, Interior

§ 7.20

and purpose of such travel; the availability of alternative transportation on the day or days when the applicant for a permit requests to travel on Seashore lands; the present or past issuance of other permits to the applicant; any limitations on numbers of permits established pursuant to paragraph (a)(8); and, in the case of public utility, service, and official vehicles, the feasibility of basing such vehicles and related equipment on the island rather than the mainland.

(7) *Vehicle restrictions.* Any motor vehicle whose owner or operator has been found to qualify for a permit, according to the standards set forth in paragraphs (a) (5) and (6), must, prior to the issuance of such permit:

(i) Have a valid permit or other authorization for operation on the island issued by the local government agency or agencies within whose jurisdiction the travel is to be performed, if such permission or authorization is required by such agency or agencies.

(ii) Be capable of four-wheel drive operation.

(iii) Have a rated gross vehicle weight not in excess of 10,000 pounds, unless the use of a larger vehicle will result in a reduction of overall motor vehicle travel.

(iv) Meet the requirements of §4.10(c)(3) of this chapter and conform to all applicable State laws regarding licensing, registration, inspection, insurance, and required equipment.

(8) *Limitations on number of permits.* (i) The Superintendent may limit the total number of permits for motor vehicle travel on Seashore lands, and/or limit the number of permits issued for each category of eligible applicants listed in paragraph (a)(5) of this section as the Superintendent deems necessary for resource protection, public safety, or visitor enjoyment. In establishing or revising such limits, the Superintendent shall consider such factors as the type of use or purpose for which travel is authorized, the availability of other means of transportation, limits established by local jurisdictions, historic patterns of use, conflicts with other users, existing multiple permits held by individuals or a household, aesthetic and scenic values, visitor uses, safety, soil, weather, erosion, terrain,

wildlife, vegetation, noise, and management capabilities. A revision of these limitations shall be published as a rule in the FEDERAL REGISTER except in emergency situations when closures may be imposed in accordance with the provisions of §1.5 and §1.7 of this chapter.

(ii) Limitations on permits for motor vehicle travel on Seashore lands, according to eligible applicant category, are as follows:

(A) *Year-round residents.* No more than 145 permits at any time are issued to year-round residents. A year-round resident who is denied a permit because the limit has been reached is placed on a waiting list. When the number of outstanding permits drops below 145, permits are issued in order of the date of receipt of the application. When multiple applications are received on the same day, priority is given to persons both living and working full time on the Island. One year-round resident permit is allowed per household. Permit applications are mailed by the Superintendent by December 1 of each year to those year-round residents eligible to renew their permit. The deadline for receipt of completed applications is January 31 of the permit year. Applications received after January 31 are not considered as renewals of existing permits. Should the 145 limit be reached, late applications are placed at the end of the waiting list.

(B) *Part-time residents.* Permits are issued only to part-time residents who held a residential permit as of January 1, 1978. No more than 100 part-time resident permits are issued. A part-time resident who becomes a year-round resident is eligible to apply for a year-round resident permit in accordance with paragraph (a)(8)(ii)(A) of this section. A year-round resident permit holder as of January 1, 1978, who no longer qualifies as a year-round resident, may be eligible to obtain a part-time resident permit as long as the 100 limit is not exceeded and the part-time resident definition is satisfied.

(C) *Holders of reserved rights of use and occupancy.* A holder of a reserved right of use and occupancy, or a lessee thereof, occupying a property acquired by the National Park Service in the eight-mile area described in the Act, is

issued a permit consistent with the terms under which the right of use and occupancy is retained.

(D) *Public utility and essential service vehicles.* No more than 30 permits at any time are issued to public utility and essential service vehicles. After consultation with the property owners' association of the appropriate unincorporated community or the village clerk for the Villages of Ocean Beach and Saltaire, the Superintendent may apportion permits to allow minimal service needs to each community.

(E) *Construction and business vehicles.* No more than 80 permits at any time are issued to construction and business vehicles. An operator of a construction or business vehicle who is denied a permit because the limit has been reached is placed on a waiting list. When the number of outstanding permits drops below 80, permits are issued in order of the date of receipt of the application. An operator of a construction or business vehicle may apply for either a 30-day-per-job permit or a one-year letter permit. Only a year-round construction firm or a year-round business is eligible for a one-year letter permit and only as long as the firm or business remains in year-round operation. Notwithstanding possession of either a 30-day permit or a one-year letter permit, when water transportation is available, a firm or business shall accomplish all transportation of materials, supplies, and crews by use of the nearest available ferry, freight, or other overwater transportation method. When water transportation is available, vehicles permitted under a 30-day permit may remain at the job site but must be removed upon the completion of the job.

(F) *Municipal employees.* A year-round resident who is a full-time employee of one of the two villages or of one of the 15 unincorporated communities identified in the Act is eligible for a permit if such employment necessitates year-round Island residence. Five (5) municipal employee permits are available for each village or community except on the basis of documented community need.

(G) *Recreational vehicles.* Recreational vehicles may travel between Smith Point and Long Cove along the route described in paragraph (a)(2)(i) of this

section. A total of 5000 one-way trips per year are available for the recreational vehicle category. Permits for recreational vehicles may be obtained from the Smith Point Visitor Center. Annual recreational vehicle trip counts commence in September of each year and conclude the following June or when the 5000 trip limit is reached, whichever occurs first.

(9) *Permit limitations.* (i) No permit issued under these regulations shall be valid for more than one year. The superintendent may issue permits for lesser periods, as appropriate for the travel required or the time of year at which a permit is issued.

(ii) Permits for public utility, service, and official vehicles shall specify the number of vehicles and identify each vehicle whose use is authorized thereby. Permits for other motor vehicles will apply only to the single, specific vehicle for which issued.

(iii) Permits are not transferable to another motor vehicle or to a new owner or lessee of the vehicle for which issued.

(iv) Permits may specify a single or multiple uses or purposes for which travel on Seashore lands is permitted. The limitations and restrictions on authorized travel set forth in paragraph (a)(10) of this section shall apply, however, depending upon the specific use or purpose for which a permitted motor vehicle is being utilized at the time of travel.

(v) Permits may contain such other limitations or conditions as the Superintendent deems necessary for resource protection, public safety, or visitor enjoyment. Limitations may include, but will not be limited to, restrictions on locations where vehicle travel is authorized and times, dates, or frequency of travel, in accordance with the provisions of this paragraph (a).

(10) *Authorized travel.* (i) Except as specifically provided elsewhere in this paragraph (a)(10), travel across Seashore lands by motor vehicles with valid permits will be authorized only on those days in which the island location, which is the point of origin or destination of travel or is another point to which access by motor vehicle is permitted, is not served by alternative transportation.

National Park Service, Interior

§ 7.20

When alternative transportation services satisfy the definition of alternative transportation in paragraph (a)(3), the schedule of transportation services available for the island community or communities named in the permit application shall determine the days when travel is not authorized for the motor vehicle to which that permit applies.

(ii) Except as provided in paragraph (a)(10)(iii) of this section, on any day on which travel by motor vehicle is authorized due to a lack of alternative transportation, travel shall be limited to not more than one round trip per vehicle per day between the mainland and the Island, and may be performed at any time except the following periods:

(A) From 9 a.m. to 6 p.m. on all Saturdays, Sundays, and national holidays from May 1 through June 13 and from September 15 through October 31.

(B) From 9 a.m. to 6 p.m. on all weekdays, and from 6 p.m. Friday to 9 a.m. the following Monday on all weekends, from June 14 through September 14.

(iii) *Exceptions.* (A) From the Monday after Labor Day through the Friday before Memorial Day, a year-round resident may make no more than two round trips per day for residential purposes.

(B) The Seashore is closed to all recreational vehicles from January 1 through March 31 and from June 14 through September 14. During the periods when the Seashore is open for recreational vehicle traffic, an operator of a recreational vehicle may make no more than two round trips per day. On weekend days in September and October, a recreational vehicle may enter the Island until 9:00 a.m. A recreational vehicle that has entered the Island may then remain or may depart but may not re-enter the Island until after 6:00 p.m.

(iv) The Superintendent may, for situations where the restrictions in paragraph (a)(10)(ii) would create a severe hardship, authorize additional trips or travel at other hours.

(v) In the case of public utility, service, and official vehicles for which permits have been issued, the Superintendent may authorize travel on Seashore lands at any time that he deter-

mines travel by such vehicles is essential, notwithstanding the above limitations and restrictions on authorized travel.

(vi) Recurring travel conducted pursuant to paragraph (a)(10) (iv) or (v) of this section is authorized only pursuant to the terms and conditions of the original permit issued by the Superintendent; single occasion travel is authorized only pursuant to the terms and conditions of a permit issued by the Superintendent on a case by case basis.

(vii) In an emergency involving the protection of life or a threatened substantial loss of property, travel by a motor vehicle which is under permit is authorized at any time.

(viii) The Superintendent may suspend any travel by motor vehicle otherwise permitted under this paragraph (a) when in his judgment such travel is inconsistent with the purpose of the Act or when such factors as weather, tides, or other physical conditions render travel hazardous or would endanger Seashore resources. Such suspension of travel shall be announced by the posting of appropriate signs or verbal order of the Superintendent.

(ix) In accordance with the procedures set forth in §1.5 of this chapter, the Superintendent may establish a limit on the number of motor vehicles permitted on any portion of, or the entirety of, the Seashore lands at any one time when such limits are required in the interests of public safety, protection of the resources of the area, or coordination with other visitor uses.

(x) The provisions of this paragraph (a)(10) shall not apply to firefighting apparatus or to motor vehicles operated and owned or leased by a duly constituted law enforcement agency having jurisdiction within the Seashore.

(11) *Rules of travel.* (i) When two motor vehicles approach from opposite directions in the same track on Seashore lands, both operators shall reduce speed and the operator with the water to his left shall yield the right of way by turning out of the track to the right.

(ii) No motor vehicle shall be operated on any portion of a dune on Seashore lands except at dune crossings.

(iii) No person shall operate a motor vehicle on Seashore lands at a speed in excess of 20 miles per hour.

(iv) The speed of any motor vehicle being operated on Seashore lands shall be reduced to five miles per hour upon approaching or passing within 100 feet of any person not in a motor vehicle, or when passing through or over any dune crossings.

(12) *Violations.* (i) Failure to comply with the conditions of any permit issued pursuant to this paragraph will constitute a violation of these regulations.

(ii) In addition to any penalty required by §1.3(a) of this chapter for a violation of regulations in this paragraph, the Superintendent may suspend or revoke the permit of a motor vehicle involved in such a violation.

(b) *Operation of Seaplane and Amphibious Aircraft.* (1) Aircraft may be operated on the waters of the Great South Bay and the Atlantic Ocean within the boundaries of Fire Island National Seashore, except as restricted in §2.17 of this chapter and by the provisions of paragraph (b)(2) of this section.

(2) Except as provided in paragraph (b)(3) of this section, the waters of the Great South Bay and the Atlantic Ocean within the boundaries of Fire Island National Seashore are closed to take-offs, landings, beachings, approaches or other aircraft operations at the following locations:

(i) Within 1000 feet of any shoreline, including islands.

(ii) Within 1000 feet of lands within the boundaries of the incorporated villages of Ocean Beach and Saltaire and the village of Seaview.

(3) Aircraft may taxi on routes perpendicular to the shoreline to and from docking facilities at the following locations:

(i) Kismet—located at approximate longitude 73° 12½' and approximate latitude 40° 38½'.

(ii) Lonelyville—located at approximate longitude 73° 11' and approximate latitude 40° 38½'.

(iii) Atlantique—located at approximate longitude 73° 10½' and approximate latitude 40° 38½'.

(iv) Fire Island Pines—located at approximate longitude 73° 04½' and approximate latitude 40° 40'.

(v) Water Island—located at approximate longitude 73° 02' and approximate latitude 40° 40½'.

(vi) Davis Park—located at approximate longitude 73° 00½' and approximate latitude 40° 41'.

(4) Aircraft operation in the vicinity of marinas, boats, boat docks, floats, piers, ramps, bird nesting areas, or bathing beaches must be performed with due caution and regard for persons and property and in accordance with any posted signs or uniform waterway markers.

(5) Aircraft are prohibited from landing or taking off from any land surfaces, any estuary, lagoon, marsh, pond, tidal flat, paved surface, or any waters temporarily covering a beach; except with prior authorization of the Superintendent. Permission shall be based on the need for emergency service, resource protection, resource management or law enforcement.

(6) Aircraft operations shall comply with all Federal, State and county ordinances and rules for operations as may be indicated in available navigation charts or other aids to aviation which are available for the Fire Island area.

(c) *Information collection.* The information collection requirements contained in this section have been approved by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.* and assigned clearance number 1024-0026. This information is being collected in order for the superintendent to issue permits and grant administrative benefits. The obligation to respond is required in order to obtain a benefit.

(d) *Personal watercraft.* (1) Personal watercraft (PWC) may operate in the following locations and under the following conditions:

(i) Great South Bay from the western boundary of the national seashore adjacent to Robert Moses State Park, east to the western boundary of the Sunken Forest, excluding any area within 1,000 feet of the shoreline, except as provided in (ii), including the area surrounding East Fire Island and West Fire Island.

§ 7.21 John D. Rockefeller, Jr. Memorial Parkway.

(a)(1) *What is the scope of this section?* The regulations contained in paragraphs (a)(2) through (a)(17) of this section apply to the use of snowcoaches and recreational snowmobiles. Except where indicated, paragraphs (a)(2) through (a)(15) do not apply to non-administrative oversnow vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(2) *What terms do I need to know?* The definitions in this paragraph (a)(2) also apply to non-administrative oversnow vehicle use by NPS, contractor, or concessioner employees, and other non-recreational users authorized by the Superintendent.

Commercial guide means a guide who operates a snowmobile or snowcoach for a fee or compensation and is authorized to operate in the park under a concession contract. In this section, "guide" also means "commercial guide."

Historic snowcoach means a Bombardier snowcoach manufactured in 1983 or earlier. Any other snowcoach is considered a non-historic snowcoach.

Oversnow route means that portion of the unplowed roadway located between

the road shoulders and designated by snow poles or other poles, ropes, fencing, or signs erected to regulate oversnow activity. Oversnow routes include pullouts or parking areas that are groomed or marked similarly to roadways and are adjacent to designated oversnow routes. An oversnow route may also be distinguished by the interior boundaries of the berm created by the packing and grooming of the unplowed roadway. The only motorized vehicles permitted on oversnow routes are oversnow vehicles.

Oversnow vehicle means a snowmobile, snowcoach, or other motorized vehicle that is intended for travel primarily on snow and has been authorized by the Superintendent to operate in the park. An oversnow vehicle that does not meet the definition of a snowcoach must comply with all requirements applicable to snowmobiles.

Snowcoach means a self-propelled mass transit vehicle intended for travel on snow, having a curb weight of over 1,000 pounds (450 kilograms), driven by a track or tracks and steered by skis or tracks, and having a capacity of at least 8 passengers. A snowcoach has a maximum size of 102 inches wide, plus tracks (not to exceed 110 inches overall); a maximum length of 35 feet; and a Gross Vehicle Weight Rating (GVWR) not exceeding 25,000 pounds.

Snowmobile means a self-propelled vehicle intended for travel on snow, with a curb weight of not more than 1,000 pounds (450 kg), driven by a track or tracks in contact with the snow, and which may be steered by a ski or skis in contact with the snow.

Snowplane means a self-propelled vehicle intended for oversnow travel and driven by an air-displacing propeller.

(3) *May I operate a snowmobile in the Parkway?* You may operate a snowmobile in the Parkway in compliance with use limits, guiding requirements, operating hours and dates, equipment, and operating conditions established under this section. The Superintendent may establish additional operating conditions and will provide notice of those conditions in accordance with § 1.7(a) of this chapter or in the FEDERAL REGISTER.

(4) *May I operate a snowcoach in the Parkway?* Snowcoaches may only be operated in the Parkway under a concessions contract. Snowcoach operation is subject to the conditions stated in the concessions contract and all other conditions identified in this section.

(5) *Where may I operate my snowmobile in the Parkway?* (i) You may operate your snowmobile only upon designated oversnow routes established within the Parkway in accordance with §2.18(c) of this chapter. The following oversnow routes are so designated for snowmobile use:

(A) On U.S. Highway 89/191/287 from Flagg Ranch to the northern boundary of the Parkway.

(B) Grassy Lake Road from Flagg Ranch to the western boundary of the Parkway.

(C) Flagg Ranch developed area.

(ii) The Superintendent may open or close these routes, or portions thereof, for snowmobile travel after taking into consideration the location of wintering wildlife, appropriate snow cover, public safety, and other factors. The Superintendent will provide notice of such opening or closing by one or more of the methods listed in §1.7(a) of this chapter.

(iii) The route described in paragraph (a)(5)(i)(A) of this section is subject to the air and sound emissions requirements, guiding requirements, and daily entry limits described in §7.13(l) of this part.

(iv) This paragraph (a)(5) also applies to non-administrative oversnow vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(v) Maps detailing the designated oversnow routes will be available from Park Headquarters.

(6) *What routes are designated for snowcoach use?* (i) Authorized snowcoaches may only be operated on the routes designated for snowmobile use in paragraphs (a)(6)(i)(A) and (C) of this section. No other routes are open to snowcoach use, except as provided in (a)(6)(ii) of this section.

(ii) The Superintendent may open or close these oversnow routes, or portions thereof, or designate new routes for snowcoach travel after taking into

consideration the location of wintering wildlife, appropriate snow cover, public safety, and other factors. The Superintendent will provide notice of such opening or closing by one or more of the methods listed in §1.7(a) of this chapter.

(iii) The routes described in paragraph (a)(6)(i) of this section are subject to the air and sound emissions requirements and daily entry limits in §7.13(l) of this part.

(iv) This paragraph (a)(6) also applies to non-administrative snowcoach use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(7) *Must I travel with a commercial guide while snowmobiling in the Parkway?* Except as may be required under paragraph (a)(5)(iii) of this section, you are not required to use a guide while snowmobiling in the Parkway.

(8) *Are there limits established for the numbers of snowmobiles and snowcoaches permitted to operate in the Parkway each day?* (i) A limit of 25 snowmobiles per day applies to the Grassy Lake Road.

(ii) The daily entry limits for snowmobiles and snowcoaches on the route from Flagg Ranch to the South Entrance of Yellowstone are established in §7.13(l) of this part.

(9) *When may I operate my snowmobile or snowcoach?* The Superintendent will determine operating hours and dates. Except for emergency situations, any changes to operating hours will be made on an annual basis and the public will be notified of those changes through one or more of the methods listed in §1.7(a) of this chapter.

(10) *What other conditions apply to the operation of oversnow vehicles?* (i) The following are prohibited:

(A) Idling an oversnow vehicle more than 5 minutes at any one time.

(B) Driving an oversnow vehicle while the operator's motor vehicle license or privilege is suspended or revoked.

(C) Allowing or permitting an unlicensed driver to operate an oversnow vehicle.

(D) Driving an oversnow vehicle in willful or wanton disregard for the safety of persons, property, or parkway

National Park Service, Interior

§7.21

resources or otherwise in a reckless manner.

(E) Operating an oversnow vehicle without a lighted white headlamp and red taillight.

(F) Operating an oversnow vehicle that does not have brakes in good working order.

(G) Towing persons on skis, sleds or other sliding devices by oversnow vehicles, except in emergency situations.

(ii) The following are required:

(A) All oversnow vehicles that stop on designated routes must pull over to the far right and next to the snow berm. Pullouts must be used where available and accessible. Oversnow vehicles may not be stopped in a hazardous location or where the view might be obscured, or operated so slowly as to interfere with the normal flow of traffic.

(B) Oversnow vehicle drivers must possess a valid motor vehicle driver's license. A learner's permit does not satisfy this requirement. The license must be carried by the driver at all times.

(C) Equipment sleds towed by a snowmobile must be pulled behind the snowmobile and fastened to the snowmobile with a rigid hitching mechanism.

(D) Snowmobiles must be properly registered and display a valid registration from the United States or Canada.

(iii) The Superintendent may impose other terms and conditions as necessary to protect park resources, visitors, or employees. The Superintendent will notify the public of any changes through one or more methods listed in §1.7(a) of this chapter.

(iv) This paragraph (a)(10) also applies to non-administrative oversnow vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(11) *What conditions apply to alcohol use while operating an oversnow vehicle?* In addition to 36 CFR 4.23, the following conditions apply:

(i) Operating or being in actual physical control of an oversnow vehicle is prohibited when the driver is under 21 years of age and the alcohol concentration in the driver's blood or breath is 0.02 grams or more of alcohol per 100

milliliters of blood or 0.02 grams or more of alcohol per 210 liters of breath.

(ii) Operating or being in actual physical control of an oversnow vehicle is prohibited when the driver is a snowmobile guide or a snowcoach driver and the alcohol concentration in the operator's blood or breath is 0.04 grams or more of alcohol per 100 milliliters of blood or 0.04 grams or more of alcohol per 210 liters of breath.

(iii) This paragraph (a)(11) also applies to non-administrative oversnow vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(12) *Do other NPS regulations apply to the use of oversnow vehicles?* (i) The use of oversnow vehicles in the Parkway is subject to §2.18(a), (b), and (c), but not to §§2.18(d), (e), and 2.19(b) of this chapter.

(ii) This paragraph (a)(12) also applies to non-administrative oversnow vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(13) *Are there any forms of non-motorized oversnow transportation allowed in the Parkway?* (i) Non-motorized travel consisting of skiing, skating, snowshoeing, or walking is permitted unless otherwise restricted under this section or other NPS regulations.

(ii) The Superintendent may designate areas of the Parkway as closed, reopen such areas, or establish terms and conditions for non-motorized travel within the Parkway in order to protect visitors, employees, or park resources. Notice will be made in accordance with §1.7(a) of this chapter.

(14) *May I operate a snowplane in the Parkway?* The operation of a snowplane in the Parkway is prohibited.

(ii) It is permissible to possess or use the following dead, non-game fish as bait on or along the shores of Jackson Lake:

- (A) Redside Shiner
- (B) Speckled Dace
- (C) Longnose Dace
- (D) Piute Sculpin
- (E) Mottled Sculpin
- (F) Utah Chub
- (G) Utah Sucker
- (H) Bluehead Sucker
- (I) Mountain Sucker

(c) *Stock grazing.* (1) Privileges for the grazing of domestic livestock based on authorized use of certain areas at the time of approval of the Act of September 14, 1950 (64 Stat. 849, Pub. L. 787), shall continue in effect or shall be renewed from time to time, except for failure to comply with such terms and conditions as may be prescribed by the Superintendent in these regulations and after reasonable notice of default and subject to the following provisions of tenure:

(i) Grazing privileges appurtenant to privately owned lands located within the park shall not be withdrawn until title to the lands to which such privileges are appurtenant shall have vested in the United States except for failure to comply with the regulations applica-

ble thereto after reasonable notice of default.

(ii) Grazing privileges appurtenant to privately owned lands located outside the park shall not be withdrawn for a period of twenty-five years after September 14, 1950, and thereafter shall continue during the lifetime of the original permittee and his heirs if they were members of his immediate family as described herein, except for failure to comply with the regulations applicable thereto after reasonable notice of default.

(iii) Members of the immediate family are those persons who are related to and directly dependent upon a person or persons, living on or conducting grazing operations from lands, as of September 14, 1950, which the National Park Service recognized as base lands appurtenant to grazing privileges in the park. Such interpretation excludes mature children who, as of that date, were established in their own households and were not directly dependent upon the base lands and appurtenant grazing recognized by the National Park Service.

(iv) If title to base lands lying outside the park is conveyed, or such base lands are leased to someone other than a member of the immediate family of the permittee as of September 14, 1950, the grazing preference shall be recognized only for a period of twenty-five years from September 14, 1950.

(v) If title to a portion or part of the base land either outside or inside the park is conveyed or such base lands are leased, the new owner or lessee will take with the land so acquired or leased, such proportion of the entire grazing privileges as the grazing capacity in animal unit months of the tract conveyed or leased bears to the original area to which a grazing privilege was appurtenant and recognized. Conveyance or lease of all such base lands will automatically convey all grazing privileges appurtenant thereto.

(vi) Grazing privileges which are appurtenant to base lands located either inside or outside the park shall not be conveyed separately therefrom.

(2) Where no reasonable ingress or egress is available to permittees or nonpermittees who must cross Park lands to reach grazing allotments on

National Park Service, Interior

§ 7.22

non-Federal lands within the exterior boundary of the Park or adjacent thereto, the Superintendent will grant, upon request a temporary nonfee annual permit to herd stock on a designated driveway which shall specify the time to be consumed in each single drive. The breach of any of the terms or conditions of the permit shall be grounds for termination, suspension, or reduction of these privileges.

(3) Grazing preferences are based on actual use during the period March 15, 1938 through September 14, 1950 and no increase in the number of animals or animal unit months will be allowed on Federal lands in the park.

(4)(i) A permittee whose grazing privilege is appurtenant to privately owned lands within the park will be granted total nonuse or reduced benefits for one or more years without nullifying his privilege in subsequent years.

(ii) A permittee whose privilege is appurtenant to base lands outside the park may be granted total nonuse on a year to year basis not to exceed three consecutive years. Total nonuse beyond this time may be granted if necessitated for reasons clearly outside the control of the permittee. Total unauthorized nonuse beyond three consecutive years will result in the termination and loss of all grazing privileges.

(iii) Whenever partial or total nonuse is desired, an application must be made in writing to the Superintendent.

(5) Grazing fees shall be the same as those approved for the Teton National Forest and will be adjusted accordingly.

(6) Permittees or nonpermittees who have stock on Federal lands within the park at any time or place, when or where herding or grazing is unauthorized may be assessed fifty cents per day per animal as damages.

(7) The Superintendent may accept a written relinquishment or waiver of any privileges; however, no such relinquishment or waiver will be effective without the written consent of the owner or owners of the base lands.

(8) Permits. Terms and conditions. The issuance and continued effectiveness of all permits will be subject, in addition to mandatory provisions re-

quired by Executive Order or law, to the following terms and conditions:

(i) The permittee and his employees shall use all possible care in preventing forest and range fires, and shall assist in the extinguishing of forest and range fires on, or within, the vicinity of the land described in the permit, as well as in the preservation of good order within the boundaries of the park.

(ii) The Superintendent may require the permittee before driving livestock to or from the grazing allotment to gather his livestock at a designated time and place for the purpose of counting the same.

(iii) Stock will be allowed to graze only on the allotment designated in the permit.

(iv) The permittee shall file with the Superintendent a copy of his stock brand or other mark.

(v) The permittee shall, upon notice from the Superintendent that the allotment designated in the permit is not ready to be grazed at the beginning of the designated grazing season, place no livestock on the allotment for such a period as may be determined by the Superintendent as necessary to avoid damage to the range. All, or a portion of the livestock shall be removed from the area before the expiration of the designated grazing season if the Superintendent determines further grazing would be detrimental to the range. The number of stock and the grazing period may be adjusted by the Superintendent at any time when such action is deemed necessary for the protection of the range.

(vi) No permit shall be issued or renewed until payment of all fees and other amounts due the National Park Service has been made. Fees for permits are due the National Park Service and must be paid at least 15 days in advance of the grazing period. No permit shall be effective to authorize grazing use thereunder until all fees and other amounts due the National Park Service have been paid. A pro rata adjustment of fees will be made in the event of reduction of grazing privileges granted in the permit, except that not more than 50 percent of the total annual grazing fee will be refunded in the event reduced grazing benefits are taken at the

election of the permittee after his stock are on the range.

(vii) No building or other structure shall be erected nor shall physical improvements of any kind be established under the permit except upon plans and specifications approved by the National Park Service. Any such facilities, structures, or buildings may be removed or disposed of to a successor permittee within three months following the termination of the permit; otherwise they shall become the property of the United States without compensation therefor.

(viii) The permittee shall utilize the lands covered by the permit in a manner approved and directed by the Superintendent which will prevent soil erosion thereon and on lands adjoining same.

(ix) The right is reserved to adjust the fees specified in the permit at any time to conform with the fees approved for Teton National Forest, and the permittee shall be furnished a notice of any change of fees.

(x) All livestock are considered as mature animals at six months of age and are so counted in determining animal unit months and numbers of animals.

(xi) The Superintendent may prescribe additional terms and conditions to meet individual cases.

(9) The breach of any of the terms or conditions of the permit shall be grounds for termination, suspension, or reduction of grazing privileges.

(10) Appeals from the decision of the Superintendent to the Regional Director and from the Regional Director to the Director shall be made in accordance with the National Park Service Order No. 14, as amended (19 FR 8824) and Regional Director, Order No. 3, as amended (21 FR 1494).

(11) Nothing in these regulations shall be construed as to prevent the enforcement of the provisions of the general rules and regulations and the special rules and regulations of the National Park Service or of any other provisions of said rules and regulations applicable to stock grazing.

(d) *Camping.* (1) No person, party, or organization shall be permitted to camp more than 30 days in a calendar

year in designated sites within the Park.

(2) Except in group campsites and backcountry sites, camping is limited to six persons to a site.

(3) Registration is required for camping at the Jenny Lake Campground; camping in this campground shall not exceed 10 days in any calendar year.

(e) *Vessels.* (1) Power-driven vessels are prohibited on all park waters except Jackson Lake and Jenny Lake.

(2) On Jenny Lake:

(i) Operating a power-driven vessel using a motor exceeding 7½ horsepower is prohibited, except:

(ii) An NPS authorized boating concessioner may operate power-driven vessels under conditions specified by the Superintendent.

(3) Hand-propelled vessels may be used on Jackson, Jenny, Phelps, Emma Matilda, Two Ocean, Taggart, Bradley, Bearpaw, Leigh, and String Lakes and on the Snake River, except within 1,000 feet of the downstream face of Jackson Lake Dam. All other waters are closed to boating.

(4) Sailboats may be used only on Jackson Lake.

(5) No person except an authorized concessioner shall moor or beach a vessel on the shore of a designated harbor area, except in an emergency.

(f) *Management of elk.* The laws and regulations of the State of Wyoming shall govern elk management as associated with formal reduction programs. Such Wyoming laws and regulations which are now or will hereafter be in effect are hereby incorporated by reference as a part of the regulations in this part.

(g)(1) *What is the scope of this section?* The regulations contained in paragraphs (g)(2) through (g)(20) of this section are intended to apply to the use of snowcoaches and recreational snowmobiles. Except where indicated, paragraphs (g)(2) through (g)(20) do not apply to non-administrative over-snow vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(2) *What terms do I need to know?* The definitions in this paragraph (g)(2) also apply to non-administrative oversnow

National Park Service, Interior

§ 7.22

vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(i) *Commercial guide* means a guide who operates as a snowmobile or snowcoach guide for a fee or compensation and is authorized to operate in the park under a concession contract. In this section, "guide" also means "commercial guide."

(ii) *Historic snowcoach* means a Bombardier snowcoach manufactured in 1983 or earlier. Any other snowcoach is considered a non-historic snowcoach.

(iii) *Oversnow route* means that portion of the unplowed roadway located between the road shoulders and designated by snow poles or other poles, ropes, fencing, or signs erected to regulate oversnow activity. Oversnow routes include pullouts or parking areas that are groomed or marked similarly to roadways and are adjacent to designated oversnow routes. An oversnow route may also be distinguished by the interior boundaries of the berm created by the packing and grooming of the unplowed roadway. The only motorized vehicles permitted on oversnow routes are oversnow vehicles.

(iv) *Oversnow vehicle* means a snowmobile, snowcoach, or other motorized vehicle that is intended for travel primarily on snow and has been authorized by the Superintendent to operate in the park. An oversnow vehicle that does not meet the definition of a snowcoach must comply with all requirements applicable to snowmobiles.

(v) *Snowcoach* means a self-propelled mass transit vehicle intended for travel on snow, having a curb weight of over 1,000 pounds (450 kilograms), driven by a track or tracks and steered by skis or tracks, and having a capacity of at least 8 passengers. A snowcoach has a maximum size of 102 inches wide, plus tracks (not to exceed 110 inches overall); a maximum length of 35 feet; and a Gross Vehicle Weight Rating (GVWR) not exceeding 25,000 pounds.

(vi) *Snowmobile* means a self-propelled vehicle intended for travel on snow, with a curb weight of not more than 1,000 pounds (450 kg), driven by a track or tracks in contact with the

snow, and which may be steered by a ski or skis in contact with the snow.

(vii) *Snowplane* means a self-propelled vehicle intended for oversnow travel and driven by an air-displacing propeller.

(3) *May I operate a snowmobile in Grand Teton National Park?* You may operate a snowmobile in Grand Teton National Park in compliance with use limits, operating hours and dates, equipment, and operating conditions established under this section. The Superintendent may establish additional operating conditions and provide notice of those conditions in accordance with §1.7(a) of this chapter or in the FEDERAL REGISTER.

(4) *May I operate a snowcoach in Grand Teton National Park?* It is prohibited to operate a snowcoach in Grand Teton National Park except as authorized by the Superintendent.

(5) *Must I operate a certain model of snowmobile in the park?* Only commercially available snowmobiles that meet NPS air and sound emissions requirements as set forth in this section may be operated in the park. The Superintendent will approve snowmobile makes, models, and years of manufacture that meet those requirements. Any snowmobile model not approved by the Superintendent may not be operated in the park.

(6) *How will the Superintendent approve snowmobile makes, models, and years of manufacture for use in Grand Teton National Park?* (i) Beginning with the 2005 model year, all snowmobiles must be certified under 40 CFR Part 1051, to a Family Emission Limit no greater than 15 g/kW-hr for hydrocarbons and to a Family Emission Limit no greater than 120 g/kW-hr for carbon monoxide.

(A) 2004 model year snowmobiles may use measured air emissions levels (official emission results with no deterioration factors applied) to comply with the air emission limits specified in paragraph (g)(6)(i) of this section.

(B) Snowmobiles manufactured before the 2004 model year may be operated only if they have shown to have air emissions no greater than the requirements identified in paragraph (g)(6)(i) of this section.

(C) The snowmobile test procedures specified by EPA (40 CFR parts 1051 and 1065) must be used to measure air emissions from model year 2004 and later snowmobiles. Equivalent procedures may be used for earlier model years.

(ii) For sound emissions, snowmobiles must operate at or below 73 dBA as measured at full throttle according to Society of Automotive Engineers J192 test procedures (revised 1985). Snowmobiles may be tested at any barometric pressure equal to or above 23.4 inches Hg uncorrected. The Superintendent may revise these testing procedures based on new information and/or updates to the SAE J192 testing procedures.

(iii) Snowmobiles meeting the requirements for air and sound emissions may be operated in the park for a period not exceeding 6 years from the date upon which first certified, except that snowmobiles being operated on Jackson Lake may continue to be operated up to 10 years, provided that these snowmobiles' mileage does not exceed 6,000 miles.

(iv) Snowmobiles will be exempt from these air and sound emissions requirements while in use to access lands authorized by paragraphs (g)(16) and (g)(18) of this section.

(v) The Superintendent may prohibit entry into the park of any snowmobile that has been modified in a manner that may adversely affect air or sound emissions.

(7) *Where may I operate my snowmobile in the park?* (i) You may operate your snowmobile upon the frozen water surface of Jackson Lake, a route established in accordance with § 2.18(c) of this chapter, under the following conditions:

(A) You are ice fishing, and licensed or otherwise permitted to fish in Wyoming;

(B) You possess the proper fishing gear; and

(C) You limit your snowmobile travel to a direct route to and from and between fishing locations on the lake.

(ii) The Superintendent may open or close this route, or portions thereof, for snowmobile travel, and may establish separate zones for motorized and non-motorized uses on Jackson Lake, after taking into consideration the lo-

cation of wintering wildlife, appropriate snow cover, public safety and other factors. The Superintendent will provide notice of such opening or closing by one or more of the methods listed in § 1.7(a) of this chapter.

(iii) This paragraph (g)(7) also applies to non-administrative over-snow vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(iv) Maps detailing the designated oversnow route will be available from Park Headquarters.

(8) *Must I travel with a commercial guide while snowmobiling in Grand Teton National Park?* You are not required to use a guide while snowmobiling in Grand Teton National Park.

(9) *Are there limits established for the number of snowmobiles permitted to operate in the park each day?* (i) The number of snowmobiles allowed to operate in the park each day on Jackson Lake is 25.

(ii) The Superintendent may adjust this number up or down, not to exceed a daily limit of 40 snowmobiles, after taking into consideration the location of wintering wildlife, appropriate snow cover, noise monitoring results, public safety and other factors. The Superintendent will provide notice of such adjustment by one or more of the methods listed in § 1.7(a) of this chapter.

(10) *When may I operate my snowmobile?* The Superintendent will determine operating hours and dates. Except for emergency situations, any changes to operating hours or dates will be made on an annual basis, and the public will be notified of those changes through one or more of the methods listed in § 1.7(a) of this chapter.

(11) *What other conditions apply to the operation of oversnow vehicles?* (i) The following are prohibited:

(A) Idling an oversnow vehicle more than 5 minutes at any one time.

(B) Driving an oversnow vehicle while the operator's motor vehicle license or privilege is suspended or revoked.

(C) Allowing or permitting an unlicensed driver to operate an oversnow vehicle.

National Park Service, Interior

§ 7.22

(D) Driving an oversnow vehicle in willful or wanton disregard for the safety of persons, property, or park resources or otherwise in a reckless manner.

(E) Operating an oversnow vehicle without a lighted white headlamp and red taillight.

(F) Operating an oversnow vehicle that does not have brakes in good working order.

(G) The towing of persons on skis, sleds or other sliding devices by oversnow vehicles.

(ii) The following are required:

(A) All oversnow vehicles that stop on designated routes must pull over to the far right and next to the snow berm. Pullouts must be used where available and accessible. Oversnow vehicles may not be stopped in a hazardous location or where the view might be obscured, or operated so slowly as to interfere with the normal flow of traffic.

(B) Oversnow vehicle drivers must possess a valid motor vehicle driver's license. A learner's permit does not satisfy this requirement. The license must be carried by the driver at all times.

(C) Equipment sleds towed by a snowmobile must be pulled behind the snowmobile and fastened to the snowmobile with a rigid hitching mechanism.

(D) Snowmobiles must be properly registered and display a valid registration from the United States or Canada.

(iii) The Superintendent may impose other terms and conditions as necessary to protect park resources, visitors, or employees. The Superintendent will notify the public of any changes through one or more methods listed in § 1.7(a) of this chapter.

(iv) This paragraph (g)(11) also applies to non-administrative over-snow vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(12) *What conditions apply to alcohol use while operating an oversnow vehicle?* In addition to 36 CFR 4.23, the following conditions apply:

(i) Operating or being in actual physical control of an oversnow vehicle is prohibited when the driver is under 21 years of age and the alcohol concentra-

tion in the driver's blood or breath is 0.02 grams or more of alcohol per 100 milliliters of blood or 0.02 grams or more of alcohol per 210 liters of breath.

(ii) Operating or being in actual physical control of an oversnow vehicle is prohibited when the driver is a snowmobile guide or a snowcoach operator and the alcohol concentration in the driver's blood or breath is 0.04 grams or more of alcohol per 100 milliliters of blood or 0.04 grams or more of alcohol per 210 liters of breath.

(iii) This paragraph (g)(12) also applies to non-administrative over-snow vehicle use by NPS, contractor, or concessioner employees, or other non-recreational users authorized by the Superintendent.

(13) *Do other NPS regulations apply to the use of oversnow vehicles?* The use of oversnow vehicles in Grand Teton is subject to § 2.18(a), (b), and (c), but not subject to § 2.18(d) and (e) and § 2.19(b) of this chapter.

(14) *Are there any forms of non-motorized oversnow transportation allowed in the park?*

(i) Non-motorized travel consisting of skiing, skating, snowshoeing, or walking is permitted unless otherwise restricted under this section or other NPS regulations.

(ii) The Superintendent may designate areas of the park as closed, reopen such areas, or establish terms and conditions for non-motorized travel within the park in order to protect visitors, employees, or park resources.

(iii) Dog sledding and ski-joring are prohibited.

(15) *May I operate a snowplane in the park?* The operation of a snowplane in Grand Teton National Park is prohibited.

(16) *May I continue to access public lands via snowmobile through the park?* Reasonable and direct access, via snowmobile, to adjacent public lands will continue to be permitted on the designated routes through the park identified in the following paragraphs (g)(16)(i) through (iv). Requirements established in this section related to air and sound emissions, daily entry limits, snowmobile operator age, guiding, and licensing do not apply on these oversnow routes. The following routes

§ 7.22

are designated for access via snowmobile to public lands:

(i) From the parking area at Shadow Mountain directly along the unplowed portion of the road to the east park boundary.

(ii) Along the unplowed portion of the Ditch Creek Road directly to the east park boundary.

(iii) The Continental Divide Snowmobile Trail (CDST) along U.S. 26/287 from the east park boundary to a point approximately 2 miles east of Moran Junction. If necessary for the proper administration of visitor use and resource protection, the Superintendent may extend this designated route to the Moran Entrance Station.

(iv) The Superintendent may designate additional routes if necessary to provide access to other adjacent public lands.

(17) *For what purpose may I use the routes designated in paragraph (g)(16) of this section?* You may only use those routes designated in paragraph (g)(16) of this section to gain direct access to public lands adjacent to the park boundary.

(18) *May I continue to access private property within or adjacent to the park via snowmobile?* The Superintendent may establish reasonable and direct snowmobile access routes to the inholding or to private property adjacent to park boundaries for which other routes or means of access are not reasonably available. Requirements established in this section related to air and sound emissions, snowmobile operator age, licensing, and guiding do not apply on these oversnow routes. The following routes are designated for access to private properties within or adjacent to the park:

(vii) The Superintendent may designate additional routes if necessary to provide reasonable access to inholdings or adjacent private property.

(viii) Maps detailing designated routes will be available from Park Headquarters.

(19) *For what purpose may I use the routes designated in paragraph (g)(18) of this section?* The routes designated in paragraph (g)(18) of this section are only to access private property within or directly adjacent to the park boundary. Use of these roads via snowmobile is authorized only for the landowners and their representatives or guests. Use of these roads by anyone else or for any other purpose is prohibited.

(20) *Is violating any of the provisions of this section prohibited?* (i) Violating any of the terms, conditions or requirements of paragraphs (g)(3) through (g)(19) of this section is prohibited.

(ii) Anyone who violates any of the terms, conditions or requirements of this regulation will be considered to have committed one separate offense for each term, condition or requirement that they violate.

(h) *Where may I ride a bicycle in Grand Teton National Park?* (1) You may ride a bicycle on park roads, in parking areas, and upon designated routes established within the park in accordance with § 4.30(a) of this chapter. The following routes are designated for bicycle use:

The permit may be conditioned upon the permittee's maintaining the road or trail in a passable condition as long as it is used by the permittee or his successors.

(5) From and after the date of publication of this section, no construction, development, or dumping upon any location or entry, lying wholly or partly within the areas set forth in paragraphs (a)(5) (i) to (iii) of this section, shall be undertaken until the plans for such construction, development, and dumping, insofar as the surface is affected thereby, shall have been first submitted to and approved in writing by an authorized officer or employee of the National Park Service:

The public will be notified of any changes through one or more methods listed in § 1.7 of this chapter. In emergency situations, after consulting with the Florida Fish and Wildlife Conservation Commission, the Superintendent may impose temporary closures and establish conditions or restrictions necessary, but not exceeding 30 days in duration which may be extended for one additional 30 day period, pertaining to fishing, including, but not limited to, species of fish that may be taken, seasons, and hours during which fishing may take place, methods of taking, and size, bag, and possession limits. (d) [Reserved]

(e) *Privately owned lands*—(1) *Water supply and sewage disposal systems.* The provisions of this paragraph apply to

the privately owned lands within Olympic National Park. The provisions of this paragraph do not excuse compliance by eating, drinking, or lodging establishments with § 5.10 of this chapter.

(i) *Facilities.* (a) Subject to the provisions of paragraph (e)(1)(iii) of this section, no person shall occupy any building or structure, intended for human habitation or use, unless such building is served by water supply and sewage disposal systems that comply with the standards prescribed by the State and county laws and regulations applicable in the county within whose exterior boundaries such building is located.

(b) No person shall construct, rebuild or alter any water supply or sewage disposal system without a written permit issued by the Superintendent. The Superintendent will issue such permit only after receipt of written notification from the appropriate Federal, State, or county officer that the plans for such system comply with the State or county standards. (b) If upon inspection, any water supply or sewage disposal system is found by the inspecting officer not to be in conformance with established State and county standards and it is found further that there is immediate and severe danger to the public health or the health of the occupants or users, the Superintendent shall post appropriate notices at conspicuous places on such premises, and thereafter, no person shall occupy or use the premises on which the system is located until the Superintendent is satisfied that remedial measures have been taken that will assure compliance of the system with established State and county standards.

(2) *State forest practice laws.* Any person, firm, or corporation harvesting or cutting timber on privately owned lands within that portion of Olympic National Park over which jurisdiction has been ceded by the State of Washington to the United States of America shall comply with the standards concerning forest practices established from time to time by or pursuant to the laws of the State of Washington which would apply to such operations if they were not being conducted in Olympic National Park and personnel of the Park will consult and cooperate with State officials in the administration of this regulation. § 7.58

§ 7.58 Cape Hatteras National Seashore.

(a) *Hunting.* (1) Lands within the Seashore on which hunting is legally permitted are designated as follows:

(i) Ocracoke Island, except Ocracoke village.

(ii) Hatteras Island, 500 acres, in three disconnected strips 250 feet wide measuring eastward from mean high water mark on Pamlico Sound between villages of Salvo and Avon and Buxton, and between Frisco and Hatteras.

(iii) Bodie Island, 1,500 acres, between high water mark of Roanoke Sound and a line 2,000 feet west of and parallel to U.S. Highway 158, and from the north dike of the Goosewing Club property on the north to the north boundary of the Dare County tract on the south.

(2) Seashore lands on which hunting is not permitted will be posted accordingly.

(3) This hunting plan will be administered and enforced by the National Park Service, through the Service's authorized local representative, the Superintendent of the Seashore, hereinafter referred to as the Superintendent.

(4) The State of North Carolina will assist in the enforcement of applicable State and Federal hunting laws and otherwise in carrying out this plan.

(5) Hunting will be restricted to waterfowl. Season length, opening and closing dates, bag limits and species of waterfowl which may be taken will be in accordance with the rules and regulations issued by the North Carolina Wildlife Resources Commission and the U.S. Fish and Wildlife Service.

(6) Hunting privileges will be free for all hunters possessing a North Carolina State hunting license and Federal migratory bird hunting stamp.

(7) Permanent blinds will be constructed exclusively by the Seashore and these will be built only on Bodie Island. Setting up and use of temporary or portable blinds by hunters will be permitted on Hatteras and Ocracoke Islands.

(8) Minimum distance between blinds on Seashore land and ponds within the designated hunting areas will be 300 yards unless other conditions, such as natural screening, justify a shorter distance.

(9) Hunting on Ocracoke Island will be permitted and managed in the same manner as Hatteras Island.

(10) "Jump shooting" of waterfowl will be permitted only on Hatteras and Ocracoke Islands and is prohibited within 300 yards of any blind.

(11) Properly licensed and authorized guides may provide hunting guide service within the designated hunting areas in the Seashore. They will not be permitted to solicit business within the boundaries of the Seashore and all arrangements with hunters must be made outside of those boundaries. Guides will be required to possess a North Carolina State guide license and to fulfill all requirements and conditions imposed by that license. Fees charged by guides must be approved in advance by the Superintendent. Each guide must also possess a permit issued by the Superintendent which authorizes him to guide hunters within the Seashore and the amount of the fees which he may charge.

(12) Guides shall have no permanent or seasonal blind rights within the Seashore and no special privileges other than those specified in this section.

(13) At 5:00 a.m. each morning the day of hunting a drawing for blind assignments will be conducted at the check-out station. Advance reservations for permission to draw will be accepted through the United States mail only. Reservations postmarked prior to 12:01 a.m. of September 25 will not be accepted. The postmark date and hour will establish and govern the priority of drawing. Maximum reservation by any person shall be three (3) consecutive days in any week, Monday through Saturday, and limited to a total of six (6) days during the season. Reservations shall have priority over nonreservations at drawing time. In the event a reservation is to be canceled, the Superintendent shall be informed by the party prior to drawing time for the date or dates of the reservation.

(14) The first departure from a blind by a person terminates his hunting privilege within Bodie Island for that day and the blinds may be reassigned by the Superintendent, Cape Hatteras National Seashore Recreational Area, or his duly authorized representative, for use by others later the same day.

Vacating parties must check out and furnish information regarding their take at the checking station on Bodie Island located near the north boundary of the hunting area.

(15) Hunters and guides shall provide their own decoys and are required to leave the blind which they used in a clean, sanitary and undamaged condition.

(16) All hunters taking banded fowl shall turn in the bands at the check-out station.

(17) Details of this plan, interpretations and further information regarding it will be published in local newspapers and issued in circular form free to all interested persons.

(18) Access to blinds will be by designated foot trails. Vehicles will not be permitted to drive to the blind sites.

(19) Trained dogs will be permitted for retrieving providing they are kept under restraint by the hunter.

(20) Blinds will be limited to two persons without a guide and three including the guide. Only two guns will be permitted in each blind.

(21) All other regulations will be in accordance with the North Carolina State and Federal migratory bird hunting laws.

(6) *Sport-fishing Zone*. A zone is established for the protection and enhancement of recreational sport-fishing commencing at Beach Access Ramp No. 22 and continuing south and west along the ocean shore, including Cape Point (Cape Hatteras), to Beach Access Ramp No. 30. (c) *Off-road motor vehicle use*—(1) *Definitions*. In addition to the definitions found in § 1.4 of this chapter, the following terms apply in this paragraph (c):

ORV means a motor vehicle used off of park roads (off-road), subject to the vehicle requirements, prohibitions, and permitting requirements described in this paragraph (c).

ORV corridor means the actual physical limits of the designated ORV route in the Seashore. On the landward side, the ORV corridor on Seashore beaches will be marked when possible by posts that are located seaward of the toe of the dune or the vegetation line. On the seaward side, the corridor runs to the water line, which will not be marked by posts unless necessary. Where the ocean beach is at least 30 meters wide above the high tide line, the landward side of the corridor will be posted at least 10 meters seaward of the toe of the dune.

(2) *ORV permits*. ORV permits are a form of NPS special park use permits, which are issued and administered by the Superintendent and for which the NPS charges a fee to recover its administrative costs.

(i) A permit issued by the Superintendent is required to operate a vehicle on designated ORV routes at the Seashore.

(ii) Operation of a motor vehicle authorized under an ORV permit is limited to those routes designated in this paragraph (c).

(iii) There is no limit to the number of ORV permits that the Superintendent may issue.

(iv) ORV permits are valid for the dates specified on the permit. The public will be notified of any changes to ORV permit durations through one or more of the methods listed in § 1.7(a) of this chapter.

(v) In order to obtain a permit, an applicant must comply with vehicle and equipment requirements, complete a short education program in a manner and location specified by the Superintendent, acknowledge in writing an understanding of the rules governing ORV use at the Seashore, and pay the permit fee.

(vi) Each permit holder must affix the proof of permit, in a manner and location specified by the Superintendent, to the vehicle covered by the permit for use off-road.

(3) *Vehicle and equipment requirements*. The following requirements apply for driving off-road:

(i) The vehicle must be registered, licensed, and insured for highway use and must comply with inspection requirements for the state, country, or province where the vehicle is registered.

(ii) The vehicle may have no more than two axles.

Special-use permits issued under this paragraph are subject to resource, safety, and other closures implemented under § 7.58(c)(10), and may only be used in a manner consistent with the terms and conditions of the permit. The Superintendent may

issue a special-use permit for temporary off-road vehicle use to:

(i) Authorize the North Carolina Department of Transportation to use Seashore beaches as a public way, when necessary, to bypass sections of NC Highway 12 that are impassable or closed for repairs;

(8) *Commercial fishing vehicles.* The Superintendent, when issuing a commercial fishing permit, may authorize the holder, when actively engaged in authorized commercial fishing, to operate a vehicle off-road.

(i) An authorization under this paragraph may allow off-road driving on a beach not otherwise designated for ORV use, only if the beach is not sub-

ject to a resource closure or is not a lifeguarded beach.

(ii) An authorization under this paragraph may allow off-road driving beginning at 5 a.m. on days when night-driving restrictions are in effect, to set or tend haul seine or gill nets, only if the permit holder is carrying and able to present a fish-house receipt from the previous 30 days.

(9) *ORV routes.* The following tables indicate designated ORV routes. The following ramps are designated for off-road use to provide access to ocean beaches: 2, 4, 23, 25, 27, 30, 32, 34, 38, 43, 44, 48, 49, 55, 59, 63, 67, 68, 70, and 72. (10) *Superintendent's closures.* (i) The Superintendent will temporarily limit, restrict, or terminate access to routes or areas designated for off-road use based on one or more of the following criteria:

- (A) Public health and safety;
- (B) Vehicle carrying capacity and other ORV management considerations;
- (C) Natural and cultural resource protection;
- (D) Applicable species management strategies including buffer distances; or
- (E) Desired future conditions for threatened, endangered, state-listed, and special status species.

(ii) The Superintendent will conduct periodic reviews of the criteria for and results of these closures to assess their effectiveness. The public will be notified of such closures through one or more of the methods listed in § 1.7(a) of this chapter. Violation of any closure is prohibited.

(iii) The Superintendent will remove or relax closures based on the same criteria used for closure.

(11) *Rules for Vehicle Operation.* (i) Notwithstanding the definition of "Public Vehicular Area" (PVA) in North Carolina law, the operator of any motor vehicle anywhere in the Seashore, whether in motion or parked, must at all times comply with all

North Carolina traffic laws that would apply if the operator were operating the vehicle on a North Carolina highway.

(ii) In addition to the requirements of Part 4 of this chapter, the following restrictions apply:

(A) A vehicle operator must yield to pedestrians on all designated ORV routes.

(B) When approaching or passing a pedestrian on the beach, a vehicle operator must move to the landward side to yield the wider portion of the ORV corridor to the pedestrian.

(C) A vehicle operator must slow to 5 mph when traveling within 30.5 meters (100 feet) or less of pedestrians at any location on the beach at any time of year.

(D) An operator may park on a designated ORV route, but no more than one vehicle deep, and only as long as the parked vehicle does not obstruct two-way traffic.

(E) When driving on a designated route, an operator must lower the vehicle's tire pressure sufficiently to maintain adequate traction within the posted speed limit.

(F) The speed limit for off-road driving is 15 mph, unless otherwise posted.

(12) *Hours of Operation/Night-Driving Restrictions.* (i) Hours of operation and night-driving restrictions are listed in the following table:

HOURS OF OPERATION/NIGHT DRIVING RESTRICTIONS

When are the restrictions in place?	Where are the restrictions in place?
November 16–April 30	All designated ORV routes are open 24 hours a day.
May 1–September 14	Designated ORV routes in sea turtle nesting habitat (ocean intertidal zone, ocean backshore, dunes) are closed at 9:00 p.m. and open no earlier than 6:00 a.m. The Seashore will publish exact opening times on an annual basis.

HOURS OF OPERATION/NIGHT DRIVING RESTRICTIONS—Continued

When are the restrictions in place?	Where are the restrictions in place?
September 15–November 15 ...	Designated ORV routes in sea turtle nesting habitat (ocean intertidal zone, ocean backshore, dunes) are closed at 9:00 p.m. and open no earlier than 6:00 a.m., but the Superintendent may open designated ORV routes, or portions of the routes, 24 hours a day if no turtle nests remain. The Seashore will publish exact opening times on an annual basis.

(ii) Maps available in the office of the Superintendent and on the Seashore's Web site will show routes closed due to night-driving restrictions, and routes or portions of the routes the Superintendent opens because there are no turtle nests remaining.

(13) *Vehicle carrying capacity.* The maximum number of vehicles allowed on any ORV route, at one time, is the length of the route (or, if part of the route is closed, the length of the portion of the route that is open) divided by 6 meters (20 feet).

(14) Violating any of the provisions of this paragraph, or the terms, conditions, or requirements of an ORV or other permit authorizing ORV use is prohibited. A violation may also result in the suspension or revocation of the applicable permit by the Superintendent.

(15) *Information Collection.* As required by 44 U.S.C. 3501 *et seq.*, OMB has approved the information collection requirements contained in this paragraph. The OMB approval number is 1024-0026. NPS is collecting this information to provide the Superintendent data necessary to issue ORV special-use permits. The information will be used to grant a benefit. The obligation to respond is required in order to obtain the benefit in the form of the ORV permit.

§ 7.63 Dinosaur National Monument.

(a) *Commercial hauling.* Ranchers and stockmen owning, leasing or renting private lands, or holding grazing permits issued by the Bureau of Land Management on designated grazing allotments adjacent to the Artesia Entrance Road, Blue Mountain Road, and Deerlodge Park Road, are authorized to use these roads for trucking or hauling ranching and agricultural supplies and materials, including livestock, for use in normal ranching and stock growing operations.

(b) *Stock grazing.* (1) Privileges for the grazing of domestic livestock based on authorized use of certain areas at the time of approval of the act of September 8, 1960 (74 Stat. 857, Pub. L. 86-729), shall continue in effect or shall be renewed from time to time, except for failure to comply with such terms and conditions as may be prescribed by the Superintendent in these regulations and after reasonable notice of default and subject to the following provisions of tenure:

(i) Grazing privileges appurtenant to privately owned lands located within the Monument shall not be withdrawn until title to the lands to which such privileges are appurtenant shall have vested in the United States except for failure to comply with the regulations applicable thereto after reasonable notice of default.

(ii) Grazing privileges appurtenant to privately owned lands located outside the Monument shall not be withdrawn for a period of twenty-five years after September 8, 1960, and thereafter shall continue during the lifetime of the original permittee and his heirs if they were members of his immediate family as described herein except for failure to comply with the regulations applicable thereto after reasonable notice of default.

(iii) Members of the immediate family are those persons who are related to and directly dependent upon a person or persons, living on or conducting

grazing operations from lands, as of September 8, 1960, which the National Park Service recognized as base lands appurtenant to grazing privileges in the monument. Such interpretation excludes mature children who, as of that date, were established in their own households and were not directly dependent upon the base lands and appurtenant grazing recognized by the National Park Service.

(iv) If title to base lands lying outside the monument is conveyed, or such base lands are leased to someone other than a member of the immediate family of the permittee as of September 8, 1960, the grazing preference shall be recognized only for a period of twenty-five years from September 8, 1960.

(v) If title to a portion or part of the base land either outside or inside the monument is conveyed or such base lands are leased, the new owner or lessee will take with the land so acquired or leased after September 8, 1960, such proportion of the entire grazing privileges as the grazing capacity in animal unit months of the tract conveyed or leased bears to the original area to which a grazing privilege was appurtenant and recognized. Conveyance or lease of all such base lands will automatically convey all grazing privileges appurtenant thereto.

(vi) Grazing privileges which are appurtenant to base lands located either inside or outside the monument as of September 8, 1960, shall not be conveyed separately therefrom.

(2) Where no reasonable ingress or egress is available to permittees or nonpermittees who must cross monument lands to reach grazing allotments or non-Federal lands within the exterior boundary of the monument or adjacent thereto, the Superintendent will grant, upon request, a temporary nonfee annual permit to herd stock on a designated driveway which shall specify the time to be consumed in each single drive.

(3) After September 8, 1960, no increase in the number of animal unit months will be allowed on Federal lands in the monument.

(4)(i) A permittee whose privileges are appurtenant to base lands either inside or outside the monument may be

granted total nonuse on a year to year basis not to exceed three consecutive years. Total nonuse beyond this time may be granted if necessitated for reasons clearly outside the control of the permittee. Total unauthorized nonuse beyond three consecutive years will result in the termination and loss of all grazing privileges.

(ii) Whenever partial or total non-use is desired an application must be made in writing to the Superintendent.

(5) Grazing fees shall be the same as those approved for the Bureau of Land Management and will be adjusted accordingly.

(6) Permittees or nonpermittees who have stock on Federal lands within the monument at any time or place, when or where herding or grazing is unauthorized may be assessed fifty cents per day per cow or horse and ten cents per day per sheep as damages.

(7) The Superintendent may accept a written relinquishment or waiver of any privileges; however, no such relinquishment or waiver will be effective without the written consent of the owner or owners of the base lands.

(8) Permits. Terms and conditions. The issuance and continued effectiveness of all permits will be subject, in addition to mandatory provisions required by Executive Order or law, to the following terms and conditions:

(i) The permittee and his employees shall use all possible care in preventing forest and range fires, and shall assist in the extinguishing of forest and range fires on, or within, the vicinity of the land described in the permit, as well as in the preservation of good order within the boundaries of the Monument.

(ii) The Superintendent may require the permittee before driving livestock to or from the grazing allotment to gather his livestock at a designated time and place for the purpose of counting the same.

(iii) Stock will be allowed to graze only on the allotment designated in the permit.

(iv) The permittee shall file with the Superintendent a copy of his stock brand or other mark.

(v) The permittee shall, upon notice from the Superintendent that the allotment designated in the permit is not ready to be grazed at the beginning of

National Park Service, Interior

§ 7.63

the designated grazing season, place no livestock on the allotment for such a period as may be determined by the Superintendent as necessary to avoid damage to the range. All, or a portion of the livestock shall be removed from the area before the expiration of the designated grazing season if the Superintendent determines further grazing would be detrimental to the range. The number of stock and the grazing period may be adjusted by the Superintendent at any time when such action is deemed necessary for the protection of the range.

(vi) No permit shall be issued or renewed until payment of all fees and other amounts due the National Park Service has been made. Fees for permits are due the National Park Service and must be paid at least 15 days in advance of the grazing period. No permit shall be effective to authorize grazing use thereunder until all fees and other amounts due the National Park Service have been paid. A pro rata adjustment of fees will be made in the event of reduction of grazing privileges granted in the permit, except that not more than 50 percent of the total annual grazing fee will be refunded in the event reduced grazing benefits are taken at the election of the permittee after his stock are on the range.

(vii) No building or other structure shall be erected nor shall physical improvements of any kind be established under the permit except upon plans and specifications approved by the National Park Service. Any such facilities, structures, or buildings may be removed or disposed of to a successor permittee within three months following the termination of the permit; otherwise they shall become the property of the United States without compensation therefor.

(viii) The permittee shall utilize the lands covered by the permit in a manner approved and directed by the Superintendent which will prevent soil erosion thereon and on lands adjoining same.

(ix) The right is reserved to adjust the fees specified in the permit at any time to conform with the fees approved for the Bureau of Land Management, and the permittee shall be furnished a notice of any change of fees.

(x) All livestock are considered as mature animals at 6 months of age and are so counted in determining animal unit months and numbers of animals.

(xi) The Superintendent may prescribe additional terms and conditions to meet individual cases.

(9) The breach of any of the terms or conditions of the permit shall be grounds for termination, suspension, or reduction of grazing privileges.

(10) Appeals from the decision of the Superintendent to the Regional Director, and from the Regional Director to the Director shall be made in accordance with National Park Service Order No. 14, as amended (19 FR 8824) and Regional Director, Order No. 3, as amended (21 FR 1494).

(11) Nothing in these regulations shall be construed as to prevent the enforcement of the provisions of the General Rules and Regulations and the Special Rules and Regulations of the National Park Service or of any other provisions of said rules and regulations applicable to stock grazing.

(c) *Snowmobiles.* (1) Designated routes which will be open to snowmobile use are approximately 20 miles of the Harpers Corner Road in Colorado and approximately 2 miles of the Cub Creek Road in Utah. The Harpers Corner Road section extends from the Plug Hat Overlook to the Echo Park Road Turnoff. The Cub Creek Road section extends from the Chew Ranch Road, 1 mile north of the Green River Bridge, to the point where the Cub Creek Road leaves the southern boundary of the monument.

(2) On roads designated for snowmobile use, only that portion of the road or parking area intended for other motor vehicle use may be used by snowmobiles. Such roadway is available for snowmobile use only when there is sufficient snow cover and when these roads are closed to all other motor vehicle use by the public.

(3) Snowmobile use outside designated routes is prohibited. The superintendent shall determine the opening and closing dates for use of the designated snowmobile routes each year.

(i) First-come, first-served.

(ii) Advance written reservation.

The superintendent shall determine the number and location of first-come, first-served and/or advance reservation blinds.

(6) In order to retain occupancy rights, the hunter must remain in or near the blind except for the purpose of

(iv) When two vehicles meet on the beach, the operator of the vehicle with the water on the left must yield, except that self-contained vehicles always have the right of way.

(v) When two vehicles meet on a single-lane oversand route, the operator of

the vehicle in the best position to yield must pull out of the track only so far as necessary to allow the other vehicle to pass safely, and then must back into the established track before resuming the original direction of travel.

Operating a motor vehicle off GMP roads in the recreation area without a permit is prohibited except for designated ORV routes that do not require a permit as indicated in Table 1 to paragraph (f)(3)(ii).

(iii) Annual permits are valid for one calendar year from the day they are issued. Shorter-term permits are valid from the day issued for the stated duration of the permit.

(iv) A permit applicant must acknowledge that he or she understands and agrees to abide by the rules governing off-road vehicle use in the recreation area.

National Park Service, Interior

(vi) Permits may be requested at recreation area headquarters, recreation area visitor centers, on the recreation area's website, or at other locations designated by the superintendent.

(vii) Violating any term, condition, or requirement of an off-road vehicle permit is prohibited and may result in the suspension or revocation of the permit and the denial of future permits, in addition to the penalties provided by § 1.3 of this chapter.

(3) *Designated off-road motor vehicle locations.* (i) The operation of a motor vehicle off GMP roads within the recreation area is prohibited except at the locations designated by this paragraph (f). Applicants shall submit permit applications in writing on a form provided by the National Park Service so as to be received by the Regional Director at the Division of Permits Management at least 48 hours in advance of any proposed demonstration or special event. This 48-hour period will be waived by the Regional Director if the size and nature of the activity will not reasonably require the commitment of park resources or personnel in excess of that which are normally available or which can reasonably be made available within the necessary time period. The Regional Director shall accept permit applications only during the hours of 8 a.m.-4 p.m., Monday through Friday, holidays excepted. All demonstration applications, except those seeking waiver of the numerical limitations applicable to Lafayette Park (paragraph (g)(5)(ii) of this section), are deemed granted, subject to all limitations and restrictions applicable to said park area, unless denied within 24 hours of

receipt. However, where a permit has been granted, or is deemed to have been granted pursuant to this subsection, the Regional Director may revoke that permit pursuant to paragraph (g)(6) of this section.

§ 7.96

Except for Inaugural ceremony activities, no activity containing structures is permitted closer than 50 feet to another activity containing structures without the mutual consent of the sponsors of those activities.

(v) NPS will issue a permit for a demonstration on the White House sidewalk and in Lafayette Park at the same time only if the requirements of this paragraph are met. The organization, group, or other sponsor of the demonstration must undertake in good faith all reasonable action, including the provision of sufficient marshals, to ensure that the sponsor:

(A) Maintains good order and self-discipline in conducting the demonstration and any necessary movement of persons; and

(B) Observes the numerical limitations and waiver provisions described in paragraphs (g)(5)(i) and (ii) of this section.

(vi) NPS will issue permits authorizing demonstrations or special events for the periods shown in the following table. NPS may extend these periods for demonstrations only, unless another application requests use of the particular area and that application precludes double occupancy.

Park area	Permit validity period	Permit validity period for inaugural activities
(A) White House area, except the Ellipse.	7 days	Between October 24 through April 1 for reasonable and necessary set-up and take-down activities for the White House Sidewalk and Lafayette Park.
(B) The Ellipse and all other park areas.	4 months	Between December 7 through February 10 for reasonable and necessary set-up and take-down activities for Pennsylvania Avenue, National Historic Park and Sherman Park.

(vii) A permit may be denied in writing by the Regional Director upon the following grounds:

(A) A fully executed prior application for the same time and place has been received, and a permit has been or will be granted authorizing activities which do not reasonably permit multiple occupancy of the particular area; in that event, an alternate site, if available for the activity, will be proposed by the Regional Director to the applicant.

(B) It reasonably appears that the proposed demonstration or special event will present a clear and present danger to the public safety, good order, or health.

(C) The proposed demonstration or special event is of such a nature or duration that it cannot reasonably be accommodated in the particular area applied for; in that event, the Regional Director shall propose an alternate site to the applicant, if available for the activity; in this connection, the Regional Director shall reasonably take into account possible damage to the park, including trees, shrubbery, other plantings, park installations and statues.

(D) The application proposes activities contrary to any of the provisions of this section or other applicable law or regulation.

(5) *Permit limitations.* Issuance of a permit is subject to the following limitations:

(i) No more than 750 persons are permitted to conduct a demonstration on the White House sidewalk at any one time.

(ii) No more than 3,000 persons are permitted to conduct a demonstration in Lafayette Park at any one time.

(A) The Regional Director may waive the 3,000 person limitation for Lafayette Park and/or the 750 person limitation for the White House Sidewalk upon a showing by the applicant that good faith efforts will be made to plan and marshal the demonstration in such a fashion so as to render unlikely any substantial risk of unreasonable disruption or violence.

(B) In making a waiver determination, the Regional Director shall consider and the applicant shall furnish at least ten days in advance of the proposed demonstration, the functions the marshals will perform, the means by which they will be identified, and their method of communication with each other and the crowd. This requirement will be satisfied by completion and submission of the same form referred to in paragraph (g)(3) of this section.

(iii) No permit will be issued for a demonstration on the White House

Sidewalk and in Lafayette Park at the same time except when the organization, group, or other sponsor of such demonstration undertakes in good faith all reasonable action, including the provision of sufficient marshals, to insure good order and self-discipline in conducting such demonstration and any necessary movement of persons, so that the numerical limitations and waiver provisions described in paragraphs (g)(5) (i) and (ii) of this section are observed.

(iv) The Regional Director may restrict demonstrations and special events weekdays (except holidays) between the hours of 7:00 to 9:30 a.m. and 4:00 to 6:30 p.m. if it reasonably appears necessary to avoid unreasonable interference with rush-hour traffic.

(v) Special events are not permitted unless approved by the Regional Director. In determining whether to approve a proposed special event, the Regional Director shall consider and base the determination upon the following criteria:

(A) Whether the objectives and purposes of the proposed special event relate to and are within the basic mission and responsibilities of the National Capital Region, National Park Service.

(B) Whether the park area requested is reasonably suited in terms of accessibility, size, and nature of the proposed special event.

(C) Whether the proposed special event can be permitted within a reasonable budgetary allocation of National Park Service funds considering the event's public appeal, and the anticipated participation of the general public therein.

(D) Whether the proposed event is duplicative of events previously offered in National Capital Region or elsewhere in or about Washington, DC.

(E) Whether the activities contemplated for the proposed special event are in conformity with all applicable laws and regulations.

(vi) In connection with permitted demonstrations or special events, temporary structures may be erected for the purpose of symbolizing a message or meeting logistical needs such as first aid facilities, lost children areas or the provision of shelter for elec-

trical and other sensitive equipment or displays. Temporary structures may not be used outside designated camping areas for living accommodation activities such as sleeping, or making preparations to sleep (including the laying down of bedding for the purpose of sleeping), or storing personal belongings, or making any fire, or doing any digging or earth breaking or carrying on cooking activities. The above-listed activities constitute camping when it reasonably appears, in light of all the circumstances, that the participants, in conducting these activities, are in fact using the area as a living accommodation regardless of the intent of the participants or the nature of any other activities in which they may also be engaging. Temporary structures are permitted to the extent described above, provided prior notice has been given to the Regional Director, except that:

(A) Structures are not permitted on the White House sidewalk.

(B) All such temporary structures shall be erected in such a manner so as not to harm park resources unreasonably and shall be removed as soon as practicable after the conclusion of the permitted demonstration or special event.

(C) The Regional Director may impose reasonable restrictions upon the use of temporary structures in the interest of protecting the park areas involved, traffic and public safety considerations, and other legitimate park value concerns.

(D) Any structures utilized in a demonstration extending in duration beyond the time limitations specified in paragraphs (g)(5)(iv) (A) and (B) of this section shall be capable of being removed upon 24 hours notice and the site restored, or, the structure shall be secured in such a fashion so as not to interfere unreasonably with use of the park area by other permittees authorized under this section.

(E) Individuals or groups of 25 persons or fewer demonstrating under the small group permit exemption of paragraph (g)(2)(i) of this section are not allowed to erect temporary structures other than small lecterns or speakers'

platforms. This provision does not restrict the use of portable signs or banners.

(vii) No signs or placards shall be permitted on the White House sidewalk except those made of cardboard, posterboard or cloth having dimensions no greater than three feet in width, twenty feet in length, and one-quarter inch in thickness. No supports shall be permitted for signs or placards except those made of wood having cross-sectional dimensions no greater than three-quarter of an inch by three-quarter of an inch. Stationary signs or placards shall be no closer than three feet from the White House sidewalk fence. All signs and placards shall be attended at all times that they remain on the White House sidewalk. Signs or placards shall be considered to be attended only when they are in physical contact with a person. No signs or placards shall be tied, fastened, or otherwise attached to or leaned against the White House fence, lamp posts or other structures on the White House sidewalk. No signs or placards shall be held, placed or set down on the center portion of the White House sidewalk, comprising ten yards on either side of the center point on the sidewalk; *Provided, however*, that individuals may demonstrate while carrying signs on that portion of the sidewalk if they continue to move along the sidewalk.

(viii) No parcel, container, package, bundle or other property shall be placed or stored on the White House sidewalk or on the west sidewalk of East Executive Avenue NW., between Pennsylvania Avenue NW., and E Street NW., or on the north sidewalk of E Street NW., between East and West Executive Avenues NW.; *Provided, however*, that such property, except structures, may be momentarily placed or set down in the immediate presence of the owner on those sidewalks.

(ix) The following are prohibited in Lafayette Park:

(A) The erection, placement or use of structures of any kind except for the following:

(1) Structures that are being hand-carried are allowed.

(2) When one hundred (100) or more persons are participating in a demonstration in the Park, a temporary

speaker's platform as is reasonably required to serve the demonstration participants is allowed as long as such platform is being erected, dismantled or used, *provided that* only one speaker's platform is allowed per demonstrating group, and *provided further that* such speaker's platform is authorized by a permit issued pursuant to paragraph (g) of this section.

(3) When less than one hundred (100) persons are participating in a demonstration in the Park, a temporary "soapbox" speaker's platform is allowed as long as such platform is being erected, dismantled or used, *providing that* only one speaker's platform is allowed per demonstrating group, and *provided further that* the speaker's platform is no larger than three (3) feet in length, three (3) feet in width, and three (3) feet in height, and *provided further that* such speaker's platform is authorized by a permit issued pursuant to paragraph (g) of this section.

(4) For the purpose of this section, the term "structure" includes props and displays, such as coffins, crates, crosses, theaters, cages, and statues; furniture and furnishings, such as desks, chairs, tables, bookcases, cabinets, platforms, podiums and lecterns; shelters, such as tents, boxes and other enclosures; wagons and carts; and all other similar types of property which might tend to harm park resources including aesthetic interests. *Provided however* that the term "structure" does not include signs; bicycles, baby carriages and baby strollers lawfully in the Park that are temporarily placed in, or are being moved across, the Park, and that are attended at all times while in the Park (the term "attended" is defined as an individual being within three (3) feet of his or her bicycle, baby carriage or baby stroller); and wheelchairs and other devices for the handicapped in use by handicapped persons.

(B) The use of signs except for the following:

(1) Hand-carried signs are allowed regardless of size.

(2) Signs that are not being hand-carried and that are no larger than four (4) feet in length, four (4) feet in width and one-quarter ($\frac{1}{4}$) inch in thickness (exclusive of braces that are reasonably

required to meet support and safety requirements and that are not used so as to form an enclosure of two (2) or more sides) may be used in Lafayette Park, *provided that* no individual may have more than two (2) such signs in the Park at any one time, and *provided further that* such signs must be attended at all times (the term ‘attended’ is defined as an individual being within three (3) feet of his or her sign(s)), and *provided further that* such signs may not be elevated in a manner so as to exceed a height of six (6) feet above the ground at their highest point, may not be arranged or combined in a manner so as to exceed the size limitations set forth in this paragraph, and may not be arranged in such a fashion as to form an enclosure of two (2) or more sides. For example, under this provision, two four-feet by four-feet signs may not be combined so as to create a sign eight feet long and four feet wide, and three such signs may not be arranged to create a sign four feet long and twelve feet wide, and two or more signs of any size may not be leaned or otherwise placed together so as to form an enclosure of two or more sides, etc.

(x) Stages and sound amplification may not be placed closer than one hundred (100) feet from the boundaries of the Vietnam Veterans Memorial and sound systems shall be directed away from the memorial at all times.

(xi) Sound amplification equipment is allowed in connection with permitted demonstrations or special events, provided prior notice has been given to the Regional Director, except that:

(A) Sound amplification equipment may not be used on the White House sidewalk, other than hand-portable sound amplification equipment which the Regional Director determines is necessary for crowd-control purposes.

(B) The Regional Director reserves the right to limit the sound amplification equipment so that it will not unreasonably disturb nonparticipating persons in, or in the vicinity of, the area.

(xii) A permit may contain additional reasonable conditions and additional time limitations, consistent with this section, in the interest of protecting park resources, the use of

nearby areas by other persons, and other legitimate park value concerns.

(xiii) A permit issued under this section does not authorize activities outside of areas under administration by the National Capital Region. Applicants may also be required to obtain a permit from the District of Columbia or other appropriate governmental entity for demonstrations or special events sought to be conducted either wholly or in part in other than park areas.

(6) *Permit revocation.* A permit issued for a demonstration is revocable only upon a ground for which an application therefor would be subject to denial under paragraphs (g) (4) or (5) of this section. Any such revocation, prior to the conduct of the demonstration, shall be in writing and shall be approved by the Regional Director. During the conduct of a demonstration, a permit may be revoked by the ranking U.S. Park Police supervisory official in charge if continuation of the event presents a clear and present danger to the public safety, good order or health or for any violation of applicable law or regulation. A permit issued for a special event is revocable, at any time, in the reasonable discretion of the Regional Director.

(7) Further information on administering these regulations can be found in policy statements published at 47 FR 24299, June 4, 1982, and at 47 FR 24302, June 4, 1982. Copies of the policy statements may be obtained from the Regional Director.

(h) *Soliciting.* (1) The in-person soliciting or demanding of money or funds for donation on Federal park land is prohibited, unless it occurs as part of a permit issued for a demonstration or special event.

(2) Persons permitted to solicit must not:

(i) Give false or misleading information regarding their purposes or affiliations;

(ii) Give false or misleading information as to whether any item is available without donation.

(i) *Camping.* (1) Camping is defined as the use of park land for living accommodation purposes such as sleeping activities, or making preparations to sleep (including the laying down of

bedding for the purpose of sleeping), or storing personal belongings, or making any fire, or using any tents or shelter or other structure or vehicle for sleeping or doing any digging or earth breaking or carrying on cooking activities. The above-listed activities constitute camping when it reasonably appears, in light of all the circumstances, that the participants, in conducting these activities, are in fact using the area as a living accommodation regardless of the intent of the participants or the nature of any other activities in which they may also be engaging. Camping is permitted only in areas designated by the Superintendent, who may establish limitations of time allowed for camping in any public campground. Upon the posting of such limitations in the campground, no person shall camp for a period longer than that specified for the particular campground.

(2) Further information on administering these regulations can be found in policy statements published at 47 FR 24302 (June 4, 1982). Copies of the policy statements may be obtained from the Regional Director.

(j)(1) In Lafayette Park the storage of construction material, tools, lumber, paint, tarps, bedding, luggage, pillows, sleeping bags, food, clothing, literature, papers and all other similar property is prohibited.

(2) Notwithstanding (j)(1) of this section, a person in Lafayette Park may have literature, papers, food, clothing, blankets and a reasonable cover to protect such property, occupying up to three (3) cubic feet of space, so long as such property is attended at all times while in the Park (the term "attended" is defined as a person being within three (3) feet of his or her property).

(k) *Sales.* (1) No sales shall be made nor admission fee charged and no article may be exposed for sale without a permit except as noted in the following paragraphs.

(2) No merchandise may be sold during the conduct of special events or demonstrations except for books, newspapers, leaflets, pamphlets, buttons and bumper stickers. A permit is required for the sale or distribution of permitted merchandise when done with the aid of a stand or structure. Such

stand or structure may consist of one table per site, which may be no larger than 2½ feet by 8 feet or 4 feet by 4 feet. The dimensions of a sales site may not exceed 6 feet wide by 15 feet long by 6 feet high. With or without a permit, such sale or distribution is prohibited in the following areas:

(i) Lincoln Memorial area which is on the same level or above the base of the large marble columns surrounding the structure, and the single series of marble stairs immediately adjacent to and below that level.

(ii) Jefferson Memorial area enclosed by the outermost series of columns, and all portions on the same levels or above the base of these columns.

(iii) Washington Monument area enclosed within the inner circle that surrounds the Monument's base.

(iv) The interior of all park buildings, including, but not limited to, those portions of Ford's Theatre administered by the National Park Service.

(v) The White House Park area bounded on the north by H Street, NW; on the south by Constitution Avenue, NW; on the west by 17th Street, NW; and on the east by 15th Street, NW; except for Lafayette Park, the White House sidewalk (the south Pennsylvania Avenue, NW sidewalk between East and West Executive Avenues) and the Ellipse; *Provided, however*, that the free distribution of literature conducted without the aid of stands or structures, is permitted on East Executive Avenue.

(vi) Vietnam Veterans Memorial area extending to and bounded by the south curb of Constitution Avenue on the north, the east curb of Henry Bacon Drive on the west, the north side of the north Reflecting Pool walkway on the south and a line drawn perpendicular to Constitution Avenue two hundred (200) feet from the east tip of the memorial wall on the east (this is also a line extended from the east side of the western concrete border of the steps to the west of the center steps to the Federal Reserve Building extending to the Reflecting Pool walkway); *Provided, however*, that the free distribution of literature conducted without the aid of stands or structures, is permitted on the Constitution Avenue and Henry

§ 7.97

Bacon Drive sidewalks adjacent to the Vietnam Veterans Memorial.

(3) Persons engaged in the sale or distribution of printed matter under this section shall not obstruct or impede pedestrians or vehicles, harass park visitors with physical contact, misrepresent the purposes or affiliations of those engaged in the sale or distribution, or misrepresent whether the printed matter is available without cost or donation.

(1) *Rock Creek Park.* (1) Notwithstanding the provisions of 36 CFR 5.1, the Superintendent of Rock Creek Park may permit the recognition of and the advertising by the primary sponsor or sponsors of not more than two professional tennis tournaments per year at the Rock Creek Tennis Center.

(2) All activities conducted under this paragraph shall be appropriate to park values and consistent with the protection of park resources and shall comply with criteria specified in a written permit.

(3) Any permit issued under this paragraph shall be valid only for those periods of time during which a professional tennis tournament is being held, and shall limit all advertising and recognition to the confines of the tennis stadium structure and the contiguous paved plaza, not to include any of the fields or paved parking lots except within the interior of permitted tents on Parking Lot A. These areas shall be marked on a map available in the Superintendent's office.

(4) No advertising or recognition activities may take place without a written permit as specified in this paragraph. Any person who violates a provision of this paragraph is subject to the penalty provisions of 36 CFR 1.3 and revocation of the permit if a permit exists.

(m) *Information collection.* The information collection requirements contained in this section have been approved by the Office of Management and Budget under 44 U.S.C. 3507 and assigned clearance number 1024-0021.
