SOURCE: 56 FR 29192, June 26, 1991, unless otherwise noted.

§ 64.1 Programs to which these regulations apply.

(a) The regulations of this part apply to grants under section 472 of the Public Health Service Act (42 U.S.C. 286b–3) to public and private nonprofit institutions to assist in developing, expanding, and improving training programs (excluding training in a biomedical specialty and residency training) in library science and the field of communications of information pertaining to sciences relating to health.

(b) The regulations of this part also apply to cooperative agreements awarded for these purposes. References to “grant(s)” shall include “cooperative agreement(s).”

(c) The regulations of this part do not apply to research training support under the National Research Service Awards Program (see part 66 of this chapter).

§ 64.2 Definitions.

As used in this part:

HHS means the Department of Health and Human Services.

Nonprofit private entity means an agency, organization, institution, or other entity which may not lawfully hold or use any part of its net earnings to the benefit of any private shareholder or individual which does not

hold or use its net earnings for that purpose.

Other trainee costs means those costs other than stipends, such as tuition, fees, and trainee travel, which are directly associated with and necessary for the training of individuals receiving stipends and which are incurred within the period of training.

Project director means the single individual named by the grantee in the grant application and approved by the Secretary, who is responsible for the management and conduct of the project.

Project period. See § 64.6(b).

Secretary means the Secretary of Health and Human Services and any other official of HHS to whom the authority involved is delegated.

Stipend means a payment to an individual that is intended to help meet that individual's subsistence expenses during training.

Training grant means an award of funds to an eligible entity for a project authorized under § 64.1(a).

§ 64.3 Who is eligible for a grant?

Except as otherwise prohibited by law, any public or private nonprofit entity is eligible for a training grant.

§ 64.4 How to apply for a grant.

Applications for grants must include the following information:

(a) *Required information on the proposed project.* (1) The nature, duration, and purpose of the training for which the application is filed.

(2) The name and qualifications of the project director and any key personnel responsible for the proposed project.

(3) A description of the facilities, staff, support services, and other organizational resources available to carry out the project.

(4) The intended number of trainees and the minimum qualifications and criteria for their selection.

(5) A description of the plan for evaluating the proposed project.

(6) Other pertinent information the Secretary may require to evaluate the proposed project.

(b) *Required information on costs.* (1) A budget for the proposed project and a

justification of the amount of grant funds requested.

(2) If institutional expenses are requested, a separate statement of the amounts requested for personal services, equipment, supplies, or other non-personal services.

(3) If stipend costs are requested, a statement for each grant year of the estimated number of individuals to whom stipends will be provided and the length of time for which the stipend support will be provided. If other trainee costs are requested, they must be separately stated and justified.

(Approved by the Office of Management and Budget under control number 0925–0276)

§ 64.5 How are grant applications evaluated?

The Secretary shall evaluate applications through the officers and employees, experts, consultants, or groups engaged by the Secretary for that purpose. The Secretary's evaluation will be for technical merit and shall take into account, among other pertinent factors, the significance of the project, the qualifications and competency of the project director and proposed staff, the adequacy of selection criteria for trainees for the project, the adequacy of the applicant's resources available for the project, and the amount of grant funds necessary for completion of its objectives.

§ 64.6 Awards.

(a) *Criteria.* Within the limits of available funds, the Secretary may award training grants to carry out those projects which:

(1) Are determined by the Secretary to be technically meritorious; and

(2) In the judgment of the Secretary best promote the purpose of the grant program as authorized by section 472 of the Act (42 U.S.C. 286b–3), the regulations of this part (see § 64.1), and address program priorities.

(b) *Project period.* (1) The notice of grant award specifies how long the Secretary intends to support the project without requiring the project to re-compete for funds. This period, called the project period, will usually be for one to five years.

(2) Generally, the grant will initially be for one year and subsequent con-

tinuation awards will also be for one year at a time. A grantee must submit a separate application to have the support continued for each subsequent year. Decisions regarding continuation awards and the funding level of these awards will be made after consideration of such factors as the grantee's progress and management practices, and the availability of funds. In all cases, continuation awards require a determination by the Secretary that continued funding is in the best interest of the Federal Government.

(3) Neither the approval of any application nor the award of any grant commits or obligates the Federal Government in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

(4) Any balance of federally obligated grant funds remaining unobligated by the grantee at the end of a budget period may be carried forward to the next budget period, for use as prescribed by the Secretary, provided a continuation award is made. If at any time during a budget period it becomes apparent to the Secretary that the amount of Federal funds awarded and available to the grantee for that period, including any unobligated balance carried forward from prior periods, exceeds the grantee's needs for that period, the Secretary may adjust the amounts awarded by withdrawing the excess.

§ 64.7 What other conditions apply?

(a) Grants awarded under this part are subject to the following conditions:

(1) The grantee may not materially change the quality, nature, or duration of the project unless the written approval of the Secretary is obtained prior to the change.

(2) The grantee must submit to the Secretary, in the manner prescribed by the Secretary, the name and other pertinent information regarding each individual who is awarded a stipend under a grant.

(b) The Secretary may impose additional conditions prior to the award of

Public Health Service, HHS

any grant under this part if it is determined by the Secretary that the conditions are necessary to carry out the purpose of the grant.

(Approved by the Office of Management and Budget under control number 0925-0276)

§ 64.8 How may funds be used?

A grantee shall expend funds it receives under this part solely in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the grant award, and the applicable cost principles in 2 CFR parts 200 and 300, subpart E. The funds may not be expended for:

(a) Compensation for employment or for the performance of personal services by individuals receiving training and instruction; or

(b) Payments to any individual who does not meet the minimum qualifications for training and instruction established by the grantee and approved by the Secretary or who has failed to demonstrate satisfactory participation in the training in accordance with the usual standards and procedures of the grantee.
