

Example 3. (i) *Facts.* Individual *C* was previously diagnosed with and treated for breast cancer, which is currently in remission. In accordance with the recommendation of *C*'s physician, *C* has been taking a regular dose of tamoxifen to help prevent a recurrence. *C*'s group health plan adopts a new policy requiring patients taking tamoxifen to undergo a genetic test to ensure that tamoxifen is medically appropriate for their genetic makeup. In accordance with, at the time, the latest scientific research, tamoxifen is not helpful in up to 7 percent of breast cancer patients, those with certain variations of the gene for making the CYP₂D6 enzyme. If a patient has a gene variant making tamoxifen not medically appropriate, the plan does not pay for the tamoxifen prescription.

(ii) *Conclusion.* In this *Example 3*, the plan does not violate paragraph (c) of this section if it conditions future payments for the tamoxifen prescription on *C*'s undergoing a genetic test to determine what genetic markers *C* has for making the CYP₂D6 enzyme. Nor does the plan violate paragraph (c) of this section if the plan refuses future payment if the results of the genetic test indicate that tamoxifen is not medically appropriate for *C*.

Example 4. (i) *Facts.* A group health plan offers a diabetes disease management program to all similarly situated individuals for whom it is medically appropriate based on whether the individuals have or are at risk for diabetes. The program provides enhanced benefits related only to diabetes for individuals who qualify for the program. The plan sends out a notice to all participants that describes the diabetes disease management program and explains the terms for eligibility. Individuals interested in enrolling in the program are advised to contact the plan to demonstrate that they have diabetes or that they are at risk for diabetes. For individuals who do not currently have diabetes, genetic information may be used to demonstrate that an individual is at risk.

(ii) *Conclusion.* In this *Example 4*, the plan may condition benefits under the disease management program upon a showing by an individual that the individual is at risk for diabetes, even if such showing may involve genetic information, provided that the plan requests genetic information only when necessary to make a determination regarding whether the disease management program is medically appropriate for the individual and only requests the minimum amount of information necessary to make that determination.

Example 5. (i) *Facts.* Same facts as *Example 4*, except that the plan includes a questionnaire that asks about the occurrence of diabetes in members of the individual's family as part of the notice describing the disease management program.

(ii) *Conclusion.* In this *Example 5*, the plan violates the requirements of paragraph (d)(1) of this section because the requests for genetic information are not limited to those situations in which it is necessary to make a determination regarding whether the disease management program is medically appropriate for the individuals.

Example 6. (i) *Facts.* Same facts as *Example 4*, except the disease management program provides an enhanced benefit in the form of a lower annual deductible to individuals under the program; the lower deductible applies with respect to all medical expenses incurred by the individual. Thus, whether or not a claim relates to diabetes, the individual is provided with a lower deductible based on the individual providing the plan with genetic information.

(ii) *Conclusion.* In this *Example 6*, because the enhanced benefits include benefits not related to the determination of medical appropriateness, making available the enhanced benefits is within the meaning of underwriting purposes. Accordingly, the plan may not request or require genetic information (including family history information) in determining eligibility for enhanced benefits under the program because such a request would be for underwriting purposes and would violate paragraph (d)(1) of this section.

(f) *Applicability date.* This section applies for plan years beginning on or after December 7, 2009.

[74 FR 51688, Oct. 7, 2009]

§ 146.123 Special rule allowing integration of Health Reimbursement Arrangements (HRAs) and other account-based group health plans with individual health insurance coverage and Medicare and prohibiting discrimination in HRAs and other account-based group health plans.

(a) *Scope.* This section applies to health reimbursement arrangements (HRAs) and other account-based group health plans, as defined in § 147.126(d)(6)(i) of this subchapter. For ease of reference, the term "HRA" is used in this section to include other account-based group health plans. For related regulations, see 26 CFR 1.36B-2(c)(3)(i) and (c)(5), 29 CFR 2510.3-1(i), and 45 CFR 155.420.

(b) *Purpose.* This section provides the conditions that an HRA must satisfy in order to be integrated with individual health insurance coverage for purposes of Public Health Service Act (PHS Act) sections 2711 and 2713 and § 147.126(d)(4)

§ 146.123

of this subchapter (referred to as an individual coverage HRA). This section also allows an individual coverage HRA to be integrated with Medicare for purposes of PHS Act sections 2711 and 2713 and §147.126(d)(4) of this subchapter, subject to the conditions provided in this section (see paragraph (e) of this section). Some of the conditions set forth in this section specifically relate to compliance with PHS Act sections 2711 and 2713 and some relate to the effect of having or being offered an individual coverage HRA on eligibility for the premium tax credit under section 36B of the Internal Revenue Code (Code). In addition, this section provides conditions that an individual coverage HRA must satisfy in order to comply with the nondiscrimination provisions in PHS Act section 2705 and that are consistent with the provisions of the Patient Protection and Affordable Care Act, Public Law 111-148 (124 Stat. 119 (2010)), and the Health Care and Education Reconciliation Act of 2010, Public Law 111-152 (124 Stat. 1029 (2010)), each as amended, that are designed to create a competitive individual market. These conditions are intended to prevent an HRA plan sponsor from intentionally or unintentionally, directly or indirectly, steering any participants or dependents with adverse health factors away from its traditional group health plan, if any, and toward individual health insurance coverage.

(c) *General rule.* An HRA will be considered to be integrated with individual health insurance coverage for purposes of PHS Act sections 2711 and 2713 and §147.126(d)(4) of this subchapter and will not be considered to discriminate in violation of PHS Act section 2705 solely because it is integrated with individual health insurance coverage, provided that the conditions of this paragraph (c) are satisfied. See paragraph (e) of this section for how these conditions apply to an individual coverage HRA integrated with Medicare. For purposes of this section, medical care expenses means medical care expenses as defined in §147.126(d)(6)(ii) of this subchapter and Exchange means Exchange as defined in §155.20 of this subchapter.

45 CFR Subtitle A (10-1-23 Edition)

(1) *Enrollment in individual health insurance coverage—(i) In general.* The HRA must require that the participant and any dependent(s) are enrolled in individual health insurance coverage that is subject to and complies with the requirements in PHS Act sections 2711 (and §147.126(a)(2) of this subchapter) and PHS Act section 2713 (and §147.130(a)(1) of this subchapter), for each month that the individual(s) are covered by the HRA. For purposes of this paragraph (c), all individual health insurance coverage, except for individual health insurance coverage that consists solely of excepted benefits, is treated as being subject to and complying with PHS Act sections 2711 and 2713. References to individual health insurance coverage in this paragraph (c) do not include individual health insurance coverage that consists solely of excepted benefits.

(ii) *Forfeiture.* The HRA must provide that if any individual covered by the HRA ceases to be covered by individual health insurance coverage, the HRA will not reimburse medical care expenses that are incurred by that individual after the individual health insurance coverage ceases. In addition, if the participant and all dependents covered by the participant's HRA cease to be covered by individual health insurance coverage, the participant must forfeit the HRA. In either case, the HRA must reimburse medical care expenses incurred by the individual prior to the cessation of individual health insurance coverage to the extent the medical care expenses are otherwise covered by the HRA, but the HRA may limit the period to submit medical care expenses for reimbursement to a reasonable specified time period. If a participant or dependent loses coverage under the HRA for a reason other than cessation of individual health insurance coverage, COBRA and other continuation coverage requirements may apply.

(iii) *Grace periods and retroactive termination of individual health insurance coverage.* In the event an individual is initially enrolled in individual health insurance coverage and subsequently timely fails to pay premiums for the

coverage, with the result that the individual is in a grace period, the individual is considered to be enrolled in individual health insurance coverage for purposes of this paragraph (c)(1) and the individual coverage HRA must reimburse medical care expenses incurred by the individual during that time period to the extent the medical care expenses are otherwise covered by the HRA. If the individual fails to pay the applicable premium(s) by the end of the grace period and the coverage is cancelled or terminated, including retroactively, or if the individual health insurance coverage is cancelled or terminated retroactively for some other reason (for example, a rescission), an individual coverage HRA must require that a participant notify the HRA that coverage has been cancelled or terminated and the date on which the cancellation or termination is effective. After the individual coverage HRA has received the notice of cancellation or termination, the HRA may not reimburse medical care expenses incurred on and after the date the individual health insurance coverage was cancelled or terminated, which is considered to be the date of termination of coverage under the HRA.

(2) *No traditional group health plan may be offered to same participants.* To the extent a plan sponsor offers any class of employees (as defined in paragraph (d) of this section) an individual coverage HRA, the plan sponsor may not also offer a traditional group health plan to the same class of employees, except as provided in paragraph (d)(5) of this section. For purposes of this section, a traditional group health plan is any group health plan other than either an account-based group health plan or a group health plan that consists solely of excepted benefits. Therefore, a plan sponsor may not offer a choice between an individual coverage HRA or a traditional group health plan to any participant or dependent.

(3) *Same terms requirement—(i) In general.* If a plan sponsor offers an individual coverage HRA to a class of employees described in paragraph (d) of this section, the HRA must be offered on the same terms to all participants

within the class, except as provided in paragraphs (c)(3)(ii) through (vi) and (d)(5) of this section.

(ii) *Carryover amounts, salary reduction arrangements, and transfer amounts.* Amounts that are not used to reimburse medical care expenses for any plan year that are made available to participants in later plan years are disregarded for purposes of determining whether an HRA is offered on the same terms, provided that the method for determining whether participants have access to unused amounts in future years, and the methodology and formula for determining the amounts of unused funds which they may access in future years, is the same for all participants in a class of employees. In addition, the ability to pay the portion of the premium for individual health insurance coverage that is not covered by the HRA, if any, by using a salary reduction arrangement under section 125 of the Code is considered to be a term of the HRA for purposes of this paragraph (c)(3). Therefore, an HRA is not provided on the same terms unless the salary reduction arrangement, if made available to any participant in a class of employees, is made available on the same terms to all participants (other than former employees, as defined in paragraph (c)(3)(iv) of this section) in the class of employees. Further, to the extent that a participant in an individual coverage HRA was previously covered by another HRA and the current individual coverage HRA makes available amounts that were not used to reimburse medical care expenses under the prior HRA (transferred amounts), the transferred amounts are disregarded for purposes of determining whether the HRA is offered on the same terms, provided that if the HRA makes available transferred amounts, it does so on the same terms for all participants in the class of employees.

(iii) *Permitted variation.* An HRA does not fail to be provided on the same terms solely because the maximum dollar amount made available to participants in a class of employees to reimburse medical care expenses for any plan year increases in accordance with paragraph (c)(3)(iii)(A) or (B) of this section.

(A) *Variation due to number of dependents.* An HRA does not fail to be provided on the same terms to participants in a class of employees solely because the maximum dollar amount made available to those participants to reimburse medical care expenses for any plan year increases as the number of the participant's dependents who are covered under the HRA increases, so long as the same maximum dollar amount attributable to the increase in family size is made available to all participants in that class of employees with the same number of dependents covered by the HRA.

(B) *Variation due to age.* An HRA does not fail to be provided on the same terms to participants in a class of employees solely because the maximum dollar amount made available under the terms of the HRA to those participants to reimburse medical care expenses for any plan year increases as the age of the participant increases, so long as the requirements in paragraphs (c)(3)(iii)(B)(1) and (2) of this section are satisfied. For the purpose of this paragraph (c)(3)(iii)(B), the plan sponsor may determine the age of the participant using any reasonable method for a plan year, so long as the plan sponsor determines each participant's age for the purpose of this paragraph (c)(3)(iii)(B) using the same method for all participants in the class of employees for the plan year and the method is determined prior to the plan year.

(1) The same maximum dollar amount attributable to the increase in age is made available to all participants who are the same age.

(2) The maximum dollar amount made available to the oldest participant(s) is not more than three times the maximum dollar amount made available to the youngest participant(s).

(iv) *Former employees.* An HRA does not fail to be treated as provided on the same terms if the plan sponsor offers the HRA to some, but not all, former employees within a class of employees. However, if a plan sponsor offers the HRA to one or more former employees within a class of employees, the HRA must be offered to the former employee(s) on the same terms as to all other employees within the class, ex-

cept as provided in paragraph (c)(3)(ii) of this section. For purposes of this section, a former employee is an employee who is no longer performing services for the employer.

(v) *New employees or new dependents.* For a participant whose coverage under the HRA becomes effective later than the first day of the plan year, the HRA does not fail to be treated as being provided on the same terms to the participant if the maximum dollar amount made available to the participant either is the same as the maximum dollar amount made available to participants in the participant's class of employees whose coverage became effective as of the first day of the plan year, or is pro-rated consistent with the portion of the plan year in which the participant is covered by the HRA. Similarly, if the HRA provides for variation in the maximum amount made available to participants in a class of employees based on the number of a participant's dependents covered by the HRA, and the number of a participant's dependents covered by the HRA changes during a plan year (either increasing or decreasing), the HRA does not fail to be treated as being provided on the same terms to the participant if the maximum dollar amount made available to the participant either is the same as the maximum dollar amount made available to participants in the participant's class of employees who had the same number of dependents covered by the HRA on the first day of the plan year or is pro-rated for the remainder of the plan year after the change in the number of the participant's dependents covered by the HRA consistent with the portion of the plan year in which that number of dependents are covered by the HRA. The method the HRA uses to determine amounts made available for participants whose coverage under the HRA is effective later than the first day of the plan year or who have changes in the number of dependents covered by the HRA during a plan year must be the same for all participants in the class of employees and the method must be determined prior to the beginning of the plan year.

(vi) *HSA-compatible HRAs.* An HRA does not fail to be treated as provided

on the same terms if the plan sponsor offers participants in a class of employees a choice between an HSA-compatible individual coverage HRA and an individual coverage HRA that is not HSA compatible, provided both types of HRAs are offered to all participants in the class of employees on the same terms. For the purpose of this paragraph (c)(3)(vi), an HSA-compatible individual coverage HRA is an individual coverage HRA that is limited in accordance with applicable guidance under section 223 of the Code such that an individual covered by such an HRA is not disqualified from being an eligible individual under section 223 of the Code.

(vii) *Examples.* The following examples illustrate the provisions of this paragraph (c)(3), without taking into account the provisions of paragraph (d) of this section. In each example, the HRA is an individual coverage HRA that has a calendar year plan year and may reimburse any medical care expenses, including premiums for individual health insurance coverage (except as provided in paragraph (c)(3)(vii)(E) of this section (*Example 5*)). Further, in each example, assume the HRA is offered on the same terms, except as otherwise specified in the example and that no participants or dependents are Medicare beneficiaries.

(A) *Example 1: Carryover amounts permitted—(1) Facts.* For 2020 and again for 2021, Plan Sponsor A offers all employees \$7,000 each in an HRA, and the HRA provides that amounts that are unused at the end of a plan year may be carried over to the next plan year, with no restrictions on the use of the carryover amounts compared to the use of newly available amounts. At the end of 2020, some employees have used all of the funds in their HRAs, while other employees have balances remaining that range from \$500 to \$1,750 that are carried over to 2021 for those employees.

(2) *Conclusion.* The same terms requirement of this paragraph (c)(3) is satisfied in this paragraph (c)(3)(vii)(A) (*Example 1*) for 2020 because Plan Sponsor A offers all employees the same amount, \$7,000, in an HRA for that year. The same terms requirement is also satisfied for 2021 because Plan Sponsor A again offers all employees

the same amount for that year, and the carryover amounts that some employees have are disregarded in applying the same terms requirement because the amount of the carryover for each employee (that employee's balance) and each employee's access to the carryover amounts is based on the same terms.

(B) *Example 2: Employees hired after the first day of the plan year—(1) Facts.* For 2020, Plan Sponsor B offers all employees employed on January 1, 2020, \$7,000 each in an HRA for the plan year. Employees hired after January 1, 2020, are eligible to enroll in the HRA with an effective date of the first day of the month following their date of hire, as long as they have enrolled in individual health insurance coverage effective on or before that date, and the amount offered to these employees is pro-rated based on the number of months remaining in the plan year, including the month which includes their coverage effective date.

(2) *Conclusion.* The same terms requirement of this paragraph (c)(3) is satisfied in this paragraph (c)(3)(vii)(B) (*Example 2*) for 2020 because Plan Sponsor B offers all employees employed on the first day of the plan year the same amount, \$7,000, in an HRA for that plan year and all employees hired after January 1, 2020, a pro-rata amount based on the portion of the plan year during which they are enrolled in the HRA.

(C) *Example 3: HRA amounts offered vary based on number of dependents—(1) Facts.* For 2020, Plan Sponsor C offers its employees the following amounts in an HRA: \$1,500, if the employee is the only individual covered by the HRA; \$3,500, if the employee and one dependent are covered by the HRA; and \$5,000, if the employee and more than one dependent are covered by the HRA.

(2) *Conclusion.* The same terms requirement of this paragraph (c)(3) is satisfied in this paragraph (c)(3)(vii)(C) (*Example 3*) because paragraph (c)(3)(iii)(A) of this section allows the maximum dollar amount made available in an HRA to increase as the number of the participant's dependents covered by the HRA increases and Plan Sponsor C makes the same amount available to each employee with the

same number of dependents covered by the HRA.

(D) *Example 4: HRA amounts offered vary based on increases in employees' ages—(1) Facts.* For 2020, Plan Sponsor D offers its employees the following amounts in an HRA: \$1,000 each for employees age 25 to 35; \$2,000 each for employees age 36 to 45; \$2,500 each for employees age 46 to 55; and \$4,000 each for employees over age 55.

(2) *Conclusion.* The same terms requirement of this paragraph (c)(3) is not satisfied in this paragraph (c)(3)(vii)(D) (*Example 4*) because the terms of the HRA provide the oldest participants (those over age 55) with more than three times the amount made available to the youngest participants (those ages 25 to 35), in violation of paragraph (c)(3)(iii)(B)(2) of this section.

(E) *Example 5: Application of same terms requirement to premium only HRA—(1) Facts.* For 2020, Plan Sponsor E offers its employees an HRA that reimburses only premiums for individual health insurance coverage, up to \$10,000 for the year. Employee A enrolls in individual health insurance coverage with a \$5,000 premium for the year and is reimbursed \$5,000 from the HRA. Employee B enrolls in individual health insurance coverage with an \$8,000 premium for the year and is reimbursed \$8,000 from the HRA.

(2) [Reserved]

Conclusion. The same terms requirement of this paragraph (c)(3) is satisfied in this paragraph (c)(3)(vii)(E) (*Example 5*) because Plan Sponsor E offers the HRA on the same terms to all employees, notwithstanding that some employees receive a greater amount of reimbursement than others based on the cost of the individual health insurance coverage selected by the employee.

(4) *Opt out.* Under the terms of the HRA, a participant who is otherwise eligible for coverage must be permitted to opt out of and waive future reimbursements on behalf of the participant and all dependents eligible for the HRA from the HRA once, and only once, with respect to each plan year. The HRA may establish timeframes for enrollment in (and opting out of) the HRA but, in general, the opportunity

to opt out must be provided in advance of the first day of the plan year. For participants who become eligible to participate in the HRA on a date other than the first day of the plan year (or who become eligible fewer than 90 days prior to the plan year or for whom the notice under paragraph (c)(6) of this section is required to be provided as set forth in paragraph (c)(6)(i)(C) of this section), or for a dependent who newly becomes eligible during the plan year, this opportunity must be provided during the applicable HRA enrollment period(s) established by the HRA for these individuals. Further, under the terms of the HRA, upon termination of employment, for a participant who is covered by the HRA, either the remaining amounts in the HRA must be forfeited or the participant must be permitted to permanently opt out of and waive future reimbursements from the HRA on behalf of the participant and all dependents covered by the HRA.

(5) *Reasonable procedures for coverage substantiation—(i) Substantiation of individual health insurance coverage for the plan year.* The HRA must implement, and comply with, reasonable procedures to substantiate that participants and each dependent covered by the HRA are, or will be, enrolled in individual health insurance coverage for the plan year (or for the portion of the plan year the individual is covered by the HRA, if applicable). The HRA may establish the date by which this substantiation must be provided, but, in general, the date may be no later than the first day of the plan year. However, for a participant who is not eligible to participate in the HRA on the first day of the plan year (or who becomes eligible fewer than 90 days prior to the plan year or for whom the notice under paragraph (c)(6) of this section is required to be provided as set forth in paragraph (c)(6)(i)(C) of this section), the HRA may establish the date by which this substantiation must be provided, but that date may be no later than the date the HRA coverage begins. Similarly, for a participant who adds a new dependent during the plan year, the HRA may establish the date by which this substantiation must be provided, but the date may be no later than the date the HRA coverage for the

new dependent begins; however, to the extent the dependent's coverage under the HRA is effective retroactively, the HRA may establish a reasonable time by which this substantiation is required, but must require it be provided before the HRA will reimburse any medical care expense for the newly added dependent. The reasonable procedures an HRA may use to implement the substantiation requirement set forth in this paragraph (c)(5)(i) may include a requirement that a participant substantiate enrollment by providing either:

(A) A document from a third party (for example, the issuer or an Exchange) showing that the participant and any dependents covered by the HRA are, or will be, enrolled in individual health insurance coverage (for example, an insurance card or an explanation of benefits document pertaining to the relevant time period or documentation from the Exchange showing that the individual has completed the application and plan selection); or

(B) An attestation by the participant stating that the participant and dependent(s) covered by the HRA are, or will be, enrolled in individual health insurance coverage, the date coverage began or will begin, and the name of the provider of the coverage.

(ii) *Coverage substantiation with each request for reimbursement of medical care expenses.* Following the initial substantiation of coverage, with each new request for reimbursement of an incurred medical care expense for the same plan year, the HRA may not reimburse a participant for any medical care expenses unless, prior to each reimbursement, the participant substantiates that the individual on whose behalf medical care expenses are requested to be reimbursed continues to be enrolled in individual health insurance coverage for the month during which the medical care expenses were incurred. The HRA must implement, and comply with, reasonable procedures to satisfy this requirement. This substantiation may be in the form of a written attestation by the participant, which may be part of the form used to request reimbursement, or a document from a third party (for example, a health insurance issuer) showing that the par-

ticipant or the dependent, if applicable, are or were enrolled in individual health insurance coverage for the applicable month.

(iii) *Reliance on substantiation.* For purposes of this paragraph (c)(5), an HRA may rely on the participant's documentation or attestation unless the HRA, its plan sponsor, or any other entity acting in an official capacity on behalf of the HRA has actual knowledge that any individual covered by the HRA is not, or will not be, enrolled in individual health insurance coverage for the plan year (or applicable portion of the plan year) or the month, as applicable.

(6) *Notice requirement—(i) Timing.* The HRA must provide a written notice to each participant:

(A) At least 90 calendar days before the beginning of each plan year for any participant who is not described in either paragraph (c)(6)(i)(B) or (C) of this section;

(B) No later than the date on which the HRA may first take effect for the participant, for any participant who is not eligible to participate at the beginning of the plan year (or is not eligible to participate at the time the notice is provided at least 90 calendar days before the beginning of the plan year pursuant to paragraph (c)(6)(i)(A) of this section); or

(C) No later than the date on which the HRA may first take effect for the participant, for any participant who is employed by an employer that is first established less than 120 days before the beginning of the first plan year of the HRA; this paragraph (c)(6)(i)(C) applies only with respect to the first plan year of the HRA.

(ii) *Content.* The notice must include all the information described in this paragraph (c)(6)(ii) (and may include any additional information that does not conflict with that information). To the extent that the Departments of the Treasury, Labor and Health and Human Services provide model notice language for certain elements of this required notice, HRAs are permitted, but not required, to use the model language.

(A) A description of the terms of the HRA, including the maximum dollar amount available for each participant

§ 146.123

(including the self-only HRA amount available for the plan year (or the maximum dollar amount available for the plan year if the HRA provides for reimbursements up to a single dollar amount regardless of whether a participant has self-only or other than self-only coverage)), any rules regarding the proration of the maximum dollar amount applicable to any participant (or dependent, if applicable) who is not eligible to participate in the HRA for the entire plan year, whether (and which of) the participant's dependents are eligible for the HRA, a statement that there are different kinds of HRAs (including a qualified small employer health reimbursement arrangement) and the HRA being offered is an individual coverage HRA, a statement that the HRA requires the participant and any covered dependents to be enrolled in individual health insurance coverage (or Medicare Part A and B or Medicare Part C, if applicable), a statement that the coverage in which the participant and any covered dependents must be enrolled cannot be short-term, limited-duration insurance or consist solely of excepted benefits, if the HRA is subject to the Employee Retirement Income Security Act (ERISA), a statement that individual health insurance coverage in which the participant and any covered dependents are enrolled is not subject to ERISA, if the conditions under 29 CFR 2510.3-1(l) are satisfied, the date as of which coverage under the HRA may first become effective (both for participants whose coverage will become effective on the first day of the plan year and for participants whose HRA coverage may become effective at a later date), the dates on which the HRA plan year begins and ends, and the dates on which the amounts newly made available under the HRA will be made available.

(B) A statement of the right of the participant to opt out of and waive future reimbursements from the HRA, as set forth under paragraph (c)(4) of this section.

(C) A description of the potential availability of the premium tax credit if the participant opts out of and waives future reimbursements from the HRA and the HRA is not affordable for one or more months under 26 CFR

45 CFR Subtitle A (10-1-23 Edition)

1.36B-2(c)(5), a statement that even if the participant opts out of and waives future reimbursements from an HRA, the offer will prohibit the participant (and, potentially, the participant's dependents) from receiving a premium tax credit for the participant's coverage (or the dependent's coverage, if applicable) on an Exchange for any month that the HRA is affordable under 26 CFR 1.36B-2(c)(5), a statement describing how the participant may find assistance with determining affordability, a statement that, if the participant is a former employee, the offer of the HRA does not render the participant (or the participant's dependents, if applicable) ineligible for the premium tax credit regardless of whether it is affordable under 26 CFR 1.36B-2(c)(5), and a statement that if the participant or dependent is enrolled in Medicare, he or she is ineligible for the premium tax credit with regard to the offer or acceptance of the HRA;

(D) A statement that if the participant accepts the HRA, the participant may not claim a premium tax credit for the participant's Exchange coverage for any month the HRA may be used to reimburse medical care expenses of the participant, and a premium tax credit may not be claimed for the Exchange coverage of the participant's dependents for any month the HRA may be used to reimburse medical care expenses of the dependents.

(E) A statement that the participant must inform any Exchange to which the participant applies for advance payments of the premium tax credit of the availability of the HRA; the self-only HRA amount available for the HRA plan year (or the maximum dollar amount available for the plan year if the HRA provides for reimbursements up to a single dollar amount regardless of whether a participant has self-only or other than self-only coverage) as set forth in the written notice in accordance with paragraph (c)(6)(ii)(A) of this section; whether the HRA is also available to the participant's dependents and if so, which ones; the date as of which coverage under the HRA may first become effective; the date on which the plan year begins and the

date on which it ends; and whether the participant is a current employee or former employee.

(F) A statement that the participant should retain the written notice because it may be needed to determine whether the participant is allowed a premium tax credit on the participant's individual income tax return.

(G) A statement that the HRA may not reimburse any medical care expense unless the substantiation requirement set forth in paragraph (c)(5)(ii) of this section is satisfied and a statement that the participant must also provide the substantiation required by paragraph (c)(5)(i) of this section.

(H) A statement that if the individual health insurance coverage (or coverage under Medicare Part A and B or Medicare Part C) of a participant or dependent ceases, the HRA will not reimburse any medical care expenses that are incurred by the participant or dependent, as applicable, after the coverage ceases, and a statement that the participant must inform the HRA if the participant's or dependent's individual health insurance coverage (or coverage under Medicare Part A and B or Medicare Part C) is cancelled or terminated retroactively and the date on which the cancellation or termination is effective.

(I) The contact information (including a phone number) for an individual or a group of individuals who participants may contact in order to receive additional information regarding the HRA. The plan sponsor may determine which individual or group of individuals is best suited to be the specified contact.

(J) A statement of availability of a special enrollment period to enroll in or change individual health insurance coverage, through or outside of an Exchange, for the participant and any dependents who newly gain access to the HRA and are not already covered by the HRA.

(d) *Classes of employees*—(1) *In general.* This paragraph (d) sets forth the rules for determining classes of employees. Paragraph (d)(2) of this section sets forth the specific classes of employees; paragraph (d)(3) of this section sets forth a minimum class size require-

ment that applies in certain circumstances; paragraph (d)(4) of this section sets forth rules regarding the definition of "full-time employees," "part-time employees," and "seasonal employees"; paragraph (d)(5) of this section sets forth a special rule for new hires; and paragraph (d)(6) of this section addresses student premium reduction arrangements. For purposes of this section, including determining classes under this paragraph (d), the employer is the common law employer and is determined without regard to the rules under sections 414(b), (c), (m), and (o) of the Code that would treat the common law employer as a single employer with certain other entities.

(2) *List of classes.* Participants may be treated as belonging to a class of employees based on whether they are, or are not, included in the classes described in this paragraph (d)(2). If the individual coverage HRA is offered to former employees, former employees are considered to be in the same class in which they were included immediately before separation from service. Before each plan year, a plan sponsor must determine for the plan year which classes of employees it intends to treat separately and the definition of the relevant class(es) it will apply, to the extent these regulations permit a choice. After the classes and the definitions of the classes are established for a plan year, a plan sponsor may not make changes to the classes of employees or the definitions of those relevant classes with respect to that plan year.

(i) Full-time employees, defined at the election of the plan sponsor to mean either full-time employees under section 4980H of the Code (and 26 CFR 54.4980H-1(a)(21)) or employees who are not part-time employees (as described in 26 CFR 1.105-11(c)(2)(iii)(C));

(ii) Part-time employees, defined at the election of the plan sponsor to mean either employees who are not full-time employees under section 4980H of the Code (and under 26 CFR 54.4980H-1(a)(21) (which defines full-time employee)) or employees who are part-time employees as described in 26 CFR 1.105-11(c)(2)(iii)(C);

(iii) Employees who are paid on a salary basis;

§ 146.123

(iv) Non-salaried employees (such as, for example, hourly employees);

(v) Employees whose primary site of employment is in the same rating area as defined in §147.102(b) of this subchapter;

(vi) Seasonal employees, defined at the election of the plan sponsor to mean seasonal employees as described in either 26 CFR 54.4980H-1(a)(38) or 26 CFR 1.105-11(c)(2)(iii)(C);

(vii) Employees included in a unit of employees covered by a particular collective bargaining agreement (or an appropriate related participation agreement) in which the plan sponsor participates (as described in 26 CFR 1.105-11(c)(2)(iii)(D));

(viii) Employees who have not satisfied a waiting period for coverage (if the waiting period complies with §147.116 of this subchapter);

(ix) Non-resident aliens with no U.S.-based income (as described in 26 CFR 1.105-11(c)(2)(iii)(E));

(x) Employees who, under all the facts and circumstances, are employees of an entity that hired the employees for temporary placement at an entity that is not the common law employer of the employees and that is not treated as a single employer with the entity that hired the employees for temporary placement under section 414(b), (c), (m), or (o) of the Code; or

(xi) A group of participants described as a combination of two or more of the classes of employees set forth in paragraphs (d)(2)(i) through (x) of this section.

(3) *Minimum class size requirement*—(i) *In general.* If a class of employees is subject to the minimum class size requirement as set forth in this paragraph (d)(3), the class must consist of at least a minimum number of employees (as described in paragraphs (d)(3)(iii) and (iv) of this section), otherwise, the plan sponsor may not treat that class as a separate class of employees. Paragraph (d)(3)(ii) of this section sets forth the circumstances in which the minimum class size requirement applies to a class of employees, paragraph (d)(3)(iii) of this section sets forth the rules for determining the applicable class size minimum, and paragraph (d)(3)(iv) of this section sets forth the rules for a plan sponsor to de-

45 CFR Subtitle A (10-1-23 Edition)

termine if it satisfies the minimum class size requirement with respect to a class of employees.

(ii) *Circumstances in which minimum class size requirement applies.* (A) The minimum class size requirement applies only if a plan sponsor offers a traditional group health plan to one or more classes of employees and offers an individual coverage HRA to one or more other classes of employees.

(B) The minimum class size requirement does not apply to a class of employees offered a traditional group health plan or a class of employees offered no coverage.

(C) The minimum class size requirement applies to a class of employees offered an individual coverage HRA if the class is full-time employees, part-time employees, salaried employees, non-salaried employees, or employees whose primary site of employment is in the same rating area (described in paragraph (d)(2)(i), (ii), (iii), (iv), or (v) of this section, respectively, and referred to collectively as the applicable classes or individually as an applicable class), except that:

(1) In the case of the class of employees whose primary site of employment is in the same rating area (as described in paragraph (d)(2)(v) of this section), the minimum class size requirement does not apply if the geographic area defining the class is a State or a combination of two or more entire States; and

(2) In the case of the classes of employees that are full-time employees and part-time employees (as described in paragraphs (d)(2)(i) and (ii) of this section, respectively), the minimum class size requirement applies only to those classes (and the classes are only applicable classes) if the employees in one such class are offered a traditional group health plan while the employees in the other such class are offered an individual coverage HRA. In such a case, the minimum class size requirement applies only to the class offered an individual coverage HRA.

(D) A class of employees offered an individual coverage HRA is also subject to the minimum class size requirement if the class is a class of employees created by combining at least one of the

applicable classes (as defined in paragraph (d)(3)(ii)(C) of this section) with any other class, except that the minimum class size requirement shall not apply to a class that is the result of a combination of one of the applicable classes and a class of employees who have not satisfied a waiting period (as described in paragraph (d)(2)(viii) of this section).

(iii) *Determination of the applicable class size minimum*—(A) *In general.* The minimum number of employees that must be in a class of employees that is subject to the minimum class size requirement (the applicable class size minimum) is determined prior to the beginning of the plan year for each plan year of the individual coverage HRA and is:

(1) 10, for an employer with fewer than 100 employees;

(2) A number, rounded down to a whole number, equal to 10 percent of the total number of employees, for an employer with 100 to 200 employees; and

(3) 20, for an employer with more than 200 employees.

(B) *Determining employer size.* For purposes of this paragraph (d)(3), the number of employees of an employer is determined in advance of the plan year of the HRA based on the number of employees that the employer reasonably expects to employ on the first day of the plan year.

(iv) *Determining if a class satisfies the applicable class size minimum.* For purposes of this paragraph (d)(3), whether a class of employees satisfies the applicable class size minimum for a plan year of the individual coverage HRA is based on the number of employees in the class offered the individual coverage HRA as of the first day of the plan year. Therefore, this determination is not based on the number of employees that actually enroll in the individual coverage HRA, and this determination is not affected by changes in the number of employees in the class during the plan year.

(4) *Consistency requirement.* For any plan year, a plan sponsor may define “full-time employee,” “part-time employee,” and “seasonal employee” in accordance with the relevant provisions of sections 105(h) or 4980H of the

Code, as set forth in paragraphs (d)(2)(i), (ii), and (vi) of this section, if:

(i) To the extent applicable under the HRA for the plan year, each of the three classes of employees are defined in accordance with section 105(h) of the Code or each of the three classes of employees are defined in accordance with section 4980H of the Code for the plan year; and

(ii) The HRA plan document sets forth the applicable definitions prior to the beginning of the plan year to which the definitions will apply.

(5) *Special rule for new hires*—(i) *In general.* Notwithstanding paragraphs (c)(2) and (3) of this section, a plan sponsor that offers a traditional group health plan to a class of employees may prospectively offer the employees in that class of employees who are hired on or after a certain future date (the new hire date) an individual coverage HRA (with this group of employees referred to as the new hire subclass), while continuing to offer employees in that class of employees who are hired before the new hire date a traditional group health plan (with the rule set forth in this sentence referred to as the special rule for new hires). For the new hire subclass, the individual coverage HRA must be offered on the same terms to all participants within the subclass, in accordance with paragraph (c)(3) of this section. In accordance with paragraph (c)(2) of this section, a plan sponsor may not offer a choice between an individual coverage HRA or a traditional group health plan to any employee in the new hire subclass or to any employee in the class who is not a member of the new hire subclass.

(ii) *New hire date.* A plan sponsor may set the new hire date for a class of employees prospectively as any date on or after January 1, 2020. A plan sponsor may set different new hire dates prospectively for separate classes of employees.

(iii) *Discontinuation of use of special rule for new hires and multiple applications of the special rule for new hires.* A plan sponsor may discontinue use of the special rule for new hires at any time for any class of employees. In that case, the new hire subclass is no longer treated as a separate subclass of

§ 146.123

employees. In the event a plan sponsor applies the special rule for new hires to a class of employees and later discontinues use of the rule to the class of employees, the plan sponsor may later apply the rule if the application of the rule would be permitted under the rules for initial application of the special rule for new hires. If a plan sponsor, in accordance with the requirements for the special rule for new hires, applies the rule to a class of employees subsequent to any prior application and discontinuance of the rule to that class, the new hire date must be prospective.

(iv) *Application of the minimum class size requirement under the special rule for new hires.* The minimum class size requirement set forth in paragraph (d)(3) of this section does not apply to the new hire subclass. However, if a plan sponsor subdivides the new hire subclass subsequent to creating the new hire subclass, the minimum class size requirement set forth in paragraph (d)(3) of this section applies to any class of employees created by subdividing the new hire subclass, if the minimum class size requirement otherwise applies.

(6) *Student employees offered student premium reduction arrangements.* For purposes of this section, if an institution of higher education (as defined in the Higher Education Act of 1965) offers a student employee a student premium reduction arrangement, the employee is not considered to be part of the class of employees to which the employee would otherwise belong. For the purpose of this paragraph (d)(6) and paragraph (f)(1) of this section, a student premium reduction arrangement is defined as any program offered by an institution of higher education under which the cost of insured or self-insured student health coverage is reduced for certain students through a credit, offset, reimbursement, stipend or similar arrangement. A student employee offered a student premium reduction arrangement is also not counted for purposes of determining the applicable class size minimum under paragraph (d)(3)(iii) of this section. If a student employee is not offered a student premium reduction arrangement (including if the student employee is

45 CFR Subtitle A (10–1–23 Edition)

offered an individual coverage HRA instead), the student employee is considered to be part of the class of employees to which the employee otherwise belongs and is counted for purposes of determining the applicable class size minimum under paragraph (d)(3)(iii) of this section.

(e) *Integration of Individual Coverage HRAs with Medicare—(1) General rule.* An individual coverage HRA will be considered to be integrated with Medicare (and deemed to comply with PHS Act sections 2711 and 2713 and §147.126(d)(4) of this subchapter), provided that the conditions of paragraph (c) of this section are satisfied, subject to paragraph (e)(2) of this section. Nothing in this section requires that a participant and his or her dependents all have the same type of coverage; therefore, an individual coverage HRA may be integrated with Medicare for some individuals and with individual health insurance coverage for others, including, for example, a participant enrolled in Medicare Part A and B or Part C and his or her dependents enrolled in individual health insurance coverage.

(2) *Application of conditions in paragraph (c) of this section—(i) In general.* Except as provided in paragraph (e)(2)(ii) of this section, in applying the conditions of paragraph (c) of this section with respect to integration with Medicare, a reference to “individual health insurance coverage” is deemed to refer to coverage under Medicare Part A and B or Part C. References in this section to integration of an HRA with Medicare refer to integration of an individual coverage HRA with Medicare Part A and B or Part C.

(ii) *Exceptions.* For purposes of the statement regarding ERISA under the notice content element under paragraph (c)(6)(ii)(A) of this section and the statement regarding the availability of a special enrollment period under the notice content element under paragraph (c)(6)(ii)(J) of this section, the term individual health insurance coverage means only individual health insurance coverage and does not also mean coverage under Medicare Part A and B or Part C.

(f) *Examples—(1) Examples regarding classes and the minimum class size requirement.* The following examples illustrate the provisions of paragraph (c)(3) of this section, taking into account the provisions of paragraphs (d)(1) through (4) and (d)(6) of this section. In each example, the HRA is an individual coverage HRA that may reimburse any medical care expenses, including premiums for individual health insurance coverage and it is assumed that no participants or dependents are Medicare beneficiaries.

(i) *Example 1: Collectively bargained employees offered traditional group health plan; non-collectively bargained employees offered HRA—(A) Facts.* For 2020, Plan Sponsor A offers its employees covered by a collective bargaining agreement a traditional group health plan (as required by the collective bargaining agreement) and all other employees (non-collectively bargained employees) each an HRA on the same terms.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(i) (*Example 1*) because collectively bargained and non-collectively bargained employees may be treated as different classes of employees, one of which may be offered a traditional group health plan and the other of which may be offered an individual coverage HRA, and Plan Sponsor A offers the HRA on the same terms to all participants who are non-collectively bargained employees. The minimum class size requirement does not apply to this paragraph (f)(1)(i) (*Example 1*) even though Plan Sponsor A offers one class a traditional group health plan and one class the HRA because collectively bargained and non-collectively bargained employees are not applicable classes that are subject to the minimum class size requirement.

(ii) *Example 2: Collectively bargained employees in one unit offered traditional group health plan and in another unit offered HRA—(A) Facts.* For 2020, Plan Sponsor B offers its employees covered by a collective bargaining agreement with Local 100 a traditional group health plan (as required by the collective bargaining agreement), and its employees covered by a collective bar-

gaining agreement with Local 200 each an HRA on the same terms (as required by the collective bargaining agreement).

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(ii) (*Example 2*) because the employees covered by the collective bargaining agreements with the two separate bargaining units (Local 100 and Local 200) may be treated as two different classes of employees and Plan Sponsor B offers an HRA on the same terms to the participants covered by the agreement with Local 200. The minimum class size requirement does not apply to this paragraph (f)(1)(ii) (*Example 2*) even though Plan Sponsor B offers the Local 100 employees a traditional group health plan and the Local 200 employees an HRA because collectively bargained employees are not applicable classes that are subject to the minimum class size requirement.

(iii) *Example 3: Employees in a waiting period offered no coverage; other employees offered an HRA—(A) Facts.* For 2020, Plan Sponsor C offers its employees who have completed a waiting period that complies with the requirements for waiting periods in §147.116 of this subchapter each an HRA on the same terms and does not offer coverage to its employees who have not completed the waiting period.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(iii) (*Example 3*) because employees who have completed a waiting period and employees who have not completed a waiting period may be treated as different classes and Plan Sponsor C offers the HRA on the same terms to all participants who have completed the waiting period. The minimum class size requirement does not apply to this paragraph (f)(1)(iii) (*Example 3*) because Plan Sponsor C does not offer at least one class of employees a traditional group health plan and because the class of employees who have not completed a waiting period and the class of employees who have completed a waiting period are not applicable classes that are subject to the minimum class size requirement.

(iv) *Example 4: Employees in a waiting period offered an HRA; other employees offered a traditional group health plan—* (A) *Facts.* For 2020, Plan Sponsor D offers its employees who have completed a waiting period that complies with the requirements for waiting periods in § 147.116 of this subchapter a traditional group health plan and offers its employees who have not completed the waiting period each an HRA on the same terms.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(iv) (*Example 4*) because employees who have completed a waiting period and employees who have not completed a waiting period may be treated as different classes and Plan Sponsor D offers an HRA on the same terms to all participants who have not completed the waiting period. The minimum class size requirement does not apply to this paragraph (f)(1)(iv) (*Example 4*) even though Plan Sponsor D offers employees who have completed a waiting period a traditional group health plan and employees who have not completed a waiting period an HRA because the class of employees who have not completed a waiting period is not an applicable class that is subject to the minimum class size requirement (nor is the class made up of employees who have completed the waiting period).

(v) *Example 5: Staffing firm employees temporarily placed with customers offered an HRA; other employees offered a traditional group health plan—* (A) *Facts.* Plan Sponsor E is a staffing firm that places certain of its employees on temporary assignments with customers that are not the common law employers of Plan Sponsor E's employees or treated as a single employer with Plan Sponsor E under section 414(b), (c), (m), or (o) of the Code (unrelated entities); other employees work in Plan Sponsor E's office managing the staffing business (non-temporary employees). For 2020, Plan Sponsor E offers its employees who are on temporary assignments with customers each an HRA on the same terms. All other employees are offered a traditional group health plan.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph

(f)(1)(v) (*Example 5*) because the employees who are hired for temporary placement at an unrelated entity and non-temporary employees of Plan Sponsor E may be treated as different classes of employees and Plan Sponsor E offers an HRA on the same terms to all participants temporarily placed with customers. The minimum class size requirement does not apply to this paragraph (f)(1)(v) (*Example 5*) even though Plan Sponsor E offers one class a traditional group health plan and one class the HRA because the class of employees hired for temporary placement is not an applicable class that is subject to the minimum class size requirement (nor is the class made up of non-temporary employees).

(vi) *Example 6: Staffing firm employees temporarily placed with customers in rating area 1 offered an HRA; other employees offered a traditional group health plan—* (A) *Facts.* The facts are the same as in paragraph (f)(1)(v) of this section (*Example 5*), except that Plan Sponsor E has work sites in rating area 1 and rating area 2, and it offers its 10 employees on temporary assignments with a work site in rating area 1 an HRA on the same terms. Plan Sponsor E has 200 other employees in rating areas 1 and 2, including its non-temporary employees in rating areas 1 and 2 and its employees on temporary assignments with a work site in rating area 2, all of whom are offered a traditional group health plan.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is not satisfied in this paragraph (f)(1)(vi) (*Example 6*) because, even though the employees who are temporarily placed with customers generally may be treated as employees of a different class, because Plan Sponsor E is also using a rating area to identify the class offered the HRA (which is an applicable class for the minimum class size requirement) and is offering one class the HRA and another class the traditional group health plan, the minimum class size requirement applies to the class offered the HRA, and the class offered the HRA fails to satisfy the minimum class size requirement. Because Plan Sponsor E employs 210 employees, the applicable

class size minimum is 20, and the HRA is offered to only 10 employees.

(vii) *Example 7: Employees in State 1 offered traditional group health plan; employees in State 2 offered HRA—(A) Facts.* Plan Sponsor F employs 45 employees whose work site is in State 1 and 7 employees whose primary site of employment is in State 2. For 2020, Plan Sponsor F offers its 45 employees in State 1 a traditional group health plan, and each of its 7 employees in State 2 an HRA on the same terms.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(vii) (*Example 7*) because Plan Sponsor F offers the HRA on the same terms to all employees with a work site in State 2 and that class is a permissible class under paragraph (d) of this section. This is because employees whose work sites are in different rating areas may be considered different classes and a plan sponsor may create a class of employees by combining classes of employees, including by combining employees whose work site is in one rating area with employees whose work site is in a different rating area, or by combining all employees whose work site is in a state. The minimum class size requirement does not apply to this paragraph (f)(1)(vii) (*Example 7*) because the minimum class size requirement does not apply if the geographic area defining a class of employees is a state or a combination of two or more entire states.

(viii) *Example 8: Full-time seasonal employees offered HRA; all other full-time employees offered traditional group health plan; part-time employees offered no coverage—(A) Facts.* Plan Sponsor G employs 6 full-time seasonal employees, 75 full-time employees who are not seasonal employees, and 5 part-time employees. For 2020, Plan Sponsor G offers each of its 6 full-time seasonal employees an HRA on the same terms, its 75 full-time employees who are not seasonal employees a traditional group health plan, and offers no coverage to its 5 part-time employees.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(viii) (*Example 8*) because full-time seasonal employees and full-time em-

ployees who are not seasonal employees may be considered different classes and Plan Sponsor G offers the HRA on the same terms to all full-time seasonal employees. The minimum class size requirement does not apply to the class offered the HRA in this paragraph (f)(1)(viii) (*Example 8*) because part-time employees are not offered coverage and full-time employees are not an applicable class subject to the minimum class size requirement if part-time employees are not offered coverage.

(ix) *Example 9: Full-time employees in rating area 1 offered traditional group health plan; full-time employees in rating area 2 offered HRA; part-time employees offered no coverage—(A) Facts.* Plan Sponsor H employs 17 full-time employees and 10 part-time employees whose work site is in rating area 1 and 552 full-time employees whose work site is in rating area 2. For 2020, Plan Sponsor H offers its 17 full-time employees in rating area 1 a traditional group health plan and each of its 552 full-time employees in rating area 2 an HRA on the same terms. Plan Sponsor H offers no coverage to its 10 part-time employees in rating area 1. Plan Sponsor H reasonably expects to employ 569 employees on the first day of the HRA plan year.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(ix) (*Example 9*) because employees whose work sites are in different rating areas may be considered different classes and Plan Sponsor H offers the HRA on the same terms to all full-time employees in rating area 2. The minimum class size requirement applies to the class offered the HRA in this paragraph (f)(1)(ix) (*Example 9*) because the minimum class size requirement applies to a class based on a geographic area unless the geographic area is a state or a combination of two or more entire states. However, the minimum class size requirement applies only to the class offered the HRA, and Plan Sponsor H offers the HRA to the 552 full-time employees in rating area 2 on the first day of the plan year, satisfying the minimum class size requirement (because the applicable class size minimum for Plan Sponsor H is 20).

(x) *Example 10: Employees in rating area 1 offered HRA; employees in rating area 2 offered traditional group health plan—(A) Facts.* The facts are the same as in paragraph (f)(1)(ix) of this section (*Example 9*) except that Plan Sponsor H offers its 17 full-time employees in rating area 1 the HRA and offers its 552 full-time employees in rating area 2 the traditional group health plan.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is not satisfied in this paragraph (f)(1)(x) (*Example 10*) because, even though employees whose work sites are in different rating areas generally may be considered different classes and Plan Sponsor H offers the HRA on the same terms to all participants in rating area 1, the HRA fails to satisfy the minimum class size requirement. Specifically, the minimum class size requirement applies to this paragraph (f)(1)(x) (*Example 10*) because the minimum class size requirement applies to a class based on a geographic area unless the geographic area is a state or a combination of two or more entire states. Further, the applicable class size minimum for Plan Sponsor H is 20 employees, and the HRA is only offered to the 17 full-time employees in rating area 1 on the first day of the HRA plan year.

(xi) *Example 11: Employees in State 1 and rating area 1 of State 2 offered HRA; employees in all other rating areas of State 2 offered traditional group health plan—(A) Facts.* For 2020, Plan Sponsor I offers an HRA on the same terms to a total of 200 employees it employs with work sites in State 1 and in rating area 1 of State 2. Plan Sponsor I offers a traditional group health plan to its 150 employees with work sites in other rating areas in State 2. Plan Sponsor I reasonably expects to employ 350 employees on the first day of the HRA plan year.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(xi) (*Example 11*). Plan Sponsor I may treat all of the employees with a work site in State 1 and rating area 1 of State 2 as a class of employees because employees whose work sites are in different rating areas may be considered different classes and a plan sponsor

may create a class of employees by combining classes of employees, including by combining employees whose work site is in one rating area with a class of employees whose work site is in a different rating area. The minimum class size requirement applies to the class of employees offered the HRA (made up of employees in State 1 and in rating area 1 of State 2) because the minimum class size requirement applies to a class based on a geographic area unless the geographic area is a state or a combination of two or more entire states. In this case, the class is made up of a state plus a rating area which is not the entire state. However, this class satisfies the minimum class size requirement because the applicable class size minimum for Plan Sponsor I is 20, and Plan Sponsor I offered the HRA to 200 employees on the first day of the plan year.

(xii) *Example 12: Salaried employees offered a traditional group health plan; hourly employees offered an HRA—(A) Facts.* Plan Sponsor J has 163 salaried employees and 14 hourly employees. For 2020, Plan Sponsor J offers its 163 salaried employees a traditional group health plan and each of its 14 hourly employees an HRA on the same terms. Plan Sponsor J reasonably expects to employ 177 employees on the first day of the HRA plan year.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is not satisfied in this paragraph (f)(1)(xii) (*Example 12*) because, even though salaried and hourly employees generally may be considered different classes and Plan Sponsor J offers the HRA on the same terms to all hourly employees, the HRA fails to satisfy the minimum class size requirement. Specifically, the minimum class size requirement applies in this paragraph (f)(1)(xii) (*Example 12*) because employees who are paid on a salaried basis and employees who are not paid on a salaried basis are applicable classes subject to the minimum class size requirement. Because Plan Sponsor J reasonably expects to employ between 100 and 200 employees on the first day of the plan year, the applicable class size minimum is 10 percent, rounded down to a whole number. Ten percent of 177 total employees, rounded down

to a whole number is 17, and the HRA is offered to only 14 hourly employees.

(xiii) *Example 13: Part-time employees and full-time employees offered different HRAs; no traditional group health plan offered*—(A) *Facts*. Plan Sponsor K has 50 full-time employees and 7 part-time employees. For 2020, Plan Sponsor K offers its 50 full-time employees \$2,000 each in an HRA otherwise provided on the same terms and each of its 7 part-time employees \$500 in an HRA otherwise provided on the same terms. Plan Sponsor K reasonably expects to employ 57 employees on the first day of the HRA plan year.

(B) *Conclusion*. The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(xiii) (*Example 13*) because full-time employees and part-time employees may be treated as different classes and Plan Sponsor K offers an HRA on the same terms to all the participants in each class. The minimum class size requirement does not apply to either the full-time class or the part-time class because (although in certain circumstances the minimum class size requirement applies to a class of full-time employees and a class of part-time employees) Plan Sponsor K does not offer any class of employees a traditional group health plan, and the minimum class size requirement applies only when, among other things, at least one class of employees is offered a traditional group health plan while another class is offered an HRA.

(xiv) *Example 14: No employees offered an HRA*—(A) *Facts*. The facts are the same facts as in paragraph (f)(1)(xiii) of this section (*Example 13*), except that Plan Sponsor K offers its full-time employees a traditional group health plan and does not offer any group health plan (either a traditional group health plan or an HRA) to its part-time employees.

(B) *Conclusion*. The regulations set forth under this section do not apply to Plan Sponsor K because Plan Sponsor K does not offer an individual coverage HRA to any employee.

(xv) *Example 15: Full-time employees offered traditional group health plan; part-time employees offered HRA*—(A) *Facts*. The facts are the same as in paragraph (f)(1)(xiii) of this section (*Example 13*),

except that Plan Sponsor K offers its full-time employees a traditional group health plan and offers each of its part-time employees \$500 in an HRA and otherwise on the same terms.

(B) *Conclusion*. The same terms requirement of paragraph (c)(3) of this section is not satisfied in this paragraph (f)(1)(xv) (*Example 15*) because, even though the full-time employees and the part-time employees generally may be treated as different classes, in this paragraph (f)(1)(xv) (*Example 15*), the minimum class size requirement applies to the part-time employees, and it is not satisfied. Specifically, the minimum class size requirement applies to the part-time employees because that requirement applies to an applicable class offered an HRA when one class is offered a traditional group health plan while another class is offered an HRA, and to the part-time and full-time employee classes when one of those classes is offered a traditional group health plan while the other is offered an HRA. Because Plan Sponsor K reasonably expects to employ fewer than 100 employees on the first day of the HRA plan year, the applicable class size minimum for Plan Sponsor K is 10 employees, but Plan Sponsor K offered the HRA only to its 7 part-time employees.

(xvi) *Example 16: Satisfying minimum class size requirement based on employees offered HRA*—(A) *Facts*. Plan Sponsor L employs 78 full-time employees and 12 part-time employees. For 2020, Plan Sponsor L offers its 78 full-time employees a traditional group health plan and each of its 12 part-time employees an HRA on the same terms. Only 6 part-time employees enroll in the HRA. Plan Sponsor L reasonably expects to employ fewer than 100 employees on the first day of the HRA plan year.

(B) *Conclusion*. The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(xvi) (*Example 16*) because full-time employees and part-time employees may be treated as different classes, Plan Sponsor L offers an HRA on the same terms to all the participants in the part-time class, and the minimum class size requirement is satisfied. Specifically, whether a class of employees

satisfies the applicable class size minimum is determined as of the first day of the plan year based on the number of employees in a class that is offered an HRA, not on the number of employees who enroll in the HRA. The applicable class size minimum for Plan Sponsor L is 10 employees, and Plan Sponsor L offered the HRA to its 12 part-time employees.

(xvii) *Example 17: Student employees offered student premium reduction arrangements and same terms requirement—(A) Facts.* Plan Sponsor M is an institution of higher education that offers each of its part-time employees an HRA on the same terms, except that it offers its part-time employees who are student employees a student premium reduction arrangement, and the student premium reduction arrangement provides different amounts to different part-time student employees.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(1)(xvii) (*Example 17*) because Plan Sponsor M offers the HRA on the same terms to its part-time employees who are not students and because the part-time student employees offered a student premium reduction arrangement (and their varying HRAs) are not taken into account as part-time employees for purposes of determining whether a class of employees is offered an HRA on the same terms.

(xiii) *Example 18: Student employees offered student premium reduction arrangements and minimum class size requirement—(A) Facts.* Plan Sponsor N is an institution of higher education with 25 hourly employees. Plan Sponsor N offers 15 of its hourly employees, who are student employees, a student premium reduction arrangement and it wants to offer its other 10 hourly employees an HRA for 2022. Plan Sponsor N offers its salaried employees a traditional group health plan. Plan Sponsor N reasonably expects to have 250 employees on the first day of the 2022 HRA plan year, 15 of which will have offers of student premium reduction arrangements.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is not satisfied in this paragraph (f)(1)(xviii) (*Example 18*). The minimum class size requirement will

apply to the class of hourly employees to which Plan Sponsor N wants to offer the HRA because Plan Sponsor N offers a class of employees a traditional group health plan and another class the HRA, and the minimum class size requirement generally applies to a class of hourly employees offered an HRA. Plan Sponsor N's applicable class size minimum is 20 because Plan Sponsor N reasonably expects to employ 235 employees on the first day of the plan year (250 employees minus 15 employees receiving a student premium reduction arrangement). Plan Sponsor N may not offer the HRA to its hourly employees because the 10 employees offered the HRA as of the first day of the plan year does not satisfy the applicable class size minimum.

(2) *Examples regarding special rule for new hires.* The following examples illustrate the provisions of paragraph (c)(3) of this section, taking into account the provisions of paragraph (d) of this section, in particular the special rule for new hires under paragraph (d)(5) of this section. In each example, the HRA is an individual coverage HRA that has a calendar year plan year and may reimburse any medical care expenses, including premiums for individual health insurance coverage. The examples also assume that no participants or dependents are Medicare beneficiaries.

(i) *Example 1: Application of special rule for new hires to all employees—(A) Facts.* For 2021, Plan Sponsor A offers all employees a traditional group health plan. For 2022, Plan Sponsor A offers all employees hired on or after January 1, 2022, an HRA on the same terms and continues to offer the traditional group health plan to employees hired before that date. On the first day of the 2022 plan year, Plan Sponsor A has 2 new hires who are offered the HRA.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(2)(i) (*Example 1*) because, under the special rule for new hires in paragraph (d)(5) of this section, the employees newly hired on and after January 1, 2022, may be treated as a new hire subclass, Plan Sponsor A offers the HRA on the same terms to all participants

in the new hire subclass, and the minimum class size requirement does not apply to the new hire subclass.

(ii) *Example 2: Application of special rule for new hires to full-time employees—*(A) *Facts.* For 2021, Plan Sponsor B offers a traditional group health plan to its full-time employees and does not offer any coverage to its part-time employees. For 2022, Plan Sponsor B offers full-time employees hired on or after January 1, 2022, an HRA on the same terms, continues to offer its full-time employees hired before that date a traditional group health plan, and continues to offer no coverage to its part-time employees. On the first day of the 2022 plan year, Plan Sponsor B has 2 new hire, full-time employees who are offered the HRA.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(2)(ii) (*Example 2*) because, under the special rule for new hires in paragraph (d)(5) of this section, the full-time employees newly hired on and after January 1, 2022, may be treated as a new hire subclass and Plan Sponsor B offers the HRA on the same terms to all participants in the new hire subclass. The minimum class size requirement does not apply to the new hire subclass.

(iii) *Example 3: Special rule for new hires impermissibly applied retroactively—*(A) *Facts.* For 2025, Plan Sponsor C offers a traditional group health plan to its full-time employees. For 2026, Plan Sponsor C wants to offer an HRA to its full-time employees hired on and after January 1, 2023, while continuing to offer a traditional group health plan to its full-time employees hired before January 1, 2023.

(B) *Conclusion.* The special rule for new hires under paragraph (d)(5) of this section does not apply in this paragraph (f)(2)(iii) (*Example 3*) because the rule must be applied prospectively. That is, Plan Sponsor C may not, in 2026, choose to apply the special rule for new hires retroactive to 2023. If Plan Sponsor C were to offer an HRA in this way, it would fail to satisfy the conditions under paragraphs (c)(2) and (3) of this section because the new hire subclass would not be treated as a subclass for purposes of applying those rules and, therefore, all full-time em-

ployees would be treated as one class to which either a traditional group health plan or an HRA could be offered, but not both.

(iv) *Example 4: Permissible second application of the special rule for new hires to the same class of employees—*(A) *Facts.* For 2021, Plan Sponsor D offers all of its full-time employees a traditional group health plan. For 2022, Plan Sponsor D applies the special rule for new hires and offers an HRA on the same terms to all employees hired on and after January 1, 2022, and continues to offer a traditional group health plan to full-time employees hired before that date. For 2025, Plan Sponsor D discontinues use of the special rule for new hires, and again offers all full-time employees a traditional group health plan. In 2030, Plan Sponsor D decides to apply the special rule for new hires to the full-time employee class again, offering an HRA to all full-time employees hired on and after January 1, 2030, on the same terms, while continuing to offer employees hired before that date a traditional group health plan.

(B) *Conclusion.* Plan Sponsor D has permissibly applied the special rule for new hires and is in compliance with the requirements of paragraphs (c)(2) and (3) of this section.

(v) *Example 5: Impermissible second application of the special rule for new hires to the same class of employees—*(A) *Facts.* The facts are the same as in paragraph (f)(2)(iv) of this section (*Example 4*), except that for 2025, Plan Sponsor D discontinues use of the special rule for new hires by offering all full-time employees an HRA on the same terms. Further, for 2030, Plan Sponsor D wants to continue to offer an HRA on the same terms to all full-time employees hired before January 1, 2030, and to offer all full-time employees hired on or after January 1, 2030, an HRA in a different amount.

(B) *Conclusion.* Plan Sponsor D may not apply the special rule for new hires for 2030 to the class of full-time employees being offered an HRA because the special rule for new hires may only be applied to a class that is being offered a traditional group health plan.

(vi) *Example 6: New full-time employees offered different HRAs in different rating areas—*(A) *Facts.* Plan Sponsor E has

§ 146.123

work sites in rating area 1, rating area 2, and rating area 3. For 2021, Plan Sponsor E offers its full-time employees a traditional group health plan. For 2022, Plan Sponsor E offers its full-time employees hired on or after January 1, 2022, in rating area 1 an HRA of \$3,000, its full-time employees hired on or after January 1, 2022, in rating area 2 an HRA of \$5,000, and its full-time employees hired on or after January 1, 2022, in rating area 3 an HRA of \$7,000. Within each class offered an HRA, Plan Sponsor E offers the HRA on the same terms. Plan Sponsor E offers its full-time employees hired prior to January 1, 2022, in each of those classes a traditional group health plan. On the first day of the 2022 plan year, there is one new hire, full-time employee in rating area 1, three new hire, full-time employees in rating area 2, and 10 new hire-full-time employees in rating area 3.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(2)(vi) (*Example 6*) because, under the special rule for new hires in paragraph (d)(5) of this section, the full-time employees in each of the three rating areas newly hired on and after January 1, 2022, may be treated as three new hire subclasses and Plan Sponsor E offers the HRA on the same terms to all participants in the new hire subclasses. Further, the minimum class size requirement does not apply to the new hire subclasses.

(vii) *Example 7: New full-time employee class subdivided based on rating area—*
(A) *Facts.* Plan Sponsor F offers its full-time employees hired on or after January 1, 2022, an HRA on the same terms and it continues to offer its full-time employees hired before that date a traditional group health plan. Plan Sponsor F offers no coverage to its part-time employees. For the 2025 plan year, Plan Sponsor F wants to subdivide the full-time new hire subclass so that those whose work site is in rating area 1 will be offered the traditional group health plan and those whose work site is in rating area 2 will continue to receive the HRA. Plan Sponsor F reasonably expects to employ 219 employees on January 1, 2025. As of January 1, 2025, Plan Sponsor F

45 CFR Subtitle A (10–1–23 Edition)

has 15 full-time employees whose work site is in rating area 2 and who were hired between January 1, 2022, and January 1, 2025.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is not satisfied in this paragraph (f)(2)(vii) (*Example 7*) because the new hire subclass has been subdivided in a manner that is subject to the minimum class size requirement, and the class offered the HRA fails to satisfy the minimum class size requirement. Specifically, once the new hire subclass is subdivided the general rules for applying the minimum class size requirement apply to the employees offered the HRA in the new hire subclass. In this case, because the subdivision of the new hire full-time subclass is based on rating areas; a class based on rating areas is an applicable class subject to the minimum class size requirement; and the employees in one rating area are to be offered the HRA, while the employees in the other rating area are offered the traditional group health plan, the minimum class size requirement would apply on and after the date of the subdivision. Further, the minimum class size requirement would not be satisfied, because the applicable class size minimum for Plan Sponsor F would be 20, and only 15 employees in rating area 2 would be offered the HRA.

(viii) *Example 8: New full-time employee class subdivided based on state—*
(A) *Facts.* The facts are the same as in paragraph (f)(2)(vii) of this section (*Example 7*), except that for the 2025 plan year, Plan Sponsor F intends to subdivide the new hire, full-time class so that those in State 1 will be offered the traditional group health plan and those in State 2 will each be offered an HRA on the same terms.

(B) *Conclusion.* The same terms requirement of paragraph (c)(3) of this section is satisfied in this paragraph (f)(2)(viii) (*Example 8*) because even though the new hire subclass has been subdivided, it has been subdivided in a manner that is not subject to the minimum class size requirement as the subdivision is based on the entire state.

(ix) *Example 9: New full-time employees and part-time employees offered HRA—*
(A) *Facts.* In 2021, Plan Sponsor G offers its full-time employees a traditional

group health plan and does not offer coverage to its part-time employees. For the 2022 plan year, Plan Sponsor G offers its full-time employees hired on or after January 1, 2022, and all of its part-time employees, including those hired before January 1, 2022, and those hired on and after January 1, 2022, an HRA on the same terms, and it continues to offer its full-time employees hired before January 1, 2022, a traditional group health plan.

(B) *Conclusion.* The minimum class size requirement applies to the part-time employees offered the HRA in 2022 because the class is being offered an HRA; the special rule for new hires does not apply (because this class was not previously offered a traditional group health plan) and so it is not a new hire subclass exempt from the minimum class size requirement; another class of employees (that is, full-time hired before January 1, 2022) are being offered a traditional group health plan; and the part-time employee class is generally an applicable classes that is subject to the minimum class size requirement. However, because the full-time, new hire subclass is based on the special rule for new hires, the minimum class size requirement does not apply to full-time new hires offered an HRA in 2022.

(g) *Applicability date.* This section applies to plan years beginning on or after January 1, 2020.

[84 FR 29014, June 20, 2019]

§ 146.125 Applicability dates.

Section 144.103, §§146.111 through 146.119, 146.143, and 146.145 are applicable for plan years beginning on or after July 1, 2005. Until the applicability date for this regulation, plans and issuers are required to continue to comply with the corresponding sections of 45 CFR parts 144 and 146, contained in the 45 CFR, parts 1 to 199, edition revised as of October 1, 2004. Notwithstanding the previous sentence, the definition of “short-term, limited-duration insurance” in §144.103 of this subchapter applies October 2, 2018.

[69 FR 78797, Dec. 30, 2004; 70 FR 21147, Apr. 25, 2005, as amended at 81 FR 75326, Oct. 31, 2016; 83 FR 38243, Aug. 3, 2018]

Subpart C—Requirements Related to Benefits

§ 146.130 Standards relating to benefits for mothers and newborns.

(a) *Hospital length of stay*—(1) *General rule.* Except as provided in paragraph (a)(5) of this section, a group health plan, or a health insurance issuer offering group health insurance coverage, that provides benefits for a hospital length of stay in connection with childbirth for a mother or her newborn may not restrict benefits for the stay to less than—

(i) 48 hours following a vaginal delivery; or

(ii) 96 hours following a delivery by cesarean section.

(2) *When stay begins*—(i) *Delivery in a hospital.* If delivery occurs in a hospital, the hospital length of stay for the mother or newborn child begins at the time of delivery (or in the case of multiple births, at the time of the last delivery).

(ii) *Delivery outside a hospital.* If delivery occurs outside a hospital, the hospital length of stay begins at the time the mother or newborn is admitted as a hospital inpatient in connection with childbirth. The determination of whether an admission is in connection with childbirth is a medical decision to be made by the attending provider.

(3) *Examples.* The rules of paragraphs (a)(1) and (2) of this section are illustrated by the following examples. In each example, the group health plan provides benefits for hospital lengths of stay in connection with childbirth and is subject to the requirements of this section, as follows:

Example 1. (i) *Facts.* A pregnant woman covered under a group health plan goes into labor and is admitted to the hospital at 10 p.m. on June 11. She gives birth by vaginal delivery at 6 a.m. on June 12.

(ii) *Conclusion.* In this *Example 1*, the 48-hour period described in paragraph (a)(1)(i) of this section ends at 6 a.m. on June 14.

Example 2. (i) *Facts.* A woman covered under a group health plan gives birth at home by vaginal delivery. After the delivery, the woman begins bleeding excessively in connection with the childbirth and is admitted to the hospital for treatment of the excessive bleeding at 7 p.m. on October 1.
