As used in this part—

Market research means a review of existing systems, subsystems, capabilities, and technologies that are available or could be made available to meet the needs of DoD in whole or in part. The review shall include, at a minimum, contacting knowledgeable individuals in Government and industry regarding existing market capabilities and pricing information, and may include any of the techniques for conducting market research provided in FAR 10.002(b)(2) (section 855 of the National Defense Authorization Act for Fiscal Year 2016 (Pub. Subpart 212.1—Acquisition of Commercial Products and Commercial Services

SOURCE: 73 FR 4114, Jan. 24, 2008, unless otherwise noted.

212.102 Applicability.

(a)(i) *Use of FAR part 12 procedures.* Use of FAR part 12 procedures is based on—

(A) A determination that an item is a commercial product or commercial

212.102

service (see paragraph (a)(iii) of this section); or

(B) Applicability of one of the following statutes that provide for treatment as a commercial product or commercial service and use of FAR part 12 procedures, even though the item may not meet the definition of “commercial product” or “commercial service” at FAR 2.101 and does not require a commercial product or commercial service determination:

(1) 41 U.S.C. 1903—Supplies or services to be used to facilitate defense against or recovery from cyber, nuclear, biological, chemical, or radiological attack pursuant to FAR 12.102(f).

(2) 10 U.S.C. 3457 —Supplies or services from nontraditional defense contractors pursuant to 212.102(a)(iv).

(3) 10 U.S.C. 3458—Supplies or services resulting from a commercial solutions opening pursuant to subpart 212.70.

(ii) *Prior use of FAR part 12 procedures.*

(A) Pursuant to 10 U.S.C. 3456(c), except as provided in paragraph (a)(ii)(B) of this section or unless the item was acquired pursuant to paragraph (a)(1)(B) of this section, if the Commercial Item Database (for website see PGI 212.102(a)(iii)(A)(I)) contains a prior commerciality determination, or the contracting officer has other evidence that an item has previously been acquired by DoD using commercial product and commercial service acquisition procedures under FAR part 12, then the prior contract shall serve as a prior determination that an item is a commercial product or commercial service. The contracting officer shall document the file accordingly.

(B)(1) If the item to be acquired meets the criteria in paragraph (a)(ii)(A) of this section, the item may not be acquired using other than FAR part 12 procedures unless the head of the contracting activity issues a determination as specified in paragraph (a)(ii)(B)(2)(ii) of this section.

(2) Pursuant to 10 U.S.C. 3703(d)(1), the contracting officer may presume that a prior commercial product or commercial service determination made by a military department, a defense agency, or another component of DoD shall serve as a determination for

48 CFR Ch. 2 (10–1–24 Edition)

subsequent procurements of such item. In accordance with 10 U.S.C. 3703(d) and 10 U.S.C. 3456(c), if the contracting officer questions a prior determination to use FAR part 12 procedures and instead chooses to proceed with a procurement of an item previously determined to be a commercial item using procedures other than FAR part 12 procedures, the contracting officer shall request a review by the head of the contracting activity that will conduct the procurement. Not later than 30 days after receiving a request for review, the head of the contracting activity shall—

(i) Confirm that the prior use of FAR part 12 procedures was appropriate and still applicable; or

(ii) Issue a determination that the prior use of FAR part 12 procedures was improper or that it is no longer appropriate to acquire the item using FAR part 12 procedures, with a written explanation of the basis for the determination.

(iii) *Commercial product or commercial service determination.* Unless the procedures in paragraph (a)(ii) of this section are applicable, when using FAR part 12 procedures for acquisitions of commercial products and commercial service pursuant to 212.102(a)(i)(A) that exceed the simplified acquisition threshold, the contracting officer shall—

(A) Determine in writing that the acquisition meets the “commercial product” or “commercial service” definition in FAR 2.101. See 234.7002(b) and (c) for subsystems of major weapon systems and components and spare parts of major weapon systems and of subsystems of major weapon systems;

(B) Include the written determination in the contract file;

(C) Obtain approval at one level above the contracting officer when a commercial product or commercial service determination relies on paragraph (1)(ii), (3), or (4) of the “commercial product” definition at FAR 2.101 or paragraph (2) of the “commercial service” definition at FAR 2.101; and

(D) Follow the procedures and guidance at PGI 212.102(a)(iii) regarding file documentation and commercial product or commercial service determinations.

(iv) *Nontraditional defense contractors.* In accordance with 10 U.S.C. 3457, contracting officers—

(A) Except as provided in paragraph (a)(iv)(B) of this section, may treat supplies and services provided by non-traditional defense contractors as commercial products or commercial services. This permissive authority is intended to enhance defense innovation and investment, enable DoD to acquire items that otherwise might not have been available, and create incentives for nontraditional defense contractors to do business with DoD. It is not intended to recategorize current other than commercial products or commercial services; however, when appropriate, contracting officers may consider applying commercial product or commercial service procedures to the procurement of supplies and services from business segments that meet the definition of “nontraditional defense contractor” even though they have been established under traditional defense contractors. The decision to apply commercial product and commercial service procedures to the procurement of supplies and services from nontraditional defense contractors does not require a commercial product or commercial service determination and does not mean the item is commercial;

(B) Shall treat services provided by a business unit that is a nontraditional defense contractor as commercial services, to the extent that such services use the same pool of employees as used for commercial customers and are priced using methodology similar to methodology used for commercial pricing; and

(C) Shall document the file when treating supplies or services from a nontraditional defense contractor as commercial products or commercial services in accordance with paragraph (a)(iv)(A) or (B) of this section.

(v) *Commercial item guidebook.* For a link to the commercial item guidebook, see PGI 212.102(a)(v).

212.209 Determination of price reasonableness.

(a) In accordance with 10 U.S.C. 3453(d), agencies shall conduct or obtain market research to support the determination of the reasonableness of price for commercial products and commercial services contained in any bid or offer submitted in response to an agency solicitation. To the extent necessary to support such market research, the contracting officer—

(1) In the case of major weapon systems, for subsystems of major weapon systems and components and spare parts of major weapon systems and of subsystems of major weapon systems acquired as commercial products in accordance with subpart 234.70, shall use information submitted under 234.7002(e); and

(2) In the case of other items, may require the offeror to submit other relevant information.

(b) If the contracting officer determines that the information obtained through market research pursuant to paragraph (a) of this section is insufficient to determine the reasonableness of price, the contracting officer shall consider information submitted by the offeror of recent purchase prices paid by the Government and commercial customers for the same or similar commercial products or commercial services under comparable terms and conditions in establishing price reason-

ableness on a subsequent purchase if the contracting officer is satisfied that the prices previously paid remain a valid reference for comparison. In assessing whether the prices previously paid remain a valid reference for comparison, the contracting officer shall consider the totality of other relevant factors such as the time elapsed since the prior purchase and any differences in the quantities purchased (10 U.S.C. 3703(e)).

(c) If the contracting officer determines that the offeror cannot provide sufficient information as described in paragraph (b) of this section to determine the reasonableness of price, the contracting officer should request the offeror to submit information on—

(1) Prices paid for the same or similar items sold under different terms and conditions;

(2) Prices paid for similar levels of work or effort on related products or services;

(3) Prices paid for alternative solutions or approaches; and

(4) Other relevant information that can serve as the basis for determining the reasonableness of price.

(d) Nothing in this section shall be construed to preclude the contracting officer from requiring the contractor to supply information that is sufficient to determine the reasonableness of price, regardless of whether or not the contractor was required to provide such information in connection with any earlier procurement. If the contracting officer determines that the pricing information submitted is not sufficient to determine the reasonableness of price, the contracting officer may request other relevant information regarding the basis for price or cost, including uncertified cost data such as labor costs, material costs, and other direct and indirect costs.

Subpart 212.70—Defense Commercial Solutions Opening

SOURCE: 88 FR 55939, Aug. 17, 2023, unless otherwise noted.

212.7000 Scope of subpart.

This subpart implements 10 U.S.C. 3458 for the acquisition of innovative commercial products or commercial services through the use of a general solicitation known as a commercial solutions opening (CSO).

212.7001 Definition.

As used in this subpart—

Innovative means—

(1) Any technology, process, or method, including research and development, that is new as of the date of submission of a proposal; or

(2) Any application that is new as of the date of submission of a proposal of a technology, process, or method existing as of such date.

212.7002 Policy.

(a) Contracting officers may only use a CSO—

(1) To obtain innovative solutions or potential capabilities that fulfill requirements;

(2) To close capability gaps, or provide potential innovative technological advancements; and

(3) When meaningful proposals with varying technical or scientific approaches can be reasonably anticipated.

(b) Notwithstanding FAR 12.207, contracting officers shall use fixed-price type contracts, including fixed-price incentive contracts, for awards resulting from a CSO. When using a fixed-price incentive contract, see FAR 12.214 and subpart 16.4 for additional requirements.

(c) Contracting officers shall treat products and services acquired using a CSO as commercial products or commercial services.

(d) When using a CSO to acquire research and development, contracting officers shall use the procedures of this subpart in conjunction with FAR part 35 and part 235. A CSO is not subject to the limitations at 235.016 and may be used to fulfill requirements for research and development, ranging from

Defense Acquisition Regulations System, DoD

212.7005

advanced component development through operational systems development.

212.7003 Limitations.

Contracting officers shall follow the procedures at PGI 212.7003 to obtain senior procurement executive approval to award a contract in excess of \$100 million resulting from a CSO.

212.7004 Procedures.

This section prescribes procedures for the use of a CSO.

(a) The CSO shall—

(1) Describe the agency's interest for an individual program requirement or for broadly defined areas of interest covering the full range of the agency's requirements;

(2) Specify the technical data required that may be necessary to meet DoD's minimum requirements (see 227.7102 and 227.7202);

(3) Describe the evaluation factors for selecting proposals to include—

(i) Technical and importance to agency programs as the primary evaluation factors;

(ii) Price to the extent appropriate, but at a minimum to determine that the price is fair and reasonable; and

(iii) Relative importance of the factors, and the method of evaluation;

(4) Specify the period of time during which proposals submitted in response to the CSO will be accepted; and

(5) Contain instructions for the preparation and submission of proposals.

(b) The contracting officer shall publicize the CSO through the Governmentwide point of entry and, if authorized pursuant to FAR subpart 5.5, may

also publish a notice regarding the CSO in noted scientific, technical, or engineering periodicals. The contracting officer shall publish the notice at least annually.

(c) Proposals received in response to the CSO shall be evaluated in accordance with evaluation factors specified therein through a scientific, technological, or other subject-matter expert peer review process. Written evaluation reports on individual proposals are required, but proposals need not be evaluated against each other since they are not submitted in response to a common performance work statement or statement of work.

(d) Synopsis of proposed contract actions under FAR subpart 5.2 of individual contract actions based upon proposals received in response to the CSO is not required. The notice published pursuant to paragraph (b) of this section fulfills the synopsis requirement.

(e) When a small business concern would otherwise be selected for award but is considered not responsible, follow the Small Business Administration Certificate of Competency procedure (see FAR subpart 19.6).

(f) The contracting officer shall document the decision that the requirements of this subpart have been met and include the documentation in the contract file.

212.7005 Congressional notification.

See PGI 212.7005 for congressional notification requirements for contracts valued at more than \$100 million that are awarded pursuant to a CSO.
