(c) Refer all questions relating to the application and interpretation of wage determinations (including the classifications therein) and the interpretation of the Department of Labor regulations in this subsection to the Administrator, Wage and Hour Division.

[81 FR 91631, Dec. 16, 2016]

22.404 Construction Wage Rate Requirements statute wage determinations.

The Department of Labor is responsible for issuing wage determinations reflecting prevailing wages, including fringe benefits. The wage determinations apply only to those laborers and mechanics employed by a contractor upon the site of the work including drivers who transport to or from the site materials and equipment used in the course of contract operations. Determinations are issued for different types of construction, such as building, heavy, highway, and residential (referred to as rate schedules), and apply only to the types of construction designated in the determination.

22.404–1 Types of wage determinations.

(a) *General wage determinations.* (1) A general wage determination contains prevailing wage rates for the types of construction designated in the determination, and is used in contracts per-

formed within a specified geographical area. General wage determinations contain no expiration date and remain valid until modified, superseded, or canceled by the Department of Labor. Once incorporated in a contract, a general wage determination normally remains effective for the life of the contract, unless the contracting officer exercises an option to extend the term of the contract (see 22.404–12). These determinations shall be used whenever possible. They are issued at the discretion of the Department of Labor either upon receipt of an agency request or on the Department of Labor's own initiative.

(2) General wage determinations are published on the Wage Determinations at *SAM.gov* website. General wage determinations are effective on the publication date of the wage determination or upon receipt of the wage determination by the contracting agency, whichever occurs first. "Publication" within the meaning of this section shall occur on the first date the wage determination is published on the Wage Determinations at *SAM.gov*. Archived Construction Wage Rate Requirements statute general wage determinations that are no longer current may be accessed in the "Archived DB WD" database on Wage Determinations at *SAM.gov* website for information purposes only. Contracting officers may not use an archived wage determination in a contract action without obtaining prior approval of the Department of Labor. To obtain prior approval, contact the Department of Labor, Wage and Hour Division, using <https://www.sam.gov>, or contact the procurement agency labor advisor listed on <https://www.sam.gov>.

(b) *Project wage determinations.* A project wage determination is issued at the specific request of a contracting agency. It is used only when no general wage determination applies, and is effective for 180 calendar days from the date of the determination. However, if a determination expires before contract award, it may be possible to obtain an extension to the 180-day life of the determination (see 22.404–5(b)(2)). Once incorporated in a contract, a project wage determination normally remains effective for the life of the
