6.102 Use of competitive procedures.

The competitive procedures available for use in fulfilling the requirement for full and open competition are as follows:

(a) *Sealed bids.* (See 6.401(a).)

(b) *Competitive proposals.* (See 6.401(b).) If sealed bids are not appropriate under paragraph (a) of this section, contracting officers shall request competitive proposals or use the other competitive procedures under paragraph (c) or (d) of this section.

(c) *Combination of competitive procedures.* If sealed bids are not appropriate, contracting officers may use any combination of competitive procedures (e.g., two-step sealed bidding).

(d) *Other competitive procedures.* (1) Selection of sources for architect-engineer contracts in accordance with the provisions of 40 U.S.C. 1102 *et seq.* is a competitive procedure (see subpart 36.6 for procedures).

(2) Competitive selection of basic and applied research and that part of development not related to the development of a specific system or hardware procurement is a competitive procedure if award results from—

(i) A broad agency announcement that is general in nature identifying areas of research interest, including criteria for selecting proposals, and soliciting the participation of all offerors capable of satisfying the Government's needs; and

(ii) A peer or scientific review.

(3) Use of multiple award schedules issued under the procedures established by the Administrator of General Services consistent with the requirement of 41 U.S.C. 152(3)(A) for the multiple award schedule program of the General Services Administration is a competitive procedure.

6.202 Establishing or maintaining alternative sources.

(a) Agencies may exclude a particular source from a contract action in order to establish or maintain an alternative source or sources for the supplies or services being acquired if the agency head determines that to do so would—

(1) Increase or maintain competition and likely result in reduced overall costs for the acquisition, or for any anticipated acquisition;

(2) Be in the interest of national defense in having a facility (or a producer, manufacturer, or other supplier) available for furnishing the supplies or services in case of a national emergency or industrial mobilization;

(3) Be in the interest of national defense in establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center;

6.203

(4) Ensure the continuous availability of a reliable source of supplies or services;

(5) Satisfy projected needs based on a history of high demand; or

(6) Satisfy a critical need for medical, safety, or emergency supplies.

(b)(1) Every proposed contract action under the authority of paragraph (a) of this section shall be supported by a determination and findings (D&F) (see subpart 1.7) signed by the head of the agency or designee. This D&F shall not be made on a class basis.

(2) Technical and requirements personnel are responsible for providing all necessary data to support their recommendation to exclude a particular source.

(3) When the authority in (a)(1) of this section is cited, the findings shall include a description of the estimated reduction in overall costs and how the estimate was derived.
