

retirement, health benefits, and group life insurance employee payments required to be made for the purpose of protecting the rights of the employee so transferred; and for accounting for and depositing in the respective funds all agency contributions. The agency must furnish the employee with specific information as to how, when, and where the payments are to be submitted.

(d) *Coverage.* Employee payments are considered to be currently deposited if received by the agency before, during, or within 3 months after the end of the pay period covered by the deposit. If the contributions are not currently deposited, coverage terminates on the last day of the pay period for which the required contributions were currently deposited, subject to a 31-day extension of group life insurance and health benefits coverage as provided in parts 870 and 890 of this chapter and to the conversion benefits provided in parts 870 and 890 of this chapter. Coverage so terminated may not be re-established before the employee actually enters on duty, on the first day in a pay status in an agency. However, terminated retirement, health benefits, and group life insurance coverage must be reinstated retroactively when, in the judgment of OPM, the failure to make the required current deposit was due to circumstances beyond the employee's control and the required payments were deposited at the first opportunity. Coverage under a system other than the Civil Service Retirement System must be reinstated retroactively if the agency which administers the retirement system determines that the failure to make the required current deposit was due to circumstances beyond the control of the employee and the required payments were deposited at the first opportunity.
