§ 300.65 Catch sharing plan and domestic management measures in waters in and off Alaska.

(a) A catch sharing plan (CSP) may be developed by the North Pacific Fishery Management Council and approved by NMFS for portions of the fishery. Any approved CSP may be obtained from the Administrator, Alaska Region, NMFS.

(b) The catch sharing plan for Commission regulatory area 4 allocates the annual commercial catch limit among Areas 4C, 4D, and 4E and will be adopted by the Commission as annual management measures and published in the FEDERAL REGISTER as required in § 300.62.

(c) *Catch sharing plan (CSP) for Commission Regulatory Areas 2C and 3A—(1) General.* The catch sharing plan for Commission regulatory areas 2C and 3A:

(i) Allocates the annual combined catch limit for Commission regulatory areas 2C and 3A in order to establish the annual commercial catch limit and the annual guided sport catch limit for the halibut commercial fishing and sport fishing seasons, pursuant to paragraphs (c)(3) and (4) of this section; and

(ii) Authorizes the use of Commission regulatory areas 2C and 3A halibut IFQ as guided angler fish (GAF) for harvest by charter vessel anglers in the corresponding area, pursuant to paragraph (c)(5) of this section.

(iii) Authorizes the use of Commission regulatory areas 2C and 3A RFQ

resulting from halibut QS held by the RQE as authorized in part 679 to this title to supplement the annual guided sport catch limit in the corresponding area, pursuant to paragraph (c)(4) of this section.

(2) *Implementation.* The Commission regulatory areas 2C and 3A CSP annual combined catch limits, annual commercial catch limits, and annual guided sport catch limits are adopted by the Commission as annual management measures and published by NMFS in the FEDERAL REGISTER as required in § 300.62.

(3) *Annual commercial catch limits.* (i) The Commission regulatory areas 2C and 3A annual commercial catch limits are determined by subtracting wastage from the allocations in Tables 1 and 2 of this subpart E, adopted by the Commission as annual management measures, and published in the FEDERAL REGISTER as required in § 300.62.

(ii) Commercial fishing in Commission regulatory areas 2C and 3A is governed by the Commission's annual management measures and by regulations at 50 CFR part 679, subparts A, B, D, and E.

(4) *Annual guided sport catch limits.* (i) The Commission regulatory areas 2C and 3A annual guided sport catch limits are determined by subtracting wastage from, and adding any pounds of RFQ held by an RQE for that area to, the allocations in Tables 3 and 4 of this subpart, adopted by the Commission as annual management measures, and

Int'l. Fishing and Related Activities

§ 300.65

published in the FEDERAL REGISTER as required in §300.62.

(ii) Sport fishing by charter vessel anglers in Commission regulatory areas 2C and 3A is governed by the Commission's annual management measures and by regulations at 50 CFR part 300, subparts A and E.

(iii) The amount of QS held by the RQE for Commission regulatory area 2C and 3A as of October 1 each year will be the basis for determining the amount of RFQ pounds that will be added to the annual guided sport catch limit for the corresponding area in the upcoming year.

(5) *Guided Angler Fish (GAF)*. This paragraph (§300.65(c)(5)) governs the transfer of Commission regulatory areas 2C and 3A halibut between individual fishing quota (IFQ) and guided angler fish (GAF), the issuance of GAF permits, and GAF use.

(i) *General*. (A) GAF is derived from halibut IFQ that is transferred from a Commission regulatory area 2C or 3A IFQ permit holder's account held by a person who also holds quota share (QS), as defined in §679.2 of this title, to a GAF permit holder's account for the same regulatory area.

(B) A GAF permit authorizes a charter vessel angler to retain GAF that are caught in the Commission regulatory area specified on a GAF permit:

(1) During the sport halibut fishing season adopted by the Commission as annual management measures and published in the FEDERAL REGISTER as required in §300.62, and

(2) Subject to the GAF use restrictions at paragraphs (c)(5)(iv)(A) through (K) of this section.

(C) NMFS will return unharvested GAF to the IFQ permit holder's account from which the GAF were derived on or after fifteen calendar days prior to the closing of the commercial halibut fishing season each year, subject to paragraph (c)(5)(ii) of this section and underage provisions at §679.40(e) of this title.

(ii) *Transfer Between IFQ and GAF*—(A) *General*. A transfer between IFQ and GAF means any transaction in which halibut IFQ passes between an IFQ permit holder and a GAF permit holder as:

(1) A transfer of IFQ to GAF, in which halibut IFQ equivalent pounds, as defined in §679.2 of this title, are transferred from a Commission regulatory area 2C or 3A IFQ permit account, converted to number(s) of GAF as specified in paragraph (c)(5)(ii)(E) of this section, and assigned to a GAF permit holder's account in the same management area;

(2) A transfer of GAF to IFQ, in which GAF in number(s) of fish are transferred from a GAF permit holder's account in Commission regulatory area 2C or 3A, converted to IFQ equivalent pounds as specified in paragraph (c)(5)(ii)(E) of this section, and assigned to the same IFQ permit holder's account from which the GAF were derived; or

(3) The return of unharvested GAF by NMFS to the IFQ permit holder's account from which it was derived, on or after 15 calendar days prior to the closing of the commercial halibut fishing season.

(B) *Transfer procedure*—(1) *Application for Transfer Between IFQ and GAF*. A transfer between IFQ and GAF requires Regional Administrator review and approval of a complete Application for Transfer Between IFQ and GAF. Both the transferor and the transferee are required to complete and sign the application. Transfers will be conducted via methods approved by NMFS. The Regional Administrator shall provide an Application for Transfer Between IFQ and GAF on the NMFS Alaska Region Web site at <http://alaskafisheries.noaa.gov/ram/default.htm>. An Application for Transfer Between IFQ and GAF is not required for the return of unharvested GAF by NMFS to the IFQ permit holder's account from which it was derived, 15 calendar days prior to the closing of the commercial halibut fishing season for that year.

(2) *Application timing*. The Regional Administrator will not approve any Application for Transfer Between IFQ and GAF before annual IFQ is issued for each year or after one month prior to the closing of the commercial fishing season for that year. Applications to transfer GAF to IFQ will be accepted from August 1 through August 31 only.

(3) *Transfer due to court order, operation of law, or as part of a security agreement.* NMFS may approve an Application for Transfer Between IFQ and GAF to return GAF to the IFQ permit holder's account from which it derived pursuant to a court order, operation of law, or a security agreement.

(4) *Notification of decision on application.* (i) Persons who submit an Application for Transfer Between IFQ and GAF to the Regional Administrator will receive notification of the Regional Administrator's decision to approve or disapprove the application for transfer.

(ii) If an Application for Transfer Between IFQ and GAF is disapproved, NMFS will provide the reason(s) in writing by mail, posted on the date of that decision.

(iii) Disapproval of an Application for Transfer Between IFQ and GAF may be appealed pursuant to §679.43 of this title.

(iv) The Regional Administrator will not approve a transfer between IFQ and GAF on an interim basis if an applicant appeals a disapproval of an Application for Transfer Between IFQ and GAF pursuant to §679.43 of this title.

(5) *IFQ and GAF accounts.* (i) Accounts affected by either a Regional Administrator-approved Application for Transfer Between IFQ and GAF or the return of unharvested GAF to IFQ on or after 15 calendar days prior to the closing of the commercial halibut fishing season for that year will be adjusted on the date of approval or return. Applications for Transfer Between IFQ and GAF that are transfers of GAF to IFQ that have been approved by the Regional Administrator will be completed not earlier than September 1. Any necessary permits will be sent with the notification of the Regional Administrator's decision on the Application for Transfer Between IFQ and GAF.

(ii) Upon approval of an Application for Transfer Between IFQ and GAF for an initial transfer from IFQ to GAF, NMFS will establish a new GAF account for the GAF applicant's account and issue the resulting new GAF and IFQ permits. If a GAF account already exists from a previous transfer from the same IFQ account in the cor-

responding management area in that year, NMFS will modify the GAF recipient's GAF account and the IFQ transferor's permit account and issue modified GAF and IFQ permits upon approval of an Application for Transfer Between IFQ and GAF.

(iii) On or after 15 calendar days prior to the closing of the commercial halibut fishing season, NMFS will convert unharvested GAF from a GAF permit holder's account back into IFQ equivalent pounds as specified in paragraph (c)(5)(ii)(E)(2) of this section, and return the resulting IFQ equivalent pounds to the IFQ permit holder's account from which the GAF were derived, unless prevented by regulations at 15 CFR part 904.

(C) *Complete application.* Applicants must submit a completed Application for Transfer Between IFQ and GAF to the Regional Administrator as instructed on the application. NMFS will notify applicants with incomplete applications of the specific information necessary to complete the application.

(D) *Application for Transfer Between IFQ and GAF approval criteria.* An Application for Transfer Between IFQ and GAF will not be approved until the Regional Administrator has determined that:

(1) The person applying to transfer IFQ to GAF or receive IFQ from a transfer of GAF to IFQ:

(i) Possesses at least one unit of halibut quota share (QS), as defined in §679.2 of this title, in the applicable Commission regulatory area, either Area 2C or Area 3A, for which the transfer of IFQ to GAF is requested;

(ii) Has been issued an annual IFQ Permit, as defined in §679.4(d)(1) of this title, for the Commission regulatory area corresponding to the person's QS holding, either Area 2C or Area 3A, resulting from that halibut QS; and

(iii) Has an IFQ permit holder's account with an IFQ amount equal to or greater than amount of IFQ to be transferred in the Commission regulatory area, either Area 2C or Area 3A, for which the transfer of IFQ to GAF is requested.

(iv) In the applicable Commission regulatory area, either Area 2C or Area 3A, the sum of IFQ halibut equivalent pounds, as defined in §679.2 of this

Int'l. Fishing and Related Activities

§ 300.65

title, from the transfer of IFQ to GAF and the pounds of RFQ issued to the RQE during a calendar year does not exceed an amount that is greater than the amount derived from: 5,947,740 units of Area 2C QS, or 22,187,161 units of Area 3A QS.

(2) The person applying to receive or transfer GAF possesses a valid charter halibut permit, community charter halibut permit, or military charter halibut permit in the Commission regulatory area (Area 2C or Area 3A) that corresponds to the IFQ permit area from or to which the IFQ will be transferred.

(3) For a transfer of IFQ to GAF:

(i) The transfer between IFQ and GAF must not cause the GAF permit issued to exceed the GAF use limits in paragraphs (c)(5)(iv)(H)(I) and (2) of this section;

(ii) The transfer must not cause the person applying to transfer IFQ to exceed the GAF use limit in paragraph (c)(5)(iv)(H)(3) of this section; and

(iii) There must be no fines, civil penalties, sanctions, or other payments due and owing, or outstanding permit sanctions, resulting from Federal fishery violations involving either person or permit.

(4) If a Community Quota Entity (CQE), as defined in § 679.2 of this title, submits a "Community Quota Entity Application for Transfer Between Individual Fishing Quota (IFQ) and Guided Angler Fish (GAF)," the application will not be approved until the Regional Administrator has determined that:

(i) The CQE applying to transfer IFQ to GAF is eligible to hold IFQ on behalf of the eligible community in Commission regulatory area 2C or 3A designated in Table 21 to 50 CFR part 679;

(ii) The CQE applying to transfer IFQ to GAF has received notification of approval of eligibility to receive IFQ for that community as described in § 679.41(d)(1) of this title;

(iii) The CQE applying to receive GAF from a Commission regulatory area 2C or 3A IFQ permit holder holds one or more charter halibut permits or community charter halibut permits for the corresponding area; and

(iv) The CQE applying to transfer between IFQ and GAF has submitted a

complete annual report(s) as required by § 679.5(t) of this title.

(E) *Conversion between IFQ and GAF—*

(1) *General.* An annual conversion factor will be calculated to convert between net pounds (whole number, no decimal points) of halibut IFQ and number(s) of GAF (whole number, no decimal points) for Area 2C and Area 3A. This conversion factor will be posted on the NMFS Alaska Region Web site before the beginning of each commercial halibut fishing season.

(2) *Conversion calculation.* The net pounds of IFQ transferred to or from an IFQ permit holder in Commission regulatory area 2C or 3A will be equal to the number(s) of GAF transferred to or from the GAF account of a GAF permit holder in the corresponding area, multiplied by the estimated average net weight determined as follows. For the first calendar year after the effective date of this rule, the average net weight will be estimated for all halibut harvested by charter vessel anglers during the most recent year without a size limit in effect. After the first calendar year after the effective date of this rule, the average net weight will be estimated from the average length of GAF retained in that area during the previous year as reported to RAM via the GAF electronic reporting system. If no GAF were harvested in a year, the conversion factor will be calculated using the same method as for the first calendar year after the effective date of this rule. NMFS will round up to the nearest whole number (no decimals) when transferring IFQ to GAF and when transferring GAF to IFQ. Expressed algebraically, the conversion formula is:

IFQ net pounds = (number of GAF × average net weight).

(3) The total number of net pounds converted from unharvested GAF and transferred to the IFQ permit holder's account from which it derived cannot exceed the total number of net pounds NMFS transferred from the IFQ permit holder's account to the GAF permit holder's account for that area in the current year.

(iii) *Guided Angler Fish (GAF) permit—*

(A) *General.* (1) A GAF permit authorizes a charter vessel angler to catch

§ 300.65

50 CFR Ch. III (10–1–23 Edition)

and retain GAF in the specified Commission regulatory area, subject to the limits in paragraphs (c)(5)(iv)(A) through (K) of this section, during a charter vessel fishing trip authorized by the charter halibut permit, community charter halibut permit, or military charter halibut permit that is designated on the GAF permit.

(2) A GAF permit authorizes a charter vessel angler to catch and retain GAF in the specified Commission regulatory area from the time of permit issuance until any of the following occurs:

(i) The amount of GAF in the GAF permit holder's account is zero;

(ii) The permit expires at 11:59 p.m. (Alaska local time) on the day prior to 15 days prior to the end of the commercial halibut fishing season for that year;

(iii) NMFS replaces the GAF permit with a modified GAF permit following NMFS approval of an Application for Transfer Between IFQ and GAF; or

(iv) The GAF permit is revoked or suspended under 15 CFR part 904.

(3) A GAF permit is issued for use in a Commission regulatory area (2C or 3A) to the person who holds a valid charter halibut permit, community charter halibut permit, or military charter halibut permit in the corresponding Commission regulatory area. Regulations governing issuance, transfer, and use of charter halibut permits are located in § 300.67.

(4) A GAF permit is assigned to only one charter halibut permit, community charter halibut permit, or military charter halibut permit held by the GAF permit holder in the corresponding Commission regulatory area (2C or 3A).

(5) If a charter vessel angler harvests GAF from a charter vessel with a charter vessel guide on board, a legible copy of a valid GAF permit and the assigned charter halibut permit, community charter halibut permit, or military charter halibut permit appropriate for the Commission regulatory area (2C or 3A) must be carried by the charter vessel operator on board the charter vessel used to harvest GAF at all times that such fish are retained on board and must be presented for inspection on request of any authorized offi-

cer. If a charter vessel angler harvests GAF from a charter vessel without a charter vessel guide on board, the charter vessel guide must retain the legible copy of the GAF permit and the assigned charter halibut permit, community charter halibut permit, or military charter halibut permit must be on the charter vessel with the charter vessel angler.

(6) No person may alter, erase, mutilate, or forge a GAF permit or document issued under this section (§300.65(c)(5)(iii)). Any such permit or document that has been intentionally altered, erased, mutilated, or forged is invalid.

(7) GAF permit holders must retain GAF permit(s) and associated GAF permit logs for two years after the end of the fishing year for which the GAF permit(s) was issued and make the GAF permit available for inspection upon the request of an authorized officer (as defined in Commission regulations).

(B) *Issuance.* The Regional Administrator will issue a GAF permit upon approval of an Application to Transfer Between IFQ and GAF.

(C) *Transfer.* GAF authorized by a GAF permit under this paragraph (§300.65(c)(5)(iii)) are not transferable to another GAF permit, except as provided under paragraph (c)(5)(ii) of this section.

(iv) *GAF use restrictions.* (A) If a charter vessel angler harvests GAF from a charter vessel with a charter vessel guide on board, the charter vessel guide must have on board a legible copy of a valid GAF permit and the valid charter halibut permit, community charter halibut permit, or military charter halibut permit assigned to the GAF permit for the area of harvest. If a charter vessel angler harvests GAF from a charter vessel without a charter vessel guide on board, the legible copy of the valid GAF permit must be on board the same vessel as the charter vessel guide, and the original charter halibut permit, community charter halibut permit, or military charter halibut permit assigned to the GAF permit for the area of harvest must be on the charter vessel with the charter vessel angler.

Int'l. Fishing and Related Activities

§ 300.65

(B) The total number of GAF on board a vessel cannot exceed the number of unharvested GAF in the GAF permit holder's GAF account at the time of harvest.

(C) The total number of halibut retained by a charter vessel angler harvesting GAF cannot exceed the sport fishing daily bag limit in effect for unguided sport anglers at the time of harvest adopted by the Commission as annual management measures and published in the FEDERAL REGISTER as required in §300.62.

(D) Retained GAF are not subject to any length limit implemented by the Commission's annual management measures and published in the FEDERAL REGISTER as required in §300.62, if applicable.

(E) Each charter vessel angler retaining GAF must comply with the halibut possession requirements adopted by the Commission as annual management measures and published in the FEDERAL REGISTER as required in §300.62.

(F) The charter vessel guide must ensure that each charter vessel angler complies with paragraphs (c)(5)(iv)(A) through (E) of this section.

(G) The charter vessel guide must be physically present when the GAF halibut is harvested and must immediately remove the tips of the upper and lower lobes of the caudal (tail) fin to mark all halibut caught and retained as GAF. If the GAF halibut is filleted, the entire carcass, with head and tail connected as a single piece, must be retained on board the charter vessel on which the halibut was caught until all fillets are offloaded.

(H) Except as provided in paragraph (c)(5)(iv)(I) of this section, during the halibut sport fishing season adopted by the Commission as annual management measures and published in the FEDERAL REGISTER as required in §300.62, the following GAF use and IFQ transfer limits shall apply. GAF use limits do not apply to military charter halibut permits.

(I) No more than 400 GAF may be assigned to a GAF permit that is assigned to a charter halibut permit or community charter halibut permit endorsed for six (6) or fewer charter vessel anglers in a year,

(2) No more than 600 GAF may be assigned to a GAF permit that is assigned to a charter halibut permit endorsed for more than six (6) charter vessel anglers in a year; and

(3) In Commission regulatory area 2C, a maximum of 1,500 pounds or ten (10) percent, whichever is greater, of the start year fishable IFQ pounds for an IFQ permit, may be transferred from IFQ to GAF. In Commission regulatory area 3A, a maximum of 1,500 pounds or fifteen (15) percent, whichever is greater, of the start year fishable IFQ pounds for an IFQ permit, may be transferred from IFQ to GAF. Start year fishable pounds is the sum of IFQ equivalent pounds, as defined in §679.2 of this title, for an area, derived from QS held, plus or minus adjustments made to that amount pursuant to §679.40(d) and (e) of this title.

(I) The halibut QS equivalent of net pounds of halibut IFQ that is transferred to GAF is included in the computation of halibut QS use caps in §679.42(f)(1)(i) and (ii) of this title.

(J) A CHP holder receiving GAF from a CQE is subject to §679.42(f)(6) of this title. For a CHP holder who receives GAF from a CQE, the net poundage equivalent of all halibut IFQ received as GAF is included in the computation of that person's IFQ halibut holdings in §679.42(f)(6) of this title.

(K) Applicability of GAF use restrictions to CQEs. The GAF use restrictions in paragraph (c)(5)(iv)(H) of this section do not apply if:

(1) A CQE transfers IFQ as GAF to a GAF permit that is assigned to one or more charter halibut permits held by that CQE or community charter halibut permits held by that CQE;

(2) A CQE transfers IFQ as GAF to another CQE holding one or more charter halibut permits or community charter halibut permits; or

(3) A CQE transfers IFQ as GAF to a GAF permit that is assigned to a charter halibut permit held by an eligible community resident (as defined at §679.2) of that CQE community, as defined for purposes of the Catch Sharing Plan for Commission regulatory areas 2C and 3A in §679.2 of this title, holding one or more charter halibut permits.

(d) *Charter vessels in Commission regulatory area 2C and 3A—(1) General requirements—(i) Logbook submission.* For a charter vessel fishing trip during which halibut were caught and retained on or after the first Monday in April and on or before December 31, Alaska Department of Fish and Game (ADF&G) Saltwater Sport Fishing Charter Trip Logbook data sheets must be submitted to the ADF&G and postmarked or received no later than 14 calendar days after the Monday of the fishing week (as defined in 50 CFR 300.61) in which the halibut were caught and retained. Logbook sheets for a charter vessel fishing trip during which halibut were caught and retained on January 1 through the first Sunday in April, must be submitted to the ADF&G and postmarked or received no later than the second Monday in April.

(ii) The charter vessel guide is responsible for complying with the reporting requirements of this paragraph (d). The person whose business was assigned an Alaska Department of Fish and Game Saltwater Sport Fishing Charter Trip Logbook is responsible for ensuring that the charter vessel guide complies with the reporting requirements of this paragraph (d).

(2) *Retention and inspection of logbook.* A person who is required to provide information pursuant to paragraph (d)(4) of this section, or whose business was assigned an Alaska Department of Fish and Game Saltwater Sport Fishing Charter Trip Logbook and whose charter vessel anglers retain halibut is required to:

(i) Retain all logbook data pages showing halibut harvest for 2 years after the end of the fishing year for which the logbook was issued, and

(ii) Make the logbook available for inspection upon the request of an authorized officer (as defined in Commission regulations).

(3) *Charter vessel guide and crew restriction in Commission regulatory areas 2C and 3A.* A charter vessel guide, charter vessel operator, or crew member may not catch and retain halibut during a charter vessel fishing trip in Commission regulatory area 2C or 3A, except that charter vessel operators who are charter vessel anglers may

catch and retain halibut during a charter vessel fishing trip if the charter vessel guide is on a separate charter vessel.

(4) *Recordkeeping and reporting requirements in Commission regulatory area 2C and 3A—(i) General requirements.* Each charter vessel angler and charter vessel guide in Commission regulatory area 2C or 3A must comply with the following recordkeeping and reporting requirements, except as specified in paragraph (d)(4)(iii)(C) of this section, by the end of the calendar day or by the end of the charter vessel fishing trip, whichever comes first, unless otherwise specified.

(ii) *Logbook reporting requirements—(A) Charter vessel angler signature requirement.* Each charter vessel angler who retains halibut caught in Commission regulatory area 2C or 3A must acknowledge that his or her name, license number (if required), and number of halibut retained (kept) are recorded correctly by signing the Alaska Department of Fish and Game Saltwater Charter Logbook data sheet on the line that corresponds to the angler's information.

(B) *Charter vessel guide requirements.* If halibut were caught and retained in Commission regulatory area 2C or 3A, the charter vessel guide must record the following information (see paragraphs (d)(4)(ii)(B)(1) through (10) of this section) in the Alaska Department of Fish and Game Saltwater Charter Logbook:

(1) *Guide license number.* The Alaska Department of Fish and Game sport fishing guide license or registration number held by the charter vessel guide who certified the logbook data sheet.

(2) *Date.* Month and day for each charter vessel fishing trip taken. A separate logbook data sheet is required for each charter vessel fishing trip if two or more trips are taken on the same day. A separate logbook data sheet is required for each calendar day that halibut are caught and retained during a multi-day trip. A separate logbook sheet is required if more than one charter halibut permit is used on a trip.

(3) *Charter halibut permit (CHP) number.* The NMFS CHP number(s) authorizing charter vessel anglers on that

Int'l. Fishing and Related Activities

§ 300.65

charter vessel fishing trip to catch and retain halibut.

(4) *Guided Angler Fish (GAF) permit number.* The NMFS GAF permit number(s) authorizing charter vessel anglers on that charter vessel fishing trip to harvest GAF.

(5) *Statistical area.* The primary Alaska Department of Fish and Game statistical area code in which halibut were caught and retained.

(6) *Angler sport fishing license number and printed name.* Before a charter vessel fishing trip begins, record the first and last name of each paying or non-paying charter vessel angler on board that will fish for halibut. For each angler required to be licensed, record the Alaska Sport Fishing License number for the current year, resident permanent license number, or disabled veteran license number. For youth anglers not required to be licensed, record the word "youth" in place of the license number.

(7) *Number of halibut retained.* For each charter vessel angler, record the total number of non-GAF halibut caught and kept.

(8) *Number of GAF retained.* For each charter vessel angler, record the total number of GAF kept.

(9) *Guide signature.* The charter vessel guide acknowledges that the recorded information is correct by signing the logbook data sheet.

(10) *Angler signature.* The charter vessel guide is responsible for ensuring that charter vessel anglers that retain halibut comply with the signature requirements at paragraph (d)(4)(ii)(A) of this section.

(iii) *GAF reporting requirements—(A) General.* (1) Upon retention of a GAF halibut, the charter vessel guide must immediately record on the GAF permit log (on the back of the GAF permit) the date that the fish was caught and retained and the total length of that fish as described in paragraphs (d)(4)(iii)(D)(5) and (7) of this section. If GAF halibut are retained on a charter vessel without a charter vessel guide on board, the charter vessel guide must also comply with the reporting requirements in paragraph (d)(4)(iii)(A)(5) of this section.

(2) In addition to the recordkeeping and reporting requirements in para-

graphs (d)(4)(i) and (ii) of this section, a GAF permit holder must use the NMFS-approved electronic reporting system on the Alaska Region Web site at <http://alaskafisheries.noaa.gov/> to submit a GAF landings report.

(3) A GAF permit holder must submit a GAF landings report by 11:59 p.m. (Alaska local time) on the last calendar day of a fishing trip for each day on which a charter vessel angler retained GAF authorized by the GAF permit held by that permit holder.

(4) If a GAF permit holder is unable to submit a GAF landings report due to hardware, software, or Internet failure for a period longer than the required reporting time, or a correction must be made to information already submitted, the GAF permit holder must contact NOAA Office of Law Enforcement, Juneau, AK, at 800-304-4846 (Select Option 1).

(5) If a GAF is retained on a charter vessel without a charter vessel guide on board, the charter vessel guide must immediately record in the ADF&G Saltwater Charter Logbook the GAF permit number under which GAF were caught and retained, and the number of GAF kept under the corresponding charter vessel angler's name.

(B) *Electronic Reporting of GAF.* A GAF permit holder must obtain, at his or her own expense, the technology to submit GAF landing reports to the NMFS-approved reporting system for GAF landings.

(C) *NMFS-Approved Electronic Reporting System.* The GAF permit holder agrees to the following terms (see paragraphs (d)(4)(iii)(C)(1) through (3) of this section):

(1) To use any NMFS online service or reporting system only for authorized purposes;

(3) To accept the responsibility of and acknowledge compliance with § 300.4(a) and (b), § 300.65(d), and § 300.66(p) and (q).

(D) *Information entered for each GAF caught and retained.* The GAF permit holder must enter the following information for each charter vessel fishing trip in which GAF were retained under

the authorization of the permit holder's GAF permit into the NMFS-approved electronic reporting system (see paragraphs (d)(4)(iii)(D)(1) through (9) of this section) by 11:59 p.m. (Alaska local time) on the last day of a charter fishing trip in which a charter vessel angler retained GAF:

(2) A GAF landing confirmation number issued by the NMFS-approved electronic reporting system and recorded by the GAF permit holder on the GAF permit log used to record the dates and lengths of retained GAF, as required in paragraph (d)(4)(iii)(A)(1) of this sec-

tion, constitutes confirmation that the GAF permit holder's GAF landing is properly reported and the GAF permit holder's account is properly debited.

(3) Instructions for correcting a submitted GAF landing electronic report are at (d)(4)(iii)(A)(4) of this section.

(5) *Carcass retention requirement for size-restricted halibut.* If a size-restricted halibut is filleted on board the charter vessel, the entire carcass, with head and tail connected as a single piece, must be retained on board the charter vessel on which it was caught until all fillets are offloaded.

(6) If a charter vessel angler catches and retains halibut, and that halibut is on board a fishing vessel with halibut caught and retained by persons who are not charter vessel anglers, then the daily bag limit, possession limit, size limit, and carcass retention regulations applicable to charter vessel anglers shall apply to all halibut on board the fishing vessel.
