

§ 530.2

identified in § 1507.3(b) of the regulations which are applicable to the activities of the Commission in light of its statutory functions and responsibilities.

§ 530.2 Ensuring that environmental documents are actually considered in agency decision-making.

Section 1505.1 of the NEPA regulations contains requirements to ensure adequate consideration of environmental documents in agency decision-making. To implement these requirements, Commission officials shall:

(a) Consider all relevant environmental documents in evaluating proposals for agency actions;

(b) Ensure that all relevant environmental documents, comments, and responses accompany the proposal through existing agency review processes;

(c) Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating any proposal for action by the Commission which is likely to significantly affect the quality of the human environment; and

(d) Where an environmental impact statement (EIS) has been prepared, consider the specific alternatives analyzed in the EIS when evaluating the proposal which is the subject of the EIS. All Commission officials directly involved in developing, evaluating, and/or reaching decisions on proposed actions shall consider relevant environmental documents and comply with the applicable provisions of the NEPA process.

§ 530.3 Typical classes of action.

Section 1507.3(b)(2), in conjunction with § 1508.4, requires agencies to identify typical classes of action that warrant similar treatment under NEPA with respect to the preparation of EIS's or environmental assessments. As a general matter, the Commission's activities do not include actions for which EIS's or environmental assessments are required. Its activities involve:

(a) Consultation with and recommendations to other Federal agencies for actions relating to marine

mammal protection and conservation for which an EIS or environmental assessment is either not required by the NEPA regulations or for which an EIS or environmental assessment is prepared by another Federal agency; and

(b) Research contracts relating to policy issues, biological-ecological data needed to make sound management decisions, and better methods for collecting and analyzing data. These activities are not, by themselves, major Federal actions significantly affecting the quality of the human environment and the Commission's activities are therefore categorically excluded from the requirement to prepare an EIS or environmental assessment except for proposals for legislation which are initiated by the Commission, for which the Commission shall develop environmental assessments or EIS's, as appropriate, in accordance with the NEPA regulations. The Commission shall independently determine whether an EIS or an environmental assessment is required where:

(1) A proposal for agency action is not covered by one of the typical classes of action above; or

(2) For actions which are covered, the presence of extraordinary circumstances indicates that some other level of environmental review may be appropriate.

§ 530.4 Environmental information.

Interested persons may contact the Office of the General Counsel for information regarding the Commission's compliance with NEPA.

Marine Mammal Commission

§ 540.3

§ 540.2 Program.

The Executive Director is designated as the Commission's official responsible for implementation and oversight of information security programs and procedures. He acts as the recipient of questions, suggestions, and complaints regarding all elements of this program, and is solely responsible for changes to it and for insuring that it is at all times consistent with Executive Order 12356. The Executive Director also serves as the Commission's official contact for requests for declassification of materials submitted under the provisions of Executive Order 12356, regardless of the point of origin of such requests. He is responsible for assuring that requests submitted under the Freedom of Information Act are handled in accordance with that Act and that declassification requests submitted under the provisions of Executive Order 12356 are acted upon within 60 days of receipt.

[44 FR 55381, Sept. 26, 1979]

§ 540.3 Procedures.

(a) *Mandatory declassification review.* All requests for mandatory review shall be handled by the Executive Director or his designee. Under no circumstances shall the Executive Director refuse to confirm the existence or non-existence of a document requested under the Freedom of Information Act or the mandatory review provisions of Executive Order 12356, unless the fact of its existence or non-existence would itself be classified under Executive Order 12356. Requests for declassification shall be acted upon promptly providing that the request reasonably describes the information which is the subject of the request for declassification. In light of the fact that the Commission does not have original classification authority and national security information in its custody has been classified by another Federal agency, the Executive Director will refer all requests for national security information in its custody to the Federal agency that classified it or, if the agency that classified it has either ceased to exist or transferred the information in conjunction with a transfer of functions, to the appropriate federal

agency exercising original classification authority with respect to the same subject, for review and disposition in accordance with Executive Order 12356 and that agency's regulations and guidelines.

(b) *Exceptional cases.* When an employee or contractor of the Commission originates information that is believed to require classification, the Executive Director shall ensure that it is protected in accordance with Executive Order 12356 and shall promptly transmit it under appropriate safeguards to the agency with appropriate subject matter jurisdiction and classification authority for review and action in accordance with the Order and that agency's regulations and guidelines.

(c) *Derivative classification.* Derivative classification markings shall be applied to information that is in substance the same as information that is already classified, in accordance with Executive Order 12356, Section 2-1, unless it is determined through inquiries made to the originators of the classified information or other appropriate persons that the paraphrasing, restating, or summarizing of the classified information obviates the need for its classification, in which case the information shall be issued as unclassified or shall be marked appropriately. After verifying the current level of classification so far as practicable, paper copies of such derivatively classified information shall be marked so as to indicate:

(1) The source of the original classification;

(2) The identity of the Commission employee originating the derivatively classified document;

(3) The dates or events for declassification or review for declassification indicated on the classified source material; and

(4) Any additional authorized markings appearing on the source material.

(d) *Handling.* All classified documents shall be delivered to the Executive Director or his designee immediately upon receipt. All potential recipients of such documents shall be advised of the names of such designees and updated information as necessary. In the event that the Executive Director or his designee is not available to receive

such documents, they shall be turned over to the Administrative Officer and secured, unopened, in the combination safe located in the Commission offices until the Executive Director or his designee is available. Under no circumstances shall classified materials that cannot be delivered to the Executive Director or his designee be stored other than in the designated safe.

(e) *Reproduction.* Reproduction of classified material shall take place only in accordance with Executive Order 12356, its implementing directives, and any limitations imposed by the originator. Should copies be made, they are subject to the same controls as the original document. Records showing the number and distribution of copies shall be maintained, where required by the Executive Order, by the Administrative Officer and the log stored with the original documents. These measures shall not restrict reproduction for the purposes of mandatory review.

(f) *Storage.* All classified documents shall be stored in the combination safe located in the Commission's offices. The combination shall be changed as required by ISOO Directive No. 1, dated June 23, 1982. The combination shall be known only to the Executive Director and his designees with the appropriate security clearance.

(g) *Employee education.* All employees who have been granted a security clearance and who have occasion to handle classified materials shall be advised of handling, reproduction, and storage procedures and shall be required to review Executive Order 12356 and appropriate ISOO directives. This shall be effected by a memorandum to all affected employees at the time these procedures are implemented. New employees will be instructed in procedures as they enter employment with the Commission.

(h) *Agency terminology.* The use of the terms *Top Secret*, *Secret*, and *Confidential* shall be limited to materials classified for national security purposes.
