

Fishery Conservation and Management

§ 648.100

in-season framework adjustment process, specified in paragraphs (a) and (b) of this section, in the second fishing year following the fishing year in which the ACL overage occurred.

(ii) *NMFS action.* If the Councils fail to take appropriate action to correct an ACL overage consistent with paragraph (d)(1)(i) of this section, the Regional Administrator shall implement the required adjustment, as described in paragraph (d)(2)(i) of this section, including the specification of DAS and trip limits using a formulaic approach developed by the PDT, in accordance with the Administrative Procedure Act and other applicable law. Notification of the proposed ACL revision and DAS and/or trip limit adjustments shall be published in the FEDERAL REGISTER no later than January 1, if possible, for implementation on May 1 of the second fishing year following the fishing year in which the ACL overage occurred.

(e) *Emergency action.* Nothing in this section is meant to derogate from the authority of the Secretary to take emergency action under section 305(c) of the Magnuson-Stevens Act.

[76 FR 30274, May 25, 2011, as amended at 76 FR 81849, Dec. 29, 2011; 80 FR 37196, June 30, 2015]

§ 648.97 Closed areas.

(a) *Oceanographer Canyon Closed Area.* No fishing vessel or person on a fishing vessel may enter, fish, or be in the area known as Oceanographer Canyon Closed Area (copies of a chart depicting this area are available from the Regional Administrator upon request), as defined by straight lines connecting the following points in the order stated, while on a monkfish DAS:

OCEANOGRAPHER CANYON CLOSED AREA

Point	N. Lat.	W. Long.
(1) OC1	40°10'	68°12'
(2) OC2	40°24'	68°09'
(3) OC3	40°24'	68°08'
(4) OC4	40°10'	67°59'
(5) OC1	40°10'	68°12'

(b) *Lydonia Canyon Closed Area.* No fishing vessel or person on a fishing vessel may enter, fish, or be in the area known as Lydonia Canyon Closed Area (copies of a chart depicting this area are available from the Regional Ad-

ministrator upon request), as defined by straight lines connecting the following points in the order stated, while on a monkfish DAS:

LYNDONIA CANYON CLOSED AREA

Point	N. Lat.	W. Long.
(1) LC1	40°16'	67°34'
(2) LC2	40°16'	67°42'
(3) LC3	40°20'	67°43'
(4) LC4	40°27'	67°40'
(5) LC5	40°27'	67°38'
(6) LC1	40°16'	67°34'

Subpart G—Management Measures for the Summer Flounder Fisheries

§ 648.100 Summer flounder Annual Catch Limit (ACL).

(a) *Annual catch limits.* The Monitoring Committee shall recommend to the MAFMC separate ACLs for the commercial and recreational summer flounder fisheries, the sum total of which shall be equal to the ABC recommended by the SSC.

(1) *Sector allocations.* The commercial and recreational fishing sector ACLs will be established based on the allocations defined in the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP).

(2) *Periodicity.* The summer flounder commercial and recreational sector ACLs may be established on an annual basis for up to 3 years at a time, dependent on whether the SSC provides single or multiple year ABC recommendations.

(b) *Performance review.* The Monitoring Committee shall conduct a detailed review of fishery performance relative to the sector ACLs at least every 5 years.

(1) If one or both of the sector-specific ACLs is exceeded with a frequency greater than 25 percent (*i.e.*, more than once in 4 years or any 2 consecutive years), the Monitoring Committee will review fishery performance information and consider whether changes in measures are needed.

(2) The MAFMC may specify more frequent or more specific ACL performance review criteria as part of a stock

§ 648.101

50 CFR Ch. VI (10–1–23 Edition)

rebuilding plan following a determination that the summer flounder stock has become overfished.

(3) Performance reviews shall not substitute for annual reviews that occur to ascertain if prior year ACLs have been exceeded but may be conducted in conjunction with such reviews.

[76 FR 60626, Sept. 29, 2011, as amended at 87 FR 68929, Nov. 17, 2022; 88 FR 14507, Mar. 9, 2023]

§ 648.101 Summer flounder Annual Catch Target (ACT).

(a) *Annual catch target.* The Monitoring Committee shall identify and review the relevant sources of management uncertainty to recommend ACTs for the commercial and recreational fishing sectors as part of the summer flounder specification process. The Monitoring Committee recommendations shall identify the specific sources of management uncertainty that were considered, technical approaches to mitigating these sources of uncertainty, and any additional relevant information considered in the ACT recommendation process.

(1) *Sectors.* Commercial and recreational specific ACTs shall be less than or equal to the sector-specific ACLs. The Monitoring Committee shall recommend any reduction in catch necessary to address sector-specific management uncertainty, consistent with this paragraph (a).

(2) *Periodicity.* ACTs may be established on an annual basis for up to 3 years at a time, dependent on whether the SSC provides single or multiple year ABC recommendations.

(b) *Performance review.* The Monitoring Committee shall conduct a detailed review of fishery performance relative to ACTs in conjunction with any ACL performance review, as outlined in § 648.100(b)(1) through (3).

[76 FR 60626, Sept. 29, 2011, as amended at 88 FR 14507, Mar. 9, 2023]

§ 648.102 Summer flounder specifications.

(a) *Commercial quota, recreational landing limits, research set-asides, and other specification measures.* The Monitoring Committee shall recommend to the MAFMC, through the specifications

process, for use in conjunction with each ACL and ACT, a sector-specific research set-aside, estimates of sector-related discards, a recreational harvest limit, and a commercial quota, along with other measures, as needed to prevent overages of the applicable specified limits or targets for each sector, as prescribed in the FMP. The measures to be considered by the Monitoring Committee are:

(1) Research quota set from a range of 0 to 3 percent of the allowable landings level for both the commercial and recreational sectors.

(2) Commercial minimum fish size.

(3) Minimum mesh size.

(4) Restrictions on gear other than otter trawls.

(5) Adjustments to the exempted area boundary and season specified in § 648.108(b)(1) by 30-minute intervals of latitude and longitude and 2-week intervals, respectively, based on data reviewed by Summer Flounder Monitoring Committee during the specification process, to prevent discarding of sublegal sized summer flounder in excess of 10 percent, by weight.

(6) Recreational possession limit set from a range of 0 to 15 summer flounder.

(7) Recreational minimum and/or maximum fish size.

(8) Recreational season.

(9) Recreational state conservation equivalent and precautionary default measures utilizing possession limits, minimum fish sizes, and/or seasons set after reductions for research quota.

(10) Changes, as appropriate, to the SBRM, including the CV-based performance standard, the means by which discard data are collected/obtained, fishery stratification, the process for prioritizing observer sea-day allocations, reports, and/or industry-funded observers or observer set aside programs.

(11) Modification of existing accountability measures and ACT control rules utilized by the Monitoring Committee.

(b) *Specification fishing measures.* The MAFMC shall review the recommendations of the Monitoring Committee and, based on the recommendations and any public comment, recommend to the Regional Administrator measures that are projected to constrain the
